2. *Delegations of authority to the Commissioner of Social Security.* Except as provided in paragraph 3 of this section and Part 2 and section 8–D of this Statement, the Commissioner of Social Security shall exercise:

a. The functions vested in the Secretary under Title II of the Social Security Act, as amended (42 U.S.C. 401–428); under Titles VII and XI of the Act, as amended (42 U.S.C. 902–907, 1301–1318), except insofar as the provisions of such Titles pertain to the Mission of the Welfare Administration as described in Part 9 of this Statement; under Title XVIII of the Act, as amended (42 U.S.C. 1395–1395*ll*), with appropriate advice from and consultation with the Public Health Service and Welfare Administration as described in Part 1 of this Statement; section 1110 of the Social Security Act, as amended (42 U.S.C. 1310), insofar as such section pertains to the Mission of the Social Security Administration as described in section 8–A of this Statement; and under sections 1402(h), 3121 (k) and (l) of the Internal Revenue Code of 1954, as amended (26 U.S.C. 1402(h), 3121 (k) and (l)).

b. The functions vested in the Secretary relating to the Mission of the Social Security Administration, as described in section 8–A of this Statement, under the Social Security Act which are not contained in the Act but which are contained in the Acts cited in Exhibit X8–2.

c. The functions vested in the Secretary by section 5(k)(2) of the Railroad Retirement Act, as amended (45 U.S.C. 228e), having to do with the determination and certification for the transfer of funds between the Federal Old-Age and Survivors Insurance Trust Fund, the Federal Disability Insurance Trust Fund, the Federal Hospital Insurance Trust Fund, and the Railroad Retirement Account.

d. Authority vested in the Secretary by letter dated September 1, 1960, to the Secretary of the Treasury from the Director, Bureau of the Budget, authorizing the carrying out of programs under section 104(k) of the Agricultural Trade Development and Assistance Act of 1954, as amended, insofar as this authority pertains to the Mission of the Social Security Administration as described in section 8–A of this Statement: *Provided*, That this authority shall be exercised in accordance with applicable policies and procedures established by appropriate authorities to ensure consistency with basic foreign policy and with related Federal programs.

e. Authority vested in the Secretary by section 4 of Public Law 86–610, approved July 12, 1960 (74 Stat. 364), with respect to responsibilities relating to the Mission of the Social Security Administration as described in section 8–A of this Statement: *Provided*, That this authority shall be exercised in accordance with applicable policies and procedures established by appropriate authorities to ensure consistency with basic foreign policy and with related Federal programs.

3. *Delegations of authority to the Bureau of Hearings and Appeals.* In accordance with applicable rules and regulations, the Appeals Council, its members, and Hearing Examiners in the Bureau of Hearings and Appeals, shall exercise all duties, powers, and functions of the Secretary relating to the holding of hearings, the administration of oaths and affirmations, the issuance of subpoenas, the examination of witnesses, the receipt of evidence, the rendition of decisions, and the review of decisions in connection with administrative appeals:

a. By individuals from determinations made under Title II of the Social Security Act, as amended, and affecting their rights to benefits, lump sum payments, earnings credited to accounts, and disability determinations;

b. By individuals from determinations made under Title XVIII of the Social Security Act and affecting their rights to, and amounts of, benefits;

c. By institutions or agencies from determinations described in section 1869 (c) of the Social Security Act; and

d. By independent laboratories from determinations made pursuant to section 1861(s) of the Social Security Act, as amended, that they do not meet the conditions for coverage of their services.

4. *Delegations of authority to the Bureau of Federal Credit Unions.* The functions, powers, and duties of the Bureau of Federal Credit Unions under the Federal Credit Union Act, as amended (Public Law 86–354; 12 U.S.C. 1751–1772), shall be exercised by the Director of the Bureau of Federal Credit Unions under the general direction and supervision of the Commissioner of Social Security.

8–D *Reservation of authority.* 1. The Secretary shall serve as a member of the Board of Trustees of the (1) Federal Old-Age and Survivors Insurance Trust Fund, (2) Federal Disability Insurance Trust Fund, (3) Federal Hospital Insurance Trust Fund, and (4) Federal Supplementary Medical Insurance Trust Fund. During the absence of the Secretary, the Under Secretary or the Assistant Secretary for Legislation shall serve. During the absence or disability of the Secretary, the Under Secretary, and the Assistant Secretary for Legislation, the Commissioner of Social Security shall represent the Secretary.

2. Authority conferred by sections 218 (j), 706, 1813(b)(2), 1839(b)(2), 1867, and 1868 of the Social Security Act, as amended, shall be exercised only by the Secretary.

3. Authority to terminate agreements with States entered into pursuant to section 1864 of the Social Security Act, as amended, shall be exercised only by the Secretary.

4. Authority contained in subparagraph 8–C2c of this Statement may be redelegated only to the Deputy Commissioner of Social Security.

5. Authority conferred by section 218 (g)(2) of the Social Security Act, as amended, shall be exercised only by the Commissioner and Deputy Commissioner of Social Security. Notwithstanding such limitation, the Commissioner may redelegate the authority to terminate an agreement with respect to one or more coverage groups in any case where a State waives the required notice and hearing provided in section 218(g)(2) of the Act, as amended, and consents to the removal of a group or groups from the agreement because the group(s) is dissolved, or is no longer legally able to function although not legally dissolved.

6. Authority conferred by section 218 (s) of the Social Security Act, as amended, shall be exercised only by the Commissioner of Social Security. Notwithstanding such limitation, the Commissioner may redelegate the authority to grant, upon application by a State and for "good cause" shown, extensions of the time allowed for filing additional information or argument in connection with a request for review filed pursuant to section 218(s).

7. Authority conferred by section 1866 (d) of the Social Security Act, as amended, to withhold payment for inpatient hospital services or for post-hospital extended care services for failure to make timely utilization reviews, shall be exercised only by the Commissioner and Deputy Commissioner of Social Security.

8. Authority conferred by sections 1816 (b) and 1842(b)(2) of the Social Security Act, as amended, where the determination is that an agency, organization, or carrier will be unable to carry out the terms of an agreement (contract), shall be exercised only by the Commissioner of Social Security.

9. Authority conferred by sections 1816(e)(2) and 1842(b)(4) to terminate an agreement (contract) with an agency, organization, or carrier shall be exercised only by the Commissioner of Social Security, *Provided further*, That he shall exercise such authority only after—

a. Such agency, organization, or carrier has been given an opportunity to request (within such time as is provided for by regulations) the Secretary to review the Commissioner's conclusions and findings and, where such request is made

b. The Secretary has declined to review or has concurred in the Commissioner's proposal to terminate such agreement (contract).

10. Agreements and modifications of agreements under sections 218, 221(b), 1816(a), 1842(a), 1843(a), 1864(a), 1866(a), or 1874 of the Social Security Act, as amended, shall be reviewed by the Office of the General Counsel for legal form and substance.

8–E *Redelegation of authority.* Unless otherwise stated, authority delegated in section 8–C of this statement may be redelegated.

Secretary.

[F.R. Doc. 67-8915; Filed, July 14, 1967; 8:45 a.m.]

Office of the Secretary

SAINT ELIZABETHS HOSPITAL

Statement of Organization, Functions, and Delegations of Authority

The following statement supersedes all previous material issued in Part 14 (Saint Elizabeths Hospital) of the Statement of Delegations of Authority for the Department of Health, Education, and Welfare.

14-A *Mission.* Saint Elizabeths Hospital is responsible for providing appropriate treatment for the mentally ill, for mental health training programs for professional and other personnel, and for research in mental health.

14-B *Organization and functions.* Saint Elizabeths Hospital is administered by the Superintendent under the direction of the Secretary. It consists of the following major components:

Office of the Superintendent: Manages and directs the activities of Saint Elizabeths Hospital.

Behavioral and Clinical Studies Research Center: Coordinates and directs research activities.

Division of Administration: Performs all nonmedical activities, including business management, construction, management improvement, maintenance, dietary, and industrial.

Division of Medical Services: Provides complete psychiatric care for various categories of mentally ill patients and general medical and surgical treatment for all patients. Provides administrative management and paramedical activities. The paramedical activities include providing complete nursing care of all patients; compiling and issuing biometric data; providing for the spiritual and religious welfare of patients; providing laboratory services; maintaining medical records; providing psychological services including personality, speech and hearing evaluations and treatment; conducting psychodrama, dance therapy, occupational and recreational therapy programs; implementing sanitation measures; providing social service facilities; providing educational and rehabilitation programs; conducting a volunteer worker program; and conducting a training and rehabilitation program for patients under 18 years of age.

Professional Training and Education Division: Formulates training program policies, and directs the psychiatric residency training program. Coordinates other medical and paramedical professional educational programs.

Cruvant Division: Furnishes treatment and care in an intermediate security setting to male and female patients.

Dix Division: Furnishes treatment and care for male and female patients under 70 years of age at the time of admission.

Geriatric Division: Furnishes treatment and care for patients age 70 or older at the time of admission.

John Howard Division: Furnishes treatment and care for male patients in a maximum security setting.

Que Division: Furnishes treatment and care for male and female patients under 70 years of age at the time of admission.

Richardson Division: Furnishes treatment and care for male and female patients under 70 years of age at the time of admission.

West Lodge Division: Furnishes treatment and care for male and female patients under 70 years of age at the time of admission.

West Side Division: Furnishes treatment and care for male patients, including some admitted as a result of criminal proceedings. Intermediate security facilities are utilized for certain patients.

W. A. White Division: Furnishes treatment and care for male and female patients of all ages.

14-C *Delegations of authority.* 1. Order of Succession: During the absence or disability of the Superintendent or in the event of a vacancy in that office, the Assistant Superintendent will act as Superintendent. During the absence or disability of the Superintendent and Assistant Superintendent, or in the event of a simultaneous vacancy in the offices of Superintendent and Assistant Superintendent, the First Assistant Physician will act as Superintendent.

During the absence, disability or vacancy in the office of Superintendent, Assistant Superintendent, and First Assistant Physician, the Clinical Director who is senior according to the date of his appointment as Clinical Director, will act as Superintendent. In the event of equal seniority between Clinical Directors, seniority as to date of appointment to the Hospital will govern.

During the absence or disability of the Superintendent, or in the event of a vacancy in that office, the Acting Superintendent, serving in accordance with the prescribed order of succession, will perform all functions and exercise all authority of the Superintendent.

2. Except as provided in Chapter 2-000 the Superintendent of Saint Elizabeths Hospital will exercise all of the functions transferred to the Department by section 11(a), Reorganization Plan No. IV, and Reorganization Plan No. 1 of 1953.

3. The Superintendent of Saint Elizabeths Hospital, by delegation of the Secretary, will exercise the functions vested in the Secretary by the Act of June 21, 1950 (P.L. 569, 81st Congress), as amended (37 USC 354), relating to the appointment of boards of physicians under the Superintendent's jurisdiction, to determine the mental competency of members of the uniformed services being provided medical treatment at Saint Elizabeths Hospital.

14-D *Redelegation of authority.* Unless otherwise restricted, authority contained in section 14-C may be redelegated by the Superintendent to such officials of Saint Elizabeths Hospital as he may deem appropriate.

14-E *Location.* Saint Elizabeths Hospital is located at 2700 Nichols Avenue SE., Washington, D.C. 20032.

Dated: July 8, 1967.

WILBUR J. COHEN,
Acting Secretary.

[F.R. Doc. 67-8189; Filed, July 14, 1967; 8:46 a.m.]

VOCATIONAL REHABILITATION ADMINISTRATION

Statement of Organization, Functions, and Delegations of Authority

"The following statement supersedes all previous material issued in Part 12 (Vocational Rehabilitation Administration) of the Statement of Organization and Delegations of Authority for the Department of Health, Education, and Welfare."

12-A *Mission.* 1. The Vocational Rehabilitation Administration is the focal point in the Department of Health, Education, and Welfare for the administration of programs to support and increase the vocational rehabilitation of disabled persons and their greater utilization in suitable employment, and to eliminate or minimize obstacles to this objective.

2. The Vocational Rehabilitation Administration administers programs of grants to States in support of the Federal-State rehabilitation program; intramural and extramural research and demonstration programs to expand knowledge and advance practice in rehabilitation; training grant programs to increase the supply of professionally trained rehabilitation personnel; an international program in rehabilitation research, research training, the interchange of rehabilitation experts, and the training of foreign nationals in rehabilitation techniques; grants for the construction, alteration, expansion, equipment and initial staffing of rehabilitation facilities and workshops; grant programs and supporting service activities for the improvement of workshops for the handicapped; grants for service projects to expand the number of disabled people rehabilitated; grants to assist States in planning activities in rehabilitation; the operation of a data system for furnishing information on rehabilitation programs and activities; and grants in support of the national study of manpower problems in correctional rehabilitation.

3. The Vocational Rehabilitation Administration also administers the Randolph-Sheppard Act under which blind persons are licensed to operate vending stands on Federal and other property.

4. The Vocational Rehabilitation Administration cooperates with the Social Security Administration in making disability determinations under the Social Security Act and in providing vocational rehabilitation services to disabled beneficiaries; with the Bureau of Employees' Compensation, Department of Labor, in providing rehabilitation services for disabled Federal employees; and with the Public Health Service in administering grants for the construction of rehabilitation facilities under the Medical Facilities Survey and Construction Act.

12-B *Organization and functions.* 1. Office of the Commissioner: Responsible to the Secretary of Health, Education, and Welfare for directing the programs of the Vocational Rehabilitation Administration. Determines policy and program objectives. Provides program leadership and maintains relationships with Federal, State, International and Professional agencies and organizations. Directs and coordinates program planning activities.

Deputy Commissioner: Collaborates and shares responsibility for the general direction and supervision of all activities and operations of the Vocational Rehabilitation Administration and acts for the Commissioner in her absence.

Special Assistant for Civil Rights: Develops and administers the Vocational Rehabilitation Administration program

of compliance with Title VI of the Civil Rights Act and the implementing departmental regulation and with EO No. 11246.

2. Assistant Commissioner, Legislation and Public Affairs: Administers the legislative and the public information and reports programs of the Vocational Rehabilitation Record," and prepares other conduct of special staff projects involving broad questions of agency policy.

Publications and Reports Staff: Publishes the agency magazine, "The Rehabilitation Record," and prepares other special publications for increasing public and professional understanding of rehabilitation. Prepares annual and other reports of the programs of the Vocational Rehabilitation Administration. Prepares press releases and other public information announcements covering the vocational rehabilitation program. Assists State Vocational rehabilitation agencies in conducting their information programs. Develops and directs the use of visual aids, exhibits and related materials for general educational purposes and on special phases of rehabilitation. Coordinates and cooperates with the Office of Public Information, Office of the Secretary.

Legislative Staff: Develops the Vocational Rehabilitation Administration's legislative programs. Coordinates legislative proposals effecting vocational rehabilitation, collaborates with Federal and voluntary agencies and congressional committees in developing policy and positions on proposed legislation.

3. Assistant Commissioner for Administration: Advises and assists the Commissioner by providing leadership in the development of administrative policies to carry out program objectives; represents VRA in administration within the Department and with other Federal agencies; provides broad leadership in the statistical analysis of VRA programs; directs and coordinates operations of divisions under jurisdiction; collaborates with the Commissioner and Assistant Commissioners in all program plans and policies, including program objectives.

Division of Budget and Fiscal Operations: Develops, prepares and coordinates budget estimates and plans and participates in presentation of these estimates in departmental hearings, and hearings before the Bureau of the Budget and the Congress; advises the Assistant Commissioner for Administration on the apportionment and allotment of funds; directs the administrative control of funds; develops and maintains fiscal controls and cost data to evaluate programmed activities throughout the year; directs all accounting and audit functions and the preparation of financial reports.

Division of Personnel and Management Services: Participates in the development of departmental policies, standards and procedures in the fields of personnel management and management services; directs personnel management operations (including recruitment and placement, classification, training, security, conduct of CSC professional examinations, performance evaluation, staffing, appointment and employee relation activities); directs organization and methods, management planning and improvement, records, space, procurement, printing and distribution, leave and retirement matters and other office services; conducts management surveys to achieve maximum utilization of personnel and the application of efficient methods of operation; provides technical advisory services in all areas of personnel management and general administration to both central and regional office staff. Provides services as Contract Officer for VRA, for all appropriations, including research and training. Provides leadership and coordinates the Department's program for placement of the physically handicapped within the Department.

Division of Statistics and Studies: Plans, conducts, evaluates, and coordinates the statistical analysis of program operations in the States; develops methods for collecting and analyzing statistical data on State program operations and on the research and training programs, for use in developing long-range program plans; furnishes consultative services to State agencies in developing studies and improving State statistical reporting systems; collects, analyzes and publishes nation-wide data on program services; conducts special studies in health, disabilities, employment and other fields related to rehabilitation and cooperates with other agencies in conducting projects in these areas; provides consultation to VRA staff on statistical research problems. Operates a national rehabilitation data service, using automated data equipment, to collect, store, analyze, retrieve, and disseminate information on all VRA programs, as a service to agencies and individuals.

4. Associate Commissioner, Research and Training: Provides national leadership in the development of the research, research fellowships, demonstrations, training, research and training centers, international research and correctional manpower training programs; plans and conducts direct research in both medical and nonmedical areas of the program. Directs divisions under jurisdiction; collaborates with Commissioner and Assistant Commissioners in all program plans and policies, including program objectives.

Division of Research and Demonstrations: Directs and promotes a nationwide program of research and demonstrations, to solve specific problems in the rehabilitation and adjustment of disabled persons; provides research grants to public and private nonprofit institutions, with the assistance of the National Advisory Council on Vocational Rehabilitation; provides research fellowships to individuals and training of professional staff in research methods and techniques. Develops policies, regulations and procedures covering these operations. Plans, develops and conducts nation-wide research activities in both the medical and nonmedical areas of the program. Directs the evaluation, interpretation and application of direct research findings to the rehabilitation of disabled persons. Maintains relationships with public and private agencies to keep abreast with current developments in related research areas; develops research resources and program priorities to meet urgent program needs.

Division of Research and Training Centers: Carries nation-wide responsibility for the establishment of special centers for research and training in rehabilitation. Coordinates large-scale programs in universities and related settings for research and training identified with the rehabilitation of the chronically ill and disabled. Provides grants for research, training and client services. Formulates policies and procedures covering Research and Training Center operations. Encourages research to meet specific program problems in these centers. Promotes training programs of all types in these centers—professional and technical—for graduate and undergraduate students, working in any of the professions engaged in rehabilitation. Provides funds to support patient and client services for clinical research and/or training in these centers. Maintains relationships with national agencies and professional organizations. Develops research and training priorities to meet specific program goals.

Division of Training: Directs and promotes a nation-wide program of training personnel for rehabilitation services; provides teaching and traineeship grants to public and voluntary nonprofit agencies and educational institutions conducting basic or advanced preparation of personnel in all professional fields related to the rehabilitation of physically or mentally disabled persons; formulates program policies and procedures governing administration of training grants; provides support for continuing education of personnel in all professional fields and staff development programs of State vocational rehabilitation agencies; stimulates the development and exchange of teaching materials; directs the evaluation of the effects of training programs and research into the nature and size of the needs for training; encourages research into methods of improving the preparation of personnel; maintains cooperative relationships with national agencies and professional associations concerned with recruitment, curriculum design, training and continuing education and with public and voluntary agencies for the purpose of keeping abreast of current developments in research and training.

Division of International Rehabilitation Activities: Administers programs for international rehabilitation research and the interchange of research scientists and experts, under authority of the Agricultural Trade Development and Assistance Act of 1954, P.L. 480, section 104(k) and the International Health Research Act of 1960, P.L. 86-610. Works with Department of State and appropriate American Embassies to insure that programs are in agreement with U.S. foreign policy. Develops program policies, standards and procedures covering submission of applications, review and approval of grants to nonprofit institutions in participating foreign countries for research in rehabilitation; provides awards for the interchange between the United States and foreign countries of research scientists and experts; and reviews and evaluates progress reports of project operations. Conducts training programs for nationals of other countries in U.S. methods and techniques for rehabilitating disabled persons. Evaluates policy statements and program proposals of the U.N. Social Commission and related agenices. Collaborates with public and private nonprofit national and international organizations in developing their international rehabilitation activities. Collects and disseminates scientific and technological information in rehabilitation for use abroad.

Division of Grants Management: Formulates fiscal plans, policies and procedures covering grant operations for Research and Demonstrations, Training, Research and Training Centers and International Research, as well as Research Fellowships. Furnishes consultative services to grantees on grants management. Directs the project referral system, which assigns applications to appropriate divisions for review. Directs grant financing activities. Reviews all expenditure reports. Develops audit policies and standards. Maintains liaison with Department in the audit of grants and resolving exceptions. Assists in development of the Annual Federal budget. Furnishes basic operating statistics to appropriate division as needed.

5. Associate Commissioner, Program Services: Provides national leadership in the development of Federal-State programs of vocational rehabilitation; directs divisions under jurisdiction; collaborates with Commissioner and Assistant Commissioners in all program plans and policies, including program objectives.

Division of State Program Administration: Formulates nationwide plans, policies and procedures on the development and improvement of State program services and operations, including statewide planning and rehabilitation of Social Security beneficiaries. Develops policies and standards for the determination of rehabilitation potential. Furnishes consultative services in these areas. Evaluates the effectiveness of State program operations. Directs State agency surveys. Maintains effective relationship with public and private agencies.

Division of Services to the Blind: Administers the Randolph-Sheppard Act Vending Stand Program and the Business Enterprises Program for blind persons; collaborates with Federal agencies and State licensing agencies in the development of additional vending stands and other employment opportunities for the blind; plans and directs advisory and consultative services of professional staff in such areas as guidance, training and placement (industrial, rural, service occupations, and professional); formulates policies, standards and procedures in these areas; initiates short and long-term training programs and directs in-service training programs for State professional personnel in prevocational and adjustment services, and professional occupations; maintains cooperative relationships with national, public, voluntary and professional organizations concerned with the welfare of blind persons; collaborates in the formulation of policies, standards and procedures required in the rehabilitation of the blind in rehabilitation facilities and workshops. Provides consultative services to appropriate State and voluntary organizations.

Division of State Plans, Projects and Grants: Plans, develops and establishes policies and standards covering State Plans for vocational rehabilitation and State grant administration; develops policies, standards and procedures covering the development of expansion and innovation projects and specialized vocational rehabilitation programs in political subdivisions and other related State projects; studies and advises on formulas for allotting funds, State expenditures and the financial management of State programs; allots, controls and certifies grants to State agencies under sections 2 and 3 of the Vocational Rehabilitation Act, as amended, as well as SSA trust funds; directs the administration and fiscal operations of the expansion grant program; directs fiscal operations covering statewide planning, including certification of payments.

Division of Rehabilitation Facilities and Workshops: Directs the administration of the rehabilitation facilities and workshops programs. Develops policies, standards and procedures covering the establishment and operation of rehabilitation facilities, sheltered workshops, half-way houses, special facilities for the deaf, blind, mentally retarded and other disability groups, as provided for in the VR Act as amended, P.L. 83-482, P.L. 88-164, and P.L. 87-395. Provides staff assistance and Secretariat to the National Policy and Performance Council and National Commission on Architectural Barriers. Collaborates with the PHS in the review and approval of projects governing the establishment of rehabilitation facilities. Provides consultative services in above areas. Directs fiscal operations involving certification of grants for construction, workshop improvement, training services and technical assistance of rehabilitation facilities and workshops. Maintains relationships with national, public voluntary and professional organizations concerned with the development and operation of rehabilitation facilities.

Division of Disability Services: Provides national leadership in the development and improvement of vocational rehabilitation services and techniques in such severe disabilities as mental illness, mental retardation, alcoholism, narcotic addiction, heart disease, cancer, stroke, epilepsy, deafness and other communicative disorders, and in selected program areas such as correctional rehabilitation, rehabilitation of the aging disabled and rehabilitation of handicapped youth. Provides technical consultation in these areas. Collaborates in the formulation of nation-wide policies, standards and procedures for program services, identification of training needs in specific disciplines and in the development and implementation of training programs to meet these needs; stimulates project activities designed to provide new knowledge or demonstrate sound rehabilitation practices. Collaborates in the development of policies, standards and services required by the above groups in workshops and rehabilitation facilities. Develops and maintains relationships with professional societies, voluntary groups, and other governmental agencies.

6. Assistant Commissioner, Regional Operations: Represents the regional offices in development and execution of the Vocational Rehabilitation Administration policy and plans, particularly as they affect the field; through regional offices participates in the development of comprehensive evaluation of rehabilitation needs and resources in the States and participates in use of the Vocational Rehabilitation Administration staff to meet resulting defined objectives; coordinates all policy and action requests to the regional offices from all central office units and develops, in collaboration with regional offices, operating plans to carry out assigned agency objectives; supervises regional office operations including evaluation of performance and advises on trends and developments in Federal-State relations.

Regional Assistant Commissioners: Within the framework of the Department of Health, Education, and Welfare regional offices, represent the Vocational Rehabilitation Administration in all areas of program administration; provide leadership in the development of programs of vocational rehabilitation in the States; participate in development of and carry out, within the region, national policies and standards covering program services, innovation grants, expansion grants, statewide planning, rehabilitation facilities and workshops, programs for rehabilitation of Social Security disability beneficiaries and the vending stand program under the Randolph-Sheppard Act; review and evaluate State program operations; review and approve State Plan Amendments; review State budgets; promote establishment of and approve applications for rehabilitation facilities under P.L. 83-482; promote and coordinate training programs within the regions, including those for increasing supply of qualified rehabilitation personnel, State agency in-service training and other identified training needs; promote the development of research and demonstration projects and review and evaluate applications and on-going projects; consult with research and training centers and educational institutions involved in long-term training activities; provide leadership in medical aspects of the vocational rehabilitation program within the region; plan, evaluate and recommend special rehabilitation programs to meet national objectives; maintain working relationships with public and private agencies; keep Regional Director informed of major program developments and problems.

7. Assistant Commissioner, Health and Medical Affairs: Advises the Commissioner on health and medical activities. Identifies needs, and establishes objectives for stimulating action and promoting effective health services and medical care for the disabled. Evaluates and interprets the effectiveness and objective of the medical component of all programs. Maintains liaison with national and international medical groups and with voluntary agencies.

12–C *Delegation of authority.* 1. Order of Succession: In the absence of the Commissioner of Vocational Rehabilitation, the Deputy Commissioner acts for the Commissioner.

2. Except as provided in Part 2 and section 12–D the Commissioner of Vocational Rehabilitation shall exercise the:

Functions vested in the Secretary by the Vocational Rehabilitation Act, as amended (29 U.S.C. ch. 4), hereinafter referred to as the Act.

Functions of the Secretary as Chairman of the National Advisory Council on Vocational Rehabilitation and the National Advisory Council on Correctional Manpower and Training.

Functions of the Secretary under the proviso of P.L. 88–606 under the heading, Vocational Rehabilitation Administration-Research and Training, relating to the recognition of contributed funds from private sources which are earmarked for the establishment of a particular rehabilitation facility or workshop under a State plan for vocational rehabilitation services.

Functions under section 8 of the Federal Employees' Compensation Act, as amended (5 U.S.C. 759), retained in the Federal Security Administrator by Reorganization Plan No. 19 of 1950, and transferred to the Secretary by Reorganization Plan No. 1 of 1953.

Functions transferred by Reorganization Plan No. 2 of 1946 and Reorganization Plan No. 1 of 1953, to the Secretary from the Office of Education and Commissioner of Education under the Act of June 20, 1936, 49 Stat. 1550 (Randolph-Sheppard Act, 20 U.S.C. ch. 6A).

Functions vested in the Secretary by amendments to the foregoing statutes enacted subsequent to Reorganization Plan No. 1 of 1953. Authority vested in the Secretary under section 637 and 654 (a) of the Public Health Service Act, as amended, to approve applications and requests relating to rehabilitation facilities. Authority vested in the Secretary by letter dated September 1, 1960, to the Secretary of the Treasury from the Director, Bureau of the Budget, authorizing the carrying out of a program of international rehabilitation research under section 104(k) of the Agricultural Trade Development and Assistance Act of 1954, as amended (7 U.S.C. 1704(k)).

Authority vested in the Secretary by section 4 of the International Health Research Act of 1960 (P.L. 86–610, 22 U.S.C. 2102), with respect to international rehabilitation research and research training activities.

Authority vested in the Secretary by Executive Order 11001 to prepare national emergency plans and develop preparedness programs covering rehabilitation of disabled survivors. The Commissioner shall coordinate these activities with the Surgeon General in order that preemergency plans shall be developed in consonance with post-attack organizational plans and structure of the Department for the Emergency Health Service.

Operational responsibilities of the Secretary under the Agreement of Understanding between the Department of Health, Education, and Welfare and the Department of Labor for the Implementation of the Medical Services Provision of the Manpower Development and Training Act of 1962, as amended (section 202(k) of such Act, 42 U.S.C. 2582 (k)).

Authority vested in the Secretary by section 222(d) of the Social Security Act, as amended (42 U.S.C. 422(d)) to make vocational rehabilitation services more readily available to disabled individuals entitled to benefits under sections 223 and 202(d) of such act (subject to ch. I–366 of this Manual).

12–D *Reservation of Authority.* 1. The authority to appoint members to the National Advisory Council on Vocational Rehabilitation, the National Policy and Performance Council, the National Commission on Architectural Barriers to Rehabilitation of the Handicapped, and the National Advisory Council on Correctional Manpower and Training shall be exercised only by the Secretary.

2. Authority to disapprove a State plan or an amendment to a State plan submitted pursuant to the Act shall be exercised only by the Secretary.

3. Authority to disapprove an application for designation as a State licensing agency under the Act of June 30, 1936, as amended (Randolph-Sheppard Act, 20 U.S.C. ch. 6A), or to revoke a designation made pursuant to that Act, shall be exercised only by the Secretary.

4. Except as specifically authorized, only the Secretary shall exercise the authority conferred by section 5(c) of the Act.

12–E *Redelegation of authority.* Authority contained in 12–C above may be redelegated by the Commissioner to such officials of the Vocational Rehabilitation Administration as the Commissioner may deem appropriate.

OFFICE OF EDUCATION

Statement of Organization, Functions, and Delegations of Authority

The following statement supersedes all previous material issued in Part 6 (Office of Education) of the Statement of Organization, Functions, and Delegations of Authority for the Department of Health, Education, and Welfare.

6–A *Mission.* The Office of Education is responsible for providing professional and financial assistance to strengthen education in accordance with Federal laws and regulations.

6–B *Organization and functions.* The Office of Education is under the supervision and direction of the Commissioner of Education and is comprised of the following organizational components:

Office of the Commissioner: Manages and directs the affairs of the Office of Education with the aid of staff advisors and assistants, internal advisory groups, and special staff. Advises on education matters for the U.S. Government.

Office of the Deputy Commissioner: Under the general direction of the Commissioner of Education has broad delegated responsibility to act for the Commissioner on major aspects of operations. Assumes full responsibility for the duties of the Commissioner during his absence.

Office of the Associate Commissioner for Federal-State Relations: Serves as the principle advisor to the Commissioner on Federal-State relations and provides stimulus for and integration of all Office of Education programs aimed toward improving the leadership services of State educational agencies.

Office of the Associate Commissioner for International Education: Formulates overall policy for all international education programs and activities administered by the Office of Education. Coordinates such programs and activities and serves as the focal point for Office of Education relationships within the Department and with government and private agencies. Acts as secretariat with respect to Office participation in education programs of international organizations and is responsible for the recruitment of American educators for international organizations.

Office of the Associate Commissioner for Field Services: Designs, develops, and coordinates a program of support for Office of Education personnel located at the Department of Health, Education, and Welfare Regional Offices. Through the field staff, provides technical advice and assistance to State and local agencies, public and private institutions and associations which serve the national education effort. Conducts evaluation of program accomplishment in field activities, effecting improvements in consonance with the mission and policies of the Office of Education.

Office of Administration: This Office, which includes the Office of the Assistant Commissioner, plans, directs, and coordinates the administrative, financial, and personnel management programs of the Office of Education and provides a broad variety of management services. Areas of activity include management information, organization and procedures, manpower utilization, records management, budget formulation and execution; fiscal services and accounting operations; business negotiation, execution and administration of all Office contracts and project grant agreements; recruitment, placement, classification, and employee development; procurement of space and equipment, property management and control, mail and messenger services, reproduction, and publications distribution.

Office of Information: This Office, which includes the Office of the Assistant Commissioner, plans and coordinates the public information activities of the Office of Education and is the central liaison with news media and the general and educational publics. It assists with informational presentations of Office programs; produces "American Education" as a periodical recognizing the interrelated character of the levels of education and the fact that education is the public's business; provides editorial, format, graphic arts, makeup, and other professional public information services for Office publications; and represents the Commissioner of Education on matters relating to printing and publishing.

Office of Legislation: This Office, which includes the Office of the Assistant Commissioner, plans and prepares new legislation necessary to carry out the functions of and the objectives proposed for the Office of Education; coordinates the preparation of Congressional and other reports on bills relating to education; provides the Office with information regarding the content, status and progress of legislation affecting education, and coordinates suggestions for new legislation received from within the Office. Responsible for handling and conducting Congressional relations functions of the Office.

Office of Program Planning and Evaluation: This Office, which includes the Office of the Assistant Commissioner and the following two divisions, provides planning and programing for the Office of Education mission; provides guidance and coordination for planning and programing of Bureau and Staff Office missions; evaluates Office mission accomplishment; provides guidance and coordination for Bureau and Staff Office evaluations; and makes economic and other special analyses for the Joint Economic Advisors, the Office of Education Plicy Group, etc.

Division of Program Planning: Makes economic and other special analyses to shed light on educational issues necessary for planning of educational policy.

Division of Program Evaluation: Provides planning and programing support for Office missions; administers programing phases of Bureau of Budget Planning, Programing, Budgeting Systems within the Office of Education; assists in developing 5-year projections of financial and program data, and coordinates and advises on evaluation activities of the Bureau and other Staff Offices comprising the Office of Education.

Office of Equal Educational Opportunities: This Office, which includes the Office of the Assistant Commissioner, administers compliance functions in connection with the requirement that all recipients of Office of Education program funds assure the Office that such funds will be used without discrimination on the grounds of race, color, or national origin; administers grants to school districts for inservice desegregation-related training of school personnel or for the employment of desegregation specialists and arranges with institutions of higher education for the operation of institutes designed to help elementary and secondary school personnel deal with desegregation problems.

Office of Programs for the Disadvantaged: This Office, which includes the Office of the Assistant Commissioner, coordinates and provides leadership for and program data on Federal Educational programs for the disadvantaged. Works with the various components of the Office of Education in their development of program policies and procedures. Maintains close liaison among Office of Education, Office of Economic Opportunity, and other Federal agencies involved in related programs.

Office of Construction Service: This Office, which includes the Office of the Assistant Commissioner, and the following two divisions, is responsible for all phases of professional architectural/engineering service required in conjunction with the administration of Office of Education programs for construction including project development in preparation for construction, project monitoring during construction, project completion and contracting for equipment. Provides Office of Education leadership in the planning and analysis for facility development which include campus planning and facility design and equipment.

Division of Construction Support: Responsible for development of engineering policies and procedures applicable to Office of Education supported construction activity; architectural/engineering review of construction proposals; consultative services concerning contracting procedures in the preconstruction phase, inspection and completion approval of construction activity, and for certification of construction progress as a basis for payment.

Division of Facility Development: Responsible for development of educational facilities and related community planning guides; provision of consultative services to local, State, and regional planning groups; establishment of a clearinghouse of educational facilities, literature and workshop activity, and for evaluation of facilities research and initiation of new research in the facilities field.

National Center for Educational Statistics: The Center, which includes the Office of the Assistant Commissioner and the following four divisions, is responsible for developing the statistical program for the Office of Education; coordinating information gathering activities and for providing assistance in application and use of automatic data processing systems and services.

Division of Data Sources and Standards: Maintains communications with sources of educational statistics and provides leadership in development of standard terminology and reporting procedures; aids States, local school districts, and institutions of higher education in development of data processing and reporting systems, provides grants to State departments of education to improve and strengthen their educational information and statistical services.

Division of Data Processing and Data Analysis: Provides technical assistance in survey and other research activities conducted by the Office of Education. Services include questionnaire design, computer programing, provision of data processing assistance and services to internal elements of the office, and other data processing activities, and review of manuscripts for statistical accuracy.

Division of Statistical Analysis: Performs analytical statistical studies and disseminates statistics on education. Devises sampling plans for Office of Education surveys and performs validity and methodological studies to improve techniques for collecting and analysing statistical information. Furnishes reference, estimate, and projection services for all aspects of educational statistical information.

Division of Operations Analysis: Responsible for developing and maintaining a quantitative analytical model of the educational enterprise by integrating statistical information into a comprehensive structure, the principal function of which is to aid in appraising probable outcomes of significant policy or operational changes in American education. Analyzes the role of education in the life of the Nation insofar as this can be done in quantitative terms.

Bureau of Elementary and Secondary Education: Responsible for administration of a program of grants to State educational agencies, as well as other State agencies having education responsibilities, grants to local educational agencies, and institutions of higher education, and the monitoring of concomitant programs. It includes the Office of the Associate Commissioner, and the following six divisions:

Division of Plans and Supplementary Centers: Administers a program of grants to local educational agencies to establish innovative and exemplary supplementary centers and services; provides grants to State agencies pursuant to approved State plans for the acquisition of equipment, for minor remodeling and for improvement of instruction in

science, mathematics, history, civics, geography, economics, industrial arts, modern foreign languages, English or reading and fine arts and humanities; for establishment, maintenance and improvement of guidance, counseling and testing programs; for acquisition of textbooks, school library resources, and other instructional materials. Contracts with State educational agencies or institutions of higher education for projects supporting science clubs.

Division of Compensatory Education: Administers a program providing payments to State agencies for the education of educationally deprived children, and for educational programs and projects to aid handicapped, neglected and delinquent, migrant and Indian children.

Division of Educational Personnel Training: Administers a program providing grants to institutions of higher education to provide training programs to visiting foreign educators and prospective educators from underdeveloped countries; provides grants to institutions of higher education in counseling and guidance, and for improving the qualifications of teachers and supervisors in various disciplines. Arranges for interchange assignments of American and foreign teachers, and recruits American teachers for one-way assignment overseas.

Division of State Agency Cooperation: Makes grants to States pursuant to approved applications setting forth programs designed to strengthen the leadership resources of State education agencies. Also provides for the exchange of State and Federal personnel.

Teacher Corps: Administers a program concerned with strengthening the educational opportunities available to children in areas having concentrations of low-income families and the encouragement of colleges and universities to broaden their programs of teacher preparation by attracting and training qualified teachers who will be made available to local educational agencies for teaching in such areas and attracting and training inexperienced teacher-interns who will be made available for teaching and inservice training to local educational agencies in teams led by an experienced teacher.

Division of School Assistance in Federally Affected Areas: Provides grants to local educational agencies for construction, maintenance and operation of schools in areas affected by Federal activities and by disasters, and for the operation of special educational programs for Cuban refugees.

Bureau of Adult, Vocational, and Library Programs: The Bureau of Adult, Vocational, and Library Programs, which includes the Office of the Associate Commissioner, and the following four divisions, administers programs of grants to States for vocational and technical education, education programs for adults, development of public library services and construction of public library facilities and for acquisition of library resources by institutions of higher education and for training in librarianship. Administers grants for educational television broadcasting facilities and contracts with States for the conduct of adult education programs in civil defense and radiological monitoring.

Division of Vocational and Technical Education: Administers programs of grants to States for vocational and technical education and training, construction of area vocational education school facilities and ancillary services as well as work-study programs. Provides assistance in the administration of the Future Farmers of America and Future Homemakers of America.

Division of Library Services and Educational Facilities: Administers programs of grants to States for the improvement and development of public library services, for construction of public library facilities, for fostering interlibrary cooperation and for library services for State institutions and for the physically handicapped. Administers grant programs for acquisition of library materials by institutions of higher education and for training in librarianship. Also administers a grant program for educational television broadcasting facilities.

Division of Adult Education Programs: Contracts with States for the conduct of adult education programs in Civil Defense and Radiological Monitoring; administers programs of grants to States for Adult Education Programs and to State agencies for community service and continuing education programs.

Division of Manpower Development and Training: Administers program of occupational and basic educational training through State educational agencies; in public or private institutions pursuant to agreements with the States, or provides the training by agreement or contract with public or private training or educational facilities to the unemployed and underemployed who cannot be reasonably expected to secure full-time employment without such training.

Provides supplementary programs of training for unemployed and underemployed persons residing in areas designated under the Area Redevelopment Act and arranges for education and training of persons in correctional institutions who are in need thereof to obtain employment upon release. Cooperates in providing work experience and training programs for needy persons who require work experience or special family and supportive services, as well as training, in order to assist them to secure and hold regular employment in a competitive labor market.

Bureau of Higher Education: The Bureau of Higher Education, which includes the Office of the Associate Commissioner, and the following four divisions, administers a wide variety of support and assistance functions directed toward higher education.

Division of Student Financial Aid: Provides support in the establishment of student loan funds at institutions of higher education for making low interest loans to students and administers programs of insured loans to college and vocational students. Administers programs of grants for the operation of work-study programs for the part-time employment of needy college students and educational opportunity grants for exceptionally needy students.

Division of Graduate Programs: Administers a program of grants to institutions of higher education for construction of academic facilities to improve graduate schools and cooperative graduate centers. Administers a program of grants to institutions for fellowship grants to prospective elementary and secondary school and college teachers and for strengthening teacher education programs.

Division of College Facilities: Administers a program of grants to institutions of higher education primarily for the construction of undergraduate academic facilities; provides loans to institutions of higher education for the construction of undergraduate and graduate academic facilities; makes grants to land-grant colleges and universities; makes grants to colleges and universities for improvement of higher education instruction through the acquisition of instructional equipment, and equipment for closed-circuit television.

Division of College Support: Administers programs to assist in raising the quality of developing institutions, through grants and teaching fellowships, and administers a program of grants and contracts with institutions of higher education for the operation of workshops and institutes to train faculty members in the use of educational media equipment.

Bureau of Research: The Bureau of Research, which includes the Office of the Associate Commissioner, and the following five divisions, promotes the improvement of education through administration of support for systematic educational research and related activities conducted outside the Office.

Division of Adult and Vocational Research: Promotes the improvement of adult, technical, and vocational education by support of a broad spectrum of research and development activities designed to help present and prospective members of the labor force acquire the basic knowledge, skills, and personal characteristics necessary to ensure continuing and satisfying work careers. Included are experimental and pilot programs designed to meet the special vocational needs of the disadvantaged. Supports institutes and seminars to prepare teachers for new and changing occupations and to upgrade competencies of teachers already engaged in adult and vocational programs.

Division of Elementary and Secondary Research: Promotes the improvement of education through support of a variety of projects and programs in all phases of preschool, elementary, and secondary education. Activities include basic and applied research, demonstrations, curriculum improvement projects, and research related to education of particular groups.

Division of Higher Education Research: Promotes educational improvement through support of a variety of research and development activities related to all facets of higher education, from junior college through graduate school. Besides curriculum improvement and a variety of basic and applied research, activities also include comparative studies of education in foreign countries, improvement of instruction in foreign languages, and the development and use of new educational media.

Division of Research Training and Dissemination: Administers programs which provide training in educational research, and supports a variety of dissemination activities such as the Educational Research Information Center and its satellite clearinghouses and dissemination activities related to new educational media.

Division of Laboratories and Research Development: Administers support for research and development centers, generally located at major universities, where specific educational problems receive intensive and continuous attention; and for the network of educational laboratories where regional groups are concerned with systematic educational improvements of immediate or emerging concern. Administers support for construction and equipment of educational research facilities.

Bureau of Education for the Handicapped: The Bureau of Education for the Handicapped, which includes the Office of the Associate Commissioner, and the following three divisions, assists States, colleges and universities, and other institutions and agencies in meeting the educational needs of the Nation's handicapped children and youth who require special services. Administers programs of support for training for teachers and other professional personnel, grants for research, financial aid to help States initiate, expand, and improve their resources in the field of the education of the handicapped, and for operation of the Captioned Films for the Deaf Program.

Division of Research: Responsible for development and expansion of leadership activities and resources to provide improved direction and education for handicapped children. Determines new avenues for exploration in a constant search for better educational approaches for the handicapped.

Division of Training Programs: Responsible for implementing programs concerned primarily with training educational personnel to work with the handicapped. Provides leadership to various education agencies or other groups designed to stimulate the implementation and improvement of relevant training programs.

Division of Educational Services: Coordinates the implementation of Office of Education programs designed to provide direct or indirect services to the handicapped by providing leadership to educational agencies and other groups designed to stimulate the implementation and improvement of educational services to handicapped persons. Operates the Captioned Films for the Deaf Program.

6-C *Delegations of authority.* Except as provided in Part 2 (Office of the Secretary) and Section 6-D of this Manual (Reservation of Authority), the Commissioner of Education shall exercise the functions vested in or delegated to the Secretary, the Department of Health, Education, and Welfare, the Commissioner, or the Office of Education by or under the following:

1. Order of Succession: During the absence or disability of the Commissioner of Education or in the event of a vacancy in that office, the first official listed below who is available shall act as Commissioner.

a. Deputy Commissioner;

b. Associate Commissioner for Federal-State Relations;

c. Other Associate Commissioners in order of the seniority of their appointments as Associate Commissioner or, in the event of concurrent appointments, in order of the seniority of their appointments to the Office of Education;

d. Assistant Commissioner for Administration.

2. Reorganization Plan Number 1, 53 Stat. 1424, July 1, 1939, and Reorganization Plan Number 1, 67 Stat. 631, April 11, 1953; derived from the Acts of March 2, 1867, 14 Stat. 434, and July 20, 1868, 15 Stat. 92 (Establishment of Federal agency) (20 U.S.C. 1).

3. Morrill Acts (establishment of and assistance to land-grant colleges and universities); except that authority to certify funds is reserved to the Secretary (Act of July 2, 1862, 12 Stat. 503, and Act of August 30, 1890, 26 Stat. 417, as amended, 7 U.S.C. 301–329).

4. Joint Resolution No. 8, 52d Cong., approved April 12, 1892 (availability of library facilities) (27 Stat. 395, as amended, 20 U.S.C. 91).

5. Act of May 28, 1896 (publications and international education studies) (29 Stat. 171, 20 U.S.C. 3).

6. Smith-Hughes Act (vocational education) (P.L. 64–347 approved February 23, 1917, 39 Stat. 929, as amended, 20 U.S.C. 11–15, 16–28).

7. Section 8 of the Act of March 2, 1867 (inspection of Howard University) (P.L. 70–634 approved December 13, 1928, 45 Stat. 1021, as amended, 20 U.S.C. 123).

8. Section 4 of Public Law 70–831 approved February 27, 1929 (membership on D.C. Commission on Licensure) (45 Stat. 1327, as amended, 2 D.C. Code 103).

9. Extension of the Smith-Hughes Act to Puerto Rico (vocational education) (P.L. 71–791 approved March 3, 1931, 46 Stat. 1489, 20 U.S.C. 30).

10. George-Barden Act (vocational education); except the function of the Secretary in section 206(b) relating to the fixing of compensation for advisory committee members (P.L. 74–673 approved June 8, 1936, 49 Stat. 1488, as amended, 20 U.S.C. 15i–m, o–q, aa–jj, aaa–ggg).

11. Public Law 74–741 approved June 22, 1936 (studies of and reports on library services) (49 Stat. 1797, as extended).

12. Extension of the George-Barden Act to the Virgin Islands (vocational education) (P.L. 81–462 approved March 18, 1950, 64 Stat. 27, 20 U.S.C. 31–33).

13. Agreement with Housing and Home Finance Agency under Title IV of the Housing Act of 1950 (college housing loans) (P.L. 81–475 approved April 20, 1950, 64 Stat. 79, as amended, 12 U.S.C. 1749a(c)(2)).

14. Section 18 of Public Law 81–740 approved August 30, 1950 (Future Farmers of America) (64 Stat. 567, 36 U.S.C. 286).

15. Public Law 81–815 approved September 23, 1950 (assistance to federally affected areas and disaster relief areas for construction of schools) (64 Stat. 967, as amended, 20 U.S.C. 631–647).

16. Public Law 81–874 approved September 30, 1950 (assistance to federally affected areas and disaster relief areas for operation and maintenance of schools and assistance to local educational agencies for meeting the special educational needs of educationally deprived children); except the functions of the Secretary in section 203(d) relating to determinations with respect to payments under the program of aid to families with dependent children and with respect to the numbers of institutionalized neglected or delinquent children and children being supported in foster homes with public funds, and in section 212(b) relating to assistance to the National Advisory Council on the Education of Disadvantaged Children (64 Stat. 1100, as amended, 20 U.S.C. 236–244).

17. Immigration and Nationality Act (approval of schools for aliens under student visas) (P.L. 82–414 approved June 27, 1952, 66 Stat. 166, as amended, 8 U.S.C. 1101(a)(15)(F)).

18. Veterans Readjustment Assistance Act of 1952 (approval of accrediting agencies and membership on advisory committee to Administrator of Veterans Affairs) (P.L. 82–550 approved July 16, 1952, 66 Stat. 672, as amended, 38 U.S.C. 1644, 1653, 1662–1664, 1667).

19. Executive Order 10521 of March 17, 1954 (consultation with National Science Foundation on study of effects on educational institutions of Federal contracts and grants for scientific research and development).

20. Cooperative Research Act (P.L. 83–531 approved July 26, 1954, 68 Stat. 533, as amended, 20 U.S.C. 331–332(b)).

21. Public Law 83–532 approved July 26, 1954 (membership on National Advisory Committee on Education) (68 Stat. 533, 20 U.S.C. 333–337).

22. Library Services and Construction Act (P.L. 84–597 approved June 19, 1956, 70 Stat. 293, as amended, 20 U.S.C. 351–358).

23. Extension of the George-Barden Act to Guam (vocational education) (P.L. 84–896 approved August 1, 1956, 70 Stat. 909, 20 U.S.C. 34).

24. National Defense Education Act of 1958, including functions of the Secretary under section 1001(d) to study Federal programs in higher education, after initial contact has been made by the Secretary with the heads of departments and agencies concerned; except the functions of the Secretary in section 601 relating to arrangements for

language and area centers and relating to stipend payments; in sections 761 (a) and (d) relating to the approval of members of the Advisory Committee on New Educational Media and the fixing of compensation therefor, and in section 1062(a) relating to the establishment of advisory committee and the fixing of compensation therefor (P.L. 85–864 approved September 2, 1958, 72 Stat. 1581, as amended, 20 U.S.C. 401–593, 601–602).

25. Public Law 85–874 approved September 3, 1958 (membership on Board of Trustees of the John F. Kennedy Center for the Performing Arts) (72 Stat. 1695, as amended).

26. Public Law 85–905 approved September 2, 1958 (science clubs) (72 Stat. 1709, 20 U.S.C. 2 note).

27. Public Law 85–905 approved September 2, 1958 (captioned films for the deaf) 72 Stat. 1742, as amended, 42 U.S.C. 2491–2493).

28. Public Law 88–926 approved September 6, 1958 (handicapped children) (72 Stat. 1777, as amended, 20 U.S.C. 611–618).

29. Executive Order 11001 of February 16, 1962, section 56, and those portions of sections 6, 7, 9, 10, and 12 which pertain to education (preparation of national emergency plans and development of preparedness programs covering education functions and educational institutions).

30. Manpower Development and Training Act of 1962; except the responsibility for overall policy direction of the program and for coordination of program policy with those of related programs within the Department and with other departments and agencies, and authority to submit reports to Congress required by section 233 are reserved to the Secretary (P.L. 87–415 approved March 15, 1962, 76 Stat. 23, as amended, 42 U.S.C. 2571–2620).

31. Part IV of Title III of the Communications Act of 1934 (grants for construction of educational television broadcasting facilities); except that authority to establish policies for administration of the grants program, to give final approval or approval subject to specified conditions to project grants, to effect liaison with other Federal departments and agencies on matters involving policy and program coordination is reserved to the Secretary (P.L. 87–477 approved May 1, 1962, 76 Stat. 64, 47 U.S.C. 390–397).

32. Migration and Refugee Assistance Act of 1962 (Cuban refugee educational assistance); programs so assigned by the Commissioner of Welfare (P.L. 87–510 approved June 29, 1962, 76 Stat. 121, as amended, 22 U.S.C. 2601–2605).

33. Extension to American Samoa of the George-Barden Act (vocational education) and of scientific, technical, and other assistance under any program administered by the Commissioner of Education except financial assistance under a grant-in-aid program (P.L. 87–488 approved September 28, 1962, 76 Stat. 586, 48 U.S.C. 1666–1667).

34. Section 721(b) and 725(a) of the Public Health Service Act, as amended by the Health Professions Educational Assistance Act of 1963 (approval of bodies for accrediting schools of medicine, dentistry, osteopathy, pharmacy, optometry, podiatry, nursing and public health and membership on National Advisory Council on Education for Health Professions) (P.L. 88–129 approved September 24, 1963, 77 Stat. 165, as amended, 42 U.S.C. 293a(b)(1)).

35. Section 302 of the Mental Retardation Facilities and Community Mental Health Centers Construction Act of 1963 (research and demonstration projects in education of handicapped children); except the function of the Secretary in subsection (d) relating to the fixing of compensation for committee or panel members (P.L. 88–164 approved October 31, 1963, 77 Stat. 295, as amended, 20 U.S.C. 618).

36. Higher Education Facilities Act of 1963; except the functions of the Secretary in sections 208 (a) and (c) and section 408(c) relating to the approval of advisory committee members and the fixing of compensation therefor (P.L. 88–204 approved December 16, 1963, 77 Stat. 363, as amended, 20 U.S.C. 701–757).

37. Vocational Education Act of 1963; except the functions of the Secretary in sections 3 (a) and (c) relating to approval of advisory committee members and the fixing of compensation therefor and in section 12 relating to periodic review of vocational education programs and laws (P.L. 88–210 approved December 18, 1963, 77 Stat. 403, 20 U.S.C. 35–35n).

38. Executive Order 11155 of May 23, 1964 (Presidential Scholars).

39. Title IV and, with respect to programs administered by the Commissioner of Education, Title VI of the Civil Rights Act of 1964 (desegregation of public education and nondiscrimination in federally assisted programs) except that no termination of or refusal to grant or to continue Federal financial assistance under section 602 shall be made without the approval of the Secretary (P.L. 88–352 approved July 2, 1964, 78 Stat. 246, 42 U.S.C. 2000c–c9, d–d4).

40. Extension to the Trust Territory of the Pacific Islands of any program or of assistance under any program administered by the Commissioner of Education; except financial assistance under a grant-in-aid program (P.L. 88–487 approved August 22, 1964, 78 Stat. 601, 48 U.S.C. 1681).

41. Sections 841(a) and 843(f) of the Public Health Service Act as added by the Nurse Training Act of 1964 (membership on National Advisory Council on Nurse Training and approval of bodies for accrediting schools of nursing (P.L. 88–581 approved September 4, 1964, 78 Stat. 917 as amended, 42 U.S.C. 296).

42. Executive Order 11183 of October 6, 1964 (membership on and assistance to President's Commission on White House Fellowships).

43. Executive Order 11185 of October 16, 1964 (coordination of Federal education programs) as amended by Executive Order 11260 of December 15, 1965; except the functions of the Secretary thereunder.

44. Part C, Title I of the Economic Opportunity Act of 1964 (P.L. 88–452 approved August 20, 1964, 78 Stat. 513, as amended, 42 U.S.C. 2781).

45. Executive Order 11197 of February 5, 1965 (membership on President's Council on Equal Opportunity); except the functions of the Secretary thereunder.

46. Section 211 and, with respect to programs administered by the Commissioner of Education, section 214 of the Appalachian Regional Development Act of 1965 (vocational education facilities and supplements to certain grant-in-aid programs) (P.L. 89–4 approved March 9, 1965, 79 Stat. 16, 17, 40 App. A, U.S.C. 211, 214).

47. Elementary and Secondary Education Act of 1965, as amended; except the functions of the Secretary in sections 306 (a) and (c) relating to the approval of members of the Advisory Committee on Supplementary Educational Centers and Services and the fixing of compensation therefor, in section 510 relating to periodic review of the program and laws for strengthening State departments of education, and in section 702 relating to the establishment of advisory councils and the fixing of compensation therefor (P.L. 89–10 approved April 11, 1965, 79 Stat. 27; 20 U.S.C. 821–867, 871–880).

48. Sections 3(b) and 6 of the National Technical Institute for the Deaf Act (accrediting agencies and membership on National Advisory Board on Establishment of the National Technical Institute for the Deaf); except the functions of the Secretary thereunder (P.L. 89–36 approved June 8, 1965, 79 Stat. 125, 20 U.S.C. 682(b), 685).

49. Sections 9, 12, and 13 of the National Foundation on the Arts and the Humanities Act of 1965 (membership on the Federal Council on the Arts and the Humanities, and grants and loans for improving instruction in the humanities and the arts) (P.L. 89–209 approved September 29, 1965, 79 Stat. 851, 20 U.S.C. 956, 961, 962).

50. National Vocational Student Loan Insurance Act of 1965 (student loan insurance) except the functions of the Secretary prescribed by section 15 (P.L. 89–287 approved October 22, 1965, 79 Stat. 1037, 20 U.S.C. 981–986).

51. Higher Education Act of 1965 (community service programs, college library assistance and library training and research, strengthening developing institutions, student assistance, teacher programs, financial assistance for the improvement of undergraduate instruction) except the functions of the Secretary prescribed by sections 109, 205, 303, and 433 (P.L. 89–329 approved November 8, 1965, 79 Stat. 1219, 20 U.S.C. 1001–1144).

52. Adult Education Act of 1966 (adult education) (Title III of P.L. 89–750 approved November 3, 1966, 80 Stat. 1216, 20 U.S.C. 1201–1213).

53. The agreements made with the Department of State in connection with educational aspects of international educational exchange and international technical cooperation programs under:

a. Agricultural Trade Development and Assistance Act of 1954 (P.L. 83–480 approved July 10, 1954, 68 Stat. 454, as amended, 7 U.S.C. Ch. 41).

b. Act for International Development of 1961 (P.L. 87–195 approved September 4, 1961, 75 Stat. 424, as amended, 22 U.S.C. Ch. 32).

c. Mutual Educational and Cultural Exchange Act of 1961 (P.L. 87–256 approved September 21, 1961, 75 Stat. 527, as amended, 22 U.S.C. Ch. 33).

6–D *Reservation of authority.* No State grant-in-aid funds shall be withheld nor shall any State plan or amendment thereto submitted pursuant to any statute administered by the Office of Education be finally disapproved without the Commissioner's prior consultation and discussion with the Secretary.

6–E *Redelegations of authority.* Authority contained in section 6–C, except the making of regulations, may, to the extent permitted by law, be delegated or redelegated by the Commissioner of Education to such officials of the Office of Education as he may deem appropriate.

DEPARTMENT OF DEFENSE

Office of the Secretary

CARGO UNITIZATION

Use of Methods

The Assistant Secretary of Defense (Installations and Logistics) approved the following:

REFERENCES

(a) DoD Instruction 4100.14, "Uniform Preservation, Packaging, Packing and Marking of Items of Military Supply," Nov. 8, 1963.

(b) DoD Instruction 7510.4, "Uniform Policy for Charging Accessorial and/or Administrative Costs Incident to Issues, Sales, and Transfers of Materials, Supplies and Equipment," April 7, 1967.

I. *Purpose and applicability.* This Instruction provides guidance and establishes policies to be followed by the Military Departments and DoD agencies (hereinafter referred to as "DoD components") on the use of various methods of unitizing military supplies for all modes of shipment worldwide, including supplies destined for foreign government consignees under the Military Assistance Program and other international logistics programs.

II. *Scope.* This Instruction applies to all DoD components world-wide and includes but is not limited to the unitization methods (defined in Section IV below) identified as SEACON, CONEX (other than controlled humidity CONEX), Palletized Unit Loads, and Consolidation Containers.

III. *Objective of cargo unitization.* The fundamental objective of cargo unitization is to increase the speed, security, accuracy, flexibility and economy of packaging, packing, supply, storage and transportation operations by reducing miscellaneous small package shipments to homogeneous unit loads of optimum size for the direct application of mechanical handling equipment.

IV. *Definitions.* A. A Unitized Load is the assembly, into a single load, of more than one package of one or more different line items of supply in such a manner that the load can be moved in an unbroken state from source to distribution point or user as far forward in the supply system as practical. It is concerned with containerization, palletization and transportability of supplies with compatible properties normally handled by materials handling equipment.

B. CONEX (used synonymously with cargo transporter) is a reusable corrugated steel shipping container designed for world-wide surface movement and security of suitable military supplies and equipment. It is identified in the Federal Supply Catalog as FSN 8115–564–2908 for Type I (135 cubic feet bale capacity), and FSN 8115–271–7000 for Type II (295 cubic feet bale capacity).

C. SEACON is a reusable steel container (similar to CONEX) designed for use by the Department of the Navy for the movement and security of suitable military supplies and equipment. SEACON's come in three sizes: Small (150 cubic feet bale capacity), medium (200 cubic feet bale capacity) and large (295 cubic feet bale capacity). Federal Stock Numbers have not been assigned to SEACON's.

D. Palletized Unit Load is a quantity of any item or items, packaged or unpackaged, which are arranged on a pallet and securely strapped or fastened thereto so that the whole is handled as a unit.

E. Consolidation Container is a container designed to be handled with normal materials handling equipment and used to consolidate more than one line item into a single shipping container to one destination.

F. High Cost Cargo is that cargo placed within a CONEX container that has an average value of $1 or more per net pound of weight.

G. Classified Cargo is that cargo which has a security classification of confidential or higher or that cargo for which cover or concealment is mandatory.

V. *Policy.*—A. General: Maximum use will be made of unitized loads where such use will result in an overall economy to the Department of Defense as compared with other methods of shipment. Where practicable and economical the requirement for shipment by palletized and unit loads will be made a part of procurement actions for supplies and services.

B. *SEACON or CONEX:* The use of SEACON and CONEX containers will be limited to:

1. Overseas shipments of high cost cargo and classified cargo of those types of supplies which, when packed in the container, normally occupy at least 80 percent of the bale or cubic capacity of the container.

2. Commodities suitable for shipment in such containers to those geographical areas where DoD components specify the existence of an unacceptably high degree of loss or damage. For those geographical areas, and when packaging and packing level requirements permit, SEACON and CONEX containers will be filled at the overseas port of discharge for further movement to inland destinations when economically advantageous.

3. Surface shipment of military mail by ship to certain geographical areas where experience indicates the existence of an unacceptably high degree of loss, if approved by the Military Service responsible for the ocean transportation charges.

C. When it is impracticable to fill containers in the overseas port as provided for in paragraph V–B–2 above, supplies and material authorized for shipment in SEACON and CONEX will be loaded into the containers at the most economical point in the pipeline system considering all applicable costs involved.

D. Limitations as to use as stated in paragraph V–B above do not apply to:

1. Retrograde cargo movements if approved by the DoD component responsible for the ocean transportation charges.

2. Cargo movements during periods of emergency.

3. Strategic Army Corps (STRAC) requirements.

4. Use of containers by military units for shipment of Tables of Organization and Equipment material and accompanying supplies, including basic loads.

5. Unitized loads of ammunition and explosive materials prescribed for "transfer-at-sea."

6. Troop exercises.

7. Movements incident to special operations or missions.

E. Palletized Unit Loads: 1. Palletized unit loads will be used to the greatest extent possible for shipment of supplies and materials when all of the items are destined for a single CONUS or overseas destination. However, care must be exercised to insure that individual packs have compatible properties (if dangerous material is involved), and are of a size and shape to fit compactly on a pallet.

2. Palletized unit loads containing Level C or Level B packs may be sheathed with a suitable material when the load is to be shipped to an overseas destination. Palletized unit loads containing Level A packs for overseas destinations or palletized unit loads destined for CONUS installations regardless of level of pack will not be sheathed except as may be required for reasons other than packaging protection.

3. Pallets to be used for palletized unit loads in surface shipment will be the standard 40 inches by 48 inches, four-way entry, hard wood, wing type, manufactured in accordance with applicable military specifications. Palletized unit loads, although other than the aforementioned standard 40- by 48-inch pallet, may be utilized for shipments to posts, camps, stations, and bases in CONUS until such time as the DoD depot systems are purged.

4. Pallets to be used in palletized unit loads for air shipment will be the standard 463L Materials Handling Support System pallets, e.g., the 108" by 88" master pallet or the 54" by 88" half-pallet. Palletized unit loads for air shipment on other than 463L pallets will be untiered in multiples not to exceed the dimensions of 104" by 84" width and length, 42" in height and 7,000 pounds gross weight, except for ammunition which will be untiered in multiples not to exceed the dimensions of 104" by 54" width and length, 52" in height and 8,000 pounds gross weight.

F. Consolidation Containers: 1. Consolidation containers will be used for shipment of supplies and material when it is not feasible to utilize a palletized unit load, or to reduce the overall cost of the shipment. All the items, packages and packs in a consolidation container must be for a single CONUS or overseas destination. Shippers will select containers which are designed to provide protection against the type of hazards to be encountered during shipment from origin to destination. Containers utilized will be of minimum tare, cube and cost which will provide this protection.

2. Consolidation containers manufactured from materials that will result in adequate protection of supplies at the lowest overall cost to the Government in accordance with reference (a) shall be used.

VI. *Costs for unitization.* A. The costs incurred for unitization, including the cost of labor, materials, pallets and containers for palletized unit loads and consolidation container shipments, and the cost of labor and materials for SEACON and CONEX shipments, but not including the cost of the SEACON and CONEX containers themselves, will be treated as packing, handling, and crating costs and will be financed as provided in reference (b).

B. The procurement cost of SEACON and CONEX containers will be considered as an equipment cost, and will be financed by the DoD components having the equipment requirement. No Intra-DoD charges will be made for use of these containers.

C. In all cases when requested by a receiving DoD component, unit loads will be shipped by the shipping DoD component unless the shipping DoD component determines that there is no cost advantage to the Department of Defense as a whole. Cost determination will include appropriate factors, among others, for the cost of ocean transportation and stevedoring generated by the tare and cube resulting from containers and palletized unit loads. In those instances where the receiving DoD component does not accept the no cost advantage determination or if military necessity factors are considered of overriding importance, it will so advise the Assistant Secretary of Defense (Installations and Logistics).

VII. *Implementation.* DoD components will implement this Instruction and forward two copies of their implementation to the Assistant Secretary of Defense (Installations and Logistics) for approval prior to publication, within 90 days from the date of this Instruction. Such implementation shall contain the specific geographical areas referred to in paragraph V–B of this Instruction together with a statement of broad commodity categories, other than classified material, to be placed in SEACONs or CONEXs for each geographical area. Following the publication of these implementations, other geographical areas or additional commodity categories may be added by any DoD component provided the ASD (I&L) is advised of such changes within 30 days from the date of the change.

VIII. *Effective date.* This Instruction is effective immediately.

MAURICE W. ROCHE,
Director, Correspondence and Directives Division, OASD (Administration).

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[Oregon 1570]

OREGON

Notice of Proposed Classification of Public Lands

1. Pursuant to the provisions of the act of September 19, 1964 (43 U.S.C. 1413), notice is hereby given of a proposal to classify the following described public lands in Lake County, Oreg., for disposal through exchange under section 8 of the act of June 28, 1934 (48 Stat. 1272), as amended (43 U.S.C. 315g):

WILLAMETTE MERIDIAN

T. 24 S., R. 18 E.,
Sec. 31, lot 3, NE¼SW¼;
Sec. 32, E½NW¼.
T. 25 S., R. 18 E.,
Sec. 11, E½NE¼, NE¼SE¼, and fractional S½SE¼.
T. 27 S., R. 18 E.,
Sec. 13, SW¼ and W½SE¼;
Sec. 22, N½NE¼ and NE¼NW¼.
T. 27 S., R. 19 E.,
Sec. 7, lot 3, E½SW¼;
Sec. 15, NE¼;
Sec. 18, NW¼SE¼;
Sec. 20, NE¼NW¼;
Sec. 28, E½SW¼;
Sec. 29, SE¼NE¼ and SW¼SW¼;
Sec. 30, SW¼NE¼, SE¼NW¼, E½SW¼, S½SE¼, and NW¼SE¼;
Sec. 31, NE¼;
Sec. 32, W½W½, SE¼SW¼, and E½E½;
Sec. 33, W½W½ and SE¼SW¼;
Sec. 34, E½.
T. 28 S., R. 19 E.,
Sec. 13, NW¼SE¼;
Sec. 12, NW¼SW¼ and SW¼SE¼;
Sec. 14, NW¼NE¼ and S½NW¼.
T. 28 S., R. 18 E.,
Sec. 18, E½, lots 1, 2, E½NW¼, and NE¼SE¼;
Sec. 19, N½NE¼ and SE¼NE¼.
T. 28 S., R. 19 E.,
Sec. 3, SE¼SE¼.

The areas described aggregate 3,438.13 acres.

2. Classification of the above-described lands by a classification order will segregate the lands from all forms of disposal under the public land laws, including the mining laws, except as to application under section 8 of the Taylor Grazing Act (43 Stat. 1272), as amended.

3. Publication of this proposed classification order will not alter the applicability of the public land laws governing the use of the lands under lease, license, or permit, or governing disposal of their mineral and vegetative resources, other than under the mining laws.

4. For a period of 60 days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed classification may present their views in writing to the District Manager, Bureau of Land Management, Department of the Interior, 357 North L Street, Post Office Box 429, Lakeview, Oreg. 97630.

If circumstances warrant it, a public hearing will be held at a convenient time and place which will be announced.

After having considered comments received as a result of this publication and hearing if such is deemed necessary to be held, the authorized officer will classify the above-described lands, which classification shall be published in the FEDERAL REGISTER.

For the State Director.

H. MAX RAUCH,
District Manager.

ALASKA

Notice of Proposed Withdrawal and Reservation of Lands

JULY 6, 1967.

The Bureau of Indian Affairs has filed an application, Anchorage Serial No. 064482, for the withdrawal of the lands described below from all forms of appropriation. The applicant agency desires the land as a site for school buildings and adjunct facilities at Akiktok, Alaska.

For a period of 30 days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the undersigned officer of the Bureau of Land Management, 555 Cordova Street, Anchorage, Alaska 99501.

The Department's regulations, 43 CFR 2311.1–3(c), provide that the authorized officer of the Bureau of Land Management will undertake such investigations as are necessary to determine the existing and potential demand for the lands and their resources. He will also undertake negotiations with the applicant agency with the view of adjusting the application to reduce the area to the minimum essential to meet the applicant's needs, to provide for the maximum concurrent utilization of the lands for purposes other than the applicants, to eliminate lands needed for purposes more essential than the applicant's, and to reach agreement on the concurrent management of the lands and their resources.

The authorized officer will also prepare a report for consideration by the Secretary of the Interior who will determine whether the lands will be withdrawn as requested by the applicant agency.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

If circumstances warrant, a public hearing will be held at a convenient time and place, which will be announced.

The lands involved in the application are:

VILLAGE OF AKHIOK, KODIAK ISLAND, ALASKA

Beginning at Corner No. 4 of U.S. Survey No. 1118, thence S. 88°50' E. 1.68 chains to the true point of beginning; thence S. 46°26' E. 0.77 chains to a point; thence S. 88°50' E. approximately 1.80 chains to a point; thence N. 36°26' E. approximately 3.76 chains to a point; thence N. 51°37' W. 4.06 chains to a point; thence S. 36°26' W. approximately 3.88 chains to Corner No. 3 of U.S. Survey No. 1118; thence N. 88°16' E. 2.986 chains to Corner No. 2 of U.S. Survey No. 1118; thence S. 20°02' E. 2.24 chains to Corner No. 1 of U.S. Survey No. 1118; thence N. 88°50' W. approximately 2.66 chains to the true point of beginning.

Containing approximately 1.2 acres.

LYLE F. JONES,
Acting State Director.

FEDERAL POWER COMMISSION

[Docket No. CP67–336]

CENTRAL ILLINOIS PUBLIC SERVICE CO. AND TRUNKLINE GAS CO.

Notice of Application

JULY 7, 1967.

Take notice that on June 30, 1967, Central Illinois Public Service Co. (Applicant), 432 Maine Street, Quincy, Ill. 62301, filed in Docket No. CP67–337 an application pursuant to section 7(c) of the Natural Gas Act for an order of the Commission directing Trunkline Gas Co. (Respondent) to establish physical connection of its transportation facilities with the facilities proposed to be constructed by Applicant and to sell and deliver to Applicant volumes of natural gas for resale and distribution in the unincorporated community of Cook Mills, Coles County, Ill., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to construct and operate a natural gas distribution system in the unincorporated community of Cook Mills and a lateral line extending 500 feet westward from a point of interconnection with Respondent's transmission line to a point of interconnection with the above-proposed distribution system. Applicant also proposes that Respondent construct and operate a sales metering and regulating station at the proposed point of interconnection. Applicant estimates its third year peak daily and peak annual natural gas requirements at 110 Mcf and 12,163 Mcf, respectively.

Applicant estimates the total cost of the proposed facilities at approximately $35,035, said cost to be financed from internal funds.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C. 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before August 4, 1967.

GORDON M. GRANT,
Secretary.

[Docket No. CP67–338]

INDIANA NATURAL GAS CORP. AND TEXAS EASTERN TRANSMISSION CORP.

Notice of Application

JULY 7, 1967.

Take notice that on June 29, 1967, Indiana Natural Gas Corp. (Applicant), Paoli, Ind. 47454, filed in Docket No. CP67–338 an application pursuant to section 7(a) of the Natural Gas Act for an order of the Commission directing Texas Eastern Transmission Corp. (Respondent) to establish physical connection of its transportation facilities with the facilities proposed to be constructed by Applicant and to sell and deliver to Applicant volumes of natural gas for resale and distribution in the communities of Dubois and Haysville, and adjacent areas, Dubois County, all in the State of Indiana, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to construct and operate municipal natural gas distribution systems in the communities of Dubois and Haysville and to construct and operate lateral transmission facilities

from a point of interconnection with Respondent's main transmission line to the respective communities, serving adjacent areas along said laterals. Applicant also proposes that Respondent construct and operate a sales meter station adjacent to its main line to render the service proposed above. Applicant estimates its third year peak daily and peak annual natural gas requirements at 609 Mcf and 52,096 Mcf, respectively.

Applicant estimates the total cost of the facilities proposed herein at approximately $182,304, said cost to be financed with company funds.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C. 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before August 4, 1967.

GORDON M. GRANT,
Secretary.

CIVIL SERVICE COMMISSION

GRADUATE FELLOWSHIP PROGRAM OF CORPS OF ENGINEERS

Notice of Exclusions From Special Rate Ranges

Under authority of 5 U.S.C. 5303 and Executive Order 11073, the Civil Service Commission has determined, upon request from the Department of the Army, that all positions of participants in the Graduate Fellowship Program of the Corps of Engineers in series and grades for which special rate ranges under 5 U.S.C. 5303 are authorized are to be excluded from coverage of such special salary rates. Salaries for positions of Graduate Fellowship Program participants who are hired as temporary employees under Schedule A, civil service regulation, § 312.3102(p), will be the appropriate statutory rates of the General Schedule.

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] JAMES C. SPRY,
Executive Assistant to the Commissioners.

[F.R. Doc. 67-8168; Filed, July 14, 1967; 8:46 a.m.]

SMITHSONIAN INSTITUTION

STATEMENT OF ORGANIZATION, FUNCTIONS, AND PROCEDURES

The following statement is effective following publication in the FEDERAL REGISTER.

SECTION 1. *Authority and purpose.*

(a) The Smithsonian Institution is legally an establishment having as its members the President of the United States, the Vice President, the Chief Justice, and members of the President's Cabinet. It is governed by a Board of Regents discussed in section 2 below, and has as its chief executive officer and director of its activities the Secretary of the Smithsonian discussed in section 3 below. The Smithsonian Institution administers a number of programs funded in part by direct Federal appropriations. The Institution itself is a private, nonprofit corporation. It receives and administers contracts and grants and accepts gifts and bequests from both private and public sources. These activities are administered in its capacity as a private organization. The Smithsonian's functions are dual, being both private and governmental.

(b) The Smithsonian Institution in administering programs for which it receives direct Federal appropriations may be considered an "authority of the Government of the United States" and therefore an "agency" for purposes of the Administrative Procedure Act (see 5 U.S.C. section 551(1) (1964 Ed., Supp. II, 1965)). To the extent that the Institution acts as an agency within the meaning of that Act and in compliance with the public information section thereof (5 U.S.C. section 552 (1964 Ed., Supp. II, 1965)) this document provides a statement for the guidance of the public on the organization of the Smithsonian Institution; the established places at which, the employees from whom, and the methods whereby the public may obtain information, make submittals or requests; and the general course and method by which the Institution's functions are channeled and determined. Supplemental information on the organization and functions of the Smithsonian Institution is published annually by the Office of the Federal Register in the U.S. Government Organization Manual.

SEC. 2 *Board of Regents.*

The Smithsonian Institution was established by the Act of August 10, 1846 (9 Stat. 102; 20 U.S.C. section 41 (1964 Ed.)) for the "increase and diffusion of knowledge among men." The Board of Regents is the governing body of the Smithsonian Institution. It consists of the Vice President of the United States, the Chief Justice, three members each of the U.S. Senate and House of Representatives; and six citizens of the U.S. appointed by joint resolution of the Congress, two of whom shall be residents of the District of Columbia, and of the other four no two shall be from the same State. The Regents elect one of their number as chancellor who is presiding officer of the Board and the chancellor of the Institution. The Board also elects three of its members as an executive committee.

SEC. 3. *Office of the Secretary of the Smithsonian Institution.*

(a) *Secretary of the Smithsonian.* The Regents elect a suitable person as Secretary of the Smithsonian Institution, who shall also be the Secretary of the Board of Regents. The Secretary is the principal administrative officer of the Smithsonian Institution (20 U.S.C. section 46 (1964 Ed.)). The Secretary serves, ex officio, as a member of various boards and other organizations:

National Air and Space Museum Advisory Board.
National Armed Forces Museum Advisory Board.
National Gallery of Art Board of Trustees.
John F. Kennedy Center for the Performing Arts Board of Trustees.
Smithsonian Art Commission.
National Portrait Gallery Commission.
Joseph H. Hirshhorn Museum and Sculpture Garden Board of Trustees.
Temporary Commission on Pennsylvania Avenue.
National Visitor and Student Center Study Commission.
Federal Council on the Arts and the Humanities of the National Foundation on the Arts and the Humanities.
American Revolution Bicentennial Commission.

(b) *Assistant Secretary.* The Assistant Secretary acts as Secretary in case of the absence of the Secretary. The Assistant Secretary advises and assists the Secretary in matters involving organization; budget; legislation; fiscal policy and operations; personnel; property; construction; buildings maintenance and protection; management improvement; and participates in major program determinations.

(c) *Assistant Secretary (Science).* The Assistant Secretary (Science) advises the Secretary in planning, coordinating, and reviewing the scientific research, education, exhibition, and public service programs of the Smithsonian in anthropology, astrophysics, biology, earth sciences, ecology, and oceanography.

(d) *Assistant Secretary (History and Art).* This position has been established to advise and assist the Secretary in planning, coordinating and reviewing the research, education, exhibition, and public service programs of the Institution in the fields of history and art.

(e) *Assistants to the Secretary.* Other assistants to the Secretary include an Executive Assistant to the Secretary and two Assistants to the Secretary, for Planning and Development, respectively.

SEC. 4 *Staff, offices, and supporting activities.*

Other offices and divisions assist the Secretary in the planning, management, and executive direction of the Smithsonian's varied activities, which are discussed below:

(a) *Office of the General Counsel.* The General Counsel is the legal officer of the Smithsonian Institution. His office serves as legal staff to the Institution, involving work in legislation; property; the use of public and private funds; insurance; taxes; contracts; settlement of tort and contract claims; copyrights and patents; and all other matters involving legal counsel. The General Counsel also advises the Secretary on major policy matters as requested.

(b) *Office of International Activities.* This office establishes cooperative research programs with institutions of higher learning in other countries and fosters the international exchange of persons and programs in the sciences and humanities. It administers the Smithsonian's museum and related research programs in foreign countries.

(c) *Office of Education and Training.* This office develops and coordinates programs of education and cooperative research, drawing upon the Institution's resources in scientists and scholars, collections, libraries, and laboratories.

(d) *Office of Public Affairs.* This activity promotes public understanding of the Smithsonian's programs; responds to public inquiries; assists representatives of the mass communications media in learning of Smithsonian activities; broadens the impact of the Institution's educational resources through the use of radio and television; assists museum visitors by means of orientation materials; plans, coordinates, and directs special events; and cooperates in other public service and educational programs.

(e) *Division of Performing Arts.* This division plans and presents performances and artistic programs which illuminate the Institution's collections of objects and interpret America's heritage.

(f) *National Armed Forces Museum Advisory Board.* This board advises the Board of Regents by developing plans for commemorating and displaying the contributions which the Armed Forces of the United States have made to American society and culture in time of war and peace.

(g) *Smithsonian Institution Libraries.* The libraries maintain collections of books and other publications supporting the research programs of the Institution and its museum, art gallery, and zoological park activities. Included are works covering geology, botany, zoology, anthropology, aeronautics, astrophysics, industries, American history and technology, art, museology, and related fields.

(h) *Smithsonian Institution Press.* This publishing activity edits, designs, arranges for printing, and distributes the scholarly and popular publications of the Smithsonian Institution.

(i) *Buildings Management Department.* This department maintains, operates, and repairs the buildings, grounds, and facilities of the Smithsonian Institution; assists in the construction of exhibit halls and cases; aids the research and curatorial functions by fabricating special devices; and protects the buildings, collections, and visiting public.

(j) *Administrative and Technical Divisions.* A number of divisions serve and support the substantive bureaus and activities of the Smithsonian Institution. These include Programing and Budget, Personnel, Fiscal, Contracts, Information Systems, Supply, Photographic Services, Organization and Methods, and Travel Services.

SEC. 5. *Bureaus and other activities of the Smithsonian Institution.*

The substantive work of the Smithsonian Institution includes the following major program activities. Except as otherwise noted, each of these organization units is headed by a director and is located in Washington, D.C.

(a) *U.S. National Museum.* This activity assists the Secretary by providing program planning, review and evaluation of the Smithsonian's programs of exhibition and public service, training in museum techniques, advice and assistance to museums and community institutions, and museum research and scholarship. In addition, it provides executive direction to the Office of Exhibits, the Conservation Analytical Laboratory, the Office of the Registrar, and the Traveling Exhibition Service.

(b) *Museum of Natural History.* This museum serves as an international center for the natural sciences, maintaining the largest reference collection of scientific specimens in the nation, as well as comprehensive programs of original research and exhibition on man, plants, animals, rocks and minerals, and fossils. Its resources provide the basis for cooperative studies and educational activities among Federal agencies, universities, and other scientific institutions.

(c) *Smithsonian Astrophysical Observatory.* The Observatory, located in Cambridge, Mass., performs research in eight principal areas: radio astronomy;

gamma-ray astronomy; meteorites and cosmic dust; theoretical astrophysics; optical observatory and observation; flight experiments; planetary and lunar science; and meteors and comets. Inquiries of an astrophysical nature should be directed to the Smithsonian Astrophysical Observatory, 60 Garden Street, Cambridge, Mass.

(d) *Radiation Biology Laboratory.* This Laboratory carries out broad programs involving all aspects of the absorption and utilization of solar radiation by living organisms. It maintains a Carbon-14 Laboratory for the study and dating of archeological specimens.

(e) *National Zoological Park.* The Zoo maintains a collection of over 800 species of mammals, birds, and reptiles for the advancement of science and the instruction and recreation of the people. Investigations are conducted in animal behavior, ecology, nutrition, reproductive physiology, pathology, clinical veterinary medicine, and the conservation of wild populations, especially endangered species.

(f) *Smithsonian Tropical Research Institute.* This research activity, located in the Canal Zone, Panama, conducts research and education programs in tropical biology and ecology, behavior, and other studies in tropical climates, using the research facilities and resources of Barro Colorado Island, Fort Amador, Galeta Island, and elsewhere in tropical America. Mail inquiries should be directed to the Smithsonian Tropical Research Institute, Post Office Box 2072, Balboa, C.Z.

(g) *Museum of History and Technology.* This museum accomplishes research, exhibition, education, and public service programs in all aspects of American civil and military history and the history of science, technology, and arts and manufactures.

(h) *National Collection of Fine Arts.* This art gallery fosters public appreciation of art and encourages creative expression by exhibiting works of past and contemporary origin; conducts an international art program of circulating exhibitions; and conducts a variety of research and educational programs.

(i) *National Air and Space Museum.* This museum, through its programs of research, publication, collection, and exhibition, provides for historical study and public education in the development of aviation and space flight.

(j) *Freer Gallery of Art.* This gallery conducts research, publication, and exhibit programs to contribute to a better understanding and appreciation of the artistic achievements of Near and Far Eastern civilizations.

(k) *National Portrait Gallery.* This gallery administers programs for the exhibition and study of the likenesses of those persons who have made significant contributions to the history, development, and culture of the United States.

(l) *Joseph H. Hirshhorn Museum and Sculpture Garden.* This projected museum and sculpture garden will serve as the permanent home of the art collections of Joseph H. Hirshhorn and the Joseph H. Hirshhorn Foundation donated for the benefit of the people of the United States, for exhibition and study.

(m) *National Gallery of Art.* Under its own Board of Trustees and separately administered by its Director and staff, the gallery assembles and maintains a national collection of paintings, sculpture, and the graphic arts representative of the best in the artistic heritage of America and Europe.

(n) *John F. Kennedy Center for the Performing Arts.* Under its own Board of Trustees and separately administered by its Chairman and staff, this projected Center will present events in the performing arts; develop activities for public participation, education, and recreation; provide facilities for civic activities; and provide a suitable memorial for the late President John F. Kennedy.

(o) *International Exchange Service.* This activity carries out an exchange of governmental and private scientific, cultural and technical publications between the United States and over 100 foreign countries.

(p) *Science Information Exchange.* The Exchange maintains a national registry of current research in the life, social, physical, and engineering sciences.

SEC. 6 *Public information, submittals, and requests.*

(a) *Requests for information.* Except for requests for research reports of the Science Information Exchange discussed at 32 F.R. 9682, requests for information or other matters may be made to the units described above by correspondence addressed to the head of such unit, in care of the Smithsonian Institution, Washington, D.C. 20560. Correspondence to those Smithsonian activities located outside of the Washington, D.C., area should be to the addresses noted in their descriptive sections above. In cases where the public is not informed as to which unit is primarily concerned with a particular matter, correspondence or telephone inquiries may be directed to the Office of Public Affairs, Smithsonian Institution, Washington, D.C. 20560.

(b) *Procedure for obtaining records.* Consistent with the instructions found in the Attorney General's Memorandum on the Public Information Section of the Administrative Procedure Act (Government Printing Office, June 1967), copies of public records may be obtained by requests in writing to the director of the Smithsonian unit primarily concerned with the particular record, or to the Office of Public Affairs, Smithsonian Institution, Washington, D.C. 20560, if the requestor is not informed as to which Smithsonian unit is primarily concerned with the record sought. Library and museum material made or acquired and preserved solely for reference or exhibition purposes, extra copies of documents preserved only for convenience of reference, and stocks of publications and of processed documents are not included within the definition of the words "public records" as used in this section.

Dated: July 11, 1967.

JAMES BRADLEY,
Acting Secretary.

INTERSTATE COMMERCE COMMISSION

[Notice 8]

MOTOR CARRIER TRANSFER PROCEEDINGS

JULY 12, 1967.

Synopses of orders entered pursuant to section 212(b) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 279), appear below:

As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC 69751. By order of June 30, 1967, the Transfer Board approved the transfer to Don Machinery Movers, Inc., Chicago, Ill., of certificate of registration No. MC-120133 (Sub-No. 1) issued November 6, 1963, evidencing a right to engage in interstate or foreign commerce as a motor carrier within the State of Illinois as originally issued to H. Mandelbaum, doing business as H. Mandelbaum Machinery Movers, Chicago, Ill., Eugene L. Cohn, One North LaSalle St., Chicago Ill. 60602, attorney for applicants.

[SEAL] H. NEIL GARSON,
Secretary.

Current White House Releases

WEEKLY COMPILATION OF PRESIDENTIAL DOCUMENTS

The *Weekly Compilation of Presidential Documents* began with the issue dated Monday, August 2, 1965. It contains transcripts of the President's news conferences, messages to Congress, public speeches, remarks and statements, and other Presidential material released by the White House up to 5 p.m. of each Friday. This weekly service includes an Index of Contents preceding the text and a Cumulative Index to Prior Issues at the end. Cumulation of this index terminates at the end of each quarter and begins anew with the following issue. Semiannual and annual indexes are published separately.

The *Weekly Compilation of Presidential Documents* is sold to the public on a subscription basis. The price of individual copies varies.

Subscription Price: $6.00 per year

Compiled by Office of the Federal Register, National Archives and Records Service, General Services Administration

**Order from: Superintendent of Documents,
U.S. Government Printing Office,
Washington, D.C. 20402**

FEDERAL REGISTER

Area Code 202 Phone 962-8626

Published daily, Tuesday through Saturday (no publication on Sundays, Mondays, or on the day after an official Federal holiday), by the Office of the Federal Register, National Archives and Records Service, General Services Administration (mail address National Archives Building, Washington, D.C. 20408), pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., Ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15 per year, payable in advance. The charge for individual copies varies in proportion to the size of the issue ($15 cents for the first 80 pages and 5 cents for each additional group of 40 pages, as actually bound). Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements are listed in the first FEDERAL REGISTER issue of each month.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER or the CODE OF FEDERAL REGULATIONS.

List of CFR Parts Affected

(Codification Guide)

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears at the end of each issue beginning with the second issue of the month.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1967, and specifies how they are affected.

Title 3—THE PRESIDENT

Executive Order 11362

PROVIDING FOR THE USE OF TRANSPORTATION PRIORITIES AND ALLOCATIONS DURING THE CURRENT RAILROAD STRIKE

WHEREAS the current railroad strike has brought to a halt virtually all transportation of persons and things by rail, and the remaining transportation facilities of the nation will be unable to handle all the essential traffic requirements put upon them; and

WHEREAS Section 101(a) of the Defense Production Act of 1950, as amended (50 U.S.C. App. 2071(a)) provides that:

"The President is hereby authorized (1) to require that performance under contracts or orders (other than contracts of employment) which he deems necessary or appropriate to promote the national defense shall take priority over performance under any other contract or order, and, for the purpose of assuring such priority, to require acceptance and performance of such contracts or orders in preference to other contracts or orders by any person he finds to be capable of their performance, and (2) to allocate materials and facilities in such manner, upon such conditions, and to such extent as he shall deem necessary or appropriate to promote the national defense."

and

WHEREAS the foregoing powers of the President have been delegated to certain officers of the Government by and pursuant to Executive Order 10480 of August 14, 1953, as amended:

NOW, THEREFORE, by virtue of the authority vested in me as President of the United States and Commander-in-Chief of the armed forces, including the authority conferred upon me by the Defense Production Act of 1950, as amended (50 U.S.C. App. 2061, et seq.), it is hereby ordered as follows:

SECTION 1. This order shall constitute a finding in pursuance of section 101(b) of the Defense Production Act of 1950, as amended, with respect to the exercise, as directed by section 2 of this order, of the powers vested in me by section 101(a) of that Act.

SEC. 2. The officers of the Government in whom are vested (by or pursuant to Executive Order 10480, as amended), the allocation and priorities powers of the Defense Production Act of 1950, as amended, shall exercise those powers to accomplish the transportation and delivery of such persons and things as they deem necessary or proper to promote the national defense, including the accomplishment of military requirements, governmental functions, defense production and measures essential to the public health and safety.

SEC. 3. Notwithstanding any other provision of this order or any other order:

(1) The Secretary of Transportation is directed to determine, with the concurrence of the Director of the Office of Emergency Planning, the proper over-all apportionment and allocation of available transportation capacity.

(2) The Secretary of Transportation, subject to the general policy guidance of the Director of the Office of Emergency Planning, shall exercise centralized direction in the use of transportation priorities to accomplish the purposes of this order.

(3) The Secretary of Transportation shall provide the organization and procedures to carry out the functions under the foregoing provisions of this section.

SEC. 4. This order takes effect at once and shall remain effective until the resumption of rail service makes it unnecessary but in no event more than fifteen days after the termination of the current railroad strike.

THE WHITE HOUSE,
July 16, 1967.

[F.R. Doc. 67-8335; Filed, July 17, 1967; 9:57 a.m.]

Rules and Regulations

Title 7—AGRICULTURE

Chapter I—Consumer and Marketing Service (Standards, Inspections, Marketing Practices), Department of Agriculture

PART 52—PROCESSED FRUITS AND VEGETABLES, PROCESSED PRODUCTS THEREOF, AND CERTAIN OTHER PROCESSED FOOD PRODUCTS

Subpart—U.S. Standards for Grades of Orange Juice From Concentrate

A proposal to issue U.S. Standards for Grades of Orange Juice from Concentrate was published in the FEDERAL REGISTER of December 2, 1966 (31 F.R. 15151). In consideration of the data, views, and arguments submitted by interested persons in connection with the aforementioned proposal, a second and revised proposal for issuing U.S. Standards for Grades of Pasteurized Orange Juice was published in the FEDERAL REGISTER of April 21, 1967 (32 F.R. 6284). Interested persons were given until June 1, 1967, in which to submit written data, views, or arguments in connection with this second and revised proposal.

Statement of considerations leading to the issuance of the standards. Following the second and revised proposal of April 21, 1967, adverse comments, received from only one source, suggested lower Brix-acid ratios than those proposed, and a single Brix level for all grades at a lower level than proposed.

These objections and suggestions have been carefully considered. The Department finds, however, that the suggestions, if adopted, would not provide for appropriate differentiation in Orange Juice qualities and would weaken the usefulness of the standards as a basis for trading.

The standards as proposed on April 21, 1967, are hereby adopted without change and are set forth below.

Effective date. These standards shall became effective on August 31, 1967.

Dated: July 12, 1967.

G. R. GRANGE,
Deputy Administrator, . . .
Marketing Services.

The standards are:

PRODUCT DESCRIPTION, STYLES, AND GRADES

Sec.
52.5681 Product description.

52.5683 Grades.

FILL OF CONTAINER

52.5684 Recommended fill of container.

FACTORS OF QUALITY

52.5685 Ascertaining the grade of a sample unit.
52.5686 Ascertaining the rating for the factors which are scored.
52.5687 Color.
52.5688 Defects.
52.5689 Flavor.

EXPLANATIONS AND METHODS OF ANALYSIS

52.5690 Definitions of terms and methods of analysis.

LOT COMPLIANCE

52.5691 Ascertaining the grade of a lot.

SCORE SHEET

52.5692 Score sheet for orange juice from concentrate.

AUTHORITY: The provisions of this subpart issued under secs. 202-208, 60 Stat. 1087, as amended; 7 U.S.C. 1621-1627.

PRODUCT DESCRIPTION, STYLES, AND GRADES

§ 52.5681 Product description.

Orange juice from concentrate is the product defined in the standards of identity (21 CFR 27.111) issued pursuant to the Federal Food, Drug, and Cosmetic Act.

§ 52.5682 Styles.

(a) Without sweetener.
(b) With sweetener.

§ 52.5683 Grades.

(a) "U.S. Grade A" (or U.S. Fancy) is the quality of orange juice from concentrate that: (1) Shows no coagulation or no material separation and possesses the appearance of fresh orange juice, (2) has a very good color, (3) is practically free from defects, (4) possesses a very good flavor, and (5) scores not less than 90 points when scored in accordance with the scoring system outlined in this subpart.

(b) "U.S. Grade B" (or U.S. Choice) is the quality of orange juice from concentrate that: (1) Shows no coagulation but may show some separation and possesses the appearance of fresh orange juice, (2) has a good color, (3) is reasonably free from defects, (4) possesses a good flavor, and (5) scores not less than 80 points when scored in accordance with the scoring system outlined in this subpart.

(c) "Substandard" is the quality of orange juice from concentrate that fails to meet the requirements of U.S. Grade B.

FILL OF CONTAINER

§ 52.5684 Recommended fill of container.

The recommended fill of container is not incorporated in the grades of the finished product since fill of container, as such, is not a factor of quality for the purpose of these grades. It is recommended that the container be as full of orange juice as practicable.

FACTORS OF QUALITY

§ 52.5685 Ascertaining the grade of a sample unit.

(a) *General.* The grade of a sample unit of orange juice from concentrate is ascertained by considering the degree of any coagulation and separation, and the appearance of the product as compared to fresh juice, which are not scored; the ratings for the factors of color, defects, and flavor which are scored; the total score; and the limiting rules which may be applicable.

(b) *Factors rated by score points.* The relative importance of each scoring factor is expressed numerically on the scale of 100. The maximum number of points that may be given such factors are:

Factors:	Points
Color	40
Defects	20
Flavor	40
Total score	100

§ 52.5686 Ascertaining the rating for the factors which are scored.

The essential variations within each factor which is scored are so described that the value may be ascertained for each factor and expressed numerically. The numerical range within each factor which is scored is inclusive (for example, "18 to 20 points" means 18, 19, or 20 points).

§ 52.5687 Color.

(a) *Evaluation of color.* (1) The color of orange juice from concentrate, where applicable, is evaluated by comparing the color of the product with the USDA Orange Juice Color Standards so that these color standards become points of reference.

(2) Such comparison is made under an artificial light source of approximately 150 candela intensity and having a spectral quality approximating that of daylight under a moderately overcast sky and a color temperature of 7,500 degrees Kelvin, ±200 degrees.

(3) The USDA Orange Juice Color Standards range from yellow-orange to yellow color, with USDA OJ1 being the most orange color in the series.

(b) *Procedure in evaluating color.* (1) Place the juice in a clear glass test tube of 1-inch diameter.

(2) Arrange color standards in a test tube rack or similar device so that light coming from above strikes the standards at a 45 degree angle. The standards are inclined at a 45 degree angle against a neutral grey background. Observe the standards and product at right angles to the tubes.

(3) Classify the juice by inserting the tube of juice where it best fits in the series of color standards. Orange juice differing in color and brightness from the most nearly matching USDA Orange Juice Color Standard is evaluated by considering the amount of difference and its effect on the total appearance of the juice.

(c) *Availability of color standards.* The USDA Orange Juice Color Standards cited in this section are official color standards which may also be applied to other orange juices. Information regarding these color standards, and their availability, may be obtained from:

Processed Products Standardization and Inspection Branch, Fruit and Vegetable Division, Consumer and Marketing Service, U.S. Department of Agriculture, Washington, D.C. 20250.

(d) *(A) Classification.* Orange juice from concentrate that has a very good color may be given a score of 36 to 40 points. "Very good color" means a very good yellow to yellow-orange color that is bright and typical of fresh orange juice. Orange juice from concentrate that meets this criterion may be assigned score points in accordance with the following schedule:

As compared with USDA Orange Juice Color Standards:	Score (points)
Equal to or better than USDA OJ 2	40
Equal to or better than USDA OJ 3	39
Much better than USDA OJ 4	38
Equal to or slightly better than USDA OJ 4	37
Equal to or better than USDA OJ 5	36

(e) *(B) Classification.* If the juice possesses a good color, a score of 32 to 35 points may be given. Orange juice from concentrate that falls into this classification shall not be graded above U.S. Grade B, regardless of the total score for the product (this is a limiting rule). "Good color" means that the color is the yellow to yellow-orange color typical of fresh orange juice which may be dull but is not off color for any reason. Orange juice from concentrate that meets this criterion may be assigned score points in accordance with the following schedule:

As compared with USDA Orange Juice Color Standards:	Score (points)
Better than USDA OJ 6 but not as good as USDA OJ 5	35
Equal to USDA OJ 6	34
Not as good as USDA OJ 6	33 or 32

(f) *(SStd.) Classification.* If the juice fails to meet the requirements of paragraph (e) of this section a score of 0 to 31 points may be given. Orange juice from concentrate that falls into this classification shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.5688 Defects.

(a) *General.* The factor of defects concerns the degree of freedom from small seeds and portions thereof; from discolored specks, harmless extraneous material, and other similar defects; from recoverable oil; and from juice sacs and particles of membrane, core, and peel in excess of that normally present in orange juice.

(b) *Definitions.* (1) "Small seeds and portions thereof" means seed, whether fully developed or not, and particles of seed that could pass readily through round perforations one-eighth inch (3.2 mm.) in diameter.

(2) "Recoverable oil" means oil recoverable by the method outlined in this subpart.

(c) *(A) Classification.* Orange juice from concentrate that is practically free from defects may be given a score of 18 to 20 points. "Practically free from defects" means that any combination of defects present may no more than slightly detract from the appearance or drinking quality of the juice, and that there may be present not more than 0.030 percent by volume of recoverable oil.

(d) *(B) Classification.* If the juice is reasonably free from defects, a score of 16 or 17 points may be given. Orange juice from concentrate that falls into this classification shall not be graded above U.S. Grade B, regardless of the total score for the product (this is a limiting rule). "Reasonably free from defects" means that any combination of defects present may not seriously detract from the appearance or drinking quality of the juice, and that there may be present not more than 0.040 percent by volume of recoverable oil.

(e) *(SStd.) Classification.* Orange juice from concentrate that fails to meet the requirements of paragraph (d) of this section may be given a score of 0 to 15 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.5689 Flavor.

(a) *(A) Classification.* Orange juice from concentrate that possesses a very good flavor may be given a score of 36 to 40 points. "Very good flavor" means that the flavor is fine, distinct, and substantially typical of orange juice extracted from fresh, mature sweet oranges; is free from off flavors of any kind; and meets the following requirements:

(1) *Without sweetener style*—(i) *Brix.* Not less than 11.8 degrees.

(ii) *Brix—acid ratio.* Not less than 10.5:1 nor more than 22:1.

(2) *With sweetener style*—(i) *Soluble orange juice solids.* Not less than 11.8 percent, by weight, of the sweetened product.

(ii) *Brix—acid ratio.* Not less than 10.5:1 nor more than 22:1.

(b) *(B) Classification.* If the orange juice from concentrate possesses a good flavor a score of 32 to 35 points may be given. Orange juice from concentrate that falls into this classification shall not be graded above U.S. Grade B, regardless of the total score for the product (this is a limiting rule). "Good flavor" means that the flavor is fairly typical of orange juice extracted from fresh, mature sweet oranges; is free from off flavors of any kind; and meets the following requirements:

(1) *Without sweetener style*—(i) *Brix.* Not less than 11.8 degrees.

(ii) *Brix—acid ratio.* Not less than 10.5:1, nor more than 22:1.

(2) *With sweetener style*—(i) *Soluble orange juice solids.* Not less than 11.8 percent, by weight, of the sweetened product.

(ii) *Brix—acid ratio.* Not less than 10.5:1 nor more than 22:1.

(c) *(SStd.) Classification.* If the orange juice fails to meet the requirements of paragraph (b) of this section a score of 0 to 31 points may be given. Orange juice from concentrate that falls into this classification shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

EXPLANATIONS AND METHODS OF ANALYSIS

§ 52.5690 Definitions of terms and methods of analysis.

(a) *Brix.* "Brix" means the degrees Brix of orange juice from concentrate when tested with a Brix hydrometer calibrated at 20 degrees C. (68 degrees F.) and to which any applicable temperature correction has been made. The degrees Brix may be determined by any other method which gives equivalent results.

(b) *Acid.* "Acid" means the grams of total acidity, calculated as anhydrous citric acid, per 100 ml. of juice. Total acidity is determined by titration with standard sodium hydroxide solution, using phenolphthalein as indicator.

(c) *Brix-acid ratio.* "Brix-acid ratio" means the ratio between the Brix and the acid as defined in this section.

(d) *Recoverable oil.* "Recoverable oil" is determined by the following methods:

(1) *Equipment.* (i) Oil separatory trap similar to either of those illustrated in Figure 1 or Figure 2,[1]

(ii) Gas burner or hot plate;

(iii) Ringstand and clamps;

(iv) Rubber tubing;

(v) Three-liter narrow-neck flask.

(2) *Procedure.* (i) Place exactly 2 liters of juice in a 3-liter flask. Close the stopcock, place distilled water in the graduated tube, run cold water through the condenser from bottom to top, and bring the juice to a boil. Continue boiling for 1 hour at the rate of approximately 50 drops per minute.

(ii) By means of the stopcock, lower the oil into the graduated portion of the separatory trap, remove the trap from the flask, allow it to cool, and record the amount of oil recovered.

(iii) The number of milliliters of oil recovered divided by 20 equals the percent by volume of recoverable oil.

LOT COMPLIANCE

§ 52.5691 Ascertaining the grade of a lot.

The grade of a lot of orange juice from concentrate covered by these standards is determined by the procedures set forth

[1] Figures 1 and 2 filed as part of original document.

in the regulations governing inspection and certification of processed fruits and vegetables, processed products thereof, and certain other processed food products (§§ 52.1 to 52.87).

PART 52—PROCESSED FRUITS AND VEGETABLES, PROCESSED PRODUCTS THEREOF, AND CERTAIN OTHER PROCESSED FOOD PRODUCTS

Subpart—U.S. Standards for Grades of Pasteurized Orange Juice

A proposal to issue U.S. Standards for Grades of Pasteurized Orange Juice was published in the FEDERAL REGISTER of December 2, 1966 (31 F.R. 15149). In consideration of the data, views, and arguments submitted by interested persons in connection with the aforementioned proposal, a second and revised proposal for issuing U.S. Standards for Grades of Pasteurized Orange Juice was published in the FEDERAL REGISTER of April 21, 1967 (32 F.R. 6286). Interested persons were given until June 1, 1967, in which to submit written data, views, or arguments in connection with this second and revised proposal.

Statement of considerations leading to the issuance of the standards. Following the second and revised proposal of April 21, 1967, adverse comments, received from only one source, suggested lower Brix-acid ratios than those proposed, and a single Brix level for all grades.

These objections and suggestions have been carefully considered. The Department finds, however, that the suggestions, if adopted, would not provide for appropriate differentiation in Orange Juice qualities and would weaken the usefulness of the standards as a basis for trading.

The standards as proposed on April 21, 1967, are hereby adopted without change and are set forth below.

Effective date. These standards shall become effective on August 31, 1967.

Dated: July 12, 1967.

G. R. GRANGE,
Deputy Administrator, Marketing Services.

The standards are:

SCORE SHEET

52.5652 Score sheet for pasteurized orange juice.

AUTHORITY: The provisions of this subpart issued under secs. 202–208, 60 Stat. 1087, as amended; 7 U.S.C. 1621–1627.

PRODUCT DESCRIPTION, STYLES, AND GRADES

§ 52.5641 Product description.

Pasteurized orange juice is the product defined in the standards of identity (21 CFR 27.107) issued pursuant to the Federal Food, Drug, and Cosmetic Act.

§ 52.5642 Styles.

(a) Without sweetener;

(b) With sweetener.

§ 52.5643 Grades.

(a) "U.S. Grade A" (or U.S. Fancy) is the quality of pasteurized orange juice that: (1) Shows no coagulation or no material separation and has the appearance of fresh orange juice, (2) has a very good color, (3) is practically free from defects, (4) possesses a very good flavor, and (5) scores not less than 90 points when scored in accordance with the scoring system outlined in this subpart.

(b) "U.S. Grade B" (or U.S. Choice) is the quality of pasteurized orange juice that: (1) Shows no coagulation but may show some separation and has the appearance of fresh orange juice, (2) has a good color, (3) is reasonably free from defects, (4) possesses a good flavor, and (5) scores not less than 80 points when scored in accordance with the scoring system outlined in this subpart.

(c) "Substandard" is the quality of pasteurized orange juice that fails to meet the requirements of U.S. Grade B.

FILL OF CONTAINER

§ 52.5644 Recommended fill of container.

The recommended fill of container is not incorporated in the grades of the finished product since fill of container, as such, is not a factor of quality for the purpose of these grades. It is recommended that the container be as full of orange juice as practicable.

FACTORS OF QUALITY

§ 52.5645 Ascertaining the grade of a sample unit.

(a) *General.* The grade of a sample unit of pasteurized orange juice is ascertained by considering the degree of any coagulation and separation, and the appearance of the product as compared to fresh juice which are not scored; the ratings for the factors of color, defects, and flavor which are scored; the total score; and the limiting rules which may be applicable.

(b) *Factors rated by score points.* The relative importance of each scoring factor is expressed numerically on the scale of 100. The maximum number of points that may be given such factors are:

Factor	Points
Color	40
Defects	20
Flavor	40
Total score	150

§ 52.5646 Ascertaining the rating for the factors which are scored.

The essential variations within each factor which is scored are so described that the value may be ascertained for each factor and expressed numerically. The numerical range within each factor which is scored is inclusive (for example, "18 to 20 points" means 18, 19, or 20 points).

§ 52.5647 Color.

(a) *Evaluation of color.* (1) The color of pasteurized orange juice, where applicable, is evaluated by comparing the color of the product with the USDA Orange Juice Color Standards so that these color standards become points of reference.

(2) Such comparison is made under an artificial light source of approximately 150 candela intensity and having a spectral quality approximating that of daylight under a moderately overcast sky and a color temperature of 7,500 degrees Kelvin, ±200 degrees.

(3) The USDA Orange Juice Color Standards range from yellow-orange to yellow color, with USDA OJ 1 being the most orange color in the series.

(b) *Procedure in evaluating color.* (1) Place the juice in a clear glass test tube of 1-inch diameter.

(2) Arrange color standards in a test tube rack or similar device so that light coming from above strikes the standards at a 45 degree angle. The standards are inclined at a 45 degree angle against

a neutral grey background. Observe the standards and product at right angles to the tubes.

(3) Classify the juice by inserting the tube of juice where it best fits in the series of color standards. Orange juice differing in color and brightness from the most nearly matching USDA Orange Juice Color Standard is evaluated by considering the amount of difference and its effect on the total appearance of the juice.

(c) *Availability of color standards.* The USDA Orange Juice Color Standards cited in this section are official color standards which may also be applied to other orange juices. Information regarding these color standards, and their availability, may be obtained from:

Processed Products Standardization and Inspection Branch, Fruit and Vegetable Division, Consumer and Marketing Service, U.S. Department of Agriculture, Washington, D.C. 20250.

(d) *(A) Classification.* Pasteurized orange juice that has a very good color may be given a score of 36 to 40 points. "Very good color" means a very good yellow to yellow-orange color that is bright and typical of fresh orange juice. Pasteurized orange juice that meets this criterion may be assigned score points in accordance with the following schedule:

As compared with USDA Orange Juice Color Standards:	Score (points)
Equal to or better than USDA OJ 2	40
Equal to or better than USDA OJ 3	39
Much better than USDA OJ 4	38
Equal to or slightly better than USDA OJ 4	37
Equal to or better than USDA OJ 5	36

(e) *(B) Classification.* If the juice has a good color, a score of 32 to 35 points may be given. Pasteurized orange juice that falls into this classification shall not be graded above U.S. Grade B, regardless of the total score for the product (this is a limiting rule). "Good color" means that the color is the yellow to yellow-orange color typical of fresh orange juice which may be dull but is not off color for any reason. Pasteurized orange juice that meets this criterion may be assigned score points in accordance with the following schedule:

As compared with USDA Orange Juice Color Standards:	Score (points)
Better than USDA OJ 6 but not as good as USDA OJ 5	35
Equal to USDA OJ 6	34
Not as good as USDA OJ 6	33 or 32

(f) *(SStd.) Classification.* If the pasteurized juice fails to meet the requirements of paragraph (e) of this section a score of 0 to 31 points may be given. Pasteurized orange juice that falls into this classification shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.5648 Defects.

(a) *General.* The factor of defects concerns the degree of freedom from small seeds and portions thereof; from discolored specks, harmless extraneous material, and other similar defects; from recoverable oil; and from juice sacs and particles of membrane, core, and peel in excess of that normally present in orange juice.

(b) *Definitions.* (1) "Small seeds and portions thereof" means seed, whether fully developed or not, and particles of seed that could pass readily through round perforations one-eight inch (3.2 mm.) in diameter.

(2) "Recoverable oil" means oil recoverable by the method outlined in this subpart.

(c) *(A) Classification.* Pasteurized orange juice that is practically free from defects may be given a score of 18 to 20 points. "Practically free from defects" means that any combination of defects present may no more than slightly detract from the appearance or drinking quality of the juice, and that there may be present not more than 0.030 percent by volume of recoverable oil.

(d) *(B) Classification.* If the pasteurized juice is reasonably free from defects, a score of 16 or 17 points may be given. Pasteurized orange juice that falls into this classification shall not be graded above U.S. Grade B, regardless of the total score for the product (this is a limiting rule). "Reasonably free from defects" means that any combination of defects present may not seriously detract from the appearance or drinking quality of the juice, and that there may be present not more than 0.040 percent by volume of recoverable oil.

(e) *(SStd.) Classification.* Pasteurized orange juice that fails to meet the requirements of paragraph (d) of this section may be given a score of 0 to 15 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.5649 Flavor.

(a) *(A) Classification.* Pasteurized orange juice that possesses a very good flavor may be given a score of 36 to 40 points. "Very good flavor" means that the flavor is fine, distinct, and substantially typical of orange juice extracted from fresh, mature sweet oranges; is free from off flavors of any kind; and meets the following requirements:

(1) *Without sweetener style*—(i) *Brix.* Not less than 11 degrees.

(ii) *Brix—acid ratio.* Not less than 12:1 nor more than 19.5:1 except that when produced solely or predominantly from fruit grown in California or Arizona the Brix-acid ratio may be not less than 11 to 1 nor more than 17 to 1.

(2) *With sweetener style*—(i) *Soluble orange juice solids.* Not less than 11 percent, by weight, of the sweetened product.

(ii) *Brix—acid ratio.* Not less than 12:1 nor more than 19.5:1.

(b) *(B) Classification.* If the pasteurized orange juice possesses a good flavor a score of 32 to 35 points may be given. Pasteurized orange juice that falls into this classification shall not be graded above U.S. Grade B, regardless of the total score for the product (this is a limiting rule). "Good flavor" means that the flavor is fairly typical of orange juice extracted from fresh, mature sweet oranges; is free from off flavors of any kind; and meets the following requirements:

(1) *Without sweetener style*—(i) *Brix.* Not less than 10.5 degrees.

(ii) *Brix—acid ratio.* Not less than 10:1 nor more than 22:1,

(2) *With sweetener style*—(i) *Soluble orange juice solids.* Not less than 10.5 percent, by weight, of the sweetened product.

(ii) *Brix—acid ratio.* Not less than 10:1 nor more than 22:1.

(c) *(SStd.) Classification.* Pasteurized orange juice that fails to meet the requirements of paragraph (b) of this section may be given a score of 0 to 31 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

EXPLANATIONS AND METHODS OF ANALYSIS

§ 52.5650 Definitions of terms and methods of analysis.

(a) *Brix.* "Brix" means the degrees Brix of pasteurized orange juice when tested with a Brix hydrometer calibrated at 20 degrees C. (68 degrees F.) and to which any applicable temperature correction has been made. The degrees Brix of pasteurized orange juice may be determined by any other method which gives equivalent results.

(b) *Acid.* "Acid" means the grams of total acidity, calculated as anhydrous citric acid, per 100 ml. of pasteurized orange juice. Total acidity is determined by titration with standard sodium hydroxide solution, using phenolphthalein as indicator.

(c) *Brix-acid ratio.* "Brix-acid ratio" means the ratio between the Brix and the acid as defined in this section.

(d) *Recoverable oil.* "Recoverable oil" is determined by the following methods:

(1) *Equipment.* (i) Oil separatory trap similar to either of those illustrated in Figure 1 or Figure 2.[1]

(ii) Gas burner or hot plate;

(iii) Ringstand and clamps;

(iv) Rubber tubing;

(v) Three-liter narrow-neck flask.

(2) *Procedure.* (i) Place exactly 2 liters of juice in a 3-liter flask. Close the stopcock, place distilled water in the graduated tube, run cold water through the condenser from bottom to top, and bring the juice to a boil. Continue boiling for 1 hour at the rate of approximately 50 drops per minute.

(ii) By means of the stopcock, lower the oil into the graduated portion of the separatory trap, remove the trap from the flask, allow it to cool, and record the amount of oil recovered.

(iii) The number of milliliters of oil recovered divided by 20 equals the percent by volume of recoverable oil.

LOT COMPLIANCE

§ 52.5651 Ascertaining the grade of a lot.

The grade of a lot of pasteurized orange juice covered by these standards is determined by the procedures set forth in the regulations governing inspection and certification of processed fruits and vegetables, processed products thereof, and certain other processed food products (§§ 52.1 to 52.87).

Chapter IV—Federal Crop Insurance Corporation, Department of Agriculture

[Amdt. 94]

PART 401—FEDERAL CROP INSURANCE

Subpart—Regulations for the 1961 and Succeeding Crop Years

SUGAR BEETS

Pursuant to the authority contained in the Federal Crop Insurance Act, as amended, the above-identified regulations are amended effective beginning with the 1967 crop year in the following respects:

1. The portion of the table following paragraph (a) of §401.3 of this chapter under the heading "Sugar Beets" is amended effective beginning with the 1967 crop year by inserting the following immediately above the portion of the table pertaining to "Michigan, Minnesota, Montana, and North Dakota."

(Closing date)	
SUGAR BEETS	
California	Aug. 31

2. In section 4 of the sugar beet endorsement shown in § 401.43 of this chapter, the table at the end thereof is amended effective beginning with the 1967 crop year by inserting the following line immediately above the portion of the table pertaining to "Michigan":

California	July 15

3. The first sentence of section 3(b) of the sugar beet endorsement shown in § 401.43 of this chapter is amended effective beginning with the 1967 crop year to read as follows:

The production guarantees per acre are progressive as follows: (1) First stage—any acreage not thinned, (2) second stage—after acreage is thinned and through July 1 (Dec. 31 in California), (3) third stage—after July 1 (Dec. 31 in California) until harvested, or (4) fourth stage—acreage harvested.

4. Section 8 of the sugar beet endorsement shown in § 401.43 of this chapter is amended effective beginning with the 1967 crop year to read as follows:

8. *Cancellation and termination for indebtedness dates.* For each year of the contract the cancellation date and termination date for indebtedness are the following applicable dates immediately preceding the beginning of the crop year for which the cancellation or termination is to become effective: *Provided, however,* That the portion of item (1) in section 15(a) of the policy which reads "except the premium due on a crop of such agricultural commodity normally harvested in the calendar year in which such earlier date occurs," shall not be applicable with respect to sugar beet crop insurance in any county in California.

State	Cancellation date	Termination date for indebtedness
California	June 30	Aug. 31
Michigan, Minnesota, Montana, and North Dakota	Dec. 31	Apr. 15
Ohio	Dec. 31	Mar. 31
All other States	Dec. 31	Mar. 15

5. Section 7 of the sugar beet endorsement shown in § 401.43 of this chapter is amended effective beginning with the 1967 crop year by adding the following subsection (c) thereto:

(c) "Crop year," notwithstanding section 21(e) of the policy, means the period within which the insured sugar beet crop is normally planted and normally harvested, and shall be designated by reference to the calendar year in which the crop is normally harvested: *Provided, however,* That in all counties in California where sugar beet crop insurance is offered, the crop year shall be designated by reference to the calendar year in which the crop is normally planted.

(Secs. 506, 516, 52 Stat. 73, as amended, 77, as amended; 7 U.S.C. 1506, 1516)

Adopted by the Board of Directors on July 12, 1967.

[SEAL] EARLL H. NIEKEL, *Secretary, Federal Crop Insurance Corporation.*

Approved on July 12, 1967.

ORVILLE L. FREEMAN, *Secretary.*

[F.R. Doc. 67-8247; Filed, July 17, 1967; 8:48 a.m.]

Chapter VI—Soil Conservation Service, Department of Agriculture

PART 601—GREAT PLAINS CONSERVATION PROGRAM

Subpart—General Program Provisions

ELIGIBLE CONSERVATION PRACTICES

Correction

In F.R. Doc. 67-7981 appearing in the issue for Tuesday, July 11, 1967, on page 10155, in the third column, the last two lines of § 601.11(b) (1) which read "Administrator, SCS, and the Administrator for approval.", should read "Administrator, ASCS, to the Secretary for approval."

Chapter VIII—Agricultural Stabilization and Conservation Service (Sugar), Department of Agriculture

SUBCHAPTER B—SUGAR REQUIREMENTS AND QUOTAS

[Sugar Reg. 815.8, Amdt. 2]

PART 815—ALLOTMENT OF DIRECT-CONSUMPTION PORTION OF MAINLAND SUGAR QUOTA FOR PUERTO RICO

1967

Basis and purpose. This amendment is issued under section 205(a) of the Sugar Act of 1948, as amended (hereinafter called the "Act") for the purpose of amending Sugar Regulation 815.8 (32 F.R. 40,6550), which established allotments of the direct-consumption portion of the 1967 mainland quota for Puerto Rico.

This amendment of S.R. 815.8 is necessary to give effect to the direct-consumption portion of the 1967 mainland quota for Puerto Rico amounting to 162,000 short tons, raw value, as established in Sugar Regulation 811, Amendment 10 (32 F.R. 9949). That quantity is 6,000 tons greater than the 156,000 short tons, raw value, previously allotted.

Findings heretofore made by the Secretary in the course of this proceeding (32 F.R. 40) provide that this order shall be revised without further notice or hearing for the purpose indicated above and such findings set forth the procedure for the revision of allotments.

Accordingly, allotments are herein established on the basis of and consistent with such findings.

Order. Pursuant to the authority vested in the Secretary of Agriculture by section 205(a) of the Act, and in accordance with paragraph (c) of § 815.8 of this chapter, it is hereby ordered that paragraph (a) of § 815.8 be amended to read as follows:

§ 815.8 Allotment of the direct-consumption portion of mainland sugar quota for Puerto Rico for the calendar year 1967.

(a) *Allotments.* The direct-consumption portion of the 1967 mainland sugar quota for Puerto Rico, amounting to 162,000 short tons, raw value, is hereby allotted as follows:

[1] Figures 1 and 2 filed as part of original document.

Allottee	Direct-consumption allotment (short tons, raw value)
Central Aguirre Sugar Co., a trust	6,793
Central Roig Refining Co	23,306
Central San Francisco	1,378
Puerto Rican American Sugar Refinery, Inc	106,803
Western Sugar Refining Co	25,496
Liquid sugar reserve for persons other than named above	30
Total	162,000

(Sec. 403, 61 Stat. 932; 7 U.S.C. 1153, secs. 205, 207, 209; 61 Stat. 926, 927, 928; 7 U.S.C. 1115, 1117, 1119)

Effective date. Allotments established in this order for all allottees are larger than the allotments previously established. To afford adequate opportunity to plan and to market the additional quantities of sugar in an orderly manner, it is imperative that this amendment becomes effective as soon as possible. Accordingly, it is hereby determined and found that compliance with the 30-day effective date requirement in 5 U.S.C. 553 (80 Stat. 378) is impracticable and contrary to the public interest and, consequently, the amendment made herein shall become effective when published in the FEDERAL REGISTER.

Signed at Washington, D.C., this 12th day of July 1967.

H. D. GODFREY,
Administrator, Agricultural Stabilization and Conservation Service.

[F.R. Doc. 67-8231; Filed, July 17, 1967; 8:47 a.m.]

Chapter IX—Consumer and Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Nuts), Department of Agriculture

[Lemon Reg. 276]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

§ 910.576 Lemon Regulation 276.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on July 10, 1967.

(b) *Order.* (1) The respective quantities of lemons grown in California and Arizona which may be handled during the period July 16, 1967, through July 22, 1967, are hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 232,500 cartons;

(iii) District 3: Unlimited movement.

(2) As used in this section, "handled," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in the said amended marketing agreement and order.

(Secs. 1–9, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: July 13, 1967.

FLOYD F. HEDLUND,
Director, Fruit and Vegetable Division, Consumer and Marketing Service.

[F.R. Doc. 67-8230; Filed, July 17, 1967; 8:47 a.m.]

Chapter XIV—Commodity Credit Corporation, Department of Agriculture

SUBCHAPTER B—LOANS, PURCHASES, AND OTHER OPERATIONS

[CCC Grain Price Support Regs., 1967 Crop Rye Supp.]

PART 1421—GRAINS AND SIMILARLY HANDLED COMMODITIES

Subpart—1967 Crop Rye Loan and Purchase Program

The General Regulations Governing Price Support for the 1964 and Subsequent Crops (Revision 1) (31 F.R. 5941) and the 1966 and Subsequent Crops Rye Supplement (31 F.R. 6406), which contain regulations of a general nature with respect to price support operations, are further supplemented for the 1967 crop of rye as follows:

Sec.
1421.2856 Purpose.
1421.2857 Availability.
1421.2858 Maturity of loans.
1421.2859 Warehouse charges.
1421.2860 Support rates.

AUTHORITY: The provisions of this subpart issued under sec. 4, 62 Stat. 1070 as amended; 15 U.S.C. 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 105, 401, 63 Stat. 1051 as amended; 15 U.S.C. 714c, 7 U.S.C. 1421, 1441.

§ 1421.2856 Purpose.

This supplement contains program provisions which, together with the provisions of the General Regulations Governing Price Support for the 1964 and Subsequent Crops (Revision 1) and the 1966 and Subsequent Crop Rye Supplement, and any revisions of amendments thereof, apply to price support loans and purchases with respect to the 1967 crop of rye.

§ 1421.2857 Availability.

A producer desiring a price support loan must request a loan on his eligible rye on or before March 31, 1968. To obtain price support through a sale to CCC, a producer must give the appropriate ASCS county office notice of his intent to sell his eligible rye to CCC on or before April 30, 1968.

§ 1421.2858 Maturity of loans.

Unless demand is made earlier, all loans on rye will mature on April 30, 1968.

§ 1421.2859 Warehouse charges.

Subject to the provisions of § 1421.2847, the schedules of deductions set forth in this section shall apply to rye stored in an approved warehouse operating under the Uniform Grain Storage Agreement and operated by an Eastern common carrier.

(a) *Warehouses approved under the Uniform Grain Storage Agreement.*

SCHEDULE OF DEDUCTIONS FOR STORAGE CHARGES

Maturity date Apr. 30, 1968	Deduction (cents per bushel)
(1)	----
Prior to May 17, 1967	13
May 17–June 13, 1967	12
June 14–July 11, 1967	11
July 12–Aug. 8, 1967	10
Aug. 9–Sept. 5, 1967	9
Sept. 6–Oct. 3, 1967	8
Oct. 4–Oct. 31, 1967	7
Nov. 1–Nov. 28, 1967	6
Nov. 29–Dec. 26, 1967	5
Dec. 27, 1967–Jan. 23, 1968	4
Jan. 24–Feb. 20, 1968	3
Feb. 21–Mar. 19, 1968	2
Mar. 20–Apr. 30, 1968	1

[1] Dates storage charges start, all dates inclusive.

(b) *Warehouses operated by Eastern common carriers.* (1) Eligible rye stored in the following approved Eastern common carrier warehouses may be placed under loan or offered for sale to CCC:

(i) Canadian National Railway Co., Portland Elevator, Warehouse Code 9–2101, Portland, Maine.

(ii) Pennsylvania Railroad Co., Canton Elevator, Warehouse Code 9–2151, Baltimore, Md.

(2) Schedule of deductions for storage charges.

Maturity date Apr. 30, 1968	Deduction (cents per bushel)
(1)	(2)
Prior to June 26, 1967	16
June 26–July 15, 1967	15
July 16–Aug. 4, 1967	14
Aug. 5–Aug. 24, 1967	13
Aug. 25–Sept. 13, 1967	12
Sept. 14–Oct. 3, 1967	11
Oct. 4–Oct. 23, 1967	10
Oct. 24–Nov. 12, 1967	9
Nov. 13–Dec. 2, 1967	8
Dec. 3–Dec. 22, 1967	7
Dec. 23, 1967–Jan. 11, 1968	6
Jan. 12–Jan. 31, 1968	5
Feb. 1–Feb. 20, 1968	4
Feb. 21–Mar. 11, 1968	3
Mar. 12–Mar. 31, 1968	2
Apr. 1–Apr. 30, 1968	1

[1] Storage commence date, all dates inclusive.

[2] Charges shall be reduced by 2 cents per bushel if producer presents evidence that elevation charges were prepaid.

§ 1421.2860 Support rates.

(a) *Basic terminal rates.* The following rates are to be applied in accordance with § 1421.2849:

Terminal Market	Rate per bushel
Omaha, Nebr.	$1.19
Sioux City, Iowa	1.19
Duluth, Minn.	1.23
Minneapolis, Minn.	1.23
St. Paul, Minn.	1.23
Superior, Wis.	1.23
Atchison, Kans.	1.22
Kansas City, Mo.	1.22
St. Joseph, Mo.	1.22
Chicago, Ill.	1.32
Milwaukee, Wis.	1.32
Memphis, Tenn.	1.33
St. Louis, Mo.	1.33
Galveston, Tex.	1.32
Houston, Tex.	1.32
Port Arthur, Tex.	1.32
Beaumont, Tex.	1.32

(c) *Discounts.* The basic support rate shall be adjusted by discounts as follows: Rye containing more than three-tenths of 1 percent ergot (ergoty rye containing in excess of 1 percent is not eligible for warehouse-storage loans):

Ergot content (percent):	Discount (cents per bushel)
0.31–0.40	1
0.41–0.50	2
0.51–0.60	3
0.61–0.70	4
0.71–0.80	5
0.81–0.90	6
0.91–1.00	7

Rye grading No. 4 on the factor of test weight only:

Test weight (pounds):	Discount (cents per bushel)
51.0–51.9	5
50.0–50.9	10
49.0–49.9	15

Rye grading No. 3 on account of being "thin":

"Thin" rye (percent):	Discount (cents per bushel)
15.1–17.0	1
17.1–19.0	2
19.1–21.0	3
21.1–23.0	4
23.1–25.0	5

Rye grading No. 4 on account of being "thin":

The discounts shall be 5 cents per bushel plus 1 cent for each 2 percent of "thin" rye or fraction thereof, in excess of 25 percent.

	Discount (cents per bushel)
Weed control discount (where required by § 1421.74)	10

Other factors: CCC may establish discounts for quality factors not specified above which affect the value of the rye, such as (but not limited to) moisture, weevily, ergoty, stones, musty, sour, and heating. The discounts established will be based upon the market discounts for the factors at the time the rye is delivered to CCC, as determined by CCC. Producers may obtain schedules of such factors and discounts at ASCS county offices approximately 1 month prior to the loan maturity date.

NOTE: The discounts shall be cumulative except that only one grade discount shall apply.

Effective date: upon publication in the FEDERAL REGISTER.

Signed at Washington, D.C., on July 11, 1967.

H. D. GODFREY,
Executive Vice President,
Commodity Credit Corporation.

[F.R. Doc. 67-8170; Filed, July 17, 1967; 8:46 a.m.]

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Administration, Department of Transportation

[Airspace Docket No. 67-EA-17]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Federal Airways

On June 17, 1967, Federal Register Document No. 67-6851 was published in the FEDERAL REGISTER (32 F.R. 8710) amending Part 71 of the Federal Aviation Regulations by realigning V-210 between Carrolltown, Pa., and Harrisburg, Pa., via the INT of Carrolltown 096° and Harrisburg 288° True radials. This action is effective August 17, 1967. These radials were selected for aeronautical chart legibility by providing a common intersection with V-501. Subsequent to publication of the document, it was determined that the Harrisburg 289° True radial would provide the required separation from adjacent airways and therefore would be preferable from an air traffic control standpoint. Accordingly, action is taken herein to substitute the Harrisburg 289° True radial for the 288° True radial in the description of V-210.

Since this action results in an airway shift of one degree within presently controlled airspace, it involves a negligible change that is minor in nature and is of little interest to the general public. Therefore, the Administrator has determined that notice and public procedure thereon are unnecessary and that the action may be made effective without regard to the 30 day statutory requirement preceding effectiveness.

In consideration of the foregoing, Federal Register Document No. 67-6851 (32 F.R. 8710) is amended, effective immediately, as hereinafter set forth.

In the description of V-210 "Harrisburg, Pa., 288° radials;" is deleted and "Harrisburg, Pa., 289° radials;" is substituted therefor.

(Sec. 307(a) of the Federal Aviation Act of 1958; 49 U.S.C. 1348)

Issued in Washington, D.C., on July 10, 1967.

T. MCCORMACK,
Acting Chief, Airspace and
Air Traffic Rules Division.

[F.R. Doc. 67-8225; Filed, July 17, 1967; 8:46 a.m.]

[Airspace Docket No. 66-WE-59]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Federal Airway Segments

On February 4, 1967, a notice of proposed rule making was published in the FEDERAL REGISTER (32 F.R. 2452) stating that the Federal Aviation Agency was considering amendments to Part 71 of the Federal Aviation Regulations that would alter VOR Federal airway segments between Hazen, Nev., and Malad City, Idaho.

Interested persons were afforded an opportunity to participate in the proposed rule through the submission of comments. The Air Transport Association of America, and the Aircraft Owners and Pilots Association submitted letters which reflected no objection to the proposed rule making. The other letters of comment received in response to the notice were from persons with an aeronautical interest in the Mount Moses, Nev., area. The general comment contained in these letters was directed toward the nonrulemaking proposal, Airspace case 67-SLC-2-NR, which proposed the decommissioning of the Mount Moses VORTAC. In light of these comments which were directed to the proposal contained in Airspace case 67-SLC-2-NR, the Federal Aviation Administration conducted an informal airspace meeting at Winnemucca, Nev., on April 3, 1967. The attendees at this informal meeting included most of the persons that submitted comments to Airspace Docket No. 66-WE-59. The consensus objection concerned loss of the extensive radio communications provided to VFR off-airway traffic from the Mount Moses mountaintop site, and did not concern the proposed airway alterations contained in the notice of Airspace Docket No. 66-WE-59. From the information and data presented at the informal meeting, the Federal Aviation Administration has determined that it would be in the interest of the aeronautical public to install communications equipment atop Mount Lewis, Nev., which will provide to the off-airway VFR pilots radio communication coverage equal or superior to that supplied by the Mount Moses site. The installation of this communication equipment is expected to be completed by September 1967.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0001 e.s.t., September 14, 1967, as hereinafter set forth.

Section 71.123 (32 F.R. 2009, 7252) is amended to read as follows:

1. In V-465 "From Malad City, Idaho," is deleted and "From Elko, Nev., 12 AGL Wells, Nev.; 12 AGL Malad City, Idaho;" is substituted therefor.

2. In V-494 all after "Hazen, Nev., 244° radials;" is deleted and "12 AGL Hazen." is substituted therefor.

(Sec. 307(a) of the Federal Aviation Act of 1958; 49 U.S.C. 1348)

Issued in Washington, D.C., on July 6, 1967.

T. MCCORMACK,
Acting Chief, Airspace and
Air Traffic Rules Division.

[F.R. Doc. 67-8226; Filed, July 17, 1967; 8:46 a.m.]

[Airspace Docket No. 67-WE-8]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS

PART 73—SPECIAL USE AIRSPACE

Designation of Restricted Area and Alteration of Continental Control Area

On May 24, 1967, a notice of proposed rule making (NPRM) was published in the FEDERAL REGISTER (32 F.R. 7599) stating that the Federal Aviation Administration was considering amendments to to Parts 71 and 73 of the Federal Aviation Regulations that would designate a new joint use restricted area near Tonopah, Nev., and include it in the continental control area.

Interested persons were afforded an opportunity to participate in the proposed rule making through the submission of comments. Due consideration was given to all relevant matter presented.

The Air Transport Association objected to the establishment of this new restricted area on the basis that (1) it overlies portions of Federal airway V-244 and jet route J-80, (2) an effort should be made to relocate the restricted area to the southwest to reduce the overlap of V-244 and J-80, and (3) a termination date should be established for the restricted area.

The Atomic Energy Commission is unable to predict a completion date for the test program; therefore, it is not feasible to establish a termination date for the restricted area. However, the FAA will closely monitor the progress of the test program and upon its completion, the restricted area will be revoked.

The possibility of relocating the impact area 30 miles southward was explored, however, extensive ground installations in R-4808 and associated activity precluded this possibility.

The actual closure periods for this restricted area should be brief and infrequent, and since the exact time of rocket firing is not critical and can readily be adjusted, there should be no significant interruption to air traffic on V-244 and J-80.

In consideration of the foregoing, Parts 71 and 73 of the Federal Aviation Regulations are amended, effective 0001 e.s.t., August 17, 1967, as hereinafter set forth.

1. In § 71.151 (32 F.R. 2061) "R-4814A Tonopah, Nev." and "R-4814B Tonopah, Nev." are added.

2. In § 73.48 (32 F.R. 2317) Restricted Areas R-4814A and R-4814B at Tonopah, Nev., are added as follows:

R-4814A TONOPAH, NEV.

Boundaries: Beginning at latitude 37°53'-00" N., longitude 116°50'15" W.; thence clockwise via the arc of a circle with a 27-statute-mile radius centered—at latitude 37°47'00" N., longitude 116°21'30" W.; to latitude 37°40'30" N., longitude 116°53'00" W.; to latitude 37°42'00" N., longitude 115°-53'00" W.; to latitude 37°42'00" N., longitude 116°11'00" W.; to latitude 37°53'00" N., longitude 116°11'00" W.; to point of beginning.

Designated altitudes: Surface to FL 240.

Time of designation: Monday through Saturday, as published by NOTAM issued at least 48 hours in advance and upon termination of use.

Controlling agency: Federal Aviation Administration, Salt Lake City ARTC Center.

Using agency: Manager, Atomic Energy Commission, Albuquerque, New Mexico.

R-4814B TONOPAH, NEV.

Boundaries: Beginning at latitude 38°10'-30" N., longitude 116°21'30" W.; thence clockwise via the arc of a circle with a 36-statute-mile radius centered—at latitude 37°53'30" N., longitude 115°48'20" W.; to latitude 37°24'00" N., longitude 115°35'00" W.; to latitude 37°38'00" N., longitude 115°-35'00" W.; to latitude 37°28'00" N., longitude 115°48'00" W.; to latitude 37°33'00" N., longitude 115°48'00" W.; to latitude 37°33'-00" N., longitude 115°53'00" W.; to latitude 37°40'30" N., longitude 115°53'00" W.; thence counterclockwise via the arc of a circle with a 27-statute-mile radius centered—at latitude 37°47'00" N., longitude 116°21'30" W.; to point of beginning.

Designated altitudes: Surface to FL 240.

Time of designation: Monday through Saturday, as published by NOTAM issued at least 48 hours in advance and upon termination of use.

Controlling agency: Federal Aviation Administration, Salt Lake City ARTC Center.

Using agency: Manager, Atomic Energy Commission, Albuquerque, N. Mex.

(Sec. 307(a) of the Federal Aviation Act of 1958; 49 U.S.C. 1348)

Issued in Washington, D.C., on July 10, 1967.

WILLIAM E. MORGAN,
Acting Director,
Air Traffic Service.

[F.R. Doc. 67-8227; Filed, July 17, 1967; 8:46 a.m.]

[Airspace Docket No. 66-EA-101]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Transition Area

On page 6289 of the FEDERAL REGISTER for April 21, 1967, the Federal Aviation Administration published a proposed rule which would designate a transition area for Palmer, Mass.

Interested parties were given 30 days after publication in which to submit written data or views. No objections to the proposed regulations have been received.

In view of the foregoing, the proposed rule is adopted effective 0001 e.s.t. August 17, 1967, without any changes.

(Sec. 307(a) of the Federal Aviation Act of 1958; 72 Stat. 749; 49 U.S.C. 1348)

Issued in Jamaica, N.Y., on June 19, 1967.

WAYNE HENDERSHOT,
Acting Director, Eastern Region.

1. Amend § 71.181 of Part 71 of the Federal Aviation Regulations by adding the following transition area:

PALMER, MASS.

That airspace extending upward from 700 feet above the surface within a 5-mile radius of the center, 42°13'26" N., 72°16'45" W., of Metropolitan Airport, Palmer, Mass.; within 2 miles each side of the runway 4 centerline extended from the 5-mile radius area to 9 miles northeast of the end of the runway; within 2 miles each side of the runway 22 centerline extended from the 5-mile radius area to 9 miles southwest of the end of the runway, and within 2 miles each side of the 202° bearing from the Palmer, Mass., RBN, 42°13'26" N., 72°18'47" W., extending from the 5-mile radius area to 8 miles south of the RBN, excluding the portion which coincides with the Chicopee Falls, Mass., transition area.

[F.R. Doc. 67-8228; Filed, July 17, 1967; 8:46 a.m.]

Title 31—MONEY AND FINANCE: TREASURY

Chapter V—Office of Foreign Assets Control, Department of the Treasury

PART 500—FOREIGN ASSETS CONTROL REGULATIONS

Importation of Chrysoberyl Cat's-Eye Stones and Manufactures

An authorization is being issued for the importation without a certificate of origin or specific license of chrysoberyl cat's-eye stones and manufactures, provided there has been no interest therein of a designated national.

Subpart B of Part 500, Chapter V of Title 31, § 500.204, Appendix, is amended by adding item (215) as follows:

(215) *Stones, semiprecious and stones, semiprecious, manufactures.* Section 500.204 (a)(3):

Chrysoberyl cat's-eye.

[SEAL] MARGARET W. SCHWARTS,
Director,
Office of Foreign Assets Control.

[F.R. Doc. 67-8242; Filed, July 17, 1967; 8:48 a.m.]

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 121—FOOD ADDITIVES

Subpart D—Food Additives Permitted in Food for Human Consumption

Subpart F—Food Additives Resulting From Contact With Containers or Equipment and Food Additives Otherwise Affecting Food

GLYCEROL ESTER OF WOOD ROSIN

The Commissioner of Food and Drugs, having evaluated the data in a petition (FAP 7L2164) filed by Hercules, Inc., Wilmington, Del. 19899, and other relevant information, has concluded that the food additive regulations providing for the safe use of glycerol ester of wood rosin in chewing gum base, in food, and in the manufacture of food-contact articles should be amended to specify the acid number for the additive as 3 to 9 instead of 5 to 9. Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1)) and under the authority delegated to the Commissioner by the Secretary of Health, Education, and Welfare (21 CFR 2.120), Part 121 is amended as follows:

1. Section 121.1059(a) is amended by replacing the item "Glycerol ester of gum or wood rosin" under "Plasticizing Materials (Softeners)" with two new items, as follows:

§ 121.1059 Chewing gum base.

(a) * * *

MASTICATORY SUBSTANCES	
* * *	* * *
PLASTICIZING MATERIALS (SOFTENERS)	
* * *	* * *
Glycerol ester of gum rosin	Having an acid number of 3–9, a drop-softening point of 88° C.–96° C., and a color of N or paler. The ester is purified by steam stripping.
Glycerol ester of wood rosin	Having an acid number of 3–9, a drop-softening point of 88° C.–96° C., and a color of N or paler. The ester is purified by steam stripping.
* * *	* * *

2. Section 121.1084(a) is revised to read as follows:

§ 121.1084 Glycerol ester of wood rosin.

(a) It has an acid number of 3 to 9, a drop-softening point of 88° C.–96° C.; and a color of N or paler as determined in accordance with Official Naval Stores Standards of the United States. It is purified by countercurrent steam distillation.

* * * * *

§ 121.2592 [Amended]

3. In § 121.2592 *Rosins and rosin derivatives*, paragraph (a)(3)(i) is amended by changing "5 to 9" to read "3 to 9".

Any person who will be adversely affected by the foregoing order may at any time within 30 days from the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington, D.C. 20201, written objections thereto, preferably in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date. This order shall become effective on the date of its publication in the FEDERAL REGISTER.

(Sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1))

Dated: July 7, 1967.

WINTON B. RANKIN,
Deputy Commissioner of Food and Drugs.

[F.R. Doc. 67-8241; Filed, July 17, 1967; 8:48 a.m.]

Title 32—NATIONAL DEFENSE

Chapter VI—Department of the Navy

SUBCHAPTER C—PERSONNEL

PART 713—NAVAL RESERVE AND MARINE CORPS RESERVE

PART 730—ADMINISTRATIVE DISCHARGES AND RELATED MATTERS CONCERNING SEPARATIONS FROM THE NAVAL SERVICE

Miscellaneous Amendments

Scope and purpose. Parts 713 and 730 are updated to conform with recent amendments to the Bureau of Naval Personnel Manual, distributed to naval commands by Change No. 13, Addendum 1 to the Manual.

1. Section 713.371 is revised to read as follows:

§ 713.371 General promotion policy.

(a) Title 10, U.S. Code, augmented as necessary by Secretary of the Navy Regulations, governs the administration of the promotion of Naval Reserve officers who are specifically excluded from the lineal list of the Navy. Naval Reserve officers on extended active duty except WAVES are promoted in accordance with the provisions of article C-7101 of the Bureau of Naval Personnel Manual. All other officers of the Naval Reserve, specifically TARs, male and women Naval Reserve officers not on extended active duty, women Naval Reserve officers on active duty, Nurse Corps Naval Reserve Officers not on active duty, Naval Reserve officers on temporary active duty and Naval Reserve warrant and chief warrant officers are promoted in accordance with this section.

(b) Except in cases wherein they may be promoted under other provisions of law, officers of the Naval Reserve in an active status will, insofar as practicable, be advanced in grade and, where applicable, in their respective corps in a manner similar to that prescribed for officers of the Regular Navy, and in such numbers for each grade as may be prescribed from time to time by the Secretary of the Navy.

(c) No officer of the Naval Reserve shall be advanced to a higher grade until he has qualified therefor by such mental, moral, professional and physical examinations as the Secretary of the Navy may prescribe.

(d) The number of officers that may be recommended for promotion in any applicable fiscal year will be the number determined to be necessary to provide an equitable opportunity for promotion among succeeding groups of reserve officers and an adequate continuing strength of Reserve officers in an active status, and shall not cause the number of Reserve officers in an active status permanently commissioned in any grade to exceed the prescribed percentile grade distribution.

2. Section 713.372 is revised to read as follows:

§ 713.372 Lineal precedence for promotions.

(a) For purposes of consideration for promotion, male officers of the Naval Reserve will be arranged in a lineal precedence list in each grade and corps, according to dates of commission therein. Each Reserve officer shall have a running mate of the same grade who shall be the line officer, not restricted by law in the performance of duty, on active duty on the lineal list of the Navy, next junior to him.

(b) For purposes of consideration for promotion, women officers of the Naval Reserve will be arranged in a lineal precedence list in each grade and corps, according to dates of commission therein. Each woman Reserve officer shall have a running mate of the same grade who shall be a woman line officer of the Regular Navy, assigned as in paragraph (a) of this section.

(c) For purposes of consideration for promotion, officers of the Nurse Corps of the Naval Reserve will be arranged in a lineal precedence list in each grade, according to dates of commission therein. Each officer of the Nurse Corps of the Naval Reserve shall have a running mate of the same grade, who shall be an officer of the Nurse Corps of the Regular Navy, assigned as in paragraph (a) of this section.

(d) For purposes of consideration for promotion, warrant officers and chief warrant officers of the Naval Reserve will be arranged in a lineal precedence list in each grade W1, CWO (W2), and CWO (W3) according to the dates of warrant or commission, as appropriate.

3. Section 713.373 is revised to read as follows:

§ 713.373 Promotion by seniority on lineal precedence list.

(a) Officers of the Naval Reserve will be promoted in order of their seniority in accordance with provisions of §§ 713.371–713.379d. Officers recommended for promotion in the approved report of a selection board shall be promoted, upon qualification therefor, at as nearly as possible, the same time as their running mates are promoted.

4. Section 713.374 is amended by revising paragraph (c) and adding paragraphs (d) and (e).

§ 713.374 Eligibility for consideration for promotion.

* * * * *

(c) An officer of the Nurse Corps Reserve of any grade higher than ensign shall be eligible for consideration for promotion when she meets the requirements for eligibility established by the Secretary of the Navy and she is senior to the junior officer of the Nurse Corps in the same grade on active duty on the lineal list who has been selected for promotion.

(d) Warrant officers and chief warrant officers of the Naval Reserve will be eligible for consideration for temporary promotion in the Fiscal Year preceding the Fiscal Year in which the following years of service in present grade will have been completed:

CWO (W1) to CWO (W2)—2 years.
CWO (W2) to CWO (W3)—4 years.
CWO (W3) to CWO (W4)—4 years.

(e) For purposes of eligibility for consideration for promotion all officers of the Naval Reserve must be in an active status, as defined in § 713.365. The records of any officers who have been removed from an active status will be withheld from consideration by the selection board. Officers who are transferred from the Inactive Status List to an active status will not be eligible for consideration for promotion for a period of 1 year from the date of removal from the Inactive Status List even though they may otherwise be eligible for such consideration by a selection board.

5. Section 713.375 is revised to read as follows:

§ 713.375 Promotion selection boards.

(a) Excluding the promotion of ensigns to lieutenant (junior grade), no Reserve officer may be promoted except upon the recommendation of a selection board. This is not intended to preclude officers temporarily promoted from permanent promotion to the grade concerned in accordance with 10 U.S.C. 5911.

(b) Selection boards to recommend Reserve officers for promotion are convened by the Secretary of the Navy. Such boards serve until the proceedings of the board have received Presidential approval.

(c) For the purpose of complying with the provisions of paragraphs (a) and (b) of this section, selection boards will be convened by order of the Secretary of the Navy, from time to time, as may be required. Each such board will be composed of not less than 5 officers who are senior in both temporary and permanent grade to those under consideration.

(d) Any officer eligible for consideration for promotion by a selection board has the right to forward through official channels a written communication in-

viting attention to any matter of record in the armed forces concerning himself which he considers important in his case. The communication may not criticize any officer or reflect upon the character, conduct, or motive of any officer. Communications should be addressed to the president of the appropriate selection board, Bureau of Naval Personnel, Washington, D.C. 20370, via the chain of command and must arrive by the time the board convenes.

6. Section 713.376 is added as a new section to read as follows:

§ 713.376 Information furnished a selection board.

(a) Each selection board convened to recommend Naval Reserve officers for promotion is furnished:

(1) The number of officers that may be recommended for promotion.

(2) The names of all officers who are eligible for consideration.

(3) The records of all officers who are eligible for consideration consisting of the following:

(i) The fitness report jacket;

(ii) The selection board jacket (correspondence jacket in cases where an officer's record has not been converted to separate jackets for selection board and correspondence);

(iii) Record of legal proceedings in cases where eligible officers were involved; and

(iv) Health records of individual eligible officers as requested by the selection board concerned.

(b) Missing fitness reports do not prevent any eligible officer from receiving full consideration by a selection board. If reports are missing to a degree to preclude a complete evaluation of an officer's performance, selection boards will request the missing information.

7. Section 713.377 is added as a new section to read as follows:

§ 713.377 Duties of selection boards.

(a) Every officer who is appointed a member of a selection board takes an oath to perform the duties imposed on him as a member of such board without prejudice or partiality.

(b) From among those officers who are eligible for consideration for promotion, each selection board recommends those officers whom it considers best fitted for promotion except that for those eligible male officers and women officers appointed under Section 5581 of Title 10, United States Code, under consideration for promotion to the grade of lieutenant commander or below in the Medical Corps, the Chaplain Corps, the Dental Corps, or the Medical Service Corps, the board recommends those officers whom it considers fitted for promotion. For those eligible women officers of the Naval Reserve, other than officers in the Nurse Corps and officers appointed under Section 5581 or Title 10, United States Code, under consideration for promotion to the grade of Lieutenant, the board recommends those officers whom it considers qualified for promotion.

(c) Selection boards, considering officers above the grade of ensign, also report the names of officers if any, among those eligible for consideration whose reports and records in its opinion indicate their unsatisfactory performance of duty in their present grade and, in their opinion, indicate that they would not satisfactorily perform the duties of a higher grade.

(d) Warrant officer selection boards report the names of chief warrant officers who are eligible for consideration, whose reports and records, in their opinion, establish their unfitness or unsatisfactory performance of duty in the grade in which serving.

(e) The proceedings of a selection board are conducted in strict confidence and may not be divulged by the members of the board or by the recorder except as authorized by the Secretary of the Navy. No permanent records are maintained of the evaluations by the boards of an individual officer; therefore, it is not possible to advise officers of the reasons for failure of selection.

8. Part 713 is amended by adding §§ 713.378 to 713.379d to read as follows:

§ 713.378 Promotion lists.

(a) Naval Reserve officers who are recommended for promotion in the report of a selection board convened as specified in § 713.375 are considered as selected for promotion upon Presidential approval of the report of the selection board. The names of these officers are placed on the promotion list of officers of their grade in the order of their seniority, junior to all other officers recommended by selection boards convened in earlier fiscal years.

(b) A Naval Reserve officer who is recommended for promotion by a selection board convened under Chapter 549, Title 10, United States Code, who is placed on extended active duty before he is promoted, may be promoted even though he is on active duty at the time of promotion.

(c) A Naval Reserve officer who is recommended for promotion by a selection board convened under the provisions of Chapter 543, Title 10, United States Code, and who is removed from a lineal list (released from active duty or transferred to the TAR (training and administration of the Naval Reserve) program) before he is promoted, may be promoted without reselection under the provisions of Chapter 549, Title 10, United States Code, even though he was on a lineal list when selected for promotion.

(d) Removal from an active status: A Naval Reserve officer recommended for promotion by a selection board who, at the time he otherwise would be promoted, has been removed from an active status may not be promoted. If such officer is returned to an active status his name may not be placed on a promotion list until subsequently recommended for promotion by another selection board and shall be treated as if he had not been considered for promotion by the selection board that last considered him.

§ 713.379 Professional and physical qualifications.

(a) Officers whose names are placed on a promotion list will have been certified professionally and morally qualified by the selection board.

(b) The physical standards for promotion of Reserve officers of the Navy shall be the same as those which are prescribed for retention in the Naval Reserve.

(c) Commands holding the service records of selectees will receive copies of promotion lists and will certify physical qualifications to the Chief of Naval Personnel (Pers-B83).

(d) Reserve officers of the Navy who are selected for promotion by selection boards while their names are on a lineal list but whose release from active duty occurs prior to their being promoted will not require physical qualification certification from service record custodians as the physical examination conducted upon release from active duty will suffice.

§ 713.379a Appointment of selectees.

(a) When their running mates become eligible for promotion, and upon receipt of certification of physical qualifications, selectees will be appointed.

(b) Appointments will be forwarded via the command holding the appointee's service record. All such appointments will be considered accepted upon issuance unless expressly declined; however, the officer must accept or decline the appointment on the form provided.

§ 713.379b Temporary and permanent appointments.

(a) If the promotion of the running mate of a Reserve officer is made by temporary appointment, the promotion of the Reserve officer will be made by temporary appointment. If the running mate's temporary appointment is terminated (for reasons other than disciplinary) and he reverts to a lower grade, the Reserve officer's temporary appointment is terminated and he reverts to the same lower grade in the same manner as his running mate and with corresponding rank. If the running mate is permanently appointed to the grade in which he is serving under a temporary appointment, the Reserve officer shall be permanently appointed to the grade in which he is serving under a temporary appointment.

§ 713.379c Failure of selection and promotion.

(a) A male officer of the Naval Reserve, or a woman officer appointed under the provisions of section 5581, Title 10, United States Code, who is in a promotion zone established under Chapter 549, Title 10, United States Code, whose name is furnished to the appropriate selection board, and who is not selected for promotion, is considered as having failed of selection for promotion.

§ 713.379d Promotion of ensigns to lieutenant (junior grade).

(a) Upon completion of the service in grade computed from date of rank, equal to the service in grade requirement for

their Regular Navy contemporaries, ensigns of the Naval Reserve on inactive duty in an active status will be issued appointments to the grade of lieutenant (junior grade). Service record custodians of ensigns in an active status shall inform the Chief of Naval Personnel (Pers B83) at least 30 days prior to the completion of the required time in grade if any such officer is not professionally, morally, and physically qualified for promotion. Ensigns assigned 19X5 designators are not eligible for promotion.

9. Section 730.8 is amended by revising paragraphs (b) and (h) (2) (ii), (iii) to read as follows:

§ 730.8 Discharge or release to inactive duty for reasons of dependency and hardship.

* * * * *

(b) Enlisted personnel who desire to request discharge or release to inactive duty, as appropriate, for dependency or hardship reasons shall be informed of the proper procedure to follow. It should be clearly explained to each applicant that a request shall be submitted via official channels and that submission of a request is no assurance that discharge or release to inactive duty will be authorized. Each such request received will be carefully and sympathetically considered and a final decision will be based upon its individual merits. It should be further explained to the individual, prior to submission of his request for discharge, or when a request for hardship discharge is included as an alternative in a request for Humanitarian shore duty, that such a request, once approved by the Chief of Naval Personnel is irrevocable, except in the most unusual circumstances. In instances of this nature it will be necessary for the individual to submit a request for cancellation of discharge authority to the Chief of Naval Personnel via official channels, stating how the hardship has been eliminated, and including affidavits attesting to this fact.

* * * * *

(h) * * *

(2) * * *

(ii) Issue an Armed Forces of the United States Report of Transfer or Discharge, Form 214N. Forward service and health records to the Commanding Officer, NRMC. A new service record will not be opened. Distribute copies of page 14 and DD Form 214N in accordance with current instructions.

(iii) Issue orders covering release to inactive duty. Distribution of copies shall be made as shown on sample form in Article C–10404, of the Bureau of Naval Personnel Manual.

* * * * *

10. Section 730.9 is amended by revising paragraph (j) to read as follows:

§ 730.9 Discharge of enlisted personnel by reason of minority.

* * * * *

(j) When an individual is separated by reason of being under the authorized age for enlistment but is considered sufficiently mature for naval service, and is in all other respects qualified, an entry shall be made under "Remarks" on the DD Form 214N to the following effect: "Recommended for reenlistment upon reaching the authorized age for enlistment." Otherwise, this item will be left blank.

11. Section 730.10 is amended by revising paragraph (h) to read as follows:

§ 730.10 Discharge of enlisted personnel by reason of unsuitability.

* * * * *

(h) A letter of transmittal in the following format shall be utilized. Minor modifications will be necessary in individual cases.

From: Commanding Officer, U.S.S. EVERSAIL (DD–00).

To: Chief of Naval Personnel.

Subj: SN John Robert DOE, USN, 123 45 67; Recommendation for discharge by reason of unsuitability.

Encl: (1) Copy of letter of notification. (2) Statement of Seaman Doe. (3) Signed copy of waiver of privileges (if applicable). (4) Psychiatric evaluation. (5) Copy of page 9.

1. Pursuant to Article C–10310 of the Bureau of Naval Personnel (this section), the following information is submitted in the case of Seaman Doe:

a. *Basic record data.*

Date of current enlistment: 11–15–61 for 4 years. EAOS (Expiration of active obligated service): 11–16–65.

Marital status: Single. Dependents: 0. Months on board: 12.

Age: 22. GCT (general classification test): 45. AFQT 38. Years education: 12. Total service: 1 year 2 months (active); 0 (inactive).

b. *Diagnosis.* Emotional instability reaction.

c. *Military offenses.* 2–15–62 NJP (nonjudicial punishment) page 13–(3)—UA (unauthorized absence) 2 days—2 weeks restr. (restriction).

d. *Comments and recommendations of Commanding Officer.* It is recommended that DOE be separated from the naval service by reason of unsuitability. Further retention in the service would not be in the best interest of the U.S. Navy. (The commanding officer's comments should include information with regard to the counselling requirement for cases processed in accordance with subparagraphs (b) (1), (2), (3), and (4) of this section.)

A. B. SMITH.

12. Section 730.12 is amended by revising paragraph (g) to read as follows:

§ 730.12 Discharge of enlisted personnel by reason of unfitness.

* * * * *

(g) A letter of transmittal in the following format will be utilized. Minor modifications will be necessary in individual cases.

From: Commanding Officer, U.S.S. EVERSAIL (DD–00).

To: Chief of Naval Personnel.

Subj: SN John Robert DOE, USN, 123 45 67; Recommendation for discharge by reason of unfitness.

Encl: (1) Copy of letter of notification. (2) Signed statement of awareness and request for privileges. (3) Proceedings of Administrative Discharge Board. (4) Copy of page 9.

1. Pursuant to Article C–10311 of the Bureau of Naval Personnel Manual (this section), the following information is submitted in the case of Seaman DOE:

a. *Primary reason for processing.* Frequent involvement of a discreditable nature with civil or military authorities.

b. *Basic record data.*

Date of current enlistment: 11–15–60 for 4 years EAOS: 2–6–65.

Marital status: Single. Dependents: 0. Months on board: 12.

Age 22. GCT: 45. AFQT 38. Years of education: 12. Total service: 2 years, 2 months (active); 0 (inactive).

c. *Military offenses.*

2–15–61	NJP	Pg 13–(3)	UA 2 days—2 wks. restr.
4–11–61	NJP	Pg 13–(5)	UA 1 day—1 wk. extra duty.
8–5–61	NJP	Pg 13–(7)	Failed to obey lawful order 2 wks. extra duty.
5–1–62	SPCM	Pg 6–(1)	UA 15 days—15 days conf. approved.
10–1–62	SPCM	Pg 6–(3)	UA 20 days—1 month conf. forf. $80.00 a month for 1 month approved.
1–5–63	NJP	Pg 13–(9)	UA 5 hrs.—1 wk. rests.

d. *Other involvements.*

9–12–61—Convicted by civil authorities of drunkenness and fined $5.00.

11–20–60—Contracted VD infection.

4–7–61—Contracted VD infection.

12–5–62—Contracted VD infection.

1–7–63—Contracted VD infection.

e. *Remarks.* Seaman DOE is retained on board to await action by the Chief of Naval Personnel.

f. *Findings.* The Board finds that Seaman DOE has had frequent involvement of a discreditable nature with military authorities.

g. *Recommendation.* Discharge by reason of unfitness.

h. *Type of discharge.* Undesirable.

i. *Comments and recommendations of Commanding Officer.* Concur. It should be noted that this command has separately counselled Seaman DOE regarding his deficiencies.

A. B. SMITH.

13. Section 730.13 is amended by revising paragraph (f) to read as follows:

§ 730.13 Discharge of enlisted personnel by reason of misconduct.

* * * * *

(f) A letter of transmittal in the following format shall be utilized. Minor modifications will be necessary in individual cases.

From: Commanding Officer, U.S.S. EVERSAIL (DD–00).

To: Chief of Naval Personnel.

Subj: SN John Robert DOE, USN, 123 45 67; Recommendation for discharge by reason of misconduct.

Encl: (1) Copy of letter of notification. (2) Signed statement of awareness and request for privileges. (3) Proceedings of Administrative Discharge Board. (4) Copy of page 9. (5) Information concerning arrest, conviction, or disposition (include civil document if available).

1. Pursuant to Article C–10312 of the Bureau of Naval Personnel Manual (this sec-

tion), the following information is submitted in the case of Seaman DOE:

a. *Primary reason for processing.* Civil conviction.

b. *Basic record data.*

Date of current enlistment: 11-15-60 for 4 years. EAOS: Undetermined.

Marital status: Single. Dependants: 0. Months on board: 12.

Age: 22. GCT 48 AFQT 38. Years of education: 12. Total service: 2 years 2 months (active); 0 (inactive).

c. *Circumstances of offense(s) in detail.* While on authorized leave on 1-1-63, arrested by the civil authorities of Colorado Springs, Colo., on the charge of auto theft.

d. *Action of civil authorities.* Tried on 1-5-63 at Colorado Circuit Court, Colorado Springs, Colo., for violation of Title 39, Section 133.24, Colorado Penal Code, for five counts of car theft, and convicted. Received an indeterminate term up to 5 years confinement. Presently serving sentence at the Colorado State Prison, Canon City, Colo. Maximum penalty—Article 121, UCMJ, 5 years.

e. *Summary of military offense(s).* 4-11-61 NJP (nonjudicial punishment) page 13(5) UA (unauthorized absence) 1 day—1 week extra duty.

f. *Remarks.* Records and effects located at this command. Other personnel involved: TN T. H. SMITH, USN, 645 32 21. Commanding Officer, USS NEVERSAIL, has been notified.

g. *Finding.* The board finds that Seaman DOE was convicted by the Colorado Circuit Court, Colorado Springs, Colo., of car theft, five counts.

h. *Recommendation.* Discharge by reason of misconduct.

i. *Type of discharge.* Undesirable.

j. *Comments and recommendations of Commanding Officer.* Concur.

Chapter VII—Department of the Air Force

SUBCHAPTER S—SECURITY

PART 850—SAFEGUARDING CLASSIFIED INFORMATION

SUBCHAPTER K—MILITARY TRAINING AND SCHOOLS

PART 909—USAF TRAINING FOR AIR FORCE CONTRACTOR EMPLOYEES

Miscellaneous Amendments to Chapter

Chapter VII of Title 32 of the Code of Federal Regulations is amended as follows:

§§ 850.9, 850.11a [Amended]

1. In § 850.9, paragraph (e) is amended by changing the reference in the next to last line from "(AFISL–3)" to "(AFISPP)"; and § 850.11a is amended by deleting paragraphs (a) and (b).

2. A new § 850.10a is added as follows:

§ 850.10a Measures, approval and sponsorship for meetings involving disclosure of classified information.

(a) *Definitions.*—(1) *Meetings.* As used in this section, meetings wherein disclosure of classified information is involved are conferences, seminars, symposia, exhibits, scientific and technical conventions and gatherings conducted by the Air Force and other DoD components, or by associations, societies, institutions, groups, Defense contractors, and other non-Defense activities.

(2) *Communist countries.* As used in this section, Communist countries are Albania, Bulgaria, Chinese Peoples Republic (Communist China) (including Tibet), Cuba, Czechoslovakia, Democratic Peoples Republic of Korea (North Korea), Democratic Republic of Vietnam (North Vietnam), German Democratic Republic (GDR) (East Germany, including the Soviet Sector of Berlin), Hungary, Mongolian Peoples Republic (Outer Mongolia), Poland, Rumania, Union of Soviet Socialist Republics (USSR), (including Estonia, Latvia, Lithuania, and all the other constituent republics), and Yugoslavia.

(b) *Policy.*—(1) *National interest.* Air Force commanders or other officials shall not approve or sponsor any venture which is not in the best interest of national security.

(2) *Advance action.* Air Force commanders or other officials shall not approve or sponsor any meeting involving disclosure of classified information if adequate security measures are not provided for in advance.

(3) *Contractors.* Air Force security responsibilities for sponsoring classified contractor meetings, as authorized in the DoD Industrial Security Regulation and Part 852 of this subchapter, will be in accordance with the provisions of this part.

(4) *Attendance.* Attendance at meetings conducted or sponsored by Air Force commanders or other officials shall be limited strictly to those persons whose presence is considered necessary in the interest of national security and who:

(i) Have been granted an access authorization equal to or higher than that of the information to be discussed; and

(ii) Have official duties requiring such access in the interests of promoting national defense. A person's attendance at a meeting does not necessarily mean that he is or should be authorized access to all classified sessions or presentations. Each person should be scheduled and permitted to attend only those classified portions which involve the subject matter he requires in order to perform his official duties.

(5) *Location of meetings.* (i) Meetings at which Top Secret or Secret defense information is to be disclosed will be held only at U.S. Government installations or at cleared facilities of DoD contractors. However, when necessary for the effective accomplishment of essential functions Air Force commanders and other officials may hold such meetings at another location provided they have been authorized to do so, in writing, by at least an Assistant Secretary of the Air Force. Requests for such authorization shall be sent through channels to the major staff office in Hq USAF having primary responsibility for the subject matter of the meeting. When an exception appears warranted, that office shall coordinate the matter with Hq USAF (AFIGO) before forwarding the proposal for secretarial approval. (As a matter of policy, such requests are disapproved unless there is overwhelming evidence that the need and exception clearly justifies risking possible loss of security.)

(ii) Meetings at which information no higher than Confidential is to be disclosed or discussed may be held at other locations provided an adequate U.S. Government installation or cleared DoD contractor facility is not available and it is specifically approved and authorized in writing at numbered Air Force or comparable or higher level.

(6) *Attendance by foreign nationals.* (i) Foreign nationals of countries other than Communist countries may be approved for attendance at an Air Force sponsored meeting, in which classified information is to be disclosed, provided it is specifically authorized in writing by Hq USAF (AFNIN) in accordance with § 850.9(g)(1).

(ii) Representatives of Communist countries will be excluded from meetings with no unclassified sessions and personnel from these countries will not be invited.

(iii) Representatives of Communist countries will not be authorized to attend any unclassified session or other unclassified portion of meetings comprising a mixture of classified and unclassified sessions even though no classified information is to be presented in that session or portion thereof, unless specifically and individually approved in writing on a name basis by the Secretary of the Air Force (authority not to be redelegated). Send requests for such action to Hq USAF (AFNIN). Approval shall be used as a means of furthering reciprocity for attendance of similar numbers and types of U.S. personnel at similar Communist country meetings to maintain an effective East-West exchange program.

(iv) When the entire meeting is unclassified prior approval by Hq USAF (AFNICBB) must be obtained, in accordance with paragraph (d)(5) of this section, to invite representatives of Communist countries to attend wholly unclassified meetings sponsored or conducted by Air Force commanders or other authorized officials. There are, however, requirements for obtaining State Department approval as prescribed by paragraph (d)(5) of this section.

(c) *Sponsorship.*—(1) *Acceptance of sponsorship.* Sponsorship of meetings referenced in this part will be accepted only if the Department of the Air Force has a significant interest in the subject matter of the meetings, and only after a determination is made that:

(i) The use of conventional channels for dissemination of scientific, technical, and other information would not accomplish the purpose of the meeting.

(ii) The conduct of the meeting is clearly consistent with the interests of national security.

(iii) Adequate security measures have been developed and will be carried out.

(iv) All persons selected and approved to attend the classified portions of these meetings have met the general policy for attendees prescribed by paragraph (b)(4) of this section.

(2) *Announcements and invitations.* Acceptance of sponsorship entails the review of all announcements and invitations for accuracy and to insure that:

(i) They are unclassified.

(ii) All announcements and invitations indicate that the meeting has appropriate Air Force sponsorship to include identification of the sponsoring activity.

(iii) Announcements of and invitations to unclassified sessions of meetings do not contain notices of classified sessions.

(iv) Notices of classified sessions are not sent to Communist country personnel.

(d) *Security responsibilities.* In addition to the security responsibilities inherent in the general policy statements under paragraph (b) of this section, the commander or other official conducting or sponsoring a meeting is charged with full responsibility, including the following security functions.

(1) Determining that the area selected for presentation of classified information is secure against unauthorized access to or illicit acquisition of, the classified information involved.

(2) Insuring that adequate secure storage facilities are available, when required.

(3) Insuring that attendance at meetings at which classified defense information is discussed is limited to those persons whose names appear on the approved access list and then only upon proper identification.

(4) Controlling and safeguarding any classified material furnished attendees and recapturing the materials or obtaining receipts, as appropriate, at the end of each classified session of the meeting.

(5) Providing Hq USAF (AFNICBB) with the names, prior to issuance of actual invitation, of all representatives and nationals of Communist countries whom it is planned to invite to a meeting (including unclassified meetings). In addition to the names, providing the date of attendance, location of the meeting, subject matter to be discussed, and the titles and preliminary or final abstracts of scientific, technical or other papers to be presented.

(6) Notifying each person who presents or discloses information at a meeting of any limitations that must be imposed for reasons of security, level of access authorization, requirements for access to the information, and planned attendance of foreign nationals. The speaker is responsible for seeking such guidance and for keeping his disclosures within prescribed limits.

(7) Providing such other safeguards as may be deemed appropriate.

(Sec. 8012, 70A Stat. 488; 10 U.S.C. 8012)

[AFR 205–1H, June 19, 1967]

A new Part 909 is added as follows:

Sec.
909.1 Purpose.
909.2 When contractor personnel may be trained.
909.3 USAF schools.
909.4 How contractors apply for training.

AUTHORITY: The provisions of this Part 909 issued under sec. 8012, 70A Stat. 488; 10 U.S.C. 8012.

SOURCE: AFR 50–8, April 27, 1960.

§ 909.1 Purpose.

This part tells when and how USAF training may be given to employees of private organizations under contract with the Air Force to provide equipment or services.

§ 909.2 When contractor personnel may be trained.

Employees of private organizations under contract with the Air Force may receive training at USAF schools, or through on-the-job training at a USAF base, when such training is specifically provided for in the basic contract. When training of contractor employees is not specifically provided for in the basic contract, the following criteria must be met:

(a) The training must be of material and direct benefit to the Air Force as determined by Hq USAF.

(b) The training must be considered available by the major command controlling it.

(c) The training must come within quotas established or approved by Hq USAF.

(d) The training must not be reasonably available from any other source.

(e) When the course of training includes presentation of classified defense information, the employee must have a current security clearance commensurate with the category of the classified information. The trainee may have access to classified defense information only when required for performance of the Government's contract with the requesting contractor.

(f) The Air Force shall not be liable for the following direct costs:

(1) Travel to and from the training location.

(2) Per diem.

(3) Subsistence.

(g) When the administrative contracting officer of the basic contract:

(1) Certifies that the USAF is not paying the contractor for the specific training, the training must be conducted without adjustment to the contract cost.

(2) Determines that the USAF is paying the contractor for the specific training, he will make an appropriate adjustment to the contract cost. The amount of adjustment will be determined by the administrative contracting officer of the basic contract.

§ 909.3 USAF schools.

The term USAF schools includes any formal school or course conducted by either the USAF or by a contractor under a contract with the USAF.

§ 909.4 How contractors apply for training.

An Air Force contractor desiring training under this part of his employees must forward a written request to the major command conducting the course, through the major command or designated subcommand supervising the contract for which the training is necessary, at least 30 days before the date training should begin. He must show:

(a) Name, address, and security clearance of each employee.

(b) Sufficient information to provide for determination under § 909.2 (a) and (e).

(c) Certification by the administrative contracting officer whether or not the contractor is being paid by the USAF for the specific training. If the contractor is being paid for the specific training, certification also that the administrative contracting officer has made a reasonable settlement in the contract.

(d) When flight training is requested, a complete history of the flying experience of each employee.

By order of the Secretary of the Air Force.

LUCIAN M. FERGUSON,
Colonel, U.S. Air Force, Chief, Special Activities Group, Office of The Judge Advocate General.

Title 45—PUBLIC WELFARE

Chapter XI—National Foundation on the Arts and the Humanities

PART 1100—STATEMENT FOR THE GUIDANCE OF THE PUBLIC—ORGANIZATION, PROCEDURE AND AVAILABILITY OF INFORMATION

Part 1100 reads as follows:

Sec.
1100.1 Organization.
1100.2 Procedures and transaction of business.
1100.3 Availability of information to the public.

AUTHORITY: The provisions of this Part 1100 issued under 5 U.S.C. 552.

§ 1100.1 Organization.

(a) The National Foundation on the Arts and the Humanities was established by the National Foundation on the Arts and the Humanities Act of 1965 (79 Stat. 845; 20 U.S.C. 951). The Foundation is composed of a National Endowment for the Arts, a National Endowment for the Humanities and a Federal Council on the Arts and the Humanities. Each Endowment is headed by a Chairman and has a National Council composed of 26 Presidential appointees, with the Chairman of

the Endowment also serving as Chairman of the Council. The purpose of the Foundation is to develop and promote a broadly conceived national policy of support for the humanities and the arts in the United States.

(b) The Endowments accomplish their missions primarily by providing financial assistance for projects in the arts and the humanities, including the making of fellowship and other awards to individuals as well as awards to nonprofit organizations. By statute, awards made to organizations by the National Endowment for the Arts may not exceed one-half the cost of the project, except that a percentage of the Arts Endowment's funds may be used for nonmatching grants to organizations which show that they have attempted unsuccessfully to secure funds equal to the amounts applied for.

(c) The organizational arrangement of the Foundation is as follows:

(1) *National Endowment for the Arts*—(i) *Office of the Chairman.* The Endowment is headed by the Chairman, who is also Chairman of the National Council on the Arts and a member of the Federal Council on the Arts and the Humanities. The Chairman, with the advice of the National Council on the Arts and the Federal Council on the Arts and the Humanities, is responsible for establishing Endowment policies and for developing and carrying out programs to provide support for projects and productions in the arts. The Chairman is assisted by a Deputy Chairman, who is appointed by him.

(ii) *Program Activities of the Arts Endowment.* The activities of the Endowment are carried out with the aid of the following program offices:

(a) State and Community Operations.
(b) Architecture, Planning and Design.
(c) Creative Writing.
(d) Education and Public Media.
(e) Music.
(f) Theater and Dance.
(g) Visual Arts.

Each of the above offices assists the Chairman in developing programs to provide support for activities in its area of interest.

(2) *National Endowment for the Humanities*—(i) *Office of the Chairman.* The Endowment is headed by the Chairman, who is also Chairman of the National Council on the Humanities and a member of the Federal Council on the Arts and the Humanities. The Chairman, with the advice of the National Council on the Humanities and the Federal Council on the Arts and the Humanities, is responsible for establishing Endowment policies and for developing and carrying out programs to provide support for research in the humanities, for strengthening the research potential of the United States in the humanities, or providing fellowships for training in the humanities, for fostering the interchange of information in the humanities and for fostering public understanding and appreciation of the humanities. The Chairman is assisted by a Deputy Chairman, who is appointed by him.

(ii) *Program Activities of the Humanities Endowment.* (a) The program activities of the Endowment are carried out through three divisions:

(1) The Division of Research and Publication.

(2) The Division of Fellowships and Stipends.

(3) The Division of Education and Special Projects.

(b) The Division of Research and Publication supports research and programs to strengthen the research potential of the United States, as well as to encourage the preparation of scholarly works in the humanities.

(c) The Division of Fellowships and Stipends supports individual scholarship and training by providing individuals with time uninterrupted by other responsibilities.

(d) The Division of Educational and Special Projects provides support primarily to institutions—schools, colleges, universities, museums, public agencies, and private nonprofit groups—to increase public understanding and appreciation of the humanities.

(3) *Legal, financial and administrative activities.* (i) These services are provided to the two Endowments on a shared basis. The Officers involved are (*a*) the General Counsel and (*b*) the Administrative Officer.

(ii) The General Counsel provides legal advice and counsel to the Chairmen of the National Endowment for the Arts and the National Endowment for the Humanities, to the National Council on the Arts and the National Council on the Humanities, and to the Federal Council on the Arts and the Humanities as well as to the divisions and offices of the Foundation.

(iii) The Administrative Officer is responsible for the administrative and financial procedures of the Foundation, including financial records, accounting and personnel matters.

§ 1100.2 Procedures and transaction of business.

(a) *Inquiries and transaction of business.* All inquiries, submittals or requests should be addressed as follows: (1) Those involving the work of the National Endowment for the Arts should be addressed to the National Endowment for the Arts, Washington, D.C. 20506, or a member of the public may call at the Endowment's offices at 1800 G Street NW., Washington, D.C., during normal business hours which are 9 a.m. to 5:30 p.m., Monday through Friday; (2) requests involving the National Endowment for the Humanities should be addressed to the National Endowment for the Humanities, Washington, D.C. 20506, or a member of the public may call at the Endowment's offices at 1800 G Street NW., Washington, D.C. during normal business hours which are 9 a.m. to 5:30 p.m., Monday through Friday. If a person is uncertain as to which organization an inquiry should be addressed, he should address his inquiry to the National Foundation on the Arts and the Humanities, Washington, D.C. 20506.

(b) *General method of functioning, procedures, forms, descriptions of programs.* In general, the Endowments provide financial support for activities in the arts and humanities on the basis of applications submitted by the person or organization desiring support. In general, such awards are made on a merit basis after a review process involving staff members and outside experts. The Endowments publish various announcements and booklets describing their programs and explaining their procedures. For example, the booklet "National Endowment for the Humanities—Program Information 1968", provides a comprehensive description of the programs, functions and procedures of the National Endowment for the Humanities. Forms or instructions for application to participate in the programs of the Endowments are obtainable on request. All program announcements, publications or application forms may be obtained by applying either to the National Endowment for the Arts or the National Endowment for the Humanities or by calling in person at their Washington offices.

§ 1100.3 Availability of information to the public.

(a) *Statutory requirements.* 5 U.S.C. 552(a)(3) requires each Agency, upon request for identifiable records made in accordance with published rules stating the time, place, fees to the extent authorized by statute, and procedure to be followed, to make such records promptly available to any person. 5 U.S.C. 552(b) exempts specified classes of records from the public access requirements of 5 U.S.C. 552(a)(3) and permits them to be withheld when the public interest so requires.

(b) *Purpose.* This section is designed to provide the rules referred to in 5 U.S.C. 552(a)(3) with respect to public access to records of the National Endowment for the Arts and the National Endowment for the Humanities.

(c) *Time, place, and form.* Requests for access to records of the National Endowment for the Arts and the National Endowment for the Humanities may be filed, in person or by mail, with the Deputy Chairman of the Endowment concerned between 9 a.m. and 5:30 p.m., Monday through Friday, except holidays.

(d) *Procedure.* (1) Upon receipt of a request for a record, the Deputy Chairman of the Endowment concerned, after determining that the record requested is sufficiently identified, shall determine whether the record is subject to exemption from public inspection under the provisions of 5 U.S.C. 552(b). If he determines it is subject to exemption and that the requested record should be withheld in the public interest, the requestor shall be notified that his request has been denied.

(2) If the appropriate Deputy Chairman concludes that an identified record exempt under 5 U.S.C. 522(b) need not be withheld from public inspection, it will be made available to the requestor for inspection at the office of the Endowment or a copy will be provided to him. In the latter case, an appropriate charge may be made, taking into account all relevant costs to the Endowment for providing such service. Such payment is payable in advance of fulfilling the request. In any event, provision of records, whether at the Endowments' offices or through the making of copies available, shall be on a facilities available basis, taking into account normal business activities of the Endowments.

(e) *Appeals.* Any person aggrieved by any determination made, or action taken, pursuant to the foregoing provisions of this part may, within 30 days, request the Chairman of the Endowment concerned to review that determination or action. A letter or other written statement setting forth the pertinent facts shall be sufficient for this purpose. Each Chairman reserves the right to request the person involved to provide additional information in support of his request for review. The Chairman concerned will promptly consider each such request for review and notify the person involved of his decision, which will constitute the final decision of the Endowment.

Effective date. The provisions of this part shall become effective upon publication in the FEDERAL REGISTER.

Dated: July 11, 1967.

ROGER L. STEVENS,
Chairman,
National Endowment for the Arts.

BARNABY C. KEENEY,
Chairman, National Endowment
for the Humanities.

Title 46—SHIPPING

Chapter IV—Federal Maritime Commission

SUBCHAPTER A—GENERAL PROVISIONS

[General Order 23; Amdt. 1]

PART 503—PUBLIC INFORMATION

Fees for Services

The Federal Maritime Commission has adopted a rule to be effective July 18, 1967, establishing a uniform method of declaring shipment weights and measurements on automobiles moving in the domestic offshore trades. The Commission has compiled a publication entitled "Automobile Manufacturers' Measurements" which is to be available for use by carriers filing tariffs naming rates for transportation of automobiles.

The Commission hereby establishes its fee for making this publication available to interested parties.

Therefore, pursuant to 5 U.S.C. 552, § 503.43 *Fees for services* of Title 46 of the Code of Federal Regulations is hereby amended by adding a new paragraph (f) at the end thereof.

§ 503.43 Fees for services.

* * * * *

(f) The Commission publication entitled "Automobile Manufacturers' Measurements" is available on a fiscal year subscription basis, including any supplements issued during the fiscal year in which purchased, for a fee of $5.00.

Effective date. The amendment contained herein shall be effective July 18, 1967.

THOMAS LISI,
Secretary.

[F.R. Doc. 67-8296; Filed, July 17, 1967; 8:50 a.m.]

Title 49—TRANSPORTATION

Chapter I—Interstate Commerce Commission

SUBCHAPTER A—GENERAL RULES AND REGULATIONS

[S.O. 990-A]

PART 195—CAR SERVICE

Union Pacific Railroad Co. Authorized To Operate Over Trackage of Denver and Rio Grande Western Railroad Co.

At a session of the Interstate Commerce Commission Railroad Service Board, held in Washington, D.C., on the 12th day of July, A.D., 1967.

Upon further consideration of Service Order No. 990 (32 F.R. 793) and good cause appearing therefor:

It is ordered, That:

Section 195.990 *Service Order No. 990,* be, and it is hereby, vacated and set aside.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, and 17(2). Interprets or applies secs. 1(10-17), 15(4), and 17(2), 40 Stat. 101, as amended 54 Stat. 911; 49 U.S.C. 1(10-17), 15(4), and 17(2))

It is further ordered, That this order shall become effective at 11:59 p.m., July 12, 1967; that copies of this order and direction shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of the order shall be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board.

[SEAL] H. NEIL GARSON,
Secretary.

Proposed Rule Making

DEPARTMENT OF AGRICULTURE

Consumer and Marketing Service

[7 CFR Part 945]

IRISH POTATOES GROWN IN CERTAIN DESIGNATED COUNTIES IN IDAHO AND MALHEUR COUNTY, OREG.

Notice of Proposed Expenses and Rate of Assessment

Consideration is being given to the approval of proposed expenses and a proposed rate of assessment as hereinafter set forth, which were recommended by the Idaho-Eastern Oregon Potato Committee, established pursuant to Marketing Agreement No. 98, as amended, and Order No. 945, as amended (7 CFR Part 945), herein referred to collectively as the "order."

This marketing order regulates the handling of Irish potatoes grown in Idaho and Malheur County, Oreg., and is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.).

All persons who desire to submit written data, views, or arguments in connection with these proposals shall file the same, in quadruplicate, with the Hearing Clerk, U.S. Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, not later than the 15th day after the publication of this notice in the FEDERAL REGISTER. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27 (b)).

§ 945.220 Expenses and rate of assessment.

(a) *Expenses.* The reasonable expenses that are likely to be incurred during the fiscal period beginning June 1, 1967, and ending May 31, 1968, by the Idaho-Eastern Oregon Potato Committee, for its maintenance and functioning, and for such other purposes as the Secretary determines to be appropriate, will amount to $32,000.

(b) *Rate of assessment.* The rate of assessment to be paid by each handler in accordance with the amended marketing agreement and this part, shall be two tenths of one cent ($0.002) per hundredweight, or equivalent quantity, of potatoes handled by him as the first handler thereof during the fiscal period.

(c) *Reserve.* Unexpended income in excess of expenses for the fiscal period ending May 31, 1968, may be carried over as a reserve.

(d) *Definition of terms.* Terms used in this section have the same meaning as when used in the said amended marketing agreement and this part.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: July 13, 1967.

FLOYD F. HEDLUND,
Director, Fruit and Vegetable Division, Consumer and Marketing Service.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Parts 71, 75]

[Airspace Docket No. 67-SO-13]

FEDERAL AIRWAYS, JET ROUTES, AND CONTROL AREA

Proposed Alteration and Designation

The Federal Aviation Administration in considering amendments to Parts 71 and 75 of the Federal Aviation Regulations that would alter VOR Federal airway Nos. 7, 22, 35 and 97 and Jet Route No. 2, and designate offshore control area for J–41/43.

The Albany, Ga., VOR and the Tallahassee, Fla., VORTAC will be relocated to sites at approximately latitude 31°-39'19" N., longitude 84°17'33" W., and latitude 30°33'22" N., longitude 84°22'-26" W., respectively. The relocation will be accomplished about October 12, 1967. Concurrently with relocation of the facilities it will be necessary to make the following alterations to the associated airways and jet routes. These actions affect airspace both within and outside the United States.

1. V–7: From Cross City, Fla.; 1,200 feet AGL Greenville, Fla.; 1,200 feet AGL Dothan, Ala., including a 1,200 feet AGL west alternate from Cross City to Dothan via the intersection of Cross City 287° and Marianna, Fla., 141° True radials and Marianna, excluding the airspace between the main and this west alternate.

2. V–22: From Marianna, 1,200 feet AGL; Tallahassee, Fla.; 1,200 feet AGL Greenville. The south alternate from Marianna to Greenville would be revoked.

3. V–35: From Cross City, 1,200 feet AGL Greenville; 1,200 feet AGL Albany, Ga., including a 1,200 feet AGL west alternate via Tallahassee, Fla.; 1,200 feet AGL Macon, Ga., including a 1,200 feet AGL west alternate via the intersection of Albany 013° T (012° Mag.) and Macon, 227° T (226° Mag.) radials.

4. V–97: From La Belle, Fla., 1,200 feet AGL St. Petersburg, Fla.; 1,200 feet AGL Tallahassee, including a 1,200 feet AGL east alternate from the intersection of La Belle 313° T (312° Mag.) and Lakeland, Fla., 175° T (174° Mag.) radials to the intersection of St. Petersburg 331° T (330° Mag.) and Lakeland 307° T (306° Mag.) radials via Lakeland and from the intersection of St. Petersburg 331° T (330° Mag.) and Cross City 201° T (200° Mag.) radials to Tallahassee via Cross City and also a 1,200 feet AGL west alternate from St. Petersburg to the intersection of St. Petersburg 331° T (330° Mag.) and Cross City 201° T (200° Mag.) radials via the intersection of St. Petersburg 316° T (315° Mag.) and Cross City 201° T (200° Mag.) radials; 1,200 feet AGL Albany; 1,200 feet AGL Atlanta, Ga., including a 1,200 feet AGL east alternate via the intersection of Albany 013° T (012° Mag.) and Rex, Ga., 174° T (173° Mag.) radials and the intersection of Rex 174° T (173° Mag.) and Atlanta 147° T (146° Mag.) radials.

5. In V–241 east alternate, the Atlanta 175° T (174° Mag.) radial would be substituted for the Atlanta 174° T (173° Mag.) radial.

6. Jet Route No. 2 would be realigned from Crestview, Fla.; via the intersection of Crestview 091° and Tallahassee 290° True radials, to Tallahassee.

7. V–159 and J–20, J–41, J–43, and J–2 east of Tallahassee associated with the Tallahassee VORTAC would be automatically realigned with the relocated VORTAC.

8. V–97, J–41, and J–43 are designated in part, direct between St. Petersburg and Tallahassee. The portion of this segment of V–97 that extends outside the United States has no upper limit. The portions of these segments of J–41 and J–43 outside the United States are within the control area associated with V–97. To preclude misunderstanding and for records keeping purposes, it is proposed to lower the ceiling of the offshore portion of V–97 to "to but not including 18,000 feet MSL," to conform to the standard vertical extent of Federal airways and to designate control area associated with the offshore portion of J–41 and J–43. This action will not alter the overall assignment of airspace in this area.

As parts of these proposals relate to the navigable airspace outside the United States, this notice is submitted in consonance with the ICAO International Standards and Recommended Practices.

Applicability of International Standards and Recommended Practices, by the Air Traffic Service, FAA, in areas outside domestic airspace of the United States is governed by Article 12 and Annex 11 to the Convention on International Civil Aviation (ICAO), which pertains to the establishment of air navigation facilities and services necessary to promoting the safe, orderly, and expeditious flow of civil air traffic. Its purpose is to insure that civil flying on international air routes is carried out under uniform conditions designed to improve the safety and efficiency of air operations.

The International Standards and Recommended Practices in Annex 11 apply in those parts of the airspace under the jurisdiction of a contracting state, derived from ICAO, wherein air traffic services are provided and also whenever a contracting state accepts the responsibility of providing air traffic services over high seas or in airspace of undetermined sovereignty. A contracting state accepting such responsibility may apply the International Standards and Recommended Practices to civil aircraft in a manner consistent with that adopted for airspace under its domestic jurisdiction.

In accordance with Article 3 of the Convention on International Civil Aviation, Chicago, 1944, state aircraft are exempt from the provisions of Annex 11 and its Standards and Recommended Practices. As a contracting state, the United States agreed by Article 3(d) that its state aircraft will be operated in international airspace with due regard for the safety of civil aircraft.

Since this action involves, in part, the designation of navigable airspace outside the United States, the Administrator has consulted with the Secretary of State and the Secretary of Defense in accordance with the provisions of Executive Order 10854.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should identify that airspace docket number and be submitted in triplicate to the Director, Southern Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, Post Office Box 20636, Atlanta, Ga. 30320. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendments. The proposals contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue SW., Washington, D.C. 20590. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

These amendments are proposed under the authority of section 307(a) and 1110 of the Federal Aviation Act of 1958 (49 U.S.C. 1348 and 1510) and Executive Order 10854 (24 F.R. 9565).

Issued in Washington, D.C., on July 14, 1967.

J. F. BIRON,
Acting Chief, Airspace and Air Traffic Rules Division.

[F.R. Doc. 67-8314; Filed, July 17, 1967; 8:50 a.m.]

INTERSTATE COMMERCE COMMISSION

[49 CFR Ch. I]

[Ex parte No. 249 (Sub-No. 1)]

INFORMAL PROCEDURE FOR DETERMINING MOTOR CARRIER AND FREIGHT FORWARDER REPARATION

Notice of Proposed Rule Making

At a general session of the Interstate Commerce Commission, held at its office in Washington, D.C., on the 29th day of June 1967.

It appearing, that on December 14, 1965, the Commission in Ex Parte No. 249, In the Matter of Informal Procedure for Motor Carrier and Freight Forwarder Reparation, approved a procedure by which motor carriers and freight forwarders may be authorized to pay reparations to shippers in uncontested cases and by order dated June 3, 1966, denied petitions for reconsideration;

It further appearing, that on May 15, 1967, the U.S. District Court for the District of Columbia issued its opinion, and on June 5, 1967, entered its judgment in Civil Action No. 1911–66, National Motor Freight Traffic Association et al. v. United States et al., reversing the order of the Commission dated June 3, 1966, in the above-mentioned proceeding, whereupon the Commission discontinued that proceeding;

And it further appearing, that the principal ground for the Court's decision was that the said procedure was established without the prior institution of a rulemaking proceeding.

It is ordered, That a rulemaking proceeding be, and it is hereby, instituted under Part II and Part IV of the Interstate Commerce Act, particularly sections 204a and 406a (49 U.S.C. 304a and 1006a), and section 4 of the Administrative Procedure Act (5 U.S.C. 552) for the purpose of determining whether any, and if so what, procedure should be prescribed by which motor carriers and freight forwarders may be authorized informally to pay reparations to shippers in uncontested cases. The Commission is considering the prescription of the following procedure:

Motor carriers and freight forwarders who believe that the applicable charges on past shipment via their lines delivered on and after September 6, 1965, were unreasonable and are willing voluntarily to adjust those charges to a reasonable basis, may now by informal procedure apply to the Commission for authorization to pay reparation or to waive undercharges.

These requests may be in the form of a letter or petition and should be addressed to the Informal Cases Branch of the Bureau of Traffic. They should contain the following information as to each shipment:

(a) Dates of origin and delivery, and names of consignor and consignee.

(b) Points of origin and destination, routes, and participating carriers.

(c) Weights, commodity shipped, applicable rates and charges, sought rates and charges, with tariff authority by page and/or item number for each rate.

(d) Evidence and reasons why applicable rates and charges are believed to be unreasonable.

The request should name the proper party in interest on whose behalf adjustment is sought, and should bear the concurrences of that party as well as those of all participating carriers. The evidence to be submitted should include a statement as to when and how the alleged unreasonable rate situation was removed, together with an admission by the carriers that the legally applicable rates or rules were, under all the circumstances and conditions at time of movement, excessive and unreasonable.

It is further ordered, That any person desiring to become a party to this proceeding shall notify the Commission of that fact not later than 20 days from the date of publication of this order in the FEDERAL REGISTER. Thereafter, the Secretary of the Commission shall serve a service list upon all parties within 40 days from the date of this publication.

It is further ordered, That this proceeding be handled under modified procedure, the filing and serving of pleadings to be as follows: (a) Statements of facts, views, and arguments by any interested party as to the above described proposal or any other proposal which it is desired to advance on or before 60 days from the date of service of this order; and (b) 30 days thereafter, any reply statements thereto.

And it is further ordered, That a copy of this order be served on the Public Utility Commission or Boards, or similar regulatory bodies of each State having jurisdiction over transportation by motor common carrier and freight forwarder; that a copy be posted in the Office of the Secretary of the Interstate Commerce Commission for public inspection, and that a copy be delivered to the Director, Office of the Federal Register, for publication in the FEDERAL REGISTER as notice to all interested persons.

By the Commission.

[SEAL] H. NEIL GARSON,
Secretary.

DEPARTMENT OF DEFENSE

Office of the Secretary of Defense

ORGANIZATIONAL STATEMENT

Pursuant to the requirements of section 3a of the Administrative Procedures Act, as amended (5 U.S.C. 552), there follows an organizational statement for the guidance of the public approved by the Assistant Secretary of Defense (Installations and Logistics):

ARMED SERVICES PROCUREMENT REGULATION COMMITTEE

I. *Establishment of Committee and its functions.* The Armed Services Procurement Regulation Committee shall submit recommendations to the Assistant Secretary of Defense (Installations and Logistics), through the Chairman, on the following:

A. New sections and paragraphs of the Armed Services Procurement Regulation.

B. Appropriate revisions to the Armed Services Procurement Regulation.

C. Other matters involving procurement as may be proposed for consideration by the Military Departments or the Defense Supply Agency through their respective members or by the Staff of the Assistant Secretary of Defense (Installations and Logistics) through the Chairman of the Committee.

II. *Membership—Office, Secretary of Defense.* The Assistant Secretary of Defense (Installations and Logistics) shall appoint two members of the Committee—one of whom he shall designate as Chairman of the Committee. In the absence of the Chairman, the other staff member shall act as Chairman.

Military Departments. The Assistant Secretary of each Military Department responsible for procurement shall appoint two members of the Committee, one a procurement policy representative and one a legal representative.

Defense Supply Agency. The Director of the Defense Supply Agency shall appoint two members of the Committee, one a procurement policy representative and one a legal representative.

Security Clearance of Members. Each Military Department and the Defense Supply Agency will certify in its letter appointing members that the appointees have security clearance for TOP SECRET information.

III. *Administration.* A. The Chairman of the Committee will establish the rules of procedure for the Committee and direct its program of work.

B. The Chairman of the Committee will insure that only matters falling within the scope of the functions of the Committee are presented to the Committee for consideration.

C. The Committee may establish subcommittees or working groups to aid the Committee in the performance of its work.

D. The Committee normally shall meet once a week and, when warranted, at more frequent intervals at the call of the Chairman.

E. The Executive Secretary of the Committee shall be designated by the Assistant Secretary of Defense (Installations and Logistics).

IV. *Approval of recommendations of Committee.* The following procedures will be applicable to the processing of the Committee's recommendations:

A. With respect to matters, other than major policy matters, as to which the members are in accord, action of the Committee shall be considered as having the final approval of the Military Departments and the Defense Supply Agency without further review by them, and, upon approval by the Assistant Secretary of Defense (Installations and Logistics), or his authorized representative, regulations or directives developed by the Committee will be published without further coordination.

B. With respect to matters involving major policy or where conflicts among the members cannot be resolved promptly by the Committee, the official Departmental or Agency positions will be presented to the Assistant Secretary of Defense (Installations and Logistics) for resolution in coordination with the Assistant Secretaries responsible for procurement and the Director, Defense Supply Agency. Following approval or resolution by the Assistant Secretary of Defense (Installations and Logistics), the regulation or directive will be published without further coordination.

MAURICE W. ROCHE,
Director, Correspondence and Directives Division, OASD (Administration).

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[ES 2954; Survey Groups 72 and 73]

MICHIGAN

Notice of Filing of Plats of Survey

JULY 12, 1967.

The plats of survey, accepted on May 12, 1967, of islands in two lakes in Michigan, omitted from the original survey, will be officially filed in this Office effective at 10 a.m., on August 14, 1967.

The lands included in these surveys are described as follows:

T. 4 S., R. 2 E., Michigan meridian, Michigan (Group 73—Jackson County),
Sec. 36, lot 7 (an island in Mud Lake).
Containing 1.55 acres.

T. 4 S., R. 6 W., Michigan meridian, Michigan (Group 72—Calhoun County),
Sec. 3, lots 1 and 2 (two islands in Nottawa Lake).
Containing an aggregate of 2.83 acres.

All available evidence indicates that these islands were in existence in 1837 when Michigan was admitted into the Union, and at all times since then. The islands are over 50 percent upland within the meaning of the Swamp Land Act of September 28, 1850.

Subject to valid existing rights, if any, these islands will be opened to petition-applications under the public land laws on the above date. All inquiries relating to these lands should be sent to the Manager, Eastern States Land Office, Bureau of Land Management, 7981 Eastern Avenue, Silver Spring, Md. 20910.

JOSIAH P. HAGAN,
Assistant Manager, Land Office.

[F.R. Doc. 67-8212; Filed, July 17, 1967; 8:45 a.m.]

[A 997]

ARIZONA

Notice of Proposed Withdrawal and Reservation of Lands

The Bureau of Reclamation, Department of the Interior, has filed an application, Serial No. A 997, for the withdrawal of the public lands and any patented lands that may become public in the future, as listed herein, from all forms of location, sale, or entry under the mineral and nonmineral public land laws, subject to valid existing rights. The public lands involved, concurrent with the proposed use of the applicant, will continue to be administered for multiple resource purposes to the best interest of the public.

The Bureau of Reclamation desires these lands to be used for right-of-way, material sites, and side drainage control for the proposed Granite Reef and Salt-Gila Aqueducts, Central Arizona Project.

For a period of 30 days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their view in writing to the undersigned officer of the Bureau of Land Management, Department of the Interior, 3022 Federal Building, Phoenix, Ariz. 85025.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in this application are:

DEPARTMENT OF TRANSPORTATION

Office of the Secretary

NOTICE OF DELEGATION OF AUTHORITY AND ALLOCATIONS AND PRIORITIES FOR TRANSPORTATION DURING CURRENT RAIL STRIKE

Notice is hereby given that the Secretary of Transportation, in carrying out the directions of the President in Executive Order 11362 of July 16, 1967, dealing with the transportation emergency created by the current rail strike, has made certain requests of, and delegation of authority to, the Secretary of Commerce, the Chairman of the Interstate Commerce Commission, and the Chairman of the Civil Aeronautics Board. The requests and delegations are set forth below.

This notice is issued under the authority of section 101(a) of the Defense Production Act of 1950, as amended (50 U.S.C. App. 2071(a)); Executive Order 10480; Executive Order 11362; and section 4(a) of the Department of Transportation Act (80 Stat. 933).

Issued in Washington, D.C., July 17, 1967.

ALAN S. BOYD,
Secretary of Transportation.

THE SECRETARY OF TRANSPORTATION
WASHINGTON, D.C. 20590,
July 16, 1967.

Hon. WILLIAM H. TUCKER,
Chairman,
Interstate Commerce Commission,
Washington, D.C. 20423.

DEAR MR. CHAIRMAN: I enclose a copy of Executive Order 11362, signed today by the President to deal with the transportation emergency created by the current rail strike. Pursuant to section 2 of the order, the Commissioner of the Interstate Commerce Commission referred to in section 201(a)(3) of Executive Order 10480 is expected to carry out the functions delegated and to implement the priorities established pursuant to section 3 of Executive Order 11362.

This Department and the Office of Emergency Planning have established a list of categories of materials and passengers to be accorded priority movement on the operating transportation facilities within your jurisdiction. This list has been prepared with the concurrence of the Department of Defense and the other interested Executive Departments. I request that you take the necessary steps to assure the prompt and efficient movement of these priority categories.

Materials and passengers not included in the enclosed list may be moved on a space-available basis after all priority items have been accommodated; however, nonpriority materials and passengers once loaded should not be displaced by priority movements, nor should allowable nonpriority baggage accompanying passengers be displaced by priority cargo.

I have designated A. Scheffer Lang, the Federal Railroad Administrator, to coordinate this Department's efforts during the present emergency. I request that you report to Mr. Lang your activities pursuant to Executive Order 11362, as well as such information as he may require to carry out the functions of this Department pursuant to that order.

I assure you that this Department will support your efforts in this emergency and will work with and assist you to the fullest extent of our abilities.

Sincerely,

ALAN S. BOYD.

TRANSPORTATION PRIORITY LIST

During the first few days of a rail strike there should be only a few essential categories of items designated to receive transportation priority. The necessity for moving defense items is generally recognized, along with perishable foods such as fresh meats, poultry, eggs, milk, fresh fruits and vegetables, and fresh fish. Included in this general category also is the need for moving all items essential to the public health, including medical supplies and chemicals essential to water and sewage processing.

The priority list includes:

1. All material moving on Government bills of lading issued by military transportation officers;
2. Material moving on commercial bills of lading specifically certified as essential by defense contract administrators;
3. Essential Government personnel travel including military passengers traveling on Government travel requests;
4. Essential U.S. mail;
5. Fresh meats and poultry;
6. Fresh eggs and milk;
7. Fresh fruits and vegetables;
8. Fresh fish and shellfish;
9. Pharmaceuticals, biologicals, surgical textiles and instruments;
10. Hospital and sickroom supplies and equipment, including diagnostic devices and essential support utilities;
11. Professional dental supplies and equipment;
12. Medical laboratory supplies and equipment;
13. Water and sewage processing and handling supplies and equipment, including chlorine, alum, lime, sulphate of iron, soda ash, and similar chemicals and equipment essential to the continuity of operation of water and sewage installations.

THE SECRETARY OF TRANSPORTATION
WASHINGTON, D.C. 20590,
July 16, 1967.

Hon. CHARLES S. MURPHY, *Chairman,*
Civil Aeronautics Board,
Washington, D.C. 20428

DEAR MR. CHAIRMAN: In view of the current railroad strike, the President has today issued Executive Order 11362, a copy of which is enclosed. Pursuant to this order and further pursuant to section 201(a)(4) of Executive Order 10480, as modified by the assignment of responsibility to this Department under section 4(a) of the Department of Transportation Act of 1966 and the transfer of functions to this Department pursuant to that Act, the Chairman of the Civil Aeronautics Board is hereby delegated authority for the effective duration of Executive Order 11362 to exercise the allocation and priorities powers of the Defense Production Act of 1950, as amended, vested in the Secretary of transportation with respect to air transport.

This Department and the Office of Emergency Planning have established a list of categories of materials and passengers to be accorded priority movement on the operating transportation facilities within your jurisdiction. This list has been prepared with the concurrence of the Department of Defense and the other interested Executive Departments. Pursuant to section 8 of Executive Order 11362, enclosed, I request that you take the necessary steps to assure the prompt and efficient movement of these priority categories.

Materials and passengers not included in the enclosed list may be moved on a space-available basis after all priority items have been accommodated; however, nonpriority materials and passengers once loaded should not be displaced by priority movements, nor should allowable nonpriority baggage accompanying passengers be displaced by priority cargo.

I have designated A. Scheffer Lang, the Federal Railroad Administrator, to coordinate this Department's efforts during the present emergency. I request that you report to Mr. Lang your activities pursuant to Executive Order 11362, as well as such information as he may require to carry out the functions of this Department pursuant to that order.

I assure you that this Department will support your efforts in this emergency and will work with and assist you to the fullest extent of our abilities.

Sincerely,

ALAN S. BOYD.

THE SECRETARY OF TRANSPORTATION
WASHINGTON, D.C. 20590,
July 16, 1967.

Hon. ALEXANDER B. TROWBRIDGE,
Secretary of Commerce,
Washington, D.C. 20230.

DEAR MR. SECRETARY: I enclose a copy of Executive Order 11362, signed today by the

President to deal with the transportation emergency created by the current rail strike. Pursuant to section 2 of the order and section 201(a)(4) of Executive Order 10480, the Secretary of Commerce is expected to carry out the functions delegated with respect to maritime transportation and to implement the priorities established pursuant to section 3 of Executive Order 11362.

This Department and the Office of Emergency Planning have established a list of categories of materials and passengers to be accorded priority movement on the operating transportation facilities within your jurisdiction. This list has been prepared with the concurrence of the Department of Defense and the other interested Executive Departments. I request that you take the necessary steps to assure the prompt and efficient movement of these priority categories.

Materials and passengers not included in the enclosed list may be moved on a space-available basis after all priority items have been accommodated; however, nonpriority materials and passengers once loaded should not be displaced by priority movements, nor should allowable nonpriority baggage accompanying passengers be displaced by priority cargo.

I have designated A. Scheffer Lang, the Federal Railroad Administrator, to coordinate this Department's efforts during the present emergency. I request that you report to Mr. Lang your activities pursuant to Executive Order 11362, as well as such information as he may require to carry out the functions of this Department pursuant to that order.

I assure you that this Department will support your efforts in this emergency and will work with and assist you to the fullest extent of our abilities.

Sincerely,

ALAN S. BOYD.

BELL TELEPHONE COMPANY OF PENNSYLVANIA AND CONESTOGA TELEPHONE AND TELEGRAPH CO.

Order Rescheduling Hearing

In re applications of The Bell Telephone Co. of Pennsylvania, Docket No. 17302, File No. 1688-C2-P-66; for a construction permit to modify the facilities of Station KGA585 in the Domestic Public Land Mobile Radio Service at Philadelphia, Pa.; The Conestoga Telephone and Telegraph Co., Docket No. 17303, File No. 679-C2-P-66; for a construction permit to establish new facilities in the Domestic Public Land Mobile Radio Service near Boyertown, Pa.

The Hearing Examiner is in receipt of a communication from counsel for The Conestoga Telephone and Telegraph Co. requesting that the comparative hearing now scheduled for July 10, 1967, be continued;

It appearing, that the applicants herein are in the process of entering into an agreement which counsel state would eliminate the need for a comparative hearing;

It further appearing, that counsel for The Bell Telephone Co., as well as the Commission's Common Carrier Bureau, have no objection to the instant request;

Accordingly, it is ordered, That the request is granted, and the hearing now scheduled for July 10 be and the same is hereby rescheduled for September 12, 1967, 10 a.m., in the Commission's offices, Washington, D.C.

Issued: July 6, 1967.

Released: July 12, 1967.

MADISON COUNTY BROADCASTING CO., INC. (WRTH)

Order Continuing Further Prehearing Conference

In re application of Madison County Broadcasting Co., Inc. (WRTH), Wood River, Ill., Docket No. 16980, File No. BP-16612; for construction permit.

The Hearing Examiner having under consideration a petition for continuance of prehearing conference filed on July 3, 1967;

It appearing, that no purpose would be served by holding a further conference on July 5 as now scheduled inasmuch as certain pleadings now pending before the Commission have not received final action;

It is ordered, That the aforesaid petition for continuance is granted and the date for further prehearing conference is continued from July 5 to September 6, 1967 at 9:30 a.m.

Issued: July 3, 1967.

Released: July 12, 1967.

[Docket Nos. 17521, 17522; FCC 67-702]

MESA MICROWAVE, INC., AND VUMORE CO.

Memorandum Opinion and Order Designating Applications for Consolidated Hearing on Stated Issues

In re application of Mesa Microwave, Inc., Docket No. 17521, File No. 1833-C1-R-66; for renewal of license of station KLH82, Muenster, Tex.; Vumore Co., Docket No. 17522, File No. 22628-IB-25X; for construction permit for a new microwave point-to-point radio station to provide service to applicant's CATV system at Ardmore, Okla.

1. Mesa Microwave, Inc., seeks renewal of its license for Station KLH82, Muenster, Tex., in the Domestic Public Point-to-Point Microwave Radio Service providing service to its CATV customer, Vumore Co., in Ardmore, Okla. Vumore is a company affiliated with Mesa Microwave. Vumore has filed an application in the Business Radio Service for a construction permit for a new microwave point-to-point radio station to relay the signal of Station KWTV, Oklahoma City, Okla., to its CATV system at Ardmore. In connection with the above-captioned applications we are faced with the question of whether the Vumore CATV system is obligated to afford carriage and program exclusivity to Station KTEN (ABC, NBC, CBS), Ada, Okla., and program exclusivity to Station KXII (NBC, CBS), Ardmore, Okla. and Sherman-Denison, Tex. Ardmore lies within the predicted Grade B contours of KXII and KTEN. Vumore operates a 5-channel CATV system at Ardmore carrying the signals of Stations KWTV (CBS), Oklahoma City, Okla.; KTVT (Indep.), Fort Worth, Tex.; KFDX-TV (NBC), Wichita Falls, Tex.; WFAA-TV (ABC), Dallas-Fort Worth, Tex.; KXII; and KTEN. Stations KTVT and WFAA-TV are brought in by common carrier microwave relay; the other stations are received off-the-air.

2. The previous renewal of Mesa Microwave's license to provide microwave service to Ardmore was conditioned subject to compliance with the carriage and program exclusivity requirements of the rules with respect to KXII and KTEN (FCC 65-967, released Oct. 29, 1965). By memorandum opinion and order, FCC 65-1090, 1 FCC 2d 1601, the Commission denied a Petition for Reconsideration filed by Mesa Microwave in which it sought to have these conditions removed. The Commission ruled with respect to KTEN that no reliance could be placed on Mesa Microwave's measurement data which purported to show that KTEN does not place a measured (as opposed to predicted) Grade B signal over Ardmore. However, as to KXII the Commission stated that independent information available to the Commission raised a factual question as to the quality and reliability of the KXII signal and deferred action on this portion of the petition pending submission of further factual data by the parties.

3. The supplementary information requested by the Commission relating to the KXII signal has been filed by Mesa Microwave and Texoma Broadcasters, Inc., licensee of KXII. Mesa submitted an engineering survey which purports to show that the picture quality of the KXII signal at Ardmore is inferior. KXII states, as before, that Mesa Microwave's measurement data is unreliable and that its signal is being degraded by the Vumore CATV system. As to KTEN, Mesa Microwave has filed in connection with its present renewal application a "Petition for Declaratory Ruling" which contains new measurement data alleging that KTEN does not provide Grade B service to Ardmore. KTEN opposes Mesa Microwave's engineering showing and contends that no reliance should be placed on this measurement data.

4. We have examined the data submitted by the parties and are unable on the basis of this material to make final determinations regarding either the strength of the KTEN signal in Ardmore or the quality and reliability of the KXII signal. Furthermore, independent information available to the Commission raises factual questions as to the strength and quality of these signals on the Vumore CATV system. We will therefore designate these applications for hearing on appropriate issues to resolve these disputed matters so that we may properly determine whether Vumore is required to comply with the carriage and program exclusivity requirements of §§ 21.712 and 91.559 of the rules as to these stations.

5. Since first licensed to Mesa Microwave on January 22, 1960, Station KLH82 has rendered services to a single affiliated CATV system. We have granted previous renewals of the license for Station KLH82 even though compliance with former § 21.709(a) of our rules had not been demonstrated.[1] In filing the instant renewal application, Mesa requested, if necessary, waiver of § 21.709 which provides for only short term renewal (in order to preserve the opportunity to transfer to the Community Antenna Relay Service) for microwave systems unable to comply with the 50 percent tests specified in § 21.709(a) of the Commission's rules for full term renewal. It appears that such waiver would be necessary for a full term renewal. However, on the basis of the record before us, we are not persuaded that grant of such waiver has been justified. Accordingly, an appropriate issue will be included in this hearing to determine whether grant of such waiver would serve the public interest.

6. We find that except for the issues herein designated, Mesa Microwave, Inc., and Vumore Co., as microwave applicants or licensees, are legally, technically, financially, and otherwise qualified to render the services they have proposed.

Accordingly, it is ordered, Pursuant to section 309 of the Communications Act, §§ 21.712, 74.1103, and 91.559 of the Commission's rules, that the above-captioned applications are designated for hearing in a consolidated proceeding to the extent reflected in the following issues:

(1) To determine whether Station KTEN, Ada, Okla., provides a signal to Ardmore, Okla., or any part thereof, which meets Grade B field strength requirements.

(2) To determine the quality and reliability of the off-the-air signal of Station KXII.

(3) To determine whether the signal of Station KXII is materially degraded and, if so, the source of the degradation.

(4) To determine whether, in view of the findings adduced under issues 1-3, the Vumore CATV system should be required to afford carriage and program exclusivity, as provided by §§ 21.712, 74.1103, and 91.559 of the rules, to Station KTEN and program exclusivity to KXII.

(5) To determine whether the services rendered by Station KLH82 comply with the requirements of § 21.709 (a) of the Commission's rules, and, if not, whether waiver of the requirements of § 21.709 would serve the public interest.

(6) To determine, in the light of the evidence adduced on the foregoing is-

[1] On Oct. 30, 1961, we granted a 2-year renewal because the facilities had only been in operation for a little over 1 year which did not appear to afford sufficient time in which to effect compliance with our rule requiring service to independent subscribers. A second renewal was granted on Oct. 27, 1965, by our order (FCC 65-967) until Feb. 1, 1966, without determining compliance with former § 21.709(a) in order to preserve the opportunity for election under § 21.709, as amended.

sues, whether grant of either or both of the subject applications would serve the public interest, convenience, or necessity. Eastern Oklahoma Television Co., Inc., licensee of Station KTEN, and Texoma Broadcasters, Inc., licensee of Station KXII, are made parties to this proceeding and to participate must comply with the applicable provisions of § 1.221 of the Commission's rules. Mesa Microwave, Inc., will have the burden of proof with respect to issues 1, 3, 4, and 5; Texoma has the burden with respect to issue 2. A time and place for the hearing will be specified in another order.

It is further ordered, That the "Petition for Declaratory Ruling" filed by Mesa Microwave, Inc., on February 28, 1966, is denied.

It is further ordered, That the "Petition to Deny", filed by Eastern Oklahoma Television Co., Inc., licensee of Station KTEN, Ada, Okla., on March 16, 1965, is granted to the extent indicated above, but is otherwise denied.

It is further ordered, That the "Petition to Deny or to Condition Grant", filed by Texoma Broadcasters, Inc., licensee of Station KXII, Ardmore, Okla., on July 7, 1965, is granted to the extent indicated above, but is otherwise denied.

It is further ordered, That the "Petition for Immediate Grant", filed by Vumore Co. on April 15, 1966, is denied.

Adopted: June 14, 1967.

Released: July 12, 1967.

[Docket No. 17569; FCC 67-782]

PEAK AIR CONDITIONER CO.

Order Designating Application for Hearing on Stated Issues

In the matter of Peak Air Conditioner Co., Chicago, Ill., Docket No. 17569; application for authorization in the citizens radio service.

The Commission had under consideration the above-entitled application for a Class D radio station license in the Citizens Radio Service. The applicant is a business partnership composed of Norbert Siegler, Lynn Siegler, and Gerold Siegler.

There are substantial questions as to:

(a) Whether Norbert Siegler or Lynn Siegler operated a radio transmitter, in violation of section 301 of the Communications Act of 1934, as amended;

(b) Whether Norbert Siegler, while operating a radio transmitter on Citizens Radio Services frequencies, engaged in conduct prohibited by the Commission's rules governing that service; and

(c) Whether Norbert Siegler made false statements to Commission personnel inspecting a radio station located on his premises.

In view of these questions, the Commission is unable to find that a grant of the captioned application would serve the public interest, convenience and necessity and must, therefore, designate the application for hearing. Except for the issues specified herein, the applicant is otherwise qualified to hold a Citizens Radio Service license.

Accordingly, it is ordered, Pursuant to section 309(e) of the Communications Act of 1934, as amended, and § 1.973(b) of the Commission's rules, that the captioned application is designated for hearing at a time and place to be specified by subsequent order upon the following issues:

(1) To determine whether Norbert Siegler or Lynn Siegler operated radio apparatus in violation of section 301 of the Communications Act of 1934, as amended.

(2) To determine whether Norbert Siegler, while operating such radio apparatus on Citizens Radio Service frequencies, engaged in conduct which, had he been licensed, would have been prohibited by §§ 95.95(c), 95.83(b), and 95.43 of the Commission's rules.

(3) To determine whether Norbert Siegler made a false representation to Commission personnel inspecting the radio station located on his premises.

(4) To determine whether, since Norbert and Lynn Siegler are principals in the applicant partnership, and in light of the evidence adduced with respect to the foregoing issues, the applicant possesses the requisite qualifications to be a licensee of the Commission.

(5) To determine whether, in light of the evidence adduced with respect to the foregoing issues, a grant of the captioned application would serve the public interest, convenience and necessity.

It is further ordered, That, to avail itself of the opportunity to be heard, the applicant herein, pursuant to § 1.221 of the Commission's rules, in person or by attorney, shall within 20 days of the mailing of this order file with the Commission in triplicate a written appearance stating an intent to appear on the date fixed for hearing and present evidence on the issues specified in this order; and

It is further ordered, That the Chief, Safety and Special Radio Services Bureau, shall, within 10 days after the release of this order, furnish a Bill of Particulars to the applicant herein setting forth the basis for the above issues.

Adopted: July 5, 1967.

Released: July 12, 1967.

FEDERAL COMMUNICATIONS COMMISSION,

[SEAL] BEN F. WAPLE,
Secretary.

[F.R. Doc. 67-8260; Filed, July 17, 1967; 8:49 a.m.]

[Docket Nos. 17316, 17317; FCC 67R-291]

ROVAN TELEVISION, INC., AND ROMAC MACON CORP.

Memorandum Opinion and Order Enlarging Issues

In re applications of Rovan Television, Inc., Macon, Ga., Docket No. 17316, File No. BPCT-3571; Romac Macon Corp., Macon, Ga., Docket No. 17317, File No. BPCT-3684; for construction permit for new television broadcast station.

1. The above applications for a construction permit for a new UHF television station (Channel 24) were designated for hearing by Commission order FCC 67-362, adopted March 22, 1967, and released March 30, 1967. Now before the Review Board is a motion to enlarge issues, directed against Romac Macon Corp. (Romac), and filed by Rovan Television, Inc. (Rovan) on April 21, 1967.[1] The issues in the hearing were first published in the FEDERAL REGISTER on April 4, 1967 (32 F.R. 5527). Accordingly, the motion is untimely, since, under Rule 1.229(b), it should have been filed no later than 15 days after the above FEDERAL REGISTER publication, i.e., no later than April 19, 1967. Rovan has not attempted to set forth why the motion could not have been timely filed; thus, good cause for the delay in filing cannot be found, and the motion will not be granted. Rule 1.229(b).

2. Consistent with the approach announced by the Board in The Edgefield-Saluda Radio Co., 5 FCC 2d 148, 8 RR 2d 611 (1966), and with a view to ascertaining whether the issues requested by Rovan should be added notwithstanding the lateness of the petition, the Board has examined the pleadings to determine whether (a) serious public interest questions are presented, and (b) the likelihood of proving the respective allegations is so substantial as to outweigh the public interest benefits inherent in the orderly and fair administration of the Commission's business. Based on that examination it is the Board's view that, except as to the matter discussed in the paragraph next below, Romac has satisfactorily refuted or otherwise overcome the Rovan allegations, and that evidentiary inquiry along the lines suggested by Rovan would not be productive.[2] With respect to a requested Suburban programing issue, Romac has demonstrated that it has adequately surveyed Macon's needs, and that its proposed programing is reasonably related to the survey.[3] And with respect to "good faith" allegations and related "real principal in control" allegations, Romac's explanations as to how Hopper came to be a subscriber of a majority of Romac's stock and as to Hopper's role in Romac's future affairs are adequate and credible.[4]

3. In the Romac Baton Rouge case cited in note 4, supra, the Board added qualifications issues to determine whether Romac Baton Rouge failed to disclose material facts in its application and/or failed to keep its application up to date. In Miss Lou Broadcasting Corp., FCC 67-698 (released June 26, 1967), a proceeding in which Romac Baton Rouge is seeking a construction permit for a new FM broadcast station in Baton Rouge, the Commission, noting the Board's action in the Baton Rouge television proceeding, specified the same qualifications issues for the FM proceeding. The Commission further provided that the same Hearing Examiner preside in both Baton Rouge proceedings, and that the "common qualifications issue [be] heard at one time with all the parties participating." The pleadings now before the Board indicate that the same questions under Rule 1.65 are present with respect to the Romac Macon television application, and the Board believes that a procedure patterned on that adopted by the Commission in the Miss Lou case should be followed here. Accordingly, the Board is adding the appropriate issues in the instant case, but is directing that they be heard in the Baton Rouge proceeding, Rovan and Romac to be admitted as parties to that proceeding for the limited purpose of participating with respect to the common qualifications issues. The determinations as to those issues in the latter proceeding will, of course, be dispositive of the issues in the instant proceeding. Cf. KFNF Broadcasting Corp., FCC 63R-99, 24 RR 1170, and Edina Corp., FCC 63R-101, 24 RR 1167.[5]

Accordingly, it is ordered, That the petitions to accept late pleadings, filed by Romac Macon Corp. and Rovan Television, Inc., on May 16, 1967, and May 29, 1967, respectively, are granted; and that the motion to enlarge issues, filed by Rovan Television, Inc., on April 21, 1967, is denied.

It is further ordered, That the issues in this proceeding are enlarged by the addition of the following issues:

To determine whether Romac Macon Corp. and Romac Baton Rouge Corp. submitted complete and accurate information in response to the Commission's application form, FCC 301, and have continued to keep the Commission advised of "substantial and significant changes" as required by § 1.65 of the Commission's rules.

To determine in light of the evidence adduced under the foregoing issue whether Romac Macon Corp. possesses the requisite qualifications to be a broadcast licensee of this Commission.

It is further ordered, That the above issues are consolidated into the proceedings in Docket No. 17005 (Romac Baton Rouge Corp.); and that Rovan Television, Inc., and Romac Macon Corp. be admitted as parties to that proceeding for the limited purpose set forth above.

Adopted: July 10, 1967.

Released: July 12, 1967.

FEDERAL COMMUNICATIONS COMMISSION,[6]

[SEAL] BEN F. WAPLE,
Secretary.

[F.R. Doc. 67-8261; Filed, July 17, 1967; 8:49 a.m.]

[1] Also before the Board are comments filed by the Broadcast Bureau on May 15, 1967, an opposition filed by Romac on May 16, 1967, and a reply filed by Rovan on May 29, 1967. Each of the last two pleadings was accompanied by a petition for acceptance of late filed pleading setting forth good cause for the untimely filing.

[2] Cf. Washington Broadcasting Co., 5 FCC 2d 387, 8 RR 2d 873 (1966).

[3] The Broadcast Bureau's support for this issue was premised on an assumption that Romac had not made an appropriate survey, an assumption overcome by Romac's opposition.

[4] As the Broadcast Bureau points out, the Rovan allegations here are similar to the "trafficking" allegations lodged in another proceeding against a Baton Rouge television applicant having ownership in common with Romac Macon. For the Board's order denying a request for a trafficking issue in the prior proceeding, see Romac Baton Rouge Corp., 7 FCC 2d 504, 9 RR 2d 1029 (1967).

[5] Board Members Nelson and Pincock absent.

[6] A further prehearing conference in the above-entitled proceeding was held today. As the record shows, the parties, through counsel, have negotiated an agreement which, if approved, looks towards the dismissal of the Romac Macon Corp. application and will render moot the standard comparative issue. The application of Rovan Television, Inc., however, would have to be retained in hearing status in order to resolve financial questions raised in issue 1 of the order designating the applications for hearing. It is contemplated that Rovan Television, Inc., will seek to provide satisfactory answers to these questions in an admendment to its application. The applicants have committed themselves to submit a joint petition for approval of their settlement agreement by no later than the close of business July 17. In the meantime, the hearing is to be postponed from July 24 to Friday, September 8, at 9 a.m.;

Accordingly, it is ordered, That the hearing in the above entitled proceeding is hereby rescheduled and will convene at 9 a.m., on Friday, September 8, 1967, at the Commission's offices, Washington, D.C.

Issued: July 7, 1967.

Released: July 13, 1967.

FEDERAL COMMUNICATIONS COMMISSION,

[SEAL] BEN F. WAPLE,
Secretary.

[F.R. Doc. 67-8262; Filed, July 17, 1967; 8:49 a.m.]

[Docket Nos. 17316, 17317; FCC 67M-1131]

ROVAN TELEVISION, INC., AND ROMAC MACON CORP.

Order Rescheduling Hearing

In re applications of Rovan Television, Inc., Macon, Ga., Docket No. 17316, File No. BPCT-3571; Romac Macon Corp., Macon, Ga., Docket No. 17317, File No. BPCT-3684; for construction permits.

[1] The Board notes that Hearing Examiner Isadore A. Honig is the presiding officer in the two Baton Rouge proceedings, and that Hearing Examiner David I. Kraushaar is the presiding officer in the instant proceeding. It further notes that by order FCC 67M-1096 (released June 30, 1967) in the Baton Rouge television proceeding, Examiner Honig provided for an exhibit exchange date of July 13, 1967, and a hearing date of Aug. 3, 1967. It may be that extensions of time with respect to those dates will be appropriate should Rovan elect to participate in that proceeding with respect to the 1.65 issues. Whether both Examiners should preside with respect to the common issues, or whether reassignments should be made to the end that one Examiner hear all three cases, are questions left to the discretion of the Chief Hearing Examiner.

[Docket No. 17561; FCC 67M-1125]

SANFORD SCHAFITZ

Order Scheduling Hearing

In re application of Sanford Schafitz, Farrell, Pa., Docket No. 17561, File No. BPH-5281; for construction permit.

It is ordered, That James D. Cunningham shall serve as Presiding Officer in the above-entitled proceeding; that the hearings therein shall be convened on September 13, 1967, at 10 a.m.; and that a prehearing conference shall be held on July 18, 1967, commencing at 9 a.m.: *And, it is further ordered*, That all proceedings shall take place in the offices of the Commission, Washington, D.C.

Issued: June 30, 1967.

SOUTHINGTON BROADCASTERS

Memorandum Following Prehearing Conference

In re application of Fitzgerald C. Smith trading as Southington Broadcasters, Southington, Conn., Docket No.

15871, File No. BP-16405; for construction permit.

At a prehearing conference held today, only the applicant and the Broadcast Bureau entered appearance. At the conference, ways and means of proceeding to another hearing were discussed. Future procedural steps and a timetable governing them were worked out and are set forth below. The distant hearing date was occasioned by the condition of the Examiner's own docket.

October 9, 1967—Applicant will exchange its direct presentation.

November 1, 1967—Applicant will be notified of the witnesses the Bureau wants to cross examine.

November 13, 1967—Hearing.

So ordered.

Issued: July 7, 1967.

Released: July 13, 1967.

[Docket No. 17560; FCC 67-758]

V.W.B., INC.

Memorandum Opinion and Order Designating Application for Hearing on Stated Issues

In re application of V.W.B., Inc., Bridgeton, N.C., Docket No. 17560, File No. BP-16766; Requests: 1380 kc, 5 kw, Day, Class III; for construction permit.

1. The Commission has before it for consideration (a) the above application; (b) petitions to deny the application by Jefferay Broadcasting Corp. and New Bern Broadcasting Co., Inc., licensees of Stations WRNB and WHIT, respectively, of New Bern, N.C.; and (c) pleadings in opposition and reply thereto.

2. Each petitioner bases its claim of standing as a party in interest on the allegation that the proposed new station would be located within its service area and compete with it for advertising revenue. The Commission finds that petitioners have standing as parties in interest within the purview of section 309(d)(1) of the Communications Act of 1934, as amended, and § 1.580(i) of the Commission's rules. FCC v. Sanders Bros. Radio Station, 309 U.S. 470 (1940).

3. Petitioners request designation of the application for hearing with a 307(b) suburban issue[1] specified for the purpose of determining whether the applicant is realistically proposing to become a New Bern rather than a Bridgeton[2] mentioned Policy Statement, however, no presumption to that effect arises because New Bern's population is under 50,000. Nevertheless, petitioners claim that the applicant should be required to meet the burden under the 307(b) suburban issue because the proposal covers all of New Bern with a signal of at least 25 mv/m; Bridgeton's children attend New Bern's schools in grades 7 through 12; and Bridgeton has no drugstores, clothing stores, jewelry stores, appliance stores, automobile dealers, banks, physicians, dentists, or lawyers. Thus, petitioners conclude that Bridgeton is economically and otherwise dependent upon New Bern.

4. In opposition, the applicant states that although Bridgeton is a small town, it is incorporated and has a life of its own apart from New Bern. The applicant further states that the residents of New Bern represent less than 30 percent of the total population of Craven County which is 58,773; that in addition to the rural population of Craven County large portions of adjacent Jones, Pamlico, and Beaufort Counties are underserved; and that the proposed station in serving these areas could rely on sources of revenue outside of New Bern.

5. In adopting the aforementioned policy, we determined that applications specifying one community would be presumed, for 307(b) purposes, to be proposing realistically to serve another larger community if the proposed 5 mv/m contour penetrated the city limits of the larger community and the larger community had at least twice the population of the smaller and contained at least 50,000 persons. This 5 mv/m—50,000 population test, however, was not meant to serve as an inflexible standard. In the last paragraph of the policy statement,[4] we acknowledged the right of interested parties to attempt to raise the issue on petition and stated that such attempts would receive favorable consideration if the petitioner could make a threshhold showing that the proposal would realistically serve primarily a community other than the one specified. This is not to say that the burden a petitioner must carry under these circumstances is a light one. We are not going to designate applications for hearing merely because they happen to place a strong signal over a somewhat larger community, because to do so would certainly disrupt our processes and enable existing stations to delay the establishment of competitive broadcast facilities. But where, as here, the proposed power is greatly in excess of that needed to provide adequate coverage of the specified community and its immediate environs, and what is more significant, where there is such a great disparity in the relative size of the towns,[5] we believe a 307(b) suburban issue is warranted. Furthermore, we note that, although the proposed power and the relative size of the communities alone support this conclusion, these factors assume added significance when coupled with the fact that this proposal would not have been accepted for filing, due to prohibited overlap received, if it had specified the larger town.[6]

6. In its petition, Jefferay Broadcasting Corp. (WRNB) requested that an issue be specified to determine whether the applicant is financially qualified to construct and operate the proposed station. We find that the applicant's financial showing is not current and for that reason it will be necessary for the applicant to establish its qualifications in hearing. Since this action is being taken on our motion, there is no need for us to rule on WRNB's specific allegations.

7. Except as indicated by the issues specified below, the applicant is qualified. However, in view of the foregoing, the Commission is unable to find that a grant of the application would serve the public interest, convenience and necessity, and is of the opinion that it must be designated for hearing on the issues set forth below.

Accordingly, it is ordered, That, pursuant to section 309(e) of the Communications Act of 1934, as amended, the application is designated for hearing, at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine the areas and populations which would receive service from the proposed operation of the applicant and availability of other primary service to such areas and populations.

2. To determine whether the applicant is financially qualified to construct and operate its proposed station.

3. To determine whether the proposal of V.W.B., Incorporated will realistically provide a local transmission facility for its specific station location or for another larger community, in the light of all the relevant evidence, including, but not necessarily limited to, the showing with respect to:

(a) The extent to which the specified station location has been ascertained by the applicant to have separate and distinct programing needs;

(b) The extent to which needs of the specified station location are being met by existing standard broadcast stations;

(c) The extent to which the applicant's program proposal will meet the specific unsatisfied programing needs of the specified station location; and

(d) The extent to which the projected sources of the applicant's advertising revenues within its specified station location are adequate to support its proposal, as compared with its projected sources from all other areas.

4. To determine, in the event that it is concluded pursuant to the foregoing issue (a) that the proposal of the applicant will not realistically provide a local transmission service for its specified station location, whether such proposal meets all of the technical provisions of the rules for standard broadcast stations assigned to New Bern, N.C.

5. To determine, in the light of the evidence adduced pursuant to the foregoing issues, whether a grant of the application would serve the public interest, convenience and necessity.

It is further ordered, That the aforementioned petitions are granted to the extent indicated above and are denied in all other respects.

It is further ordered, That Jefferay Broadcasting Corp. and New Bern Broadcasting Co., Inc., licensees of standard broadcast stations WRNB and WHIT, respectively, both of New Bern, N.C., are made parties to the proceeding.

It is further ordered, That, in the event of a grant of this application, the construction permit shall contain the following condition:

Pending a final decision in Docket No. 14419 with respect to presunrise operation with daytime facilities, the present provisions of § 73.87 of the Commission's rules are not extended to this authorization, and such operation is precluded.

It is further ordered, That, to avail themselves of the opportunity to be heard, the applicant and parties respondent herein, pursuant to § 1.221(c) of the Commission's rules, in person or by attorney, shall, within 20 days of the mailing of this order, file with the Commission in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this order.

It is further ordered, That the applicant herein shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and § 1.594 of the Commission's rules, give notice of the hearing, within the time and in the manner prescribed in such rule, and shall advise the Commission of the publication of such notice as required by § 1.594(g) of the rules.

Adopted: June 28, 1967.

Released: July 7, 1967.

transmission service. Under the aforesaid circumstances, we believe that the proposal would realistically serve primarily a community other than the one specified. This is not to say that the burden a petitioner must carry under these circumstances is a light one. We are not going to designate applications for hearing merely because they happen to place a strong signal over a somewhat larger community, because to do so would certainly disrupt our processes and enable existing stations to delay the establishment of competitive broadcast facilities. But where, as here, the proposed power is greatly in excess of that needed to provide adequate coverage of the specified community and its immediate environs, and what is more significant, where there is such a great disparity in the relative size of the towns, we believe a 307(b) suburban issue is warranted. Furthermore, we note that, although the proposed power and the relative size of the communities alone support this conclusion, these factors assume added significance when coupled with the fact that this proposal would not have been accepted for filing, due to prohibited overlap received, if it had specified the larger town.

[1] Policy statement on section 307(b) considerations for standard broadcast facilities involving surburban communities, FCC 65-1153, 6 RR 2d 1901.

[2] According to the 1960 U.S. Census, the populations of New Bern and Bridgeton are 15,717 and 638, respectively.

[3] Note 1, supra, at 1907.

[4] Bridgeton's population is only 4 percent as large as New Bern's.

[5] Since WRNB and WHIT are licensed to New Bern, the first station exception to section 73.37(a) would not have been available to a prospective applicant seeking to serve that community.

[6] Commissioner Johnson absent.

FEDERAL MARITIME COMMISSION

GREAT LAKES TERMINALS ASSOCIATION

Notice of Agreements Filed for Approval

Notice is hereby given that the following Agreements have been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement(s) at the Washington office of the Federal Maritime Commission, 1321 H Street NW., Room 609; or may inspect agreements at the offices of the District Managers, New York, N.Y., New Orleans, La., and San Francisco, Calif. Comments with reference to an agreement including a request for hearing, if desired, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, within 20 days after publication of this notice in the FEDERAL REGISTER. A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter), and the comments should indicate that this has been done.

Notice of agreement filed for approval by:

Mr. Thomas D. Wilcox, Attorney, 1625 K Street NW., Washington, D.C. 20006.

Agreement No. T-2065 provides for the creation of the Great Lakes Terminal Association composed of the following parties:

Seaway Port Authority of Duluth, Duluth, Minn.
Ceres, Inc., Toledo, Ohio.
Pier, Inc., Milwaukee, Wis.
Stearns Milwaukee Marine Terminal, Inc., Milwaukee, Wis.
Morelli Overseas Export Service of Wisconsin, Inc., Kenosha, Wis.
Nicholson Cleveland Terminal Co., Cleveland, Ohio.
Chicago Terminals, Inc., Chicago, Ill.
Leicht Transfer & Storage Co., Green Bay, Wis.
Hansen Seaway Service, Ltd., Milwaukee, Wis.
Calumet Harbor Terminal, Chicago, Ill.
Great Lakes Storage & Contracting Corp., Chicago, Ill.
North Pier Terminal, Chicago, Ill.
Rogers Terminal & Shipping Corp., Chicago, Ill.
Transoceanic Terminal Corp., Chicago, Ill.
West Michigan Dock & Market Corp., Muskegon, Mich.
Bay City Seaway Terminal, Bay City, Mich.
Wickes Marine Terminal, Bay City, Mich.
Detroit Harbor Terminals, Inc., Detroit, Mich.
The Cleveland Stevedore Co., Cleveland, Ohio.
Lederer Terminal Warehouse Co., Cleveland, Ohio.
Toledo Overseas Terminals Co., Toledo, Ohio.
Pinney Dock & Transport Co., Ashtabula, Ohio.

Pursuant to the terms of the agreement the members agree to (1) confer, consult and discuss rates, rules, and regulations pertaining to marine terminal operations on and about the Great Lakes and their tributaries; (2) confirm by affirmative vote of three-fourths of the parties' rates, rules, and regulations; *Provided*, That each member will retain the right of independent action after giving other parties 30 days written notice of intent to do so; (3) publish rates, rules, and regulations, or charges thereto in either individual tariffs or a joint tariff, with at least 30 days advance filing before the effective date thereof unless for good cause it is agreed that a lesser time is necessary; (4) observe and charge, without deviation, rates, rules, and regulations agreed upon pursuant to the agreement, except upon the right of independent action provided for; (5) permit eligible marine terminal operators to become members of the Association; (6) maintain minutes of meetings, records or proposals, and actions taken pursuant to the agreement and to file same with the Federal Maritime Commission; and (7) provide for hearing and considering shippers' requests and complaints.

Dated: July 13, 1967.

By order of the Federal Maritime Commission.

THOMAS LISI,
Secretary.

[F.R. Doc. 67-8238; Filed, July 17, 1967; 8:47 a.m.]

AMERICAN GREAT LAKES MEDITERRANEAN EASTBOUND FREIGHT CONFERENCE

Notice of Agreements Filed for Approval

Notice is hereby given that the following agreements have been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement(s) at the Washington office of the Federal Maritime Commission, 1321 H Street NW., Room 609; or may inspect agreements at the office of the District Managers, New York, N.Y., New Orleans, La., and San Francisco, Calif. Comments with reference to an agreement including a request for hearing, if desired, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, within 20 days after publication of this notice in the FEDERAL REGISTER. A copy of any such statement should

also be forwarded to the party filing the agreement (as indicated hereinafter) and the comments should indicate that this has been done.

Notice of agreement filed for approval by:

Mr. Elliott B. Nixon, Burlingham, Underwood, Barron, Wright & White, 26 Broadway, New York, N.Y. 10004.

Agreement 9000-3, between the member lines of the American Great Lakes Mediterranean Eastbound Freight Conference, modifies the basic agreement to provide: (1) For the deletion of Article III and the substitution of the following language in lieu thereof:

3.1 Any member which fails to provide a sailing in the trade for a period of six (6) consecutive months during the same or consecutive Great Lakes shipping seasons shall thereafter become subject to expulsion from the Conference pursuant to the provisions of Article IV hereof. Except as provided in Article 12.2(b), no such inactive Member shall have any right to vote until it has furnished satisfactory evidence of its ability and intention to resume and maintain regular service in the trade.

(2) For the deletion of the present provision of Article 12.2(b) and substitution of the following provision in lieu thereof:

No inactive Member, as described in Art. 3.1, shall be entitled to vote on any matter except upon the amendment of this agreement.

(3) For an increase in the present amount of the admission fee from $1,250 to $5,000, and other changes in conformity therewith.

Dated: July 13, 1967.

By order of the Federal Maritime Commission.

THOMAS LISI,
Secretary.

[F.R. Doc. 67-8239; Filed, July 17, 1967; 8:47 a.m.]

MEDITERRANEAN-U.S.A. GREAT LAKES WESTBOUND FREIGHT CONFERENCE

Notice of Agreements Filed for Approval

Notice is hereby given that the following agreements have been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement(s) at the Washington office of the Federal Maritime Commission, 1321 H Street NW., Room 609; or may inspect agreements at the office of the District Managers, New York, N.Y., New Orleans, La., and San Francisco, Calif. Comments with reference to an agreement including a request for hearing, if desired, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, within 20 days after publication of this notice in the FEDERAL REGISTER. A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the comments should indicate that this has been done.

Notice of agreement filed for approval by:

Elliott B. Nixon, Esq., Burlington, Underwood, Barron, Wright & White, 26 Broadway, New York, N.Y. 10004.

Agreement 8260-11, between the member lines of the Mediterranean-U.S.A. Great Lakes Westbound Freight Conference, amends Article 8 of the basic agreement by deleting the last three paragraphs and substituting the following provisions in lieu thereof:

Wherever reference is made in this Agreement to voting by, or presence at meetings of, all or a specified proportion of the membership, such reference shall be deemed to mean only those Member Lines entitled to vote.

Any Member which fails to provide a sailing in this trade for a period of six (6) consecutive sailing months (November, December, January, February, and March excepted) during the same or consecutive Great Lakes shipping seasons, shall thereafter become subject to expulsion from the Conference pursuant to the provisions of the second paragraph of Article 11 hereof. No such inactive Member shall have any right to vote, except upon proposed change in this Agreement, until it has furnished satisfactory evidence of its ability and intention to resume and maintain regular service in the trade.

Notice of suspension or restoration of voting rights or of any change in the Conference Membership shall be promptly furnished to the Federal Maritime Commission.

Dated: July 13, 1967.

By order of the Federal Maritime Commission.

THOMAS LISI,
Secretary.

FEDERAL POWER COMMISSION

[Docket No. CS67-76, etc.]

CRA, INC., ET AL.

Findings and Order

JULY 7, 1967.

Findings and order after statutory hearing issuing small producer certificates, terminating certificates, canceling rate schedules, severing proceedings, terminating proceedings, making rate changes effective, granting relief, and requiring proper refund assurance.

Each Applicant herein has filed an application pursuant to section 7(c) of the Natural Gas Act and § 157.40 of the regulations thereunder for a small producer certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce from the Permian Basin area of Texas and New Mexico, all as more fully set forth in the applications.

Each Applicant is presently authorized to sell natural gas from the Permian Basin area. The small producer certificates issued herein shall be effective as of the date of this order.

The certificates heretofore issued to Applicants will be terminated and certain related rate schedules will be canceled.

Each Applicant has certain rate schedules on file with initial rates collected pursuant to permanent or conditioned temporary certificates or with increased rates, effective subject to refund, which exceed the applicable area base rates prescribed in Opinion No. 468. To permit Applicants to continue collecting the existing rates, such related rate schedules and applicable suspension proceedings will not be terminated with the issuance of the small producer certificates.

McAlester Fuel Co., Applicant in Docket No. CS67-77, proposes to have its suspended rate of 18.4138 cents per Mcf in Docket No. RI65-140 made effective subject to refund as of the date of this order. By the order issued in Docket No. RI65-140 on October 9, 1964, action on the proposed rate increase was deferred pending final determination of a complaint filed by Pan American Petroleum Corp. in regards to the New Mexico Emergency School Tax; the rate has never been made effective. The proposed rate will be made effective subject to refund, under McAlester Fuel Co., FPC Gas Rate Schedule No. 2, as of the date of this order, provided an appropriate agreement and undertaking is filed in compliance with section 154.102 of the Commission's regulations within 30 days of issuance of the small producer certificate.

Petroleum Exploration, Inc., of Texas, Applicant in Docket No. CS67-82, has a current effective rate of 17.2295 cents per Mcf being collected under a conditioned temporary certificate. Petroleum Exploration will be advised of its refund obligation, as may be determined by the Commission, for sales of gas made prior to and after September 1, 1965, at rates in excess of the applicable area base rate under the conditioned temporary certificate issued in Docket No. CI63-368.

A. R. Eppenauer, FPC Gas Rate Schedule No. 4 will not be terminated. The current rate under said rate schedule is below the applicable area base rate; however, Eppenauer, Applicant in Docket No. CS67-83, has indicated that he will file for an increased rate due under his contract. Said increased rate will exceed the applicable area base rate.

The suspension proceeding in Docket No. RI64-698 will be severed from the "Order to Show Cause" issued concurrently with Opinion No. 468 and will be terminated. The proposed rate under United States Smelting Refining & Mining Co., FPC Gas Rate Schedule Nos. 14 and 15 will be made effective, without refund obligation, as of September 1, 1965, inasmuch as the suspended rate (not made effective subject to refund) is below the applicable area base rate.

Applicants will be advised that, pending final judicial review of the Permian Basin Opinions, they will be authorized to continue to collect rates in excess of the applicable Permian Basin area base rates, for sales authorized prior to September 1, 1965, and such rates will be subject to rejection as of the date of the order granting the small producer certificates herein, in the event the court stay of the Permian Opinion Nos. 468 and 468-A is dissolved or the moratorium provisions of the opinions are upheld upon judicial review. The collection of such rates will also be subject to the refund provisions of ordering paragraph (D) of Opinion No. 468, as well as refund provision of any applicable suspension proceeding.

The Commission's staff has reviewed each application and recommends each action ordered as consistent with all substantive Commission policies and required by the public convenience and necessity.

After due notice no petition to intervene, notice of intervention, or protest to the granting of the applications has been received.

At a hearing held on June 29, 1967, the Commission on its own motion received and made a part of the record in this proceeding all evidence, including the applications and exhibits thereto, submitted in support of the authorizations sought herein, and upon consideration of the record.

The Commission finds:

(1) Each Applicant is engaged in the sale of natural gas in interstate commerce for resale for ultimate public consumption, subject to the jurisdiction of the Commission, and each is, therefore, a "natural-gas company" within the meaning of the Natural Gas Act as heretofore found by the Commission.

(2) The sale of natural gas hereinbefore described, as more fully described in the applications herein and in the Appendix hereto, will be made in interstate commerce subject to the jurisdiction of the Commission, and such sales by Applicants, together with the construction and operation of any facilities will be subject to the requirements of subsections (c) and (e) of section 7 of the Natural Gas Act.

(3) Applicants are able and willing properly to do the acts and to perform the service proposed and to conform to the provisions of the Natural Gas Act and the requirements, rules, and regulations of the Commission thereunder.

(4) Applicants are independent producers of natural gas who are not affiliated with natural gas pipeline companies and whose total jurisdictional sales on a nationwide basis, together with sales of affiliated producers, were not in excess of 10 million Mcf at 14.65 p.s.i.a. during the preceding calendar year.

(5) The sales of natural gas by Applicants, together with the construction and operation of any facilities subject to the jurisdiction of the Commission necessary therefor, are required by the public convenience and necessity, and a small producer certificate of public convenience and necessity therefor should be issued as hereinafter ordered and conditioned.

(6) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act that the certificates heretofore issued to Applicants are terminated and certain related rate schedules, as set forth in the Appendix, are canceled.

The Commission orders:

(A) Small producer certificates of public convenience and necessity are issued upon the terms and conditions of this order authorizing the sale for resale and the delivery of natural gas in interstate commerce by Applicants from the Permian Basin area of Texas and New Mexico, together with the construction and operation of any facilities subject to the jurisdiction of the Commission necessary therefor, all as more fully described in the applications in this proceeding.

(B) The certificates granted in paragraph (A) above are not transferable and shall be effective only so long as Applicants continue the acts or operations hereby authorized in accordance with the provisions of the Natural Gas Act and the applicable rules, regulations, and orders of the Commission and particularly,

(a) The subject certificate shall be applicable only to all present and future "small producer sales," as defined in § 157.40(a)(3) of the regulations under the Natural Gas Act, from the Permian Basin area;

(b) Except where otherwise authorized in this order, sales made under these small producer certificates shall not be at rates in excess of those set forth in § 157.40(b)(1) of the regulations under the Natural Gas Act; however, for sales authorized prior to September 1, 1965, Applicants may file notices of changes in rate for any contractually authorized rates in excess of the ceiling rates, which increased rates shall be subject to suspension pursuant to section 4(e) of the Natural Gas Act and subsequently may be rejected as of the date of filing, as provided by the order granting relief issued February 6, 1967, in Docket No. CS66-48 et al.;

(c) Applicants shall file annual statements pursuant to § 154.104 of the regulations under the Natural Gas Act.

(C) The certificates granted in paragraph (A) above shall remain in effect for small producer sales until the Commission on its own motion or on application terminates said certificates because Applicants no longer qualify as "small producers" or fail to comply with the requirements of the Natural Gas Act, the regulations thereunder, or the terms of the certificates. Upon such termination Applicants will be required to file separate certificate applications and individual rate schedules for future sales. To the extent compliance with the terms of this order is observed, the small producer certificates will still be effective as to those sales already included thereunder.

(D) The grant of the certificates issued in paragraph (A) above shall not be construed as a waiver of the requirements of section 7 of the Natural Gas Act or Part 157 of the Commission's regulations thereunder, and is without prejudice to any findings or orders which have been or may hereafter be made by the Commission in any proceedings now pending or hereafter instituted by or against Applicants. Further our action in this proceeding shall not foreclose nor prejudice any future proceedings or objections relating to the operation of any price or related provision in the gas purchase contracts herein involved. Nor shall the grant of the certificates aforesaid for service to the particular customers involved imply approval of all of the terms of the contracts particularly as to the cessation of service upon termination of said contracts as provided by section 7(b) of the Natural Gas Act. Nor shall the grant of the certificates aforesaid be construed to preclude the imposition of any sanctions pursuant to the provisions of the Natural Gas Act for the unauthorized commencement of any sales subject to said certificates.

(E) The certificates issued herein shall be effective on the date of this order.

(F) The certificates issued heretofore to Applicants are terminated and certain related rate schedules, as set forth in the Appendix, are canceled.

(G) McAlester, Applicant in Docket No. CS67-77, is authorized to collect 18.4138-cent rate subject to the refund provisions of paragraphs (H) and (I) hereof.

(H) Within 30 days from the issuance of this order McAlester Fuel Co. shall execute, in the form set out below, and shall file with the Secretary of the Commission an acceptable agreement and undertaking in Docket No. RI65-140 to assure the refund of any amounts collected by it, together with interest at the rate of 7 percent per annum, in excess of the amount determined to be just and reasonable in said proceeding. Unless notified to the contrary by the Secretary of the Commission within 30 days from the date of submission, such agreement and undertaking shall be deemed to have been accepted for filing.

(I) McAlester Fuel Co. shall comply with the refunding and reporting procedure required by the Natural Gas Act and § 154.102 of the regulations thereunder, and the agreement and undertaking filed by McAlester Fuel Co. in Docket No. RI65-140 shall remain in full force and effect until discharged by the Commission.

(J) The suspension proceeding in Docket No. RI64-698 is severed from the "Order to Show Cause" issued concurrently with Opinion 468 and said proceeding is terminated. The proposed rate under United States Smelting Refining & Mining Co., Applicant in Docket No. CS67-85, FPC Gas Rate Schedule Nos. 14 and 15, is made effective, without refund obligation, as of September 1, 1965, inasmuch as the suspended rate is below the applicable area base rate.

(K) Applicants, pending final judicial review of the Permian Basin Opinion, are authorized to continue to collect rates in excess of the applicable Permian Basin area base rates for sales authorized prior to September 1, 1965, and such rates are subject to rejection as of the date of this order in the event the court stay of the Permian Opinion Nos. 468 and 468-A is dissolved or the moratorium

provisions of the opinions are upheld upon judicial review. The collection of such rates is also subject to the refund provisions of ordering paragraph (D) of Opinion No. 468, as well as the refund provisions of any applicable suspension proceeding.

(L) The issuance and termination of certificates and the cancellation of rate schedules herein shall not relieve Applicants from compliance with any orders which have been or may be issued in Applicants' pending rate proceedings and in the proceeding in Docket No. AR61–1 et al., including refund obligations, and from the submission of refund reports for sales made at rates in excess of the applicable area base rates prior to and after September 1, 1965, and the date of this order; nor shall any action taken herein be construed to relieve Applicants from the obligations of making refunds for sales commenced pursuant to conditioned or unconditioned temporary certificates if the Commission finds that such refunds are required.

By the Commission.

[SEAL] GORDON M. GRANT, *Secretary.*

PLACID OIL CO. ET AL.

Order Providing for Hearings on and Suspension of Proposed Changes in Rates [1]

JULY 7, 1967.

The Respondents named herein have filed proposed increased rates and charges of currently effective rate schedules for sales of natural gas under Commission jurisdiction, as set forth in Appendix A hereof.

The proposed changed rates and charges may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is in the public interest and consistent with the Natural Gas Act that the Commission enter upon hearings regarding the lawfulness of the proposed changes, and that the supplements herein be suspended and their use be deferred as ordered below.

The Commission orders:

(A) Under the Natural Gas Act, particularly sections 4 and 15, the regulations pertaining thereto (18 CFR Ch. I), and the Commission's rules of practice and procedure, public hearings shall be held concerning the lawfulness of the proposed changes.

(B) Pending hearings and decisions thereon, the rate supplements herein are suspended and their use deferred until date shown in the "Date Suspended Until" column, and thereafter until made effective as prescribed by the Natural Gas Act.

(C) Until otherwise ordered by the Commission, neither the suspended supplements, nor the rate schedules sought to be altered, shall be changed until disposition of these proceedings or expiration of the suspension period.

(D) Notices of intervention or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C. 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 and 1.37(f)) on or before August 23, 1967.

By the Commission.

[SEAL] GORDON M. GRANT, *Secretary.*

[1] Does not consolidate for hearing or dispose of the several matters herein.

PRENALTA CORP. ET AL.

Order Providing for Hearing on and Suspension of Proposed Change in Rate, and Allowing Rate Change To Become Effective Subject to Refund

JULY 7, 1967.

Respondent named herein has filed a proposed change in rate and charge of a currently effective rate schedule for the sale of natural gas under Commission jurisdiction, as set forth in Appendix A hereof.

The proposed changed rate and charge may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is in the public interest and consistent with the Natural Gas Act that the Commission enter upon a hearing regarding the lawfulness of the proposed change, and that the supplement herein be suspended and its use be deferred as ordered below.

The Commission orders:

(A) Under the Natural Gas Act, particularly sections 4 and 15, the regulations pertaining thereto (18 CFR Ch. I), and the Commission's rules of practice and procedure, a public hearing shall be held concerning the lawfulness of the proposed change.

(B) Pending hearing and decision thereon, the rate supplement herein is suspended and its use deferred until date shown in the "Date Suspended Until" column, and thereafter until made effective as prescribed by the Natural Gas Act: *Provided, however,* That the supplement to the rate schedule filed by Respondent shall become effective subject to refund on the date and in the manner herein prescribed if within 20 days from the date of the issuance of this order Respondent shall execute and file under its above-designated docket number with the Secretary of the Commission its agreement and undertaking to comply with the refunding and reporting procedure required by the Natural Gas Act and § 154.102 of the regulations thereunder, accompanied by a certificate showing service of a copy thereof upon the purchaser under the rate schedule involved. Unless Respondent is advised to the contrary within 15 days after the filing of its agreement and undertaking, such agreement and undertaking shall be deemed to have been accepted.

(C) Until otherwise ordered by the Commission, neither the suspended supplement, nor the rate schedule sought to be altered, shall be changed until disposition of this proceeding or expiration of the suspension period.

(D) Notices of intervention or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C. 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 and 1.37(f)) on or before August 23, 1967.

By the Commission.

[SEAL] GORDON M. GRANT, *Secretary.*

APPENDIX A

Docket No.	Respondent	Rate schedule No.	Supplement No.	Purchaser and producing area	Amount of annual increase	Date filing tendered	Effective date unless suspended	Date suspended until	Cents per Mcf: Rate in effect	Cents per Mcf: Proposed increased rate	Rate in effect subject to refund in docket Nos.
RI67–478	Prenalta Corp. (Operator) et al., Post Office Box 2514, Casper, Wyo. 82601, Attn: James A. Masterson, Assistant Secretary.	1	[1] 2	Colorado Interstate Gas Co. (East Desert Springs Area, Sweetwater County, Wyo.)	$3,577	6–7–67	[2] 7–8–67	[3] 7–9–67	[4] 15.0	[5] [6] [7] 17.25	

[1] Includes statement that B.t.u. content will be measured on a wet basis and at a pressure equivalent to 30 inches of mercury at 32° F.
[2] The stated effective date is the first day after expiration of the statutory notice.
[3] The suspension period is limited to 1 day.
[4] The pressure base is 14.65 p.s.i.a.
[5] Increase due to upward B.t.u. adjustment for 1160 B.t.u. gas.
[6] Includes 2.25 cents per Mcf upward B.t.u. adjustment which is maximum allowed under terms of contract, as amended.
[7] Initial rate.

Prenalta Corp. (Operator) et al. (Prenalta) request a retroactive effective date of January 17, 1967, for their proposed rate increase. Good cause has not been shown for waiving the 30-day notice requirement provided in section 4(d) of the Natural Gas Act to permit an earlier effective date for Prenalta's rate filing and such request is denied.

Prenalta has submitted a proposed increase involving the application of an upward B.t.u. price adjustment to a jurisdictional sale of gas from the East Desert Spring Area, Sweetwater County, Wyo., to Colorado Interstate Gas Co. (Colorado Interstate). The proposed rate increase is from a permanently certificated rate of 15 cents per Mcf to 17.25 cents per Mcf as a result of a 2.25 cents per Mcf B.t.u. adjustment for 1,160 B.t.u. gas.[1]

Deliveries under Prenalta's contract commenced on January 20, 1967. The gas is presently processed for liquids in Colorado Interstate's main extraction plant in Rawlins, Wyo., and the revenues derived from the sale of such liquids are credited against Colorado Interstate's cost of service in determining jurisdictional rates.

Prenalta's contract was executed on August 31, 1966, subsequent to September 28, 1960, the date of issuance of the Commission's statement of general policy No. 61-1. Although the total rate of 17.25 cents per Mcf exceeds both the increased rate ceiling of 13.7 cents and the initial service ceiling of 15 cents for Wyoming, the rate exceeds the initial ceiling by the 2.25 cents upward B.t.u. adjustment. We conclude in these circumstances that Prenalta's proposed rate increase should be suspended for one day from July 8, 1967, the date of expiration of the statutory notice.

INTERAGENCY TEXTILE ADMINISTRATIVE COMMITTEE

CERTAIN COTTON TEXTILES AND COTTON TEXTILE PRODUCTS PRODUCED OR MANUFACTURED IN PAKISTAN

Entry or Withdrawal From Warehouse for Consumption

JULY 13, 1967.

On November 21, 1966, the U.S. Government in furtherance of the objectives of, and under the terms of the Long-Term Arrangement Regarding International Trade in Cotton Textiles done at Geneva on February 9, 1962, concluded a comprehensive agreement with the Government of Pakistan concerning exports of cotton textiles from Pakistan to the United States over a 4-year period beginning on July 1, 1966. On July 3, 1967, this agreement was amended by an exchange of notes constituting a new 4-year agreement beginning retroactively on July 1, 1966.

The second year of the amended agreement begins on July 1, 1967, and extends through June 30, 1968. Specific limits are provided for Categories 9, 15, 18/19, 22, parts of 26, part of 31, and 41/42.

By a letter to the Commissioner of Customs dated May 29, 1967, the Chairman of the President's Cabinet Textile Advisory Committee amended the directive of December 6, 1966, as amended, which had established levels of restraint for the period July 1, 1966, through June 30, 1967. The letter of May 29, 1967, provided for certain increases in the levels of restraint applicable to Categories 9, 15, 22, part of 26, and 41/42, in order to implement the provisions of paragraph 5 of the agreement of November 21, 1966, and to resolve certain problems that had arisen in the implementation of the first year of the agreement. In announcing this action, it was noted that, "A portion of the entries provided for herein may be charged against the levels applicable under the second year of the agreement, beginning July 1, 1967."

Accordingly, there is published below a letter of June 30, 1967, from the Chairman of the President's Cabinet Textile Advisory Committee to the Commissioner of Customs providing new designated adjusted levels of restraint for the indicated categories for the second year of the agreement, the 12-month period beginning July 1, 1967. These levels are subject to further adjustment in accordance with paragraph 5 of the agreement and in connection with the completion of administrative arrangements relating to the implementation of the first year of the agreement of November 21, 1966, as amended.

STANLEY NEHMER,
Chairman, Interagency Textile Administrative Committee, and Deputy Assistant Secretary for Resources.

THE SECRETARY OF COMMERCE

PRESIDENT'S CABINET TEXTILE ADVISORY COMMITTEE

WASHINGTON, D.C. 20230.
June 30, 1967.

COMMISSIONER OF CUSTOMS,
Department of the Treasury,
Washington, D.C. 20226.

DEAR MR. COMMISSIONER: Under the terms of the Long-Term Arrangement Regarding International Trade in Cotton Textiles done at Geneva on February 9, 1962, in accordance with the bilateral cotton textile agreement of November 21, 1966, between the United States and Pakistan, and in accordance with the procedures outlined in Executive Order 11052 of September 28, 1962, as amended by Executive Order 11214 of April 7, 1966, you are directed, effective as soon as possible and for the 12-month period beginning July 1, 1967, and extending through June 30, 1968, to prohibit entry into the United States for consumption and withdrawal from warehouse for consumption of cotton textiles and cotton textile products in Categories 9, 15, 18/19, 22, parts of 26, part of 31, and 41/42, produced or manufactured in Pakistan, in excess of the following designated adjusted levels of restraint:

Category	12-month level of restraint	Adjusted 12-month level of restraint [1]
9 ..... square yards	29,958,000	27,615,000
15 ..... do	2,625,000	2,128,000
18/19 & parts of 26 [2] ..... do	10,500,000	10,500,000
22 ..... do	8,570,000	8,970,000
Part of 26 [3] ..... do	3,675,000	3,925,000
Part of 26 (duck) [4] ..... do	7,350,000	7,350,000
Part of 31 (Only T.S.U.S.A. No. 366.2740) ..... pieces	4,095,000	4,095,000
41/42 ..... dozen	340,000	287,000

[1] These levels of restraint reflect an administrative arrangement between the Governments of the United States and Pakistan under paragraph 12 of the agreement of Nov. 21, 1966.

[2] In Category 26, Only T.S.U.S.A. Nos.:

320.34	322.34	327.34	
326.34	326.34	328.34	

[3] Only T.S.U.S.A. Nos.:

320.09	323.09	320.95	323.92	325.92	326.92	328.92	329.92
321.09	326.09	321.09	324.92	326.92	327.92	329.92	330.92
322.09	327.09	320.92	325.92	326.92	328.92	330.92	331.92
323.09	328.09	321.92	326.92	327.92			

[4] Only T.S.U.S.A. Nos.:

320.01 through 04, 08, 09
321.01 through 04, 08, 09
322.01 through 04, 08, 09
326.01 through 04, 08, 09
327.01 through 04, 08, 09
328.03 through 04, 08, 09

The following instructions shall apply in carrying out this directive:

(1) Subject to (3) below, entries of cotton textiles and cotton textile products in Categories 9, 15, 22, part of 26,[2] and 41/42, produced or manufactured in Pakistan, shall to the extent of any unfilled balances, be first charged against the adjusted special 12-month levels of restraint provided therefor in the directive of May 29, 1967, before being charged against the levels established for such goods in this letter.

(2) Entries of cotton textiles and cotton textile products in Categories 18/19, part of 26,[3] part of 26 (duck),[4] part of 31 (only T.S.U.S.A. No. 366.2740), produced or manufactured in Pakistan and which have been exported to the United States prior to July 1, 1967, shall, to the extent of any unfilled balances, be charged against the levels established for such goods for the period July 1, 1966, through June 30, 1967. In the event that the level of restraint established for the period July 1, 1966 through June 30, 1967 has been exhausted by previous entries, such goods shall be subject to the directives set forth in this letter.

(3) Cotton textiles and cotton textile products in Categories 15, parts of 26 (T.S.U.S.A. Nos. 321.....34, 322.....34, 327.....34, and 328.....34 only) and 41/42, produced or manufactured in Pakistan and which have been exported to the United States from Pakistan prior to July 1, 1966, shall not be subject to this directive.

A detailed description of the categories in terms of T.S.U.S.A. numbers was published in the FEDERAL REGISTER on July 7, 1966 (31 F.R. 9310).

In carrying out the above directive, entry into the United States for consumption shall be construed to include entry for consumption into the Commonwealth of Puerto Rico.

The levels of restraint set forth above are subject to adjustment pursuant to the bilateral agreement of November 21, 1966, as amended, between the Governments of the United States and Pakistan which provides in part that within the aggregate and applicable group limits of the agreement, limits on certain categories may be exceeded by not more than 5 percent. Any adjustments provided for in the bilateral agreement will be made in further directives to you, as may be appropriate.

The actions taken with respect to the Government of Pakistan and with respect to imports of cotton textiles and cotton textile products from Pakistan have been determined by the President's Cabinet Textile Advisory Committee to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs, being necessary to the implementation of such actions, fall within the foreign affairs exception to the notice provisions of 5 U.S.C. 553. This letter will be published in the FEDERAL REGISTER.

Sincerely yours,

A. B. TROWBRIDGE,
Secretary of Commerce, and Chairman, President's Cabinet Textile Advisory Committee.

SECURITIES AND EXCHANGE COMMISSION

[70-4318]

AMERICAN GAS CO. AND AMERICAN GAS COMPANY OF WISCONSIN, INC.

Fourth Supplemental Order Regarding Issue and Sale of Notes to Banks

JULY 12, 1967.

American Gas Co. ("American"), a registered holding company, and its public-utility subsidiary company, American Gas Co. of Wisconsin, Inc. ("Wisconsin"), Omaha, Nebr., have filed with this Commission, pursuant to sections 6(a) and 7 of the Public Utility Holding Company Act of 1935 ("Act"), a fourth post-effective amendment to the amended application-declaration in this matter regarding the following proposed transactions.

Wisconsin has outstanding 6¼ percent promissory notes in the amount of $450,000, maturing on June 30, 1967, all of which are held by Harris Trust & Savings Bank, Chicago, Ill. Such notes were issued, renewed, or extended pursuant to orders of the Commission in this proceeding dated October 26, 1965, February 10, 1966, May 2, 1966, and November 1, 1966 (Holding Company Act Release Nos. 15335, 15398, 15459, and 15591). The company now proposes to renew or extend said notes for an additional period or periods of not to exceed in the aggregate 180 days from June 30, 1967. The notes will bear interest at a rate of not in excess of 1 percent over the prime rate in effect at the time of renewal or extension.

Wisconsin also proposes to issue and sell, from time to time, to a bank or banks additional notes in an aggregate amount not exceeding $100,000 to be outstanding at any one time. These notes, as issued or as renewed or extended, will mature no later than December 31, 1967, and will bear interest at a rate of not in excess of 1 percent over the prime rate in effect at the time of issuance, renewal, or extension. The additional notes are to provide funds required for property additions, operating expenses, and the payment of interest on outstanding debt.

No State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Due notice having been given of the filing of said fourth post-effective amendment to the amended application-declaration in the manner prescribed in Rule 23 promulgated under the Act (Holding Company Act Release No. 15769) and no hearing having been requested of or ordered by the Commission; the Commission finding that the applicable standards of the Act and rules promulgated thereunder are satisfied and that no adverse findings are necessary; and the Commission deeming it appropriate in the public interest and in the interest of investors and consumers that said amended application-declaration, as amended by the fourth post-effective amendment, be granted and permitted to become effective:

It is ordered, Pursuant to the applicable provisions of the Act and rules thereunder, that said amended application-declaration, as amended by the fourth post-effective amendment, be, and hereby is, granted and permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule 24 promulgated under the Act.

For the Commission (pursuant to delegated authority).

[SEAL] ORVAL L. DUBOIS,
Secretary.

[F.R. Doc. 67-8218; Filed, July 17, 1967; 8:45 a.m.]

[243FW-1395]

AUTROPONICS, INC.

Order Canceling Hearing and Making Suspension Permanent

JULY 12, 1967.

I. The Commission issued an order on January 23, 1967, temporarily suspending the exemption under section 3(b) of the Securities Act of 1933, as amended, and Regulation A promulgated thereunder, for a proposed offering by Autroponics, Inc., 21 Turtle Creek Square, Dallas, Tex., of 118,300 shares of its $1 par value common stock at a price of $1.875 per share, or an aggregate offering price of $221,812.50. A written request for a hearing in this matter was received on February 23, 1967, and a hearing was ordered by the Commission to be held on June 26, 1967, which was subsequently postponed to July 24, 1967, because of continuing discussions between counsel.

II. The allegations contained in the order dated January 23, 1967, which formed the basis for the entry of the temporary suspension of the Regulation A exemption of Autroponics, Inc., are as follows:

A. The offering circular and notification contain untrue statements of material facts and omit to state material facts necessary in order to make the statements made, in the light of the circumstances under which they are made, not misleading, particularly with respect to:

1. The failure to disclose, adequately and accurately, the highly speculative nature of the issuer's proposed business and in particular:

(a) The unsuccessful history of hydroponic grass when used for animal feed and the reasons for this lack of success;

(b) The fact that hydroponic grass has no recognized advantage as an animal feed when supplied to an already balanced ration;

(c) The fact that hydroponic grass' value where added to an inadequate ration must be balanced against the high cost of amortizing the investment in necessary equipment;

(d) The unsuccessful history of Hydroponics, Inc., of Indianapolis, Ind., a company for which the president of the issuer formerly worked and the reasons for this lack of success.

2. The failure to disclose adequately and accurately:

(a) The number of shares issued to management for (1) cash, and for (2) services, including the prices paid in cash for such shares, and the basis for computing the value of the services for which shares were issued;

(b) The dilution that will occur in the equity represented by shares which might be purchased by the public under this notification and the correlative appreciation in the equity represented by the shares held by officers, directors and other present stockholders, at no cost to such persons.

[1] Prenalta's contract previously accepted by the Commission provides for proportional upward and downward B.t.u. adjustments from a base of 1,000 B.t.u.'s, with such adjustment not to exceed a plus or minus 2.25 cents per Mcf.

B. The terms and conditions of Regulation A have not been complied with in that:

1. The aggregate offering price of the proposed offering when computed in accordance with the requirements of Rules 253 and 254 exceeds the $300,000 ceiling permissible under section 3(b) of the Securities Act and Regulation A thereunder.

2. Items 2(c) and 9(b) of Form 1–A inaccurately reflect the holdings of and transactions in the shares of the issuer by persons specified in such items.

3. The financial statements included in the offering circular fail to conform to the requirements of Item 11 of Schedule I.

C. The offering would be made in violation of section 17 of the Securities Act of 1933, as amended.

III. Autroponics, Inc., filed with the Commission on July 3, 1967, a request to withdraw its request for a hearing and the Division of Corporation Finance and the Fort Worth Regional Office have not objected thereto. Therefore,

It is ordered, That the hearing in this matter now scheduled for July 24, 1967, at 10 a.m. at the Fort Worth Regional Office, 503 U.S. Courthouse, 10th and Lamar Streets, Fort Worth, Tex. 76012, be, and it hereby is, canceled.

It is further ordered, Pursuant to the provisions of Rule 261 of Regulation A adopted under section 3(b) of the Securities Act of 1933, as amended, that the temporary order of suspension heretofore entered in these proceedings be, and it hereby is, made permanent.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[70–4503]

CENTRAL INDIANA GAS CO., INC.

Notice of Proposed Issue and Sale of Short-Term Notes to Bank

JULY 12, 1967.

Notice is hereby given that Central Indiana Gas Co., Inc. ("Central"), 300 East Main Street, Muncie, Ind. 47305, a public-utility subsidiary company of American Natural Gas Co., a registered holding company, has filed a declaration with this Commission, pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6 and 7 thereof as applicable to the proposed transactions. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transactions.

Central presently has outstanding notes payable to banks in an aggregate principal amount of $4 million of which $1 million matures August 19, 1967, $2 million matures September 24, 1967, and $1 million matures November 21, 1967. Central proposes to issue and sell, during the period from August 15, to November 21, 1967, its unsecured promissory notes to the American Fletcher National Bank & Trust Co. ("American") in an aggregate principal amount of $5 million. Such notes will be issued and sold to pay Central's presently outstanding $4 million of notes and to partially finance its 1967 construction, estimated at $2,400,000.

Each note proposed to be issued by Central will bear interest at the prime rate at American on the date of its issue; will mature on July 31, 1968; and will be prepayable at any time without penalty. The declaration states that the net proceeds from the sale by Central of any permanent debt securities will be applied in total payment of or in reduction of all notes then outstanding and, thereupon, any amount of promissory notes which Central may be authorized by this Commission to issue and sell under this declaration will cease to be effective or will be reduced by the amount of such net proceeds.

The declaration states that when a recently passed law of the State of Indiana becomes effective, the approval of the Public Service Commission of Indiana will be unnecessary for the issue of notes having a maturity of less than 12 months. In anticipation of the effective date of such law and in order to reduce State filing fees, which amount to $2,500 per $1 million of securities authorized, Central has filed an application with the Indiana commission to issue only $1 million of the proposed notes and to use the proceeds derived from the sale thereof to pay its $1 million note maturing August 19, 1967. In this declaration Central initially requests that this Commission's authorization be limited to the issue and sale of notes in an aggregate amount not in excess of $1 million and states that, prior to August 15, 1967, it will file, by amendment to this declaration, an appropriate order of the Indiana commission authorizing the issue of said $1 million of notes or an appropriate statement that no such authorization is necessary. In addition, Central will file by amendment to this declaration supplemental requests for authority to issue and sell the remaining balance of $4 million of proposed notes which notes may be issued and sold only pursuant to appropriate order of this Commission.

The fees and expenses to be incurred in connection with the proposed transactions will be filed by amendment. The declaration states that the Public Service Commission of Indiana may, at this time, be deemed to have jurisdiction over the proposed issue of notes and that a copy of that Commission's order authorizing the issuance will be filed by amendment. The declaration further states that no other State commission, and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than August 14, 1967, request in writing that a hearing be held in respect of such matter, stating the nature of his interest, the reasons for such request and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified should the Commission order a hearing in respect thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the declarant at the above-stated address, and proof of service thereof (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as filed or as it may be amended, may be permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission (pursuant to delegated authority).

INVESTORS DIVERSIFIED SERVICE, INC., ET AL.

Notice of Filing of Application for Order of Exemption

JULY 12, 1967.

In the matter of Investors Diversified Services, Inc., 800 Investors Building, Minneapolis, Minn.; Investors Mutual, Inc., Investors Selective Fund, Inc., Investors Stock Fund, Inc., Investors Variable Payment Fund, Inc., 100 Roanoke Building, Minneapolis, Minn.; Alleghany Corp., 350 Park Avenue, New York, N.Y.

Notice is hereby given that Investors Mutual, Inc. ("Mutual"); Investors Selective Fund, Inc. ("Selective"); Investors Stock Fund, Inc. ("Stock"); Investors Variable Payment Fund, Inc. ("Variable"); (collectively "the Funds"), all registered under the Investment Company Act of 1940 ("the Act") as open-end management investment companies, and their investment adviser, Investors Diversified Services, Inc. ("IDS") and Alleghany Corp. ("Alleghany"), a controlling person of IDS, have filed an application pursuant to section 6(c) of the Act for an order of exemption from section 15(a) of the Act to the extent necessary to permit IDS to act as investment adviser of the Funds pursuant to the re-executed advisory contracts between IDS and the Funds, without stockholder approval of the reexecution of such contracts, for the period commencing with the appointment and qualification of Allan P. Kirby, Jr. and Fred M. Kirby as guardians of the property of their father, Allan P. Kirby, Sr., and ending on May 15, 1968. All interested persons are referred to the application filed with the Commission for a statement of the representations stated therein, which are summarized below.

The application states that Allan P. Kirby, Sr., beneficial owner of approximately 60.63 percent of the outstanding common stock of Alleghany, has been incapacitated by illness and on June 8, 1967, his sons, Allan P. Kirby, Jr. and Fred M. Kirby, filed an application for appointment of themselves as guardians of the property of their father. An assignment, as that term is defined in section 2(a)(4) of the Act, of the existing contracts will be occasioned by the transfer from Kirby, Sr., to his sons of 60.63 percent of the outstanding common stock of Alleghany, which, in turn, owns 46.76 percent of the outstanding voting stock of IDS. IDS proposes to act as investment adviser to the Funds pursuant to the reexecuted advisory contracts between IDS and the Funds, in accordance with resolutions of the boards of the Funds adopted on June 15, 1967. The application states that the advisory contracts will be submitted to the stockholders of the Funds at their next annual meetings to be held on May 15, 1968, or in the event that a special meeting of any of the Funds is held prior to that date the advisory contract will be submitted for shareholder approval at such meeting.

In support of the requested exemption, the applicants represent that the shareholders of Mutual, Stock and Variable approved by an overwhelming majority their advisory agreements with IDS at meetings held on May 10, 1967, and that the agreement between IDS and Selective was similarly approved at the annual meeting of shareholders held May 11, 1966, and was continued and renewed by the board of directors effective May 11, 1967. The application also states that the cost of holding special meetings of such Fund stockholders would be approximately $200,000 and under the circumstances no substantial benefit to the shareholders would result from such meetings. The application further represents that the appointment of the Messrs. Allan P. Kirby, Jr., and Fred M. Kirby as guardians is essentially an involuntary act necessitated by their father's illness.

The Messrs. Kirby represent in the application as amended that, as guardians of their father's property, they will use their best efforts to continue the same operating and personnel practices of IDS with relation to the Funds as were agreed to by their father and set forth in the proxy statements of September 25, 1963.

Section 15(a) of the Act requires, among other things, that an investment advisory contract provide for its automatic termination in the event of its assignment by the investment adviser. It also provides, in pertinent part, that it shall be unlawful for any person to act as an investment adviser of a registered investment company, except pursuant to a written contract and unless the terms of such contract or agreement and any renewal thereof have been approved by a vote of a majority of the outstanding voting securities of such registered investment company. However, an investment advisory contract may be renewed by a vote of a majority of the directors of said registered investment company including a majority of the directors who are not parties to such contract or agreement or affiliated persons of any such party.

Section 6(c) of the Act provides that the Commission, by order upon application, may conditionally or unconditionally exempt any person or transaction from any provision of the Act or of any rule or regulation thereunder, if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than July 31, 1967, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit or in case of an attorney at law by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0–5 of the Rules and Regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission (pursuant to delegated authority).

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 70–4504]

MONONGAHELA POWER CO.

Notice of Proposed Issue and Sale of Principal Amount of First Mortgage Bonds; and Shares of Preferred Stock at Competitive Bidding and Charter Amendment

JULY 12, 1967.

Notice is hereby given that Monongahela Power Co. ("Monongahela"), 1310 Fairmont Avenue, Fairmont, W. Va. 26554, a registered holding company and an electric utility subsidiary company of Allegheny Power System, Inc., also a registered holding company, has filed a declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6(a) and 7 thereof and Rule 50 promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transactions.

Monongahela proposes to issue and sell, subject to the competitive bidding requirements of Rule 50 under the Act, $15 million principal amount of its first mortgage bonds, ____ percent series due August 1, 1997. The interest rate of the new bonds (which will be a multiple of one-eighth of 1 percent) and the price, exclusive of accrued interest, to be paid to Monongahela (which will be not less than 100 percent nor more than 102¾ percent of the principal amount thereof) will be determined by the competitive bidding. The new bonds will be issued under the indenture dated as of August 1, 1945, between Monongahela and First National City Bank, New York, N.Y., Trustee, as heretofore supplemented and as to be further supplemented by a supplemental indenture to be dated as of August 1, 1967. The new bonds will be issued only as registered bonds without coupons.

Monongahela also proposes to amend its charter to increase the authorized shares of cumulative preferred stock from 190,000 to 240,000 and to issue and sell, subject to the competitive bidding requirements of Rule 50 under the Act, 50,000 shares of its cumulative preferred stock, Series D, par value $100 per share. The dividend rate of the new preferred shares (which will be a multiple of $0.04) and the price, exclusive of accrued dividends, to be paid Monongahela (which will not be less than $100 nor more than $102.75 per share) will be determined by the competitive bidding. The net proceeds from the sale of the new bonds and preferred stock will be used to finance in part the construction program of Monongahela and its subsidiary company for 1967, estimated at $31 million and to pay $13,500,000 of short-term notes incurred therefor.

It is stated that The Public Utilities Commission of Ohio has jurisdiction over the issue and sale of the new bonds and preferred stock and that no other State commission or Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

The fees and expenses to be paid in connection with the proposed transactions are estimated at $38,000 for the bonds and $21,000 for the preferred stock, including accountants' fees of $2,600 and $900, respectively and legal fees of $10,000 and $6,000 respectively. The fees of counsel for the underwriters, to be paid by the successful bidders, are estimated at $8,000 in respect of the bonds and $6,000 in respect of the preferred stock.

Notice is further given that any interested person may, not later than August 1, 1967, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as filed or as it may be amended, may be permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission (pursuant to delegated authority).

[70-4506]

PASADENA HYDRAULICS, INC., AND PENNZOIL CO.

Notice of Proposed Disposition of Assets in Exchange for Securities

JULY 12, 1967.

Notice is hereby given that Pasadena Hydraulics, Inc. ("Pasadena"), 1433 Lidcombe Avenue, El Monte, Calif. 91733, a nonutility subsidiary of Pennzoil Co. ("Pennzoil"), 900 Southwest Tower, Houston, Tex. 77002, a registered holding company, has filed an application with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 9 and 10 of the Act and Rule 23 thereunder as applicable to the proposed transactions. All interested persons are referred to the application which is summarized below, for a complete statement of the proposed transactions.

Pasadena manufactures and sells hydraulic presses. Approximately 67 percent of its outstanding capital stock is owned by Pennzoil. The proposed transactions involve (1) the sale by Pasadena of its business and properties to the Rucker Co. ("Rucker"), a nonaffiliated California corporation, in exchange for 39,000 shares of common stock, no par value, of Rucker (thereupon representing approximately 3 percent of Rucker's outstanding common stock) and the assumption by Rucker of substantially all of Pasadena's liabilities; and (2) the dissolution of Pasadena under the laws of the State of California and the distribution to Pasadena's stockholders (including Pennzoil) in accordance with their respective interests of all shares of common stock of Rucker received by Pasadena in the proposed sale. The retainability under the Act of the Rucker stock by Pennzoil will depend on the outcome of the pending section 11(b) proceeding with respect to Pennzoil and its subsidiary companies (Holding Company Act Release No. 15475).

Pasadena was incorporated in 1953. Its issued and outstanding capital stock consists of 70 shares of capital stock, $100 par value, of which 47 shares are beneficially owned by Pennzoil and 23 shares are beneficially owned by Mr. and Mrs. William H. Hutchison, California residents. As of March 31, 1967, Pasadena had total assets of $1,337,000 per books, of which $1,078,000 consisted of current assets. Hutchison is President, a director and stockholder of Pasadena, but is not affiliated with Pennzoil, or any of its subsidiary companies, in any other manner. Hutchison has advised Pasadena and Pennzoil that he has no affiliation with Rucker; however, it is contemplated that Hutchison will become an employee of Rucker upon consummation of the proposed sale. The application states that the terms of the proposed sale were determined by arm's-length bargaining and negotiation between Hutchison and the executive officers of Rucker commencing in April, 1967.

Rucker was incorporated in California in 1950. It is engaged, directly and through its subsidiaries, in the design, development, manufacture and sale of electronic, electric, hydraulic and pneumatic control systems and components, safety electrical equipment, and drilling equipment for the petroleum industry, as well as distribution of hydraulic control system components manufactured by others. As of March 31, 1967, Rucker had total assets of $13,787,774 per books, of which $11,172,686 consisted of current assets. Its authorized capital stock consists of 3 million shares of common stock, no par value, of which 1,637,596 shares were issued and outstanding on June 1, 1967. Rucker's common stock is actively traded in the over-the-counter market and in May, 1967 Rucker and certain of its stockholders made a public offering of 256,000 shares of common stock of Rucker at a price of $34 per share. At June 20, 1967, the common stock of Rucker was quoted on the over-the-counter market at 39¼ bid and 39¾ asked.

It is stated that no fees, commissions or expenses are anticipated by Pennzoil in connection with the proposed transactions other than legal fees estimated not to exceed $500. The fees, commissions and expenses anticipated by Pasadena in connection with the proposed transactions are estimated at $19,450 including legal fees of $10,000. It is further stated that no State commission or any Federal commission, other than this Commission, has jurisdiction over the proposed transactions, except that Rucker is obligated to obtain an appropriate permit from the Commissioner of Corporations of the State of California prior to issuance of its common stock to Pasadena.

Notice is further given that any interested person may, not later than July 27, 1967, request in writing that a hearing be held in respect of such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application which he desires to controvert; or he may request that he be notified should the Commission order a hearing in respect thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the applicants at the above-stated addresses, and proof of service thereof (by affidavit or, in case of an attorney at law, by certificate) should be filed contemporaneously with the request. At any time after said date, the application, as filed or as it may be amended, may be granted as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission (pursuant to delegated authority).

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

JULY 13, 1967.

The following are notices of filing of applications for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC 67 (49 CFR Part 340), published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protest must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protest must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 55236 (Sub-No. 151 TA) (Correction), filed July 3, 1967, published in FEDERAL REGISTER, issue of July 7, 1967, corrected, and republished as corrected, this issue. Applicant: OLSON TRANSPORTATION COMPANY, 1970 South Broadway, Post Office Box 1187, Green Bay, Wis. 54306. Applicant's representative: G. R. Richmond (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Acids and chemicals*, in bulk, from Port Edwards, Wis., to points in Illinois, Indiana, Iowa, Michigan, and Minnesota; for 180 days. NOTE: The purpose of this republication is to include acids in the commodity description, previously inadvertently omitted. Supporting shipper: Wyandotte Chemicals Corp., Wyandotte, Mich. 48192, William H. Wright, transportation manager, rates. Send protests to: W. F. Sibbald, Jr., District Supervisor, Bureau of Operations, Interstate Commerce Commission, 135 West Wells Street, Room 807, Milwaukee, Wis. 53203.

No. MC 105881 (Sub-No. 39 TA), filed July 10, 1967. Applicant: M.R. & R. TRUCKING COMPANY, 715 North Ferdon Boulevard, Post Office Box 727, Crestview, Fla. 32536. Applicant's representative: Dan R. Schwartz, 1730 American Heritage Life Building, Jacksonville, Fla. 32202. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except commodities of unusual value, livestock, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment); (1) between Tallahassee, Fla., and Albany, Ga.: From Tallahassee, over U.S. Highway 319 to Thomasville, Ga., thence over U.S. Highway 19 to Albany, and return over the same route, serving Moultrie, Ga., and points in Thomas County, Ga., as intermediate or off-route points; (2) between Tampa, Fla., and Thomasville, Ga.: From Tampa over U.S. Highway 41 to Dunnellon, Fla., thence over Florida Highway 336 to Lebanon Station, Fla., thence over U.S. Highway 19 to Thomasville, and return over the same route, serving all points between and including Dunnellon and Monticello as intermediate points; (3) between Dunnellon, Fla., and Jacksonville, Fla.: From Dunnellon over U.S. Highway 41 to Archer, Fla., thence over U.S. Highway 24 to Waldo, Fla., thence over U.S. Highway 301 to Maxville, Fla., thence over Florida Highway 228 to Jacksonville, and return over the same route, serving all points between and including Dunnellon and Gainesville as intermediate points; (4) between Archer, Fla., and Cedar Key, Fla., over Florida Highway 24, and return over the same route, serving all intermediate points; (5) between Chiefland, Fla., and Williston, Fla., over U.S. Highway Alternate 27, and return over the same route, serving all intermediate points; (6) between Greenville, Fla., and Lake City, Fla., over U.S. Highway 90, and return over the same route, serving all points between and including Greenville and Lake City as intermediate points and the plantsite of Occidental Corp. located near White Springs, as an off-route point, in connection with carrier's otherwise authorized route between Jacksonville and Tallahassee; (7) between Perry, Fla., and Lake City, Fla.: From Perry over U.S. Highway 27 to Branford, Fla., thence over Florida Highway 247 to Lake City, and return over the same route, serving Mayo, Fla., as an intermediate point; (8) between Live Oak, Fla., and Mayo, Fla., over Florida Highway 51, and return over the same route, serving no intermediate points; and (9) between Tampa, Fla., and junction Interstate Highway 75 and U.S. Highway 90 near Lake City, Fla., over Interstate Highway 75, and return over the same rpute, serving no intermediate points but serving junction Interstate Highway 75 and Florida Highway 24 near Gainesville, Fla., for the purpose of joinder only. Restriction: Routes (1) through (9) specified herein may not be combined or tacked with other authorized routes of the carrier for the purpose of performing a direct single line service: (A) From, to or through more than one of the points of Atlanta, Ga., Jacksonville, Fla., or Tampa, Fla., including the respective commercial zones of each; or (B) between Atlanta, Ga., including the commercial zone thereof, on the one hand, and, on the other, any other point in Georgia located on routes (1) through (9), including shipments interchanged at Atlanta for movement to or from points beyond; or (C) from Jacksonville, Fla., to any point in Georgia located on routes (1) through (9); or (D) from Albany, Ga., to Jacksonville, Fla., including the commercial zones of each. NOTE: Applicant states that it intends to tack the authority here applied for to authority held by it in MC 105881 and subs thereunder. Applicant also proposes to interline with other carriers at Atlanta, Ga., Dothan, Ala., Jacksonville, Pensacola, and Tampa, Fla. Supporting shippers: There are 74 shippers' supporting statements attached to application, which may be examined at the Interstate Commerce Commission in Washington, D.C., or at the field office named below. Send protests to: G. H. Fauss, Jr., District Supervisor, Bureau of Operations, Interstate Commerce Commission, Box 35008, Federal Office Building, 400 West Bay Street, Jacksonville, Fla. 32202.

No. MC 110411 (Sub-No. 4 TA), filed July 10, 1967. Applicant: J. C. BAKER, doing business as NORTHEAST ARKANSAS TRANSPORTATION CO., Drawer D, 408 South Main Street, Leachville, Ark. 72438. Applicant's representative: Joseph B. Hendrix, 1805 South Harrison, Little Rock, Ark. 72204. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Packinghouse products*, from St. Louis, Mo., to points in Clay, Jackson, Independence, Lawrence, Randolph, and Sharp Counties, Ark; for 180 days. NOTE: Applicant states that it intends to tack with authority under MC 110411. Supporting shippers: Krey Packing Co., St. Louis, Mo.; and St. Louis Independent Packing Co., St. Louis, Mo. Send protests to: D. R. Partney, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 3519 Federal Office Building, Little Rock, Ark. 72201.

No. MC 110420 (Sub-No. 549 TA), filed July 10, 1967. Applicant: QUALITY CARRIERS, INC., 100 South Calumet Street, Post Office Box 339, Burlington, Wis. 53105. Applicant's representative: Fred H. Figge (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Inedible animal greases and inedible tallow*, in bulk, in tank vehicles, from Fort Wayne and New Carlisle, Ind., to Battle Creek, Mich.; for 150 days. Supporting shipper: Davidson Commission Co., 141 West Jackson Boulevard, Chicago, Ill., George Lewis, vice president. Send protests to: W. F. Sibbald, Jr., District Supervisor, Bureau of Operations, Interstate Commerce Commission, 135 West Wells Street, Room 807, Milwaukee, Wis. 53203.

No. MC 114106 (Sub-No. 56 TA), filed July 10, 1967. Applicant: MAYBELLE TRANSPORT COMPANY, 1820 South Main Street, Post Office Box 573, Lexing-

ton, N.C. 27292. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Muriatic acid*, in bulk, in tank vehicles, from Greer, S.C., to Slater, S.C., on traffic having a prior movement by rail; for 150 days. Supporting shipper: Stauffer Chemical Co., 380 Madison Avenue, New York, N.Y. 10017. Send protests to: Jack K. Huff, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Room 206, 327 North Tryon Street, Charlotte, N.C. 28202.

No. MC 114822 (Sub-No. 9 TA), filed July 10, 1967. Applicant: RUDOLPH PAFFRATH, WILLIAM PAFFRATH and THOMAS PAFFRATH, doing business as PAFFRATH BROS., 1415 Clinton Street, Linden, N.J. 07036. Applicant's representative: Charles J. Williams, 47 Lincoln Park, Newark, N.J. 07102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Scrap metal*, in dump trailers, between Jersey City, Newark, and Elizabeth, N.J., on the one hand, and, on the other, Easton, Conshohocken, Philadelphia, and Stroudsburg, Pa.; for 150 days. Supporting shippers: Harris Fiestal & Son, Inc., 650 Palisade Avenue, Englewood Cliffs, N.J. 07632; the Oxman Steel Corp., 1920 Chestnut Street, Philadelphia, Pa. 19103; United States Gear Manufacturing Corp., 2401 Third Avenue, Bronx, N.Y. 10451; and Woodward Scrap Iron & Metal Corp., 125 Woodward Street, Jersey City, N.J. 07304. Send protests to: Walter J. Groasman, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 1060 Broad Street, Newark, N.J. 07102.

No. MC 129226 TA, filed July 10, 1967. Applicant: TO-JON TRUCKING, INC., 6 Verly Court, Bethpage, N.Y. 11714. Applicant's representative: Bert Collins, 140 Cedar Street, New York, N.Y. 10006. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Stationery*, from the plantsite of Orlando Paper Corp., Oceanside, N.Y., to New York, N.Y., and points in Passaic, Bergen, Hudson, Essex, and Union Counties, N.J.; under contract with Orlando Paper Corp.; for 180 days. Supporting shipper: Orlando Paper Corp., 3415 Hampton Road, Oceanside, N.Y. 11572. Send protests to: E. N. Carignan, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 346 Broadway, New York, N.Y. 10013.

By the Commission.

[General Emergency Transport Order 1-67]

PREFERENCE AND PRIORITY FOR THE TRANSPORTATION OF PASSENGERS AND FREIGHT NECESSARY TO THE NATIONAL DEFENSE, HEALTH, AND SAFETY

Pursuant to Title 1 of the Defense Production Act of 1950, as amended (50 U.S.C. App. 2061, et seq.), Executive Order 10480, as amended, and Executive Order of July 16, 1967; and it being deemed necessary in the public interest and to promote the national defense, health, and safety by reason of the short supply of domestic transportation equipment, facilities, and service due to the current nationwide cessation of railroad service, to regulate, allocate, and promote the use of motor and inland water carrier equipment, facilities, and service, for the preferential transportation of passengers and property necessary to the national defense, health, and safety, and it being impractical to consult with industry representatives due to the necessity of immediate action: *It is hereby ordered*, That:

SECTION 1. *Transportation of military and other freight necessary to promote the national defense, health, and safety.* Every motor and inland water carrier engaged in the transportation of property shall give preference and priority over all other traffic to the transportation of:

(a) All materials moving on Government bills of lading issued by military transportation officers;

(b) Materials moving on commercial bills of lading specifically certified as essential by the Department of Defense;

(c) Essential U.S. mail;

(d) Fresh meats and poultry;

(e) Fresh eggs and milk;

(f) Fresh fruits and vegetables;

(g) Fresh fish and shellfish;

(h) Pharmaceuticals, biologicals, surgical textiles and instruments;

(i) Hospital and sickroom supplies and equipment, including diagnostic devices and essential support utilities;

(j) Professional dental supplies and equipment;

(k) Medical laboratory supplies and equipment; and

(l) Water and sewage processing and handling supplies and equipment, including chlorine, alum, lime, sulphate of iron, soda ash, and similar chemicals and equipment essential to the continuity of operation of water and sewage installations.

Where necessary to accord such preference and priority, said carriers shall limit or restrict the amount of other freight transported on any motor vehicle or vessel operated by it.

SEC. 2. *Transportation of essential Government personnel.* Every motor carrier engaged in the transportation of passengers shall give preference and priority over all other traffic to the transportation of essential Government personnel, including military passengers, traveling on Government travel requests.

SEC. 3. *Applicability.* The provisions of this order shall apply to all for-hire motor and inland water carriers engaged in intrastate, interstate, and foreign commerce within the United States, including the District of Columbia, but excluding the States of Alaska and Hawaii, and the territories and possessions of the United States.

SEC. 4. *Definitions.* As used in this order:

(a) The term "motor carrier" means any person who engages in the transportation of passengers or property by motor vehicle for compensation;

(b) The term "inland water carrier" means any person who engages in the transportation of property by vessel for compensation;

(c) The term "motor vehicle" means any vehicle, machine, tractor, trailer, or semitrailer propelled or drawn by mechanical power and used upon the highways in the transportation of passengers or property, or any combination thereof; and

(d) The term "vessel" means any watercraft or other artificial contrivance of whatever description which is used, or is capable of being, or is intended to be, used as a means of transportation by water.

SEC. 5. *Communications.* Communications concerning this order should refer to "General Emergency Transport Order 1-67" and should be addressed to the Secretary, Interstate Commerce Commission, Washington, D.C. 20423.

This General Emergency Transport Order 1-67 shall become effective July 16, 1967, and shall remain in full force and effect during the current emergency and until further order.

Issued at Washington, D.C., this 16th day of July 1967.

[SEAL] WILLIAM H. TUCKER, *Chairman, Interstate Commerce Commission.*

[F.R. Doc. 67-8344; Filed, July 17, 1967; 11:01 a.m.]

[Ex Parte No. MC-64]

[General Temporary Order No. 4]

TEMPORARY AUTHORITY TO TRANSPORT PASSENGERS AND PROPERTY BY MOTOR VEHICLE

At a session of the Interstate Commerce Commission, Division 1, held at its office in Washington, D.C., on the 16th day of July 1967.

The Interstate Commerce Commission having under consideration the urgent need for motor carrier services due to the cessation of normal railroad transportation occasioned by work stoppages, the national transportation policy, the public interest, and, among others, sections 202(a), 204(a)(8), and 210a(a) of the Interstate Commerce Act, and

It appearing, that due to a labor dispute, the common carriers by railroad are unable to transport passengers and property tendered to them; and that an emergency exists in all sections of the United States requiring immediate action on the part of the Commission to make provision for adequate transportation service in the interest of the public and the national defense;

It further appearing, that there exists an immediate and urgent need for additional motor carrier service to supplement temporarily the transportation facilities of the Nation for the movement of military and other freight, and passengers;

And it further appearing, that the present transportation emergency and the immediate need for maximum utilization of motor carrier facilities, equipment, and service have made it necessary for the Commission to provide and authorize a more flexible method whereby motor carriers, and other persons, may obtain temporary authorizations to render the required motor service necessary in the public interest and to the national defense;

It is ordered, That pursuant to section 210a(a) of the Interstate Commerce Act (49 U.S.C. 310a(a)) all persons who shall apply to any regional director or district supervisor of the Commission's Bureau of Operations (30 F.R. 10069) are hereby granted temporary authority to transport passengers or property by motor vehicle for a period of not more than 30 days to the extent and scope that such regional director or district supervisor shall certify that due to the existing transportation emergency, there is an immediate and urgent need for the service applied for, and that there is no available carrier service capable of meeting such need;

It is further ordered, That the grant of such temporary authority be, and it is hereby, conditioned upon satisfying the said regional director or district supervisor of full compliance by the grantee with all applicable statutory and Commission requirements concerning tariff publications, evidence of security for the protection of the public, and designation of agents for service of process, and further conditioned upon such tariff publications quoting rates, fares, and charges no lower than those of existing rail, water, or motor carriers in the territory in which the operations are to be authorized;

It is further ordered, That temporary authority granted pursuant to this order shall expire as of the first midnight after rail carrier service shall have been reinstituted, except as to passengers or property, the transportation of which was begun prior to that time;

It is further ordered, That this order shall become effective on the 16th day of July 1967.

And it is further ordered, That notice of this order shall be given to motor carriers, other parties of interest, and to the general public by depositing a copy thereof in the Office of the Secretary of the Commission, Washington, D.C., and by filing a copy thereof with the Director, Office of the Federal Register.

By the Commission, Division 1.

[SEAL] H. NEIL GARSON, *Secretary.*

CODE OF FEDERAL REGULATIONS

(As of January 1, 1967)

Title 35—Panama Canal
(Revised) $5.25

Title 43—Public Lands: Interior
(Revised) $2.75

Title 46—Shipping (Parts 1–145)
(Revised) $3.00

[A cumulative checklist of CFR issuances for 1967 appears in the first issue of the Federal Register each month under Title 1]

Order from Superintendent of Documents,
United States Government Printing Office,
Washington, D.C. 20402

FEDERAL REGISTER

Area Code 202 Phone 962-8626

Published daily, Tuesday through Saturday (no publication on Sundays, Mondays, or on the day after an official Federal holiday), by the Office of the Federal Register, National Archives and Records Service, General Services Administration (mail address National Archives Building, Washington, D.C. 20408), pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., Ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15 per year, payable in advance. The charge for individual copies varies in proportion to the size of the issue (15 cents for the first 80 pages and 5 cents for each additional group of 40 pages, as actually bound). Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements are listed in the first FEDERAL REGISTER issue of each month.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER or the CODE OF FEDERAL REGULATIONS.

List of CFR Parts Affected

(Codification Guide)

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears at the end of each issue beginning with the second issue of the month.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1967, and specifies how they are affected.

Title 3—THE PRESIDENT

Proclamation 3794

MODIFYING PROCLAMATION 3279 ADJUSTING IMPORTS OF PETROLEUM AND PETROLEUM PRODUCTS

By the President of the United States of America

A Proclamation

WHEREAS, pursuant to section 2 of the act of July 1, 1954, as amended (72 Stat. 678), and section 232 of the Trade Expansion Act of 1962 (76 Stat. 877), findings and determinations have been made that adjustments in the imports of crude oil, unfinished oils, and finished products were necessary so that such imports would not threaten to impair the national security, such adjustments have been made by Proclamation 3279[1] (24 F.R. 1781) and modified by Proclamation 3290 (24 F.R. 3527), Proclamation 3328 (24 F.R. 10133), Proclamation 3386 (25 F.R. 13945), Proclamation 3389 (26 F.R. 507, 811), Proclamation 3509 (27 F.R. 11985), Proclamation 3531 (28 F.R. 4077), Proclamation 3541 (28 F.R. 5931), Proclamation 3693 (30 F.R. 15459), and Proclamation 3779 (32 F.R. 5919); and

WHEREAS, I find and determine that, in support of Federal, state and local rules and regulations for air pollution control, it is necessary to enhance the ability of the petroleum industry to provide adequate supplies of low sulphur residual fuel oil to be used as fuel; and

WHEREAS, I find that it is necessary to permit the entrance of new importers and to provide for allocations which will assure that adequate supplies of low sulfur residual fuel oil to be used as fuel will be distributed to users of such products; and

WHEREAS, I find and determine that such action will be compatible with the purposes of Proclamation 3279:

NOW, THEREFORE, I, LYNDON B. JOHNSON, President of the United States of America, acting under and by virtue of the authority vested in me by the Constitution and the statutes, including section 232 of the Trade Expansion Act of 1962, do hereby proclaim that:

1. Subparagraph (2) of paragraph (a) of section 2 of Proclamation 3279, as amended, is amended to read as follows:

(2) The maximum level of imports of residual fuel oil to be used as fuel into Districts I, Districts II–IV, and District V for a particular allocation period shall be the level of imports of that product into those districts during the calendar year 1957 as adjusted by the Secretary as he may determine to be consonant with the objectives of this proclamation.

2. Paragraph (d) of section 2 of Proclamation 3279, as amended, is revoked and paragraph (e) of section 2 is redesignated as paragraph (d).

3. Subparagraph (5) of paragraph (b) of section 3 of Proclamation 3279, as amended, is amended to read as follows:

[1] 3 CFR 1959–1963 Comp., p. 11.

(5) With respect to the allocation of imports of residual fuel oil to be used as fuel into Districts II–IV, District V, and Puerto Rico, such regulations shall, to the extent possible, provide for a fair and equitable distribution of imports of residual fuel oil to be used as fuel among persons who were importers of that product into the respective districts or Puerto Rico during the respective base periods specified in section 2 of this Proclamation. In addition, in District V, and Puerto Rico, the Secretary by regulation may, to the extent possible, provide for a fair and equitable distribution of imports of residual fuel oil to be used as fuel, the maximum sulfur content of which is acceptable to the Secretary (i) among persons who are in the business in the respective districts or Puerto Rico of selling residual fuel oil to be used as fuel and who have had inputs of that product to deep-water terminals located in the respective districts or Puerto Rico, and (ii) among persons who are in the business in the respective districts or Puerto Rico of selling residual fuel oil to be used as fuel and have throughput agreements (warehouse agreements) with deep-water terminal operators. With respect to the allocation of imports into District I of residual fuel oil to be used as fuel, such regulations shall, to the extent possible, provide for a fair and equitable distribution of imports of residual fuel oil to be used as fuel (i) among persons who were importers of that product into such district during the calendar year 1957, (ii) among persons who are in the business in District I of selling residual fuel oil to be used as fuel and who have had inputs of that product to deep-water terminals located in District I, and (iii) among persons who are in the business in District I of selling residual fuel oil to be used as fuel and have throughput agreements (warehouse agreements) with deep-water terminal operators. With respect to the allocation of imports of residual fuel oil to be used as fuel into District I, Districts II–IV, District V, and Puerto Rico, such regulations shall also provide, to the extent possible, for the granting and adjustment of allocations of imports of residual fuel oil to be used as fuel in accordance with procedures established pursuant to section 4 of this proclamation.

4. A new paragraph (e), reading as follows, is added to section 3 of Proclamation 3279, as amended:

(e) Notwithstanding the levels established in section 2 of this proclamation and the provisions of paragraph (b) of this section, the Secretary may provide by regulation for additional allocations of imports of crude oil and unfinished oils to persons in Districts I–IV and District V who manufacture in the United States residual fuel oil to be used as fuel, the maximum sulphur content of which is acceptable to the Secretary, in consultation with the Secretary of Health, Education and Welfare. These allocations to each of such persons shall not exceed the amount of such residual fuel oil produced by that person.

5. Subparagraph (7) of paragraph (g) of section 9 of Proclamation 3279, as amended, is amended to read as follows:

(7) Residual fuel oil—topped crude oil or viscous residuum which has a viscosity of not less than 45 seconds Saybolt universal at 100° F. and crude oil which has a viscosity of not less than 45 seconds Saybolt universal at 100° F. minimum viscosity and which is to be used as fuel without further processing other than by blending by mechanical means.

IN WITNESS WHEREOF, I have hereunto set my hand this seventeenth day of July in the year of our Lord nineteen hundred and sixty-seven, and of the Independence of the United States of America the one hundred and ninety-second.

Lyndon B. Johnson

Rules and Regulations

Title 7—AGRICULTURE

Chapter VII—Agricultural Stabilization and Conservation Service (Agricultural Adjustment), Department of Agriculture

SUBCHAPTER B—FARM MARKETING QUOTAS AND ACREAGE ALLOTMENTS

[Amdt. 16]

PART 717—HOLDING OF REFERENDA ON MARKETING QUOTAS

Subpart—Regulations Governing the Holding of Referenda on Marketing Quotas

REFERENDUM COMMUNITIES

Basis and purpose. The amendment herein is issued under and in accordance with the provisions of the Agricultural Adjustment Act of 1938, as amended (7 U.S.C. 1281 et seq.).

The purpose of this amendment is to revise the referendum communities for flue-cured tobacco referendums for Mecklenburg County, Va.

Since a referendum for flue-cured tobacco will be held on July 18, 1967, it is important that this amendment be issued and made effective as soon as possible. Accordingly, it is hereby found that compliance with the notice, public procedure, and effective date requirements of 5 U.S.C. 553 is impracticable and contrary to the public interest and this amendment shall become effective as provided herein.

The table of referendum communities in § 717.4(c) is amended to revise the referendum communities for Mecklenburg County, Va., to read as follows:

§ 717.4 **Place for balloting.**

* * * * *

(c) Referendum communities for flue-cured tobacco referendums by States and counties are as follows:

...	...	...
Mecklenburg..	Flue-cured tobacco.	Regular ASCS communities, except that Eppes Fork precinct of Palmer Springs District shall constitute a separate referendum community.
...	...	...

(Secs. 312, 375, 52 Stat. 46, 66, as amended, 7 U.S.C. 1312, 1375)

Effective date: Date of filing with the Director, Office of the Federal Register.

Signed at Washington, D.C., on July 13, 1967.

H. D. GODFREY,
Administrator, Agricultural Stabilization and Conservation Service.

[F.R. Doc. 67-8384; Filed, July 18, 1967; 8:46 a.m.]

[Amdt. 25]

PART 724—BURLEY, FLUE-CURED, FIRE-CURED, DARK AIR-CURED, VIRGINIA SUN-CURED, CIGAR-BINDER (TYPES 51 AND 52), CIGAR-FILLER AND BINDER (TYPES 42, 43, 44, 53, 54, AND 55), AND MARYLAND TOBACCO

Subpart—Allotment and Marketing Quota Regulations, 1963–64 and Subsequent Marketing Years

MISCELLANEOUS AMENDMENTS

Basis and purpose. (a) The amendments contained herein are issued pursuant to the Agricultural Adjustment Act of 1938, as amended (7 U.S.C. 1281 et seq.), and are made for the purpose of amending the Tobacco Allotment and Marketing Quota Regulations for the 1963–64 and Subsequent Marketing Years. The proposed amendments set forth below in part are designed to comply with Public Law 89–487, 80 Stat. 250, which will become effective on July 4, 1967 requires that statements of policy, interpretations and administrative staff manuals and instructions to staff which affect the public be published in the FEDERAL REGISTER. The amendments herein include the penalty rates for the 1967–68 marketing year for several kinds of tobacco; deletion of the restrictions on lease and transfer of Maryland tobacco acreage allotments, which is required by the enactment of Public Law 90–6; provision for reduction in the current year's allotment, upon the written request of the operator, because of an insufficient acreage of cropland; changes in and additions to definitions of terms for more effective administration; provision for a hearing before the county committee prior to reduction of allotment for failure to account for tobacco or other violations; and several changes of a clarifying or purely administrative nature designed for more effective administration.

(b) Tobacco farmers are currently engaged in the preparation for and production of the kinds of tobacco set forth above. Hence, it is essential that the amendments contained herein which deal with the identification of sales of 1967 crop tobacco and for the keeping of records with respect thereto be made effective at the earliest possible date. Accordingly, it is hereby found and determined that compliance with the notice, public procedure and 30-day effective date requirements of 5 U.S.C. 553 is impracticable and contrary to the public interest, and the amendments contained herein shall become effective upon filing of this document with the Director, Office of the Federal Register.

1. Section 724.51, paragraphs (d), (j), and (l) are revised and paragraph (dd) is added to read as follows:

§ 724.51 **Definitions.**

* * * * *

(d) "Buyers Corrections Account" means the warehouse account of tobacco purchased at auction by the buyer but not delivered to the buyer, or any tobacco returned by the buyer because of rejection by the buyer, lost ticket, or any other valid reason, which is turned back to the warehouseman and supported by an adjustment invoice from the buyer. This account shall include the pounds deducted resulting from returned baskets, short baskets and short weights, and pounds added resulting from long baskets and long weights, which buyers support with adjustment invoices.

* * * * *

(j) "Floor sweepings" for burley, fire-cured, dark air-cured, Virginia sun-cured, and Maryland tobacco for the marketing year beginning October 1, 1967, and subsequent marketing years, means scraps of tobacco or leaves other than bundles of tobacco, which accumulate on the warehouse floor in the regular course of business which is sold in the untied form in which acquired and sales and resales of such tobacco: *Provided*, That floor sweepings exceeding the pounds determined by multiplying the applicable listed percentage times the total first sales of tobacco at auction for the season for the warehouse, shall be deemed to be leaf account tobacco:

Kind of tobacco	*Percentage*
Burley and Maryland.....	0.30 (three-tenths of 1 percent).
Fire-cured, air-cured, and Virginia sun-cured.	0.02 (two-hundredths of 1 percent).

* * * * *

(l) "Leaf account tobacco" means for burley, fire-cured, dark air-cured, Virginia sun-cured, and Maryland tobacco for the marketing year beginning October 1, 1967, and succeeding marketing years, all tobacco purchased or otherwise

acquired by or for the account of the warehouse and shall include, but not be limited to, tobacco from Buyers Corrections Account and sales and resales of such tobacco, scrap tobacco obtained through grading tobacco for farmers or furnishing farmers curing or stripping space, floor sweepings purchased from another warehouseman or dealer, and floor sweepings deemed to be leaf account tobacco under paragraph (j) of this section.

* * * * *

(dd) "Sale" means, with respect to cigar-filler and cigar-binder tobacco, the first marketing of farm tobacco on which the gross amount of the sale price therefor has been or could be readily determined.

2. Section 724.55 is amended to read as follows:

§ 724.55 Determination of preliminary acreage allotments and tobacco history acreage for old farms.

(a) *Determination of preliminary acreage allotments*—(1) *Farms with history acreage in base period.* A preliminary farm acreage allotment shall be determined for each farm which has tobacco history acreage, as defined and explained in paragraph (b) of this section, in the base period, except that no preliminary farm acreage allotment shall be established in the current year under any one of the following conditions: (i) The only tobacco history acreage credited to the farm during the entire base period is history acreage restored because the allotment was reduced for violation of the marketing quota regulations; (ii) a new farm allotment was established in any prior year but was canceled for the preceding year; (iii) an allotment was pooled under Part 719 of this chapter but was canceled; or (iv) an allotment for land which the county committee determines has been retired from agricultural production and which was not or could not have been acquired under right of eminent domain by the acquiring person or agency. This paragraph shall not preclude the determination of a preliminary acreage allotment for an old farm returned to agricultural production if the allotment for the retired land was not allocated to other land contained in the farm of which the retired land was a part, or a farm for which an acreage allotment may be determined under the provisions of § 724.59(a).

(2) *Preliminary farm acreage allotments.* The preliminary farm acreage allotment for the current year for a farm which qualifies for a preliminary farm acreage allotment under subparagraph (1) of this paragraph shall be the same as the allotment (prior to lease and transfer and prior to reduction for violation) for the preceding year: *Provided*, That if the tobacco history acreage for the farm in neither of the two immediately preceding years was as much as 75 percent of the allotment (after any reduction for violation), the preliminary acreage allotment shall be the larger of (not to exceed the allotment for the preceding year): (i) The largest tobacco history acreage in either of the two preceding years, or (ii) the average tobacco history acreage for the base period.

(b) *Determination of tobacco history acreage.* Tobacco history acreage shall be determined for each farm for which a tobacco farm acreage allotment has been established for the current year.

(1) *Farm acreage allotment fully preserved.* The farm acreage allotment is fully preserved as tobacco history acreage for any year if: (i) (*a*) In such year or either of the two immediately preceding years the sum of (*1*) the final tobacco acreage as determined under Part 718 of this chapter, (*2*) acreage leased and transferred from the farm, (*3*) acreage reduced because of insufficient cropland on the farm, and (*4*) acreage regarded as planted under the conservation programs and conservation practices determined pursuant to Part 719 of this chapter, was as much as 75 percent of the allotment after any reduction for violation. If an erroneous notice of allotment was applicable, the smaller of the correct or the erroneous notice shall be used to determine whether 75 percent planting provision has been met; or (*b*) in any year or either of the two immediately preceding years the farm acreage allotment was in the eminent domain pool; or (ii) the farm consists of federally owned land for which a restrictive lease is in effect prohibiting the production of tobacco. (Federally owned land as used in this paragraph means land owned by the Federal Government or any department, bureau, or agency thereof, or by any corporation all of the stock of which is owned by the Federal Government.)

(2) *Computed history acreage.* If the farm acreage allotment is not fully preserved as tobacco history acreage under subparagraph (1) of this paragraph, the tobacco history acreage shall be the sum of the acreage (not to exceed the farm acreage allotment) as follows:

(i) Final tobacco acreage.

(ii) Acreage regarded as planted under the conservation programs and conservation practices determined pursuant to Part 719 of this chapter.

(iii) Acreage leased and transferred from the farm.

(iv) Acreage reduced because of insufficient cropland on the farm.

(v) Acreage reduced for violation of marketing quota regulations.

(3) *Adjustment of tobacco history acreage for abnormal weather or disease.* If the county committee determines (with the approval of a representative of the State committee) that for any year the sum of the final tobacco acreage, any acreage transferred from the farm, the acreage allotment reduced because of insufficient cropland acreage, and the acreage regarded as planted to tobacco under the conservation programs and conservation practices, is less than 75 percent of the allotment (after any reduction for violation) because of abnormal weather or disease, the tobacco history acreage for such year shall be adjusted to become the smaller of (i) the allotment (prior to any reduction for violation), or (ii) the sum of the final tobacco acreage for the farm, the additional acreage which the county committee determines (with the approval of a representative of the State committee) would have been included in the final acreage except for abnormal weather or disease, any acreage leased and transferred from the farm, the acreage reduced because of insufficient cropland acreage, the acreage regarded as planted to tobacco under the conservation programs and conservation practices, and the amount of any reduction for violation. Any adjustment in tobacco history acreages because of abnormal weather or disease shall not be considered as acreage devoted to tobacco in determining whether or not 75 percent of the allotment is planted. No adjustment for abnormal weather or disease shall be made unless the farm operator requests such an adjustment in writing to the county committee no later than October 1 of the crop year involved.

(4) *Zero allotment farms.* Any acreage planted to tobacco on a farm for which is farm acreage allotment of zero was established shall not be credited with any tobacco history acreage.

(5) *Allotments in eminent domain pool.* The farm acreage allotment in the eminent domain pool, as provided in Part 719 of this chapter, shall be considered fully planted during the years in the pool, including any year in which the pooled allotment is released by the displaced owner to the county committee for reapportionment to other farms in the county. The tobacco history acreage shall be the same as the pooled allotment.

(6) *All history acreage is restored history acreage.* A farm shall be considered to have no tobacco history acreage during the base period and shall not be considered an old farm if the only tobacco history acreage computed for the farm during the base period consists of tobacco history acreage restored for reduction of the farm acreage allotment for violation of the tobacco marketing quota regulations.

(7) *Tobacco history acreage for new farms.* The tobacco history acreage for a farm for the year it received an allotment as a new farm shall be the same as the new farm allotment if as much as 75 percent of the allotment is planted in such year. If less than 75 percent of the new farm allotment is planted, the tobacco history acreage shall be the same as the planted acreage. No adjustment for abnormal weather or disease shall be made in the tobacco history acreage for the farm for the year it was a new farm.

3. A new § 724.56a is added after § 724.56 to read as follows:

§ 724.56a Reduction in farm allotment because of cropland limitation.

The allotment determined for any farm under § 724.56 may be reduced for the current year if the sum of the feed grain base, total allotments, and sugar proportionate shares exceeds the cropland for the farm for the current year and the farm operator requests in writing to reduce the tobacco allotment in lieu of the feed grain base: *Provided*, That such reduction shall not exceed the acreage by which the sum of the feed grain base, total allotments, and sugar proportionate shares exceeds the cropland for the farm: *Provided, further*, That such reduction shall be effective for the current year only. For purposes of establishing future State, and farm acreage allotments, the acreage not planted under the farm allotment because of a reduction under this paragraph shall be regarded as planted on the farm.

4. Section 724.57 is amended to read as follows:

§ 724.57 Adjustment of acreage allotments for old farms, correction of errors made in acreage allotments for old farms and allotments for overlooked old farms.

(a) Notwithstanding the limitations contained in § 724.55, the individual current year's farm acreage allotment heretofore established for an old farm may be increased if the county committee justifies such increase to the satisfaction of a representative of the State committee as being necessary to establish an allotment for such farm which is fair and equitable in relation to the allotments for other old farms in the county on the basis of the past acreage of tobacco, making due allowances for drought, flood, hail, other abnormal weather conditions, plant bed, and other diseases; land, labor and equipment available for the production of tobacco, crop rotation practices; and the soil and other physical factors affecting the production of tobacco.

(b) Not to exceed 4 percent of the total acreage for the respective kind of tobacco allotted to all tobacco farms in the State for the preceding year shall be made available in the State by the State committee, with the approval of the Deputy Administrator, for increasing allotments as described above in this section, for correcting errors, and for providing allotments for overlooked farms.

(c) The allotment for a farm under a conservation program contract or agreement shall be given the same consideration under this section as the allotment for similar farms.

(d) The total of all adjustments in old farm allotments under this paragraph shall not exceed the acreage apportioned the State for such purpose. The sum of the adjustments for farms in the county owned, operated or controlled by the State, county and community committeemen and the county office manager, shall not be larger in relation to the sum of the preceding year's allotments for such farms than the sum of the adjustments for other farms in the county in relation to the preceding year's allotments for such farms.

5. Section 724.59 is amended by adding a new paragraph (d) at the end as follows:

§ 724.59 Reallocation and release and reapportionment of allotments determined for farms acquired by an agency having the right of eminent domain, or diverted from production of cigar-binder (types 51 and 52) tobacco and cigar-filler and binder (types 42, 43, 44, 53, 54, and 55) tobacco to production of shade-grown cigar-leaf (type 61) wrapper tobacco.

* * * * *

(d) No release and reapportionment of allotment acreage hereunder shall be the result of any private negotiations between individuals. Any acreage released shall be released to the county committee and such acreage shall be reapportioned only by the county committee.

§ 724.67 [Amended]

6. Section 724.67(d) is deleted.

7. Section 724.87 is amended by adding at the end of subparagraph (1) of paragraph (a) the following:

§ 724.87 Debt stamping and replacing marketing cards.

(a) *Stamping to show indebtedness.* (1) * * * As debt collections are made, the amount of the debt shown on the card shall be revised to show the debt balance, and the floor sheet shall show the amount collected. A debt-free marketing card shall be issued when the debt has been entirely paid.

* * * * *

8. Section 724.90 is amended by adding a new paragraph (j) at the end as follows:

§ 724.90 Identification of marketings, excluding cigar tobacco.

* * * * *

(j) *Identification of returned first sale (producer) tobacco.* When resold at auction, tobacco which has been previously sold and returned to a warehouse by the buyer is resale tobacco. When such tobacco is resold by the warehouseman, it shall be identified as leaf account resale tobacco.

9. Section 724.92 is amended by adding two new paragraphs designated (l) and (m) at the end as follows:

§ 724.92 Rate of penalty.

* * * * *

(l) *1966–67 average market price.* The average market price for the kinds of tobacco listed below as determined by the Crop Reporting Board, Statistical Reporting Service, U.S. Department of Agriculture, for the 1966–67 marketing year was:

AVERAGE MARKETING PRICE

Kinds of Tobacco	Cents per pound
Burley	66.8
Fire-cured (type 21)	41.2
Fire-cured (types 22, 23, 24)	42.2
Dark air-cured	37.3
Virginia Sun-cured	43.3
Cigar-filler and binder (types 42, 43, 44, 53, 54, and 55)	31.9
Cigar-binder (types 51 and 52)	50.4

(m) *1967–68 rate of penalty per pound.* The penalty rate per pound for the kinds of tobacco listed below upon marketings of excess tobacco subject to marketing quotas during the 1967–68 marketing year shall be:

RATE OF PENALTY

Kinds of Tobacco	Cents per pound
Burley	50
Fire-cured (type 21)	31
Fire-cured (types 22, 23, and 24)	22
Dark air-cured	28
Virginia Sun-cured	32
Cigar-filler and binder (types 42, 43, 44, 53, 54, and 55)	24
Cigar-binder (types 51 and 52)	38

10. Section 724.94 is amended by adding two new paragraphs designated as (h) and (i) at the end as follows:

§ 724.94 Penalties considered to be due from warehousemen, leaseholders, warehousemen, dealers, buyers, and others excluding the producer.

* * * * *

(h) *Excess resale rule.* Where an analysis of an auction warehouse or dealer account shows excess resales for the season to be less than 100 pounds the State executive director may accept the account as being satisfactory and no penalty due on account of excess resales.

(i) *Failure to obtain an MQ–77, Sale Memo, and failure to record a sale on MQ–76.* Any sale of cigar tobacco for which a dealer (1) if within quota tobacco, fails to record the sale on the marketing card issued for the farm or (2) if the tobacco was produced on a farm for which an excess marketing card was issued, fails to obtain a valid sales memo by the end of the sale date, shall be presumed, subject to rebuttal, to the subject penalty. The penalty thereon shall be paid by the buyer who fails to make the required record.

11. Section 724.95 is amended by adding a new paragraph (c) at the end as follows:

§ 724.95 Producers penalties; false identification; failure to account; cancelled allotments.

* * * * *

(c) *Person to pay penalty when erroneous rate is shown on card.* If an erroneous penalty rate is shown on a marketing card and tobacco is identified by such card, the producer shall remit any additional penalty due for the sale.

12. Section 724.98 is amended by changing paragraph (c) and by adding a new paragraph (m) at the end, to read as follows:

§ 724.98 Producer's records and reports.

* * * * *

(c) *Report of estimate of production.* Form MQ–97, Estimate of Production, shall be executed jointly by a producer on the farm and a representative of the county or State committee. An estimate of production shall be obtained for each farm (1) where the final measured

(planted) acreage is in excess of the allotment, (2) where a producer on the farm has an interest in another tobacco farm for which the final measured acreage is in excess of the allotment, (3) where a nonquota kind of tobacco is being grown on a farm which is also producing a kind under quotas, and the nonquota kind could be commingled and sold as a quota kind, and (4) where the county committee has reason to believe that an estimate of production would be desirable to more adequately determine disposition of the farm's production of tobacco.

* * * * * *

(m) *County administrative hearings in connection with violations.* Except for the failure to return a marketing card to the county office, the allotment for any farm shall not be reduced for a violation under this section until after the operator of the farm has been notified in writing by the county office manager of the time and place of a hearing to determine the nature and extent of the violation. The notice of the hearing shall request the farm operator to bring to the hearing warehouse bills (floor sheets) and other relevant supporting documents. At last two members of the county committee shall be present at the hearing. The hearing shall be held at the time and place named in this notice and any action taken on the violation shall be taken after the hearing. If the farm operator does not attend the hearing, or is not represented, the county committee may take whatever action it deems proper.

13. Section 724.99 is amended by adding new subparagraphs (12) and (13) at the end of paragraph (h), and by adding a new paragraph (k) at the end, to read as follows:

§ 724.99 Warehouseman's records and reports.

* * * * *

(h) Daily report of auction warehouse business: * * *

(12) Where a producer rejects the sale of a basket or a lot of tobacco, the warehouseman shall not change (i) the applicable sale memo, and (ii) the MQ–80 on which is reported the sale, if such tobacco has been billed out and the bills have been presented to the buyer.

(13) In balancing first sales (represented by marketing recorder's total sales memos) with computed first sales (bill-out total minus resales as reported by the warehouseman) the State executive director is authorized to approve reports with variance not to exceed one half of one percent of such pounds.

* * * * *

(k) Producer tobacco (first sale) in the possession of a warehouseman, resulting from long weights and long baskets, which has not previously been identified by a sale shall be recorded and reported in the same manner as a nonwarehouse sale to a warehouseman who does not prepare a warehouse bill (floor sheet) and shall be reported on MQ–79, Dealer's Record.

14. Section 724.102 is amended to read as follows:

§ 724.102 Dealers exempt from regular records and reports, excluding cigar tobacco buyers.

Any dealer or buyer who does not purchase or otherwise acquire tobacco except at a warehouse sale, hogshead warehouse sale, or directly from dealers other than warehousemen or hogshead warehousemen, and who does not resell in the form in which tobacco ordinarily is sold by farmers more than 5 percent of such tobacco so purchased by him, shall not be subject to the provisions of § 724.101: *Provided, however,* That any such dealer or buyer who purchases tobacco at nonwarehouse sale or who purchases or resells tobacco from or to another dealer or a warehouseman, but not at a warehouse sale, a hogshead warehouse sale shall be subject to the provisions of § 724.101 with respect to such purchases and resales.

(Secs. 301, 313, 314, 315, 316, 363, 372–75, 377, 378, 52 Stat. 38, as amended, 47, as amended, 48, as amended, 63, as amended, 66, as amended, 66, as amended, 66 Stat. 597, as amended, 70 Stat. 206, as amended, 72 Stat. 703, 995, as amended, 75 Stat. 469, as amended; secs. 401, 63 Stat. 1054, as amended, secs. 106, 112, 125, 70 Stat. 191, 195, 198, as amended; 7 U.S.C. 1301, 1313, 1314, 1314a, 1314b, 1363, 1372–75, 1377, 1378, 1421, 1813, 1824 and 1836)

Effective date: Date of filing with the Director, Office of the Federal Register.

Signed at Washington, D.C., on July 13, 1967.

H. D. GODFREY,
Administrator, Agricultural Stabilization and Conservation Service.

[F.R. Doc. 67–8285; Filed, July 18, 1967; 8:46 a.m.]

SUBCHAPTER C—SPECIAL PROGRAMS

[Amdt. 3]

PART 777—PROCESSOR WHEAT MARKETING CERTIFICATE REGULATIONS

Conversion Factor Basis of Reporting

The following amendment is issued pursuant to the Agricultural Adjustment Act of 1938, as amended (see sec. 379a to 379j, 52 Stat. 31, as amended, 7 U.S.C. 1379a to 1379j), to provide miscellaneous changes to the Republication of the Processor Wheat Marketing Certificate Regulations (31 F.R. 13502). There were no suggestions for changing the proposed amendment as a result of a notice given the public pursuant to section 4 of the Administrative Procedure Act (60 Stat. 238, 5 U.S.C. 553). Accordingly, the following conversion factor for whole wheat flakes for cereal is the same as published in the proposed amendment (32 F.R. 7976).

Since these provisions must be acted on immediately, or are needed immediately in the administration of the regulations, it is hereby found and determined that compliance with the 30-day effective date requirements of section 4 of the Administrative Procedure Act (60 Stat. 238, 5 U.S.C. 1003) is impracticable and contrary to the public interest and that this amendment shall be effective on the date provided below.

The Processor Wheat Marketing Certificate Regulations (31 F.R. 13502) are changed to read as follows:

Section 777.14(c) is amended by adding the following conversion factor for the product indicated:

A—Food product	B—Bushels of wheat equivalent per 100 pounds of product (conversion factor).
Whole wheat flakes for cereal, including fines (extraction approximately 89 percent cereal and approximately 7 percent fines)	1.87.

Effective date. This amendment shall be effective with the first processing report period following the date of filing with the Office of the Federal Register and to any prior processing report period for which a processor had been erroneously reporting quantities of wheat processed into the above described food product on a conversion factor basis unless the processor elects for such prior periods to submit amended reports on the weight of wheat basis of reporting.

Signed at Washington, D.C., on July 13, 1967.

H. D. GODFREY,
Administrator, Agricultural Stabilization and Conservation Service.

Chapter VIII—Agricultural Stabilization and Conservation Service (Sugar), Department of Agriculture

SUBCHAPTER B—SUGAR REQUIREMENTS AND QUOTAS

[Sugar Reg. 814.5, Amdt. 4]

PART 814—ALLOTMENT OF SUGAR QUOTA, MAINLAND CANE SUGAR AREA

1967

Basis and purpose. This amendment is issued under Section 205(a) of the Sugar Act of 1948, as amended (61 Stat. 926 as amended), hereinafter called the "Act," for the purpose of amending Sugar Regulation 814.5 (32 F.R. 6188, 8365), which established allotments for the Mainland Cane Sugar Area for the calendar year 1967.

This amendment is necessary to give effect to Sugar Regulation 811, Amendment 10, effective July 3, 1967 (32 F.R. 9949), which established the Mainland Cane Sugar Area Quota at 1,169,333 short tons, raw value, a quantity 34,666 tons greater than the quantity previously allotted.

In accordance with paragraphs (5) and (8) of the findings and conclusions set forth in S.R. 814.5, Amdt. 2 (32 F.R. 6188), and pursuant to paragraph (e) of such regulation, paragraph (7) of such findings and conclusions is amended to read as follows:

(7) The calculation of allotment referred to in paragraph (5) above, reflecting the quota for the area of 1,169,333 short tons, raw value, is set forth in the following table:

Processor	Processings of sugar [1]		Average quota marketings [2]		Ability to market					Processors basic allotment [3]		Processor's adjusted allotment [4] short tons, raw value
					Effective inventory Jan. 1, 1967	New-crop quota marketings		Measures used		Percent of total	Short tons, raw value	
	Short tons, raw value	Percent of total	Short tons, raw value	Percent of total		Average 1964–66	"Shares" of difference [3]	Col. (5) plus col. (7)	Percent of total			
					Short tons, raw value

[1] The higher of either the production of sugar from the 1965 crop sugarcane or 85 percent of the average production for the 1964 and 1965 crops of sugarcane.

[2] Average annual quota marketing for each processor for years he had such marketing during the period 1956 through 1966.

[3] The difference between 1,169,233 tons (quota for 1967 established by S.R. 811, Amdt. 10, less 100 tons reserve for Louisiana State University) and the total Jan. 1, 1967, effective inventories for all processors amounting to 780,088 tons. This difference of 389,217 tons prorated on the basis of each processor's average 1964–66 new-crop marketings.

[4] Col. (10) was determined by weighting "processings" Col. (2) by 60 percent, "marketings" Col. (4) by 20 percent, and "ability" col. (9) by 20 percent. Col. (11) was determined by multiplying the quota, less 100 tons reserved for Louisiana State University, by col. (10) and revising such resulting allotments by adding 200 tons to the allotment of Wm. T. Burton Industries, Inc., and reducing proportionately by a total of 500 tons the allotments of processors who were recipients of deficit reallocations in 1966 as provided in finding (5)(e). Such reduction can be determined for each individual processor by multiplying the percentage in col. (10) times the quota, less 100 tons reserved for Louisiana State University, and subtracting therefrom the amount shown in col. (11).

[5] Basic allotments in col. (11) which were less than the respective processors' Jan. 1, 1967, effective inventories were increased by a total of 16,000 short tons, raw value, and such basic allotments of other processors (those having Jan. 1, 1967, effective inventories not in excess of their basic allotments) were reduced proportionately as necessary to make total adjusted allotments equal to the quota in short tons, raw value, less 100 tons set aside for Louisiana State University. Upward adjustments in allotments (not to exceed a total of 16,000 tons) were made, first by increasing the allotment of any processor having a Jan. 1, 1967, physical inventory in excess of his basic allotment to the extent of such excess; and second, the remainder of the 16,000 tons was prorated to increase the allotments of other processors having Jan. 1, 1967, effective inventories in excess of their basic allotments in a manner that permitted each affected processor to market the same percentage, but not more than 100 percent, of his Jan. 1, 1967, effective inventory.

Pursuant to provisions of section 205(a) of the Act and in accordance with paragraph (e) of § 814.5 of this chapter, paragraph (a) of such § 814.5 is amended to read as follows:

§ 814.5 Allotment of the 1967 sugar quota for the Mainland Cane Sugar Area.

(a) The 1967 sugar quota for the Mainland Cane Sugar Area of 1,169,333 short tons, raw value, is hereby allotted to the following processors in the quantities which appear opposite their respective names:

Processors	Allotments (short tons, raw value)

(Sec. 403, 61 Stat. 932; 7 U.S.C. 1153. Secs. 205, 209; 61 Stat. 926, as amended, 928, as amended; 7 U.S.C. 1115, 1119)

Effective date. Allotments established in this order for all processors are larger than the allotments established in S.R. 814.5, Amdt. 3 (32 F.R. 6806). To afford adequate opportunity to plan and to market the additional quantities of sugar in an orderly manner, it is imperative that this amendment becomes effective as soon as possible. Accordingly, it is hereby found that compliance with the 30-day effective date requirement of 5 U.S.C. 553 (80 Stat. 378) is impracticable and contrary to the public interest and consequently, this amendment shall be effective upon publication in the FEDERAL REGISTER.

Signed at Washington, D.C., this 13th day of July 1967.

H. D. GODFREY,
Administrator, Agricultural Stabilization and Conservation Service.

[F.R. Doc. 67-8345; Filed, July 18, 1967; 8:45 a.m.]

Chapter X—Consumer and Marketing Service (Marketing Agreements and Orders; Milk), Department of Agriculture

[Milk Order 12]

PART 1012—MILK IN TAMPA BAY MARKETING AREA

Order Suspending Certain Provisions

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and of the order regulating the handling of milk in the Tampa Bay marketing area (7 CFR Part 1012), it is hereby found and determined that:

(a) Subparagraphs (2), (3), and (4) in § 1012.16(b) of the order will not tend to effectuate the declared policy of the Act for the months of July and August 1967.

(b) Notice of proposed rule making, public procedure thereon, and 30 days notice of the effective date hereof are impractical, unnecessary, and contrary to the public interest in that:

(1) This suspension order does not require of persons affected substantial or extensive preparation prior to the effective date.

(2) This suspension order is necessary to reflect current marketing conditions and to maintain orderly marketing conditions in the marketing area.

(3) This action will suspend for the months of July and August 1967 the provisions that limit the quantity of producer milk that may be diverted to nonpool plants by cooperatives and proprietary handlers. Without the suspension, the order would limit the quantity of producer milk that may be diverted by a cooperative association to 25 percent of all milk of its member producers physically received at pool plants during the month. The same percentage limitation on the diversion of its producer receipts would apply to the operator of a pool plant.

Such provisions were suspended for the months of May and June 1967 (32 F.R. 6835). Prior to that action, interested parties were afforded an opportunity to file written data, views, or arguments concerning a proposed termination of the diversion limitations (32 F.R. 6206). Persons filing views indicated that they would not oppose a suspension of the diversion provisions for a limited period.

The Tampa Independent Dairy Farmers' Association requested that these provisions be suspended for the additional months of July and August 1967. The request is supported by Dairy Farmers Mutual, and two other cooperatives have indicated that they do not oppose such a suspension. These four cooperatives represent over 90 percent of the producers in Tampa Bay market.

These diversion limitations would continue to cause an extreme hardship on Tampa Independent Dairy Farmers' Association and disorderly conditions in the market if in effect in July and August 1967. The Association performs the role of balancing the milk supply for the entire market. In doing so, substantial quantities of member milk, which must currently be disposed of to surplus outlets, would have to be kept out of the pool because of the diversion limitations. This would result in lower returns to the Association's members relative to other producers on the market.

Therefore, good cause exists for making this order effective upon publication in the FEDERAL REGISTER.

It is therefore ordered, That the aforesaid provisions of the order are hereby suspended for the period July 1, 1967, through August 31, 1967.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Effective date: Upon publication in the FEDERAL REGISTER.

Signed at Washington, D.C., on July 13, 1967.

ORVILLE L. FREEMAN,
Secretary.

[F.R. Doc. 67-8289; Filed, July 18, 1967; 8:45 a.m.]

[Milk Order 102]

PART 1102—MILK IN FORT SMITH, ARK., MARKETING AREA

Order Amending Order

§ 1102.0 Findings and determinations.

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the Fort Smith, Ark., marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act.

(2) The parity prices of milk, as determined pursuant to section 2 of the Act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order as hereby amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is necessary in the public interest to make this order amending the order effective not later than August 1, 1967. Any delay beyond that date would tend to disrupt the orderly marketing of milk in the marketing area.

The provisions of the said order are known to handlers. The recommended decision of the Deputy Administrator was issued May 22, 1967, and the decision of the Assistant Secretary containing all amendment provisions of this order was issued June 28, 1967. The changes effected by this order will not require extensive preparation or substantial alteration in method of operation for handlers. In view of the foregoing, it is hereby found and determined that good cause exists for making this order amending the order effective August 1, 1967, and that it would be contrary to the public interest to delay the effective date of this amendment for 30 days after its publication in the FEDERAL REGISTER (5 U.S.C. 553(d) (1966)).

(c) *Determinations.* It is hereby determined that:

(1) The refusal or failure of handlers (excluding cooperative associations specified in section 8c(9) of the Act) of more than 50 percent of the milk, which is marketed within the marketing area, to sign a proposed marketing agreement, tends to prevent the effectuation of the declared policy of the Act;

(2) The issuance of this order, amending the order, is the only practical means pursuant to the declared policy of the Act of advancing the interests of producers as defined in the order as hereby amended; and

(3) The issuance of the order amending the order is approved or favored by at least three-fourths of the producers who during the determined representative period were engaged in the production of milk for sale in the marketing area.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the handling of milk in the Fort Smith, Ark., marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended and as hereby amended, as follows:

1. In § 1102.51, the introductory text preceding paragraph (a) is revised to read as follows:

§ 1102.51 Class prices.

Subject to the provisions of §§ 1102.52 and 1102.54, the minimum prices per hundredweight to be paid by each handler for milk received at his plant from producers during the month shall be as follows:

* * * * *

2. Add a new § 1102.54 to read as follows:

§ 1102.54 Location adjustment to handlers.

(a) For milk received from producers at an approved plant located more than 50 miles by the shortest highway distance, as determined by the market administrator, from the county courthouse in Fort Smith, Ark., which is classified as Class I milk or assigned Class I location adjustment credit pursuant to paragraph (b) of this section, the price computed pursuant to § 1102.51(a) shall be reduced at the rate of 1.5 cents for each 10 miles or fraction thereof that such plant is distant from the county courthouse in Fort Smith, Ark.; and

(b) For purposes of calculating such adjustment, transfers of fluid milk products between approved plants shall be assigned to Class I disposition at the transferee plant which is in excess of the sum of receipts at such plant from producers and the pounds assigned as Class I to receipts from other order plants and unregulated supply plants. Such assignment is to be made first to transferor plants at which no location adjustment credit is applicable and then in sequence beginning with the plant at which the least location adjustment would apply.

3. Section 1102.60 is revised to read as follows:

§ 1102.60 Producer-handlers.

Sections 1102.40 through 1102.46, 1102.50 through 1102.54, 1102.70 through 1102.72, 1102.80 through 1102.86, and 1102.90 through 1102.93 shall not apply to a producer-handler.

4. Section 1102.71 is revised to read as follows:

§ 1102.71 Computation of uniform prices for handlers.

For each of the months of August through February, the market administrator shall compute for each handler a uniform price per hundredweight for milk of 3.5 percent butterfat content received from producers as follows:

(a) Adjust the amount computed pursuant to § 1102.70 for each one-tenth percent that the average butterfat test of milk received from producers by such handler is less or more than 3.5 percent, an amount computed by multiplying such difference by the butterfat differential computed pursuant to § 1102.81 and multiplying the result by the total hundredweight of milk received from producers;

(b) Add the amount represented by any deductions made for eliminating fractions of a cent in computing the uniform price(s) for such handler for the preceding month;

(c) Add an amount equal to the sum of the deductions to be made for location differentials pursuant to § 1102.86; and

(d) Divide the resulting amount by the total hundredweight of milk received from producers by such handler. The result, less any fraction of a cent per hundredweight, shall be known as the uniform price for such handler for milk of 3.5 percent butterfat content.

5. In § 1102.72, paragraph (a) is revised to read as follows:

§ 1102.72 Computation of the uniform prices for base and excess milk for each handler.

* * * * *

(a) Follow the computations and adjustments provided for in § 1102.71 (a), (b), and (c);

* * * * *

6. In § 1102.80, paragraph (a) is revised to read as follows:

§ 1102.80 Time and method of payment.

* * * * *

(a) On or before the 15th day after the end of the month during which the milk was received, to each producer except as provided in paragraph (c) of this section, at not less than the appropriate uniform price(s) adjusted by the producer butterfat differential computed pursuant to § 1102.81, subject to the location adjustment to producers pursuant to § 1102.86, for all milk received from such producer during the preceding month less the amount of payment made pursuant to paragraph (b) of this section.

* * * * *

7. Add a new § 1102.86 to read as follows:

§ 1102.86 Location differentials to producers.

The uniform price for producer milk received at an approved plant shall be reduced according to the location of the approved plant, at the rates set forth in § 1102.54.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Effective date: August 1, 1967.

Signed at Washington, D.C., on July 13, 1967.

ORVILLE L. FREEMAN,
Secretary.

Title 12—BANKS AND BANKING

Chapter III—Federal Deposit Insurance Corporation

SUBCHAPTER A—PROCEDURE AND RULES OF PRACTICE

PART 303—APPLICATIONS, REQUESTS, AND SUBMITTALS

Effective on the date of publication of this revision in the FEDERAL REGISTER, Part 303 of the rules and regulations of the Federal Deposit Insurance Corporation (12 CFR Part 303) is revised to read as follows:

Sec.
303.1 Application by nonmember bank for deposit insurance.
303.2 Application by insured State nonmember bank to establish a branch.
303.3 Application by insured State nonmember bank to move main office or branch.
303.4 Application by insured State nonmember bank to reduce or retire capital.
303.5 Application for conversion, merger, consolidation, assumption, and sale of asset transactions.
303.6 Application by insured State nonmember bank to extend its corporate or charter powers.
303.7 Application to continue or resume insured status.
303.8 Application for exemption from or exception to advertising requirements.
303.9 Other applications.
303.10 Procedure on applications.
303.11 Notice of disposition of application.

AUTHORITY: The provisions of this Part 303 issued under sec. 9, 64 Stat. 881; 12 U.S.C. 1819. Interpret or apply secs. 5, 6, 8, 18, 19, 64 Stat. 876, 879, 891, 893; 12 U.S.C. 1815, 1816, 1818, 1828, 1829.

§ 303.1 Application by nonmember bank[1] for deposit insurance.

Application for deposit insurance by an existing or proposed State nonmember bank should be filed with the Supervising Examiner of the Federal Deposit Insurance Corporation District in which the bank or proposed bank is or will be located. Any such application by an existing bank must be accompanied by separate applications for the consent of the Corporation to the continued operation of each branch which it proposes to continue to operate. Any such application by a proposed bank must be accompanied by a separate application for the consent of the Corporation to establish and operate each proposed branch. The appropriate forms of application and instructions for completing the same may be obtained upon request from the Supervising Examiner of the District in which the application originates. (See Part 304 of this title for list of forms and instructions.)

§ 303.2 Application by insured State nonmember bank to establish a branch.[2]

Application by an insured State nonmember bank (except a District bank) to establish and operate a new branch should be filed with the Supervising Examiner of the Federal Deposit Insurance Corporation District in which the bank is located. The appropriate form of application and instructions for completing the same may be obtained upon request from the Supervising Examiner of the District in which the application originates. (See Part 304 of this title for list of forms and instructions.)

§ 303.3 Application by insured State nonmember bank to move main office or branch.

Application for the consent of the Corporation to move the main office of

[1] A nonmember bank is a bank which is not a member of the Federal Reserve System.

[2] "The term 'branch' includes any branch bank, branch office, branch agency, additional office, or any branch place of business located in any State of the United States or in any Territory of the United States, Puerto Rico, Guam, or the Virgin Islands at which deposits are received or checks paid or money lent." (Sec. 3(o) of the Federal Deposit Insurance Act, as amended (12 U.S.C. 1813(o)).

branch of an insured State nonmember bank (except a District bank) should be filed with the Supervising Examiner of the Federal Deposit Insurance Corporation District in which the bank is located. The appropriate form of application and instructions for completing the same may be obtained upon request from the Supervising Examiner of the District in which the application originates. (See Part 304 of this title for list of forms and instructions.)

§ 303.4 Application by insured State nonmember bank to reduce or retire capital.

Application for the consent of the Corporation to the reduction in the amount, or retirement of any part, of the common or preferred capital stock, or retirement of any of the capital notes or debentures, of an insured State nonmember bank (except a District bank) should be filed with the Supervising Examiner of the Federal Deposit Insurance Corporation District in which the bank is located. The appropriate form of application and instructions for completing the same may be obtained upon request from the Supervising Examiner of the District in which the application originates. (See Part 304 of this title for list of forms and instructions.)

§ 303.5 Application for conversion, merger, consolidation, assumption and sale of asset transactions.

(a) *With noninsured bank or institution.* Application by an insured bank for the consent of the Corporation to merge or consolidate with a noninsured bank or institution, or to convert into a noninsured institution, or to assume liability to pay any deposits made in, or similar liabilities of, any noninsured bank or institution, or to transfer assets to any noninsured bank or institution in consideration of the assumption of liability for any portion of the deposits made in such insured bank, together with copies of all agreements or proposed agreements relating thereto, should be filed with the Supervising Examiner of the Federal Deposit Insurance Corporation District in which the insured bank is located. The appropriate form of application and instructions for completing the form, as well as instructions concerning notice to depositors, may be obtained upon request from the office of said Supervising Examiner.

(b) *Conversion with diminution of capital or surplus.* Application for the appropriate form of application and into an insured State nonmember bank (except a District bank)—when the conversion will result in the converted bank's having less capital stock or surplus than the converted bank at the time of the shareholders' meeting approving such conversion—together with copies of the charter and/or articles of association of the converted bank, should be filed with the Supervising Examiner of the Federal Deposit Insurance Corporation District in which the insured bank is located. The appropriate form of application and instructions for completing the form may be obtained upon request from the office of said Supervising Examiner.

(c) *Merger, consolidation, asset acquisition or assumption transaction between insured banks.* Application by an insured bank for the consent of the Corporation to merge or consolidate with, acquire the assets of, or assume the liability to pay any deposits made in, another insured bank—when the resulting or assuming bank is to be an insured State nonmember bank (except a District bank)—together with copies of all agreements or proposed agreements relating thereto, including the charter or articles of incorporation of the resulting or assuming bank, should be filed with the Supervising Examiner of the Federal Deposit Insurance Corporation District in which the resulting or assuming bank is located. The appropriate form of application and instructions for completing the same may be obtained upon request from the office of said Supervising Examiner.

§ 303.6 Application by insured State nonmember bank to extend its corporate or charter powers.

Application for the consent of the Corporation to the extension of the corporate or charter powers of an insured State nonmember bank (except a District bank) should be filed with the Supervising Examiner of the Federal Deposit Insurance Corporation District in which the bank is located. The appropriate form of application and instructions for completing the same may be obtained upon request from the Supervising Examiner of the District in which the application originates. (See Part 304 of this title for list of forms and instructions.)

§ 303.7 Application to continue or resume insured status.

Application under § 327.3(c) of this title by a bank whose insured status has been terminated for permission to continue or to resume its status as an insured bank should be filed with the Supervising Examiner of the Federal Deposit Insurance Corporation District in which the bank is located. Such application should (a) be in writing, (b) be signed by the president, or cashier, or other managing officer of the bank, (c) be accompanied by a certified copy of the resolution of its board of directors authorizing the submission of such application, (d) contain a statement that the bank's insured status has been terminated (including the date thereof and the basis therefor), that the insurance of its deposits has not ceased, and that it applies for permission to continue or resume its status as an insured bank, and (e) state the reasons why the continuance or resumption of such status should be permitted by the Corporation.

§ 303.8 Application for exemption from or exception to advertising requirements.

Any application made by an insured bank under any of the provisions of Part 328 of this title should be filed with the

Division of Examination of the Corporation at its principal office. Such application should (a) be in writing, (b) be signed by the president, or cashier, or other managing officer of the bank, and (c) state, in conformity with the particular provision in respect of which the application is made, the reason for the request in detail and the reason why the application should be granted.

§ 303.9 Other applications.

Except as otherwise provided by rule or regulation, all applications, requests, and submittals for which no form of application has been prescribed by the Corporation should (a) be in writing, (b) be signed by the applicant or his duly authorized agent, (c) contain a statement of the applicant's interest therein, a complete and concise statement of the action requested and the reasons and facts relied upon as the basis for such requested action, and (d) be addressed to the Secretary at the principal office of the Corporation. The applicant shall furnish such other pertinent information as may be required by the Corporation. Whenever applicable, the forms specified in Part 304 of this title should be used, the instructions issued with respect thereto should be followed, and submission should be made as therein provided.

§ 303.10 Procedure on applications.

(a) With respect to applications for deposit insurance under § 303.1, the Division of Examination of the Corporation will cause an investigation to be conducted and an examination to be made of the bank or proposed bank. Thereafter, the Board of Directors, in accordance with applicable provisions of law, will act upon such application after considering the report of such investigation and examination, the recommendations thereon of the examiner and Supervising Examiner of the District in which the bank is or will be located, the recommendations of the Division of Examination, the recommendations of the Board of Review with respect to matters referred to it, and the legal opinion of counsel for the Corporation. The applicant bank will be duly advised of the Board's decision upon such application.

(b) With respect to all other applications, requests, or submittals, the Board of Directors will cause such an investigation or examination, or both, to be made by the proper Divisions of the Corporation as the Board shall deem appropriate, and upon the report of such investigation and examination, and the recommendations thereon, will take such action as it shall deem necessary or appropriate in the premises.

(c) The Chief of the Division of Examination and the Supervising Examiner of the District in which the bank is located have been authorized to take final action with respect to the approval of certain applications, such as applications by an insured State nonmember bank to move its main office or branch or to obtain an extension of time limitation imposed in connection with a previous application. This delegated authority is subject to certain limitations set forth in the delegations of authority which are available at the office of each Supervising Examiner. The Chief of the Division of Examination is also authorized to act upon applications by insured State nonmember banks for extensions of time of 90 days or less within which to register securities pursuant to the provisions of section 12(g) of the Securities Exchange Act of 1934, as amended.

(d) For the purpose of assuring the performance and continuity in the management functions and activities of the Corporation, the Board of Directors has delegated, to the extent deemed necessary, authority with respect to the management of the Corporation's affairs to certain designated officers, such authority to be exercised only in the event of an emergency, involving an enemy attack on the continental United States or other warlike occurrence, which renders the Board of Directors unable to perform the management functions and activities normally performed by it.

(e) With respect to any application, the Board of Directors will afford the applicant or other properly interested persons, including Government agencies, an opportunity to present views orally before the Board of Directors or its designated representative or representatives, either at informal conference discussions or at informal presentation of evidence.

§ 303.11 Notice of disposition of application.

Prompt notice will be given of the grant or denial, in whole or in part, of any written application, petition, or other request of any interested person made in connection with any agency proceeding. In the case of a denial, except in affirming a prior denial, or where the same is self-explanatory, such notice will be accompanied by a simple statement of procedural or other grounds.

The amendments revise Part 303 of the Corporation's rules and regulations (12 CFR Part 303) to make editorial changes. The revision of § 303.8 conforms the section to amendments to Part 328 of the Corporation's rules and regulations (12 CFR Part 328) which were previously published in the FEDERAL REGISTER.

Inasmuch as the Board of Directors has found, pursuant to § 302.6 of the Corporation's rules and regulations (12 CFR 302.6), that the amendments to Part 303 are editorial and not substantive in nature and that notice, public participation, and prior publication are unnecessary and would serve no useful purpose, the requirements of section 553 of title 5, United States Code, with respect to notice, public participation, and deferred effective date were not followed in connection with this amendment.

(Sec. 9, 64 Stat. 881; 12 U.S.C. 1819.)

FEDERAL DEPOSIT INSURANCE CORPORATION,
[SEAL] E. F. DOWNEY,
Secretary.

[F.R. Doc. 67-8315; Filed, July 18, 1967; 8:48 a.m.]

PART 304—FORMS, INSTRUCTIONS, AND REPORTS

Effective on the date of publication of this revision in the FEDERAL REGISTER, Part 304 of the rules and regulations of the Federal Deposit Insurance Corporation (12 CFR Part 304) is revised to read as follows:

Sec.
304.1 Certified statements.
304.2 Reports of condition, etc.
304.3 Forms and instructions.

AUTHORITY: The provisions of this Part 304 issued under sec. 9, 64 Stat. 881; 12 U.S.C. 1819. Interpret or apply secs. 5–8, 10, 18, 19, 64 Stat. 876, 879, 883, 891, 893; 12 U.S.C. 1815–1818, 1820, 1828, 1829.

§ 304.1 Certified statements.

The certified statements required to be filed by insured banks in accordance with the provisions of section 7 of the Federal Deposit Insurance Act, as amended (12 U.S.C. 1817), shall be filed with the Fiscal Agent of the Corporation upon the forms, and in the manner, prescribed by the Board of Directors. The assessments required to be certified must be paid to the Corporation at the time such statements are required to be filed. The form of certified statement will be furnished to all insured banks by, or may be obtained upon request from, the fiscal agent.

§ 304.2 Reports of condition, etc.

Whenever required, insured State nonmember banks (except District banks) shall file reports of condition, reports of income and dividends, and summaries of deposits with the Division of Research upon the forms, in the manner, and pursuant to the instructions prescribed by the Board of Directors from time to time. The form of such reports and instructions for completing the same will be furnished to all such banks by, or may be obtained upon request from, the Division of Research. Each insured national bank and each insured District bank at the time of making reports of conditon to the Comptroller of the Currency and each insured State member bank at the time of making reports of condition to the Federal Reserve bank, required under the Federal Deposit Insurance Act, shall furnish an executed and attested copy thereof to the Corporation.

§ 304.3 Forms and instructions.

The following forms and instructions have been prepared by the Corporation for the use of banks and may be obtained by any person properly and directly concerned therewith upon request at the office designated in this chapter:

(a) *Form 82: Application of proposed bank (other than mutual savings) for Federal deposit insurance.* The proposed incorporators are required to make statements and representations and to submit information with respect to the several factors enumerated in section 6 of the Federal Deposit Insurance Act (12 U.S.C. 1816). The application on Form 82 must be executed in quadruplicate. Three applications signed by the proposed incorporators must be forwarded to the Supervising Examiner and the other application may be retained by the prospective incorporators. Applications filed on Form 82 must be accompanied by a certified copy of the proposed articles of incorporation or association and the requisite number of properly executed Forms 83. If the proposed bank contemplates the establishment of a branch or branches, its application on Form 82 must be accompanied by a properly executed Form 85 for each branch. After incorporation is duly effected, the bank must submit a properly executed Form 82a.

(b) *Form 82–M: Application of proposed mutual savings bank for Federal deposit insurance.* Form 82–M, which is substantially the same as Form 82, should be used when the proposed bank is to be a mutual savings bank and should be prepared and submitted in the same manner as Form 82. If the proposed bank contemplates the establishment of a branch or branches, its application on Form 82–M must be accompanied by a properly executed Form 85–M for each branch.

(c) *Form 82a and Form 82a–M: Certificate of adoption of resolution.* Form 82a is a copy of the resolution of the board of directors (or trustees) of the bank approving the action of the prospective incorporators in preparing and presenting its application for Federal deposit insurance on Form 82 or 82–M, certified to be a true and correct copy by the president or vice president and cashier or secretary. After incorporation has been duly effected and the bank is chartered to do business by the proper State authority, four properly executed Forms 82a must be transmitted to the Supervising Examiner. If not previously submitted, Form 82a must be accompanied by a copy of the bank's articles of incorporation or association and a copy of the bank's license or authorization to engage in the business of receiving deposits.

(d) *Form 84: Application for Federal deposit insurance by an existing noninsured State bank (other than mutual savings).* The applicant bank is required to submit statements, representations, and information with respect to the several factors enumerated in section 6 of the Federal Deposit Insurance Act (12 U.S.C. 1816) and a copy of the resolution of its board of directors authorizing the bank's president or vice president and cashier or secretary to make the application. The application must be executed in quadruplicate, signed by such officers, and the bank's corporate seal affixed thereto. Three signed applications must be forwarded to the Supervising Examiner and the other application may be retained by the bank. Applications filed on Form 84 must be accompanied by the requisite number of properly executed Forms 83 and a certified copy of the articles of incorporation or association, including any amendments thereto. If the bank has a branch or branches, its application on Form 84 must be accompanied by a properly executed Form 85 for each branch.

(e) *Form 84–M: Application for Federal deposit insurance by an existing noninsured mutual savings bank.* Form 84–M, which is substantially the same as Form 84, should be used by mutual savings banks and should be prepared and submitted in the same manner as Form 84. If the bank has a branch or branches, its application on Form 84–M must be accompanied by a properly executed Form 85–M for each branch.

(f) *Form 83 and Form 83–M: Financial statement.* Form 83 must be executed in triplicate and certified to be true and correct by each individual director (or trustee) and officer of the bank or proposed bank (who is solely responsible for its contents) for the benefit of the Board of Directors of the Corporation in determining, with respect to the applicant bank, the general character of its management in accordance with section 6 of the Federal Deposit Insurance Act (12 U.S.C. 1816). The requisite number of properly executed and signed Forms 83 must accompany each application on Form 82, Form 82–M, Form 84, or Form 84–M.

(g) *Form 85, Form 85a, and Form 85b: Application of insured State nonmember bank (except District bank and mutual savings bank) to establish or move its main office or branch.* (1) Form 85 is an application to establish a branch. The applicant bank is required to submit statements, representations, and information with respect to the several factors enumerated in section 6 of the Federal Deposit Insurance Act (12 U.S.C. 1816) and a copy of the resolution of its president or vice president and cashier or secretary to make the application. The application must be executed in quadruplicate, signed by the president or vice president, have the corporate seal of the bank affixed thereto, and be attested by the cashier or secretary. Three signed applications must be forwarded to the Supervising Examiner and the other application may be retained by the bank. The application must be accompanied by a certified copy of the bank's articles of incorporation or association, including any amendments thereto unless previously submitted to the Corporation and not subsequently amended.

(2) Form 85a is an application to move main office or branch. It is similar to Form 85 and should be prepared and submitted in the same manner as Form 85.

(3) Form 85b is an application to establish a branch pursuant to designation as depositary and financial agent of the U.S. Government. It is similar to Form 85 and should be prepared and submitted in the same manner as Form 85.

(h) *Form 85–M and Form 85a–M: Application by insured nonmember mutual savings bank to establish a branch or move its main office or branch.* (1) Form 85–M is substantially the same as Form 85 and should be prepared and submitted in the same manner as Form 85.

(2) Form 85a–M is substantially the same as Form 85a and should be prepared and submitted in the same manner as Form 85.

(i) *Form 86: Application for merger, consolidation, asset acquisition, or assumption.* The bank applying for prior written consent to merge with, consolidate with, acquire the assets of, or assume liability to pay deposits made in, another bank or institution, pursuant to section 18(c) of the Federal Deposit Insurance Act, as amended (12 U.S.C. 1828(c)), and for the establishment of branches incident thereto pursuant to section 18(d) of the Act is required to submit statements, representations, and information with respect to the several factors enumerated in said section 18(c). Twelve copies of the application and all documents, schedules, and exhibits, including the agreement between the participating banks and the charter or articles of incorporation of the resulting or assuming bank, are to be executed by an authorized officer with the bank's corporate seal affixed and forwarded to the Supervising Examiner. The Corporation will furnish the applicant bank with a form of the notice (Form 116) for publication provided for in said section 18(c).

(j) *Form 100: Application for consent to retirement of common or preferred stock, capital notes, or debentures.* The applicant bank is required to submit statements with respect to the nature of the proposal, source of funds to effect the proposal, and other steps involved in the retirement. The application contains a statement of assets and liabilities and the disposition of certain assets adversely classified in the preceding report of examination made of the bank by examiners of the Corporation. Three applications certified to be true and correct and signed by the president or cashier of the bank must be forwarded to the Supervising Examiner.

(k) *Form 102: Application.* Form 102 should be used by all banks applying for the consent of the Corporation with respect to any application requiring such consent and for which no specific form is prescribed by this section or otherwise. The form contains a copy of the resolution of the bank's board of directors describing the proposal and authorizing the application, a statement of the action taken upon the proposal by the proper State banking authority where such action is required, and must be signed by the president or vice president and attested by the cashier or secretary. The application must be accompanied by a copy of the bank's articles of incorporation or association including any amendments thereto unless previously submitted to the Corporation and not subsequently amended. The application must be executed in quadruplicate. Three signed applications must be submitted to the Supervising Examiner of the District wherein the bank is located and one copy may be retained by the bank.

(l) *Form 64: Report of condition (from banks other than mutual savings).* Form 64 is a report in the form of a

standard statement of the assets and liabilities of the reporting bank together with additional detailed breakdown of selected items and information for assessment purposes. When special circumstances so require, additional detail with respect to specific asset or liability items may be required. Reports of condition must be prepared in accordance with the instructions contained in the booklet entitled "Instructions for the preparation of Report of Condition on Form 64," copies of which are furnished by the Corporation to all insured State nonmember banks (except District banks) and which may be obtained on request from the Division of Research.

(m) *Form 64 (Savings): Report of condition (from mutual savings banks).* Form 64 (Savings) is substantially the same as Form 64 and should be used by mutual savings banks.

(n) *Form 73: Report of income and dividends (from banks other than mutual savings).* Report of income and dividends, Form 73, is a report in the form of a standard profit and loss statement and a reconciliation of changes in total capital accounts during the year. When special circumstances so require, additional detail with respect to specific income or expense items, chargeoffs or recoveries, profits on assets sold, or changes in total capital account may be required. Reports of income and dividends must be prepared in accordance with the instructions contained in the booklet entitled "Instructions for the preparation of Report of Income and Dividends on Form 73," which is furnished by the Corporation to all insured State nonmember banks (except District banks) and which may be obtained on request from the Division of Research.

(o) *Form 73 (Savings): Report of income and dividends (from mutual savings banks).* Form 73 (Savings) is substantially the same as Form 73 and should be used by mutual savings banks.

(p) *Form 89: Summary of Deposits.* Report of summary of deposits is a report of the number of deposit accounts and the amount of deposits in such accounts grouped by size of account and type of deposit. Summary of deposit reports must be prepared in accordance with instructions contained in the pamphlet entitled "Instructions for preparation of Form 89," which is furnished by the Corporation to all insured banks and which may be obtained on request from the Division of Research.

(q) *Form 545: Certified statement (for banks other than mutual savings).* A form 545 must be submitted on or before January 31 and July 31 of each year by every insured bank, except any newly insured banks which must submit their first certified statement on Form 645, and any mutual savings banks which must use Form 545 (Savings). Form 545 shows the deposit liabilities, less authorized deductions, reported in two reports of condition in each semiannual assessment period. The form will show the computation of the assessment base and the amount of the assessment due the Corporation. It must be prepared in duplicate, certified by the president of the bank or any other officer designated by its board of directors, and an original must be forwarded to the fiscal agent. The duplicate copy should be retained in the bank's file.[1] The forms are mailed to all insured banks each six months in ample time to permit compliance with the law, but if not received on or before January 1 or July 1, they should be obtained from the fiscal agent. Any questions in respect to such forms should be directed to the fiscal agent.

(r) *Form 545 (Savings): Certified statement (for mutual savings banks).* This form is substantially the same as Form 545 and should be used by mutual savings banks.

(s) *Form 645: First certified statement (for banks other than mutual savings).* The first certified statement, Form 645, must be submitted on or before July 31 or January 31 following the semiannual period in which the bank began operation as an insured bank. The form shows the deposit liabilities, less authorized deductions, as provided by law, on the last date within such period for which it was required to submit a report of condition or, if such bank became an insured bank after the last date in such period for which a report of condition was required, such bank shall make a report of condition as of the last day of such semiannual period, and shall file with the Corporation a certified statement showing, as its assessment base for such period, its assessment base for the date of such special report. The form will show the computation of the assessment base and the amount of the assessment due the Corporation. It must be prepared in duplicate, certified by the president of the bank or any other officer designated by its board of directors, and the original must be forwarded to the fiscal agent. The duplicate copy should be retained in the bank's file.[1] The forms will be mailed by the fiscal agent to newly insured banks with appropriate instructions for their preparation.

(t) *Form 645 (Savings): First certified statement (for mutual savings banks).* This form is substantially the same as Form 645 and should be used by mutual savings banks.

(u) *Form 845: Final certified statement—for use by an insured bank (except mutual savings banks) whose deposits are assumed by another insured bank.* This statement, Form 845, shows the deposit liabilities, less authorized deductions, of the bank in the report or reports of condition prior to the assumption date. Form 845, accompanied by appropriate letter of explanation and instructions, will be mailed by the fiscal agent to each insured bank whose deposit liabilities are assumed by another insured bank. The form must be prepared in duplicate, certified by the president of the bank or any other officer designated by its board of directors, and the original must be forwarded to the fiscal agent. The duplicate copy should be retained in the bank's files.[1] If the deposits of the liquidating bank are assumed by a newly insured bank, the liquidating bank is not required to file Form 845 or to pay any assessments upon the deposits so assumed after the semiannual period in which the assumption takes effect.

(v) *Form 845 (Savings): Final certified statement (for mutual savings banks).* This form is substantially the same as Form 845 and should be used by mutual savings banks.

(w) *Form 845A: Final certified statement—for use of an insured bank (other than mutual savings banks) whose deposit liabilities are assumed by another insured operating bank.* (To be used when the assuming bank executes the certified statement for the bank whose deposits were assumed.) Form 845A may be substituted for Form 845 described in paragraph (u) of this section if the assuming bank is executing the certified statement for the bank whose deposit liabilities were assumed. Form 845A is prepared in the same manner as Form 845 except the certification is executed by an official of the assuming bank.

(x) *Form 845A (Savings): Final certified statement—for use of an insured mutual savings bank whose deposit liabilities are assumed by another insured operating bank.* (To be used when the assuming bank executes the certified statement for the bank whose deposits were assumed.) Form 845A (Savings) may be substituted for Form 845 (Savings) described in paragraph (v) of this section if the assuming bank is executing the certified statement for the bank whose deposit liabilities were assumed. Form 845A (Savings) is prepared in the same manner as Form 845 (Savings) except the certification is executed by an official of the assuming bank.

(y) *Amended and corrected certified statements.* Forms for use in amending or correcting previously submitted certified statements are identical in number and form with Forms 545, 645, 845, 845A (for other than mutual savings banks), 545 (Savings), 645 (Savings), 845 (Savings), and 845A (Savings) described above, except the title of the forms contains the additional word "Amended" or "Corrected." These forms may be obtained on request from the fiscal agent.

This revision of Part 304 of the Corporation's rules and regulations (12 CFR Part 304) substitutes the word "income" for the word "earnings" in Form 73 and Form 73 (Savings). The revision incorporates numerous other changes of an editorial nature.

[1] Section 7(b)(6) of the Federal Deposit Insurance Act, which relates to assessment base deductions, provides, in part, as follows: "Each insured bank, as a condition to the right to make any such deduction in determining its assessment base, shall maintain such records as will readily permit verification of the correctness of its assessment base. No insured bank shall be required to retain such records for such purpose for a period in excess of five years from the date of the filing of any certified statement, except that when there is a dispute between the insured bank and the Corporation over the amount of any assessment the bank shall retain such records until final determination of the issue."

Inasmuch as the Board of Directors has found, pursuant to § 302.6 of the Corporation's rules and regulations (12 CFR 302.6), that the revision of Part 304 is editorial and not substantive in nature and that notice, public participation, and prior publication are unnecessary and would serve no useful purpose, the requirements of section 553 of title 5, United States Code, with respect to notice, public participation, and deferred effective date were not followed in connection with this amendment. (Sec. 9, 64 Stat. 881; 12 U.S.C. 1819.)

FEDERAL DEPOSIT INSURANCE CORPORATION,
[SEAL] E. F. DOWNEY,
Secretary.

[F.R. Doc. 67-8318; Filed, July 18, 1967; 8:49 a.m.]

PART 306—RECEIVERSHIPS AND LIQUIDATIONS

National Bank Receiverships

Effective on the date of publication of this amendment in the FEDERAL REGISTER, the fifth and sixth sentences and footnote 1 of § 306.2 *National bank receiverships* of the rules and regulations of the Federal Deposit Insurance Corporation (12 CFR 306.2) are amended by substituting the figure "$15,000" for the figure "$10,000".

Subsection (a) of section 301 of the Financial Institutions Supervisory Act of 1966 (80 Stat. 1055) amended section 3(m) of the Federal Deposit Insurance Act (12 U.S.C. 1813(m)) by changing "$10,000" to read "$15,000". The amendment to § 306.2 of the Corporation's rules and regulations reflects this statutory change.

Inasmuch as the Board of Directors has found, pursuant to § 302.6 of the Corporation's rules and regulations (12 CFR 302.6), that notice, public participation, and prior publication of this amendment to § 306.2 would serve no useful purpose, the requirements of section 553 of title 5, United States Code, with respect to such notice, public participation, and deferred effective date were not followed in connection with this amendment. (Sec. 9, 64 Stat. 881; 12 U.S.C. 1819.)

FEDERAL DEPOSIT INSURANCE CORPORATION,
[SEAL] E. F. DOWNEY,
Secretary.

PART 307—VOLUNTARY TERMINATION OF INSURED STATUS

Miscellaneous Amendments

Effective on the date of publication of these amendments in the FEDERAL REGISTER, Part 307 of the rules and regulations of the Federal Deposit Insurance Corporation (12 CFR Part 307) is amended as follows:

1. Footnote 2 is amended by striking out the words "and to the Reconstruction Finance Corporation if it owns or holds as pledgee any preferred stock, capital notes, or debentures of such bank.".

2. Footnote 8 is amended by substituting the words "Section 8(c)" for the words "Section 8(b)".

3. Paragraph (a) of § 307.3 is amended by substituting the words "section 8(q)" for the words "section 8(d)" in the form for notice to depositors.

4. Footnote 9 is amended by substituting the words "Section 8(q)" for the words "Section 8(d)".

The purpose of the above amendments is to reflect the amendment of subsection (a), and the redesignation of subsections (b) and (d) as (c) and (q), of section 8 of the Federal Deposit Insurance Act (12 U.S.C. 1818) by the Financial Institutions Supervisory Act of 1966 (80 Stat. 1028).

Inasmuch as the Board of Directors has found, pursuant to § 302.6 of the Corporation's rules and regulations (12 CFR 302.6), that notice, public participation, and prior publication of these amendments to Part 307 would serve no useful purpose, the requirements of section 553 of title 5, United States Code, with respect to such notice, public participation, and deferred effective date were not followed in connection with these amendments. (Sec. 9, 64 Stat. 881; 12 U.S.C. 1819.)

FEDERAL DEPOSIT INSURANCE CORPORATION,
[SEAL] E. F. DOWNEY,
Secretary.

[F.R. Doc. 67-8320; Filed, July 18, 1967; 8:49 a.m.]

SUBCHAPTER B—REGULATIONS AND STATEMENTS OF GENERAL POLICY

PART 325—INTRODUCTORY

Scope

Effective on the date of publication of these amendments in the FEDERAL REGISTER, § 325.0 *Scope* of the rules and regulations of the Federal Deposit Insurance Corporation (12 CFR 325.0) is amended by substituting the words "subchapter II of chapter 5 of title 5, United States Code" for the words "the Administrative Procedure Act (60 Stat. 237)" and by substituting the words "section 552(a)(1)(D) of title 5, United States Code" for the words "section 3(a)(3) of the Administrative Procedure Act".

The purpose of these amendments is to correct references in § 325.0 of the Corporation's rules and regulations to "the Administrative Procedure Act (60 Stat. 237)" and to "section 3(a)(3) of the Administrative Procedure Act" which were rendered inaccurate by the revision, codification, and enactment of title 5, United States Code, by the Act of September 6, 1966 (80 Stat. 378).

Inasmuch as the Board of Directors has found, pursuant to § 302.6 of the Corporation's rules and regulations (12 CFR 302.6), that the amendments to § 325.0 are editorial and not substantive in nature and that notice, public participation, and prior publication are unnecessary and would serve no useful purpose, the requirements of section 553 of title 5, United States Code, with respect to notice, public participation, and deferred effective date were not followed in connection with these amendments. (Sec. 9, 64 Stat. 881; 12 U.S.C. 1819.)

FEDERAL DEPOSIT INSURANCE CORPORATION,
[SEAL] E. F. DOWNEY,
Secretary.

[F.R. Doc. 67-8321; Filed, July 18, 1967; 8:49 a.m.]

PART 327—ASSESSMENTS

Payment of Assessments by Banks Whose Insured Status Has Terminated

Effective on the date of publication of this amendment in the FEDERAL REGISTER, the first sentence of paragraph (c) of § 327.3 *Payment of assessments by banks whose insured status has terminated* of the rules and regulations of the Federal Deposit Insurance Corporation is amended by substituting the words "section 8 (a) or (c)" for the words "section 8 (a) or (b)".

Section 202 of the Financial Institutions Supervisory Act of 1966 (80 Stat. 1046) redesignated subsection (b) of section 8 of the Federal Deposit Insurance Act as subsection (c) of section 8. The amendment to § 327.3(c) of the Corporation's rules and regulations reflects this redesignation of subsections.

Inasmuch as the Board of Directors has found, pursuant to § 302.6 of the Corporation's rules and regulations (12 CFR 302.6), that the amendment to § 327.3(c) is editorial and not substantive in nature and that notice, public participation, and prior publication are unnecessary and would serve no useful purpose, the requirements of section 553 of title 5, United States Code, with respect to notice, public participation, and deferred effective date were not followed in connection with this amendment. (Sec. 9, 64 Stat. 881; 12 U.S.C. 1819.)

FEDERAL DEPOSIT INSURANCE CORPORATION,
[SEAL] E. F. DOWNEY,
Secretary.

[F.R. Doc. 67-8322; Filed, July 18, 1967; 8:49 a.m.]

PART 331—INSURANCE OF TRUST FUNDS

Claim by Fiduciary Bank for Insured Deposits of Trust Estates

Effective on the date of publication of this amendment in the FEDERAL REGISTER, § 331.1(d) of the rules and regulations of the Federal Deposit Insurance Corporation (12 CFR 331.1(d)) is amended to read as follows:

§ 331.1 Claim by fiduciary bank for insured deposits of trust estates.

* * * * *

(d) *Insured deposit of a trust estate.* In arriving at the total insured deposit of a fiduciary bank or trust company with respect to any trust estate, the deposit of such estate as determined in accordance with any paragraph of this section shall be combined with that determined under any other paragraph of this section and the insured deposit shall be the total less any amount thereof in excess of $15,000.

Section 301 of the Financial Institutions Supervisory Act of 1966 (80 Stat. 1055) increased the maximum amount of the insured deposit of any depositor from $10,000 to $15,000. The amendment to § 331.1(d) of the Corporation's rules and regulations reflects the increase in the maximum amount of insurance coverage and makes other changes of an editorial nature.

Inasmuch as the Board of Directors has found, pursuant to § 302.6 of the Corporation's rules and regulations (12 CFR 302.6), that the amendment to § 331.1(d) is editorial and not substantive in nature and that notice, public participation, and prior publication are unnecessary and would serve no useful purpose, the requirements of section 553 of title 5, United States Code, with respect to notice, public participation, and deferred effective date were not followed in connection with this amendment. (Sec. 9, 64 Stat. 881; 12 U.S.C. 1819.)

FEDERAL DEPOSIT INSURANCE CORPORATION,
[SEAL] E. F. DOWNEY,
Secretary.

Title 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket No. 8684]

PART 13—PROHIBITED TRADE PRACTICES

Henderson Tobacco Market Board of Trade, Inc., et al.

Subpart—Combining or conspiring: § 13.395 *To control marketing practices and conditions;* § 13.470 *To restrain and monopolize trade.* Subpart—Cutting off access to customers or market: § 13.573 *Limiting new warehouse facilities.*

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45) [Cease and desist order, Henderson Tobacco Market Board of Trade, Inc., et al., Henderson, N.C., Docket 8684, June 15, 1967]

Order requiring a Henderson, N.C., tobacco warehousing trade association and its members to cease restraining competition in the buying and selling of leaf tobacco through the adoption of by-laws and other rules which favor established warehouses and penalize new entrants.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

It is ordered, That the following order be substituted for the order to cease and desist contained in the initial decision:

ORDER

It is ordered, That respondents Henderson Tobacco Market Board of Trade, Inc., a corporation, its successors or assigns, and all of its officers, including its present officers, Charles Brooks Turner, president, W. J. Alston, Jr., vice president, William H. Hoyle, secretary-treasurer, directors and members, agents or instrumentalities; W. J. Alston, Jr., trading under the name and style of Farmer's Warehouse, individually and as a member of said board; A. H. Moore and C. E. Jeffcoat, trading under the name and style of Moore's Big Banner Tobacco Warehouse, individually and as members of said board; M. L. Hight, B. W. Young, and J. S. Royster, copartners trading under the name and style of Carolina Tobacco Warehouse, individually and as members of said board; C. B. Turner, R. E. Tanner, S. P. Flemming, and R. E. Flemming, trading under the name and style of High Price Tobacco Warehouse, individually and as members of said board; George T. Robertson and Samuel E. Southerland, trading under the name and style of Liberty Warehouse and Robertson & Southerland, as members of said board; F. H. Ellington and John Ellington, trading under the name and style of Ellington Warehouse, as members of said board; and all of the above-named persons as representatives of all of the warehouse members of said board and as officers and directors, directly or through any corporate or other device, in connection with procuring, purchasing, offering to purchase or selling or offering for sale, leaf tobacco, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from entering into, participating, continuing, cooperating in, or carrying out, or directing or instigating any planned common course of action, course of dealing, understanding, plan, combination, or conspiracy between or among any two or more of said respondents, or between any one or more of said respondents and another or other parties hereto, to do or perform any of the following acts and practices:

1. Allocate or cause to be allocated selling time to new entrant warehouses on the Henderson market on any basis or in any manner which refuses to give any credit to the size and capacity of a new entrant in excess of the average size and capacity of all the warehouses operating on the market;

2. Allocate or cause to be allocated any selling time pursuant to any system or method of allocating selling time which takes into account or includes as a basis for such allocation, warehouse space which is not only unsuitable and unavailable, but not actually used for the sale of tobacco at auction;

3. Allocate or cause to be allocated any selling time pursuant to any system, plan, method, policy or practice which fails to accord equitable and nondiscriminatory treatment to all warehouse members on the Henderson market whether said members are established operators or new entrants;

4. Allocate or cause to be allocated any selling time to warehouses operating on the Henderson market on the basis of any system, plan, method, policy or practice with the purpose or effect of restricting, hindering, limiting, preventing or foreclosing any person, firm or corporation from engaging in the tobacco business on the Henderson market either as a warehouse owner or operator, buyer, speculator, broker or rehandler of tobacco;

5. Adopting, using, adhering to or maintaining or attempting to adopt, use, adhere to or maintain any plan, system, method, policy or practice that restricts, hinders, limits, prevents or forecloses any person, firm or corporation from engaging in the tobacco business on the Henderson market either as a warehouse owner or operator, buyer, speculator, broker or rehandler of tobacco;

6. Engaging in any act or practice or entering into any arrangement, agreement or understanding with the purpose or effect of restricting, hindering, limiting, preventing, or foreclosing the entrance of any person, firm or corporation from engaging in the tobacco business on the Henderson market or any other person, firm or corporation already doing business on the Henderson market, from competing therein;

7. Engaging in any act or practice or entering into any arrangement, agreement or understanding with any respondent named herein or with any other person, firm or corporation with the purpose or effect of restricting, hindering, limiting, preventing or foreclosing competition between or among the warehouse members engaged in doing business on the Henderson market;

8. Engaging in any act or practice, the purpose or effect of which is to effectuate any understanding, agreement or combination prohibited herein; or

9. Placing in effect or carrying out any act, practice, policy or method, prohibited by any provision or part of this order, through respondent board or any other instrumentality, agent, agency, medium or representative.

It is further ordered, That the complaint be, and it hereby is, dismissed as to George T. Robertson, Samuel E. Southerland, F. H. Ellington, and John Ellington in their individual capacities.

It is further ordered, That the complaint be, and it hereby is, dismissed as to Royster-Hight Corp., a corporation, Fred S. Royster, W. G. Royster, and Gilbert F. Ellington.

It is further ordered, That the initial decision as modified be, and it hereby is, adopted as the decision of the Commission.

It is further ordered, That the respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report, in writing, submitting a plan, subject to Commission approval, for allocating selling time in compliance with paragraph 2 of the Commission's order and otherwise setting forth in detail the manner and form in which they have complied with the order to cease and desist contained herein.

Issued: June 15, 1967.

By the Commission.

[Docket No. C-1227]

PART 13—PROHIBITED TRADE PRACTICES

King Distributing Co. and Richard J. Kennedy

Subpart—Advertising falsely or misleadingly: § 13.15 *Business status, advantages, or connections:* 13.15-50 Dealer as charitable institution; § 13.50 *Earnings and profits;* § 13.105 *Individual's special selection or situation.* Subpart—Misrepresenting oneself and goods—Goods: § 13.1608 *Dealer or seller assistance;* § 13.1615 *Earnings and profits.*

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45) [Cease and desist order, King Distributing Co. et al., Minneapolis, Minn., Docket C-1227, June 26, 1967]

Consent order requiring a Minneapolis, Minn., distributor of vending machines to cease misrepresenting that prospective purchasers will be specially selected, that their earnings will be any certain amount, that they will be given sales assistance, that the seller is a charitable institution, that purchasers will have exclusive territories and making other deceptive claims in selling its machines and supplies.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

It is ordered, That respondents King Distributing Co., a corporation, and its officers, and Richard J. Kennedy, individually and as an officer of said corporation, and respondents' agents, representatives and employees, directly or through any corporate or other device, in connection with the advertising, offering for sale, sale or distribution of vending machines, vending machine supplies, or any other product, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Representing, directly or by implication, that established businesses are being offered for sale by respondents to persons who respond to their advertisements; or misrepresenting, in any manner, the nature of any business opportunity offered by any respondent.

2. Representing, directly or by implication, that purchasers of respondents' products must own an automobile, furnish references, have special qualities or be specially selected to qualify for purchase of respondents' products; or misrepresenting, in any manner, the qualifications or requirements for purchase of respondents' products.

3. Representing, directly or by implication, that selling or soliciting is not required of those investing in any product or business; or misrepresenting, in any manner, the amount of selling or soliciting required in connection with any business.

4. Representing, directly or by implication, that purchasers of respondents' products are granted exclusive territories within which their machines may be placed for operation or that sales will not be made to other persons in such territories; provided, however, that it shall be a defense in any enforcement proceeding instituted hereunder for respondents to establish that any exclusive territories granted by them are, in fact, in accordance with any represented offer.

5. Representing, directly or by implication, that the price at which respondents offer their vending machines is any amount or percentage less than their fair market value in the vicinity of their anticipated use; or misrepresenting, in any manner, the prices or fair market value of respondents' products in the vicinity of their anticipated use.

6. Representing, directly or by implication, that persons investing in any product or business offered by respondents will have profits or any percentage of profit or will earn any amount of income; provided, however, that it shall be a defense in any enforcement proceeding instituted hereunder for respondents to establish that any represented percentage of profit or any represented amount of income or profit is the percentage or amount generally realized by previous purchasers of such products or businesses as a result of such purchase.

7. Representing, directly or by implication, that sales routes have been previously established by respondents for purchasers, or that respondents or their sales representatives have obtained or will obtain satisfactory or profitable locations for the purchaser's machines, or that respondents will relocate said machines; or misrepresenting, in any manner, the assistance that will be furnished in obtaining locations for the product or the business purchased.

8. Representing, directly or by implication, that purchasers of respondents' vending machines are given continuing advice and assistance in the operation of the machines; provided, however, that it shall be a defense in any enforcement proceeding instituted hereunder for respondents to establish that such advice and assistance are actually furnished.

9. Representing, directly or by implication, that previous purchasers of respondents' vending machines are enjoying substantial earnings from the operation of said machines.

10. Representing, directly or by implication, that vending machines sold by respondents are of a specific structural design or type or of a specific capacity: *Provided, however,* That it shall be a defense in any enforcement proceeding instituted hereunder for respondents to establish that the machines sold are of the structural design or type and have the capacity represented.

11. Representing, directly or by implication, that respondents will repurchase vending machines or supplies from purchasers thereof who are dissatisfied with the vending machine business.

12. Representing, directly or by implication, that respondents are a nut and candy company, or are seeking to establish future markets for said products, or are selling machines to purchasers at or near cost to establish a market for their nuts, candies or other products; or misrepresenting, in any manner, the kind or character of the business of any respondent or any company represented by any respondent.

13. Representing, directly or by implication, that respondents' prices for nuts or candies or any other product are seven percent or any other percentage or stated amount below normal wholesale prices: *Provided, however,* That it shall be a defense in any enforcement proceeding instituted hereunder for respondents to establish that their prices are, in fact, any represented or stated percentage or amount below normal wholesale prices.

14. Representing, directly or by implication, that the United Crippled Children Fund is similar in organization to other established charities engaged in research activities, or that United Crippled Children Fund is a charitable fund engaged in research activities for the prevention of children's diseases or that United Crippled Children Fund is wholly independent of or unconnected with respondents; or misrepresenting, in any manner, the nature or kind or function of or the past or present relationship with any organization sponsoring, or affiliated with, any respondent.

15. Failing to deliver a copy of this order to cease and desist to all present and future salesmen or other persons engaged in the sale of the respondents' said products to purchasers; and failing to secure from each such person a signed statement acknowledging receipt of said order and agreeing to abide by the requirements of said order and to refrain from engaging in any of the acts or practices prohibited by said order; and for failure to do so, agreeing to dismissal or to the withholding of commissions, salaries and other remunerations or both to dismissal and to withholding of commissions, salaries and other remunerations.

It is further ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the man-

ner and form in which they have complied with this order.

Issued: June 26, 1967.

By the Commission.

[Docket No. C-1229]

PART 13—PROHIBITED TRADE PRACTICES

Lee Rogers and S. I. Research Co.

Subpart—Advertising falsely or misleadingly: § 13.170 *Qualities or properties of product or service:* 13.170–22 Corrective, orthopedic, etc.; 13.170–24 Cosmetic or beautifying. Subpart—Using misleading name—Vendor: § 13.2445 *Producer or laboratory status of seller.*

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45) [Cease and desist order, Lee Rogers doing business as S. I. Research Co., Los Angeles, Calif., Docket C-1229, June 26, 1967]

Consent order requiring a Los Angeles, Calif., distributor of health pamphlets to cease using deceptive advertising in the sale of his publications.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

It is ordered, That the respondent Lee Rogers, an individual, doing business under the name and style of S. I. Research Co., or under any other name or names, and respondent's representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of his pamphlet entitled "Surgical Techniques for Breast Enlargement" or any other pamphlet or publication whether sold under the same name or any other name, do forthwith cease and desist from, either directly or indirectly:

1. Disseminating, or causing to be disseminated by means of the United States mails or by any means in commerce, as "commerce" is defined in the Federal Trade Commission Act, any advertisement:

(a) Which represents directly or by implication: That the techniques set forth or referred to in his pamphlet entitled "Surgical Techniques for Breast Enlargement" or in any other pamphlet or publication containing substantially similar techniques, will cause or contribute to an increase in the size of, or otherwise bring about any reshaping of the female bust unless it is clearly, conspicuously and prominently disclosed that such procedures and/or techniques (1) cannot be utilized by the layman, and (2) can only be administered by a physician or surgeon.

(b) Which represents directly or by implication: That the respondent is engaged in scientific or medical research or that he owns, maintains or operates a scientific or medical research facility.

(c) Which represents directly or by implication: That the respondent has developed a new or revolutionary procedure, technique, product or device which is capable of enlarging or reshaping the female breast; or which misrepresents in any manner the capability or efficacy of any procedure, technique, product or device to enlarge or reshape the female breast.

(d) Which uses the word "Research" or any other word or words of similar import, in his trade or business name or in any other manner.

(e) Which misrepresents in any manner the nature of respondent's business, or the efficacy or capability of any product or device or any of the procedures or techniques used in connection therewith.

2. Disseminating, or causing to be disseminated, by any means, for the purpose of inducing, or which is likely to induce, directly or indirectly, the purchase of respondent's pamphlet, publication or product in commerce, as "commerce" is defined in the Federal Trade Commission Act, any advertisement which contains any of the representations or misrepresentations prohibited in paragraph 1 hereof.

It is further ordered, That the respondent herein shall, within sixty (60) days after service upon him of this order, file with the Commission a report in writing setting forth in detail the manner and form in which he has complied with this order.

Issued: June 26, 1967.

By the Commission, Commissioner Elman not concurring in the issuance of complaint.

[SEAL] JOSEPH W. SHEA, *Secretary.*

[Docket No. 8619 c]

PART 13—PROHIBITED TRADE PRACTICES

Rodale Press, Inc., et al.

Subpart—Advertising falsely or misleadingly: § 13.170 *Qualities or properties of product or service:* 13.170–52 Medicinal, therapeutic, healthful, etc.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45) [Cease and desist order, Rodale Press, Inc., et al., Emmaus, Pa., Docket 8619, June 20, 1967]

In the Matter of Rodale Press, Inc., a corporation, and Rodale Books, Inc., a corporation, and Jerome I. Rodale and Robert Rodale, Individually and as Officers of Said Corporations

Order requiring an Emmaus, Pa., book publisher to discontinue making claims in its advertising that readers of two of its health and diet publications would gain various therapeutic benefits.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

It is ordered, That Rodale Press, Inc., and its officers, and Rodale Books, Inc., and its officers, and Jerome I. Rodale and Robert Rodale, individually and as officers of said corporations, and respondents' representatives, agents and employees, directly or through any corporate or other device in connection with the offering for sale, sale or distribution of books or other publications, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

(1) Representing in advertising, directly or by implication that:

A. Readers of the book "The Health Finder" and any subsequent editions thereof whether sold under that name or any other name will:

(a) Add years to their lives;
(b) Gain more energy;
(c) Effectuate savings on medical and dental expenditures;
(d) Feel better than ever before;
(e) Prevent the common cold;
(g) Prevent or cure all types of constipation;
(h) Prevent ulcers;
(i) Prevent fatigue;
(j) Prevent goiter;
(k) Prevent high blood pressure;
(l) Prevent cancer;
(m) Prevent, treat or relieve tuberculosis;
(n) Prevent infantile paralysis;
(o) Prevent, relieve or treat all types of heart disease;
(p) Prevent, relieve or treat arthritis;
(q) Prevent mental illness;

B. "The Health Finder" and any subsequent editions thereof whether sold under that name or any other name contains the answer to all health problems;

C. The publication, "How To Eat for a Healthy Heart" and "This Pace Is Not Killing Us," and any subsequent editions whether offered for sale under this name or any other name, will be of benefit in the prevention, treatment or cure of heart disease, unless the specific benefit contained in the book is disclosed in the advertising together with any qualifications and reservations stated in the publication;

D. "The Health Finder," "How To Eat for a Healthy Heart," "This Pace Is not Killing Us," or any subsequent editions thereof, whether sold under said names or any other name or names, will enable the reader to prevent, treat or relieve any stated disease or health problem, without clearly and conspicuously disclosing in the advertising any limitations and/or qualifications of the regimen which is contained in the book.

It is further ordered, That respondents shall file within 60 days after service upon it of this order, with the Commission, a report, in writing, setting forth in detail the manner and form in which they have complied with the order to cease and desist set forth herein.

Issued: June 20, 1967.

By the Commission. Commissioner Elman dissented and has filed a dissenting opinion. Commissioner MacIntyre concurred in the result only and has filed a separate statement.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; secs. 2–5, 54 Stat. 1128–1130; 15 U.S.C. 45, 68) [Cease and desist order, Sol Tamny Co., Inc., trading as Duffield Clothes, New York, N.Y., Docket C-1228, June 26, 1967]

In the Matter of Sol Tamny Co., Inc., a Corporation, Trading as Duffield Clothes, and Sol Tamny, Individually and as an Officer of Said Corporation

Consent order requiring a New York City clothing manufacturer to cease misbranding its wool products.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

It is ordered, That respondents Sol Tamny, Co., Inc., a corporation, trading as Duffield Clothes, or under any other name or names, and its officers, and Sol Tamny, individually and as an officer of said corporation, and respondents' representatives, agents and employees, directly or through any corporate or other device, in connection with the introduction, or manufacture for introduction, into commerce, or the offering for sale, sale, transportation, distribution, delivery for shipment or shipment, in commerce, of wool products, as "commerce" and "wool product" are defined in the Wool Products Labeling Act of 1939, do forthwith cease and desist from misbranding such products by:

1. Falsely or deceptively stamping, tagging, labeling, or otherwise identifying such products as to the character or amount of the constituent fibers contained therein.

2. Failing to securely affix to or place thereon a stamp, tag, label, or other means of identification correctly showing in a clear and conspicuous manner each element of information required to be disclosed by section 4(a)(2) of the Wool Products Labeling Act of 1939.

It is further ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

Issued: June 26, 1967.

By the Commission.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45) [Consolidated cease and desist order, Standard Toykraft, Inc., et al., Dockets C-1217 through C-1226, June 22, 1967]

Consent orders requiring ten different toy manufacturers to cease using deceptive oversized containers to package toy products.

The consolidated order to cease and desist, including further order requiring report of compliance therewith, is as follows:

It is ordered, That each of the respondents named in the appendix, a corporation, and its officers, agents.

The Federal Trade Commission having initiated an investigation of certain acts and practices of each of the respondents named in the appendix herein, and each of the respondents having been furnished thereafter with a copy of a draft of complaint which the Bureau of Deceptive Practices proposed to present to the Commission for its consideration and which, if issued by the Commission, would charge each of the respondents with violation of the Federal Trade Commission Act; and

Each of the respondents and counsel for the Commission having thereafter executed an agreement containing a consent order, an admission by each of the respondents of all the jurisdictional facts set forth in the aforesaid draft of complaint, a statement that the signing of said agreement is for settlement purposes only and does not constitute an admission by the respondent that the law has been violated as alleged in such complaint, and waivers and provisions as required by the Commission's rules; and

The Commission, having reason to believe that each of the respondents has violated the Federal Trade Commission Act, and having determined that complaints should issue stating its charges in that respect, hereby issues its complaints, accepts said agreements, makes the following jurisdictional findings, and enters the following orders:

1. Each of the respondents named in the appendix is a corporation organized, existing and doing business under and by virtue of the laws of the State of New York, with its office and principal place of business located as set forth in the appendix.

2. The Federal Trade Commission has jurisdiction of the subject matter of these proceedings and of the respondents, and the proceedings are in the public interest.

[1] Added.

ORDER

It is ordered, That each of the respondents named in the appendix, a corporation, and its officers, agents, representatives, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of the toy products identified by the name specified in the appendix, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Packaging said product in a retail container of a size or capacity in excess of that required solely by the physical dimensions of the merchandise itself; *Provided, however,* That it shall be a defense in any enforcement proceeding instituted hereunder for the respondent to establish either:

(a) That retail purchasers, at the time of sale, are as fully aware of the disparity which exists between the size or capacity of the container and the physical dimensions of the merchandise as they would be if the container and the merchandise were displayed side-by-side; or

(b) That the container being employed is not larger in size or capacity than is necessary for the efficient packaging of the merchandise contained therein, and respondent has made all reasonable efforts to prevent any misleading appearance or impression from being created by such container.

2. Providing wholesalers, retailers or other distributors of said product with the means and instrumentalities by and through which they may mislead the purchasing public in the manner described in Paragraph (1) above.

It is further ordered, That each of the respondents herein shall, within sixty (60) days after service upon it of this order, file with the Commission a report in writing setting forth in detail the manner and form in which it has complied with this order.

Issued: June 22, 1967.

By the Commission.

[SEAL] JOSEPH W. SHEA, *Secretary.*

PART 15—ADMINISTRATIVE OPINIONS AND RULINGS

Tripartite Promotional Assistance Plan Featuring Rewards to Customers

§ 15.135 Tripartite promotional assistance plan featuring rewards to customers.

(a) The Commission was requested to render an advisory opinion concerning the legality of a tripartite promotional program featuring the sale by a promoter to grocery retailers of books in which customers can paste labels from suppliers' products and receive a cash reward depending upon the number of labels collected.

(b) Under the plan, manufacturers will be solicited for permission to show reproductions of their labels, box tops, etc., within the pages of the books at no charge. The promoter will then offer the books for sale to all retailers within the boundaries of the initial test area. The retailers can then distribute the books in any manner they choose, either by mail, house-to-house, or at their stores. They may offer them as a bonus for a certain purchase or for purchases of a specified amount.

(c) Consumers will be invited to buy and try the products shown and to paste or otherwise fasten the actual label or other product identification over the designated space in the book. The books are redeemable for cash at the issuing retailer's store and the value depends upon either the total number of product identifications returned in one type of book or whether all product identifications are returned in the other type of book. The retailer advances the cash reward to consumers redeeming books issued by him. The promoter will then reimburse the retailer the full amount advanced and in addition pay him a checking and handling fee, which will vary depending upon whether it is a completely filled or partially filled book. The promoter will then invoice suppliers based on the number of product identifications returned. This invoice will include an amount sufficient to cover the cash reward to the consumer, the fee to be paid the retailer and a payment to the promoter for his costs plus his profit.

(d) Retailers stocking all the items shown on the inside pages, or willing to do so, will be offered a choice of the two types of books. First, is the book offering a cash reward based on the number of product identifications returned. The consumer can fasten one or more of the product identifications in the book and return it to the retailer for a cash reward. Second, is the book offering a flat cash reward for completely filling the book with all identifications shown. Retailers stocking one or more of the items shown, but not all of them, will be offered the book where redemption value is based on the number of identifications returned. The consumer can make purchases anywhere and fill as many spaces as desired, regardless of limit to items stocked by the issuing retailer.

(e) Retailers using either type of book can choose from individualized covers or preprinted stock covers and will have a choice of using a name coined by the promoter or a name of their own choosing. The cost to the retailer will vary according to the type and quantity of books purchased. The promoter has advised that the differences in costs of both the standard and individualized covers is solely attributable to differences in the cost of printing and distributing different quantities and that the books are to be sold to retailers at cost.

(f) The promoter will mail an "Offer to Retailers" to all grocery stores, supermarkets, headquarters of each local, regional and national chain, wholesalers and the area headquarters or warehouses of each cooperative or association within the geographic area, as their names can be found in trade and telephone directories, route lists, etc. Realizing that some stores might be missing from these lists and also that other types of retailers might be offering at least some of the products shown, the promoter will run an advertisement in every daily newspaper within the area outlining the features of the books and offering to furnish a copy of the notice to any interested retailer. In any county where there is no daily newspaper, the notice or advertisement will be run in a weekly newspaper of general circulation.

(g) The Commission advised that while it believed the promoter had done a commendable job of devising a plan which contained alternatives which should prove to be usable in one form or another by every customer of the participating suppliers, there was still lacking the element of proportionally equal treatment of those customers as required by sections 2 (d) and (e) of the Clayton Act, as amended. In brief, these sections require that whenever a seller makes payments and furnishes services for the benefit of one customer, he must make those payments or services available on proportionally equal terms to all competing customers. If a situation such as this, where a number of suppliers will be making payments to the promoter which will inure to the benefit of their customers, the responsibility rests on the promoter and the suppliers to see that the promotional assistance thereby rendered is made available on proportionally equal terms to each competing customer of each participating supplier.

(h) The Commission's concern with this proposal stemmed first from the fact that the retailers will be charged different prices for these books depending upon the quantities ordered. In one sense, this could be viewed simply as a sale from the promoter to the retailers and thus subject to the cost justification defense which the statute makes available to one charged with a discrimination in price. However, the Commission found it conceptually impossible to lift this transaction out of the whole and view it as a separate price discrimination problem. The proposal involves one essentially promotional program in which the parts cannot be separated from the whole. While it is true that the promoter will sell the books to the retailers, he will do so at cost and this would not be possible were it not for the fact that he will derive his profit from payments made by the suppliers. Thus the Commission ruled that the entire plan was keyed to payments which emanate from the suppliers and this being so all parts must be judged according to the standards set forth in sections 2 (d) and (e) of the Act.

(i) This brought the Commission into confrontation with the fact that the defense of cost justification is not available to one charged with a violation of these Sections. It followed, in the Commission's view, that there was no way to escape the conclusion that the smaller dealers were not being afforded proportionally equal treatment when they had to pay more for the books than did their larger competitors. The opinion acknowledged it to be true that these prices are equally available to all in that all will be charged the same price for the same quantities. But it is equally true that all will not be able to buy in the same quantities. Since the retailers' profits from this plan will equal the amount by which their payments for redeeming books exceed their cost of purchasing such books, the Commission could not view the plan as being available on proportionally equal terms so long as there is a disparity in the prices they must pay in order to participate.

(j) In this connection, the Commission made it clear that it was only concerned with the prices charged for the books with standard covers since those were the real base of the plan. The purchase of books with individualized covers appeared to be purely optional with the retailer if he cared to spend more in order to more closely identify the plan with his own store.

(k) A second respect in which this proposal was held to be deficient under the law stemmed from the fact that the large retailers were apparently to be offered both the fully completed and the partially completed book plans, while the smaller retailers were to be offered only the latter. In the Commission's view, both plans must be affirmatively offered to and made available to all retailers before the overall plan could be said to be available to all competing customers on proportionally equal terms.

(l) The opinion singled out two additional factors of the proposal which should be borne in mind if it is to be conducted within the law. The first concerned the fact that grocery retailers will be notified by mail and all other customers of the participating suppliers will be notified by advertisement. While the statute prescribes no particular method by which the availability of allowances or services is to be communicated to a seller's customers, it is clear that the duty rests upon such seller to see that all competing customers are informed. A plan can only be said to be available to a customer if he knows about its existence. If the method of notification chosen actually reaches all competing customers, there could be no objection to the plan on that score. However, the promoter was cautioned to keep in mind that the suppliers could incur liability if it subsequently developed that some did not as a matter of fact receive notice because of the method chosen.

(m) The second factor stemmed from the fact that it was proposed initially to test the program in nine contiguous counties. Even though this is a test area the promoter was advised to be careful here not to discriminate against customers located on the fringes but outside the area selected since they may be actually competing with those who are participating. In such situation, the existence of competition prevails, not geographic or political subdivisions, and the fringe area customers, if any there be, who in fact compete must be afforded an equal opportunity to participate.

(38 Stat. 717, as amended; 15 U.S.C. 41–58; 49 Stat. 1526; 15 U.S.C. 18, as amended)

Issued: July 18, 1967.

By direction of the Commission.

[SEAL] JOSEPH W. SHEA, *Secretary.*

[F.R. Doc. 67-8333; Filed, July 18, 1967; 8:50 a.m.]

PART 15—ADMINISTRATIVE OPINIONS AND RULINGS

Selective Leasing of Shopping Center Space

§ 15.136 Selective leasing of shopping center space.

(a) The Federal Trade Commission was asked its views as to the legality of the following proposed course of conduct: A real estate developer plans to develop a new city composed of some 5,000 families. In connection therewith space is to be made available for business and service facilities. Prospective lessees of this space will be accepted, or rejected, in light of a statistical study purporting to show an optimum occupancy mix.

(b) The Commission advised the requesting party that, in the absence of any purpose or intent to create a monopoly, prospective lessees could be accepted or rejected at will provided the action taken was taken independently and as the result of the lessor's individual judgment.

(c) The Commission noted, however, that it expressed no views as to the propriety, under the trade regulation laws, of any agreement between lessor and lessee as to others to whom space might be leased.

(38 Stat. 717, as amended; 15 U.S.C. 41–58)

Issued: July 18, 1967.

By direction of the Commission.

Title 20—EMPLOYEES' BENEFITS

Chapter I—Bureau of Employees' Compensation, Department of Labor

PART 25—COMPENSATION FOR DISABILITY AND DEATH OF NON-CITIZENS OUTSIDE UNITED STATES

Australia

Pursuant to the authority contained in 5 U.S.C. 8137, 8138, 8145, and 8149; Reorganization Plan No. 19 of 1950 (64 Stat. 1271, 3 CFR, 1949–1953 Comp., p. 1010); and General Order No. 46 (Rev.) of the Secretary of Labor (24 F.R. 8472), I hereby amend Subpart C of 20 CFR Part 25 by revising § 25.22 to read as set forth below.

As Subpart C of 20 CFR Part 25 relates only to public benefits, the provisions of 5 U.S.C. 553 concerning notice of proposed rule making, public participation therein, and delayed effectiveness of substantive rules, do not apply. I do not believe that such procedure will serve a useful purpose here. Accordingly, the amendment shall be effective upon publication in the FEDERAL REGISTER.

As revised, § 25.22 reads as follows:

§ 25.22 Australia.

(a) The special schedule of compensation established by Subpart B of this part shall apply, with the modifications or additions specified in paragraph (b) of this section, as of December 8, 1941, in Australia, is all cases of injury (or death from injury) which occurred between December 8, 1941, and December 31, 1941, inclusive, and shall be applied retrospectively in all such cases of injury (or death from injury). Compensation in all such cases pending as of July 15, 1946, shall be readjusted accordingly, with credit taken in the amount of compensation paid prior to such date. Refund of compensation shall not be required if the amount of compensation paid in any such case, otherwise than through fraud, mispresentation, or mistake, and prior to July 15, 1946, exceeds the amount provided for under this paragraph; and such case shall be deemed compromised and paid under 5 U.S.C. 8137.

(b) The total aggregate compensation payable in any case under paragraph (a) of this section, for injury or death or both, shall not exceed the sum of $4,000, exclusive of medical costs. The maximum monthly rate of compensation in any such case shall not exceed the sum of $50.

(c) The benefit amounts payable under the provisions of the Commonwealth Employees' Compensation Act 1930—1964, Australia, shall apply as of January 1, 1962, in Australia, as the exclusive measure of compensation in cases of injury (or death from injury) occurring on and after January 1, 1962, and shall be applied retrospectively in all such cases occurring on and after such date: *Provided*, That the compensation payable under the provisions of this paragraph shall in no event exceed that payable under the Federal Employees' Compensation Act.

(5 U.S.C. 8137, 8138, 8145, 8149; Reorganization Plan No. 19 of 1950 (64 Stat. 1271, 3 CFR, 1949–1953 Comp., p. 1010); and General Order No. 46 (Rev.), 24 F.R. 8472)

Signed at Washington, D.C., this 10th day of July 1967.

THOMAS A. TINSLEY, *Director, Bureau of Employees' Compensation.*

[F.R. Doc. 67-8332; Filed, July 18, 1967; 8:50 a.m.]

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 121—FOOD ADDITIVES

Subpart F—Food Additives Resulting From Contact With Containers or Equipment and Food Additives Otherwise Affecting Food

PACKAGING MATERIALS FOR USE DURING IRRADIATION OF PREPACKAGED FOODS

The Commissioner Food and Drugs, having evaluated the data submitted in a petition (FAP 7M2172) filed by the Department of the Army, U.S. Army Natick Laboratories, Natick, Mass. 01762, and other relevant material, has concluded that § 121.2543 of the food additive regulations should be amended (1) to provide for the safe use of kraft paper as a container incidentally subjected to radiation during the irradiation of flour and (2) to effect editorial clarifications. Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1)) and under the authority delegated to the Commissioner by the Secretary of Health, Education, and Welfare (21 CFR 2.120), § 121.2543 is amended by revising the section heading, the introduction of the section, paragraph (a), and the introduction of paragraph (b), and by adding a new subparagraph (5) to paragraph (b). The affected portions read as follows:

§ 121.2543 Packaging materials for use during the irradiation of prepackaged foods.

The packaging materials identified in this section may be safely subjected to irradiation incidental to the radiation treatment and processing of prepackaged foods, subject to the provisions of this section and to the requirement that no induced radioactivity is detectable in the packaging material itself:

(a) The radiation of the food itself shall comply with regulations in Subpart G of this Part 121.

(b) The following packaging materials may be subjected to a dose of radiation, not to exceed 1 megarad, unless

otherwise indicated, incidental to the use of gamma radiation in the radiation treatment of prepackaged foods:

* * * * *

(5) Kraft paper prepared from unbleached sulfate pulp to which rosin, complying with § 121.2502, and alum may be added. The kraft paper is used only as a container for flour and is irradiated with a dose not exceeding 50,000 rads.

* * * * *

Any person who will be adversely affected by the foregoing order may at any time within 30 days from the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington, D.C. 20201, written objections thereto, preferably in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date. This order shall become effective on the date of its publication in the FEDERAL REGISTER.

(Sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348 (c)(1))

Dated: July 12, 1967.

JAMES L. GODDARD,
Commissioner of Food and Drugs.

[F.R. Doc. 67-8297; Filed, July 18, 1967; 8:47 a.m.]

Title 32A—NATIONAL DEFENSE, APPENDIX

Chapter XIX—Office of the Maritime Administrator, Department of Commerce

[General Emergency Transportation Order 1-67]

MA-ET-1—PRIORITY MOVEMENT TO BE ACCORDED TO MATERIALS AND PASSENGERS NECESSARY TO PROMOTE THE NATIONAL DEFENSE

Because of the short supply of domestic transportation equipment, facilities and services due to the current railroad strike which has brought to a halt virtually all transportation of persons and things by rail, and because the remaining transportation facilities of the Nation will be unable to handle all the essential traffic requirements put upon them, it is deemed necessary in the public interest and to promote the national defense to regulate, allocate, and promote the use of water carrier equipment, facilities, and service for preferential transportation of certain passengers, mail, and cargoes, necessary to the national defense; and it being impractical to consult with industry representatives due to the necessity of immediate action.

Now therefore pursuant to Title I of the Defense Production Act of 1950, as amended (50 App. U.S.C. 2061 et seq.), Executive Order 10480, as amended, Executive Order 11362, and the authority delegated to the Maritime Administrator by the Secretary of Commerce pursuant to Department of Commerce Order 117-A (31 F.R. 8087), *It is hereby ordered*, That:

Sec.
1 Transportation of priority cargoes, passengers, and mail.
2 Nonpriority cargoes and passengers.
3 Communications.
4 Applicability.

AUTHORITY: The provisions of this MA-ET-1 issued under sec. 704, 64 Stat. 816; 76 Stat. 112; 50 U.S.C. App. 2154, 2166(a); Executive Order 10480, as amended, Executive Order 11362 (July 16, 1967); and Department of Commerce Order 117-A (31 F.R. 8087).

Section 1 Transportation of priority cargoes, passengers, and mail.

Every water carrier operating vessels in the coastwise and intercoastal trades, excluding the domestic offshore and inland waterways, are hereby directed to accord priority movement over all other traffic to the transportation on vessels operated by them in such trades, as follows:

(a) All material moving on Government bills of lading issued by military transportation officers;

(b) Material moving on commercial bills of lading specifically certified as essential by defense contract administrators;

(c) Essential government personnel travel including military passengers traveling on Government Travel Requests;

(d) Essential U.S. Mail;

(e) Fresh meats and poultry;

(f) Fresh eggs and milk;

(g) Fresh fruits and vegetables;

(h) Fresh fish and shellfish;

(i) Pharmaceuticals, biologicals, surgical textiles and instruments;

(j) Hospital and sick room supplies and equipment, including diagnostic devices and essential support utilities;

(k) Professional dental supplies and equipment;

(l) Medical laboratory supplies and equipment;

(m) Water and sewage processing and handling supplies and equipment, including chlorine, alum, lime, sulphate of iron, soda ash, and similar chemicals and equipment essential to the continuity of operation of water and sewage installations.

Sec. 2 Nonpriority cargoes and passengers.

Material and passengers not included in the list set forth in section 1 of this Order may be moved on a space-available basis after all priority items have been accommodated; however, nonpriority material and passengers once loaded should not be displaced by priority movements, nor should allowable nonpriority baggage accompanying passengers be displaced by priority cargo.

Sec. 3 Communications.

Communications concerning this order should refer to "General Emergency Transportation Order 1-67" and should be addressed to the Secretary, Maritime Administration, Washington, D.C. 20235.

Sec. 4 Applicability.

The provisions of this order shall apply to coastwise and intercoastal shipping, but excluding shipping on the inland waterways and between the continental United States and the States of Alaska and Hawaii, the Commonwealth of Puerto Rico, and the possessions of the United States.

Issued at Washington, D.C., this 17th day of July 1967.

CARL C. DAVIS,
Acting Maritime Administrator.

[F.R. Doc. 67-8417; Filed, July 18, 1967; 8:50 a.m.]

Title 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[FCC 67-837]

PART 0—COMMISSION ORGANIZATION

Miscellaneous Amendments

In the matter of amendment of Part 0, rules and regulations, to implement P.L. 89-487.

1. Rules implementing the Public Information Act of 1966 (P.L. 89-487, July 4, 1966) are set forth below. A substantial effort has been made in devising substantive criteria and procedures to achieve full compliance with both the letter and spirit of that law. The question of fees to cover the cost of locating and producing records for inspection is under consideration and will be dealt with at a subsequent time. In administering these provisions, we will take into account that:

This law was initiated by Congress and signed by the President with several key concerns:

That disclosure be the general rule, not the exception;

That all individuals have equal rights of access;

That the burden be on the Government to justify the withholding of a document, not on the person who requests it;

That individuals improperly denied access to documents have a right to seek injunctive relief in the courts;

That there be a change in Government policy and attitude.[1]

2. The Commission will welcome comment on any provision of these rules. The Commission intends to review the operation of the rules during the next

[1] Attorney General's Memorandum on the Public Information Section of the Administrative Procedure Act, June, 1967, at pp. III-IV.

6 months and to make such changes as are shown to be desirable upon the basis of our experience with them and the comments and views of all interested persons.

3. Authority for the amendments adopted herein is contained in sections 4(i), 4(j) and 303(r) of the Communications Act of 1934, as amended, and P.L. 89-487. Because these amendments pertain to matters of procedure and internal organization, and because their issuance is required by P.L. 89-487, compliance with the notice and effective date provisions of section 4 of the Administrative Procedure Act is neither necessary nor desirable in the public interest.

4. In view of the foregoing: *It is ordered*, Effective July 18, 1967, that Part 0 of the rules and regulations is amended as set forth below.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303; and 5 U.S.C. 552)

Adopted: July 13, 1967.

Released: July 18, 1967.

FEDERAL COMMUNICATIONS COMMISSION,[2]
[SEAL] BEN F. WAPLE,
Secretary.

I. In Part 0 of Chapter I of Title 47 of the Code of Federal Regulations, Subpart A is amended as follows:

1. Section 0.1 is revised to read as follows:

§ 0.1 The Commission.

The Federal Communications Commission is composed of 7 members, who are appointed by the President subject to confirmation by the Senate. Normally, one Commissioner is appointed or reappointed each year, for a term of 7 years.

2. Section 0.3 is revised to read as follows:

§ 0.3 The Chairman.

(a) One of the members of the Commission is designated by the President to serve as Chairman, or chief executive officer, of the Commission. As Chairman, he has the following duties and responsibilities:

(1) To preside at all meetings and sessions of the Commission.

(2) To represent the Commission in all matters relating to legislation and legislative reports; however, any other Commissioner may present his own or minority views or supplemental reports.

(3) To represent the Commission in all matters requiring conferences or communications with other governmental officers, departments or agencies.

(4) To coordinate and organize the work of the Commission in such a manner as to promote prompt and efficient disposition of all matters within the jurisdiction of the Commission.

(b) The Commission will, in the case of a vacancy in the Office of the Chairman of the Commission, or in the absence or inability of the Chairman to serve, temporarily designate one of its members to act as Chairman until the cause or circumstance requiring such designation has been eliminated or corrected.

3. Section 0.4 is added to read as follows:

§ 0.4 Standing committees of Commissioners.

There are 3 standing committees of Commissioners; the Telegraph Committee, the Telephone Committee, and the Subscription Television Committee, each composed of 3 Commissioners. These committees are delegated authority to act or study and report on certain telegraph, telephone and subscription television matters from time to time.

4. Section 0.5 is revised to read as follows:

§ 0.5 General description of Commission organization and operations.

(a) *Principal staff units.* The Commission is assisted in the performance of its responsibilities by its staff, which is divided into the following principal units:

(1) Office of Executive Director.
(2) Office of Chief Engineer.
(3) Office of General Counsel.
(4) Broadcast Bureau.
(5) Common Carrier Bureau.
(6) Safety and Special Radio Services Bureau.
(7) Field Engineering Bureau.
(8) Office of Hearing Examiners.
(9) Review Board.
(10) Office of Opinions and Review.
(11) Office of the Secretary.
(12) Office of Reports and Information.
(13) CATV Task Force.

(b) *Staff responsibilities and functions.* The organization and functions of these major staff units are described in detail in §§ 0.11-0.171. The defense and emergency preparedness functions of the Commission are set forth separately, beginning at § 0.181. For a complete description of staff functions, reference should be made to these provisions. (See also the U.S. Government Organization Manual, which contains a chart showing the Commission's organization, the names of the members and principal staff officers of the Commission, and other information concerning the Commission.) So that the public may more readily inform itself concerning the operations of the Commission as a whole, concerning the staff officials who exercise responsibility over matters in which they are interested and concerning the relationship between the several staff units in such matters, however, a brief overall description of staff functions and responsibilities is set forth in this paragraph.

(1) *The Executive Director.* The Executive Director is directly responsible to the Commission, works under the supervision of the Chairman, and assists him in carrying out the Commission's organizational and administrative responsibilities. His principal role is to see that other staff units work together and promptly dispose of the matters for which they are responsible. He is directly responsible for internal administrative matters such as personnel and budget planning, and supervises implementation of the Public Information Act of 1966.

(2) *The Chief Engineer and the General Counsel.* Though primary responsibility in most established areas of regulation is lodged in other staff units, the Chief Engineer and the General Counsel are responsible for advising the Commission concerning any engineering or legal matter involved in the making and implementation of policy or in the decision of cases. For example, while policies relating solely to broadcasting are primarily the responsibility of the Broadcast Bureau, and the preparation of Commission opinions in hearing cases is primarily the responsibility of the Office of Opinions and Review, the Chief Engineer and the General Counsel may be called upon for advice and assistance in either area. The Chief Engineer and the General Counsel, in addition, exercise primary responsibility in areas of regulation which transcend the responsibilities of a single bureau. Thus, for example, the General Counsel is primarily responsible for the Rules of Practice and Procedure, Part 1 of this chapter, and the Chief Engineer is primarily responsible for frequency allocation and for other areas of regulation under Parts 2, 5, and 15. The General Counsel also represents the Commission in litigation in the courts and coordinates the preparation of the Commission's legislative program. Both the Chief Engineer and the General Counsel exercise responsibility in matters pertaining to international communications.

(3) *The operating bureaus.* The principal work load operations of the Commission are conducted by the four operating bureaus.

(i) Three of these bureaus: The Broadcast Bureau, Common Carrier Bureau, and Safety and Special Radio Services Bureau—exercise primary responsibility in the three principal areas of regulation into which the Commission has divided its responsibilities. The Broadcast Bureau, as its name indicates, is responsible for the regulation of broadcast stations (see Part 73 of this chapter) and related facilities (see Part 74). The Common Carrier Bureau is responsible for the regulation of communications common carriers whether carriage involves the use of wire or radio facilities (see Parts 21-66). The Safety and Special Radio Services Bureau is responsible for the regulation of all other radio stations with minor exceptions (e.g., experimental stations licensed under Part 5). These include amateur stations and numerous other categories of stations engaged in communication for safety, commercial or personal purposes (see Parts 81-99). Within its area of responsibility, each of these bureaus is responsible for developing and implementing a regulatory program; for processing applications for radio licenses or other filings; for the consideration of complaints and the conduct of investigations; for participation in Commission hearing proceedings as appropriate; and

[2] Commissioners Bartley, Cox, and Loevinger absent.

for the performance of such other functions as may be related to its area of responsibility.

(ii) The fourth operating bureau: The Field Engineering Bureau—maintains field offices and monitoring stations throughout the United States. It is responsible for detecting violations of regulations pertaining to the use of radio and, in this connection, monitors radio transmissions, periodically inspects stations, and investigates complaints of radio frequency interference. It issues violation notices to the station in question, thereby affording it an opportunity to take corrective measures. If formal enforcement action is appropriate, the proceedings are conducted by the staff unit which exercises primary responsibility over the station in question—usually one of the other operating bureaus. The Field Engineering Bureau, in addition, exercises responsibility over commercial radio operator matters (see Part 13 of this chapter), antenna structures (see Part 17), and the use of radio for purposes other than communication (see Part 18). It also conducts amateur operator examinations.

(4) *Staff units which exercise responsibility for the decision of hearing cases.* The Office of Hearing Examiners, the Review Board, and the Office of Opinions and Review exercise responsibility for the decision of hearing cases. The hearing examiners preside over hearing cases and issue initial decisions. In most cases, initial decisions are subject to review by the Revew Board, which is a permanent body composed of three or more senior Commission employees. Initial decisions may also be reviewed by one or more Commissioners designated by the Commission. In such cases, the Board or designated Commissioner(s) issues a final decision, which is subject to possible review by the Commission. In other cases, the initial decision is reviewed directly by the Commission en banc. The Office of Opinions and Review assists and advises the Commission, and any Commissioner(s) designated to review an initial decision, in the decision of cases which come before them.

(5) *The Secretary.* The secretary signs Commission correspondence and documents. He is custodian of the Commission's seal and records. He maintains minutes and records of Commission actions and the dockets of hearing proceedings, and is responsible for their accuracy, authenticity and completeness. Except as otherwise provided in this chapter (see § 0.401), he is the proper addressee and recipient of papers mailed to or filed with the Commission.

(6) *Office of Reports and Information.* The Office of Reports and Information is responsible for informing the public concerning actions which have been taken by the Commission and is the contact point for the press, the industry and the public in the matter of general information relating to the Commission and its activities.

(7) *The CATV Task Force.* The CATV Task Force is responsible for the development and implementation of a regulatory program for community antenna television systems and community antenna relay stations (see Subparts J and K of Part 74 of this chapter). The licensing of related microwave radio facilities is coordinated with the Task Force by the Common Carrier Bureau and the Safety and Special Radio Services Bureau.

(c) *Delegations of authority to the staff.* Pursuant to section 5(d) of the Communications Act, the Commission has delegated authority to its staff to act on matters which are minor or routine or settled in nature and those in which immediate action may be necessary. See Subpart B of this Part. Actions taken under delegated authority are subject to review by the Commission, on its own motion or on an application for review filed by a person aggrieved by the action. Except for the possibility of review, actions taken under delegated authority have the same force and effect as actions taken by the Commission. The delegation of authority to a staff officer, however, does not mean that he will exercise that authority in all matters subject to the delegation. In non-hearing matters, the staff is at liberty to refer any matter at any stage to the Commission for action, upon concluding that it involves matters warranting the Commission's consideration, and the Commission may instruct the staff to do so. In like manner, in hearing cases, pursuant to § 0.361 (b) and (c), the Commission may direct that matters pending before the Review Board be certified to the Commission for decision, and the Board may itself certify such matters to the Commission, with a request that they be acted upon by the Commission.

(d) *Commission action.* Matters requiring Commission action, or warranting its consideration, are dealt with by the Commission at regular weekly meetings, or at special meetings called to consider a particular matter. Meetings are normally held at the principal offices of the Commission in the District of Columbia, but may be held elsewhere in the United States. In appropriate circumstances, Commission action may be taken between meetings "by circulation", which involves the submission of a document to each of the Commissioners for his approval.

II. In Part 0 of Chapter I of Title 47 of the Code of Federal Regulations, Subpart C is amended as follows:

1. The Title of the Subpart is revised to read as follows: Subpart C—General Information.

2. In § 0.401, the portion of paragraph (a) preceding subparagraph (1) is revised to read as follows:

§ 0.401 Location of Commission offices.

(a) The main offices of the Commission are located in the New Post Office Building, 13th Street and Pennsylvania Avenue NW., Washington, D.C., and in the 521 Building, 521 12th Street NW., Washington, D.C.

* * * * *

3. Sections 0.403–0.431 are revoked and §§ 0.403–0.475 are added in lieu thereof, with appropriate undesignated center headings, to read as follows:

§ 0.403 Office hours.

The Offices of the Commission are open from 8:30 a.m. to 5 p.m., Monday through Friday, excluding legal holidays.

§ 0.405 Statutory provisions.

The following statutory provisions, among others, will be of interest to persons having business with the Commission:

(a) The Federal Communications Commission was created by the Communications Act of 1934, 48 Stat. 1064, June 19, 1934, as amended, 47 U.S.C. 151–609.

(b) The Commission exercises authority under the Submarine Cable Landing Act, 42 Stat. 8, May 27, 1921, 47 U.S.C. 34–39. See section 5 of Executive Order 10530, 19 F.R. 2709, May 10, 1954, as amended, 3 CFR 1965 ed., p. 463.

(c) The Commission exercises authority under the Communications Satellite Act of 1962, 76 Stat. 419, August 31, 1962, 47 U.S.C. 701–744.

(d) The Commission operates under the Administrative Procedure Act, 60 Stat. 237, June 11, 1946, as amended, originally codified as 5 U.S.C. 1001–1011. Pursuant to P.L. 89–554, September 6, 1966, 80 Stat. 378, the provisions of the Administrative Procedure Act now appear as follows in the Code:

Administrative Procedure Act	*5 U.S.C.*
Sec. 2–9	551–558
Sec. 10	701–706
Sec. 11	3105, 7521, 5362, 3344, 1305
Sec. 12	559

§ 0.406 The rules and regulations.

Persons having business with the Commission should familiarize themselves with those portions of its rules and regulations pertinent to such business. All of the rules have been published and are readily available. See §§ 0.411(b), 0.412, and 0.415. For the benefit of those who are not familiar with the rules, there is set forth in this section a brief description of their format and contents.

(a) *Format.* The rules are set forth in the Code of Federal Regulations as Chapter I of Title 47. Chapter I is divided into parts numbered from 0–99. Each part, in turn, is divided into numbered sections. To allow for the addition of new parts and sections in logical sequence, without extensive renumbering, parts and sections are not always numbered consecutively. Thus, for example, Part 2 is followed by Part 5, and § 1.8 is followed by § 1.10; in this case, Parts 3 and 4 and § 1.9 have been reserved for future use. In numbering sections, the number before the period is the part number; and the number after the period locates the section within that part. Thus, for example, § 1.1 is the first section of Part 1 and § 5.1 is the first section in Part 5. Except in the case of accounting regulations (Parts 31–35), the period should not be read as a decimal point; thus, § 1.511 is not located between § 1.51 and § 1.52 but at a much later point in the rules. In citing the Code of Federal Regulations, the citation, 47 CFR 5.1, for example, is to § 5.1 (in Part 5) of Chapter I of Title 47 of the Code, and permits the exact location of that rule. No citation to other rule units (e.g., subpart or chapter) is needed.

(b) *Contents.* Parts 0–19 of the rules have been reserved for provisions of a general nature. Parts 20–69 have been reserved for provisions pertaining to common carriers. Parts 70–79 have been reserved for provisions pertaining to broadcasting. Parts 80–99 have been reserved for provisions pertaining to the Safety and Special Radio Services. In the rules pertaining to common carriers, Parts 21, 23, and 25 pertain to the use of radio; Parts 31–66 pertain primarily to telephone and telegraph companies. In the rules pertaining to broadcasting, Part 74, Experimental, auxiliary and special broadcast services, also contains provisions for regulation of community antenna television (CATV) systems and community antenna relay (CAR) stations. Persons having business with the Commission will find it useful to consult one or more of the following parts containing provisions of a general nature in addition to the rules of the radio or wire communication service in which they are interested:

(1) *Part 0, Commission organization.* Part 0 describes the structure and functions of the Commission, lists delegations of authority to the staff, and sets forth information designed to assist those desiring to obtain information from, or to do business with, the Commission. This Part is designed, among other things, to meet certain of the requirements of the Administrative Procedure Act, as amended.

(2) *Part 1, practice and procedure.* Subpart A of Part 1 contains the general rules of practice and procedure. Except as expressly provided to the contrary, these rules are applicable in all Commission proceedings and should be of interest to all persons having business with the Commission. The subpart also contains certain other miscellaneous provisions. Subpart B contains the procedures applicable in formal hearing proceedings (see § 1.201). Subpart C contains the procedures followed in making or revising the rules and regulations. Subpart D contains rules applicable to applications for licenses in the Broadcast Radio Services, including the forms to be used, the filing requirements, the procedures for processing and acting on such applications, and certain other matters. Subpart E contains general rules and procedures applicable to common carriers. Additional procedures applicable to certain common carriers by radio are set forth in Part 21. Subpart F contains rules applicable to applications for licenses in the Safety and Special Radio Services, including the forms to be used, the filing requirements, the procedures for processing and acting on such applications, and certain other matters. Subpart G contains rules pertaining to application filing fees. Subpart H, concerning ex parte presentations, sets forth standards governing communication with Commission personnel in hearing proceedings and contested application proceedings. Subparts G and H will be of interest to all applicants, and Subpart H will, in addition, be of interest to all persons involved in hearing proceedings.

(3) *Part 2, frequency allocations and radio treaty matters; general rules and regulations.* Part 2 will be of interest to all persons interested in the use of radio. It contains definitions of technical terms used in the rules and regulations; provisions governing the allocation of radio frequencies among the numerous uses made of radio (e.g., broadcasting, land mobile) and radio services (e.g., television, public safety), including the Table of Frequency Allocations (§ 2.106); technical provisions dealing with emissions; provisions dealing with call signs and emergency communications; provisions governing type acceptance and type approval of radio equipment; and a list of treaties and other international agreements pertaining to the use of radio.

(4) *Part 5, experimental radio services (other than broadcast).* Part 5 deals with the temporary use of radio frequencies for research in the radio art, for communication involving other research projects, and for the development of equipment, data, or techniques.

(5) *Part 13, commercial radio operators.* Part 13 describes the procedures to be followed in applying for a commercial operator license, including the forms to be used and the examinations given, and sets forth rules governing licensed operators. It will be of interest to applicants for such licenses, licensed operators, and the licensees of radio stations which may be operated only by persons holding a commercial radio operator license.

(6) *Part 15, radio frequency devices.* Part 15 contains regulations designed to prevent harmful interference to radio communication from radio receivers and other devices which radiate radio frequency energy, and provides for the certification of radio receivers. It also provides for the certification of low power transmitters and for the operation of certificated transmitters without a license.

(7) *Part 17, construction, marking, and lighting of antenna structures.* Part 17 contains criteria for determining whether applications for radio towers require notification of proposed construction to the Federal Aviation Agency, and specifications for obstruction marking and lighting of antenna structures.

(8) *Part 18, industrial, scientific and medical equipment.* Part 18 contains regulations designed to prevent harmful interference to radio communication from ultrasonic equipment, industrial heating equipment, medical diathermy equipment, radio frequency stabilized arc welders, and other equipment which uses radio energy for purposes other than communication.

(9) *Part 19, employee responsibilities and conduct.* Part 19 prescribes standards of conduct for the members and staff of the Commission.

PRINTED PUBLICATIONS

§ 0.411 General reference materials.

The following reference materials are available in many libraries and may be purchased from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402:

(a) *Statutory materials.* Laws pertaining to communications are contained in Title 47 of the United States Code. Laws enacted since the printing of the last supplement to the Code are printed individually as slip laws, and these are compiled chronologically in the United States Statutes at Large. The Acts of Congress from 1910–62 pertaining to radio have been compiled in a single volume, Radio Laws of the United States (1962 ed.). See §§ 0.405 and 0.414.

(b) *Regulatory materials*—(1) *The Code of Federal Regulations.* The rules and regulations of the Commission are contained in Chapter I of Title 47 of the Code of Federal Regulations. Chapter I is divided into the following 4 subchapters, which may be purchased separately: Subchapter A—General; Subchapter B—Common Carrier Services; Subchapter C—Broadcast Radio Services; and Subchapter D—Safety and Special Radio Services. Most persons will find that they need Subchapter A, containing the general rules, and one of the other volumes, depending upon their area of interest. These four volumes are revised annually to reflect changes in the rules. See §§ 0.406, 0.412, and 0.415. The Code of Federal Regulations is fully indexed and contains numerous finding aids. See 1 CFR Appendix C.

(2) *The Federal Register.* As rules are adopted, amended, or repealed, the changes are published in the FEDERAL REGISTER, which is published daily except on days following legal holidays. Notices of proposed rule making, other rule making documents, statements of general policy, interpretations of general applicability, and other Commission documents having general applicability and legal effect are also published in the FEDERAL REGISTER. The FEDERAL REGISTER is fully indexed and contains numerous finding aids. See 1 CFR Appendix C.

§ 0.412 Nongovernment publications.

(a) *Pike and Fischer Radio Regulation.* This multi-volume service contains the text of statutes, treaties and regulations pertaining to radio; Commission and court decisions; and other materials, including a digest. Information concerning this service may be obtained from Pike and Fischer, Inc., 1726 M Street NW., Washington, D.C. 20036.

(b) *Rules Service Company service.* This service contains Parts 0, 1, 17, 73, 74, and 87 of the rules and regulations and other materials. Information concerning this service may be obtained from the Rules Service Company, 1001 15th Street NW., Washington, D.C. 20005.

NOTE: Other published research materials pertaining to communications will be listed in this section upon request of the publisher.

§ 0.413 The Commission's printed publications.

The Commission's printed publications are described in §§ 0.414–0.420. These publications may be purchased from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. The Commission does not furnish copies of these publications but will furnish a price list (Administration Bulletin No. 1) upon request. Requests for copies of that list should be directed to the Office Services Division, Office of Executive Director, Federal Communications Commission, Washington, D.C. 20554.

§ 0.414 The Communications Act and other statutory materials.

This publication, with packets of revised pages, contains the Communications Act of 1934, with amendments through 1964; the Administrative Procedure Act, with amendments through 1964; the Judicial Review Act; the Communications Satellite Act of 1962; and selected sections of the Criminal Code pertaining to communications. It also contains indexes to the Communications Act and the Administrative Procedure Act. Persons who do not have ready access to the United States Code, or who refer frequently to these materials, may find this volume to be useful.

§ 0.415 The rules and regulations (loose-leaf service).

In this service, the rules and regulations are divided into 10 volumes, each containing several related parts. Each volume may be purchased separately from the Superintendent of Documents. The purchase price for a volume includes a subscription to replacement pages reflecting changes in the rules contained therein until such time as the volume is revised. Each volume is revised periodically, depending primarily on the frequency with which the rules it contains have been amended. When a volume is revised, the revised volume and replacement pages therefor will be furnished to those who renew their subscriptions.

§ 0.416 The Federal Communications Commission Reports.

All documents currently adopted by the Commission having precedential or historical significance are published in the FCC Reports. The FCC Reports are published weekly in pamphlet form. The pamphlets are available on a subscription basis, and are subsequently compiled and published in bound volumes. Earlier volumes contain Commission decisions and reports but are less comprehensive than those currently being published. Supplements (to those earlier volumes) containing additional documents having precedential or historical significance will be issued from time to time. Current bound volumes contain indexes, tables of cases and other finding aids.

§ 0.417 The Annual Reports.

At the end of each fiscal year, the Commission publishes an Annual Report containing general information concerning the Commission and the history of regulation, a summary of developments during the year, and selected industry statistics.

§ 0.420 Other Commission publications.

The following additional Commission publications may be purchased from the Superintendent of Documents:

(a) Statistics of Communications Common Carriers (for the year 1965).

(b) Study Guide and Reference Material for Commercial Radio Operator Examinations (May 1965).

(c) Figure M–3, Estimated AM Ground Conductivity of the United States (set of two maps).

(d) Television Network Program Procurement Report, 3d Interim Report, Part 2, by the Office of Network Study.

FORMS AND DOCUMENTS AVAILABLE UPON REQUEST

§ 0.421 Application forms.

All forms for use in submitting applications for radio authorizations, together with instructions and information as to filing such forms, may be obtained at the Washington offices of the Commission or at any of the engineering field offices listed in § 0.121. For information concerning the forms to be used and filing requirements, see Subparts D, E, F, and G of Part 1 of this chapter and the appropriate substantive rules.

§ 0.422 Current action documents and public notices.

A limited number of copies of the text of documents adopted by the Commission, public notices of Commission actions, and other public releases is made available at the Office of Reports and Information when they are issued. Back issues of public releases are available for inspection in this office.

§ 0.423 Information bulletins.

The bulletins listed in this section have been prepared with the specific purpose of providing information to the public concerning communications and the Federal Communications Commission. Copies of these bulletins are available upon request. Many of the bulletins contain references to additional materials and the manner in which they may be obtained, including some which are available from the Commission without charge upon request.

(a) Copies of the following information bulletins issued by the Commission are available in the Office of Reports and Information and will be furnished upon request.

(1) An A–B–C of the FCC (No. 3–G).

(2) Radio Stations and Other Lists (No. 4–G).

(3) Publications and Services (No. 5–G).

(4) A Short History of Electrical Communication (No. 7–G).

(5) Radio Station Call Signs (No. 13–G).

(6) Regulation of Wire and Radio Communication (No. 14–G).

(7) Frequency Allocation (No. 15–G).

(8) Memo to All Young People Interested in Radio (No. 17–G).

(9) Letter to a Schoolboy (No. 18–G).

(10) Policing the Airwaves and Other FCC Field Services (No. 19–G).

(11) Broadcast Application and Hearing Procedures (No. 1–B).

(12) Broadcast Primer (No. 2–B).

(13) Educational Television (No. 16–B).

(14) Subscription TV and the FCC (No. 20–B).

(15) Educational Radio (No. 21–B).

(16) Common Carrier Primer (No. 12–C).

(17) Safety and Special Radio Services Primer (No. 11–S).

(b) Copies of the following information bulletins issued by the Office of Chief Engineer are available in that office and will be furnished upon request:

(1) Type Approved Miscellaneous Equipment (OCE Bull. No. 5).

(2) Type Approved Medical Diathermy Equipment (OCE Bull. No. 7).

(3) Industrial Radio Frequency Heaters Require Periodic Inspection (OCE Bulletin No. 8).

(4) Attachments to Type Approved Equipment Illegal (OCE Bulletin No. 10).

(5) Does My Transmitter Need a License (OCE Bulletin No. 11).

(6) Operation in the Broadcast Band Without a License (OCE Bulletin No. 12).

(7) Type Approved Wireless Microphones and Telemetering Transmitters (OCE Bulletin No. 13).

(8) Editorial Revision of FCC Rules, Parts 15 and 18 (OCE Bulletin No. 14).

(9) Type Acceptance Program (OCE Bulletin No. 15).

(c) Copies of the following information bulletins issued by the Safety and Special Radio Services Bureau are available from the Office Services Division, Office of Executive Director, upon request:

(1) Citizens Radio Service (SS Bulletin No. 1001).

(2) Use of Citizens Radio by Telephone Answering Services and Similar Organizations (SS Bull. No. 1001d).

(3) Citizens Radio Service—Selecting Class C and Class D Station Equipment (SS Bulletin No. 1001g).

(4) Aircraft Radio Station (SS Bulletin No. 1002).

(5) Aeronautical Advisory Stations (SS Bulletin No. 1002a).

(6) Aeronautical Public Service Stations (SS Bulletin No. 1002c).

(7) Amateur Radio Service (SS Bulletin No. 1003).

(8) Amateur Radio Operation Away from the Licensed Location (SS Bulletin No. 1003b).

(9) International Amateur Radiocommunication (SS Bulletin No. 1103c).

(10) Assignment of Amateur Radio Station Call Signs (SS Bulletin No. 1003d).

(11) Renewal of Amateur Radio Licenses (SS Bulletin No. 1003e).

(12) Reciprocal Amateur Operation (SS Bulletin No. 1003f).

(13) Land Transportation Radio Services (SS Bulletin No. 1004).

(14) Industrial Radio Services (SS Bulletin No. 1005).

(15) Use of the Same Transmitting Equipment by More than One Station Licensee in the Public Safety, Industrial and Land Transportation Services (SS Bulletin No. 1006a).

(16) Ship Radiotelephone and Radio (SS Bulletin No. 1007).

(17) Public Safety Radio Services (SS Bulletin No. 1009).

(18) Study Questions for Amateur Novice Class Examination (SS Bulletin No. 1035).

(19) Mutual Recognition of Certain Mobile and Amateur Radio Licenses Issued by the United States or Canada (SS Bulletin No. 1065).

(20) Notice to Licensees and Operators of Land Mobile Radio Stations (SS Bulletin No. 1097).

LISTS CONTAINING INFORMATION COMPILED BY THE COMMISSION

§ 0.431 The FCC Service Frequency Lists.

Lists of frequency assignments to radio stations authorized by the Commission are recapitulated periodically by means of a machine record system. All stations licensed by the Commission are included, except the following: Aircraft, Amateur, Citizens (except Class A), Civil Air Patrol, and Disaster. The resulting documents, the FCC Service Frequency Lists, consist of several volumes arranged by nature of service, in frequency order, including station locations, call signs and other technical particulars of each assignment. These documents are available for public inspection at each of the Commission's Field Engineering Bureau field offices (see § 0.121) and, in Washington, D.C. at the Commission's Broadcast and Docket Reference Room and in the offices of the Chief Engineer. They may be purchased from Cooper-Trent, Inc., 1130 19th Street NW., Washington, D.C. 20006.

§ 0.432 The NARBA List.

Pursuant to the North American Regional Broadcast Agreement and the United States/Mexican Agreement, appropriate countries are notified of standard broadcast station assignments as they are made. The information thus supplied by notice includes frequency, station location, call letters, power and other technical particulars. Every 6 months, a recapitulative list containing this information for all existing standard broadcast stations, arranged in frequency order, is prepared by the Commission. This is the so-called NARBA List. These lists are available for public examination at each of the Commission's Field Engineering Bureau field offices (see § 0.121) and, in Washington, D.C., at the Commission's Broadcast and Docket Reference Room. They may be purchased from Cooper-Trent, Inc., 1130 19th Street NW., Washington, D.C. 20006.

§ 0.433 The Radio Equipment Lists.

Lists of type approved and type accepted equipment (the Radio Equipment Lists) are prepared periodically by the Commission. These documents are available for public inspection at each of the Commission's Field Engineering Bureau field offices (see § 0.121) and in Washington, D.C., in the offices of the Chief Engineer. They may be purchased from Cooper-Trent, Inc., 1130 19th Street NW., Washington, D.C. 20006.

§ 0.434 Lists of authorized broadcast stations and pending broadcast applications.

Periodically the Commission prepares lists containing information about authorized broadcast stations and pending applications for such stations. These lists, which are prepared by an addressing machine, contain frequency, station locations, and other particulars. They are available for public examination at the Commission's Broadcast and Docket Reference Room, Washington, D.C., and may be purchased from Cooper-Trent, Inc., 1130 19th Street NW., Washington, D.C. 20006.

(a) For standard broadcast stations the lists are arranged as follows:

(1) Authorized stations arranged in frequency order, alphabetically by State and city, and by call letters.

(2) Pending applications for new stations and major changes in existing facilities arranged in frequency order and alphabetically by State and city.

(b) For FM broadcast stations the lists are arranged as follows:

(1) Authorized stations arranged by call letters and alphabetically by State and city.

(2) Pending applications for new stations and major changes in existing facilities arranged alphabetically by State and city.

(c) For television broadcast stations only one list is prepared. This list contains authorized stations and pending applications for new stations and major changes in existing facilities, and is arranged alphabetically by State and city.

(d) For television broadcast translator stations only one list is prepared. This list contains authorized stations and pending applications for new stations and major changes in existing facilities and is arranged alphabetically by State and city.

PUBLIC INFORMATION AND INSPECTION OF RECORDS

§ 0.441 General.

Any person desiring to obtain information may do so by writing or coming in person to any of the Commission's offices. A broader range of information and more comprehensive information facilities are available at the Commission's main office in Washington, D.C., however, and inquiries of a general nature should ordinarily be submitted to that office.

§ 0.443 General information office.

The Office of Reports and Information is located in the New Post Office Building. Here the public may obtain copies of public notices of Commission actions, formal documents adopted by the Commission and other public releases, as they are issued. Back issues of public releases are available for inspection in this Office. Copies of fact sheets which answer recurring questions about the Commission's functions may be obtained from this Office.

§ 0.445 Publication, availability and use of opinions, orders, policy statements, interpretations, administrative manuals, and staff instructions.

(a) All opinions and orders of the Commission (including concurring and dissenting opinions) are mailed to the parties and, as part of the record, are available for inspection in accordance with §§ 0.453 and 0.455.

(b) All final decisions and other documents currently adopted by the Commission having precedential or historical significance are published in the FCC Reports. Older materials of this nature are either published in the FCC Reports or are in the process of being published. In the event that such other materials are not yet published in the FCC Reports, reference should be made to Pike and Fischer Radio Regulations. See §§ 0.412(a) and 0.416.

(c) All rule making documents are published in the FEDERAL REGISTER. See § 0.411(b)(2).

(d) Formal policy statements and interpretations designed to have general applicability and legal effect are published in the FEDERAL REGISTER and the FCC Reports. See §§ 0.411(b)(2) and 0.416. Commission decisions and other Commission documents not entitled formal policy statements or interpretations may contain substantive interpretations and statements regarding policy, and these are published as part of the document in the FCC Reports. General statements regarding policy and interpretations furnished to individuals, in correspondence or otherwise, are not ordinarily published. A series of individual interpretations may be collected and published in the FEDERAL REGISTER and the FCC Reports.

(e) If the documents described in paragraphs (a)–(d) of this section are published in the FEDERAL REGISTER, the FCC Reports, or Pike and Fischer Radio Regulations, they may be relied upon, used or cited as precedent by the Commission or private parties in any matter. If they are not so published, they may not be relied upon, used or cited as precedent, except against persons who have actual notice of the document in question or by such persons against the Commission. No person is expected to comply with any requirement or policy of the Commission unless he has actual notice of that requirement or policy or unless a document stating it has been published as provided in this parargaph. Nothing in this paragraph, however, shall be construed as precluding a reference to the rationale set forth in a recent document which is pending publication if the requirement or policy to which the rationale relates is contained in a published document or if actual notice of that requirement or policy has been given.

(f) The FEDERAL REGISTER, the FCC Reports, and Pike and Fischer Radio Regulations are indexed. If the documents described in paragraphs (a)–(d) of this section are not published, they are neither indexed nor relied upon, except

as provided in paragraph (e) of this section.

(g) There are two Commission staff manuals, the FCC Administrative Manual and the FEB Manual. They have not been published. The FCC Administrative Manual (excepting Part IX, concerning Civil Defense, which contains materials classified under E.O. 10501) is available for inspection in the Office of the Executive Director. Portions of the FEB Manual which pertain to administrative matters are available for inspection in the Field Engineering Bureau. Portions of the FEB Manual which pertain to enforcement matters are not available for inspection. (See, Attorney General's Memorandum on the Public Information Section of the Administrative Procedure Act, June 1967, at pages 16–17.) The manuals are not indexed but are organized by subject, with tables of contents, and the materials contained therein can be located without difficulty.

(h) Subparts A and B of this part describe the functions of the staff and list the matters on which authority has been delegated to the staff. Except as provided in paragraph (g) of this section, all general instructions to the staff and limitations upon its authority are set forth in those subparts. As part of the Commission's rules and regulations, the provisions of these subparts are indexed in the FEDERAL REGISTER and the Code of Federal Regulations. Instructions to the staff in particular matters or cases are privileged and are not published or made available for public inspection.

(i) To the extent required to prevent a clearly unwarranted invasion of personal privacy, the Commission may delete identifying details when it makes available or publishes any document described in this section. The justification for any such deletion will be fully explained in a preamble to the document.

§ 0.451 Inspection of records.

(a) *Records which are routinely available for public inspection.* Sections 0.453 and 0.455 list examples of the Commission's records which are routinely available for public inspection, and the places at which those records may be inspected. Subject to the following limitations, and to the provisions of § 0.466, those records will be made available for inspection to any person upon request:

(1) The person desiring to inspect those records must appear at the location specified during the office hours of the Commission and must inspect the records at that location.

(2) The request must be reasonable in scope, and the records in question must be so identified as to permit their location by staff personnel without undue disruption of their regular duties. The information needed to locate the records will vary, depending upon the records requested. Advice concerning the kind of information needed to locate particular records will be furnished in advance upon request. Members of the public will not be given access to the area in which the records are kept and will not be permitted to search the files.

(3) Current records may be in use by the staff when the request is made. Older records may have been forwarded to another location for storage. In these and similar circumstances, there may be a delay in furnishing the records requested. To avoid inconvenience in such circumstances, arrangements may be made in advance, by telephone or correspondence, to make the records available for inspection on a specified date.

(b) *Records not routinely available for public inspection.* (1) Section 0.457 lists records which are not routinely available for public inspection. In some cases, the Commission is prohibited from permitting the inspection of records. In other cases, the records are the property of another agency, and the Commission has no authority to permit their inspection. In still other cases, the Commission is authorized, for reasons of policy, to withhold records from public inspection, but is not required to do so. The statutory basis for withholding records from public inspection and the underlying policy considerations are outlined briefly in § 0.457, with the intent of assisting those who may wish to file requests for inspection under § 0.461. See subparagraph (3) of this paragraph.

(2) Section 0.459 governs requests from members of the public that materials they submit to the Commission not be made available for public inspection.

(3) Except where the disclosure of records by the Commission is prohibited or where the records are the property of another agency, the Commission will consider requests that records withheld from public inspection be made available for inspection, and reach a judgment whether such requests should be granted in the public interest, taking into account the policies of Public Law 89–487, 5 U.S.C. 552. If the records are the property of another agency, the request will be referred to that agency. Procedures governing requests for inspection are set forth in §§ 0.461 and 0.466. Procedures governing demands by competent authority for inspection of records are set forth in § 0.463.

(4) Except as provided in §§ 0.461 and 0.463, no officer or employee of the Commission shall permit the inspection of records which are not routinely available for inspection under § 0.453 or § 0.455, or disclose information contained therein.

(c) *Records not listed in § 0.453 or § 0.455.* To be as helpful as possible to the public, numerous examples of records which are routinely available for inspection are listed in §§ 0.453 and 0.455. Though the examples cover the bulk of the Commission's records and should cover most requests for inspection, the listing is inevitably not complete. If such example listing proves helpful, it may be supplemented from time to time.

(d) *Copies.* Section 0.465 applies to requests for copies of Commission records which are routinely available for public inspection under §§ 0.453 and 0.455 and those which are made available for inspection under § 0.461. Section 0.467 applies to certified copies of Commission records.

§ 0.453 Public reference rooms.

The Commission maintains the following public reference rooms at its offices in Washington, D.C.:

(a) *The Broadcast and Dockets Reference Room.* The following documents, files and records are available for inspection at this location:

(1) Files containing the record of all docketed cases. A file is maintained for each hearing case and for each docketed rule making proceeding. Cards summarizing the history of such cases are available for inspection in the Dockets Division.

(2) Broadcast applications and related files.

(3) Files containing petitions for rule making and related papers.

(4) Rulings under the fairness doctrine and section 315 of the Communications Act, and related materials.

(b) *The Amateur License Reference Room.* Information concerning amateur radio operators is available for inspection at this location.

(c) *The Library.* Various legal and technical publications, and legislative history compilations, related to communications are available for inspection in the Library.

§ 0.455 Other locations at which records may be inspected.

Except as provided in §§ 0.453, 0.457, and 0.459, records are routinely available for inspection in the offices of the Bureau or Office which exercises responsibility over the matters to which those records pertain (see § 0.5), or will be made available for inspection at those offices upon request. Upon inquiry to the appropriate Bureau or Office, persons desiring to inspect such records will be directed to the specific location at which the particular records may be inspected. A list of Bureaus and Offices and examples of the records available at each is set out below.

(a) *Office of Chief Engineer.* (1) Experimental application and license files.

(2) The Master Frequency Records (Standard Form 128).

(b) *Broadcast Bureau.* (1) Applications for broadcast authorizations and related files are available for public inspection in the Broadcast and Dockets Reference Room. See § 0.453(a)(2). Certain broadcast applications, reports and records are also available for inspection in the community in which the main studio of the station in question is located or proposed to be located. See § 1.526 of this chapter.

(2) Ownership reports filed by licensees of broadcast stations pursuant to § 1.615 of this chapter.

(c) *Common Carrier Bureau.* (1) Annual reports filed by carriers and certain affiliates under § 43.21 of this chapter.

(2) Monthly reports filed by carriers under § 43.31 of this chapter.

(3) Reports on pensions and benefits filed by carriers under § 43.42 of this chapter.

(4) Reports of proposed changes in depreciation rates filed by carriers under § 43.43 of this chapter.

(5) Reports regarding division of international telegraph communication charges filed under § 43.53 of this chapter.

(6) Reports regarding services performed by telegraph carriers filed under § 43.54 of this chapter.

(7) Reports of public coast station operators filed under § 43.71.

(8) Valuation reports filed under section 213 of the Communications Act, including exhibits filed in connection therewith, unless otherwise ordered by the Commission, with reasons therefor, pursuant to section 213(f) of the Communications Act. See § 0.457(c)(2).

(9) A list of other reports filed by common carriers.

(10) Contracts and other arrangements filed under § 43.51 and reports of negotiations regarding foreign communication matters filed under § 43.52 of this chapter, except for those kept confidential by the Commission pursuant to section 412 of the Communications Act. See § 0.457(c)(3).

(11) Tariff schedules for all charges for interstate and foreign wire or radio communications filed pursuant to section 203 of the Communications Act, all documents filed in connection therewith, and all communications related thereto.

(12) All applications for common carrier authorizations, both radio and non-radio, and files relating thereto.

(13) All formal and informal complaints against common carriers filed under §§ 1.711–1.735 of this chapter, all documents filed in connection therewith, and all communications related thereto.

(14) Files relating to submarine cable landing licenses, except for maps showing the exact location of submarine cables, which are withheld from inspection under section 4(j) of the Communications Act. See § 0.457(c)(1)(i).

(d) *Safety and Special Radio Services Bureau.* (1) All applications for authorizations in the Safety and Special Radio Services and files relating thereto. These materials are available at the offices of the Divisions of the Bureau which process the applications in question. See § 1.951 of this chapter. Information concerning amateur radio operators is available for inspection at the Amateur License Reference Room (see § 0.453(b)).

(e) *Field Engineering Bureau.* (1) Commercial radio operator application files. See, however, § 0.457(f)(3).

(2) Files pertaining to the certification of plants or equipment under Part 18 of this chapter.

(f) *Office of the Secretary.* (1) All minutes of Commission actions, containing a record of all final votes, except for minutes of actions on classified matters and internal management matters as provided in § 0.457(b)(1) and (c)(1)(ii). These minutes are available for inspection in the Minute and Rules Division.

(2) Files containing information concerning the history of the Commission's rules. These files are available for inspection in the Minute and Rules Division.

(g) *Office of Reports and Information.* See § 0.443.

(h) *The Commission's offices in Gettysburg, Pennsylvania.* (1) Amateur and Citizens Radio Service application files.

(2) Commercial radio operator application files. See, however, § 0.457(f)(3).

(i) *CATV Task Force.* CATV petitions, requests and related files.

§ 0.456 General correspondence files.

Due to the general nature of the Commission's correspondence files, the contents of those files will be made available for inspection under procedures set forth in § 0.461. Before correspondence is made available for inspection under the provisions of that section, it will be reviewed by the Commission's staff to determine whether it should be withheld from inspection under § 0.457. In view of the burden which could be imposed by requests lacking in specificity, persons desiring to inspect materials contained therein will be required to identify those materials with particularity. Requests of a general nature will not be granted. Details of a personal nature, including the name and address of the correspondent, may be deleted from correspondence which is made available for inspection, if their deletion is warranted under § 0.457(f) or (g).

§ 0.457 Records not routinely available for public inspection.

The records listed in this section are not routinely available for public inspection. The records are listed in this section by category, according to the statutory basis for withholding those records from inspection; and under each category, if appropriate, the underlying policy considerations affecting the withholding and disclosure of records in that category are briefly outlined. Except where the records are not the property of the Commission or where the disclosure of those records is prohibited by law, the Commission will entertain requests from members of the public under § 0.461 for permission to inspect particular records withheld from inspection under the provisions of this section, and will weigh the policy considerations favoring non-disclosure against the reasons cited for permitting inspection in the light of the facts of the particular case. In making such requests, it is important to appreciate that there may be more than one basis for withholding particular records from inspection. The listing of records by category is not intended to imply the contrary but is solely for the information and assistance of persons making such requests.

(a) *Materials that are specifically required by executive order to be kept secret in the interest of the national defense or foreign policy, 5 U.S.C. 552(e)(1).* (1) E.O. 10450, "Security Requirements for Government Employees," 18 F.R. 2489, April 27, 1953, 3 CFR, 1949–1953 Comp., p. 936. Pursuant to the provisions of E.O. 10450, reports and other material and information developed in security investigations are the property of the investigative agency. If they are retained by the Commission, it is required that they be maintained in confidence and that no access be given to them without the consent of the investigative agency. Such materials and information will not be made available for public inspection. See also paragraphs (f) and (g) of this section.

(2) E.O. 10501, "Safeguarding Official Information in the Interests of the Defense of the United States," 18 F.R. 7049, November 10, 1953, as amended, 3 CFR, 1953 ed., p. 460. E.O. 10501, as amended, provides for the classification of official information which requires protection in the interests of national defense, and prohibits the disclosure of classified information except as provided therein. Classified materials and information will not be made available for public inspection. See also, E.O. 10033, February 8, 1949, 14 F.R. 561, 3 CFR, 1949–1953 Comp., p. 226, and 47 U.S.C. 154(j).

(b) *Materials that are related solely to the internal personnel rules and practices of the Commission, 5 U.S.C. 552(e)(2).* (1) Materials related solely to internal management matters, including minutes of Commission actions on such matters. Such materials may be made available for inspection under § 0.461, however, unless their disclosure would interfere with or prejudice the performance of the internal management functions to which they relate, or unless their disclosure would constitute a clearly unwarranted invasion of personal privacy (see paragraph (f) of this section).

(2) Materials relating to the negotiation of contracts.

(c) *Materials that are specifically exempted from disclosure by statute, 5 U.S.C. 552(e)(3).* The Commission is authorized under the following statutory provisions to withhold materials from public inspection:

(1) Section 4(j) of the Communications Act, 47 U.S.C. 154(j), provides, in part, that, "The Commission is authorized to withhold publication of records or proceedings containing secret information affecting the national defense." Pursuant to that provision, it has been determined that the following materials should be withheld from public inspection (see also paragraph (a) of this section):

(i) Maps showing the exact location of submarine cables.

(ii) Minutes of Commission actions on classified matters.

(iii) Maps of nation-wide point-to-point microwave networks.

(2) Under section 213(f) of the Communications Act, 47 U.S.C. 213(f), the Commission is authorized to order, with the reasons therefor, that records and data pertaining to the valuation of the property of common carriers and furnished to the Commission by the carriers pursuant to the provisions of that section, shall not be available for public inspection. If such an order has been issued, the data and records will be withheld from public inspection, except under the provisions of § 0.461. Normally, however, such data and information is available for inspection. See § 0.456(c)(8).

(3) Under section 412 of the Communications Act, 47 U.S.C. 412, the Commission may withhold from public inspection certain contracts, agreements and arrangements between common carriers relating to foreign wire or radio communication. Reports of negotiations regarding such foreign communication matters, filed by carriers under § 43.52 of this chapter, may also be withheld from public inspection under section 412. Any person may file a petition requesting that such materials be withheld from public inspection. To support such action, the petition must show that the contract, agreement or arrangement relates to foreign wire or radio communications; that its publication would place American communication companies at a disadvantage in meeting the competition of foreign communication companies; and that the public interest would be served by keeping its terms confidential. If the Commission orders that such materials be kept confidential, they will be made available for inspection only under the provisions of § 0.461.

(4) Section 605 of the Communications Act, 47 U.S.C. 605, provides, in part, that, "no person not being authorized by the sender shall intercept any communication [by wire or radio] and divulge or publish the existence, contents, substance, purport, effect, or meaning of such intercepted communications to any person." In executing its responsibilities, the Commission regularly monitors radio transmissions (see § 0.116). Except as required for the enforcement of the communications laws, treaties and the provisions of this chapter, or as authorized in section 605, the Commission is prohibited from divulging information obtained in the course of these monitoring activities; and such information, and materials relating thereto, will not be made available for public inspection.

(5) Section 1905 of the Criminal Code, 18 U.S.C. 1905, prohibits the unauthorized disclosure of certain confidential information. See paragraph (d) of this section.

(d) *Trade secrets and commercial or financial information obtained from any person and privileged or confidential, 5 U.S.C. 552(e)(4) and 18 U.S.C. 1905.* Section 552(e)(4) is specifically applicable to trade secrets and commercial or financial information but is not limited to such matters. Under this provision, the Commission is authorized to withhold from public inspection materials which would be privileged as a matter of law if retained by the person who submitted them and materials which would not customarily be released to the public by that person, whether or not such materials are protected from disclosure by a privilege. See, Attorney General's Memorandum on the Public Information Section of the Administrative Procedure Act, June 1967, at pages 32–34.

(1) Materials submitted to the Commission which contain trade secrets, or which contain commercial, financial or technical data which would customarily be guarded from competitors by the person submitting it, will not ordinarily be made available for inspection. A persuasive showing as to the reasons for inspection of such materials, and as to the Commission's authority to make disclosure in view of 18 U.S.C. 1905, will be required in requests for inspection submitted under § 0.461. This category includes the following materials:

(i) Financial reports submitted by licensees of broadcast stations pursuant to § 1.611 of this chapter or by radio and television networks.

(ii) Technical data submitted in connection with type acceptance, type approval or certification of equipment, except as set out in the Radio Equipment Lists. See § 0.433.

(2) Prior to July 4, 1967, the rules and regulations provided that certain materials submitted to the Commission would not be made available for public inspection or provided assurance, in varying degrees, that requests for non-disclosure of certain materials would be honored. See, e.g., 47 CFR (1966 ed.) 2.557, 5.204, 5.255, 15.70, 21.406, 81.506, 83.436, 87.153, 89.215, 91.208, 91.605 and 93.208. Materials submitted under these provisions are not routinely available for public inspection. If a request for inspection is submitted under § 0.461, the Commission will then determine whether it is appropriate to withhold the materials in question from public inspection. To the extent that such materials were accepted on a confidential basis under the then existing rules, no disclosure of such materials will be made, absent a most compelling showing. See § 0.461 for provision for comments on a request for disclosure. The rules referred to above are superseded by the provisions of this subpart.

(3) Requests that materials submitted to the Commission on or after July 4, 1967, be withheld from public inspection are governed by § 0.459.

NOTE: Section 1905 of the Criminal Code, 18 U.S.C. 1905, prohibits the unauthorized disclosure of certain confidential information by employees of the United States. That section reads as follows:

Section 1905. *Disclosure of confidential information generally.*

Whoever, being an officer or employee of the United States or of any department or agency thereof, publishes, divulges, discloses, or makes known in any manner or to any extent not authorized by law any information coming to him in the course of his employment or official duties or by reason of any examination or investigation made by, or return, report or record made to or filed with, such department or agency or officer or employee thereof, which information concerns or relates to the trade secrets, processes, operations, style of work, or apparatus, or to the identity, confidential statistical data, amount or source of any income, profits, losses, or expenditures of any person, firm, partnership, corporation, or association; or permits any income return or copy thereof or any book containing any abstract or particulars thereof to be seen or examined by any person except as provided by law; shall be fined not more than $1,000, or imprisoned not more than one year, or both; and shall be removed from office or employment (June 25, 1948, ch. 645, 62 Stat. 791).

(e) *Interagency and intra-agency memorandums or letters, 5 U.S.C. 552(e)(5).* Interagency and intra-agency memorandums or letters and the work papers of members of the Commission or its staff will not be made available for public inspection, except in accordance with the procedures set forth in § 0.461. Only if it is shown in a request under § 0.461 that such a communication would be routinely available to a private party through the discovery process in litigation with the Commission will the communication be made available for public inspection. Normally such papers are privileged and not available to private parties through the discovery process, since their disclosure would tend to restrain the commitment of ideas to writing, would tend to inhibit communication among Government personnel, and would, in some cases, involve premature disclosure of their contents.

(f) *Personnel, medical and other files whose disclosure would constitute a clearly unwarranted invasion of personal privacy, 5 U.S.C. 552(e)(6).* (1) Under Executive Order 10561, 19 F.R. 5963, September 13, 1954, 3 CFR 1954–58 Comp., page 205, the Commission maintains an Official Personnel Folder for each of its employees. Such folders are under the jurisdiction and control, and are a part of the records, of the U.S. Civil Service Commission. Except as provided in the rules of the Civil Service Commission (5 CFR 294.701–294.703), such folders will not be made available for public inspection by the Commission. In addition, other records of the Commission containing private, personal or financial information concerning particular employees will be withheld from public inspection.

(2) [Reserved]

(3) Information submitted to the Commission by applicants for commercial radio operator licenses concerning the character and mental or physical health of the applicant is available for inspection only under procedures set forth in § 0.461. Except in this respect, or where other aspects of a similar private nature warrant nondisclosure, commercial radio operator application files are available for inspection.

(g) *Investigatory files compiled for law enforcement purposes except to the extent available by law to a private party. 5 U.S.C. 552(e)(7).* Papers relating to the institution or the conduct of an investigation are placed in an investigatory file. Such files are not available for public inspection. Information concerning such files and their contents which might prejudice the conduct of an investigation will not be disclosed until it has been determined that an investigation should not be conducted or until the investigation has been completed.

(1) *Complaints.* Except with respect to complaints filed under Section 208 of the Communications Act (see § 0.455(c)), when a complaint is received by the Commission, an initial determination is made as to whether the matters related in the complaint warrant (or may warrant) an investigation. If it is determined that such matters warrant (or may warrant) an investigation, the complaint is placed in a investigatory file. A complaint which is placed in an investigatory file may be made available for inspection upon request if it appears that its disclosure will not prejudice the conduct of the investigation (e.g., if, information concerning the complaint has otherwise been disclosed). Except as hereinafter provided, the complaint is placed in a public file when it has been determined that no investigation should be conducted or when the investigation has been completed. If the complainant has requested that his identity not be disclosed, or if there is reason to believe that disclosure of complainant's identity could embarrass him or subject him to harrassment, the complaint will not be placed in a public file without his consent. If no investigation is conducted or if the investigation has been completed, however, such complaints will be made available for inspection upon request if, and to the extent that, it is possible to do so without disclosing the complainant's identity.

(2) *Statements and documents.* Statements and documents obtained by Commission investigators in the course of an investigation are handled in the same manner as complaints, under subparagraph (1) of this paragraph.

(3) *Work papers and memoranda.* Personal work papers, memoranda, or reports prepared by Commission personnel relating to the institution, conduct, or outcome of an investigation are placed in an investigatory file and are retained in that file. They are not available for public inspection. Requests for inspection of such materials will be considered under paragraph (e) of this section. Materials of this nature received from other Government agencies are placed and retained in an investigatory file; requests for inspection of such materials will be referred to the agency from which they were received.

§ 0.459 Requests that materials or information submitted to the Commission be withheld from public inspection.

(a) Any person submitting information or materials to the Commission may submit therewith a request that such information not be made available for public inspection. A copy of the request shall be attached to and shall cover all of the materials to which it applies and all copies of those materials. If feasible, the materials to which the request applies shall be physically separated from the materials to which the request does not apply; if this is not feasible, the portion of the materials to which the request applies shall be identified.

(b) Each such request shall contain a statement of the reasons for withholding the materials from public inspection (see § 0.457) and of the facts upon which those reasons are based. If the request is that the materials be withheld from public inspection for a limited period of time, that period shall be specified.

(c) If the materials are submitted voluntarily (i.e., absent any request or direction by the Commission), the person submitting them may request the Commission to return the materials without consideration rather than make them available for public inspection. If the request for confidentiality should be denied, the materials will ordinarily be returned (e.g., an application will be returned if it cannot be treated on a confidential basis); only in the unusual instance where the public interest so requires will the material be made public, and then only after an appropriate period for comment by the person affected and judicial review. If the submission of the materials is requested or required by the Commission, and the request for confidentiality is denied, the materials will be made available for public inspection. (As to maintenance of confidentiality of complainants, see § 0.457(g).)

(d) If no request for confidentiality is filed, the Commission assumes no obligation to consider the need for non-disclosure but, in the unusual instance, may determine, on its own motion, that the materials should be withheld from public inspection under § 0.457.

(e) Upon a determination by the appropriate Bureau or Office Chief that a request for confidentiality is well-founded, the materials will not routinely be made available for public inspection. Such person will, however, prepare a brief memorandum generally identifying the materials and specifically stating the reasons for nondisclosure. This memorandum will be placed in the public file in lieu of the materials withheld from inspection.

(f) If the Bureau or Office Chief is unable to make a determination on a request for confidentiality, the request will be referred to the Executive Director for action.

(g) If a request for confidentiality is denied, the materials will not be returned or made available for public inspection until the person who filed the request has been notified of the action and has been afforded an opportunity to file an application for review by the Commission and to petition for judicial review of the Commission's action.

(h) Any person desiring to inspect materials withheld from public inspection under the provisions of this section may submit a request for inspection under § 0.461.

§ 0.461 Requests for inspection of materials not routinely available for public inspection.

(a) Any person desiring to inspect documents not open to routine inspection under § 0.456, § 0.457, or § 0.459 may file a request for inspection. An original and one copy shall be submitted. Each such request shall identify, with particularity, the materials to be inspected and shall set forth the reasons for permitting inspection and the facts in support thereof.

(b) In the case of materials not open to routine inspection under § 0.457(d) or § 0.459, or if, in the judgment of the Executive Director, the person who submitted the materials should be afforded an opportunity to file a response, the duplicate copy of the request for inspection will be mailed to the person who submitted the materials, and he will be afforded a reasonable period (normally 15 days) in which to comment on the request and to indicate any objections thereto. If a response is submitted, the respondent shall serve a copy on the person who filed the request for inspection. Except as specifically authorized or directed by the Executive Director, additional pleadings may not be filed.

(c) Requests for inspection will be acted upon by the Executive Director as follows:

(1) If the Commission is prohibited from disclosing the materials in question, the request for inspection will be denied with a statement setting forth the specific grounds for denial.

(2) If the materials are the property of another agency, the request will be referred to that agency and the person who submitted that request will be so advised, with the reasons therefor.

(3) If it is determined that the Commission does not have authority to withhold the materials from public inspection, the request will be granted.

(4) If it is determined that the Commission does have authority to withhold the materials from public inspection, the considerations favoring disclosure and nondisclosure will be weighed in the light of the facts presented, and the request will be granted, either conditionally or unconditionally, or denied.

(d) (1) If the request is granted conditionally or denied and disclosure has not been opposed under paragraph (b) of this section, the person who filed the request may file an application for review by the Commission under § 1.115 of this chapter. Responsive pleadings provided for in § 1.115 of this chapter may not be filed.

(2) If disclosure has been opposed under paragraph (b) of this section, the person who submitted the materials or the person who filed the request for inspection may file an application for review by the Commission within 15 days after the order acting on the request for inspection is released. Responsive pleadings may be filed in accordance with § 1.115(d) of this chapter. No order granting the request for inspection shall be implemented until the opportunities for review by the Commission and judicial review have been afforded, unless the Commission finds, for reasons set forth in the order, that the public interest requires earlier inspection. In the latter event, the order will not be implemented until the opportunity to obtain a judicial stay of the Commission's Order has been afforded.

§ 0.463 Demand by competent authority for the production of documents or testimony concerning information contained therein.

(a) In the event that a demand (subpoena, order or other demand) is made by a court or other competent authority outside the Commission, upon any officer or employee of the Commission for the production of records or files or for testimony concerning information contained therein, he shall promptly advise the Executive Director of such demand, the nature of the papers or information sought, and all other relevant facts and circumstances. The Commission will thereupon issue such instructions as it may deem advisable.

(b) Unless specifically authorized to produce such records or files or to testify

with respect thereto, any officer or employee of the Commission who is served with a demand for the production of records or files or his testimony concerning the same, shall appear in response to the demand and respectfully decline to produce such records or files or to testify concerning them, basing his refusal upon this rule.

§ 0.465 Request for copies of materials which are available, or made available, for public inspection.

(a) The Commission annually awards a contract to one or more commercial firms to make copies of Commission records and offer them for sale to the public. The contract is awarded on the basis of the lowest cost to the public. Currently, the contractor is Cooper-Trent, Inc., 1130 19th Street NW., Washington, D.C. 20006. Except as provided in paragraphs (b) and (c) of this section and in § 0.467, requests for copies of the records listed in §§ 0.453 and 0.455, and those made available for inspection under § 0.461, should be directed to the contractor. The contractor maintains master files of the following materials specifically for reproduction and sale to the public:

(1) Horizontal directional antenna patterns filed with the Commission since February 1948.

(2) FCC Form 402 microwave applications filed with the Commission since July 1961.

(3) FCC Form 401 applications for common carrier microwave relay stations serving community antenna television (CATV) systems.

(4) Grade A and Grade B contour maps on television broadcast stations filed with the Commission since July 1966.

(b) The Commission annually awards a contract to a commercial firm to transcribe Commission proceedings in which a verbatim record is kept and to offer copies of the transcript for sale to the public. The contract is awarded on the basis of the lowest cost to the public and to the Commission. Except as authorized by the Commission, the firm is required to retain the capacity to furnish copies of the transcript for a period of 5 years, and may retain that capacity for a longer period, even though another firm is currently transcribing Commission proceedings. Requests for copies of the transcript of current proceedings should be directed to the current contractor, C.S.A. Reporting Corp., 300 Seventh Street SW., Washington, D.C. 20004. Requests for transcripts of older proceedings will be forwarded by the Commission to the firm which made the transcript in question; and the names of contracting firms for past years will be furnished upon request. If a transcript cannot be obtained from the reporting firm, it can be obtained from the general duplicating contractor, as provided in paragraph (a) of this section.

(c) (1) This section has no application to printed publications, which may be purchased from the Superintendent of Documents or private firms (see §§ 0.411–420). Nor does it apply to application forms or information bulletins, which are prepared for the use and information of the public and are available upon request (see §§ 0.421 and 0.423).

(2) Contractual arrangements which have been entered into with commercial firms, as described in this section, do not in any way limit the right of the public to inspect Commission records or to extract therefrom whatever information may be desired. Any person may, in addition, make photocopies of Commission records with his own equipment at locations where those records may be inspected. Coin-operated photocopy machines are available for use by the public in the Broadcast and Dockets Reference Room and the Common Carrier Bureau for the duplication of records available for inspection at those locations.

(3) The Commission has reserved the right to make copies of its records for its own use or for the use of other agencies of the U.S. Government. When it serves the regulatory or financial interests of the U.S. Government, the Commission will make and furnish copies of its records free of charge. In other circumstances, however, if it should be necessary for the Commission to make and furnish copies of its records for the use of others, the fee for this service shall be the same as that charged by the general duplicating contractor for copies of those records under contractual arrangements described in paragraph (a) of this section.

(4) Requests for copies by representatives of foreign governments or persons residing in foreign countries shall be submitted to the Commission and will be reviewed by the Commission under criteria established by the Department of Commerce for controlling the export of technical data.

§ 0.466 Fees.

NOTE: Provisions relating to private charges for furnishing copies of documents are set forth in §§ 0.465(c)(3) and 0.467. Provisions relating to fees for the location and production of records for inspection are under consideration and will be dealt with at a subsequent time.

§ 0.467 Certified copies.

Copies of documents which are available, or made available, for inspection under §§ 0.451–0.465 will be prepared and certified by the Secretary, under seal, on written request specifying the exact documents, the number of copies desired, and the date on which they will be required. The request shall allow a reasonable time for the preparation and certification of copies. The fee for preparing copies shall be the same as that charged by the general duplicating contractor for the same work under contractual arrangements described in § 0.465(a). The fee for certification shall be $1 for each document.

PLACES FOR MAKING SUBMITTALS OR REQUESTS, FOR FILING APPLICATIONS, AND FOR TAKING EXAMINATIONS

§ 0.471 Miscellaneous submittals or requests.

Persons desiring to make submittals or requests of a general nature should communicate with the Office of the Secretary of the Commission.

§ 0.473 Reports of violations.

Reports of violations of the Communications Act or of the Commission's rules and regulations may be submitted to the Commission in Washington or to any field office.

§ 0.475 Applications for employment.

Persons who wish to apply for employment should communicate with the Chief, Personnel Division.

4. Section 0.441 is redesignated § 0.481, and paragraphs (b) and (c) of that section are amended, to read as follows:

§ 0.481 Place of filing of applications for radio authorizations.

Class of station	Method of filing	Number of copies
• • •	• • •	• • •
(b) Amateur	See §§ 0.483 and 0.485.	As specified in form.
(c) Interim ship station license.	See § 0.487	Do.

• • • • • •

§§ 0.483–0.493 [Redesignated]

5. Section 0.443 is redesignated § 0.483.
6. Section 0.445 is redesignated § 0.485.
7. Section 0.447 is redesignated § 0.487.
8. Section 0.449 is redesignated § 0.489.
9. Section 0.451 is redesignated § 0.491.
10. Section 0.453 is redesignated § 0.493.

Proposed Rule Making

DEPARTMENT OF AGRICULTURE

Consumer and Marketing Service

[7 CFR Part 921]

FRESH PEACHES GROWN IN WASHINGTON

Approval of Expenses and Fixing Rate of Assessment for 1967–68 Fiscal Year

Consideration is being given to the following proposals submitted by the Washington Fresh Peach Marketing Committee, established under the marketing agreement and Order No. 921 (7 CFR Part 921) regulating the handling of fresh peaches grown in designated counties in Washington, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), as the agency to administer the terms and provisions thereof:

(1) That the expenses that are reasonable and likely to be incurred by said committee, during the period April 1, 1967, through March 31, 1968, will amount to $6,854.

(2) That there be fixed, at $0.60 per ton of fresh peaches, the rate of assessment payable by each first handler in accordance with § 921.41 of the aforesaid marketing agreement and order.

All persons who desire to submit written data, views, or arguments in connection with the aforesaid proposals shall file the same, in quadruplicate, with the Hearing Clerk, U.S. Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, not later than the 10th day after the publication of this notice in the FEDERAL REGISTER. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Dated: July 14, 1967.

ARTHUR E. BROWNE,
Acting Director, Fruit and Vegetable Division, Consumer and Marketing Service.

[7 CFR Part 922]

APRICOTS GROWN IN WASHINGTON

Approval of Expenses and Fixing of Rate of Assessment for 1967–68 Fiscal Year

Consideration is being given to the following proposals submitted by the Washington Apricot Marketing Committee, established under the marketing agreement, as amended, and Order No. 922, as amended (7 CFR Part 922), regulating the handling of apricots grown in designated counties in Washington, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), as the agency to administer the terms and provisions thereof:

(1) That the expenses that are reasonable and likely to be incurred by the Washington Apricot Marketing Committee during the period from April 1, 1967, through March 31, 1968, will amount to $3,646.

(2) That there be fixed, at $0.50 per ton of apricots, the rate of assessment payable by each handler in accordance with § 922.41 of the aforesaid marketing agreement and order.

All persons who desire to submit written data, views, or arguments in connection with the aforesaid proposals should file the same, in quadruplicate, with the Hearing Clerk, U.S. Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, not later than the 10th day after the publication of this notice in the FEDERAL REGISTER. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Dated July 14, 1967.

ARTHUR E. BROWNE,
Acting Director, Fruit and Vegetable Division, Consumer and Marketing Service.

[7 CFR Part 923]

SWEET CHERRIES GROWN IN WASHINGTON

Approval of Expenses and Fixing of Rate of Assessment for 1967–68 Fiscal Year

Consideration is being given to the following proposals submitted by the Washington Cherry Marketing Committee, established under the marketing agreement and Order No. 923 (7 CFR Part 923) regulating the handling of sweet cherries grown in designated counties in Washington, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), as the agency to administer the terms and provisions thereof:

(1) That expenses that are reasonable and likely to be incurred by said committee, during the period from April 1, 1967, through March 31, 1968, will amount to $12,484.

(2) That there be fixed, at $0.80 per ton of sweet cherries, the rate of assessment payable by each handler in accordance with § 923.41 of the aforesaid marketing agreement and order.

All persons who desire to submit written data, views, or arguments in connection with the aforesaid proposals should file the same, in quadruplicate, with the Hearing Clerk, U.S. Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, not later than the 10th day after the publication of this notice in the FEDERAL REGISTER. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Dated: July 14, 1967.

ARTHUR E. BROWNE,
Acting Director, Fruit and Vegetable Division, Consumer and Marketing Service.

[7 CFR Part 993]

[Docket No. AO 201-A6]

DRIED PRUNES PRODUCED IN CALIFORNIA

Notice of Recommended Decision and Opportunity To File Written Exceptions With Respect to Proposed Amendment of Marketing Agreement, as Amended, and Order, as Amended

Pursuant to the applicable rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the filing with the Hearing Clerk, U.S. Department of Agriculture, of this recommended decision with respect to the proposed amendment of the marketing agreement, as amended, and Order No. 993, as amended (7 CFR Part 993), regulating the handling of dried prunes produced in California (hereinafter collectively referred to as the "order"). The order is effective pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674), hereinafter referred to as the "act," and any amendment which may result from this proceeding also will be effective pursuant to the act.

Interested persons may file written exceptions to this recommended decision with the Hearing Clerk, U.S. Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, not later than the close of business on the 15th day after publication

of this recommended decision in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Preliminary statement. The public hearing on the record of which the proposed amendment is formulated was held in San Francisco, Calif., April 17 through 19, 1967. Notice of the hearing was published in the FEDERAL REGISTER on April 5, 1967 (32 F.R. 5856). The proposals in the notice of hearing were submitted by the Prune Administrative Committee (hereinafter referred to as the "committee"), the agency established pursuant to the order to administer the terms and provisions thereof.

Material issues. The material issues presented on the record of the hearing involve amendatory action relating to:

(1) The need and authority for allotment of the quantity of prunes which handlers may purchase from, or handle on behalf of, producers;

(2) The defining of the terms "prune plums," "handle," "handler," "salable prunes," "marketable quantity," "base quantity," "annual allotment," and "leaf";

(3) The modification of the committee's voting procedure to require at least 14 affirmative votes for committee decisions on producer allotments and the control or disposition of surplus prunes;

(4) The requiring of statements of the committee's financial operations with respect to surplus prunes;

(5) The authority to use the average size count of a lot as the basis for computing handler obligation to dispose of prunes with certain defects;

(6) The method for allotting the quantity of prunes which handlers may purchase from, or handle on behalf of, producers, and changes in marketing policy requirements;

(7) Provisions relating to surplus prunes and to transfers of producers' base quantities;

(8) The future termination of authority and methods for optional diversion of prune plums by producers; and

(9) The making of such changes in the order as are necessary to bring the entire order, as amended, into conformity with the amendatory action resulting from the hearing.

Findings and conclusions. The findings and conclusions on the aforementioned material issues, all of which are based on the evidence adduced at the hearing and the record thereof, are as follows:

(1) On August 6, 1965, the order was amended (30 F.R. 9797) to authorize volume control, including optional diversion of prune plums through voluntary acts by producers. Evidence adduced at the amendatory hearing, on the basis of which the volume control and optional diversion provisions are effective, was, in part, to the effect that in a particular year the estimated supply of prunes may be in excess of domestic and foreign trade demand and any carryover needs; that the need may then arise to dispose of a portion of the prunes in low-return, noncompetitive outlets such as for animal feed; and that in these circumstances, producers could make a net monetary saving by diverting excess prune plums instead of incurring the costs of harvesting and drying them and delivering the dried product to handlers for subsequent diversion (30 F.R. 6782, 8860). Thus, producers were given the optional opportunity, under certain conditions, to divert prune plums in lieu of delivering excess prunes to handlers.

However, the evidence adduced at the hearing in this 1967 amendatory proceeding is to the effect that means other than or additional to the optional diversion and other order provisions should be available for use in better effectuating the declared policy of the act. Increasing acreage and a gradual shifting of bearing acreage to higher yielding areas mean that California's annual prune production can be expected to average well above the 139,000 ton level of 1959 through 1963. The 1964 crop was almost 180,000 tons and prune production could go as high as 225,000 tons by 1970. The California prune industry does not have reason to believe, based on recent sales, that it can market the larger crops at favorable returns to producers. Hence, in view of the production outlook, the industry should not be required to rely solely on existing order provisions, including voluntary diversion and the possibility of long and short crops, to balance supply with demand. In view of the production potential, the voluntary option to control excessive supplies would be of limited value.

The prune industry should benefit by having authority to use producer allocations pursuant to section 8c(6)(B) of the act (7 U.S.C. 608c(6)(B)), and the industry should have opportunity to adopt such provisions. Pursuant to such authority, handlers would be limited in the quantity of prunes which they may purchase from, or handle on behalf of, producers. As hereinafter discussed, institution of such producer allocations would permit future termination of the voluntary producer diversion provisions (§ 993.62) of the order beginning with the first year in which base quantities are established. Thereafter, producers would be encouraged more directly to remove a potential unmanageable excess from the prune supply at the most economical points—in the orchard or on the ranch—before harvesting and drying costs are incurred in the production of such excess. At the same time, producers would not be precluded, if outlets can be developed, from using excess prune plums in fresh shipping, fresh juice or other outlets not involving dried prunes. Minimizing the potential size of a price-depressing dried prune surplus, providing for the control and disposition of such surplus as may eventuate, eliminating certain costs on surplus (e.g., harvesting, drying, and storing), and the aforesaid possibility of new outlets for prune plums, should tend to improve net returns to producers. Moreover, producer allotments would only need to remain in effect in those years when prune supplies exceed the marketable quantity. In other years, the producer allotments could be suspended for the crop year.

Concern was expressed at the hearing that application of the provisions of section 8c(6)(B) of the act to the California prune industry would short the supply, increase prices in export to such a degree that California prunes could no longer compete in export markets with lower priced foreign prunes, and thereby encourage additional prune production in foreign countries; that this could result in importation of low-priced prunes into the domestic market; that it would reduce competitive factors essential to a healthy and progressive domestic industry; and that research on development of new prune products would thereby be discouraged. However, the amendatory action recommended herein would not permit reduction of supplies below trade demand requirements nor cause, in view of liberal supplies, undue enhancement of price. The basic objective would be to maximize sales and hence farm income while so managing supply that any surplus can be effectively and readily controlled before it becomes a price-depressing factor on the market. Thus, the indicated consequences about which concern was expressed should not materialize as a result of producer allocations under the act.

There was also concern that the quality of prunes tendered by producers to handlers would average lower than otherwise if the proposed amendment were made effective. It was contended that producers would be constrained to deliver "windfalls" and other prunes of low quality during the preallotment period in an effort to build up base quantities. However, minimum standards of quality are established under the order for prunes to be received by handlers from producers and dehydrators. Furthermore, pursuant to the recommendation on Material Issue (6), the weight of foreign material and the weight of prunes with defects of mold, imbedded dirt, insect infestation or decay in excess of tolerances (in any lot received by a handler from a producer or dehydrator during the representative period) would not be credited to the producer's base quantity. Thus, indiscriminate deliveries of prunes, regardless of quality, would not benefit producers and could adversely affect their returns.

Concern was expressed, too, at the hearing that producer allocations would constitute acreage control. However, the basic effect of producer allocations would be to institute poundage allotments and establish producer eligibility for such allotments. Such a plan does not deal with production or acreage controls per se. The act specifically provides for limiting the quantity which handlers may purchase from, or handle on behalf of, producers on the basis of quantities which producers have sold in a representative period. This authorization is the basis of the recommended amendatory action and provision is made to cause prunes in excess of the allotted quantity to be surplus and to be disposed of by the committee or the producer.

Concern was also expressed that allotting the quantity of prunes which handlers may purchase from, or handle on behalf of, producers would cause decreased plantings of prunes and increased plantings of other tree crops, particularly peaches and pears. However, this presumes that a situation wherein a producer needs an allotment to market his prunes as compared with one wherein there are excess prune supplies and depressed prune field prices, will cause a materially different response in the use of additional acreage for prunes. It presumes that allotments will curtail use of additional acreage for prunes but depressed prices will not. The latter would appear to be true only to the extent that real estate speculators plant young trees only for the purpose of land value enhancement and with little or no regard for the salability of the commodity. The agricultural producer would tend to plant in terms of expectations as to prices for the commodity. Hence, it is difficult to conclude that over the long run an allotment program will cause a materially different usage of land than will an unregulated situation which results in excess supplies and low prices. The use of land for tree crops other than prunes can be expected to be in response to their respective prices and demands which often encompass fresh shipment, canning, freezing or drying as compared with California prune plums which basically go to drying, there now being no alternative outlet of significance.

(2) A new section, § 993.4a, should be added to the order to define the term "prune plums" to mean those varieties of plums grown in the area for drying or dehydrating and which are covered by §§ 993.6 and 993.7 (the definitions of Non-French prunes and French prunes). The term "prune plums" identifies the fruit from which prunes are produced, and distinguishes between (a) plums for sun-drying or dehydrating into prunes from plums not suitable for sun-drying or dehydrating into prunes, (b) prune plum trees from other plum trees, (c) producers of prune plums and producers of other plums, and (d) a prune plum producer and a dehydrator, especially where both are not one and the same person. The term is used in connection with provisions hereinafter set forth relative to producer allotments. Although the order regulates the handling of prunes, the dried product of prune plum varieties, base quantities established under the allotment provisions should be assigned, as discussed in Material Issue (6), to the producers of prune plums which became prunes.

Consistent with new § 993.4a defining the term "prune plums," conforming changes should be made in § 993.5, which defines "prunes," § 993.6, which defines "Non-French prunes," § 993.7, which defines "French prunes," § 993.15, which defines "dehydrator," and § 993.16, which defines "producer," by changing "plums" to read "prune plums". The term "prune plums" currently is defined in § 993.62(a) for use in connection with the voluntary producer diversion provisions. In view of new § 994.3a, which provides a new definition of "prune plums" the definition of "prune plums" in § 993.62(a) will no longer be needed and should be deleted.

The definition of "handle" should be revised by inserting a comma after "or in any other way to place prunes" and inserting immediately thereafter the phrase "including surplus prunes", so that performance of any of the acts specified in § 993.13 with respect to any prunes, including surplus prunes, would constitute handling. To enable the committee to administer the allotment control provisions and prevent unauthorized dispositions of surplus prunes, it is necessary that persons, including producers and dehydrators, who dispose of surplus prunes other than pursuant to § 993.46, as hereinafter set forth, and thereby exercise a handling function, should be defined as handlers with respect to such dispositions. Pursuant to paragraph (a) of § 993.46, any producer or dehydrator selling or delivering surplus prunes to other than the committee or its designees or to a producer satisfying a deficiency as provided in that paragraph, is a handler relative to such transaction. Therefore, ", except as provided in § 993.46(a)," should be inserted after "*Provided*, That" in § 993.13. Thus, the proviso, which excludes certain actions by producers and dehydrators from the definition of "handle" would not override acts which are handling pursuant to § 993.46(a).

A further change should be made in § 993.13 by inserting a comma after the phrase "in the current of the commerce within the area", and revising the balance of the definition before the proviso to read "from within the area to any point outside thereof, or from any point outside the area to any other point:". This change should be made so that anyone in the United States who handles prunes produced from prune plums grown in California, regardless of where the prune plums are dried, would be a handler. The present definition limits application of the order regulations to handlers in California. Any person in California, unless he is specifically exempted by the definition, who places prunes produced from prune plums grown in California in the current of commerce, is a handler. Thus, any producer or dehydrator who sells or delivers prunes to anyone other than a producer, dehydrator, or handler within California is a handler subject to all requirements of the order. For example, if a producer or dehydrator sells or delivers prunes to a person outside the area, the producer is a handler because he placed such prunes into the current of commerce. The commodity regulated under the order is "prunes," made from "prune plums." If prune plums are transported from the area by the producer or a buyer of the prune plums, neither person would be a handler. However, if the prune plums are dried or dehydrated into prunes outside the area, the person selling or otherwise handling such prunes should be a handler. This should be to prevent producers and other persons from circumventing the producer allotment provisions whenever annual allotments are in effect by removing prune plums from the area, drying them, and introducing the prunes into the current of commerce without restriction. By making persons outside the area placing the prunes in the current of commerce handlers of such prunes, effective regulation under producer allotment provisions would tend to be assured.

The word "transfers" should be inserted in § 993.13(c) before the phrase "pursuant to § 993.50(f)" to better describe the particular provisions of § 993.50(f) that are involved.

The term "handler," defined in § 993.14, should be revised to mean any person inside or outside of the area who handles prunes. This change would make it clear that persons outside the area, as well as those within the area, would be subject to the regulatory program as handlers.

The term "salable prunes," defined in § 993.21c, should be revised to mean prunes which are free to be handled pursuant to producer allotments and any salable percentage established by the Secretary. The term is currently defined for use in connection with the volume regulation and assessment provisions of the order. The revised term should be sufficiently flexible for application under the producer allotment provisions in situations, such as either of the following four regulatory conditions, that could prevail during a crop year: (a) Producer allotments with a salable percentage and a reserve pool; (b) no producer allotments, a salable percentage, and a reserve pool; (c) no producer allotments, all receipts salable, and no reserve pool; or (d) producer allotments, all receipts salable, and no reserve pool. Hence, prunes purchased by handlers from producers or dehydrators during a crop year would be comprised of "salable prunes" or both "salable prunes" and "reserve prunes," except, of course, for the exclusion of the weight obligation required by § 993.49(c).

This revision would eliminate an inconsistency in the applicability of the assessment provisions of the order. Pursuant to § 993.81 assessments are required of each handler on the basis of all salable prunes handled by him as the first handler thereof. Whenever volume regulations were in effect, "salable prunes" referred to those free to be handled pursuant to any salable percentage established by the Secretary. By operation of § 993.54, any weight obligation incurred pursuant of § 993.49(c) was excluded from the quantity of salable prunes. However, when a reserve percentage of zero was established for a crop year, "salable prunes" comprised all prunes received by a handler from producers and dehydrators during that year, including the weight obligation pursuant to § 993.49(c). As hereinafter set forth, the term "salable prunes" excludes such weight obligation and thus provides for uniform application of the assessment provisions.

A new section, § 993.21e, should be added to the order to define the term "marketable quantity" to mean the

quantity of prunes constituting the total of all producer annual allotments and adequate to meet the estimated total trade demand of a crop year, permit desirable adjustments in carryover, and provide, if deemed desirable, a reserve against a possible short crop in the subsequent crop year. The marketable quantity for a crop year is to be considered by the committee in adopting a marketing policy and in computing the allotment percentage for that crop year pursuant to § 993.44, as hereinafter set forth. The marketable quantity would be the target quantity of prunes of any crop receivable by handlers from producers and dehydrators during a crop year when producer allotments are in effect and, in such crop year, would be the quantity against which salable and reserve percentages would be applied. When producer allotments are in effect, the excess would be surplus prunes.

A new section, § 993.21f, should be added to the order to define the term "base quantity" to mean the number of pounds of prunes, expressed as tons, established by the committee pursuant to § 993.44 for a producer. Another new section, § 993.21g, should be added to the order to define the term "annual allotment" to mean, for a crop year and for each producer, the number of pounds of prunes expressed as tons, determined by multiplying the producer's base quantity by the allotment percentage. These terms are needed for use in connection with producer allotments.

A new section, § 993.21h, should be added to the order to define the term "leaf" to mean the age, in years, of a budded or grafted prune plum variety of tree, with the first leaf (i.e. first year) commencing in the crop year in which the tree is permanently planted and produces leaves. This term should be so defined for use in computing base quantities with respect to immature trees, and in adjusting the annual allotment of a producer with immature trees to reflect reduced productive capacity of those trees.

(3) The proviso in the first sentence of § 993.33 *Voting procedure*, should be revised by inserting "producer allotments," after "pack specifications," and inserting "of surplus prunes," after "control or disposition". The effect of this revision is to require that committee decisions on producer allotments and matters pertaining to control or disposition of surplus prunes be made by at least 14 affirmative votes (two-thirds of the 21-member committee). Without the revision, decisions on these matters, pursuant to § 993.33, would be by a majority of the members present and voting so long as the requisite quorum of 12 is present. However, 14 affirmative votes are now required for committee decisions on other important matters such as marketing policy, grade or size regulations, salable and reserve percentages, and the control or disposition of reserve prunes. This same voting requirement should be applied to committee decisions on allotment controls and the control and disposition of surplus prunes because decisions on these matters could have as significant an economic impact on the prune industry as do the committee decisions on the matters already requiring 14 affirmative votes.

(4) Paragraph (1) of § 993.36 *Duties*, should be revised to require the committee to prepare and submit to the Secretary annually, as soon as practicable after the end of each applicable crop year and at such other times as the committee may deem appropriate or the Secretary may request, a statement of the committee's financial operations with respect to surplus prunes for such crop year, as well as a statement of the committee's financial operations with respect to reserve prunes for such crop year, and to make such statements available at the offices of the committee for inspection by producers, dehydrators, and handlers. Establishment of producer allotments could result in establishment of a surplus pool whenever an allotment percentage and annual allotments are effective for a crop year. In line with sound financial practice, the current duty of the committee with respect to its financial operations on reserve prunes should also apply to statements of the committee's financial operations on surplus prunes. Dispositions of surplus prunes may not occur with regularity and proceeds from such disposition could be received by the committee at various times. Therefore, monthly financial statements would be of little value, especially during the initial months of a crop year before disposition of any surplus prunes has been made. So that monthly financial statements will not be required under the general language of § 993.36(h) of the order, paragraph (h) should be amended by inserting "surplus prunes and" immediately after "exclusive of".

(5) It was proposed that the second sentence of paragraph (c) of § 993.49 *Incoming regulation*, be amended to permit the determination of occurrence of defective prunes by size ranges to be based on the distribution of sizes in the lot as determined by the inspection service. The record shows that there is no significant difference between such a determination based on a size count of the defective prunes and a size count of all prunes in the lot. Therefore, it should not be necessary to continue to require the use of two samples and two analyses as currently provided in the applicable rules and regulations (§ 993.149). It would be practical to accept the size count of the lot for the purposes of § 993.49(c), and this may be permitted by an appropriate revision of such rules and regulations. Therefore, the proposal may be effectuated without revision of the order.

(6) In the light of the recommendations with respect to Material Issue (1), the addition to the order of authority to permit allotment of the quantity of prunes which handlers may purchase from, or handle on behalf of, producers during a crop year, § 993.41 *Marketing policy*, should be revised so as to set forth the estimates and recommendations which need to be made by the committee in its marketing policy deliberations. Therefore, paragraph (a) of the section should be revised so as to provide that on or before the fourth Tuesday of the February preceding the first crop year of allotments, and of subsequent Februarys, the committee shall prepare and submit to the Secretary a report setting forth its recommended marketing policy for the ensuing crop year, except that in the first year it may be later. Allocations among producers of any marketable quantity would not be made before a four-year period, as hereinafter discussed, has elapsed and hence could not begin prior to February 1971. The committee should meet to consider various factors needed in making such allocations, including factors of supply and demand, and to recommend the marketable quantity and allotment percentage for determination and establishment by the Secretary for the ensuing crop year. Submission of the marketing policy report by the fourth Tuesday in February would permit timely issuance of annual allotments to producers so as to allow them to adjust their cultural practices in view of the tons of prunes allotted to them for the ensuing crop year. However, all of the data needed for computation of base quantities may not be available by February preceding the first crop year of allotments. Hence, in the first year the committee should be permitted additional time to submit its report.

The February marketing policy report for the ensuing crop year should include an estimate of the likely carryover of salable prunes as of the beginning (August 1) of such crop year, an estimate of the domestic trade demand by uses of prunes, an estimate of the foreign trade demand by countries or groups of countries, and an estimate of the desirable carryout of salable prunes at the end of the ensuing crop year. These estimates are required in present § 993.41 by July but for allotment purposes they are needed earlier for use in computing the marketable quantity for that crop year. Such quantity should include, when deemed necessary, a quantity of prunes in excess of such crop year's requirements as may be needed to protect against a possible short crop in the subsequent crop year, and hence such an estimate should be included in the report of the committee.

The foregoing estimates comprise the factors needed by the committee in computing, and recommending to the Secretary, the marketable quantity of prunes. However, for any year such quantity may need to be adjusted because the committee, pursuant to § 993.45(b) as hereinafter recommended, is required to reduce annual allotments of producers unable to fill them due to inadequate productive capacity. The adjustment in marketable quantity should also be estimated for use by the committee in recommending the allotment percentage.

The report should contain the recommended allotment percentage for the ensuing crop year, computed by adding the sum of estimated reductions in annual allotments to the marketable quantity and dividing the total by the total of all base quantities. It is visualized that the allotment percentage would be computed as follows: Assume for illustrative purposes only that the marketable quantity is estimated at 200,000 tons and the total of all base quantities is 250,000 tons. Dividing the marketable quantity (200,000 tons) by the total of all base quantities (250,000 tons) would equal 0.80 or 80 percent. If base quantities on the mature orchards total 220,000 tons and the allotment percentage of 80 percent is applied, the total annual allotments with respect to those base quantities would be 176,000 tons. Assume further that annual allotments with respect to the remaining base quantities (30,000 tons) are subject to reduction averaging one-half of the allotment percentage, because of reduced productive capacity, and would release only 12,000 tons. The total annual allotments of 188,000 tons (176,000+12,000) are 12,000 tons less than the marketable quantity. However, this is correctable by the committee estimating the deficit, adding it to the marketable quantity (200,000 tons) and dividing the total (212,000 tons) by the total of all base quantities (250,000 tons) for a result of about 0.85 or 85 percent. Applying this percentage to the total base quantities (220,000 tons) relative to mature orchards would result in total annual allotments with respect to those base quantities of 187,000 tons. Applying one-half of this percentage to the remaining base quantities would result in annual allotments on these totaling 12,750 tons. The total of all annual allotments would be 199,750 tons (188,000 tons+12,750). It is recognized that the minor difference in the amount so computed and allotted, relative to the objective quantity of 200,000 tons, would be corrected by a slight overestimation of the 200,000 tons marketable quantity.

Since the committee would have little or no information at its February meeting as to the size of the forthcoming prune crop, a recommendation as to salable and reserve percentages for the ensuing crop year would be premature. However, if deemed desirable for market stability, the committee could estimate and include in its report, the maximum quantity of prunes that should be made available to handlers as salable prunes from the new crop. This estimate would serve to advise the industry of the quantity of salable prunes to be made available and that any quantity in excess would be subject to being withheld as reserve tonnage.

The report should also include other factors as may have a bearing on the marketing of prunes or the administration of the regulatory program. Some such factors are: Shipments during the crop year up to the time of the February marketing policy meeting, with projections to August 1; the trend and level of consumer demand; information that may influence foreign demand, such as the opening of new markets for prunes; relaxation or tightening of trade barriers, trends in competition, both in foreign countries and in domestic trade outlets; and information concerning the administration of the program.

Conforming changes should be made in paragraph (b) of § 993.41 so as to provide that in July, the committee shall convene for the purpose of recommending, and beginning with the first year of allotments, reviewing and modifying, if necessary, its recommendations as to marketing policy for the ensuing crop year. Paragraph (b) should continue the present requirement that a marketing policy report be submitted to the Secretary before the fourth Tuesday of July. Paragraph (b) would thus serve a twofold purpose. Prior to the first year of allotments, it would provide the basis for the committee's marketing policy deliberations and reports for the ensuing crop year. Beginning with the first year of allotments, paragraph (b) would require the committee to review, and modify if necessary, its February recommendations. For example, the committee would have information on which to estimate the size and quality of the new crop, the need to recommend establishment of salable and reserve percentages, and beginning with the first year of allotments, whether it needs to recommend suspension of the allotment percentage and annual allotments established on the basis of its February marketing policy. Because of this twofold purpose, paragraph (b) should direct the committee to consider and include in its report certain estimates and recommendations, including the four estimates prescribed in paragraph (a) of § 993.41, as hereinafter set forth; namely, the likely carryover of salable prunes as of August 1, the domestic trade demand in the ensuing crop year by uses of prunes, the foreign trade demand in the ensuing crop year by countries or groups of countries, and the desirable carryout of salable prunes at the end of the ensuing crop year. Except as hereinafter provided, items which should be continued in paragraph (b) are currently required to be considered by the committee and included in its marketing policy report. However, for effective administration of the program, certain additional items should be included, and certain modifications should be made.

Beginning in the first year of allotments, the report should include estimates of the production of prunes with allotments and without allotments. Such estimates would provide the committee with a basis for recommending retention or suspension of the annual allotments.

The committee currently is required to consider, and include in its report, an estimate of the probable quality and prune sizes in the crop. This should be changed to require only an estimate of the quality of the prunes in the crop. Previous estimates, at marketing policy meetings, of prune sizes in the pending crop have proven unreliable and of little value.

The committee also is required currently to consider and report the quantity of prunes, dried weight basis, deemed desirable to be diverted pursuant to § 993.62. This should be changed to require the committee to report its estimate of the quantity of prune plums, dried weight basis, likely to be disposed of by diversion or as surplus. This change should be made to provide an estimate of the prune plums, dried weight basis, that may be diverted, pursuant to § 993.62, each year before the first year of allotments. Pursuant to that section, prune plums may be left unharvested or disposed of for non-human consumption. Beginning with the first such allotment year, this estimate should be of the quantity of surplus prunes subject to § 993.46, as hereinafter set forth. This estimate would be helpful to producers and the committee in developing plans for disposition of surplus prunes.

Beginning with the first year of allotments, the committee should include in its July consideration and report any recommendation on suspension of the allotment percentage and annual allotments. Such suspension could be recommended as a result of a modification of the committee's February marketing policy and should be founded basically on information concerning the size of the crop. For example, if the July estimate of the prune crop is significantly less than the total marketable quantity, the allotment percentage and the annual allotments may be suspended by the Secretary to assure maximum availability of prune supplies for handling.

Salable and reserve percentages would be applied in the same manner as now provided in the order except that in years when annual allotments are in effect they should apply to the total of such allotments in lieu of the production delivered to handlers.

A new paragraph (c) should be added to retain the provisions in current § 993.41(a) requiring the committee to modify its marketing policy if it becomes advisable at any time because of changed demand, supply, or other conditions and requiring it to submit a report thereon to the Secretary. Also, notice of the committee's marketing policy, and of any modifications thereof, should continue to be given promptly by reasonable publicity to producers, dehydrators, and handlers. The modification requirement is basically applicable to the July marketing policy as conditions affecting the February marketing policy would have been recognized and considered at the July meeting.

In order to enable the committee to collect data to establish base quantities, and issue annual allotments thereon, a new section, § 993.43 *Preliminary regulation*, should be added to the order. It should provide that beginning with the 1967–68 crop year, or such later year as the committee may recommend and the Secretary establish, and until a representative period has been established, no handler shall handle as the first handler thereof, prunes delivered to him until he has determined the identity of each producer of the prune plums which were dried or dehydrated and so delivered, the county of production, and the quantity of prunes attributable to each such producer. The new section should further require that the handler shall furnish such information to the committee at such times and in such form as the committee

may request. These requirements would provide information needed to identify the persons eligible for base quantities and to determine the respective amounts thereof. The committee must depend upon the handlers to obtain this information, beginning with the first year of the possible representative period, because they have direct contacts with the producers and dehydrators who deliver the prunes. The committee should furnish all handlers with the necessary forms to be used so that the information it needs and obtains will be furnished in a uniform and usable manner.

It is essential for the committee to have the most accurate sales data possible for the establishment and assignment of fair and equitable base quantities to producers (i.e. persons engaged, in a proprietary capacity, in growing prune plums for drying or dehydrating into prunes). Therefore, the section should also provide that all quantities of prunes attributable to each producer shall be based on weights determined by Public Weighmasters, either total graded weight or delivered weight, and shall be the net prune weight exclusive of foreign material and the weight obligation of § 993.49 (c). This recognizes normal receiving operations of handlers. Some handlers determine prune weight after size grading and others before. The program need not require handlers to change these operations. Consistent with the objective of obtaining accurate sales data, foreign material contained in prune deliveries and inedible quality prunes in excess of tolerances for which a handler incurs a weight obligation pursuant to § 993.49(c) should not be credited to a producer's prune weight in computing his base quantity. In the absence of such prohibition, it was testified at the hearing, some producers would, during the preallotment period, in an effort to inflate their base quantities, deliver foreign material and defective prunes that would normally be discarded or not disposed of for human consumption. To the extent necessary to assure accuracy of handler information so furnished to the committee, the committee should audit handlers' records to determine whether their records confirm the documentation submitted to the committee as to the handler's receipts of prunes from producers and dehydrators.

So that producers may qualify for base quantities pursuant to § 993.44, § 993.43 should require the committee to furnish annually, early in each calendar year, to each producer of record a form to be filed with the committee whereon the producer reports the location of his orchard(s), the acreage he intends to harvest for prunes, the maturity of the trees, and such other information the committee needs to establish a base quantity for such producer. This information should be submitted to the committee by producers themselves as the committee will need direct contact with them to have knowledge of their productive capacities for administration of the allotment provisions.

A new section, § 993.44 *Base quantities*, should be added to the order providing that if the Secretary finds that the 1967–68 through 1970–71 crop years, or a period beginning one or more year(s) later than 1967–68, but not less than a 3-year period, constitute a representative period in terms of production of prunes for market and the consequent producer sales, a base quantity shall be established for each producer entitled thereto. That section should also provide that each such base quantity shall be in an amount equal to either (a) the total sales of prunes referable to the producer, credited as net prune weight pursuant to § 993.43, plus the weight shown on diversion certificates pursuant to § 993.62, during the representative period divided by the number of years in the period, or (b) the amount determined pursuant to other applicable provisions of § 993.44 relating to adjustments for immature prune plum trees or rotation (i.e., replacement of old trees with young trees). A 3- or 4-year period provides a means of averaging large and small crops and is deemed sufficiently long to permit each grower to attain a reasonably good average. Each producer should be required to use all years of the period for his base so there would be no transfer of fruit among producers in an effort to obtain bases unrelated to sales of their production. In other words, a producer should not be permitted to have the best years of the representative period, as this would mean that when the producer had a good base, he might transfer a portion of his prunes of the next crop to another producer to improve such producer's base. This would have such adverse effects as inflating the total of all base quantities and causing them to be inconsistent with total productive capacity.

The proposals published in the notice prescribed the 1967–68 through 1970–71 crop years as the 4-year period to which the Secretary should address himself in his finding as to a representative period. At the hearing, concern was expressed about possible damage to the 1967 crop, from inclement weather in the spring, and the possible adverse effect on producer's base quantities. It was, therefore, proposed that the Secretary be authorized to find that a shorter period within those four years would constitute a representative period. However, an unlimited lesser period could be 1, 2, or 3 years and it would be undesirable, in view of the effect of crop fluctuations on base quantities, to use less than a 3-year period. It would endanger the basic objective of a period sufficiently long to assure each producer a reasonably good average base quantity. Hence, there is good reason for a 4-year representative period, but retaining at least a 3-year period. However, should it be impossible to obtain data for the 1967 crop or should a further crop year be unsuitable for inclusion in the representative period, a period beginning later than 1967–68 should be used.

As previously discussed, computation of a producer's base quantity should not include foreign material or the weight obligation pursuant to § 993.49(c). However, net prune weight shown on diversion certificates during the representative period should be regarded the same as sales to handlers and included in the computation of the diverting producer's base quantity. Otherwise, in a year of excessive prune plum production during the representative period, prior to the establishment of allotments, producers would have no alternative but to dry all prune plums and sell and deliver the prunes to handlers in order to establish maximum credit for computation and assignment of their base quantities. This would create unnecessary problems of storage and disposition for handlers and for the committee. Moreover, it would also cause the producers to incur unnecessary harvesting, drying, and delivering costs which present § 993.62 was designed to avoid.

During the representative period, producers with immature prune plum orchards planted by the effective date of the section, or who rotate a bearing orchard to younger trees, would have sales not representative of the sales level of mature trees. Therefore, to enable such producers to have annual allotments reasonably comparable to those of producers with mature trees, § 993.44 should specify how a base quantity is determined for a producer who has immature prune plum trees, in 9th leaf or younger, permanently planted as of the effective date of that section, or is rotating his bearing acreage to younger trees in the same or different locality.

In order to achieve the benefits that may accrue from a producer allotment program and to permit the establishment of a representative period, it is necessary to establish a cutoff point after which any new plantings, other than rotations, should not entitle the person with such plantings to a base quantity thereon. In the circumstances of this program, the cutoff point appropriately should be the effective date of such program so as to avoid the possibility of inflated base quantities, as such would not tend to effectuate the declared policy of the act. Therefore, only producers with permanently planted prune plum trees as of the effective date of the section should be eligible for a base quantity. As hereinafter provided, a producer means any person who is engaged, in a proprietary capacity, in growing prune plums for drying or dehydrating into prunes. For basic eligibility, other than that discussed hereinafter, a person must be so engaged when the section first becomes effective. The base quantity of the producer with eligible immature trees, a block of acreage not containing mature trees, should be established by applying to such acreage the average sales per acre in the representative period of the mature acreage of the producer or that in base quantities for other mature acreage, both in the locality.

If neither is applicable, that of the most representative comparable locality should be used. Applicability thus would

be determined as whichever is more representative of the mature sales level of the immature acreage. Thus, the producer would have an appropriate base without the possibility of undue enhancement of quantity which might result from using current availability or other criteria not subject to limitation. No consideration is to be given, according to the evidence of record, to individual immature trees which have been planted to replace dead, diseased, or missing trees in acreage of mature trees.

The issue of rotation, i.e., the replacement of old trees with young trees on portions or all of a producer's acreage and the adverse effect this has on base quantities, can be satisfied by two approaches: (1) If there is no change of location nor increase of acreage, by applying to the rotated acreage the same determinations as the foregoing on immature trees except that acreage rotated after the effective date of the section should not be a means of obtaining an increase in a producer's base quantity; (2) if there is a change of location, the same principles should apply, i.e., if planted by the effective date of the section the acreage should be treated as immature acreage and if planted thereafter, no increase in the base quantity should be permitted. Only in this way would reasonable equity of allotment be maintained between the small proportion of producers with immature acreage, due to rotation or otherwise, and the large proportion of producer farming mature acreage throughout the representative period. In the event there is expansion of acreage in the course of rotation, the expansion portion should be considered new plantings, not rotation, and should qualify for a base quantity only if permanently planted prior to the effective date of the section. It could, of course, be the productive capacity for a transfer of allotment, as set forth hereinafter. Also, denser planting of trees, without removal of mature trees, should not be considered rotation but interplanting and the hearing evidence does not justify any adjustment of base quantity due to immature trees classified as interplanting.

New § 993.44 should also provide that the committee shall, in accordance with the previous requirements set forth in that section, and based on handler reports, producer's certifications and other information, establish, for use beginning with the first crop year after the representative period, each producer's base quantity and shall, except as hereinafter provided, assign such base quantity to such producer. However, it should be provided that the right of each producer or his legal successor in interest to the base quantity, to receive or retain all or part of such base quantity shall be dependent on his continuing to be a producer and to make a bona fide effort to produce his annual allotment, and failing to do so for three consecutive allotment years, such base quantity shall be reduced by the committee by a percentage equivalent to the unproduced portion of his annual allotment. However, to avoid possible inequities arising from acts of God or other excusable situations, the committee, with the approval of the Secretary, should have authority to waive this requirement for good cause.

A producer who ceases to be a producer prior to establishment of base quantities should not be issued a base quantity. If there is no producer successor in interest in the producing property, e.g., the land was sold for housing or other usage, the base quantity could be held by the committee and the producer given opportunity to resume operations within a reasonable time. Three years should be considered reasonable, according to the evidence of record, as a lesser period would hardly permit acquisition of land, its preparation and planting.

If a producer removes or disposes of bearing acreage, thereby reducing his productive capacity, or fails to harvest prune plums, to the extent that he fails to fill his annual allotments for three consecutive allotments years, his assigned base quantity should be reduced as aforesaid to avoid causing the total of all base quantities to be inconsistent with productive capacity. Again, a period of 3 years would be adequate to permit the producer to transfer the unused base quantity to another producer capable of using it, or to replant.

In the interest of a sound, workable program and one that can meet the needs of future supply and demand situations for prunes, new § 993.44 should also provide that each year after allotments begin the committee shall consider the need for granting, and if appropriate grant, with the approval of the Secretary, additional base quantities, to either a new producer or an existing producer, for such purposes as satisfying the demand for one or more varieties, or adjusting the total of all base quantities to the trade demand. It is expected that the committee's review generally would occur prior to or at its February marketing policy meeting. Additional base quantities could thus be granted to the extent that their need can be demonstrated, keeping in mind the productive capacity of producers at full maturity of their orchards. Additional base quantities should not be granted merely to accommodate a temporary situation of inadequate supply.

The evidence of record is that a review board of committee members may be desirable to resolve issues of additional base quantities as well as original issuance. Such a board is not precluded by the provisions of this regulatory program but specific provision for one is not made as it would be essentially a subcommittee of the committee and within the prerogative of the committee to establish.

A new section, § 993.45 *Marketable quantity, allotment percentage, and annual allotments*, should be added to the order providing that beginning with the calendar year in which base quantities are first established for producers, and annually each calendar year thereafter if the Secretary finds, on the basis of the committee's recommendation or other information, that limiting the quantity of prunes that handlers may purchase from, or handle on behalf of, producers during the ensuing crop year would tend to effectuate the declared policy of the act, he shall determine the marketable quantity and establish an allotment percentage for such crop year. It should provide further that the allotment percentage shall be determined by dividing the marketable quantity plus the estimate described in § 993.41(a)(7) by the total of all producer base quantities determined pursuant to § 993.44, which may be an estimated total for the first crop year of allotments. These provisions are required to provide a satisfactory procedure for allotting the quantity of prunes that handlers may purchase from or handle on behalf of producers—namely, the marketable quantity which would approximate the sum of all annual allotments issued to producers for a given crop year. The total of all producer base quantities used in computing the allotment percentage for the first crop year of allotments may need to be an estimated total due to the possible time lag in the first year of establishing base quantities and the desirability of issuing annual allotments for the ensuing crop year as early as possible to permit producers to plan accordingly.

For effective regulation and to prevent unauthorized handling of prunes in excess of the marketable quantity, the new section should provide that no handler shall purchase or handle on behalf of any producer prunes not within such producer's annual allotment, except as permitted by the regulatory program.

So as to permit the avoidance of regulation when not needed, new § 993.45 should provide that based on a recommendation of the committee pursuant to § 993.41(b) or other information, the Secretary may suspend the allotment percentage applicable to any crop year and producers' annual allotments. Generally, any suspension would be made on the basis of the committee's July marketing policy report, but later suspensions should be permitted if it subsequently developed that all prunes in the crop were needed for orderly marketing. Whenever such suspensions are effective, handlers would be permitted to purchase prunes from all producers, including any to whom no base quantities were assigned.

The section should also provide that upon determination of the marketable quantity and establishment of an allotment percentage by the Secretary for an ensuing crop year, the committee shall issue to each producer an annual allotment for such ensuing crop year computed, except as hereinafter provided, by applying the allotment percentage established pursuant to this section to the producer's base quantity. This would be the basic determination whereby the total quantity of prunes which handlers may purchase from, or handle on behalf of, producers during that year will be apportioned equitably among producers.

So that allotments are issued only to producers currently producing and to recognize their productive capacity, the section should further provide that such issuance shall be conditioned upon the

producer filing with the committee, within a specified time, a form furnished by the committee whereon the producer states at least where he intends to produce his annual allotment, the acreage he intends to harvest, the maturity of the trees, changes of location, if any, and such other information as is necessary to administer the allotment provisions. Where a producer indicates that due to acreage, immature age of trees or other cause, he will be unable to produce his computed annual allotment, the committee should be required to reduce the annual allotment it issues (to that producer) so as to reflect productive capacity. This should be by applying an appropriate portion of the allotment percentage to the producer's base quantity. The committee should be authorized, with the approval of the Secretary, to establish a schedule of reductions for ages of immature trees or other factors of production. The schedule would aid the committee in reducing annual allotment on like bases in like situations.

As discussed previously, a producer failing to produce his annual allotment has a 3-year period of grace before the base quantity is adjusted because of his failure to make a bona fide effort to produce his annual allotment. During those 3 years, the base quantity would remain at the figure at which it was originally established, but the producer's annual allotment, if any, should be reduced to reflect the reduction in his productive capacity. In recommending the allotment percentage each year, the inability of any producers to produce their annual allotments based on their mature base quantities should be taken into consideration by the committee. The yearly application by the producers would provide the committee with information to make the estimation, for use with the method previously discussed, for the adjustment necessary in the allotment percentage in order to achieve the desired marketable quantity.

New § 993.45 should also provide that, except as provided in § 993.47, no handler, producer, or other person shall be the assignee or transferee of an annual allotment, or portion thereof, except that a person other than a handler may deliver prunes in the stead of the producer holding the allotment but no handler shall receive prunes from such other person except to the extent authorized by the committee. Allowing assignments or transfers of annual allotments would encourage speculation and could thwart the objective of orderly marketing, particularly where the assignment or transfer is the deficit portion of an annual allotment and a handler uses it to obtain surplus prunes from another producer at much less than prevailing field prices. However, there should be means to permit the normal and accepted methods of moving prune plums and prunes from harvest through the various steps that traditionally have been taken to enter them in the current of commerce: for example, from producer to dehydrator to handler. Therefore, while not recognizing assignments or transfers of annual allotments, the committee should permit the prune plum producer to have another person deliver in his stead prunes produced from his prune plums. The committee should maintain controls on such an arrangement to be sure that the transaction does not bypass the prohibition and bring unfavorable results. Hence, the handler receipts permitted by the exception should be only those authorized by the committee.

New § 993.45 should also require that when an allotment percentage is in effect the weight of all prunes shall be based on weights determined by Public Weighmasters. A Public Weighmaster's certificate should be issued to cover every lot of prunes delivered to a handler and to be handled by him. Since an annual allotment is a weight of prunes, it is obviously necessary to prescribe a means for determining the prune weight.

The section should require that any weight obligation pursuant to § 993.49 (c) shall not be a part of the producer's annual allotment. Whenever a lot of prunes is inspected pursuant to the quality requirements of the program, a determination is made whether it contains prunes with defects of mold, imbedded dirt, insect infestation and decay in excess of tolerances. Any quantity of prunes with such defects necessary to be removed from the lot so that the balance of the lot would be within the tolerances is determined, and the handler is required to dispose of a like quantity of prunes affected by such defects in nonhuman consumption outlets. Such prunes do not become part of the salable supply and therefore should not be part of the producer's annual allotment.

(7) To enable the industry to control and dispose of prunes in excess of producers' annual allotments and carry out the objectives of the producer allotment provisions, a new section, § 993.46 *Surplus prunes*, should be added to the order. That section should provide that prunes that are in excess of an effective individual producer annual allotment or the total of such annual allotments to members, delivered pursuant to membership contracts, of a cooperative marketing association, shall be surplus prunes. Prior to January 15 of the crop year, producers of such prunes should be permitted to sell or transfer them to producers capable of using them to satisfy a deficiency of production relative to their annual allotments. As a means of preventing surplus prunes from entering unauthorized outlets, § 993.46 should also provide that no handler shall handle surplus prunes except that any handler who is a packer shall be a designee of the committee, under such conditions as it shall specify as to holding and delivery obligations, with the approval of the Secretary, to receive and hold surplus for the account of the committee. As a further means of controlling surplus prunes, that section should also provide that any producer or dehydrator selling or delivering surplus prunes to other than the committee or its designees or to a producer satisfying a deficiency, shall be a handler relative to such transaction. However, since surplus prunes of a producer's own production do not enter trade channels while on his premises, there should be no restriction on a producer's use of surplus prunes in his own farming operation. Therefore, § 993.46 should also provide that any producer may dispose of surplus prunes of his own production within his own livestock feeding operation or other farming operation and, prior to or after January 15, such prunes may be delivered to the committee or its designees for inclusion in the surplus pool.

Any prunes in excess of an individual producer's annual allotment should be surplus prunes. However, a cooperative marketing association should be permitted, in view of its structure, the provisions of its membership contracts, and its operating as a single producer under the program, to concentrate prunes delivered pursuant to such contracts, and any prunes in excess of the total of such annual allotments to members of the association should be surplus prunes.

It is likely that some producers will have production in excess of their annual allotments while others may not be able to produce enough. So that the industry's marketable quantity may be filled as nearly as practicable, producers of surplus prunes should be permitted to sell or transfer them to producers in an amount necessary to fill a deficiency of production relative to an annual allotment. Since surplus prunes delivered to a handler should be held for the account of the committee any transfer of such prunes should be under such conditions as it may specify as part of the obligations of a "designee" of the committee. All transfers should be made before a cutoff date so that the committee can begin disposition. January 15 should be designated as the cutoff date because normally all but a very small percentage of the crop is delivered and inspected by that time each year. The accounting by the handler and the committee should have progressed sufficiently by that date whereby the eligible transfers can be properly documented and reconciled in the accounting. There must be such a cutoff, for the committee must finalize the pool operation at some point early enough in the crop year to engage in the fulfillment of its obligation to dispose of surplus prunes in noncompetitive outlets. Any surplus prunes delivered after January 15, should not be eligible for transfer and should be relegated to the surplus pool for disposition.

So that there may be an orderly disposition of surplus prunes and no conflict with the marketing of salable prunes or reserve prunes, § 993.46 should provide that the committee shall have the power and authority to sell or dispose of any and all surplus prunes delivered to it or held by handlers for its account, but no such disposition shall be in normal outlets except upon a finding of the committee, approved by the Secretary, that it will not interfere with the demand for salable prunes or reserve prunes.

That section should also provide that the committee may sell and ship, or instruct handlers to ship, surplus prunes for nonhuman consumption purposes, and that the committee may arrange to

store surplus prunes at other than a handler's premises. It is expected that the committee would normally arrange with the handler holding the surplus prunes to ship them for the account of the committee according to its instructions. However, provisions should also be made for the committee to make shipments independent of handlers since, in some cases, surplus prunes may be stored at other than a handler's premises. It may be that a handler cannot or does not want to store surplus prunes for the account of the committee. In that case the committee may have to lease warehouse space to store surplus delivered to such handler. The committee may also need to use such a storage facility to receive surplus prunes delivered directly by a producer unable or unwilling to deliver his surplus to a packer designee of the committee. Under these circumstances, the committee would have to physically prepare for receipt and disposition of any such surplus.

It is only proper that any net proceeds realized by the committee from disposition of surplus prunes should be distributed to equity holders, the persons with beneficial interest in the surplus prunes. Therefore, new § 993.46 should provide that the committee shall account for the disposition of surplus prunes to the equity holders thereof, distributing to them any proceeds received in excess of the costs incurred by the committee for the receiving, handling, holding, or disposing of surplus prunes. The monies received as revenues as well as the expenses incurred, including the administrative and distribution costs, should be treated as pool revenue and expenses. In other words, total costs should be deducted from income and only net income distributed.

It was proposed at the hearing that new § 993.46 include provisions defining surplus as to sizes and types of prunes. Since the surplus provision would not be used at least before the 1971–72 crop year and the exact administration can be studied in the meantime, this matter should be left to rules and procedures to be established by the committee with the approval of the Secretary. Adding such provisions to the order would deny the committee the flexibility needed in the event new ideas or concepts are developed. For instance, means of so controlling delivery of allotments may be found as to permit surplus to be the more economical withholding of field-run loads in lieu of the average marketable content of each producer's deliveries, as was discussed at the hearing. This latter, however, implies that the average marketable content of salable and reserve prunes would be included in the determination of the surplus obligation. However, it is evident that a more suitable result may be obtained through rule making.

Producers occasionally change their orchard location, they sell and purchase orchards, they rent for cash or by sharing the crop, they expand or reduce their orchards, and they go out of business as producers by selling their orchards to other producers or for such purposes as housing developments. The provisions relative to producer allotments should be sufficiently flexible to accommodate these changes of location or status but with limitations so that the basic function of the allotment program, of allotting among producers the prunes which handlers may acquire, will be preserved.

Hence, a new section, § 993.47 *Transfers*, should be added to the order to authorize any producer to transfer, subject to limitations, either (a) from the location(s) where he produces his annual allotment to other land which he farms, or (b) all or part of his assigned base quantity from himself to another producer.

It may happen that a producer desiring to make either type of transfer is not the owner of the original orchard land. With respect to the location type transfer, the new section should provide that no such transfer shall be valid and no further annual allotments referable to such orchard shall be granted to such producer unless the owner consents to the transfer. Likewise, with respect to a transfer to another producer, the section should provide that the transfer shall not be recognized nor shall an annual allotment be granted by the committee to the potential transferee unless the orchard owner consents to the transfer. These limitations would tend to assure outlets for the production of the original orchard and so protect the orchard owner's investment. Otherwise, for example, a cash renter (the producer on the original orchard) could transfer to some other producing location or transfer his base quantity to another producer, with the result that the subsequent producer on the original orchard land, whether he is the owner or a new cash or share renter, would be without an allotment and an ability to sell prunes to handlers. In addition, since the allotment provisions are for the purpose of adjusting excess production to demand, there would be no function served by the original orchard land remaining in production and additional production encouraged by such transfer of location or of base quantity.

With respect to either type of transfer, when the original orchard continues in production and the owner will not consent to the transfer, the base quantity should be held in temporary suspension by the committee so its assignment can be resolved. Assignment should be resolved promptly to avoid absence of annual allotments to producers otherwise eligible for such. The base quantity should be permitted to be assigned by the committee as follows: If the owner has taken over the farming of the orchard and becomes the producer, the base quantity should be assigned to him; if the owner arranges for another person to operate the orchard, such person becomes the producer and the base quantity should be assigned to him; if the owner lets the orchard to a person on a share rental basis, both become producers and the base quantity should be assigned to both either jointly or in proportion to their respective shares in accordance with the terms of their contract.

So that the committee will be assured that any transfer of location is appropriate and it will have the information necessary for allotment operations, the new section should require the committee, by such means as are provided in new § 993.45(b), to obtain information as to the location(s) where each producer intends to produce each annual allotment.

Relative to transfers of base quantities between producers, new § 993.47 should provide that no such transfer shall be recognized by the committee except upon the transferor and transferee notifying the committee in writing with regard thereto and the transferee submitting evidence of capability to produce and harvest the annual allotment referable thereto. This is to provide the committee with information needed for allotment operations and to preclude transfer of a base quantity to a person unable to use it and who might want to acquire it for a speculative purpose.

New § 993.47 should also provide that if any producer disposes of acreage and ceases to be a producer thereon prior to the issuance of base quantities pursuant to new § 993.44(a) and, if the purchaser continues the acreage in production of prune plums, such purchase shall be deemed to authorize issuance of the base quantity, applicable to such acreage to the successor producer. Prior to the establishment of base quantities, a producer may find it necessary or desirable to sell his orchard. If the purchaser continues the orchard in prune plum production, the assignment of the base quantity to him would place the referable annual allotment in the hands of the successor in interest and so permit sale of prunes resulting from the orchard. Furthermore, this base quantity should be computed using the sales from the orchard for all years of the representative period so that the purchasing producer is granted a representative base quantity and appropriate annual allotments.

It was proposed that in authorizing transfers, the committee should give priority to existing producers over new producers, with special priority to those producers who can show that the manner in which their base quantities were established has resulted to their detriment in an extraordinary disparity between their base quantities and their productive capacity. This proposal could adversely affect a transferor by forcing him to find a transferee with such qualifications. Furthermore, it could prevent a transferor from making an intended transfer; for example, a father to a son if the son would fall into the category of a "new" producer. There is the further problem of anticipating, at this point, that some base quantities will not be in line with productive capacity and provision is needed within the program to assist such producer to obtain an additional base quantity. It is probable he can obtain it without assistance. In view

of these circumstances, this proposal is not adopted as a provision hereinafter.

As previously discussed, "surplus prunes," in the aggregate, would be those in excess of the annual allotments established for any crop year after computation and establishment of base quantities. Since salable and reserve percentages would be applied only to the allotment receipts, such surplus prunes should be specifically excluded from applicability of the reserve control provisions. Therefore, the second sentence of § 993.54 should be revised to provide that the salable and reserve percentage when applied to the natural condition weight of prunes received during the crop year by a handler from producers and dehydrators, excluding surplus prunes and excluding the weight obligation of § 993.49(c), plus that diverted tonnage (dried weight natural condition prune basis) on diversion certificates issued pursuant to § 993.62 and credited to or held by him, shall determine the weight of each handler's receipts which are salable prunes and reserve prunes. However, transfers of surplus prunes, authorized by the committee to another producer with a deficiency in his annual allotment, would remove such prunes from the surplus category, and these prunes would become a part of the prunes of the producer to whom transferred, within his annual allotment, and therefore subject to reserve controls.

Section 993.55 currently provides for the application of the salable and reserve percentages established for any crop year to prunes received by handlers from producers and dehydrators in the subsequent crop year and before salable and reserve percentages are established for the new crop year. Since salable and reserve percentages established for a crop year would not be applicable to the weight obligation of § 993.49(c) nor to the weight of any surplus prunes, such percentages should be similarly inapplicable when carried over into the succeeding crop year. Therefore, the first sentence of § 993.55 should be revised accordingly.

Since salable and reserve percentages would not be applicable to surplus prunes, handler's reserve obligation should exclude surplus prunes received by them. Therefore, the first sentence of § 993.56 should be revised to prescribe this exclusion.

Section 993.59 currently requires the committee to pay handlers for the necessary services rendered by them in connection with reserve prunes, including, but not limited to, inspection, receiving, storing, grading, and fumigation. The section further requires that such payment shall be in accordance with a schedule of payments and conditions established by the Secretary after recommendation by the committee. The section should be revised so that its provisions apply to surplus prunes as well as to reserve prunes. It is only fair that handlers be paid for services they perform on pool prunes in which producers or other persons have the beneficial interest. Costs of these services on surplus prunes may change from time to time. Hence, appropriate charges should be established by rule making rather than be specified in the revised section. A handler should not be paid for any such services he might perform in connection with surplus prunes transferred after receipt to fill a deficiency in a producer's annual allotment because the prunes then become salable or reserve prunes for treatment as such. Obviously, a handler should not be paid on any surplus prunes for which he is obligated but fails to deliver.

(8) In view of the new definition of "prune plums" in § 993.4a, the definition of that term in § 993.62(a) should be deleted. In lieu thereof a new paragraph (a) *Termination* should be added providing that beginning with the first year in which base quantities are established, the provisions of § 993.62 shall terminate. As previously discussed herein, any prune plums diverted pursuant to § 993.62 prior to drying or dehydrating during such representative period as may be determined by the Secretary would be construed a sale by a producer for purposes of computing his base quantity. However, after establishment of base quantities, there should be no further need for recognizing voluntary diversion of prune plums by producers because operation of producer allotment and related provisions in any year of surplus would serve as the surplus control. By virtue of early advice on allotments producers could attempt to tailor production to their annual allotments.

(9) Some of the amendatory actions herein cause the need to make certain conforming changes, as hereinafter set forth, in the provisions of the order so that the order, as amended, will be in conformity with those actions. Such changes are discussed herein with the issues to which pertinent. All of such changes should be incorporated herein. Other such changes, for better format and applicability of the provisions, should be to redesignate § 993.48 *Regulation*, as § 993.42, *Regulation*, and to insert a new center heading "Allotment of Marketable Quantity" immediately following redesignated § 993.42. That section provides that no handler shall handle prunes except in accordance with the provisions of this part. Such changes are appropriate because new §§ 993.43 through 993.47 on producer allotments follow immediately thereafter, and the prohibition of unauthorized handling set forth in current § 993.48 needs to be applicable to the new provisions including those on producer allotments as well as to other regulatory provisions of the program.

Rules and procedures to be established by the committee, with the approval of the Secretary, will be necessary for effective and efficient administration of the new provisions resulting from the amendatory proceeding and hereinafter set forth. The authority in present § 993.36(n) of the order for establishing rules and procedures for use relative to the present provisions of the order is construed as extending to the new provisions. Hence, it is not necessary to provide, in the new provisions, express authority to establish rules and procedures in connection with such new provisions.

Rulings on proposed findings and conclusions. The Presiding Officer announced at the hearing that interested persons would be allowed to and including May 8, 1967, to file with the Hearing Clerk proposed findings and conclusions, and written arguments or briefs, based on evidence received at the hearing. Briefs were filed by Roger Fleming for the American Farm Bureau Federation; Allan Grant for the California Farm Bureau Federation; R. L. Engell, California Packing Corp.; Charles A. Schmidt, Valley View Packing Co., Inc.; C. J. Olson; John Leonard; and Will W. Lester.

Every point covered in these briefs has been considered carefully in light of the scope of the notice and the evidence in the record, in making the findings and reaching the conclusions herein set forth. To the extent that any suggested findings and conclusions contained in those briefs are inconsistent with the findings and conclusions contained herein, they are denied on the basis of the facts found and stated in connection with this recommended decision.

General findings. (a) The findings hereinafter set forth are supplementary, and in addition, to the previous findings and determinations which were made in connection with the issuance of the marketing agreement and order and each previously issued amendment thereto. Except the finding as to the base period for parity computation, and except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein, all of said prior findings and determinations are hereby ratified and affirmed. (For prior findings and determinations see 14 F.R. 5254; 16 F.R. 8437; 19 F.R. 1301; 22 F.R. 8254; 26 F.R. 475; 30 F.R. 9797);

(b) The marketing agreement and order, as amended and as hereby proposed to be further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(c) The marketing agreement and order, as amended and as hereby proposed to be further amended, regulate the handling of dried prunes produced in California in the same manner as, and are applicable only to persons in the respective classes of industrial or commercial activity specified in, the marketing agreement and order upon which hearings have been held;

(d) There are no differences in the production and marketing of dried prunes in the production area covered by the marketing agreement and order, as amended and as hereby proposed to be further amended, which require different terms applicable to different parts of such area;

(e) The marketing agreement and order, as amended and as hereby proposed to be further amended, are limited in application to the smallest regional production area which is practicable, consistently with carrying out the declared policy of the act, and the issuance of several orders applicable to subdivisions of the production area would not effectively carry out the declared policy of the act; and

(f) All handling of dried prunes produced in California is in the current of interstate or foreign commerce, or directly burdens, obstructs, or affects such commerce.

Recommended amendment of the order. The following further amendment of the order is recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out:

1. A new § 993.4a reading as follows is added immediately after § 993.4:

§ 993.4a Prune plums.

"Prune plums" means those varieties of plums grown in the area for drying or dehydrating and which are covered by §§ 993.6 and 993.7.

2. Section 993.5 is revised to read:

§ 993.5 Prunes.

"Prunes" means and includes all sundried or artificially dehydrated prune plums, of any type or variety, produced from prune plums grown in the area, except: (a) Sulfur-bleached prunes which are produced from yellow varieties of prune plums and are commonly known as silver prunes; and (b) prune plums which have not been dried or dehydrated to a point where they are capable of being stored prior to packaging, without material deterioration or spoilage unless refrigeration or other artificial means of preservation are used, and so long as they are treated by a process which is in conformity with, or generally similar to, the processes for treatment of prune plums of that type which have been developed or recommended by the Food Technology Division, College of Agriculture, University of California, for the specialty pack known as "high moisture content prunes," but this exception shall not apply if and when such prune plums are dried to the point where they are capable of being stored without material deterioration or spoilage, refrigeration or other artificial means of preservation.

3. Section 993.6 is revised to read:

§ 993.6 Non-French prunes.

"Non-French prunes" means prunes commonly known as Imperial, Sugar, Robe de Sargent, Burton, Standard, Jefferson, Fellenberg, Italian, President, Giant, and Hungarian (Gross), produced from such varieties of prune plums. This definition may be modified by the committee with the approval of the Secretary.

4. Section 993.7 is revised to read:

§ 993.7 French prunes.

"French prunes" means: (a) Prunes produced from the following varieties of prune plums: French (Prune d'Agen, Petite Prune d'Agen), Coates (Cox, Double X, Saratoga); and (b) any other prunes which possess taste, flesh texture, and other characteristics similar to those of the prunes named in this section.

5. Section 993.13 is revised to read:

§ 993.13 Handle.

"Handle" means to receive, package, sell, consign, transport, or ship (except as a carrier of prunes owned by another person), or in any other way to place prunes, including surplus prunes, in the current of the commerce within the area, from within the area to any point outside thereof, or from any point outside the area to any other point: *Provided*, That, except as provided in § 993.46(a), this term shall not include: (a) Sales or deliveries of prunes by a producer or dehydrator to a producer, dehydrator, or handler within the area; (b) the receiving of prunes by a producer or dehydrator from a producer or dehydrator; and (c) receipts, sales, or shipments of prunes already handled by another person other than transfers pursuant to § 993.50(f).

6. Section 993.14 is revised to read:

§ 993.14 Handler.

"Handler" means any person inside or outside of the area who handles prunes.

7. Section 993.15 is revised to read:

§ 993.15 Dehydrator.

"Dehydrator" means any person who produces prunes by drying or dehydrating prune plums by means of sun-drying or artificial heat.

8. Section 993.16 is revised to read:

§ 993.16 Producer.

"Producer" means any person who is engaged, in a proprietary capacity, in growing prune plums for drying or dehydrating into prunes.

9. Section 993.21c is revised to read:

§ 993.21c Salable prunes.

"Salable prunes" means prunes which are free to be handled pursuant to producer allotments and any salable percentage established by the Secretary.

10. A new § 993.21e reading as follows is added immediately after § 993.21d:

§ 993.21e Marketable quantity.

"Marketable quantity" means the quantity of prunes constituting the total of all producer annual allotments and adequate to meet the estimated total trade demand of a crop year, permit desirable adjustments in carryover, and provide, if deemed desirable, a reserve against a possible short crop in the subsequent crop year.

11. A new § 993.21f reading as follows is added immediately after new § 993.21e:

§ 993.21f Base quantity.

"Base quantity" means the number of pounds of prunes, expressed as tons, established by the committee pursuant to § 993.44 for a producer.

12. A new § 993.21g reading as follows is added immediately after new § 993.21f:

§ 993.21g Annual allotment.

"Annual allotment" means, for a crop year and for each producer, the number of pounds of prunes expressed as tons, determined by multiplying the producer's base quantity by the allotment percentage.

13. A new § 993.21h reading as follows is added immediately after new § 993.21g:

§ 993.21h Leaf.

"Leaf" means the age, in years, of a budded or grafted prune plum variety of tree, with the first leaf commencing in the crop year in which the tree is permanently planted and produces leaves.

14. The first sentence of § 993.33 is revised to read:

§ 993.33 Voting procedure.

Decisions of the committee shall be by majority vote of the members present and voting and a quorum must be present: *Provided*, That decisions on marketing policy, grade or size regulations, pack specifications, producer allotments, salable and reserve percentages, and on any matters pertaining to the control or disposition of surplus prunes, of reserve prunes, or to prune plum diversion pursuant to § 993.62, including any delegation of authority for action on such matters and any recommendation of rules and procedures with respect to such matters, including any such decision arrived at by mail or telegram, shall require at least 14 affirmative votes. * * *

Section 993.36 is amended as follows:

15. Paragraph (h) is revised.

16. Paragraph (i) is revised.

Paragraphs (h) and (i) of § 993.36 read as follows:

§ 993.36 Duties.

* * * * * *

(h) To prepare and submit to the Secretary monthly statements of the financial operations of the committee, exclusive of surplus prune and reserve prune operations, and to make such statements, together with the minutes of the meetings of said committee, available for inspection at the offices of the committee by producers, dehydrators, and handlers;

(i) To prepare and submit to the Secretary annually, as soon as practicable after the end of each applicable crop year and at such other times as the committee may deem appropriate or the Secretary may request, a statement of the committee's financial operations with respect to surplus prunes for such crop year, as well as a statement of the committee's financial operations with respect to reserve prunes for such crop year, and to make such statements available at the offices of the committee for inspection by producers, dehydrators, and handlers;

* * * * * *

17. Section 993.41 is revised to read:

§ 993.41 Marketing policy.

(a) On or before the fourth Tuesday of the February preceding the first crop year of allotments, and of subsequent Februarys, the committee shall prepare

and submit to the Secretary a report setting forth its recommended marketing policy for the ensuing crop year: *Provided*, That in the first year the committee may prepare and submit such report at a later date. In formulating such marketing policy the committee shall consider and shall include in its report to the Secretary, the following estimates (natural condition basis) and recommendations:

(1) The likely carryover of salable prunes as of August 1;

(2) The domestic trade demand in the ensuing crop year by uses of prunes;

(3) The foreign trade demand in the ensuing crop year by countries or groups of countries;

(4) The desirable carryout of salable prunes at the end of the ensuing crop year;

(5) The quantity of prunes in excess of the ensuing crop year's requirements as may be needed to protect against a possible short crop in the subsequent crop year;

(6) The marketable quantity of prunes;

(7) The estimated quantity of prunes that may not be delivered by producers due to productive capacity reductions in annual allotments pursuant to § 993.45(b);

(8) The recommended allotment percentage for the ensuing crop year;

(9) If deemed desirable for market stability, the maximum quantity of prunes to be made available to handlers as salable prunes from the new crop; and

(10) Such other factors as may have a bearing on the marketing of prunes or the administration of this part.

(b) In July, the committee shall convene for the purpose of recommending and beginning with the first year of allotments, reviewing and, if necessary, modifying its marketing policy for the ensuing crop year. A report thereof shall be prepared and submitted on or before the fourth Tuesday of July to the Secretary. In such meeting, the committee shall consider and shall include in its report to the Secretary, in addition to subparagraphs (1) through (4) of paragraph (a) of this section, the following estimates (natural condition basis) and recommendations:

(1) The carryover of reserve prunes as of August 1;

(2) The grade and size composition of the salable and reserve carryovers;

(3) Beginning in the first year of allotments, the production of prunes with allotments and without allotments;

(4) The probable quality of prunes in the crop;

(5) The quantity of prunes to be withheld as reserve prunes so as to protect against errors of estimation and permit orderly marketing of the supply;

(6) The recommended salable and reserve percentages for the ensuing crop year;

(7) The quantity of prune plums and prunes, dried weight basis, likely to be disposed of by diversion or as surplus;

(8) Any recommended change in grade, size or pack regulations pursuant to §§ 993.49 to 993.53 inclusive;

(9) The probable assessable tonnage for the purposes of § 993.81;

(10) The current prices for prunes, the trend and level of consumer income, and whether producer prices are likely to exceed parity; and

(11) Beginning in the first year of allotments, any recommended suspension of the allotment percentage and annual allotments.

(c) The committee shall modify its marketing policy if it becomes advisable at any time because of changed demand, supply, or other conditions and shall report thereon to the Secretary. Notice of the committee's marketing policy, and of any modifications thereof, shall be given promptly by reasonable publicity to producers, dehydrators, and handlers.

§ 993.42 [Redesignated]

18. Section 993.48 *Regulation* is redesignated as § 993.42.

19. A new center heading "Allotment of Marketable Quantity" is inserted immediately following redesignated § 993.42, and new sections reading as follows are added immediately after that heading:

ALLOTMENT OF MARKETABLE QUANTITY

§ 993.43 Preliminary regulation.

Beginning with the 1967–68 crop year, or such later year as the committee may recommend and the Secretary establish, and until a representative period has been determined pursuant to § 993.44, no handler shall handle as the first handler thereof, prunes delivered to him until he has determined the identity of each producer of the prune plums which were dried or dehydrated and so delivered, the county of production, and the quantity of prunes attributable to such producer. The handler shall furnish such information to the committee at such times and in such form as the committee may request. All such quantities of prunes shall be based on weights determined by Public Weighmasters, either total graded weight or delivered weight, and shall be net prune weight exclusive of foreign material and the weight obligation of § 993.49(c). So that each producer may qualify for a base quantity pursuant to § 993.44, the committee shall furnish each producer of record, early in each calendar year, a form to be filed with the committee whereon the producer reports the location of his orchard(s), the acreage he intends to harvest for prunes, the maturity of the trees, and such other information as the committee needs to establish a base quantity for such producer.

§ 993.44 Base quantities.

(a) *Computation and establishment.* (1) If the Secretary finds that the 1967–68 through 1970–71 crop year, or a period beginning one or more year(s) later than 1967–68, but not less than a three-year period, constitute a representative period in terms of production of prunes for market and the consequent producer sales, a base quantity shall be established for each producer entitled thereto. Each base quantity shall be in an amount equal to either (i) the total sales credited as net prune weight pursuant to § 993.43, plus the weight shown on diversion certificates, of such producer during the representative period divided by the number of years in the period, or (ii) that determined or adjusted pursuant to the applicable provisions of subparagraphs (2), (3), and (4) of this paragraph.

(2) If a producer has immature prune plum trees, in 9th leaf or younger permanently planted as of the effective date of this section, in blocks of acreage not containing mature trees, his base quantity on such acreage shall be established by applying to the acreage the average sales per acre in the representative period from mature acreage of the producer in the locality or the average sales per acre in base quantities for other mature orchards in the locality (if none, the most representative comparable locality), whichever is more representative of the mature sales level for the immature acreage.

(3) If a producer is engaged in a rotation program of replacing old trees with young trees, by the removal and replanting of all or portions of his acreage, without change of location or increase of acreage, whether begun prior to or during the representative period, but the rotation adversely affects his base quantity, such producer shall have such portions of his base quantity as are referable to the rotated acreage established consistent with the provisions of subparagraph (2) of this paragraph: *Provided*, That any such adjustment of a base quantity due to rotation occurring after the effective date of this section shall not cause the producer's base quantity to exceed his approximate base quantity in the absence of such rotation.

(4) If a producer is engaged in a rotation from existing acreage to a new location, that portion of his base quantity attributable to acreage permanently planted prior to the effective date of this section shall be established consistent with subparagraph (2) of this paragraph. However, the base quantity referable to such acreage planted after the effective date of this section shall not exceed the approximate base quantity for the original acreage.

(5) In accordance with subparagraphs (1) and (2) of this paragraph, and based on reports of handlers, producers' certifications and other information, the committee shall establish for use beginning with the first crop year after the representative period, each producer's base quantity and, except as hereinafter provided, shall assign such base quantity to such producer. The right of each producer, or his legal successor in interest to the base quantity, to receive or retain all or part of such base quantity shall be dependent upon his continuing to be a producer and to make a bona fide effort to produce his annual allotment, and failing to do so for three consecutive allotment years, such base quantity shall be reduced by the committee by a percentage equivalent to the unproduced portion

of his annual allotment: *Provided*, That the committee, with the approval of the Secretary, may waive this requirement for good cause.

(b) *Additional base quantities.* Each year after allotments begin the committee shall consider the need for granting, and if appropriate grant, with the approval of the Secretary, additional base quantities, to either a new producer or an existing producer, for such purposes as satisfying the demand for one or more varieties, or adjusting the total of all base quantities to the trade demand.

§ 993.45 Marketable quantity, allotment percentage, and annual allotments.

(a) *Marketable quantity and allotment percentage.* Beginning with the calendar year in which base quantities are first established for producers, and annually each calendar year thereafter if the Secretary finds, on the basis of the committee's recommendation or other information, that limiting the quantity of prunes that handlers may purchase from, or handle on behalf of, producers during the ensuing crop year would tend to effectuate the declared policy of the act, he shall determine the marketable quantity and establish an allotment percentage for such crop year. The allotment percentage shall be determined by dividing the marketable quantity plus the estimate described in § 993.41(a)(7) by the total of all producer base quantities determined pursuant to § 993.44 which may be an estimated total for the first crop year of allotments. Except as provided in this part, no handler shall purchase or handle on behalf of any producer prunes not within such producer's annual allotment. Based on a recommendation of the committee pursuant to § 993.41(b) or other information, the Secretary may suspend the allotment percentage applicable to any crop year and producers' annual allotments.

(b) *Annual allotments.* Upon determination of the marketable quantity and establishment of an allotment percentage by the Secretary for an ensuing crop year, the committee shall issue to each producer an annual allotment for such ensuing crop year computed except as otherwise provided in this paragraph, by applying the allotment percentage established pursuant to paragraph (a) of this section to the producer's base quantity. Such issuance shall be conditioned upon the producer filing with the committee, within a specified time, a form furnished by the committee whereon the producer states at least where he intends to produce his annual allotment, the acreage he intends to harvest, the maturity of the trees, changes of location, if any, and such other information required by the committee to administer this part. If the committee determines that due to acreage, immature age of trees, or other cause, the producer will be unable to produce his computed annual allotment, the committee shall apply to his base quantity an appropriate portion of the allotment percentage so as to reduce the annual allotment it issues to reflect productive capacity. The committee may, with the approval of the Secretary, establish a schedule of reductions for ages of immature trees or for other factors of production. Except as provided in § 993.47, no handler, producer, or other person shall be the assignee or transferee of an annual allotment, or portion thereof, except that a person other than a handler may deliver prunes in the stead of the producer holding the allotment but no handler shall receive prunes from such other person except to the extent authorized by the committee. When an allotment percentage is in effect, the weight of all prunes shall be based on weights determined by Public Weightmasters, and any weight obligation pursuant to § 993.49(c) shall not be a part of a producer's annual allotment.

§ 993.46 Surplus prunes.

(a) *General.* Prunes that are in excess of an effective individual producer annual allotment or the total of such annual allotments to members, delivered pursuant to membership contracts, of a cooperative marketing association, shall be surplus prunes. Prior to January 15 of the crop year, producers of such prunes may sell or transfer them to producers capable of using them to satisfy a deficiency of production relative to their annual allotment. No handler shall handle surplus prunes except that any handler who is a packer shall be a designee of the committee, under such conditions as it shall specify as to holding and delivery obligations, with the approval of the Secretary, to receive and hold surplus prunes for the account of the committee. Any producer or dehydrator selling or delivering surplus prunes to other than the committee or its designees or to a producer satisfying a deficiency, as provided in this paragraph, shall be a handler relative to such transaction. Any producer may dispose of surplus prunes of his own production within his own livestock feeding or other farming operation and, prior to or after January 15, such prunes may be delivered to the committee or its designees for inclusion in the surplus pool.

(b) *Committee's right of disposition.* The committee shall have the power and authority to sell or dispose of any and all surplus prunes delivered to it or held by handlers for its account, but no such disposition shall be in normal outlets except upon a finding of the committee, approved by the Secretary, that it will not interfere with the demand for salable prunes or reserve prunes. The committee may sell and ship, or instruct handlers to ship, surplus prunes for nonhuman consumption purposes. The committee may arrange to store surplus prunes at other than a handler's premises.

(c) *Distribution of proceeds.* The committee shall account for the disposition of surplus prunes to the equity holders thereof, in distributing to them any proceeds received in excess of the costs incurred by the committee for the receiving, handling, holding, or disposing of surplus prunes. The monies received as revenues as well as the expenses incurred, including the administrative and distribution costs, shall be treated as surplus pool revenue and expenses.

§ 993.47 Transfers.

(a) *Of location.* A producer owning the orchard(s) determining the base quantity may transfer from the location(s) where he produces his annual allotment to other land which he farms. If a producer does not own the original orchard land no such transfer shall be valid and no further annual allotments referable to such orchard shall be granted by the committee to such producer unless the orchard owner consents to the transfer. The committee shall, by such means as are provided in § 993.45(b), obtain information as to the location(s) where such producer intends to produce each annual allotment.

(b) *To another producer.* A producer owning the orchard(s) determining the base quantity may transfer all or part of a base quantity from himself to another producer. If the transferor is not the owner of the orchard land, the transfer shall not be valid nor shall an annual allotment be granted by the committee to the potential transferee unless the orchard owner consents to the transfer. No transfer shall be recognized by the committee except upon the transferor and transferee notifying the committee in writing and the transferee submitting evidence of capability to produce and harvest the annual allotment referable thereto. If any producer disposes of acreage and ceases to be a producer thereon prior to the issuance of base quantities pursuant to § 993.44(a) and, if the purchaser continues the acreage in production of prune plums, such purchase shall be deemed to authorize issuance of the base-quantity, applicable to such acreage to the successor producer.

§ 993.54 [Amended]

20. The second sentence of § 993.54 is revised to read: "The salable and reserve percentages when applied to the natural condition weight of prunes received during the crop year by a handler from producers and dehydrators, excluding surplus prunes and excluding the weight obligation of § 993.49(c), plus that diverted tonnage (dried weight natural condition prune basis) on diversion certificates issued pursuant to § 993.62 and credited to or held by him, shall determine the weight of each handler's receipts which are salable prunes and reserve prunes."

§ 993.55 [Amended]

21. The first sentence of § 993.55 is revised to read: "The salable and reserve percentages established for any crop year shall also apply to prunes received by handlers in the subsequent crop year, excluding surplus prunes and excluding the weight obligation of § 993.49(c), and before salable and reserve percentages are established for that crop year."

§ 993.56 [Amended]

22. The first sentence of § 993.56 is revised to read: "Whenever salable and reserve percentages are in effect for a crop

year, the reserve obligation of a handler shall approximate the average marketable content of the handler's receipts and shall be a weight of natural condition prunes equal to the reserve percentage applied to the natural condition weight of prunes such handler receives during the crop year from producers and dehydrators, excluding surplus prunes and excluding the weight obligation of § 993.49(c), plus that diverted tonnage (dried weight natural condition prune basis) on diversion certificates credited to or held by him which were issued pursuant to § 993.62."

23. Section 993.59 is revised to read:

§ 993.59 Payment to handlers for services.

The committee shall pay handlers for necessary services rendered by them in connection with reserve prunes or surplus prunes including, but not limited to, inspection, receiving, storing, grading, and fumigation, in accordance with the respective reserve or surplus schedules of payments and conditions established by the Secretary after recommendation by the committee.

24. Paragraph (a) *Prune plums* of § 993.62 is deleted and a new paragraph (a) *Termination* added to read:

§ 993.62 Diversion privileges.

(a) *Termination.* Beginning with the first year in which base quantities are established, the provisions of this section shall terminate.

* * * * *

Dated: July 14, 1967.

CLARENCE H. GIRARD,
Deputy Administrator,
Regulatory Programs.

[F.R. Doc. 67-8293; Filed, July 18, 1967; 8:47 a.m.]

[7 CFR Part 1004]

[Docket No. AO 160-A34]

MILK IN DELAWARE VALLEY MARKETING AREA

Decision on Proposed Amendments to Tentative Marketing Agreement and to Order

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held at Philadelphia, Pa., on June 12–13, 1967, pursuant to notice thereof issued on May 29, 1967 (32 F.R. 7976), and a supplemental notice thereto issued June 2, 1967 (32 F.R. 8176).

Upon the basis of the evidence introduced at the hearing and the record thereof, the Deputy Administrator, Regulatory Programs, on June 30, 1967 (32 F.R. 9836; F.R. Doc. 67-7735), filed with the Hearing Clerk, U.S. Department of Agriculture, his recommended decision containing notice of the opportunity to file written exceptions thereto.

The material issues, findings and conclusions, rulings, and general findings of the recommended decision (32 F.R. 9836; F.R. Doc. 67-7735) are hereby approved and adopted and are set forth in full herein.

The material issues on the record of the hearing relate to:

1. Providing a base and excess plan for payment of producers and need for emergency action with respect to this plan.
2. Diversion of milk to other Federal order plants for Class II use.
3. Modification of the point of pricing of diverted milk.
4. Shipping requirements for supply plants to attain pool plant status.

This decision deals only with issue No. 1. All the remaining material issues will be considered in a further decision on the record.

Findings and conclusions. The following findings and conclusions on the material issue are based on evidence presented at the hearing and the record thereof:

Issue No. 1, Base and excess producer payment plan. The order should provide for the payment of producers under a base and excess plan as a means of encouraging a uniform level of production throughout the year.

The base-excess plan proposed by one of the major cooperatives in the market and included herein, is identical with minor exceptions to the plans contained in the Washington, D.C., and Upper Chesapeake Bay markets.

Effective May 1, 1967, the Class I seasonal pricing plan was removed from the Delaware Valley order. The base-excess plan was then proposed in recognition of the problems involved in inducing producers to maintain a desirable pattern of production throughout the year. With the discontinuance of seasonal pricing there is no longer adequate financial incentive for producers to maintain production patterns that meet the seasonal needs of the market.

In the Delaware Valley market production usually reaches its high during the March through June period and its low during the July through December period. On the other hand, Class I sales hold relatively even during the year. When production and sales patterns are considered together the greatest need for production is during the July through December period and the least need for production is during the March through June period.

The base-excess plan herein proposed will provide added incentive for the producers to maintain the needed production pattern. This is accomplished by providing that each producer's base shall be based on his deliveries of milk during the low production months. Hence, each producer's returns during the high production months reflect the degree of conformity of his production during such period with that of the low production months.

Base-excess plans have been operated in various forms in the market by the proponent cooperative since as early as 1920. In recent years the cooperative has operated base plans in conjunction with several handlers for which its members were the sole suppliers. These base plans have apparently been readily accepted by the producers involved. The proponent also indicated that many of its members who had not been under base-excess plans were also interested in a base-excess plan for the market.

Under the plan herein adopted bases will be determined annually. Bases so computed will reflect each individual producer's average daily deliveries during the months of July through December to the extent that deliveries were made on 154 or more days. These bases will be effective for the subsequent months of March through June. Each producer will receive payment at the base price for milk delivered during the March–June period which is not in excess of his established base. Milk delivered in such months in excess of his established base will be paid for at the excess price.

The computation of a daily base for each producer would be made by the market administrator who should be required to notify producers of their established bases on or before the 20th day of February each year.

The market administrator cannot compute the bases earned by individual producers until after the end of the base-forming period on December 31 of each year. On the other hand, a producer needs to know the size of his daily base prior to the March 1 beginning of the base-paying period. Provision for notification of the producer of his daily base by February 20 of each year will allow the market administrator sufficient time to compute the bases and yet give the producers advance notice of the size of their bases so that they may make any needed adjustments in their operations.

The daily base of each producer will be determined by dividing his total deliveries of milk during the base-forming months by the number of days of delivery but by not less than 154 days.

The calendar period from July through December is 184 days. Therefore, a producer delivering during the entire period should have his deliveries divided by 184 in determining his base. Where a producer is on every-other-day delivery and a delivery is made on July 1, the delivery would, in fact, include production from the last day of June. Therefore, in such case the divisor for the entire period of delivery should be 185 which would be the total number of days of production included in his deliveries. When he delivers on less than 184 days his deliveries should also be divided by the number of days of production included in his deliveries except that the divisor should in no case be less than 154.

A base-excess plan is adopted to encourage a uniform production pattern throughout the year. Therefore, a producer should be required to deliver his milk regularly to the market during the months of short production (the base-forming period) in order to earn a full base on which he would be paid a higher price during the flush production months (the base-paying period). However, by providing a minimum divisor of 154, a 30-day allowance is made which will accommodate unusual circumstances which might prevent deliveries of production from each day during the full period.

Definitions of "base milk" and "excess milk" should be provided to implement the base-excess plan as herein proposed. The amount of base milk to which a producer may be entitled during each of the base-paying months of March through June should be computed by multiplying the number of days in such months on which the producer's milk is received by the daily base determined for such producer. In the case of every-other-day delivery the order should provide that the day of nondelivery prior to a day of delivery, although such prior day is in the preceding month, be considered as a day of delivery in determining the amount of base milk to which the producer is entitled during the month.

The amount of a producer's deliveries up to the amount of base milk to which he is entitled during the month will be base milk. Any deliveries by the producer above the amount of base milk to which he is entitled will be excess milk.

Because of the recent change in the Delaware Valley order to a marketwide pooling arrangement and in light of the necessity for instituting this base-excess plan on such short notice the first base-forming period should not begin until August 1, 1967. This will insure greater equity among all producers by allowing time for adjustments to be made to the changed market structure without a reduction in the size of the producer's base.

The first base-forming period should be August through December 1967. The number of calendar days during this period, therefore, would be 153 and in the case of every-other-day delivery beginning on August 1, the total days delivered would be 154. Bases would be computed in the same manner as otherwise provided except that the minimum divisor should be reduced by the previously discussed 30-day contingency period. During this first base-forming period, therefore, the minimum divisor will be 123.

With respect to provisions hereinafter discussed relating to bases for producers transferring from either the Washington, D.C., or Upper Chesapeake Bay markets during the base-forming period and for producers delivering to plants which become pool plants after the beginning of the base-forming period, it is concluded that such bases formed during the initial base-forming period should be computed from deliveries during August through December the same as for the other producers. This will provide each affected producer equal treatment under these provisions.

Bases are applicable only during the months of March through June which are the months of highest production and of least need for additional supplies. Any producer who does not establish a base during the months of July through December has not, in fact, served the market when his milk was needed; therefore, he should not appropriately share in the Class I sales during the four flush production months when his milk would not be needed for Class I use. However, provision should be made to cover a situation in which a producer transfers from the Washington, D.C., or Upper Chesapeake Bay markets to the Delaware Valley market during the base-forming period.

There is a close interrelationship between the three markets, To a large degree they draw upon the same supply area and producers should not be unduly inhibited from shifting between the markets in response to the varying needs of the markets.

Such a provision should allow a producer who has delivered to either of the other two markets during the July through September period and then to the Delaware Valley market during the October through December period to establish a base under the Delaware Valley order computed from total deliveries to all three orders during the entire July through December base-forming period.

Both the Washington, D.C., and Upper Chesapeake Bay orders contain base-excess plans essentially identical to the plan herein proposed for the Delaware Valley order. Therefore, producers delivering to these markets during the base-forming period are in fact operating under a base-excess plan and are producing accordingly for a fluid market. However, providing that they can form a full base under the Delaware Valley order only if they delivered to the Delaware Valley market during the last 3 months of the base-forming period assures that they have been associated with that market when the supplies are most needed.

The Washington, D.C., and Upper Chesapeake Bay orders now have similar provisions for transfer of producers between those two orders. Although, these two orders do not presently provide for similar transfers from the Delaware Valley market, the interrelationship of these markets and the similarity of base plans requires that the Delaware Valley order provide for such transfers.

Producers and producer representatives associated with the New York-New Jersey market proposed that similar treatment be provided for producers who might wish to transfer from the New York-New Jersey market which operates a seasonal incentive (Louisville) plan. Similar treatment in such case would be unjustified since the two types of plans are not compatible for the purposes of transferring base-forming rights. If similar provisions were made, a producer could associate himself with a pay-back market until October 1 and then form a base on the Delaware Valley market which includes deliveries to the other market for which the producer would have shared in part in payments under the seasonal incentive plan. Then in the flush months such producer would benefit by drawing a base price under the Delaware Valley order while his counterparts under the "Louisville" plan were receiving a lower price during the takeout period. Such treatment would allow the producer a decided financial advantage under both orders without commitment to either market. Therefore, this modification is denied.

Provision also should be made for computing bases for dairy farmers delivering to a plant which first achieves pool plant status after the beginning of the base-forming period. For such farmers bases should be computed from records of deliveries to the plant during the applicable base-forming period. Also, provision should be made for a producer who delivered to a pool plant during September through December but was considered as a "dairy farmer for other markets" during the immediately preceding months of July and August to have his base computed from his total deliveries to the pool and nonpool plants of the handler during the entire July through December period. These two provisions will permit such producers to share equitably with all other producers in the returns for milk.

Operation of the base-excess plan for paying producers requires certain rules in connection with the establishment and transfer of bases to provide reasonable administrative workability of the plan.

In general these rules herein adopted are identical to those contained in the Washington, D.C., and Upper Chesapeake Bay orders. Because the three markets to a large extent draw from a common supply area it was considered desirable to provide a base-excess plan for the Delaware Valley order essentially identical to those contained in the other two orders. Since these rules have worked well in the other two orders and because of the interrelationship of the Delaware Valley market's supply with their supply these rules are concluded to be equally appropriate for Delaware Valley.

The order should provide that a base may be transferred in its entirety upon proper application to the market administrator for such transfer signed by the parties involved. Such application is to be made on or before the second day of the month following the month of transfer. It is also necessary for administrative reasons to provide a procedure for assignment of bases in cases of joint ownership where the order provides for the allotment of only one base. In such cases the rules should provide for division of a base among joint holders upon termination of partnership if certain conditions are met. If a copy of the partnership agreement setting forth the percentage of the total interest of the partners in the base is filed with the market administrator before the end of the base-making period then, upon termination of the partnership agreement, each partner would be entitled to his stated share of the base.

When a producer operates more than one farm selling milk eligible for forming a base a separate base should be established for each farm.

During the months of March through June, separate uniform prices will be computed for base milk and excess milk. Base milk of each producer is that quantity of milk delivered by him during the

month up to his average daily base multiplied by the number of days of production delivered by him to handlers during the month. Milk delivered in addition to this quantity by the producer will be excess milk.

The uniform price for excess milk would be computed first and is generally the Class II price. However, if the total Class I sales exceed the total quantity of base milk the excess uniform price is a blend of the Class I and Class II usage of excess milk.

The uniform price for base milk is determined by dividing the total volume of base milk into the remaining value of milk of all producers after subtracting the value of excess milk.

In some cases, due to audit adjustment or inventory classification, the normal procedure for calculation of base and excess prices might result in a base price higher than the Class I price. If this should occur, such additional value over the Class I prices should be assigned first to excess milk until the value of excess milk per hundredweight is brought up to the Class I price and any remaining additional value should be prorated between base and excess milk.

The order presently provides for location differentials to producers at the Class I rate applicable to handlers. Such differentials should continue to apply to all producer milk during July through February and to producer base milk during March through June. However, application of the Class I rate to excess milk during March through June could result in the excess price at certain locations being lower than the Class II use value of the milk at such locations. Therefore, the order should provide that excess milk be subject to the same location differential rate as the handler Class II location differential rate.

Emergency action. The notice of hearing stated that consideration would be given to the economic and emergency marketing conditions relating to this proposed amendment. Producer representatives requested emergency action in order that the plan be made effective as soon as possible. This was to provide as close to a full initial base-forming period as possible so as to properly affect production decisions during the 1967 base-forming period and the 1968 base-paying period.

It is concluded that these ends can be achieved without the omission of the recommended decision. Therefore, the request to eliminate the issuance of the recommended decision and the opportunity to file exceptions thereto is denied.

Rulings on proposed findings and conclusions. Briefs and proposed findings and conclusions were filed on behalf of certain interested parties. These briefs, proposed findings and conclusions, and the evidence in the record were considered in making the findings and conclusions set forth above. To the extent that the suggested findings and conclusions filed by interested parties are inconsistent with the findings and conclusions set forth herein, the requests to make such findings or to reach such conclusions are denied for the reasons previously stated in this decision.

General findings. The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) The tentative marketing agreement and the order, as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(b) The parity prices of milk as determined pursuant to section 2 of the Act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the proposed marketing agreement and the order as hereby proposed to be amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The tentative marketing agreement and the order as hereby proposed to be amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

Rulings on exception. In arriving at the findings and conclusions, and the regulatory provisions of this decision, the exception received was carefully and fully considered in conjunction with the record evidence pertaining thereto. To the extent that the findings and conclusions, and the regulatory provisions of this decision are at variance with the exception, such exception is hereby overruled for the reasons previously stated in this decision.

Marketing agreement and order. Annexed hereto and made a part hereof are two documents entitled respectively, "Marketing Agreement Regulating the Handling of Milk in the Delaware Valley Marketing Area", and "Order Amending the Order Regulating the Handling of Milk in the Delaware Valley Marketing Area", which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions.

It is hereby ordered, That all of this decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the order as hereby proposed to be amended by the attached order which will be published with this decision.

Referendum order; Determination of representative period; and designation of referendum agent. It is hereby directed that a referendum in which each individual producer shall have one vote be conducted to determine whether the issuance of the base and excess plan of payment to producers as specified in the attached order, amending the order, as amended, regulating the handling of milk in the Delaware Valley marketing area, is separately approved or favored by the producers, as defined under the terms of the order, as amended and as so proposed to be amended, and who, during the representative period, were engaged in the production of milk for sale within the aforesaid marketing area.

The month of June 1967 is hereby determined to be the representative period for the conduct of such referendum. L. S. Iverson is hereby designated agent of the Secretary to conduct such referendum in accordance with the procedure for the conduct of referenda to determine producer approval of milk marketing orders (7 CFR 900.300 et seq.), such referendum to be completed on or before the 30th day from the date this decision is issued.

Signed at Washington, D.C., on July 13, 1967.

ORVILLE L. FREEMAN,
Secretary.

Order[1] Amending the Order Regulating the Handling of Milk in the Delaware Valley Marketing Area

§ 1004.0 Findings and determinations.

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the Delaware Valley marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk, as determined pursuant to section 2 of the Act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order as hereby amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in a marketing agreement upon which a hearing has been held.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the handling of milk in the Delaware Valley marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended and as hereby amended, as follows:

The provisions of the proposed marketing agreement and order amending the order contained in the recommended decision issued by the Deputy Administrator, Regulatory Programs, on June 30, 1967, and published in the FEDERAL REGISTER on July 6, 1967 (32 F.R. 9836; F.R. Doc. 67-7735), shall be and are the terms and provisions of this order, and are set forth in full herein.

1. In § 1004.16, the period at the end of paragraph (c) is changed to a semicolon and new paragraphs (d) and (e) are added to read as follows:

§ 1004.16 Milk and milk products.

* * * * *

(d) "Base milk" means milk received from a producer by a pool handler during any of the months of March through June of each year which is not in excess of such producer's daily base computed pursuant to § 1004.63 multiplied by the number of days in such months on which such producer's milk was so received: *Provided*, That with respect to any producer on every-other-day delivery, the day of nondelivery prior to a day of delivery, although such prior day is in the preceding month, shall be considered as a day of delivery for the purpose of this paragraph;

(e) "Excess milk" means milk received from a producer by a pool handler during any of the months of March through June which is in excess of base milk received from such producer during such month.

2. In § 1004.22, subparagraph (2) of paragraph (j) is revised and a new paragraph (o) is added, both to read as follows:

§ 1004.22 Duties.

* * * * *

(j) * * *

(2) The 13th day of each month, the uniform price(s) computed pursuant to §§ 1004.71 and 1004.72 and the butterfat differential to producers computed pursuant to § 1004.81, both for the preceding month;

* * * * *

(o) On or before February 20 of each year notify:

(1) Each cooperative association of the daily base established by each producer member of such association; and

(2) Each nonmember producer of the daily base established by such producer.

3. A new § 1004.63 is added to read as follows:

§ 1004.63 Computation of base for each producer.

For each of the months of March through June each year the market administrator shall compute, subject to the rules set forth in § 1004.64, a base for each producer described in paragraphs (a) through (d) of this section by dividing the applicable quantity of milk receipts specified in such paragraph by 184 (by 185, in the case of a producer on every-other-day delivery schedule who delivered July 1) less the number of days, if any, during the immediately preceding base-forming period of July through December for which it is shown that the day's production of milk of such producer was not received by a pool handler as described in the applicable paragraphs (a), (b), (c), or (d) of this section under which such producer's base is computed: *Provided*, That in no event shall the number of days used to compute a producer's base pursuant to this part be less than 154; except that with respect to this paragraph and paragraphs (a), (b), and (c) of this section the initial base-forming period shall be August through December 1967 and the minimum number of days used to compute the producer's base which will be applicable during the March through June 1968 base-paying period shall be not less than 123:

(a) For any producer, except as provided in paragraphs (b), (c), and (d) of this section, the quantity of milk receipts shall be the total pounds of producer milk received by all pool handlers from such producer during the preceding months of July through December;

(b) For any producer whose milk was received during the preceding months of July through December at a plant which became a pool plant after the beginning of such base-earning period, the quantity of milk receipts shall be the total pounds of milk received from such dairy farmer during such July–December period by pool handlers as producer milk or at the plant as a nonpool plant;

(c) For any producer who, during any of the three base-earning months July through September the preceding year (two base-earning months of August and September 1967 during the initial base-earning period), qualified under Order 3 (Washington, D.C.) or Order No. 16 (Upper Chesapeake Bay) as a producer and was a producer under Order No. 4 during all of each of the three remaining base-earning months of October, November, and December, the quantity of milk receipts shall be the total pounds of milk received from such farmer during all of the months of July through December by pool handlers under each of the orders; or

(d) For any producer not described in paragraphs (b) or (c) of this section but whose milk was received by a handler as producer milk during the months of September, October, November, and December of the preceding year at a pool plant at which receipt of his milk in the immediately preceding months of July and August would have qualified or did qualify him as a "dairy farmer for other markets" pursuant to § 1004.14(b), the quantity of milk receipts shall be the total pounds of milk received from such producer by pool handlers during such months of July through December and verified receipts at the nonpool plant of the handler, affiliate of the handler or any person who controls or is controlled by the handler during such months of July through September.

4. A new § 1004.64 is added to read as follows:

§ 1004.64 Base rules.

The following rules shall apply in connection with the establishment of bases:

(a) A base computed pursuant to § 1004.63 or as designated pursuant to paragraph (c) of this section may be transferred in its entirety to any other person upon written application to the market administrator on or before the second day of the month following the month of transfer. Such application shall be on a form approved by the market administrator and shall be signed by the base holder, or his heirs, or assigns and by the person to whom such base is to be transferred: *Provided*, That if a base is held jointly, the entire base shall be transferable only upon receipt of such application signed by all joint holders or their heirs, or assigns;

(b) If a producer operates more than one farm, and milk is received from each at a pool plant or by a cooperative association in its capacity as a handler pursuant to § 1004.10 (b) or (c), he shall establish a separate base with respect to producer milk delivered from each such farm;

(c) Only one base shall be allotted with respect to milk produced by one or more persons where the dairy farm is jointly owned or operated: *Provided*, That in the case of a base established jointly, if a copy of the partnership agreement setting forth as a percentage of the total the interests of the partners in the base is filed with the market administrator before the end of the base-making period, then upon termination of the partnership agreement each partner will be entitled to his stated share of the base to hold in his own right, or to transfer as provided in paragraph (a) of this section (including transfer to a partnership of which he is a member) such division with respect to any member of the partnership to be effective as of the end of any month during which an application for such division signed by each member is received by the market administrator.

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders have been met and for the provisions relating to the base and excess plan, unless and until the requirements of section 608c(5)(B)(ii)(d) of the Agricultural Marketing Agreement Act of 1937, as amended, have been met.

5. In § 1004.71, the introductory paragraph and paragraph (f) are revised to read as follows:

§ 1004.71 Computation of uniform price.

For each month the market administrator shall compute the weighted average price and for each of the months of July through February the uniform price per hundredweight of milk received from producers as follows:

* * * * *

(f) Subtract not less than four cents or more than five cents per hundredweight. The result shall be the single "weighted average price" and also the "uniform price" per hundredweight for milk of 3.5 percent butterfat received from producers in the months of July through February.

6. A new § 1004.72 is added to read as follows:

§ 1004.72 Computation of uniform prices for base milk and excess milk.

For each of the months of March through June the market administrator shall compute the uniform prices per hundredweight for base milk and excess milk received from producers, each of 3.5 percent butterfat content, f.o.b. market, as follows:

(a) Compute the aggregate value of excess milk for all handlers included in the computations pursuant to § 1004.71 (a) as follows:

(1) Multiply the hundredweight quantity of such milk which does not exceed the total quantity of producer milk received by such handlers assigned to Class II milk by the Class II milk price;

(2) Multiply the remaining hundredweight quantity of excess milk by the Class I milk price; and

(3) Add together the resulting amounts;

(b) Divide the total value of excess milk obtained in paragraph (a) of this section by the total hundredweight of such milk and round to the nearest cent. The resulting figure shall be the uniform price for excess milk;

(c) From the amount resulting from the computations of § 1004.71 (a) through (d) subtract an amount computed by multiplying the hundredweight of milk specified in § 1004.71(c)(2) by the weighted average price;

(d) Subtract the total value of excess milk determined by multiplying the uniform price obtained in paragraph (b) of this section by the hundredweight of excess milk, from the amount computed pursuant to paragraph (c) of this section;

(e) Divide the amount calculated pursuant to paragraph (d) of this section by the total hundredweight of base milk for handlers included in these computations: *Provided*, That if the resulting price should exceed the Class I price by more than the amount deducted pursuant to paragraph (f) of this section the aggregate amount in excess thereof shall be included in the computation of the excess price pursuant to paragraph (a) of this section, except that if by such addition the excess price should exceed the base price then the aggregate amount of the excess shall be prorated to the aggregate values of base milk and excess milk on the basis of the respective volumes of base and excess milk; and

(f) Subtract not less than four cents nor more than five cents from the price computed pursuant to paragraph (e) of this section. The resulting figure shall be the uniform price for base milk.

7. In § 1004.80, paragraph (a) and subparagraph (2) of paragraph (d) are revised to read as follows:

§ 1004.80 Time and method of payment.

(a) Except as provided in (b) and (d) of this section, each pool handler shall make payment as specified in subparagraph (1) and (2) of this paragraph to each producer from whom milk is received.

(1) On or before the last day of each month at not less than the Class II price for the preceding month per hundredweight for his deliveries of producer milk during the first 15 days of the months of July through February and for his deliveries of base milk during the first 15 days of the months of March through June; and

(2) On or before the 20th of the following month at not less than the uniform price computed pursuant to § 1004.71 for the month of July through February and at not less than the price for base milk computed pursuant to § 1004.72 (c) through (f) with respect to base milk received from such producer and not less than the excess price determined pursuant to § 1004.72 (a) and (b) for excess milk received from such producers for the months of March through June subject to the following adjustments:

(i) Proper deductions authorized in writing by such producers;

(ii) Partial payments made pursuant to subparagraph (1) of this paragraph;

(iii) The butterfat differential computed pursuant to § 1004.81; and

(iv) Less the location differential received pursuant to § 1004.82: *Provided*, That if by such date such handler has not received full payment from the market administrator pursuant to § 1004.85 for such month he may reduce pro rata his payments to producers by not more than the amount of such underpayment. Payment to producers shall be completed thereafter not later than the date for making payments pursuant to this paragraph next following after receipt of the balance due from the market administrator;

* * * * *

(d) * * *

(2) A final payment equal to the value of such milk at the uniform price(s) adjusted by the applicable differentials pursuant to §§ 1004.81 and 1004.82, less the amount of partial payment on such milk.

8. Section 1004.82 is revised to read as follows:

§ 1004.82 Location differential to producers.

(a) For milk received from producers and from cooperative association handlers pursuant to § 1004.10(c), subject to the exception contained in § 1004.15(d):

(1) The uniform price computed pursuant to § 1004.71 during any month(s) of July through February and the uniform price for base milk computed pursuant to § 1004.72 for base milk received from producers during any month(s) of March through June at a pool plant located at least 45 miles from the nearest of the city halls, in Philadelphia, Pennsylvania; Atlantic City or Trenton, New Jersey, by the shortest highway distance as determined by the market administrator shall be reduced 25 cents plus one and one-half cent for each additional 10 miles.

(2) The uniform price for excess milk computed pursuant to § 1004.72 for excess milk received from producers during any month(s) of March through June at a pool plant at which a location differential applies shall be reduced by a location differential computed pursuant to § 1004.82(c).

(b) For purposes of computations pursuant to §§ 1004.84 and 1004.85 the weighted average price shall be reduced at the rates set forth in paragraph (a) (1) of this section applicable at the location of the plant(s) at which the milk was received with respect to other source milk for which a value is computed pursuant to § 1004.70(e) (1) and at the location of the nonpool plant(s) from which the milk was received with respect to other source milk for which a value is computed pursuant to § 1004.70(e)(2).

9. In § 1004.84, paragraph (b) is revised to read as follows:

§ 1004.84 Payments to the producer-settlement fund.

* * * * *

(b) The sum of:

(1) The value of milk received by such handler from producers and from cooperative association handlers pursuant to § 1004.10(c) at the applicable uniform price(s) pursuant to § 1004.71 and § 1004.72 adjusted by producer butterfat and location differentials, less in the case of a cooperative association on milk for which it is a handler pursuant to § 1004.10(c), the amount due from other handlers pursuant to § 1004.80(d); and

(2) The value at the weighted average price adjusted by the producer butterfat differential pursuant to § 1004.81 and the location differential on nonpool milk pursuant to § 1004.82(b) (not to be less than the value at the Class II price) with respect to other source milk for which values are computed pursuant to § 1004.70(e).

[7 CFR Part 1032]

MILK IN SOUTHERN ILLINOIS MARKETING AREA

Notice of Proposed Suspension of Certain Provision of Order

Notice is hereby given that, pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), the suspension of a certain provision of the order regulating the handling of milk in the Southern Illinois marketing area is being considered for the month of August 1967.

The provision proposed to be suspended is in § 1032.14(b)(2) and reads as follows, "during the months of May and June and in any month for not more than 8 days of production of producer milk by such producer", relating to diversion of producer milk to nonpool plants.

This suspension action was requested by a handler and several cooperative associations. It is contended that without this action it would be necessary during August 1967 for large quantities of producer milk to be received at pool plants before being transferred to nonpool plants for manufacturing. This suspension is requested to enhance the efficient movement of producer milk direct from farms of producers to nonpool manufacturing plants.

All persons who desire to submit written data, views, or arguments in connection with the proposed suspension should file the same with the Hearing Clerk, Room 112, Administration Building, U.S. Department of Agriculture, Washington, D.C. 20250, not later than 3 days from the date of publication of this notice in the FEDERAL REGISTER. All documents filed should be in duplicate.

All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Signed at Washington, D.C., on July 13, 1967.

CLARENCE H. GIRARD,
Deputy Administrator,
Regulatory Programs.

[7 CFR Part 1076]

[Docket No. AO 260-A10]

MILK IN EASTERN SOUTH DAKOTA MARKETING AREA

Notice of Recommended Decision and Opportunity To File Written Exceptions on Proposed Amendments to Tentative Marketing Agreements and to Order

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the filing with the Hearing Clerk of this recommended decision with respect to proposed amendments to the tentative marketing agreement and order regulating the handling of milk in the Eastern South Dakota marketing area. Interested parties may file written exceptions to this decision with the Hearing Clerk, U.S. Department of Agriculture, Washington, D.C. 20250, by the 10th day after publication of this decision in the FEDERAL REGISTER. The exceptions should be filed in quadruplicate. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Preliminary statement. The hearing on the record of which the proposed amendments, as hereinafter set forth, to the tentative marketing agreement and to the order as amended, were formulated, was conducted at Sioux Falls, S. Dak., on April 20, 1967, pursuant to notice thereof which was issued April 3, 1967 (32 F.R. 5638).

The material issues on the record of the hearing relate to:

1. The pool status of a stand-by plant operated by a cooperative association;
2. Revising the diversion provisions;
3. Accounting for route returns;
4. Replacing the "base-excess" plan with a "Louisville" plan of seasonal price adjustment; and
5. The administrative assessment.

The notice of hearing contained a proposal to remove Walworth County, S. Dak., from the marketing area. No one appeared at the hearing to support this proposal. Since no evidence was presented with respect to it, it will receive no further consideration in this decision.

Findings and conclusions. The following findings and conclusions on the material issues are based on evidence presented at the hearing and the record thereof.

1. *The pool plant status of a plant operated by a cooperative association.* A plant, other than a distributing plant operated by a cooperative association should be a pool plant regardless of the volume of milk which moves from such plant to the pool plants of other handlers if more than 50 percent of the total milk supply of producers who are members of such cooperative association is shipped to pool distributing plants of other handlers either directly from the farm or by transfer from the plant of the cooperative association. A distributing plant operated by a cooperative association should continue to be required to meet the same performance standards as all other distributing plants to qualify for pool status.

The major cooperative association in the market operates a plant at Sioux Falls, S. Dak., where the major portion of the reserve supply of the market is manufactured into dairy products, primarily butter and nonfat dry milk. Milk is also received from manufacturing grade producers.

In addition to its manufacturing facilities, this plant has limited storage facilities for the handling of Grade A milk. These have been approved by the appropriate health authorities as a source of Grade A milk for both the local market and for interstate shipment. In the past, this plant has not served as a regular source of supply for pool plants, although occasional deliveries of fluid milk products are made to pool plants to supplement direct farm receipts. Occasionally in the past milk has also been shipped from the cooperative plant to markets to the south for fluid use.

Because of the limited volume of milk which moves through the plant en route to pool plants, this plant is unable to qualify as a pool plant. The producer milk received at such plant retains its pool status only as diverted milk.

At the present time, the market is undergoing a substantial change in the pattern of milk distribution. Several mergers and consolidations of distribution plants have already taken place, with the resultant closing of plants and the concentration of the bottling operation in a few large plants. This trend is expected to continue.

Throughout the marketing area there are several population centers, each of which had its own bottling plants and a local supply of milk. As these bottling plants close, it becomes increasingly necessary to receive the milk of the producers who supplied these plants at a central point where it can readily be moved to the remaining plants for fluid use or manufactured into dairy products when not needed for fluid uses.

The cooperative plant in addition to serving as the principal outlet for the reserve supply of the market, is taking on the function of a balancing plant for the handlers in the market. Even with an increased demand from pool distributing plants for milk from the cooperative plant as a result of the changing market situation, it is unlikely that it will meet the pooling standards in the immediate future. Since it may become necessary to receive the milk of some producers at this plant almost every day, the diversion provisions alone no longer provide a satisfactory means of retaining the milk of such producers in the pool.

The cooperative plant acts as the surplus disposal plant not only for the milk of its own members, but also for the milk of the smaller local bargaining cooperatives in the market, whenever requested to do so. This plant is being called on to handle more and more of the milk of the smaller organizations. As a result of the consolidation of plants described elsewhere in this decision, some of these cooperatives find it difficult to dispose of milk in the immediate vicinity of the producers' farms and the cooperative plant at Sioux Falls becomes the logical outlet for such milk.

The proposal of the cooperative associations was to grant pool plant status to a plant operated by a cooperative association whose members constitute the majority of the producers on the market. While such a provision would accommodate the situation in the market at the present time, it would not be appropriate if conditions were to change to the point that the major cooperative no

longer represented a majority of the producers on the market. Similarly, it would not apply if it became necessary for one of the other cooperative associations to acquire a plant to handle the reserve supplies of the market.

Therefore, the order should provide that a plant operated by a cooperative association whose primary function is supplying milk to pool distributing plants of other handlers should be a pool plant. This will accommodate the efficient and orderly handling of the market's supply at the present time and prevent hardship resulting from further changes in the distribution pattern of the market that could take place in the future.

2. *Revision of the diversion provisions.* The volume of milk permitted to be diverted should be based on a percentage of total deliveries by all producers who are members of a cooperative association or whose milk is received at a pool plant. To be eligible for diversion a producer's milk should be received at a pool plant at least three days during a month.

The order currently provides that during the months of July through March the milk of an individual producer may be diverted to a nonpool plant for as many days during the month as it is received at a pool plant. With the closing of plants noted above, it has become necessary to divert increasing quantities of milk at some localities in the milkshed. Because of the location of certain farms in relation to the manufacturing plants, it is more economical to divert some loads than others.

In order to permit the most economical movement of milk and eliminate the extensive recordkeeping necessary to insure that each individual farmer's milk be received at a pool plant on at least half the days of delivery, the diversions should be based on a percentage of total deliveries of member producer milk. For the months of July through February a cooperative should be permitted to divert milk in an amount equal to 35 percent of its member producer milk received at all pool plants during the month.

Any handler operating a pool plant would likewise be permitted to divert up to 35 percent of the receipts at the plant from producers who were not members of a cooperative association which was diverting member milk in the same month. In both cases, diversions in excess of the amount permitted would not be producer milk. The cooperative association or the plant operator who diverted the milk would be required to designate the dairy farmers whose milk would be ineligible as producer milk. In the event the diverting cooperative association or plant operator failed to designate those producers whose milk was ineligible, all of the milk diverted to a nonpool plant by such cooperative association or plant operator would forfeit its producer milk status for the month.

No percentage limitation should be placed on the percentage of milk which may be diverted during the months of March through June. The present order permits unlimited diversion in April, May and June. However, the production pattern has changed in recent years to the point where the spring flush begins in March and tapers off in June. Thus, it is now necessary to divert substantial quantities of milk in March.

The present order provides no standard for identifying a producer's association with the market during the months of unlimited diversion. In order to insure a producer's association with the market, during these months as well as during the remainder of the year, it is provided that milk must be received at a pool plant from a producer at least three days each month in order for his milk to be eligible to be considered diverted milk if caused to be delivered to a nonpool plant during the remainder of the month.

3. *Accounting for route returns.* One handler proposed that the definition of a Class I product be changed to designate fluid milk products "sold" rather than "disposed of," from the plant as now required.

The purpose of his proposal was to obtain a Class II classification for packaged fluid milk products which were not sold—specifically route returns, leakers, etc. At the present time such items must be returned to the bottling plant so that the market administrator may physically verify the fact that they were dumped or disposed of as livestock feed. It was the contention of the handler that the handling and return to the plant of such items, particularly the leakers, created unsanitary conditions as well as being a nuisance.

While we sympathize with the position of the handler, the opportunity for physical verification of the return to the plant of items which left it as Class I is necessary to establish their subsequent reclassification as Class II.

The order specifically provides that any skim milk and butterfat shall be Class I unless the handler can establish to the satisfaction of the market administrator that such milk should be classified otherwise. The market administrator may reclassify a product once classified only upon verification of the fact that the original classification was incorrect. The only way the market administrator can verify that products which left a plant as packaged Class I items were subsequently utilized in a Class II classification is by a physical check of such items. Since handlers have numerous distribution points scattered over a very wide area, the only practical point for such a check is the plant at which the product originated and was originally classified as Class I.

A notation on the record of a distribution point that so many items were thrown away because of spoilage or leakage does not constitute a verifiable record. Hence, the proposal must be denied.

4. *Elimination of the base plan and the substitution of a "Louisville" plan.* The "base-excess" plan of distributing returns to producers should be replaced with a take-out and pay-back incentive plan. The latter is often referred to as the "Louisville" plan.

Witnesses testified that the base and excess plan recently has become a cause of dissatisfaction to producers, particularly among members of the largest cooperative on the market. In recent months manufacturing plants in the area where these producers are located have been paying for manufacturing grade milk prices which are in excess of the average of the Minnesota-Wisconsin price series. This price series is used under the order for pricing Class II milk. It is also the price which producers receive for milk delivered in excess of base milk.

This price disparity is further aggravated by the fact that the average charge for hauling milk from the more distant farms to plants in Sioux Falls approximates 35 cents per hundredweight while the average charge from the farm to manufacturing plants is only 20 cents per hundredweight.

Producers object to receiving for their Grade A excess milk a lesser price than is being paid for manufacturing milk. Some producers have attempted to ship part of their milk to manufacturing plants and ship only their base milk to market. This practice, if increased, could disrupt the orderly marketing of milk and result in shortages of milk for the fluid market if many producers chose the same day to sell to a manufacturing plant.

Another consideration for terminating the base plan is the dislocation of producers that has occurred in some areas because of the plant consolidation discussed above and the resulting necessity of diverting substantial quantities of milk to nonpool plants. The fear was expressed that some producers might be overdiverted during the base-forming period. Since the overdiverted milk could not be included in establishing a producer's base, such producers would be seriously penalized through no fault of their own.

While all of the cooperative associations on the market favored the termination of the base plan, they felt that some seasonal adjustment of producer prices was necessary to maintain a favorable pattern of production.

The plant adopted herein provides that 15 cents per hundredweight be deducted in the computation of the uniform price in each of the months of March, April, May, and June. One-third of the amount so deducted would be added back in the uniform price computation for each of the months of September, October, and November.

This plan is necessary to provide the seasonal variation in prices to producers that will furnish them the incentive to maintain or improve the present seasonal pattern of production, thus insuring an adequate supply of pure and wholesome milk at all times. During the 4 months of heaviest production the uniform price will be reduced 15 cents per hundredweight. During the three months of shortest production the uniform price will be enhanced approximately 22 cents as a result of the payback's being made in the three months when production is lowest. The difference between spring and fall prices will be further accentuated by the fact that utilization in the short months is somewhat higher than in the spring as well as by the fact that class prices normally reach their peak at that time. It is estimated that the total difference between uniform prices in spring and fall will average approximately 45 cents per hundredweight.

The amount of the take-out and payback is less than that provided in a similar provision of the adjoining Sioux City, Iowa, order. The cooperative associations are confident, however, that the amounts provided herein will provide sufficient seasonal variation in price to maintain the present level production pattern.

5. *The administrative assessment.* No change should be made either in the maximum rate of the administrative assessment or in the manner of its application to partially regulated distributing plants.

It was proposed by a handler representative that the maximum rate of the administrative assessment be reduced from 5 cents to 4 cents, the amount presently being deducted to defray the costs of administering the order.

Although the 4-cent deduction is providing sufficient funds for the operations of the order at the present time, it is not impossible that at some time in the future additional expenses might be incurred which would require an increase in the amount of the assessment. While such an eventuality is not anticipated, in the event it should occur the market administrator should be in a position to secure the necessary funds without the formality of an amendment to the order. Hence, the maximum rate of assessment permissable should be maintained at five cents.

The same handler proposed that the monthly administrative assessment charged to a partially regulated distributing plant should be not less than the actual cost incurred by the market administrator in verifying the records of such plant.

No change should be made in the order in this respect. A uniform program for applying the administrative assessment to partially regulated plants was made effective by amendment to all orders which were in effect on July 1, 1967, following the decision of the Assistant Secretary of June 19, 1964 (29 F.R. 9214). The findings of that decision as they applied to the Eastern South Dakota and Sioux Falls-Mitchell orders, since merged into the present Eastern South Dakota order, are still applicable to the present marketing area. Therefore, official notice is taken of the pertinent portions of the decision of June 19, 1964.

The question was also raised as to application of the administrative assessment when milk is purchased from the cooperative association as a handler. We believe the present order provisions are clear that the receiving handler is responsible for the administrative assessment when he receives milk from producers who are members of a cooperative association which is the handler for their milk. Hence, no amendment of the order in this respect is necessary.

Rulings on proposed findings and conclusions. Briefs and proposed findings and conclusions were filed on behalf of certain interested parties. These briefs, proposed findings and conclusions and the evidence in the record were considered in making the findings and conclusions set forth above. To the extent that the suggested findings and conclusions filed by interested parties are inconsistent with the findings and conclusions set forth herein, the requests to make such findings or reach such conclusions are denied for the reasons previously stated in this decision.

General findings. The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) The tentative marketing agreement and the order, as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(b) The parity prices of milk as determined pursuant to section 2 of the Act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the proposed marketing agreement and the order, as hereby proposed to be amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The tentative marketing agreement and the order, as hereby proposed to be amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

Recommended marketing agreement and order amending the order. The following order amending the order as amended regulating the handling of milk in the Eastern South Dakota marketing area is recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out. The recommended marketing agreement is not included in this decision because the regulatory provisions thereof would be the same as those contained in the order, as hereby proposed to be amended:

§ 1076.12 [Amended]

1. In the introductory text preceding paragraph (a) of § 1076.12, the phrase "in paragraph (a) or (b)" is changed to read "in paragraph (a), (b), or (c)".

2. Section 1076.12 is revised by adding thereto a new paragraph (c) to read as follows:

(c) A plant, other than a distributing plant, operated by a cooperative association if more than 50 percent of the total milk supply of producer members of such cooperative association is shipped to pool distributing plants of other handlers during the month, either directly from the farm or by transfer from the plant of the cooperative association: *Provided*, That if a portion of such association's plant is physically apart from the Grade A portion of such plant, is operated separately and is not approved by any health authority for the receiving, processing or packaging of any fluid milk product for Grade A disposition, it shall not be considered as part of a pool plant pursuant to this section.

3. In § 1076.14, paragraph (c) is revised to read as follows:

§ 1076.14 Producer milk.

* * * * *

(c) With respect to diversions to nonpool plants pursuant to paragraphs (a) (2) and (b) (1) of this section:

(1) A cooperative handler may divert for its account the milk of any member producer, whose milk is delivered to a distributing pool plant on at least 3 days during the month during the other days of such month. The total quantity of milk so diverted may be without limit during the months of March, April, May, and June, but shall not exceed 35 percent of its member producer milk received at all pool plants during any other month of the year. Diversions in excess of such percentage shall not be considered producer milk, and the diverting cooperative shall specify the dairy farmers whose milk is ineligible as producer milk. If the cooperative association fails to designate such dairy farmers whose milk is ineligible, producer milk status shall be forfeited with respect to all milk diverted to a nonpool plant by such cooperative association; and

(2) A handler in his capacity as the operator of a distributing pool plant may divert for his account the milk of any producer, other than a member of a cooperative association which has diverted milk pursuant to subparagraph (1) of this paragraph, whose milk is received at a pool plant on at least 3 days during the month, without limit during the other days of such month. The total quantity of milk so diverted may be without limit during the months of March, April, May, and June, but during any other month of the year shall not exceed 35 percent of the milk received from producers who are not members of a cooperative association which has diverted milk pursuant to subparagraph (1) of this paragraph. Diversions in excess of such percentage shall not be considered producer milk, and the diverting handler shall specify the dairy farmers whose milk is ineligible as producer milk. If the handler fails to designate such dairy farmers whose milk is ineligible, producer milk status shall be forfeited with respect to all milk diverted to a nonpool plant by such handler; and

(3) For the purpose of location adjustments pursuant to §§ 1076.53 and 1076.75, milk so diverted shall be priced at the location of the plant from which diverted.

§§ 1076.19, 1076.20 [Revoked]

4. Sections 1076.19 and 1076.20 are revoked.

5. In § 1076.27 paragraph (j) (2) is revised and (j) (3) is revoked as follows:

§ 1076.27 Duties.

* * * * * *

(j) * * *

(2) The 12th day of each month the uniform price computed pursuant to § 1076.72 and the producer butterfat differential computed pursuant to § 1076.74;

(3) [Revoked]

* * * * * *

6. In § 1076.30, paragraph (a) (1) (i) is revised to read as follows:

§ 1076.30 Reports of receipts and utilization.

* * * * * *

(a) * * *

(1) * * *

(i) Producer milk,

* * * * * *

7. In § 1076.31, paragraph (b) is revised to read as follows:

§ 1076.31 Payroll reports.

* * * * * *

(b) The pounds of milk received and the average butterfat content thereof;

* * * * * *

8. In § 1076.72 the heading "Computation of weighted average price" is changed to "Computation of uniform price," paragraph (b) is revised, and new paragraphs (c) through (g) are added to read as follows:

§ 1076.72 Computation of uniform price.

* * * * * *

(b) Subtract not less than four cents nor more than five cents from the price computed pursuant to paragraph (a) of this section. The result shall be known as the "weighted average price", and except for the months of March through June and September through October, shall be the uniform price for milk received from producers;

(c) For the months specified in paragraphs (d) and (e) of this section, subtract from the amount resulting from the computations pursuant to § 1076.71 an amount computed by multiplying the hundredweight of milk specified in paragraph (a) (2) of this section by the weighted average price;

(d) Subtract during each of the months of March, April, May and June an amount computed by multiplying the total hundredweight of producer milk for such month by 15 cents;

(e) Add during each of the months of September, October and November one-third of the amount subtracted pursuant to paragraph (d) of this section;

(f) Divide the resulting sum by the total hundredweight of producer milk included in these computations; and

(g) Subtract not less than four cents nor more than five cents per hundredweight. The result shall be the uniform price for milk received from producers.

§ 1076.73 [Revoked]

9. Section 1076.73 is revoked.

10. In § 1076.75, paragraph (a) is revised to read as follows:

§ 1076.75 Location differentials to producers and on nonpool milk.

(a) The uniform price computed pursuant to § 1076.72 for producer milk received at a pool plant shall be reduced according to the location of the pool plant, at the rates set forth in § 1076.53; and

* * * * * *

11. In § 1076.76, paragraph (b) is revised to read as follows:

§ 1076.76 Notification of handlers.

* * * * * *

(b) The uniform price computed pursuant to § 1076.72.

* * * * * *

§ 1076.80 [Amended]

12. In paragraph (a) (2) of § 1076.80, the word "prices" is changed to "price" and the phrase "and 1076.73" is deleted.

§§ 1076.90–1076.92 [Revoked]

13. Sections 1076.90, 1076.91, and 1076.92 and the centerhead applicable thereto are revoked.

Signed at Washington, D.C., on July 13, 1967.

CLARENCE H. GIRARD,
Deputy Administrator,
Regulatory Programs.

[7 CFR Part 1133]

[Docket No. AO275-A17]

MILK IN INLAND EMPIRE MARKETING AREA

Notice of Hearing on Proposed Amendments to Tentative Marketing Agreement and Order

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of a public hearing to be held at the Ridpath Hotel, West 510 Sprague Avenue, Spokane, Wash., beginning at 9:30 a.m., local time, on July 25, 1967, with respect to proposed amendments to the tentative marketing agreement and to the order, regulating the handling of milk in the Inland Empire marketing area.

The public hearing is for the purpose of receiving evidence with respect to the economic and marketing conditions which relate to the proposed amendments, hereinafter set forth, and any appropriate modifications thereof, to the tentative marketing agreement and to the order.

The proposed amendments, set forth below, have not received the approval of the Secretary of Agriculture.

Proposed by Spokane Milk Producers Association:

Proposal No. 1. In § 1133.12(c) revise subparagraphs (1) and (2) to read as follows:

§ 1133.12 Producer milk.

* * * * * *

(c) * * *

(1) A cooperative association may divert for its account, pursuant to paragraph (b) (1) of this section, the milk of a member producer eligible for diversion. The total quantity of milk so diverted however may not exceed the amount of milk delivered directly from the farm to pool distributing plants by member producers. Two or more cooperative associations may have their allowable diversions computed on the basis of the combined deliveries of milk by their member producers if each association has filed in writing with the market administrator a request for such computation;

(2) A handler operating a pool distributing plant may divert for his account, pursuant to paragraph (a) (2) of this section, the milk of any producer eligible for diversion other than a member of a cooperative association which diverts milk pursuant to subparagraph (1) of this paragraph. The total quantity of milk so diverted however may not exceed the amount of milk delivered directly to the handler's pool distributing plant by producers who are not members of a cooperative association which diverts milk pursuant to subparagraph (1) of this paragraph;

* * * * * *

Proposal No. 2. In § 1133.41, revise paragraphs (b) and (c) to read as follows:

§ 1133.41 Classes of utilization.

* * * * * *

(b) *Class II milk.* Class II milk shall be all skim milk and butterfat used to produce any product other than a fluid milk product or a Class III product.

(c) *Class III milk.* Class III milk shall be all skim milk and butterfat:

(1) Used to produce butter, whole or skim milk powder and Cheddar cheese.

Proposal No. 3. In § 1133.51, revise paragraph (b), the introductory text of (c), and (c) (3) to read as follows:

§ 1133.51 Class prices.

* * * * * *

(b) *Class II milk.* The price for Class II milk shall be the basic formula price for the month, plus 25 cents; and

(c) *Class III milk.* The price of Class III milk shall be that computed by the market administrator from the formula set forth in subparagraphs (1), (2), and (3) of this paragraph: *Provided,* That this price shall be effective during the period from the effective date of this order through March 31, 1968. Thereafter the price for Class III milk shall be the basic formula price for the month.

* * * * * *

(3) From the sum of the results arrived at under subparagraphs (1) and (2) of this paragraph, subtract $1, plus five times the butterfat differential computed pursuant to § 1133.53(b), and round to the nearest cent.

* * * * * *

Proposed by Inland Empire Dairy Association:

Proposal No. 4. Revise § 1133.7 to read as follows:

§ 1133.7 Plant.

"Plant" means the land, buildings, facilities and equipment, whether owned or operated by one or more persons, constituting a single operating unit or establishment which is maintained and operated primarily for receiving, processing or packaging of milk and milk products: *Provided,* That a separate establishment used only for the purpose of transferring bulk milk from one tank truck to another shall not be a plant under this definition.

Proposal No. 5. In § 1133.8(a) revise subparagraph (1) to read as follows:

§ 1133.8 Pool plant.

* * * * * *

(a) * * *

(1) Disposition of fluid milk products on routes within the marketing area equals or exceeds the lesser of 100,000 pounds or 10 percent of the total receipts of Grade A milk from dairy farmers, cooperative associations pursuant to § 1133.15(d), and from supply pool plants and other plants forwarding the applicable percentage of receipts specified in paragraph (b) of this section to such plant and other pool distributing plants; and

* * * * * *

Proposal No. 6. In § 1133.8 revise paragraph (b) to read as follows:

§ 1133.8 Pool plant.

* * * * * *

(b) Any plant, hereinafter referred to as a "supply pool plant", from which there is forwarded to a pool distributing plant(s) 50 percent or more each of the skim milk and butterfat in its dairy farm supply of Grade A milk during the current month during the period of September through January, or 20 percent or more during the current month during the period February through August. Any such plant which has forwarded more than 50 percent of such receipts for the entire period September through January shall be a pool plant for the months of February through August immediately following unless the operator of such plant files with the market administrator, prior to the first day of any month(s), a written request to withdraw such plant from pool plant status for such month(s); and

* * * * * *

Proposed by Dairy Division, Consumer and Marketing Service:

Proposal No. 7. Make such changes as may be necessary to make the entire marketing agreement and the order conform with any amendments thereto that may result from this hearing.

Copies of this notice of hearing and the order may be procured from the Market Administrator, James A. Burger, North 811 Jefferson, Room 115, Spokane, Wash. 99201, or from the Hearing Clerk, Room 112-A, Administration Building, U.S. Department of Agriculture, Washington, D.C. 20250 or may be there inspected.

Signed at Washington, D.C., on July 13, 1967.

CLARENCE H. GIRARD,
Deputy Administrator,
Regulatory Programs.

COTTONSEED PROCESSING INDUSTRY

Handling, Storing, Preparing, and Seasonal Peaks of Perishable Agricultural Commodities

Pursuant to Reorganization Plan No. 6 of 1950 (3 CFR 1949–53 Comp., p. 1004), General Order No. 45-A of the Secretary of Labor (15 F.R. 3290), and 29 CFR Part 526 (32 F.R. 5775), I propose to make the determinations and the amendment to 29 CFR 526.11 which will result in application of the partial overtime compensation exemption provided in section 7(d) of the Fair Labor Standards Act of 1938 (29 U.S.C. 207(d)) to the cottonseed processing industry.

The procedure for making these determinations (including their effect, and the meaning of the words used to frame the issues) will be governed by 29 CFR Part 526 (32 F.R. 5775). The issues to be considered are:

(a) Is the industry engaged in the handling, storing, preparing or first processing of perishable agricultural commodities in their raw or natural state?

(b) Is the industry characterized by marked annually recurring seasonal peaks of operation at the places of first marketing or first processing of perishable agricultural commodities from farms?

For the purpose of this proposal, the cottonseed industry consists of the following operations only: The receiving, handling, and storing of cottonseed; the processing of cottonseed during the period when the seed is being received, and any operations necessary and incident to the foregoing during this period.

Interested persons are invited to participate in the proceedings through the submission of pertinent written data, views, or argument to the Administrator, Wage and Hour and Public Contracts Divisions, U.S. Department of Labor, 14th Street and Constitution Avenue NW., Washington, D.C. 20210, within 30 days after this document is published in the FEDERAL REGISTER.

Signed at Washington, D.C., this 14th day of July 1967.

CLARENCE T. LUNDQUIST,
Administrator, Wage and Hour and Public Contracts Divisions, U.S. Department of Labor.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Saint Elizabeths Hospital

[42 CFR Part 306]

FEES AND CHARGES FOR COPYING, CERTIFICATION, SEARCH OF RECORDS, AND RELATED SERVICES

Notice of Proposed Rule Making

Notice is hereby given that it is proposed to amend Chapter III, Title 42, Code of Federal Regulations by adding Part 306 establishing fees to be charged for the furnishing of abstracts of medical records and related services.

The regulation will become effective upon republication.

Interested persons may submit written data, views, or arguments in regard to the proposed regulation to the Superintendent, Saint Elizabeths Hospital, Washington, D.C. 20032. All relevant material received not later than 30 days after publication of this notice will be considered.

Chapter III of Title 42 is amended by adding a new Part 306 reading as follows:

§ 306.1 Fees and charges for copying, certification, search of records, and related services.

A prescribed fee, in accordance with the schedule in paragraph (c) of this section, shall be collected for each of the listed services.

(a) *Application for services.* Any person requesting (1) a copy of a clinical record, clinical abstract, or other document; or (2) a certification of a clinical record or other document; or (3) a search of clinical or other records, shall make written application therefor to the Hospital. Such application shall state specifically the particular record or document requested. The application shall be accompanied by a deposit in an amount equal to the prescribed charge for the service requested. Where it is not known if a clinical record or other document requested is in existence, the application shall be accompanied by a minimum deposit of $2.50.

(b) *Authorization for disclosure.* The furnishing of copies or abstracts of Hospital records must comply with the requirements of Part 300, Title 42, Code of

Federal Regulations, governing authorization for the disclosure of such information.

(c) *Schedule of fees.*

(1) Photocopy reproduction of a clinical record or other document (through use of Hospital equipment):

(a) Processing (searching, preparation, and use of equipment), first page	$3.25
(b) Each additional page	.25
(2) Certification, per document	.25
(3) Unsuccessful searching, per hour or part thereof (minimum charge 1 hour)	2.50
(4) Clinical abstracts, per request	5.00
(5) Arranging commercial duplication of a clinical record or other document, per request	5.50

(The private concern which duplicates records for an applicant will make a separate charge therefor and will bill the applicant directly.)

(6) If the requested material is to be transmitted by certified mail, registered mail, airmail, or special delivery mail, the postal fees therefor shall be added to the other fees provided above, unless the applicant has included proper postage or stamped return envelopes for this purpose.

(d) *Waiver of fee.* The prescribed fee may be waived, at the discretion of the Superintendent, under the following circumstances:

(1) When the service or document is requested by another agency of the Federal Government, by an agency of the District of Columbia or by an agency of a state, county or municipal government, for use in carrying out official business.

(2) When a clinical record, clinical abstract, or other document is requested for the purpose of providing continued medical care to a person currently or previously enrolled as a patient of the Hospital, by a non-Hospital physician, clinic, or hospital, in which case the record will be forwarded only to the physician, clinic, or hospital concerned.

(3) When the service or document is requested by, and furnished to, a Member of Congress for official use.

(4) When the service or document is requested by, and furnished to, a court in lieu of the personal court appearance of an employee of the Hospital.

(5) When the service or document is required to be furnished free in accordance with a Federal statute or an Executive order.

(6) When the furnishing of the service or document requested without charge would be an appropriate courtesy to a foreign country or international organization.

(7) When the request does not fall into any of the foregoing categories, but the furnishing of the service or document without charge is determined by the Superintendent to be in the interest of and contributing to the program of the Hospital.

(5 U.S.C. 22; 5 U.S.C. 140)

Dated: July 3, 1967.

[SEAL] DALE C. CAMERON,
Superintendent,
Saint Elizabeths Hospital.

Approved: July 12, 1967.

WILBUR J. COHEN,
Acting Secretary.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Parts 23, 91]

[Docket No. 8281; Notice No. 67-30]

INSTALLATION AND OPERATING REQUIREMENTS FOR OXYGEN EQUIPMENT AND SUPPLY

Notice of Proposed Rule Making

The Federal Aviation Administration is considering amending Parts 23 and 91 of the Federal Aviation Regulations to include requirements pertaining to the installation and use of oxygen equipment. This amendment would provide appropriate oxygen system standards for airplanes certificated under Part 23 and at the same time set forth regulations for the use of oxygen in all aircraft governed by the general operating and flight rules of Part 91.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the docket number and be submitted in duplicate to the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue SW., Washington, D.C. 20590. All communications received on or before October 16, 1967, will be considered by the Administrator before taking action upon the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

In a study concerning the physiological requirements for oxygen entitled "Oxygen in General Aviation" dated December 1964, the Office of Aviation Medicine of the FAA reported that, while individual oxygen requirements may be influenced by factors such as fatigue, age, use of drugs and tobacco, night, etc., nevertheless supplemental oxygen, dependent on altitude, is a physiological necessity for all humans. For this reason and because of the increasing number of small airplanes having high altitude capability, there appears to be a need for airplane airworthiness standards and for general operating rules relating to oxygen system requirements.

In the past, type certification of small airplanes with oxygen equipment installed has been handled on a case-by-case basis either by application of special conditions or under the general operating limitations of § 23.1501. This amendment proposes uniform airworthiness standards for oxygen equipment and supply. It also proposes performance standards relating to oxygen mass flow and equipment standards for oxygen dispensing units.

In connection with the standards for minimum mass flow of supplemental oxygen, the proposed § 23.1443 contains requirements for continuous flow but not for demand flow oxygen equipment. The requirements of the more commonly used continuous flow systems are thus covered, while the mass flow of demand systems, where such systems are used, would be approved on a case-by-case basis as before.

Parts 121 and 135 of the Federal Aviation Regulations currently prescribe oxygen requirements for pilots and passengers. For consistency in the interest of safety, all other aircraft operating in the same airspace and environmental conditions should be under comparable standards. The FAA, therefore, considers it appropriate to propose general operating and flight rules governing the use of supplemental oxygen in pressurized and unpressurized cabin aircraft.

FAA studies have indicated that for any person in a pressurized cabin subjected to decompression at the higher altitudes, the short time available to don an oxygen mask before losing consciousness may be critical. In such case, the smaller the cabin volume, the more aggravated the situation becomes. As an added operational consideration, the FAA, therefore, believes it necessary for safety, at flight altitudes above 35,000 feet, that at least one pilot at the controls be required to wear an oxygen mask. The corresponding altitude for Part 121 operations had originally been established at 35,000 feet. However, it was subsequently raised, in steps, to 41,000 feet, on the basis of the extensive operating experience with the large transport-category airplanes. This satisfactory operating experience is attributable, in part, to the stringent Part 121 crew training and maintenance requirements. Such compensating conditions do not presently exist for operations conducted under Part 91 and the proposed cutoff altitude has been accordingly set at 35,000 feet.

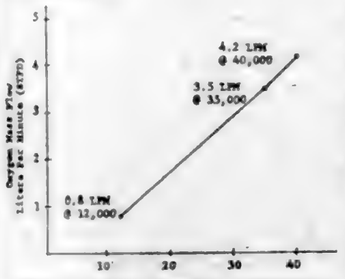
A new § 91.32 would be added to the general operating rules of Part 91 to regulate the use of supplemental oxygen throughout the range of cabin altitudes and specify the oxygen supply to be carried, including the oxygen necessary for emergency descent. Supplemental oxygen refers to any oxygen, by whatever means supplied, that is furnished in addition to the oxygen normally present in the air.

In consideration of the foregoing, it is proposed to amend the Parts 23 and 91 of the Federal Aviation Regulations as follows:

1. By amending Part 23 by adding the following new sections to Subpart F:

§ 23.1441 Oxygen equipment and supply.

(a) If certification with supplemental oxygen equipment is requested, the equipment must meet the requirements of this section and §§ 23.1443 through 23.1449.



(b) The oxygen system must be free from hazards in itself, in its method of operation, and in its effect upon other components.

(c) There must be a means to allow the crew to readily determine, during flight, the quantity of oxygen available in each source of supply.

(d) Demand flow oxygen equipment and oxygen equipment for use above 40,000 feet must be approved.

§ 23.1443 Minimum mass flow of supplemental oxygen.

If continuous flow oxygen equipment is installed for use by occupants of the airplane, the mass flow of supplemental oxygen required for each user must be at a rate not less than that shown in the following figure:

CABIN PRESSURE ALTITUDE, THOUSANDS OF FEET

§ 23.1447 Equipment standards for oxygen dispensing units.

If oxygen dispensing units are installed, the following apply:

(a) There must be an individual dispensing unit for each occupant for whom supplemental oxygen is to be supplied. Each dispensing unit must:

(1) Provide for effective utilization of the oxygen being delivered to the unit.

(2) Cover the nose and mouth of the user.

(3) Be capable of being readily placed into position on the face of the user.

(4) Be equipped with a suitable means to retain the unit in position on the face.

(b) If the airplane is designed to operate at flight altitudes up to and including 25,000 feet, an oxygen supply terminal and unit of oxygen dispensing equipment must be within reach of each member of the required minimum flight crew to provide for the immediate use of oxygen by that crewmember.

(c) If the airplane is designed to operate at flight altitudes above 25,000 feet, an oxygen dispensing unit connected to an oxygen supply terminal must be immediately available to each occupant, wherever seated.

§ 23.1449 Means for determining use of oxygen.

There must be a means to allow the crew to determine whether oxygen is being delivered to the dispensing equipment.

2. By amending Part 91 by adding the following new section:

§ 91.32 Supplemental oxygen.

(a) *General.* No person may operate a civil aircraft—

(1) At cabin pressure altitudes above 12,000 feet (MSL) up to and including 14,000 feet (MSL) for that part of the flight at those altitudes that is of more than 30 minutes duration, unless the required minimum flight crew is provided with, and uses, supplemental oxygen;

(2) At cabin pressure altitudes above 14,000 feet (MSL), unless the required minimum flight crew is provided with, and uses, supplemental oxygen during the entire flight time at those altitudes; and

(3) At cabin pressure altitudes above 15,000 feet (MSL), unless each occupant of the aircraft is provided with, and uses, supplemental oxygen.

(b) *Pressurized cabin aircraft.* No person may operate a civil aircraft with a pressurized cabin—

(1) At flight altitudes above 25,000 feet (MSL), unless at least a 10-minute supply of supplemental oxygen, in addition to any oxygen required to satisfy paragraph (a) of this section, is available for each occupant of the aircraft for use in the event that a descent is necessitated by loss of cabin pressurization; and

(2) At flight altitudes above 35,000 feet (MSL), unless at least one pilot at the controls is wearing, secured and sealed, an oxygen mask supplying oxygen.

(Sec. 313(a), 601, 603, Federal Aviation Act of 1958; 49 U.S.C. 1354(a), 1421, and 1423)

Issued in Washington, D.C. on July 11, 1967.

R. S. SLIFF,
Acting Director,
Flight Standards Service.

INTERSTATE COMMERCE COMMISSION

[49 CFR Part 281]

[No. 32156]

UNIFORM SYSTEM OF ACCOUNTS FOR CLASS I COMMON AND CONTRACT MOTOR CARRIERS OF PASSENGERS

Notice of Proposed Rule Making

JUNE 30, 1967.

Notice is hereby given pursuant to the provisions of section 4(a) of the Administrative Procedure Act that the Commission has under consideration proposed amendments of the Uniform System of Accounts for Class I Common and Contract Motor Carriers of Passengers, to be effective as of January 1, 1967, with regard to the accounting treatment of extraordinary and prior period items in the determination of net income.

The proposed regulations would (a) generally require that items affecting net income be recorded in appropriate profit and loss accounts, rather than by direct entry to earned surplus account, and (b) explain, define and provide accounts and categories for ordinary income, extraordinary items, prior period items and applicable income taxes.

The revised rules herein proposed will have several notable advantages over current regulations which conditionally permit direct entry to earned surplus. Moreover, in asserting more objective criteria with respect to determination of materiality than presently exist, the proposed changes are intended to minimise the need to interpret existing regulations.

The detailed statement of proposed rule set forth below completely states the proposed revisions to the applicable parts of the Uniform System of Accounts for Class I Common and Contract Motor Carriers of Passengers, considered necessary to accomplish the stated objectives.

All carriers affected by the proposed rules and other interested parties who desire to do so should submit written views and comments for consideration, as soon as possible, and not later than August 26, 1967. The Commission will consider all such responses and representations before deciding this matter, after which such order as may be found appropriate will be entered. An original and three copies of any such response should be submitted.

Notice shall be given Class I Common and Contract Motor Carriers of Passengers hereby affected and to the general public by depositing this notice in the office of the Secretary of the Commission at Washington, D.C., and by filing this notice with the Director, Office of the Federal Register.

(49 Stat. 546, as amended; 563, as amended; 564, as amended; 49 U.S.C. 304, 320, 322)

By the Commission, division 2.

[SEAL] H. NEIL GARSON,
Secretary.

DETAILED STATEMENT OF PROPOSED RULE

I. Instructions amended:

Item No. 1. Instruction "7 Delayed items" is revised to read as follows:

§ 281.02-7 Extraordinary and prior period items.

(a) All items of profit and loss recognized during the year are includable in ordinary income except nonrecurring items which in the aggregate for the same class are both material in relation to operating revenues and ordinary income for the year and are clearly not identified with or do not result from the usual business operations of the year. Important items of the kind which occur from time to time and which, when material in amount, are to be excluded from ordinary income are those

resulting from unusual sales of property and investment securities other than temporary cash investments; from wars, earthquakes and similar calamities and catastrophies, which are not a recurrent hazard of the business and which are not usually covered by insurance; from change in application of accounting principles; and from prior period items (other than ordinary adjustments of a recurring nature). Material items are those which unless excluded from ordinary income, would distort the accounts and impair the significance of ordinary income for the year. Items so excludable from ordinary income are to be entered in the income accounts provided for extraordinary and prior period items upon approval or direction of the Commission.

(b) In determining materiality, items of a similar nature should be considered in the aggregate; dissimilar items should be considered individually. As a general standard, an item to qualify for inclusion as an extraordinary or prior period item shall exceed 1 percent of total operating revenues and 10 percent of ordinary income for the year.

(c) Adjustments constituting items of a character typical of customary business activities or corrections or refinements resulting from the natural use of estimates inherent in the accounting process, including those arising from disposal of a unit of property sold or retired in the regular course of business operations, shall not be considered extraordinary or prior period items regardless of amount.

Item No. 2. Instruction "10 Current assets" is amended by revising paragraph (b) as follows:

§ 281.02–10 Current assets.

* * * * *

(b) Adjustments to accomplish the writing down of items of doubtful value not covered by reserves shall be made through account 4680, Uncollectible Revenues, account 7500, Other Deductions, or other appropriate ordinary income account.

Item No. 3. Instruction "12 Discount; expense and premium on capital stock" is amended by revising paragraph (c) as follows:

§ 281.02–12 Discount; expense and premium on capital stock.

* * * * *

(c) General levies or assessments against stockholders shall be credited to the premium account for the particular class and series of capital stock so assessed, except that assessments with respect to nonpar stock without stated value shall be credited to the capital stock account.

* * * * *

Item No. 4. Instruction "13 Discount; expense and premium on long-term obligations" is amended by revising the second sentence of paragraph (e) as follows:

§ 281.02–13 Discount; expense and premium on long-term obligations.

* * * * *

(e) * * * At that time (unless otherwise ordered by the Commission in the case of an exchange of securities) the portion of the balances in these accounts, or subdivision for the particular class of long-term debt reacquired, shall be transferred to account 6500, Other Nonoperating Income, or account 7500, Other Deductions, as appropriate. * * *

* * * * *

Item No. 5. Instruction "14 Company securities owned" is amended by revising the second and last sentences of paragraph (b)(1) and all of paragraph (b)(2) as follows:

§ 281.02–14 Company securities owned.

* * * * *

(b) (1) * * * The difference between the face value and the amounts actually paid for the reacquired obligations shall be included in account 6500, Other Nonoperating Income, or account 7500, Other Deductions, as appropriate. (See § 281.02–7.) Likewise, any unamortized debt discount, expense or premium, applicable to the reacquired obligations, shall be adjusted through account 6500 or account 7500, as appropriate.

(2) When reacquired equipment and other long-term obligations are resold by the carrier, the amount included in account 1920, Reacquired Securities, shall be credited thereto and any difference between the total amount realized from the sale (less related commissions and expenses) and the credit to account 1920 shall be included in account 6500 or account 7500, as appropriate, unless otherwise ordered by the Commission.

Item No. 6. Instruction "15 Book cost of securities owned" is amended by revising the last sentence of paragraph (b) and adding paragraph (e) as follows:

§ 281.02–15 Book cost of securities owned.

* * * * *

(b) * * * A reserve may be provided against declines in the value of securities by charges to account 7500, Other Deductions, or account 9010, Extraordinary Items, as appropriate. (See § 281.02–7.)

* * * * *

(e) Profits and losses resulting from the sale of securities of others shall be included in accounts 6500, Other Nonoperating Income, or 7500, Other Deductions, as appropriate; or, when qualifying as extraordinary pursuant to instruction 7, shall be included in account 9010, Extraordinary Items.

Item No. 7. Instruction "21 Operating property retired" is amended by deleting paragraph (h) and revising paragraphs (d), (f), and the last sentence of paragraph (g) as follows:

§ 281.02–21 Operating property retired.

* * * * *

(d) *Land.* When land is sold, the book cost shall be credited to the land account and any difference between the book cost and the sales price, less commissions and expenses on the sale, shall be adjusted through account 6500, Other Non-operating Income, or account 7500, Other Deductions, as appropriate. However, when the amount constitutes an extraordinary item pursuant to instruction 7, it shall be included in account 9010, Extraordinary Items.

* * * * *

(f) *Intangibles.* The accounting for the retirement of items included in account 1511, Franchises, account 1541, Patents, and intangible elements with limited terms included in account 1201, Land and Land Rights, shall be as provided in the texts of account 2600, Reserve for Amortization—Carrier Operating Property, and account 5100, Amortization of Carrier Operating Property.

(g) *Sale of property.* * * * The difference, if any, between (1) the net amount of such debit and credit items, and (2) the consideration received for the property, shall be included in account 6500, Other Non-operating Income, or account 7500, Other Deductions, as appropriate. (See § 281.02–7.)

* * * * *

(h) [Deleted]

Item No. 8. Instruction "31 Amortization of intangibles" is amended by revising paragraph (a) as follows:

§ 281.02–31 Amortization of intangibles.

(a) When it becomes reasonably evident that the term of existence of an intangible, the cost of which is included in account 1550, Other Intangible Property, has become limited or its value impaired, its cost shall be amortized or entirely written off by charges to account 7500, Other Deductions, depending on the remaining estimated period of usefulness; or the entire cost, when qualifying as extraordinary pursuant to instruction 7, may be written off by debiting account 9010, Extraordinary Items, with concurrent credit to account 2600, Reserve for Amortization—Carrier Operating Property.

* * * * *

II. Texts of balance sheet accounts amended:

Item No. 1. Account 1511 Franchises is amended by revising the first sentence of paragraph (c) as follows:

§ 281.1511 Franchises.

* * * * *

(c) When any franchises, permits, consents or certificates have expired, and are not immediately renewed, are sold or otherwise disposed of, credits to this account shall be made representing the amounts at which such items (including expenses of acquisition) are carried herein. Concurrent charges shall be made to account 2600, Reserve for Amortization—Carrier Operating Property, or to account 5100, Amortization of Carrier Operating Property, as appropriate. * * *

* * * * *

Item No. 2. Account 1541 Patents is amended by revising the second sentence of paragraph (b) as follows:

§ 281.1541 Patents.

* * * * *

(b) * * * Concurrent charge shall be made to account 2600, Reserve for Amortization—Carrier Operating Property, or to account 5100, Amortization of Carrier Operating Property, as appropriate. * * *

Item No. 6. Account 1550 Other intangible property is amended by revising paragraph (b) as follows:

§ 281.1550 Other intangible property.

* * * * *

(b) The carrier may amortize or write off the balance carried in this account by credits hereto and concurrent charges to account 7500, Other Deductions, or the entire amount carried herein for any item may be written off to account 9010, Extraordinary Items, pursuant to instruction 31.

Item No. 4. Account 1890 Other deferred debits is amended by revising the last sentence of paragraph (a) and deleting paragraph (b) as follows:

§ 281.1890 Other deferred debits.

(a) * * * If projects in connection with which such preliminary costs were incurred are abandoned, the expense shall be charged to account 7500, Other Deductions, or account 9010, Extraordinary Items, as appropriate.

(b) [Deleted]

* * * * *

Item No. 5. Account 2000 Notes payable is amended by revising "Note B" as follows:

§ 281.2000 Notes payable.

* * * * *

NOTE B: Unmatured equipment obligations shall be included in account 2190, Equipment Obligations and Other Debt Due Within One Year, or account 2300, Equipment Obligations, as appropriate.

§ 281.2500 [Amended]

Item No. 6. Account 2500 Reserve for depreciation—Carrier operating property is amended by deleting paragraph (a)(2).

Item No. 7. Account 2600 Reserve for amortization—Carrier operating property is amended by deleting the last sentence of paragraph (d) and revising paragraph (a) and the second sentence of paragraph (b) as follows:

§ 281.2600 Reserve for amortization; carrier operating property.

(a) This account shall be credited with amounts charged to account 5100, Amortization of Carrier Operating Property, or other appropriate account, for amortization of the cost of acquiring leaseholds, franchises, consents, privileges, patents, and other intangible property having a fixed term life. This account shall also be credited with amounts charged to account 7500, Other Deductions, or account 9010, Extraordinary Items, as appropriate, for the amortization or writeoff of cost of acquiring perpetual leaseholds and of intangible property which does not have a fixed term life.

(b) * * * The difference between the proceeds realized and the net book cost (see definition 29 and instruction 21) of the property retired shall be included in account 5100, Amortization of Carrier Operating Property.

* * * * *

Item No. 8. Account 2930 Earned surplus is amended by revising the first sentence of paragraph (a) and paragraph (b) as follows:

§ 281.2930 Earned surplus.

(a) This account shall include the balance of the amounts included in accounts 2932 to 2946, inclusive, either debit or credit, of unappropriated surplus arising from earnings. * * *

(b) The balance of all earned surplus accounts (2932 to 2946, inclusive) shall be closed to this account at the end of each calendar year.

III. Texts of earned surplus accounts deleted and amended:

§§ 281.2931, 281.2941 [Deleted]

Item No. 1. The following accounts are deleted:

2931 Surplus credits applicable to prior years.

2941 Surplus debits applicable to prior years.

Item No. 2. Account 2933 Other credits to surplus is amended to read as follows:

§ 281.2933 Other credits to surplus.

(a) This account shall include other credit adjustments, net of assigned income taxes, not provided for elsewhere in this system but only after such inclusion has been authorized by the Commission.

(b) The records supporting entries in this account shall be so maintained that an analysis thereof may be readily made available.

§ 281.2946 [Amended]

Item No. 3. Account 2946 Other debits to surplus is amended as follows:

(a) The "Note" is designated account 2999.

(b) The account is revised to read as follows:

(a) This account shall include (1) charges which reduce or write off discount on capital stock issued by the company, and (2) in pooling of equity interests situations, the excess of the value of the surviving company's capital stock over the aggregate total of the capital stock of the separate companies before such merger or consolidation, but only to the extent that unearned surplus is not available for such purposes. (See §§ 281.02–21(d) and 281.02–20(a)(2)(ii).)

(b) This account shall include other debit adjustments, net of assigned income taxes, not provided for elsewhere in this system but only after such inclusion has been authorized by the Commission.

(c) The records supporting entries in this account shall be so maintained that an analysis thereof may be readily made available.

IV. Form of balance sheet statement amended:

§ 281.2999 [Amended]

Item No. 1. Account 2999 Form of balance sheet statement is amended by deleting the following line items from the Asset Side:

1920, Reacquired Securities:
(a) Pledged.
(b) Unpledged.
1990, Nominally Issued Securities:
(a) Pledged.
(b) Unpledged.

V. Texts of income accounts deleted and amended:

Item No. 1. Account 4652 Employees' welfare expenses is amended by revising the first sentence of paragraph (c) as follows:

§ 281.4652 Employees' welfare expenses.

* * * * *

(c) Upon the adoption of the accrual plan of accounting, pension payments to employees retired before the adoption of such plan shall be charged to an existing pension reserve, this account 4652 or account 9010, Extraordinary Items, as appropriate. * * *

§ 281.5100 [Deleted]

Item No. 2. Account 5100 Amortization chargeable to operations is deleted.

§ 281.5100 [Redesignated]

Item No. 3. Account 5110 Amortization of carrier operating property is redesignated account 5100.

§ 281.5120 [Deleted]

Item No. 4. Account 5120 Property loss chargeable to operations is deleted.

Item No. 5. Account 5200 Operating taxes and licenses is amended by revising paragraph (a) as follows:

§ 281.5200 Operating taxes and licenses.

(a) This account shall include the amount of Federal, State, county, municipal and other taxing district taxes, which relate to motor carrier operations and property used therein (except taxes provided for in account 8000, Income Taxes on Ordinary Income).

* * * * *

Item No. 6 Account 8000 Provision for income taxes is amended by revising the title and paragraph (a) as follows:

§ 281.8000 Account 8000 Income taxes on ordinary income.

(a)(1) Monthly accruals for Federal, State or other income taxes applicable to ordinary income shall be included in this account. See texts of account 9050, Income Taxes on Extraordinary and Prior Period Items, account 2933, Other Credits to Surplus, and account 2946, Other Debits to Surplus, for recording other income tax consequences.

(2) Details pertaining to the tax consequences of other unusual and significant items and also cases where the tax consequences are disproportionate to the related amounts included in income accounts, shall be submitted to the Commission for consideration and decision as to proper accounting.

(3) Income taxes which are refundable or reduced as the result of carry-back or carry-forward of operating loss shall be credited to this account, if a carry-back, in the year in which the loss occurs or, if a carry-forward, in the year in which such loss is applied to reduce taxes. However, when the amount constitutes an extraordinary item pursuant to instruction 7, it shall be included in account 9030, Prior Period Items.

* * * * *

Item No. 7. In the text of the system of accounts, after account 8000, Income taxes on ordinary income, add the following:

* * * * *

EXTRAORDINARY AND PRIOR PERIOD ITEMS

§ 281.9010 Extraordinary items (net).

(a) This account shall include extraordinary items accounted for during the current accounting year in accordance with instruction 7, upon approval of the Commission. Among the items which shall be included in this account are:

Net gain or loss on sale of land used for transportation purposes.

Net gain or loss on sale of securities acquired for long term investment purposes.

Loss on retirement of transportation property because of abandonment or other cause for which depreciation reserve has not been provided.

Change in application of accounting principles.

(b) Income tax consequences of charges and credits to this account shall be included in account 9050, Income Taxes on Extraordinary and Prior Period Items.

(c) This account shall be maintained in a manner sufficient to identify the nature and gross amount of each debit and credit.

§ 281.9030 Prior period items (net).

(a) This account shall include unusual delayed items accounted for during the current accounting year in accordance with the text of instruction 7, upon approval of the Commission. Among the items which shall be included in this account are:

Unusual adjustments, refunds or assessments of income taxes of prior years.

Similar items representing transactions of prior years which are not identifiable with or do not result from business operations of the current year.

(b) Income tax consequences of charges and credits to this account shall be included in account 9050, Income Taxes on Extraordinary and Prior Period Items.

(c) This account shall be maintained in a manner sufficient to identify the nature and gross amount of each debit and credit.

§ 281.9050 Income taxes on extraordinary and prior period items.

This account shall include the estimated income tax consequences (debit or credit) assignable to the aggregate of items of both taxable income and deductions from taxable income which, for accounting purposes, are classified as unusual and extraordinary and are includible in account 9010, Extraordinary Items, or account 9030, Prior Period Items, as appropriate.

§ 281.9999 Form of income statement.

ORDINARY ITEMS

I. CARRIER OPERATING INCOME

Revenues:	
3000. Operating Revenues	
Expenses:	
4000. Operation and Maintenance Expenses	
5000. Depreciation Expense	
5100. Amortization of Carrier Operating Property	
5200. Operating Taxes and Licenses	
5300. Operating Rents—Net	
Total Expenses	
Net Operating Revenue	
5400. Rent for Lease of Carrier Property—Debit	
5500. Income from Lease of Carrier Property—Credit	
Net Carrier Operating Income

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 73]

[FCC 67-819; Docket No. 11279]

SUBSCRIPTION TELEVISION SERVICE

Notice of Report of Subscription Television Committee

The Commission has before it the report of its Subscription Television Committee, dated July 3, 1967, transmitting a proposed Fourth Report and Order and a Second Further Notice of Proposed Rule Making.[1] The Commission believes that its study and resolution of this important matter would be aided by oral argument, and further that such argument would be most useful, if addressed to the report. Accordingly, it is releasing the report at this time, and will specify by subsequent order a date for oral argument to be held in early fall. Parties may also submit written comments or outlines of their arguments, not to exceed 50 pages, on or before September 15, 1967. An original and 14 copies should be filed. (See § 1.419 of the Commission's rules.)

It is ordered, That, the interested parties may file written comments or outlines or oral arguments, not to exceed 50 pages, on or before September 15, 1967.

Adopted: July 12, 1967

Released: July 14, 1967.

FEDERAL COMMUNICATIONS COMMISSION,[2]

[SEAL] BEN F. WAPLE,
Secretary.

[1] Filed as part of the original document. Copies may be obtained from the Federal Communications Commission, Washington, D.C. The proposed amendment to 47 CFR Part 73 contained therein reads as follows:

Part 73 of the Commission Rules and Regulations is amended by adding the following new sections thereto:

OVER-THE-AIR SUBSCRIPTION TELEVISION OPERATIONS

§ 73.641 *Definitions.*

(a) *Subscription television.* A system whereby subscription television broadcast programs are transmitted and received.

(b) *Subscription television broadcast program.* A television broadcast program intended to be received in intelligible form by members of the public only for a fee or charge.

§ 73.642 *Licensing policies.*

(a) Subscription television service may be provided only upon specific authorization therefore by the Commission. Such authorization will be issued only to:

(1) The licensee of a commercial television broadcast station;

(2) The holder of a construction permit for a new commercial television broadcast station; or

(3) An applicant for a construction permit for a new commercial television broadcast station: *Provided, however,* That such authorization will not be issued prior to issuance of the construction permit for the new station.

Moreover, such an authorization will be issued only for a station the principal community of which is located entirely within the Grade A contours of five or more commercial television broadcast stations (including the station of the applicant), whether the principal community each station is authorized to serve is the same as that of the applicant, or is a nearby community. Only one such authorization will be granted in any community. No such authorization will be granted unless, not counting the station of the applicant, at least four of the stations which include the community of the applicant within their Grade A contours are operating stations.

(b) Application for such authorizations shall be made in the manner and form prescribed by the Commission. If the Commission, upon consideration of such application finds that the public interest, convenience and necessity would be served by the granting thereof, it will grant such application. In the event it is unable to make such a finding, the Commission will then formally designate the application for subscription television authorization for hearing and proceed pursuant to the provisions of section 309(e) of the Communications Act and the Commission's rules and regulations applicable thereto. The Commission may impose such conditions upon the grant as may be appropriate.

[2] Commissioners Bartley, Cox, and Loevinger absent.

NOTE: No applications will be accepted for filing until such time as rules concerning equipment and system performance capability have been adopted in section 73.644. At that time, the manner of filing such applications, the form, and the content thereof with regard to equipment, technical, and all other matters will be announced.

(c) Holders of subscription television authorizations shall complete construction of subscription television transmitting facilities within a period of eight months after issuance of the authorization unless otherwise determined by the Commission upon proper showing in any particular case. During the process of construction of the subscription television facilities, the holder of the authorization, after notifying the Commission and the Engineer in Charge of the radio district in which the station is located, may, without further authority of the Commission, conduct equipment tests for the purpose of such adjustments and measurements as may be necessary to assure compliance with the terms of the authorization, the technical provisions of the application therefor, and the rules and regulations. The Commission may notify the holder of the authorization not to conduct tests if such tests appear to be contrary to the public interest, convenience, and necessity. Upon completion of the construction, the holder of the authorization shall submit a detailed showing that compliance with the terms of the authorization, the technical provisions of the application therefor, and the rules and regulations has been achieved. No subscription television operation shall commence until requirements of this paragraph have been fulfilled and operation has been specifically authorized by the Commission.

(d) A subscription television authorization will not be issued or renewed for a period longer than the regular license period of the applicant's television broadcast authorization. Renewals of such authorizations will usually be considered together with renewals of the regular station authorizations.

(e) No subscription television authorization or renewal thereof shall be granted to a party having any contract, arrangement, or understanding express or implied, which:

(1) Prevents or hinders it from rejecting or refusing any subscription television broadcast program which it reasonably believes to be unsatisfactory or unsuitable or contrary to the public interest; or substituting a subscription or conventional program which in its opinion is of greater local or national importance; or

(2) Delegates to any other person the right to schedule the hours of transmission of subscription programs: *Provided, however,* That this rule shall not prevent a licensee, permittee, or applicant from entering into an agreement or arrangement whereby it agrees to schedule a specific subscription television broadcast program at a specific time or to schedule a specific number of hours of subscription programs during the broadcast day (or segments thereof) or week subject to Commission approval; or

(3) Prevents or hinders it from, or penalizes it for, making a free choice of subscription programs, whatever their source: *Provided, however,* That upon making a satisfactory showing to the Commission that the public interest would be served by permitting the licensee, permittee, or applicant to enter into an agreement or arrangement whereby it agrees to obtain all or a specified portion of its programming from one or more sources, this rule may be waived; or

(4) Deprives it of the right of ultimate decision concerning the maximum amount of any subscription program charge or fee.

(f) No subscription television authorization or renewal thereof shall be granted to a party having any contract, arrangement, or understanding, express or implied, with other parties the provisions of which do not comply with the following policies of the Commission:

(1) Unless a satisfactory signal is unavailable at the location where service is desired, subscription television service shall be provided to all persons desiring it within the Grade A contour of the nonsubscription television service provided by the station broadcasting subscription programs: *Provided, however,* That geographic or other reasonable patterns of installation for new subscription services shall be permitted: *And provided further,* That, for good cause, service may be terminated.

(2) Charges, terms and conditions of service to subscribers shall be applied uniformly: *Provided, however,* That subscribers may be divided into reasonable classifications approved by the Commission, and the imposition of different sets of terms and conditions may be applied to subscribers in different classifications: *And provided further,* That within such classifications deposits to assure payment may, for good cause, be required of some subscribers and not of others; and, also for good cause, if a subscription system generally uses a credit-type decoder cash operated decoders may be installed for some subscribers.

(3) Subscription television decoders shall be leased, and not sold, to subscribers.

(g) All applications for subscription television authorization or renewal shall set forth, in such detail as the Commission may require, the terms of agreements and arrangements the applicant has or intends to have with other parties concerning the supplying of subscription television programs, including specifically any provision that such programs shall be presented at a particular time or during a certain number of hours during the day (or segments thereof) or week, any arrangement or understanding which might hinder or prevent the presentation of programs from different sources, or penalize the applicant for so doing, and, as to any arrangement or understanding with a party other than the producer of the program, any other arrangement or understanding of which the applicant has knowledge, between such other party and third parties, which prevents or hinders such other party from obtaining programs from different sources. The applicant shall use due diligence to ascertain the existence and nature of arrangements to which it is not a party.

§ 73.643 *General operating requirements.*

(a) No commercial advertising announcements shall be carried during subscription television operations except for promotion of subscription television broadcast programs before and after such programs.

(b) Subscription television broadcast programs shall comply with the following requirements:

(1) Feature films shall not be broadcast which have had general release in theaters anywhere in the United States more than 2 years prior to their subscription broadcast:

Provided, however, That during 1 week of each calendar month one feature film the general release of which occurred more than 10 years previously may be broadcast, and more than a single showing of such a film may be made during that week.

NOTE: As used in this subparagraph, "general release" means the first run showing of a feature film in a theater or theaters in an area, on a nonreserved seat basis, with continuous performances. For first run showings of feature films on a nonreserved seat basis which are not considered to be "general release" for purposes of this subparagraph, see note 46 in Fourth Report and Order in Docket No. 11279, 8 F.C.C. 2d ——).

(3) Sports events shall not be broadcast which have been televised live on a nonsubscription, regular basis in the community during the 2 years preceding their proposed subscription broadcast: *Provided, however,* That if the last regular occurrence of a specific event (e.g., summer Olympic games) was more than 2 years before proposed showing on subscription television in a community, and the event was at that time televised on conventional television in that community, it shall not be broadcast on a subscription basis.

NOTE 1: In determining whether a sports event has been televised in a community on a nonsubscription basis, only commercial television broadcast stations which place a Grade A contour over the entire community will be considered. Such stations need not necessarily be licensed to serve that community.

NOTE 2: The manner in which this subparagraph will be administered and in which "sports," "sports events," and "televised live on a nonsubscription regular basis" will be construed is explained in paragraphs 253–270 of the Fourth Report and Order in Docket No. 11279, 8 F.C.C. 2d ——).

(3) No series type of program with interconnected plot or substantially the same cast of principal characters shall be broadcast.

(4) Not more than 90 percent of the total subscription programing hours shall consist of feature films and sports events combined. The percentage calculations may be made on a yearly basis, but, absent a showing of good cause, the percentage of such programing hours may not exceed 95 percent of the total subscription programing hours in any calendar month.

(c) Any television broadcast station licensee or permittee authorized to broadcast subscription programs shall broadcast, in addition to its subscription broadcasts, at least the minimum hours of nonsubscription programing required by section 73.651.

(d) Except as they may be otherwise waived by the Commission in authorizations issued hereunder, the rules and policies applicable to regular television broadcast stations are applicable to subscription television operations.

§ 73.644 *Equipment and system performance requirements.*

(a) No subscription television authorization will be granted unless the system to be used has been type accepted in advance by the Commission pursuant to the type acceptance procedures established by Part 2, Subpart F—Equipment Type Approval and Type Acceptance—of this chapter.

NOTE: Additional rules concerning equipment and system performance capability for subscription television systems will be adopted after a rule making proceeding in Docket No. 11279.

[F.R. Doc. 67-8444; Filed, July 18, 1967; 9:42 a.m.]

Notices

DEPARTMENT OF THE TREASURY

Bureau of the Mint

STATEMENT OF ORGANIZATION, FUNCTIONS AND PROCEDURES

In compliance with 5 U.S.C. 552, this notice provides a statement, for the guidance of the public, of the central and field office organization of the Bureau of the Mint; the established places at which, the employees from whom and the methods whereby the public may secure information, make submittals or requests or obtain decisions; and the general course and method by which the Bureau of the Mint's functions are channeled and determined, including the nature and requirements of all formal and informal procedures available. The prior statement of organization, functions and procedures of the Bureau of the Mint, which appears in 18 F.R. 3237 (1953) is revised to read as follows:

Sec.
1. Office of the Director.
2. Budget and Finance Division.
3. Coin Management and Public Information Division.
4. Management Analysis and Production Division.
5. Personnel Division.
6. Technical Division.
7. Special Staffs. (a) Legal Staff. (b) Security Staff. (c) Statistical Staff.
8. Field Organization and Functions.
9. Public Information—Requests for Information and Records.
10. Submittals: Requests: Decisions—Formal and Informal Procedures.

SECTION 1. *Office of the Director.*

(a) The chief officer of the Bureau of the Mint is the Director of the Mint, who is under the general direction of the Secretary of the Treasury. The Director is appointed by the President, by and with the advice and consent of the Senate, and holds office for the term of 5 years.

(b) The Director administers and supervises the activities of the Bureau of the Mint. These activities are the production of coin, both domestic and foreign; the manufacture of medals of a national character; the custody, processing, and movement of bullion; the disbursing of gold and silver for authorized monetary, industrial, professional, and artistic purposes; the distribution of coins from the Mints to the Federal Reserve Banks and Branches; the analysis and compilation of general data of worldwide scope relative to gold, silver, and coins.

(c) The Director's office, divisions, and special staffs are located in the Main Treasury Building, 15th Street and Pennsylvania Avenue NW., Washington, D.C. 20220.

(d) The divisions and special staffs are enumerated in sections 2 through 7 inclusive of this Notice.

SEC. 2. *Budget and Finance Division.* The Budget and Finance Division is responsible for devising, establishing and administering accounting, auditing, budgeting and financial reporting policies and procedures for the Bureau of the Mint. This division also administers the Bureau's procurement and property control activities and exercises financial control over program activities in the execution of the budget.

SEC. 3. *Coin Management and Public Information Division.*

This division is responsible for extensive studies and surveys to develop current and future coinage estimates for the United States, and for translating the results of these studies into estimated coinage requirements for budgetary and financial planning purposes. It is also responsible for the distribution of domestic coin to Federal Reserve Banks, and for functions related to the purchase and sale of gold and silver. Public relations and information service functions of the Mint also fall within the responsibility of this division.

SEC. 4. *Management Analysis and Production Division.*

This division is responsible for management planning, improvement, and analysis; the installation of integrated systems of manpower, space, equipment, and materials; the formulation of long range operational plans for the Mint; and overall planning, coordinating, integrating and controlling of industrial production in the Mint.

SEC. 5. *Personnel Division.*

The Personnel Division is responsible for the coordination of a comprehensive personnel program for the Bureau of the Mint. The personnel program includes recruitment, appointments, training, transfers, promotions, performance ratings, awards, grievances, adverse actions, pay administration, classification, and employee-management cooperation.

SEC. 6. *Technical Division.*

The Technical Division develops and installs new and improved methods for metallurgical and manufacturing operations; conducts metallurgical and chemical investigations; coordinates technical functions and operations; and provides quality assurance on all Mint products.

SEC. 7. *Special Staffs.*

(a) *Legal Staff.* The legal staff is responsible for rendering legal advice, opinions, counseling and services for the Bureau of the Mint.

(b) *Security Staff.* The security staff is responsible for developing and administering the security program for the physical protection of Mint facilities and property, and the safeguarding of monetary assets.

(c) *Statistical Staff.* The statistical staff is responsible for a continuing statistical reporting and research program which includes preparation and publication of the Annual Report of the Director of the Mint, required under provisions of 17 Stat. 424; 31 U.S.C. 253.

SEC. 8. *Field Organization and Functions.*

The Bureau of the Mint has five field facilities. A description of the field supervision and functions of each of the facilities is given in the remainder of this section.

(a) The chief officer of each coinage mint and the New York Assay Office is a superintendent, each appointed by the President, by and with the advice and consent of the Senate. The chief officer of the assay office at San Francisco, and the depository at Fort Knox is the Officer In Charge, each appointed pursuant to normal Civil Service procedures.

(b) The chief officer of each field facility of the Bureau of the Mint administers and supervises the activities of the facility, subject to the direction of the Director of the Mint.

(c) Mint at Philadelphia, Pa.: The Philadelphia Mint performs the following functions: (1) The manufacture of domestic coin and coin for foreign governments; (2) the receipt of gold and silver bullion deposits; (3) the authorized sale of gold; (4) the assay of gold and silver bullion; (5) the redemption of uncurrent and mutilated coin; (6) the production, packaging, and shipping of medals and coin sets; and (7) the safeguarding of all monetary assets in its custody.

(d) Mint at Denver, Colo.: The Denver Mint performs the following functions: (1) The manufacture of domestic coin and coin for foreign governments; (2) the receipt of gold and silver bullion deposits; (3) the authorized sale of gold; (4) the assay of gold and silver bullion and ores; (5) the redemption of uncurrent and mutilated coin; and (6) the safeguarding of all monetary assets in its custody.

(e) Assay Office at New York, N.Y.: The New York Assay Office performs the following functions: (1) The receipt of gold and silver bullion deposits; (2) the authorized sale of gold and silver; (3) the assay of gold and silver bullion; (4) the refining of gold and silver bullion; and (5) the safeguarding of all monetary assets in its custody including those at the Silver Bullion Depository at West Point, whose function is the storage of silver and other monetary assets.

(f) Assay Office at San Francisco, Calif.: The San Francisco Assay Office performs the following functions: (1) The manufacture of domestic coin and coin for foreign governments; (2) the receipt of gold and silver bullion deposits; (3) the authorized sale of gold and silver; (4) the assay of gold and silver bullion; (5) the production, packaging, and shipping of coin sets; and (6) the safeguarding of all monetary assets in its custody.

(g) Bullion Depository at Fort Knox, Ky.: The Fort Knox Bullion Depository is responsible for the storage and safeguarding of gold bullion and other monetary assets in its custody.

SEC. 9. *Public Information—requests for information and records.*

(a) Opinions and orders, statements of policy and interpretations which have been adopted and which have precedential significance, administrative staff manuals and instructions to the staff that affect a member of the public, as well as identifiable records of the Bureau of the Mint will be available to the public for inspection and copying subject to the regulations in 31 CFR Part 92.

(b) Written requests for information or for identifiable records or copies thereof are to be addressed to the Director of the Mint, Main Treasury Building, Washington, D.C. 20220.

(c) Any applicant appearing in person for information or records should go to the public reading room of the Treasury Department, Main Treasury Building, 15th Street and Pennsylvania Avenue NW., Washington, D.C. 20220.

(d) Certain charges will be made in connection with making records or information available to the public as provided in 31 CFR Part 92.

SEC. 10. *Submittals: Requests: Decisions—formal and informal procedures.*

(a) The public may make submittals or requests, or obtain decisions by writing to the Director of the Mint, Main Treasury Building, 15th Street and Pennsylvania Avenue NW., Washington, D.C. 20220.

(b) The public should refer to 31 CFR Part 92 for specific information concerning the procedures followed by the Bureau of the Mint and for other regulations governing submittals, requests, and decisions.

[SEAL] EVA ADAMS,
Director of the Mint.

Approved: July 14, 1967.

ROBERT A. WALLACE,
Assistant Secretary of the Treasury.

[F.R. Doc. 67-8308; Filed, July 18, 1967; 8:48 a.m.]

Office of the Secretary

REVISED RECOMMENDED AMENDMENTS TO THE PROPOSED INTEREST EQUALIZATION TAX EXTENSION ACT OF 1967

Exemption for Prior American Ownership; Due Date of Interest Equalization Tax

On July 14, 1967, the Treasury Department recommended that the Senate act favorably on H.R. 6098, 90th Congress, 1st Session (the proposed Interest Equalization Tax Extension Act of 1967) as passed by the House of Representatives but with amendments, effective with respect to acquisitions of stock or debt obligations made after July 14, 1967. The recommended amendments to the proposed Act, as revised July 17, 1967, would:

(a) Replace the exemption for prior American ownership with an exemption for "prior American ownership and compliance". The new exemption would apply to the acquisition of stock or a debt obligation of a foreign issuer or obligor if it is established that the person from whom such stock or debt obligation was acquired (the "seller") (i) was a U.S. person throughout the period of his ownership or continuously since July 18, 1963, (ii) had not acquired such stock or debt obligation under an exemption which made him ineligible to sell such stock or debt obligation as a U.S. person, and (iii) had complied with his interest equalization tax obligations with respect to such stock or debt obligation (i.e., the seller acquired such stock or debt obligation in an acquisition which was not subject to the interest equalization tax or the seller paid the tax).

(b) Provide that if stock of a foreign issuer or a debt obligation of a foreign issuer or obligor was acquired by a U.S. person in a transaction subject to the interest equalization tax, the U.S. person is required to file an Interest Equalization Transaction Tax Return accompanied by proper payment prior to any disposition of the stock or debt obligation if the acquisition had not been reported on the appropriate Interest Equalization Quarterly Tax Return accompanied by proper payment.

(c) Specify the manner, described below, under which the exemption for prior American ownership and compliance can be established.

(d) Amend the provisions with respect to "regular market" trading on certain national securities exchanges and "clean comparison" trading in the over-the-counter market set forth in section 4918 of the Internal Revenue Code so that they are applicable only to those members and member organizations of national securities exchanges or national securities associations registered with the Securities and Exchange Commission, which have agreed to comply, and do comply, with the amended statutory provisions and with the documentation, recordkeeping, and reporting requirements established by the Secretary or his delegate (referred to in this Notice as "Participating Firms"). During the period beginning July 15, 1967, and until a notice or notices to the contrary are published by the Internal Revenue Service, it will be presumed that (i) all members or member organizations of the New York Stock Exchange, (ii) all members or member organizations of the American Stock Exchange, and (iii) those members or member organizations of the National Association of Securities Dealers, Inc., which either reported a net capital (as defined in Rule 15c3-1 under the Securities Exchange Act of 1934) of $750,000 in the latest financial statement filed with the Securities and Exchange Commission on Form X-17A-5 prior to July 13, 1967, or which have effected 300 or more transactions in foreign securities during either the week commencing July 2 or commencing July 9, 1967 (which members or member organizations of the National Association of Securities Dealers, Inc., are listed below) have agreed to comply, and are complying, with such amended statutory provisions and with the documentation, recordkeeping, and reporting requirements and shall be participating firms.

Participating Firms as of July 18, 1967. The Participating Firms as of July 18, 1967, are as follows:

All members and member organizations of the New York Stock Exchange.

All members and member organizations of the American Stock Exchange.

The following members and member organizations of the National Association of Securities Dealers, Inc., not members or member organizations of the New York Stock Exchange or the American Stock Exchange:

1. A. E. Ames Co., Inc., New York, N.Y.
2. Allen & Co., New York, N.Y.
3. Allison-Williams Co., Minneapolis, Minn.
4. B. C. Ziegler & Co., West Bend, Wis.
5. Baer Securities Corp.
6. Bankers Securities Corp., Philadelphia, Pa.
7. Barrow, Leary & Co., Shreevport, La.
8. Calvin, Bullock Ltd., New York, N.Y.
9. Carl Marks & Co., Inc., New York, N.Y.
10. Cartwright, Valleau & Co., Chicago, Ill.
11. Childress & Co., Jacksonville, Fla.
12. City Securities Corp., Indianapolis, Ind.
13. Collett & Co., Inc., Indianapolis, Ind.
14. Cumberland Securities Corp., Nashville, Tenn.
15. Dayton Bond Corp., Dayton, Ohio.
16. Dempsey & Co., Chicago, Ill.
17. Distributors Group, Inc., New York, N.Y.
18. Donald B. Litchard, Boston, Mass.
19. Dreyfus Corp., New York, N.Y.
20. E. L. Villareal Co., Inc., Little Rock, Ark.
21. E. M. Warburg & Co., Inc., New York, N.Y.
22. Eaton & Howard, Inc., Boston, Mass.
23. Equitable Securities Corp., Nashville, Tenn.
24. Excelsior Option Corp., Boston, Mass.
25. F. I. du Pont, A. C. Allyn, Inc., New York, N.Y.
26. First Boston Corp., New York, N.Y.
27. First Investors Corp. of New York, New York, N.Y.
28. First Southwest Co., Dallas, Tex.
29. Glover & MacGregor Inc., Pittsburgh, Pa.
30. Gordon B. Hanlon & Co., Boston, Mass.
31. Grace Canadian Securities, Inc., New York, N.Y.
32. Gross & Co., Los Angeles, Calif.
33. H. S. Kipnis & Co., Chicago, Ill.
34. Halsey, Stuart & Co., Inc., Chicago, Ill.
35. Hamilton Management Corp., Denver, Colo.
36. Henry Spiegel, New York, N.Y.
37. Hettleman & Co., New York, N.Y.
38. Hickey & Co., Chicago, Ill.
39. IDS Securities Corp., Minneapolis, Minn.
40. Insurance Securities, Inc., Corp., Houston, Tex.
41. J. S. Strauss & Co., San Francisco, Calif.

44. Kalman & Co., Inc., St. Paul, Minn.
45. Kenower, MacArthur & Co., Detroit, Mich.
46. Loomis, Sayles & Co., Inc., Boston, Mass.
47. M. A. Schapiro & Co., New York, N.Y.
48. National Securities & Research Corp., New York, N.Y.
49. National Variable Annuity Co. Fla., Jacksonville, Fla.
50. Nikko Securities Co. International, Inc., New York, N.Y.
51. Nomura Securities Co., Ltd., New York, N.Y.
52. Parsons & Co., Cleveland, Ohio.

53. Paul Revere Variable Annuity Insurance Co., Worcester, Mass.
54. Pflueger & Baerwald, San Francisco, Calif.
55. R. S. Dickson & Co., Inc., Charlotte, N.C.
56. Richard W. Clark Corp., New York, N.Y.
57. Second District Securities Co., New York, N.Y.
58. Singer and Mackie, Inc., New York, N.Y.
59. Stephens, Inc., Little Rock, Ark.
60. Stern Brothers & Co., Kansas City, Mo.
61. Stetson Securities Corp., Fairfield, Conn.
62. Stone & Youngberg, San Francisco, Calif.
63. Stryker & Brown, New York, N.Y.
64. The Crosby Corp., Boston, Mass.
65. Thomas, Haab & Botts, New York, N.Y.
66. Thomas McDonald & Co., Chicago, Ill.
67. Troster, Singer & Co., New York, N.Y.
68. Vance, Sanders & Co., Inc., Boston, Mass.
69. Waddell & Reed, Inc., Kansas City, Mo.
70. Weedon & Co., San Francisco, Calif.
71. Wellington Management Co., Philadelphia, Pa.
72. Wheeler, Munger & Co., Los Angeles, Calif.
73. William C. McDonnell, New York, N.Y.
74. William E. Pollack & Co., Inc., New York, N.Y.
75. Wood, Gundy & Co., Inc., New York, N.Y.
76. Wood, Struthers & Co., Inc., New York, N.Y.
77. Yamaich Securities Co., of New York, Inc.

Changes In List Of Participating Firms. Any other member or member organization of a national securities exchange or a national securities association registered with the Securities and Exchange Commission may become a Participating Firm if it files with the Commissioner of Internal Revenue, Washington, D.C. 20224 (Attention: CP) a letter signed by the member, a partner or an officer (i) requesting designation as a Participating Firm, (ii) agreeing to comply with the documentation, recordkeeping and reporting requirements established by the Internal Revenue Service (whether established prior or subsequent to the date of the letter), (iii) agreeing that its books and records no matter where located may be examined by any employee of the Internal Revenue Service, and (iv) if the letter is filed with the Commissioner of Internal Revenue on or after August 15, 1967, stating that such documentation, recordkeeping and reporting requirement procedures are operational. The Internal Revenue Service will from time to time publish the names of those members or member organizations which have become Participating Firms subsequent to July 17, 1967.

Any member or member organization which became a Participating Firm prior to August 15, 1967, shall cease to be a Participating Firm unless on or before August 15, 1967, it files with the Commissioner of Internal Revenue a letter signed by the member, a partner, or an officer setting forth each of the items (i) to (iv), inclusive, of the preceding paragraph. A Participating Firm may terminate its status as such by filing a request with the Commissioner of Internal Revenue. In addition, if the Commissioner of Internal Revenue has reasonable cause to believe that a Participating Firm is not complying with such statutory provisions, or with the documentation, recordkeeping and reporting requirements, or any part thereof, he may cause the removal of such firm from the list of Participating Firms.

The effective date on which a member or member organization shall become or cease to be a Participating Firm shall be the date specified in a notice issued by the Internal Revenue Service, which date shall not be prior to the date following the date on which the notice was made available to financial publications and wire services.

Establishment of exemption for prior American ownership and compliance. The Treasury recommended that the amendments to H.R. 6098 authorize the following procedures, effective July 15, 1967, for the establishment of the exemption for prior American ownership and compliance:

1. If a U.S. person acquiring stock of a foreign issuer or a debt obligation of a foreign obligor directly from or through a Participating Firm receives in good faith from the Participating Firm an "IET Clean Confirmation" (meeting the requirements described below) applicable to the particular stock or debt obligation acquired, the exemption for prior American ownership and compliance shall be deemed to have been established.

2. If a U.S. person acquiring stock of a foreign issuer or a debt obligation of a foreign obligor receives in good faith copies 1 and 2 of a Validation Certificate issued by the Internal Revenue Service to the seller or to himself applicable to the particular stock or debt obligation acquired and, in the case where the Validation Certificate was issued to the seller, completes and files copy 2 of the certificate with the Internal Revenue Service, the exemption for prior American ownership and compliance shall be deemed to have been established.

3. If a U.S. person acquiring stock of a foreign issuer or a debt obligation of a foreign obligor establishes that there is reasonable cause for an inability to establish prior American ownership and compliance in accordance with one of the foregoing, prior American ownership and compliance may be established by other evidence which satisfies the Internal Revenue Service that the person from whom such acquisition was made was a complying U.S. person not ineligible to sell as a U.S. person.

Sales effected by Participating Firms. The Treasury further recommended that the amendments to H.R. 6098 provide that Participating Firms are required to sell stock of a foreign issuer or a debt obligation of a foreign obligor as stock or a debt obligation not exempt from the interest equalization tax by reason of the exemption for prior American ownership and compliance except in the following cases:

1. The Participating Firm (i) at the close of business on July 14, 1967 (trade date), carried in its records for the account of the seller the stock or debt obligation being sold, (ii) has in its possession and relies in good faith on a certificate of American ownership with respect to the stock or debt obligation being sold, or a blanket certificate of American ownership with respect to such account, and (iii) included the stock or debt obligation in the Transition Inventory of the Participating Firm duly filed on or before the due date (whether it occurs prior to or subsequent to the sale) with the Internal Revenue Service as hereinafter provided.

2. The Participating Firm purchased on or after July 15, 1967, for, or sold to, the seller the stock or debt obligation being sold if the exemption for prior American ownership and compliance applied to the seller's acquisition and if the Participating Firm continuously carried in its records for the account of the seller such stock or debt obligation.

3. The Participating Firm purchased for, or sold to, the seller the stock or debt obligation being sold if the exemption for prior American ownership or the exemption for prior American ownership and compliance applied to the acquisition and if the Participating Firm on or after July 15, 1967, received from the seller the identical stock certificates or evidence of indebtedness which it had previously delivered to the seller in respect of the purchase.

4. The Participating Firm received the stock or debt obligation being sold from another Participating Firm or from a Participating Custodian with a Transfer of Custody Certificate meeting the requirements described below.

5. The Participating Firm has received from the seller copies 1 and 2 of a Validation Certificate issued by the Internal Revenue Service applicable to the stock or debt obligation being sold and on or before the business day following the delivery of the security by the seller or the day of the sale, whichever is later, completes and files copy 2 of the certificate with the Internal Revenue Service. For this purpose timely mailing is treated as timely filing if in accordance with section 7502 of the Internal Revenue Code.

6. If the sale involves stock, the Participating Firm received from the seller proof that the seller is a U.S. person (until otherwise announced a Certificate of American ownership with respect to the stock being sold is acceptable proof) and the stock certificate is registered in the name of the seller by a United States transfer agent which is a bank or trust company and dated prior to July 19, 1963.

7. The Participating Firm withholds the amount of Interest Equalization Tax which would be imposed had the seller purchased in a taxable acquisition the stock or debt obligation being sold on the day of the sale. Information on withholding procedures will be published shortly.

IET Clean Confirmation. A Participating Firm is authorized to issue an "IET Clean Confirmation" to a customer with respect to stock or a debt obligation of a foreign issuer or obligor in the following circumstances:

1. In a case where the Participating Firm purchased the stock or debt obligation as broker for the customer from or through another Participating Firm in the regular market (in the case of a purchase on a national securities exchange referred to in section 4918(c) of

the Internal Revenue Code) or received a clean comparison or confirmation from another Participating Firm under the procedures referred to in section 4918(d) of the Internal Revenue Code.

2. It sold the stock or debt obligation as dealer to the customer and it was a complying U.S. person not ineligible to sell as a U.S. person.

Each IET Clean Confirmation shall state the date of acquisition, the number of shares or the face amount of obligations purchased, the description of the stock or debt obligations, the price paid, and the market on or through which the purchase was effected. Only an original document may constitute an IET Clean Confirmation and each copy or duplicate shall be marked as such. All other confirmations issued by Participating Firms with respect to stock or debt obligations of foreign issuers or obligors shall be clearly marked in ink, by typewriter or by business machine so as to be distinguishable from IET Clean Confirmations.

Issuance of Validation Certificates. Validation Certificates will be issued by all District Directors of Internal Revenue commencing Monday, July 17, 1967, upon proof that the United States person on whose behalf the Validation Certificate is requested has complied with his interest equalization tax obligations with respect to the securities to be covered by the Validation Certificate. The Internal Revenue Service will shortly announce the procedures for obtaining Validation Certificates. Each District Director will reissue Validation Certificates in different denominations upon request.

Interim procedures. Where the stock of a foreign issuer or a debt obligation of a foreign obligor is sold by a Participating Firm prior to the close of business on July 21, 1967, a Validation Certificate will be deemed to have been issued with respect to such securities if the Participating Firm effecting such sale files a letter, in duplicate, with the District Director, on or before August 2, 1967, certifying that: (i) To the best of its knowledge and belief the seller for whom it sold such foreign securities was a resident of the United States at the time of the sale and the Participating Firm had reason to believe that the seller had been a resident of the United States for the preceding 18 months, (ii) to the best of its knowledge and belief the seller is the beneficial owner of such securities, (iii) that during the calendar week ending July 21, 1967, the Participating Firm had not sold (or by selling such securities did not sell) securities in an amount in excess of $50,000 for the seller which were subject to the interest equalization tax and which could not be sold regular way on a national securities exchange or under the clean confirmation procedures over-the-counter pursuant to section 4918 (c) and (d) of the Internal Revenue Code without a Validation Certificate, and (iv) the seller had had previous brokerage relations as a customer with the Participating Firm. In addition, such letter shall contain, with respect to each stock of a foreign issuer or debt obligation of a foreign obligor sold, the name and address of the seller, the Social Security number of the seller, the number of shares or face amount of the security or the debt obligation, the name of the issuer or obligor, the class of stock or description of the debt obligation, the total amount for which the stock or debt obligation was sold, and the settlement date. The letter must be signed by a partner or officer of the Participating Firm.

During the calendar week ended July 21, 1967, a Participating Firm may accept an order from or deal with another Participating Firm or a U.S. bank or trust company (excluding a U.S. branch or agency of a foreign bank) in any amount without special documentation, except to indicate transfers subject to the interest equalization tax.

Transition Inventory. The Transition Inventory shall be filed with the Commissioner of Internal Revenue no later than August 15, 1967. Each Participating Firm and each Participating Custodian filing a Transition Inventory (Participating Custodians are described below) shall list those stocks and debt obligations of foreign issuers and obligors carried on its records at the close of business July 14, 1967 (trade date), and shall show (i) the aggregate amount of each such security carried for the accounts of U.S. persons, (ii) the aggregate amount of each such security carried for the accounts of other persons, and (iii) the aggregate amount of each such security not in the physical custody of the Participating Firm or Participating Custodian.

Participating Custodians. During the period beginning July 15, 1967, and until a notice or notices to the contrary are published by the Internal Revenue Service, the Participating Custodians are the Federal Reserve Member Banks which are classified as reserve city banks.

A bank or trust company insured by the Federal Deposit Insurance Corporation may become a Participating Custodian if it files with the Commissioner of Internal Revenue, Washington, D.C. 20224 (Attention: CP), a letter signed by an officer (i) requesting designation as a Participating Custodian, (ii) agreeing to comply with the documentation, recordkeeping, and reporting requirements established by the Internal Revenue Service (whether established prior or subsequent to the date of the letter), (iii) agreeing that its books and records no matter where located may be examined by any employee of the Internal Revenue Service, and (iv) if the letter is filed with the Commissioner of Internal Revenue on or after August 15, 1967, stating that such documentation, recordkeeping, and reporting requirement procedures are operational. The Internal Revenue Service will from time to time publish the names of those members or member organizations which have become Participating Custodians subsequent to July 15, 1967.

Any bank or trust company which became a Participating Custodian prior to August 15, 1967, shall cease to be a Participating Custodian unless on or before August 15, 1967, it files with the Commissioner of Internal Revenue a letter signed by an officer setting forth each of the items (i) to (iv), inclusive, of the preceding paragraph. A Participating Custodian may terminate its status as such by filing a request with the Commissioner of Internal Revenue. In addition, if the Commissioner of Internal Revenue has reasonable cause to believe that a Participating Custodian is not complying with the statutory provisions related to the interest equalization tax applicable to it, or with the documentation, recordkeeping, and reporting requirements, or any part thereof, he may cause the removal of such firm from the list of Participating Custodians.

The effective date on which a bank or trust company shall become or cease to be a Participating Custodian shall be the date specified in a notice issued by the Internal Revenue Service, which date shall not be prior to the date following the date on which the notice was made available to financial publications and wire services.

Transfer of Custody Certificates. Transfer of Custody Certificates shall be issued only by Participating Firms and Participating Custodians and only in connection with a transfer from the account of a customer of a Participating Firm or Participating Custodian to the account of the same customer with a different Participating Firm or Participating Custodian in the following circumstances:

1. The Participating Firm or Participating Custodian on July 14, 1967 (trade date), carried in its records for the account of the customer the stock or debt obligation referred to in the Transfer of Custody Certificate and acquired and holds in good faith a certificate of American ownership with respect to such stock or debt obligation or a blanket certificate of American ownership with respect to such account, if it included such stock or debt obligation in the Transition Inventory duly filed on or before the due date (whether it occurs prior to or subsequent to the sale) by it with the Commissioner of Internal Revenue.

2. The Participating Firm or Participating Custodian received a like amount of the stock or debt obligation referred to in a Transfer of Custody Certificate from another Participating Firm or Participating Custodian accompanied by a Transfer of Custody Certificate.

3. The Participating Firm purchased for the transferor the stock or debt obligation referred to in the Transfer of Custody Certificate and in connection with the purchase either received (i) a Validation Certificate issued by the Internal Revenue Service, or (ii) was authorized to issue an IET Clean Confirmation, and in either case continuously carried for the account of the transferor the stock or debt obligation so purchased, or received back from the purchaser the identical securities or evidence of indebtedness previously delivered to the purchaser.

Recordkeeping requirements. The recordkeeping requirements for Participating Firms are, until further notice, identical to the recordkeeping requirements for broker-dealers issued pursuant to the Securities Exchange Act of 1934 with the following required modifications:

1. Records of original entry (in most cases the purchase and sale blotter) shall be prepared and maintained separately for all purchases and sales of stock and debt obligations of foreign issuers and obligors. All entries shall clearly designate those transactions which involved foreign-owned securities. All entries reflecting a purchase of securities, the acquisition of which is exempt from the tax under the exemption for prior American ownership and compliance, shall clearly designate the documentation received establishing such exemption. All entries reflecting a sale of securities regular way on a national securities exchange referred to in section 4918(c) of the Internal Revenue Code or under the clean comparison procedure established by section 4918(d) of the Code shall clearly designate the documentation authorizing such sale.

2. The securities record or ledger reflecting separately for each stock or debt obligation of a foreign issuer or obligor all "long" or "short" positions (including such securities in safekeeping) carried by such firm or custodian for its account or for the account of customers (commonly known as stock record sheets) shall be prepared and maintained apart from those prepared and maintained for all other securities. All entries in such record or ledger, and in each customer's account, shall clearly designate those of such securities with respect to which the firm or custodian can issue a Transfer of Custody Certificate without obtaining further documentation.

3. The ledger account itemizing separately the accounts of such firm or custodian reflecting all purchases, sales, receipts, and deliveries of stock or debt obligations of a foreign issuer or obligor for the firm's own investment and trading accounts shall be prepared and maintained apart from those prepared and maintained for all other securities. All entries shall clearly designate those transactions which involve securities on which the firm or custodian can issue a Transfer of Custody Certificate. Appropriate files for each of said dealer-owned foreign securities shall be maintained, in readily accessible form, to hold all relevant information and evidence to substantiate tax free nature of the acquisitions pursuant to which such securities were acquired or, if acquired in a taxable transaction, the retained copies of the tax returns filed with respect to such acquisitions.

4. Separate files shall be maintained for all interest equalization tax reports filed with the Internal Revenue Service (both for information and tax-paying purposes) including copies of all documents filed with the Internal Revenue Service and summaries and supporting schedules. In addition, such files shall contain substantiation of the Transition Inventory filed with the Commissioner of Internal Revenue.

Certain debt obligations. The foregoing procedures would not apply to those debt obligations of foreign obligors which are neither convertible nor listed or traded in domestic or foreign markets. In such cases, the exemption for prior American ownership and compliance will, until other procedures are announced, be established if the United States person acquiring the obligation receives in good faith a letter from the seller certifying to the exemption together with a copy thereof and files the copy with the Internal Revenue Service.

[SEAL] STANLEY S. SURREY,
Assistant Secretary.

Order Providing for Opening of Public Lands

JULY 10, 1967.

1. In an exchange of lands made under the provisions of section 8 of the Act of June 28, 1934 (48 Stat. 1272), as amended June 26, 1936 (49 Stat. 1976; 43 U.S.C. 315g), the following lands have been reconveyed to the United States:

PRINCIPAL MERIDIAN, MONTANA

T. 14 N., R. 47 E.,
Sec. 17, All.

The area described contains 640 acres.

2. The above described lands are located in Prairie County, 25 miles northwest of Terry, Mont. The topography is generally rolling prairie with some areas rather rough. The lands are presently used for grazing livestock. The lands are not suited to cultivation due to topography, soils, and low rainfall.

3. Subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law, the lands are hereby open to application, petition, location and selection. All valid applications received at or prior to 10 a.m., August 11, 1967, shall be considered as simultaneously filed at that time. Those received thereafter shall be considered in the order of filing.

4. The mineral rights in the lands were not exchanged. Therefore, the mineral status of the lands are not affected by this order.

5. Inquiries concerning the lands should be addressed to the Land Office Manager, Bureau of Land Management, Billings, Mont. 59101.

EUGENE H. NEWELL,
Land Office Manager.

[Utah 0145026]

UTAH

Notice of Offering of Land for Sale

JULY 10, 1967.

Notice is hereby given that, under the provisions of the Act of September 19, 1964 (78 Stat. 988) and pursuant to an application from the city of St. George, Utah, the Secretary of the Interior will offer for sale the SE¼SE¼NE¼SW¼ and SW¼SW¼NW¼SE¼ Section 13, T. 42 S., R. 16 W., SLM, Utah.

The land has been classified as chiefly valuable for the orderly growth and development of the city of St. George, Utah, as a site for recreation and public buildings to be a part of a large recreation complex presently under development. The tract is zoned RP-1, Residence Park Zone, which permits certain specific uses. The land is located on the outskirts of St. George, just northwest of the city.

It is the intention of the Secretary to enter into an agreement with authorized city officials to permit the city of St. George to purchase the land at the appraised market value.

Patent to the land issued under the Act of September 19, 1964, supra, shall contain a reservation to the United States of rights-of-way for ditches and canals under the Act of August 30, 1890 (43 U.S.C. sec. 945), and of all mineral deposits which shall thereupon be withdrawn from appropriation under the public land laws including the mining and mineral leasing laws. The land will be sold subject to all valid existing rights and reservations for rights-of-way.

R. D. NIELSON,
State Director.

[F.R. Doc. 67-8280; Filed, July 18, 1967; 8:46 a.m.]

DEPARTMENT OF AGRICULTURE

Office of the Secretary

ECONOMIC RESEARCH SERVICE

Statement of Organization and Delegation

Pursuant to the authority contained in 5 U.S.C. 301 and Reorganization Plan No. 2 of 1953, section 135 of Secretary's order dated November 27, 1964 (29 F.R. 16210), as amended, is further amended to read as follows:

Sec. 135 *Assignment of functions.* The following assignment of functions is made to the Economic Research Service:

a. Farm economics research dealing with the economic problems of agricultural production and resource use, but excluding forest economics research; farm production economics research including analyses of farm production costs and efficiency, use of capital and labor in agriculture profitable adjustments in farming, and financial problems of farmers; natural resource economics research studies on the extent, use and

management of land and water resources and resource institutions, and on watershed and river basin development problems; economic development research including a broad program on economic development of rural areas, opportunities and employment of rural people and factors affecting them, including local governments and their organizations. Title I and Title II of the Act of 1946 (7 U.S.C. 427, 1621–1627), except as otherwise assigned in Secretary's order of November 27, 1964, as amended.

b. Marketing economics research, including economic and cost analyses relating to the marketing of specific agricultural commodities; the organizational structure and practices of commodity markets; costs, measurement of margins, and efficiency involved in the marketing of agricultural products; farmers' bargaining power; the economics of product quality and grade; market potentials, distribution and merchandising of agricultural products; and the economics of transportation of agricultural products. Title II of the Act of 1946 (7 U.S.C. 1621–1627), except as otherwise assigned in Secretary's Order of November 27, 1964, as amended.

c. Domestic and foreign economic research, including economic and statistical analyses of agricultural prices, farm income, commodity outlook and situation, the supply and consumption of farm products, and agricultural history. Foreign economic analyses include economic studies of supply of, demand for, and trade in farm products in foreign countries and their effect on prospects for U.S. exports; analyses of farm export programs, progress in economic development and its relationship to sales of farm products; assembly and analysis of agricultural trade statistics; and analysis of international financial monetary programs and policies, as they affect the competitive position of U.S. farm products, but exclude specific commodity investigations relating to foreign market developments, competition and reporting, as assigned to Foreign Agricultural Service. Section 601 of the Act of August 28, 1954 (7 U.S.C. 1761).

d. Supervision, direction and operation of the Outlook and Situation Board which is responsible for technical review and approval of all economic outlook and situation reports and statements prepared within the Department.

e. Authority to make grants under section 2 of the Act of August 4, 1965 (7 U.S.C. 4501), and the Act of September 6, 1958 (42 U.S.C. 1891–1893).

f. Economic research under P.L. 83–480, Title 1, section 104(a) with funds administered by the Foreign Agricultural Service, and under section 104(k) with funds administered by the Agricultural Research Service.

Signed at Washington, D.C., this 13th day of July 1967.

ORVILLE L. FREEMAN,
Secretary of Agriculture.

Johnson.	Worth.
Knox.	

NEBRASKA

Hamilton.	Platte.
Nance.	York.

OKLAHOMA

Stephens.

Pursuant to the authority set forth above, emergency loans will not be made in the above-named counties after June 30, 1968, except to applicants who previously received emergency or special livestock loan assistance and who can qualify under established policies and procedures.

Done at Washington, D.C., this 14th day of July 1967.

ORVILLE L. FREEMAN,
Secretary.

[F.R. Doc. 67-8326; Filed, July 18, 1967; 8:49 a.m.]

Packers and Stockyards Administration

FLORENCE TRADING POST ET AL.

Proposed Posting of Stockyards

The Chief, Registrations, Bonds and Reports Branch, Packers and Stockyards Administration, U.S. Department of Agriculture, has information that the livestock markets named below are stockyards as defined in section 302 of the Packers and Stockyards Act, 1921, as amended (7 U.S.C. 202), and should be made subject to the provisions of the Act.

Florence Trading Post, Florence, Alabama.
Jack Sivils Sale Company, Butler, Missouri.
Holdrege Commission Company, Holdrege, Nebraska.
Aberdeen Livestock Sales Company, Inc., Aberdeen, South Dakota.
Hub City Livestock Sales, Inc., Aberdeen, South Dakota.

Notice is hereby given, therefore, that the said Chief, pursuant to authority delegated under the Packers and Stockyards Act, 1921, as amended (7 U.S.C. et seq.), proposes to issue a rule designating the stockyards named above as posted stockyards subject to the provisions of the Act, as provided in section 302 thereof.

Any person who wishes to submit written data, views, or arguments concerning the proposed rule, may do so by filing them with the Chief, Registrations, Bonds and Reports Branch, Packers and Stockyards Administration, U.S. Department of Agriculture, Washington, D.C. 20250, within 15 days after publication in the FEDERAL REGISTER.

All written submissions made pursuant to this notice shall be made available for public inspection at such times and places in a manner convenient to the public business (7 CFR 1.27(b)).

Done at Washington, D.C., this 13th day of July 1967.

EDWARD L. THOMPSON,
Registrations, Bonds, and Reports Branch, Packers and Stockyards Administration.

[F.R. Doc. 67-8327; Filed, July 18, 1967; 8:49 a.m.]

DEPARTMENT OF COMMERCE

Maritime Administration

LYKES BROS. STEAMSHIP CO., INC.

Notice of Application

Notice is hereby given that Lykes Bros. Steamship Co., Inc., has applied for a temporary increase of two sailings per month in the maximum number of subsidized sailings permitted on its Trade Route No. 22—Freight Service (Line D—Orient Line), with such increase to be effective for the duration of disruption of normal commercial relations with certain Arab countries in the area of Lykes' Trade Route No. 13, Freight Service (Line C—Mediterranean Line).

In connection with said application it is noted that U.S.-flag participation in commercial cargo traffic carried by ships in liner service on Trade Route No. 22 (U.S. Gulf/Far East) was less than 30 percent of outbound and 15 percent of inbound in each of the last 3 years, and is decreasing. The following table shows liner carryings of commercial cargo on Trade Route No. 22 during calendar years 1964, 1965, and 1966 and U.S.-flag participation therein:

TRADE ROUTE NO. 22—COMMERCIAL CARGO CARRIED BY SUBSIDY LINER SERVICE

Calendar year	Outbound: Total United States and foreign	Outbound: U.S. flag	Outbound: U.S. percent	Inbound: Total United States and foreign	Inbound: U.S. flag	Inbound: U.S. percent
1964	2,222,196	686,771	28	850,489	73,417	15
1965	2,200,977	525,074	23	879,003	57,732	9
1966	2,113,294	403,916	19	725,727	64,908	9

Source: U.S. Department of Commerce, Bureau of the Census.

Any person, firm or corporation having any interest in such application and desiring a hearing on issues pertinent to section 605(c) of the Merchant Marine Act, 1936, as amended, 46 U.S.C. 1175, should by the close of business on July 31, 1967, notify the Secretary, Maritime Subsidy Board in writing, in triplicate, and file petition for leave to intervene in accordance with the rules of practice and procedure of the Maritime Subsidy Board.

In the event petitions to intervene are received from party or parties having standing to be heard, an expedited hearing on the section 605(c) statutory issues will be held because of the emergency conditions obtaining and the temporary nature of the service being proposed.

If no request for hearing and petition for leave to intervene is received within the specified time, or if the Maritime Subsidy Board determines that petitions to intervene filed within the specified time do not demonstrate sufficient interest to warrant a hearing, the Maritime Subsidy Board will take such action as may be deemed appropriate.

Dated: July 14, 1967.

By order of the Maritime Subsidy Board.

JOHN M. O'CONNELL,
Acting Secretary.

[F.R. Doc. 67-8316; Filed, July 18, 1967; 8:48 a.m.]

UNITED STATES LINES, INC.

Notice of Application for Approval of Certain Cruises

Notice is hereby given that United States Lines, Inc., acting pursuant to Public Law 87-45, has applied to the Maritime Administration for approval of the following cruises by the SS "United States":

Sails New York—February 3, 1968; returns New York—March 2, 1968; itinerary—Curacao, Rio de Janeiro, Dakar, Tenerife, Gibraltar, Lisbon, Funchal.
Sails New York—April 6, 1968; returns New York—April 15, 1968; itinerary—Cristobal, Curacao, St. Thomas.

Any person, firm or corporation having any interest, within the meaning of Public Law 87-45, in the foregoing who desires to offer data, views and arguments should submit the same in writing, in triplicate, to the Secretary, Maritime Subsidy Board, Washington, D.C. 20235, by the close of business on July 31, 1967.

In the event an opportunity to present oral argument is also desired, specific reason for such request should also be included. The Maritime Subsidy Board will consider these comments and views and take such action with respect thereto as in its discretion it deems warranted.

Dated: July 14, 1967.

By order of the Maritime Subsidy Board.

JOHN M. O'CONNELL,
Acting Secretary.

[F.R. Doc. 67-8317; Filed, July 18, 1967; 8:48 a.m.]

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

UNION CARBIDE CORP.

Notice of Establishment of Temporary Tolerance

Notice is given that at the request of the Union Carbide Corp., Post Office Box 8361, South Charleston, W. Va. 25303, a temporary tolerance of 0.1 part per million is established for total residues of the insecticides 2-*sec*-butyl-4,6-dinitrophenyl isopropyl carbonate and its metabolite 2-*sec*-butyl-4,6-dinitrophenol in or on apples and pears from the application of the insecticide to the growing crops. The Commissioner of Food and Drugs has determined that this temporary tolerance will protect the public health.

A condition under which this temporary tolerance is established is that the insecticide will be used in accord with the temporary permit issued by the U.S. Department of Agriculture.

This temporary tolerance expires July 11, 1968.

This action is taken pursuant to the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (sec. 408(j), 68 Stat. 516; 21 U.S.C. 346 a(j)) and delegated by him to the Commissioner (21 CFR 2.120).

Dated: July 11, 1967.

J. K. KIRK,
Associate Commissioner for Compliance.

[F.R. Doc. 67-8296; Filed, July 18, 1967; 8:47 a.m.]

MONSANTO CO.

Notice of Filing of Petition Regarding Pesticides

Pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(d)(1), 68 Stat. 512; 21 U.S.C. 346a (d)(1)), notice is given that a petition (PP 7F0617) has been filed by Monsanto Co., 800 North Linbergh Boulevard, St. Louis, Mo. 63166, proposing the establishment of a tolerance of 0.2 part per million for residues of the herbicide α-chloro-*N,N*-diallylacetamide in or on the raw agricultural commodities: Cabbage, castor beans, celery, corn (field, sweet, and popcorn), lima beans, onions, peas, potatoes, snap beans, sorghum (grain and forage), soybeans, sugarcane, sweet potatoes, and tomatoes.

The analytical method proposed for determining residues of the herbicide is based upon hydrolysis by caustic to release diallylamine. This amine is reacted with carbon disulfide and copper sulfate in the presence of alkali to produce copper diallyldithiocarbamate, which is measured spectrophotometrically.

Dated: July 11, 1967.

J. K. KIRK,
Associate Commissioner for Compliance.

[F.R. Doc. 67-8299; Filed, July 18, 1967; 8:47 a.m.]

[Docket No. FDC-D-103; NDA No. 12-268 et al.]

PUREX CORP.

Cutitone Acne Cream and All Other Drugs for Human Use Containing Bithionol; Notice of Opportunity for Hearing

Notice is hereby given to the Purex Corp., Wilmington, Calif. 90746, and to any interested person who may be adversely affected, that the Commissioner proposes (21 U.S.C. 355(e)) of the issue an order under the provisions of section 505(e) (21 U.S.C. 355(e)) of the Federal Food, Drug, and Cosmetic Act (1) withdrawing approval of new-drug application No. 12-268 and all amendments and supplements thereto held by the Purex Corp. for the drug Cutitone Acne Cream, which contains bithionol as an active ingredient, and (2) withdrawing approval of all other new-drug applications and all amendments and supplements thereto for drugs for human use containing any bithionol, for which the applicants have waived opportunity for a hearing on this proposal, on the grounds that:

Evaluation of (1) new evidence of clinical experience not contained in such application or not available to the Commissioner until after such application was approved, (2) tests by methods not deemed reasonably applicable when the application was approved, and (3) the evidence available when the application was approved indicates that bithionol,

a component of the drug, is not shown to be safe for use under the conditions of use for which the application was approved. Specifically, such new evidence and photo-patch tests show that the use of bithionol will cause photosensitivity and that in some instances the photosensitization may persist for prolonged periods as severe reactions without further contact with sensitizing articles. Further, there is evidence to indicate that bithionol may produce cross-sensitization with other commonly used chemicals such as certain halogenated salicylanilides and hexachlorophene.

In accordance with the provisions of section 505 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355) and the regulations promulgated thereunder (21 CFR Part 130), the Commissioner will give the applicant and any interested person who would be adversely affected by an order withdrawing such approval an opportunity for a hearing at which time such persons may produce evidence and arguments to show why approval of new-drug application No. 12-268 should not be withdrawn. Promulgation of the proposed order will cause all drugs for human use containing any bithionol to be new drugs for which no approval is in effect.

Within 30 days from the date of publication of this notice in the FEDERAL REGISTER, such persons are required to file with the Hearing Clerk, Department of Health, Education, and Welfare, Office of the General Counsel, Food and Drug Division, Room 5440, 330 Independence Avenue SW., Washington, D.C. 20201, a written appearance electing whether:

1. To avail themselves of the opportunity for a hearing; or

2. Not to avail themselves of the opportunity for a hearing.

If such persons elect not to avail themselves of the opportunity for a hearing, the Commissioner without further notice will enter a final order withdrawing the approval of the new-drug application.

Failure of such persons to file such a written appearance of election within 30 days following the date of publication of this notice in the FEDERAL REGISTER will be construed as an election by such persons not to avail themselves of the opportunity for a hearing.

The hearing contemplated by this notice will be open to the public except that any portion of the hearing that concerns a method or process that the Commissioner finds is entitled to protection as a trade secret will not be open to the public, unless the respondent specifies otherwise in his appearance.

If such persons elect to avail themselves of the opportunity for a hearing by filing a timely written appearance of election, a hearing examiner will be named by the Commissioner and he shall issue a written notice of the time and place for the hearing.

This notice is issued under the authority contained in the Federal Food, Drug, and Cosmetic Act (sec. 505, 52 Stat. 1052, as amended; 21 U.S.C. 355), and delegated to the Commissioner by the Secretary of Health, Education, and Welfare (21 CFR 2.120).

Dated: July 12, 1967.

JAMES L. GODDARD,
Commissioner of Food and Drugs.

[F.R. Doc. 67-8300; Filed, July 18, 1967; 8:47 a.m.]

[Docket No. FDC-D-99; NDA No. 16-579]

TYLER PHARMACAL DISTRIBUTORS, INC.

Pro-Forma; Final Order Refusing Approval of New-Drug Application

In the FEDERAL REGISTER of January 11, 1967 (32 F.R. 286), a notice of opportunity for hearing was published extending to Tyler Pharmacal Distributors, Inc., 36 West Van Buren Street, Chicago, Ill. 60605, referred to herein as the "respondent," an opportunity for a hearing on the proposal of the Commissioner of Food and Drugs to refuse to approve, under section 505(d) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(d)), new-drug application No. 16-579 submitted by the respondent November 15, 1966, for marketing the drug Pro-Forma. The grounds for the proposed order were set forth in the notice.

The respondent elected to avail itself of the opportunity for a hearing. Pursuant to notices published in the FEDERAL REGISTER (Mar. 3, 1967, 32 F.R. 3716; Mar. 10, 1967, 32 F.R. 3950), a prehearing conference and a hearing were held before a duly designated hearing examiner.

On April 14, 1967, the hearing examiner issued tentative findings of fact, tentative conclusions of law, and tentative order based on the substantial evidence of record adduced at the hearing.

In accordance with § 130.25 (21 CFR 130.25), the respondent was given the opportunity to file exceptions to the tentative order. No exceptions were filed.

Therefore, by virtue of the authority vested in the Secretary of Health, Education, and Welfare by the provisions of the act (sec. 505(d), 52 Stat. 1052, as amended; 21 U.S.C. 355(d)) and delegated to him by the Secretary (21 CFR 2.120), the Commissioner hereby issues this final order refusing to approve new-drug application No. 16-579 on the grounds that it does not meet the requirements of section 506 of the act (21 U.S.C. 355) and the regulations promulgated thereunder (21 CFR Part 130) necessary for approval.

The tentative findings of fact and conclusions of law, dated April 14, 1967, filed by the hearing examiner in this matter in Docket File No. FDC-D-99, are hereby specifically adopted and incorporated by reference into this final order. Said findings and conclusions were served on the respondent by certified mail and are available for inspection at the Office of the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington, D.C. 20201.

Dated: July 11, 1967.

JAMES L. GODDARD,
Commissioner of Food and Drugs.

ATOMIC ENERGY COMMISSION

[Docket No. 50-298]

BOSTON EDISON CO.

Notice of Receipt of Application for Construction Permit and Facility License

Boston Edison Co., 800 Boylston Street, Boston, Mass. 02199, pursuant to section 104(b) of the Atomic Energy Act of 1954, as amended, has filed an application, dated June 23, 1967, for authorization to construct and operate a single cycle, forced circulation, boiling water nuclear reactor. The proposed reactor, designated by the applicant as the Pilgrim Nuclear Power Station, will be located on the applicant's approximately 517-acre site about 36 miles southeast of Boston, in the town of Plymouth, Plymouth County, Mass. The reactor is designed for initial operation at approximately 1,912 thermal megawatts with a net electrical output of approximately 687 megawatts.

A copy of the application is available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C.

Dated at Bethesda, Md., this 12th day of July 1967.

For the Atomic Energy Commission.

PETER A. MORRIS,
Director,
Division of Reactor Licensing.

[Docket No. 50-379]

GEORGIA INSTITUTE OF TECHNOLOGY

Notice of Application for License To Receive, Possess, and Store Nuclear Reactor Components and Fuel

Please take notice that Georgia Institute of Technology, pursuant to section 104c of the Atomic Energy Commission Act of 1954, as amended, has submitted an application dated June 14, 1967, for necessary licenses to receive, possess, and store, but not to assemble, components and fuel of the AGN-201, serial No. 104, nuclear reactor presently located on the University of Akron's campus in Akron, Ohio. The components and fuel are to be stored on the campus of Georgia Institute of Technology in Atlanta, Ga., until applications for authority to assemble and operate are filed with and acted upon by the Commission. A copy of the application is available for public inspection at the AEC Public Document Room, located at 1717 H Street NW., Washington, D.C.

Dated at Bethesda, Md., this 12th day of July 1967.

For the Atomic Energy Commission.

DONALD J. SKOVHOLT,
Assistant Director for Reactor Operations, Division of Reactor Licensing.

[F.R. Doc. 67-8268; Filed, July 18, 1967; 8:45 a.m.]

[Docket No. 50-290]

UNITED NUCLEAR CORP.

Notice of Proposed Issuance of Construction Permit

The Atomic Energy Commission ("the Commission") is considering the issuance of a construction permit, substantially as set forth below, to United Nuclear Corp. The permit would authorize construction of a zero-power critical experiment facility (designated by the applicant as "Proof Test Facility") to be located at United Nuclear Corp.'s Remote Experimental Station site about 4 miles west of Pawling, N.Y. The Proof Test Facility is to be used to perform physics tests on fuel of the type used in central station nuclear power reactors.

Within fifteen (15) days from the date of publication of this notice in the FEDERAL REGISTER, the applicant may file a request for hearing, and any person whose interest may be affected by the issuance of this construction permit may file a petition for leave to intervene. Requests for hearing and petitions to intervene shall be filed in accordance with the provision of the Commission's rules of practice, 10 CFR Part 2. If a request for a hearing or a petition for leave to intervene is filed within the time prescribed in this notice, a notice of hearing or an appropriate order will be issued.

For further details with respect to this proposed license, see (1) the application dated April 28, 1967, and amendment thereto dated June 9, 1967, and (2) a related Safety Evaluation prepared by the Division of Reactor Licensing, both of which are available for public inspection in the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. A copy of the safety evaluation may be obtained at the Commission's Public Document Room or upon request addressed to the Atomic Energy Commission, Washington, D.C. 20545, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Md., this 14th day of July 1967.

For the Atomic Energy Commission.

DONALD J. SKOVHOLT,
Assistant Director for Reactor Operations, Division of Reactor Licensing.

PROPOSED CONSTRUCTION PERMIT

1. By application dated April 28, 1967, and amendment thereto dated June 9, 1967 (hereinafter referred to as "the application"), United Nuclear Corp. requested a Class 104 license authorizing construction and operation of a critical experiment facility (designated the Proof Test Facility and hereinafter "PTF") at its site near Pawling, N.Y.

2. The Atomic Energy Commission ("the Commission") has found that:

A. The application complies with the requirements of the Atomic Energy Act of 1954, as amended ("the Act"), and the Commission's regulations set forth in Title 10, Chapter 1, CFR;

B. The PTF will be a utilization facility as defined in the Commission's regulations contained in Title 10, Chapter 1, CFR, Part 50, "Licensing of Production and Utilization Facilities";

C. The PTF will be used in the conduct of research and development activities of the types specified in Section 31 of the Act;

D. United Nuclear Corp. is financially qualified to construct the PTF in accordance with the regulations contained in Title 10, Chapter 1, CFR, and to engage in the proposed activities for a reasonable period of time;

E. United Nuclear Corp. is technically qualified to design and construct the PTF;

F. United Nuclear Corp. has submitted sufficient technical information concerning the proposed facility to provide reasonable assurance that the proposed facility can be constructed and operated at the proposed location without endangering the health and safety of the public; and

G. The issuance of the proposed construction permit will not be inimical to the common defense and security or to the health and safety of the public.

3. Pursuant to the Act and Title 10, CFR, Part 50, "Licensing of Production and Utilization Facilities," the Commission hereby issues a construction permit to United Nuclear Corp. to construct the PTF in accordance with the application and this construction permit. This permit shall be deemed to contain and be subject to the conditions specified in sections 50.54 and 50.55 of said regulations; is subject to all applicable provisions of the Act and rules, regulations and orders of the Commission now or hereinafter in effect, and is subject to the additional conditions specified below:

A. The earliest completion date of the facility is September 1, 1967. The latest completion date of the facility is November 1, 1967. The term "completion date," as used herein, means the date on which construction of the facility is completed except for the introduction of the fuel material.

B. The PTF shall be constructed on the applicant's Remote Experimental Station site located near Pawling, N.Y., as specified in the application.

4. Upon completion of the construction of the PTF in accordance with the terms and conditions of this permit, upon finding that the facility authorized has been constructed and will operate in conformity with the application and the provisions of the Act and of the rules and regulations of the Commission, upon execution of the indemnity agreement as required by section 170 of the Act, and in the absence of any good cause being shown to the Commission why the granting of a license would not be in accordance with the provisions of the Act, the Commission will issue a Class 104 license to United Nuclear Corp. pursuant to section 104c of the Act, which license shall expire approximately ten (10) years from the date of issuance of this permit, unless sooner terminated.

Date of issuance:

For the Atomic Energy Commission.

DONALD J. SKOVHOLT,
Assistant Director for Reactor Operations, Division of Reactor Licensing.

CIVIL AERONAUTICS BOARD

EMERY AIR FREIGHT CORP.

Notice of Application for Tariff-Filing Authority Pickup and Delivery Zone

JULY 14, 1967.

In accordance with Part 222 (14 CFR, Part 222) of the Board's Economic Regulations (effective June 12, 1964), notice is hereby given that the Civil Aeronautics Board has received an application, Docket 18786, from Emery Air Freight Corp., Post Office Box 322, Wilton, Conn., for authority to provide true pickup and delivery service of air freight shipments between the Greater Buffalo International Airport and Batavia, N.Y.

Under the provisions of § 222.3(c) of Part 222, interested persons may file an answer in opposition to or in support of this application within fifteen (15) days after publication of this notice in the FEDERAL REGISTER. An executed original and 19 copies of such answer shall be addressed to the Docket Section, Civil Aeronautics Board, Washington, D.C. 20428. It shall set forth in detail the reasons for the position taken and include such economic data and facts as are relied upon, and shall be served upon the applicant and state the date of such service.

[SEAL] HAROLD R. SANDERSON,
Secretary.

[Docket Nos. 18722, etc.; Order No. E-26417]

FRONTIER AIRLINES, INC.

Order of Investigation and Suspension Regarding Military Wives and Mothers Fare

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 13th day of July 1967.

By tariff[1] posted June 15, 1967, and marked to become effective August 1, 1967, Frontier Airlines, Inc. (Frontier), has proposed Military Wives and Mothers fares, applicable over its entire system, at a discount of 40 perbent from its standard fare, subject to a $10 minimum. Eligibility for these reduced fares is limited to the wives and mothers of persons on active duty status with one of the U.S. military agencies. The tariff bears an expiration date of January 31, 1968.

In its letter of justification accompanying the tariff transmittal, Frontier states that the purpose of the discount fare is to enable wives and mothers of service personnel to visit their husbands and sons at a price which they can afford. Frontier further asserts that the proposed fares are intended to stimulate air travel and attract a substantial volume of new traffic to air transportation. In this regard, the carrier estimates that the proposed fares will produce added revenues of $188,000, and additional servicing costs of $91,000, and that as a result, Frontier's subsidy would be reduced by $97,000 annually.

Complaints requesting investigation and suspension of the proposal have been filed by Western Air Lines, Inc. (Western), Northwest Airlines, Inc. (Northwest), and Continental Air Lines, Inc. (Continental).[2] In general, these complaints assert that the instant proposal is unjustly discriminatory in the following respects: (1) The limitation of the fare to women violates the rule of equality that a reduced fare must be reasonably open to all who apply, free of any restrictions based on the passengers' mission, business or status; (2) the proposed service is not sufficiently differentiated from standard service, to warrant a special fare, since there is no space-available, off-peak, or other meaningful restriction upon its availability; (3) nothing in the proposal prevents wives and mothers from visiting anyone at any city on Frontier's system regardless of where their husbands and sons may be stationed; (4) Frontier's proposal is almost completely immune from effective policing since no documentation is available, nor proposed, which would authoritatively evidence the wife's or mother's status with respect to her serviceman husband or son; (5) this lack of positive identification could lead to widespread abuse of the fare; (6) Frontier has failed to justify the discrimination on grounds of either cost savings or competitive considerations; and (7) the proposed tariff would dilute revenues and divert traffic from competing carriers.

In its answer, Frontier compares establishment of these fares with military furlough fares and the reduced fares available to wives to visit their husbands while on rest and recuperation leave in Hawaii. On this basis, they contend that the instant proposal is in the national interest and not unjustly discriminatory.

On the basis of all facts and information before it, the Board concludes that Frontier's proposed fares for Military Wives and Mothers should be investigated. The tariff, in restricting the availability of the reduced fares to wives and mothers of service personnel, is inherently discriminatory in several respects. We have heretofore ordered investigations and suspended the effectiveness of tariffs proposing similar reduced fares for women[3] because of the patent discrimination between the sexes and the absence of any distinction in the transportation of men and women. The instant proposal raises the same basic problem in that it would establish special fares for wives and mothers of service personnel, but not for their husbands and fathers. This proposal goes further, however, and would discriminate between men and women in service in that the reduced fares proposed would be available for the spouses of servicemen but not servicewomen. In addition, while the reduced fares proposed would be available for wives and mothers to visit service personnel they would not be restricted to such travel and these fares would be applicable to transportation unrelated to a son, daughter or husband serving in the armed forces. Thus this proposal also results in a discrimination among women upon the basis of this status and we perceive no justification for the discrimination inherent in singling out this group to receive special fares for any air transportation that may be provided.

With regard to Frontier's contention that the proposed fare is similar to the reduced fares available to wives to visit their husbands while on rest and recuperation leave in Hawaii, we do not agree that a valid basis for this comparison exists. In those tariffs the reduced fares are available only for travel to visit a relatively restricted group of servicemen in Hawaii under unusual circumstances. These factors are not present in the instant proposal and the reduced fares would be made available without restriction for travel unrelated to having family members in the service.

In essence we view the instant proposal as discriminatory upon the basis of sex, as discriminatory between the families of men and women in service, and as discriminatory among women. Neither the promotional advantages alleged by Frontier nor the inherent characteristics of the persons involved appear sufficient to justify these discriminatory aspects of this proposal. In view of the serious nature of the discrimination involved in this proposal, the Board will suspend the tariff pending investigation.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a), 403, 404, and 1002 thereof,

It is ordered, That:

1. An investigation be instituted to determine whether the fares and provisions in Rule 22 on 2d Revised Page 36 of tariff CAB No. 101 issued by Airline Tariff Publishers, Inc., agent, and rules, regulations, and practices affecting such fares and provisions, are or will be unjust or unreasonable, unjustly discriminatory, unruly preferential, unduly prejudicial, or otherwise unlawful, and if found to be unlawful, to determine and prescribe the lawful fares and provisions, and rules, regulations, or practices affecting such fares and provisions;

2. Pending hearing and decision by the Board, the fares and provisions in Rule 22 on 2d Revised Page 36 of tariff CAB No. 101 issued by Airline Tariff Publishers, Inc., agent, are suspended and their use deferred to and including January 31, 1968, unless otherwise ordered by the Board, and that no changes be made therein during the period of suspension except by order or special permission of the Board;

3. The proceeding ordered herein be assigned for hearing before an Examiner of the Board at a time and place hereafter to be designated;

4. Except to the extent granted herein, the complaints of Western Airlines, Inc., in Docket 18722, Northwest Airlines, Inc., in Docket 18728, and Continental Air Lines, Inc., in Docket 18729 be dismissed; and

5. Copies of this order be filed with the aforesaid tariff and be served upon Western Air Lines, Inc., Northwest Airlines, Inc., and Continental Air Lines, Inc., which are hereby made parties to this proceeding.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

FEDERAL MARITIME COMMISSION

STATES MARINE LINES, INC., ET AL.

Notice of Agreement Filed for Approval

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1321 H Street NW., Room 609; or may inspect agreements at the offices of the District Managers, New York, N.Y., New Orleans, La., and San Francisco, Calif. Comments with reference to an agreement including a request for hearing, if desired, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, within 20 days after publication of this notice in the FEDERAL REGISTER. A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the comments should indicate that this has been done.

States Marine Lines, Inc., Global Bulk Transport, Inc., and Isthmian Lines, Inc.

Notice of agreement filed for approval by:

J. D. Kenny, Counsel, States Marine-Isthmian Agency, Inc., 90 Broad Street, New York, N.Y. 10004.

Agreement 9641, between States Marine Lines Inc., Global Bulk Transport, Inc., and Isthmian Lines, Inc., provides for the establishment of a joint cargo service to and from ports of the United States (including territories and possessions) and ports of Japan, Korea, Taiwan (Formosa), Siberia, Manchuria, Vietnam, Thailand, the Republic of the Philippines as well as ports on the Mediterranean Sea, on the Sea of Marmara, on the Black Sea and on the Atlantic Coast of Morocco under terms and conditions as set forth in the agreement.

Dated: July 14, 1967.

By order of the Federal Maritime Commission.

INTERSTATE COMMERCE COMMISSION

[Notice 455]

MOTOR CARRIER ALTERNATE ROUTE DEVIATION NOTICES

JULY 14, 1967.

The following letter-notices of proposals to operate over deviation routes for operating convenience only have been filed with the Interstate Commerce Commission, under the Commission's Deviation Rules Revised, 1957 (49 CFR 211.1 (c)(8)) and notice thereof to all interested persons is hereby given as provided in such rules (49 CFR 211.1(d)(4)).

Protests against the use of any proposed deviation route herein described may be filed with the Interstate Commerce Commission in the manner and form provided in such rules (49 CFR 211.1(e)) at any time, but will not operate to stay commencement of the proposed operations unless filed within 30 days from the date of publication.

Successively filed letter-notices of the same carrier under the Commission's Deviation Rules Revised, 1957, will be numbered consecutively for convenience in identification and protests if any should refer to such letter-notices by number.

MOTOR CARRIERS OF PROPERTY

No. MC 1824 (Deviation No. 6), PRESTON TRUCKING COMPANY, INC., 151 Easton Boulevard, Preston, Md. 21655, filed July 10, 1967. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: Between junction Interstate Highway 80 and U.S. Highway 15, near Whitedeer, Pa., and junction Interstate Highway 80 and U.S. Highway 611, near

Stroudsburg, Pa., over Interstate Highway 80, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over pertinent service routes as follows: (1) From Baltimore, Md., over Interstate Highway 83 to Lemoyne, Pa., thence over U.S. Highway 15 to junction U.S. Highway 20, thence over U.S. Highway 20 to junction New York Highway 130, thence over New York Highway 130 to Buffalo, N.Y., (2) from Lemoyne, Pa., over U.S. Highway 11 to Syracuse, N.Y., and (3) from Jersey City, N.J., over U.S. Highway 22 to junction New Jersey Highway 69, thence over New Jersey Highway 69 to junction U.S. Highway 46, thence over U.S. Highway 46 to junction U.S. Highway 611, thence over U.S. Highway 611 to junction Pennsylvania Highway 307, thence over Pennsylvania Highway 307 to Scranton, Pa., and return over the same routes.

No. MC 1824 (Deviation No. 7), PRESTON TRUCKING COMPANY, INC., 151 Easton Boulevard, Preston, Md. 21655, filed July 10, 1967. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Harrisburg, Pa., over U.S. Highway 22 to junction Interstate Highway 78, thence over Interstate Highway 78 to Allentown, Pa., and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over pertinent service routes as follows: (1) From junction U.S. Highway 22 and New Jersey Highway 69 over U.S. Highway 22 to junction U.S. Highway 222, thence over U.S. Highway 222 to junction U.S. Highway 30, thence over U.S. Highway 30 to Chambersburg, Pa., and (2) from junction U.S. Highways 222 and 422 over U.S. Highway 422 to junction U.S. Highway 322, thence over U.S. Highway 322 to Harrisburg, Pa., and return over the same routes.

No. MC 1824 (Deviation No. 8), PRESTON TRUCKING COMPANY, INC., 151 Easton Boulevard, Preston, Md. 21655, filed July 10, 1967. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From junction U.S. Highway 11 and New York Highway 17 over New York Highway 17 to junction New York Highway 14, thence over New York Highway 14 to junction U.S. Highway 20, and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over pertinent service routes as follows: (1) From Philadelphia, Pa., over U.S. Highway 309 to junction U.S. Highway 11, thence over U.S. Highway 11 to junction U.S. Highway 20, and (2) from junction U.S. Highway 11 and 20 over U.S. Highway 20 to junction U.S. Highway 15, and return over the same routes.

No. MC 17803 (Deviation No. 1), PREMIER TRUCKING SERVICE CO., Post Office Box 156 Downtown Station, Omaha, Nebr. 68101, filed July 5, 1967. Carrier's representative: Edward G. Bazelon, 39 South La Salle Street, Chicago, Ill. 60603. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities* with certain exceptions, over deviation routes as follows: (1) From Chicago, Ill., over Interstate Highway 55 to junction Interstate Highway 80, thence over Interstate Highway 80 to junction Interstate Highway 80N, thence over Interstate Highway 80N to junction Interstate Highway 29, thence over Interstate Highway 29 to Omaha, Nebr., and (2) from Chicago, Ill., over Interstate Highway 55 to junction Interstate Highway 80, thence over Interstate Highway 80 to Omaha, Nebr., and return over the same routes, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over pertinent service routes as follows: (1) From Omaha, Nebr., over city streets across the Missouri River bridge to junction Iowa Highway 92, thence over Iowa Highway 92 to junction Iowa Highway 48, thence over Iowa Highway 48 to junction U.S. Highway 6, thence over U.S. Highway 6 to junction Interstate Highway 55, thence over Interstate Highway 55 to Chicago, Ill., and (2) from Omaha, Nebr., over U.S. Highway 75 to junction U.S. Highway 30, thence over U.S. Highway 30 to junction Illinois Highway 56, thence over Illinois Highway 56 to junction Alternate U.S. Highway 30, thence over Alternate U.S. Highway 30 to junction Interstate Highway 90, thence over Interstate Highway 90 to Chicago, Ill., and return over the same routes.

No. MC 75651 (Deviation No. 1), R. C. MOTOR LINES, INC., 2500 Laura Street, Post Office Box 2501, Jacksonville, Fla. 32203, filed July 3, 1967. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: (1) From Atlanta, Ga., over Interstate Highway 75 to junction Interstate Highway 10, thence over Interstate Highway 10 to Jacksonville, Fla., and (2) from Atlanta, Ga., over Interstate Highway 75 to junction Interstate Highway 475 (bypass around Macon, Ga.), thence over Interstate Highway 475 to junction Interstate Highway 75, thence over Interstate Highway 75 to junction Interstate Highway 10, thence over Interstate Highway 10 to Jacksonville, Fla., and return over the same routes, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over pertinent service routes as follows: (1) From Savannah, Ga., over U.S. Highway 80 to Macon, Ga., thence over Georgia Highway 87 to junction U.S. Highway 23, thence over U.S. Highway 23 to Atlanta, Ga., and (2) from Jacksonville, Fla., over U.S. Highway 17 via Savannah, Ga., to Pocataligo, S.C., and return over the same routes.

No. MC 104004 (Deviation No. 33), ASSOCIATED TRANSPORT, INC., 380 Madison Avenue, New York, N.Y. 10017, filed June 30, 1967. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Greenville, S.C., over Interstate Highway 85 to junction Interstate Highway 285 (near Atlanta, Ga.), thence over Interstate Highway 285 to junction Interstate Highway 75, thence over Interstate Highway 75 to Chattanooga, Tenn., and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over a pertinent service route as follows: From Greenville, S.C., over U.S. Highway 25 to Asheville, N.C., thence over U.S. Highway 70 to Knoxville, Tenn., thence over U.S. Highway 129 to junction U.S. Highway 411, thence over U.S. Highway 411 to Cleveland, Tenn., thence over U.S. Highway 11 to Chattanooga, Tenn., and return over the same route.

MOTOR CARRIER OF PASSENGERS

No. MC 8742 (Deviation No. 2), CONTINENTAL PANHANDLE LINES, INC., 400 Monroe Street, Amarillo, Tex. 79101, filed June 30, 1967. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *passengers and their baggage*, and *express* and *newspapers* in the same vehicle with passengers, over a deviation route as follows: Between Oklahoma City, Okla., and Sayre, Okla., over Interstate Highway 40, for operating convenience only. The notice indicates that the carrier is presently authorized to transport passengers and the same property, over a pertinent service route as follows: From Oklahoma City, Okla., over U.S. Highway 277 to junction Oklahoma Highway 152 (formerly Oklahoma Highway 41), thence over Oklahoma Highway 152 to Sayre, Okla., and return over the same route.

No. MC 102764 (Deviation No. 2), A.B.C., Inc., 120 Plympton Street, North Providence, R.I. 02904, filed July 3, 1967. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *passengers and their baggage*, and *express* and *newspapers*, in the same vehicle with passengers, over a deviation route as follows: From junction Interstate Highway 195 and Milliken Boulevard exit in Fall River, Mass., over Interstate Highway 195 to junction with Penniman and Purchase Streets in New Bedford, Mass., thence over Penniman and Purchase Streets to the Almeida Bus Terminal in New Bedford, Mass. (a distance of 13.6 miles), and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport passengers and the same property, over a pertinent service route as follows: From Providence, R.I., over U.S. Highway 6 to junction U.S. Highway 44 in East Providence, R.I., thence over Waterman Avenue in East Providence, R.I., and Fall River Avenue in Seekonk, Mass., to U.S. Highway 6, thence over U.S. Highway 6 via Fall River, Mass., to New Bedford, Mass., and return over the same route.

By the Commission.

Authority which ultimately may be granted as a result of the applications here noticed will not necessarily reflect the phraseology set forth in the application as filed, but also will eliminate any restrictions which are not acceptable to the Commission.

MOTOR CARRIERS OF PROPERTY

No. MC 16872 (Sub-No. 13) (Republication), filed November 30, 1966, published FEDERAL REGISTER issue of December 22, 1966, and republished this issue. Applicant: WILLIAM MIRRER, doing business as MIRRER'S TRUCKING CO., 38 Alan Avenue, Glen Rock, N.J. Applicant's representative: George A. Olsen, 69 Tonnele Avenue, Jersey City, N.J. 07306. By application filed November 30, 1966, applicant seeks a certificate of public convenience and necessity authorizing operation, in interstate or foreign commerce, as a common carrier by motor vehicle, over irregular routes, of glass bottles and containers, from Washington, Pa., to Paterson, N.J., and New York, N.Y. An order of the Commission, Operating Rights Board No. 1, dated June 29, 1967, and served July 10, 1967, as amended, finds that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a common carrier by motor vehicle, over irregular routes, of *glass bottles and plastic containers*, from Washington, Pa., to Paterson, N.J., and New York, N.Y., restricted to the transportation of traffic originating at Washington, Pa., and destined to Paterson, N.J., and New York, N.Y., that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. Because it is possible that other parties, who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described in the findings in this order, a notice of the authority actually granted will be published in the FEDERAL REGISTER and issuance of a certificate in this proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file a petition to reopen or for other appropriate relief setting forth in detail the precise manner in which it has been so prejudiced.

No. MC 22046 (Sub-No. 14) (Republication), filed January 4, 1967, published FEDERAL REGISTER issue of January 26, 1967, and republished this issue. Applicant: W. M. (BILLY) WALKER, INC., 129 South Grimes Street, Hobbs, N. Mex. 88240. Applicant's representative: W. D. Girand, P.O. Box 1290, Room 221, New Mexico Bank & Trust Co. Building, Hobbs, N. Mex. By application filed January 4, 1967, applicant seeks a certificate of public convenience and necessity authorizing operation, in interstate or foreign commerce, as a common carrier by motor vehicle, over irregular routes, of commodities, the transportation of which, because of size or weight, requires the use of special equipment (except retired railroad cars and buildings), and related machinery parts, and related contractors' materials and supplies when their transportation is incidental to the transportation of commodities which, because of size or weight, require the use of special equipment, between points in Lea, Eddy, Chaves, Roosevelt, and Curry Counties, N. Mex., and Loving, Winkler, and Andrews Counties, Tex. An order of the Commission, Operating Rights Board No. 1, dated June 23, 1967, and served July 10, 1967, as amended finds that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a common carrier by motor vehicle, over irregular routes, of *commodities* the transportation of which because of size or weight requires the use of special equipment, between points in Lea, Eddy, Chaves, Roosevelt, and Curry Counties, N. Mex., and Loving, Winkler, and Andrews Counties, Tex., subject to the restriction that such authority shall not be tacked or joined with any other authority held by applicant for the purpose of providing a through service from or to points not authorized to be served herein; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. Because it is possible that other parties, who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described in the findings in this order, a notice of the authority actually granted will be published in the FEDERAL REGISTER and issuance of a certificate in this proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file a petition to reopen or for other appropriate relief setting forth in detail the precise manner in which it has been so prejudiced.

No. MC 29647 (Sub-No. 40) (Republication), filed February 23, 1967, published FEDERAL REGISTER issue of March 9, 1967, and republished this issue. Applicant: CHARLTON BROS. TRANSPORTATION COMPANY, INC., Post Office Box 2097, 552 Jefferson Street, Hagerstown, Md. 21740. Applicant's representative: Spencer Money, Park Lane Building, 2025 Eye Street NW., Washington, D.C. 20006. By application filed February 23, 1967, applicant seeks a certificate of public convenience and necessity authorizing operation, in interstate or foreign commerce, as a common carrier by motor vehicle, over irregular routes, of *sawdust and wood chips*, in bulk, in specially constructed trailers, from Martinsburg, W. Va., to Williamsburg and Tyrone (Blair County), Pa. An Order of the Commission, Operating Rights Board No. 1, dated June 23, 1967, and served July 10, 1967, finds that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce as a common carrier by motor vehicle, over irregular routes, of *sawdust and wood chips*, in bulk, from Martinsburg, W. Va., to Williamsburg and Tyrone (Blair County), Pa.; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. Because it is possible that other parties, who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described in the findings in this order, a notice of the authority actually granted will be published in the FEDERAL REGISTER and issuance of a certificate in this proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file a petition to reopen or for other appropriate relief setting forth in detail the precise manner in which it has been so prejudiced.

No. MC 30844 (Sub-No. 229) (Republication), filed January 6, 1967, published FEDERAL REGISTER issue of January 26, 1967, and republished this issue. Applicant: KROBLIN REFRIGERATED XPRESS, INC., 2125 Commercial Street, Post Office Box 5000, Waterloo, Iowa 50704. Applicant's representative: Truman A. Stockton, Jr., The 1650 Grant Street Building, Denver, Colo. 80202. By application filed January 6, 1967, applicant seeks a certificate of public convenience and necessity authorizing operation, in interstate or foreign commerce, as a common carrier by motor vehicle, over irregular routes, of (1) fresh, cured, and smoked meats, frozen and unfrozen, and (2) buckwheat flour, maple syrup, and cheese when mixed in the same vehicle with commodities specified in (1), from Fort Atkinson, Wis., to points in Connecticut, Delaware, the District of Columbia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia, and West Virginia, with traffic to Ohio restricted to shipments moving in the same vehicle and in conjunction with shipment destined to points east of the Ohio-Pennsylvania State lines, and further restricted to traffic originating at the plantsite and facilities utilized by Jones Dairy Farm at or near Fort Atkinson, Wis. An order of the Commission, Operating Rights Board No. 1, dated June 23, 1967, and served July 10, 1967, as amended, finds that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a common carrier by motor vehicle, over irregular routes, of (1) *meats*, and (2) *buckwheat flour, maple syrup, and cheese* in mixed loads with meats, from Fort Atkinson, Wis., to points in Connecticut, Delaware, Maine, Maryland, Massachusets, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia, and the District of Columbia, and restricted to the transportation of traffic originating at the plantsite and facilities utilized by Jones Dairy Farm located at or near Fort Atkinson, Wis.; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. Because it is possible that other parties, who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described in the findings of this order a notice of the authority actually granted will be published in the FEDERAL REGISTER and issuance of a certificate in this proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file a petition to reopen or for other appropriate relief setting forth in detail the precise manner in which it has been so prejudiced.

No. MC 107002 (Sub-No. 333) (Republication), filed February 17, 1967, published FEDERAL REGISTER issue of March 9, 1967, and republished this issue. Applicant: HEARIN-MILLER TRANSPORTERS, INC., Post Office Box 1123, U.S. Highway 80 West, Jackson, Miss. 39205. Applicant's representatives: Harry C. Ames, Jr., 529 Transportation Building, Washington, D.C. 20006, and Harold D. Miller, Jr., Post Office Box 1250, Jackson, Miss. 39205. By application filed February 17, 1967, applicant seeks a certificate of public convenience and necessity authorizing operation, in interstate or foreign commerce, as a common carrier, by motor vehicle, over irregular routes, of (1) cement, from Lowndes, Lee, Hinds, and Rankin Counties, Miss., to points in Louisiana, Alabama, Tennessee, and Arkansas, and (2) sulphuric acid, in bulk, in tank vehicles, from Bossier Parish, La., to points in Mississippi. By letter, filed June 1, 1967, applicant seeks to amend part (1) of the application by substituting the origin point of Madison County, Miss., in lieu of Hinds County, Miss. An order of the Commission, Operating Rights Board No. 1, dated June 21, 1967, and served July 10, 1967, finds that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a common carrier by motor vehicle, over irregular routes, of (1) *cement*, from points in Lowndes, Lee, Madison, and Rankin Counties, Miss., to points in Louisiana, Alabama, Tennessee, and Arkansas, and (2) *Sulphuric acid*, in bulk, in tank vehicles, from points in Bossier Parish, La., to points in Mississippi; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. Because it is possible that other parties, who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described in the findings in this order, a notice of the authority actually granted will be published in the FEDERAL REGISTER and issuance of a certificate in this proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file a petition to reopen or for other appropriate relief setting forth in detail the precise manner in which it has been so prejudiced.

No. MC 112582 (Sub-No. 29) (Republication), filed December 19, 1966, published FEDERAL REGISTER issue of January 6, 1967, and republished this issue. Applicant: T. M. ZIMMERMAN COMPANY, a corporation, Post Office Box 380, Chambersburg, Pa. Applicant's representative: John M. Musselman, 400 North Third Street, Harrisburg, Pa. 17108. By application filed December 19, 1966, applicant seeks a certificate of public convenience and necessity authorizing operation, in interstate or foreign commerce, as a common carrier by motor vehicle, over irregular routes, of bakery products requiring refrigeration from Cincinnati, Ohio, to the plant site of Pet, Inc., at Allentown and Chambersburg, Pa. An order of the Commission, Operating Rights Board No. 1 dated June 21, 1967, and served July 7, 1967, finds that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a common carrier by motor vehicle, over irregular routes, of *bakery products*, in vehicles equipped with mechanical refrigeration, from Cincinnati, Ohio, to the plantsites of the Frosen Food Division of Pet, Inc. (of St. Louis, Mo.), at Allentown and Chambersburg, Pa., that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. Because it is possible that other parties, who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described in the findings in this order, a notice of the authority actually granted will be published in the FEDERAL REGISTER and issuance of a certificate in this proceeding

will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file a petition to reopen or for other appropriate relief setting forth in detail the precise manner in which it has been so prejudiced.

No. MC 113963 (Republication of modification of certificate), Applicant: HEAVY & SPECIALIZED HAULERS, INC., 190 Polk Avenue, Nashville, Tenn. 37211. Applicant's representative: Robert M. Pearce, Central Building, 1033 State Street, Bowling Green, Ky. A certificate was issued to applicant dated December 9, 1963, which authorizes the transportation of "industrial plants, and in connection therewith, machinery, equipment, and bulk stocks." A report of the Commission, division 1, decided May 5, 1967, and served May 15, 1967, finds that on and continuously since June 1, 1935, applicant and its predecessors-in-interest have engaged in bona fide operation, in interstate or foreign commerce, as common carriers by motor vehicle, of *commodities* which because of size or weight require the use of special equipment or handling, between points within 175 miles of Chattanooga, Tenn., including Chattanooga, that unless otherwise ordered, a certificate authorizing a continuance of such operation, in substitution for that heretofore authorized, should be granted to applicant. Because it is possible that other persons, who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described in the findings in this order, a notice of the authority actually granted will be published in the FEDERAL REGISTER and issuance of a modified certificate in this proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file a petition to reopen or for other appropriate relief setting forth in detail the precise manner in which it has been so prejudiced.

No. MC 114989 (Sub-No. 9) (Republication), filed February 9, 1967, published FEDERAL REGISTER issue of March 2, 1967, and republished this issue. Applicant: BRACEY & MARTIN, INC., 1910 South Walnut Street, Hopkinsville, Ky. 42240. Applicant's representative: James C. Havron, 513 Nashville Bank and Trust Building, Nashville, Tenn. 37201. By application filed February 9, 1967, applicant seeks a permit authorising operations, in interstate or foreign commerce, as a contract carrier by motor vehicle, over irregular routes, of malt beverages, in containers, (1) from South Bend, Ind., to Hopkinsville, Ky., (2) from Cincinnati, Ohio, to points in Christian County, Ky., and empty malt beverage containers and rejected shipments, on return, in (1) and (2) above, under contract with Kentucky Ace Beverage Distributors, Inc., and Cravens Distributing Co. Applicant seeks to amend part (1) of the application by substituting the origin point of Evansville, Ind., in lieu of South Bend, Ind. An Order of the Commission, Operating Rights Board No. 1 dated June 23, 1967, and served July 10, 1967, finds that the operation by applicant, in interstate or foreign commerce, as a contract carrier by motor vehicle over irregular routes, of *malt beverages*, in containers, (1) from Evansville, Ind., to Hopkinsville, Ky., and (2) from Cincinnati, Ohio, to points in Christian County, Ky., under continuing contracts with Kentucky Ace Beverage Distributors, Inc., of Hopkinsville, Ky., and Cravens Distributing Co. of Pembroke, Ky., that the holding by applicant of the permit authorized to be issued in this proceeding and the holding by applicant of certificates heretofore issued in No. MC 115762 and Sub-No. 1 thereunder will be consistent with the public interest and the national transportation policy; and that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. Because it is possible that other persons, who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described in the findings in this order, a notice of the authority actually granted will be published in the FEDERAL REGISTER and issuance of a permit in this proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file a petition to reopen or for other appropriate relief setting forth in detail the precise manner in which it has been so prejudiced.

No. MC 115331 (Sub-No. 191) (Republication), filed April 12, 1966, published FEDERAL REGISTER issue of April 28, 1966, and republished this issue. Applicant: TRUCK TRANSPORT, INCORPORATED, 707 Market Street, St. Louis, Mo. 63101. Applicant's representative: Thomas F. Kilroy, Colorado Building, 1341 G Street NW., Washington, D.C. By application filed April 12, 1966, applicant seeks a certificate of public convenience and necessity authorizing operation, in interstate or foreign commerce, as a common carrier by motor vehicle, over irregular routes, of clay, in containers, from points in Pulaski County, Ill., to points in Illinois, Indiana, Kentucky, Iowa, Michigan, Minnesota, Missouri, North Dakota, Ohio, South Dakota, and Wisconsin. The application was referred to Examiner James Anton for hearing and the recommendation of an appropriate order thereon. Hearing was held on January 31, 1967, at Chicago, Ill. A Report and Order of the Commission, division 1, served May 31, 1967, which became effective June 30, 1967, and served July 11, 1967, as amended, finds that the present and future public convenience and necessity require operation by applicant as a common carrier by motor vehicle, in interstate or foreign commerce, over irregular routes, of *clay*, in bulk, from points in Pulaski County, Ill., to points in Illinois, Indiana, Kentucky, Iowa, Michigan, Minnesota, Missouri, North Dakota, Ohio, South Dakota, and Wisconsin; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. Because it is possible that other persons, who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described in the findings in this order, a notice of the authority actually granted will be published in the FEDERAL REGISTER and issuance of a certificate in this proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file a petition to reopen or for other appropriate relief setting forth in detail the precise manner in which it has been so prejudiced.

No. MC 117698 (Sub-No. 3) (Republication), filed November 28, 1966, published FEDERAL REGISTER Issues of December 15, 1966, and February 24, 1967, are republished this issue. Applicant: LEO H. SEARLES, doing business as L. H. SEARLES, South Worcester, N.Y. Applicant's representative: Harold C. Vrooman, 140 Main Street, Oneonta, N.Y. 13820. By application filed November 28, 1966, applicant seeks a certificate of public convenience and necessity authorising operation, in interstate or foreign commerce, as a common carrier by motor vehicle, over irregular routes, of (1) frozen foods, and processed meats, from and to the points indicated below; (2) cheese and processed cottage cheese products, from St. Albans, Vt., to the points indicated below; (3) silos and wood laminated beams, saddles, arches, decking, and fixtures for construction of buildings having wood laminated arches and beams, from Sidney and Unadilla, N.Y., to the construction job site of the designated consignees at the points indicated below; and (4) ice cream, ice cream products, ice confections and ice mix, such as ice cream, in bulk or in small containers, fudgsicles, popsicles, cones, candied ice cream, and sherbets, in bulk or in small containers or in sticks, from Suffield, Conn., to the points indicated below. An Order of the Commission, Operating Rights Board No. 1, dated June 29, 1967 and served July 12, 1967, as amended, finds that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a common carrier by motor vehicle, over irregular routes, of (1) (a) *frozen foods and processed meats*, and (b) *fish and frozen seafood products* in mixed shipments with frozen foods and processed meats, from New York, N.Y., to Oneonta, N.Y.; (2) *dairy products*, (a) from St. Albans, Vt., to Auburn, Norwich, Saratoga, Syracuse, Cortland, Ithaca, Elmira, Waverly, Owego, Binghamton, Sidney, and Oneonta, N.Y., and (b) from Suffield, Conn., to Lake George, Ravena, Utica, and Buffalo, N.Y., Pittsburgh, Pa., and Boston, Mass.; and (3) *silos and laminated wood products, and accessories* used in the erection and construction of silos and laminated wood products, from Sidney and Unadilla, N.Y., to points in

Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, Pennsylvania, New Jersey, Maryland, Delaware, Virginia, West Virginia, Indiana, Michigan, and Ohio; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder.

Because it is possible that other parties, who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described in the findings in this order, a notice of the authority actually granted will be published in the FEDERAL REGISTER and issuance of a certificate in this proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file a petition to reopen or for other appropriate relief setting forth in detail the precise manner in which it has been so prejudiced.

APPLICATION FOR BROKERAGE LICENSE

PASSENGER

No. MC 12483 (Sub-No. 1) (Republication), filed January 9, 1967, published FEDERAL REGISTER issue of January 26, 1967, and republished this issue. Applicant: FARLOW TRAVEL BUREAU, INC., 210 North Jackson Street, Frankfort, Ind. 46041. Applicant's representative: S. Harrison Kahn, Suite 733, Investment Building, Washington, D.C. By application filed January 9, 1967, applicant seeks a license authorizing operation as a broker of transportation by motor vehicle of passengers and their baggage in the same vehicle, in interstate or foreign commerce, between points in the United States, including Alaska and Hawaii. An order of the Commission, Operating Rights Board No. 1, dated June 21, 1967, and served July 7, 1967, as amended, finds that operation by applicant, at Frankfort and South Bend, Ind., as a broker in arranging transportation by motor vehicle in interstate or foreign commerce, of *passengers and their baggage* in the same vehicle with passengers, in all-expense round-trip special and charter sightseeing and pleasure tours, beginning and ending at points in Indiana, Cook County, Ill., and Berrien, Cass, Kalamazoo, and St. Joseph Counties, Mich., and extending to points in the United States (except Alaska and Hawaii); will be consistent with the public interest and the national transportation policy; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder; that a license authorizing such operations should be granted subject (a) to the coincidental cancellation at applicant's written request of its license in No. MC 12483, issued October 20, 1960; (b) the right of the Commission, which is hereby expressly reserved, to impose, after final determination of the proceeding in ex parte No. MC 29 (Sub-No. 2), such terms and conditions, if any, as may be deemed necessary to issue that the operations of applicant are limited to bona fide operations as a broker of transportation, by motor vehicle of passengers and their baggage in special or charter operations, in round-trip tours. Because it is possible that other persons, who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described in the findings in this order, a notice of the authority actually granted will be published in the FEDERAL REGISTER and issuance of a license in this proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file a petition to reopen or for other appropriate relief setting forth in detail the precise manner in which it has been so prejudiced.

APPLICATIONS FOR CERTIFICATES OR PERMITS WHICH ARE TO BE PROCESSED CONCURRENTLY WITH APPLICATIONS UNDER SECTION 5 GOVERNED BY SPECIAL RULE 1.240 TO THE EXTENT APPLICABLE

No. MC 54567 (Sub-No. 5), filed June 26, 1967. Applicant: RELIANCE TRUCK COMPANY, a corporation, 2500 North 24th Avenue, Phoenix, Ariz. 85009. Applicant's representative: Bertram S. Silver, 140 Montgomery Street, San Francisco, Calif., and A. Michael Bernstein, 1237 Guaranty Bank Building, Phoenix, Ariz. 85012. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, (1) between points in Los Angeles, Calif., commercial zone, points in the Los Angeles Harbor, Calif., commercial zone, and San Bernardino, Riverside, Colton, and Corona, Calif., (a) from Los Angeles over U.S. Highway 66 to San Bernardino, (b) from Los Angeles over Interstate Highway 10 to Colton, (c) from Los Angeles over U.S. Highway 60 to Riverside, and (d) also between Corona and San Bernardino, over U.S. Highway 91, serving all intermediate points; (2) between Colton, Riverside, and Beaumont, Calif., (a) from Riverside over U.S. Highway 60 to Beaumont, and (b) from Colton over Interstate Highway 10 to Beaumont, serving no intermediate points; (3) between Beaumont and Blythe, Calif., over Interstate Highway 10, serving all intermediate points and the off-route points of Midland and Kaiser Mine, Calif.; (4) between Whitewater and Mecca, Calif., over California Highway 111, serving all intermediate points and the off-route points of Garnet, North Palm Springs, and Desert Hot Springs, Calif.; (5) between Desert Center and Parker Dam, Calif., over unnumbered highway through Freda, Rice, Grommet, Vidal Junction, and Earp to Parker Dam, serving all intermediate points and the off-route point of Vidal, Calif.; (6) between Whitewater and Amboy, Calif., from Whitewater eastward over U.S. Highway 10 approximately four miles to junction unnumbered highway, thence over unnumbered highway through Yucca Valley and Twenty Nine Palms to Amboy, Calif., serving all intermediate points and the off-route point of the Marine Corps Field Artillery and Antiaircraft Training Center, Calif.; (7) between San Bernardino and Yermo, Calif., over Interstate Highway 15, serving all intermediate points; (8) between Barstow and Needles, Calif., from Barstow over Interstate 40 to junction U.S. Highway 66, thence over U.S. Highway 66 to Needles, serving all intermediate points; (9) between San Bernardino and Inyokern, Calif., over U.S. Highway 395, serving all intermediate points and the off-route points of Ridgecrest, Searles, Randsburg, Rademacher, Theresea, China Lake, and West End, Calif.; (10) between Johannesburg and Trona, Calif., over unnumbered highway through Argus to Trona, serving all intermediate points. Restriction: The service proposed herein above shall be subject to the following conditions: (1) Service shall not be rendered between the Los Angeles commercial zone and the Los Angeles Harbor commercial zone, and (2) Service shall not be rendered where both pickup and delivery of shipments is east of Irwindale Avenue and west of U.S. Highway 91. NOTE: This application is a matter directly related to MC-F-9788, published in FEDERAL REGISTER issue of June 28, 1967. The present application seeks to convert the certificate of registration issued to the Millage Trucking, Inc., under docket No. MC-121319, Sub 1, as set forth in Nos. (1) through (10) above, to a common carrier certificate. If a hearing is deemed necessary, applicant requests it be held at Phoenix, Ariz.

No. MC 108158 (Sub-No. 55), filed July 10, 1967. Applicant: MID-CONTINENT FREIGHT LINES, INC., 2711 North Fairview Avenue, St. Paul, Minn. 56113. Applicant's representative: Carl L. Steiner, 39 South La Salle Street, Chicago, Ill. 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (A) *General commodities*, (1) between Chicago, Ill., and points within a 50-mile radius thereof, and (2) between Chicago, Ill., on the one hand, and, on the other points in Illinois, and (B) *household goods, pianos, personal effects, musical instruments, new and used furniture and office furniture, store fixtures, and equipment and commodities general*, between points in Illinois. NOTE: This application is a matter directly related to Docket No. MC-F-9802 published FEDERAL REGISTER issue of July 6, 1967. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

APPLICATIONS UNDER SECTIONS 5 AND 210a(b)

The following applications are governed by the Interstate Commerce Commission's special rules governing notice of filing of applications by motor carriers of property or passengers under sections 5(a) and 210a(b) of the Interstate Commerce Act and certain other proceedings with respect thereto (49 CFR 1.240).

MOTOR CARRIERS OF PROPERTY

No. MC-F-9808. Authority sought for control by ENCINAL TERMINALS, Post Office Drawer A, Alameda, Calif. 94506, of NEEDHAM'S MOTOR SERVICE, INC., Post Office Box 138, Hightstown, N.J. 08520, and for acquisition by DEL MONTE CORPORATION, 215 Fremont Street, San Francisco, Calif. 94119, of control of NEEDHAM'S MOTOR SERVICE, INC., through the acquisition by ENCINAL TERMINALS. Applicants' attorneys: Donald Macleay, 1625 K Street NW., Washington, D.C. 20006, and H. Charles Ephraim, 1411 K Street NW., Washington, D.C. 20005. [Notice 421]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

JULY 14, 1967.

The following are notices of filing of applications for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC 67 (49 CFR Part 340) published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protest must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protest must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 2428 (Sub-No. 22 TA), filed July 13, 1967. Applicant: H. PRANG TRUCKING CO., INC., 112 New Brunswick Avenue (Hopelawn), Perth Amboy, N.J. 08861. Applicant's representative: Morton E. Kiel, 140 Cedar Street, New York, N.Y. 10006. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Nonferrous scrap metal*, in dump vehicles, unloaded by dumping, between plantsites of Phelps Dodge Corp. and its subsidiaries at Laurel Hill, N.Y., and South Brunswick, N.J.; for 180 days. Supporting shipper: Phelps Dodge Corp., 300 Park Avenue, New York, N.Y. 10022 (B. Ponessa, general traffic manager). Send protests to: Robert S. H. Vance, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 1060 Broad Street, Newark, N.J. 07102.

No. MC 52579 (Sub-No. 77 TA), filed July 11, 1967. Applicant: GILBERT CARRIER CORP., 441 Ninth Avenue, New York, N.Y. 10001. Applicant's representative: Aaron Hoffman (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wearing apparel and materials and supplies used in the manufacture of wearing apparel*, between Herkimer, N.Y., and points in the New York, N.Y., commercial zone, as defined by the Commission; for 150 days. Supporting shipper: Juniorite, Inc., 1407 Broadway, New York, N.Y. 10018. Send protests to: Paul W. Assenza, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 346 Broadway, New York, N.Y. 10013.

No. MC 115180 (Sub-No. 43 TA), filed July 11, 1967. Applicant: ONLEY REFRIGERATED TRANSPORTATION, INC., 408 West 14th Street, New York, N.Y. 10014. Applicant's representative: George A. Olsen, 69 Tonnele Avenue, Jersey City, N.J. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Food products* (except bananas and commodities in bulk, in tank vehicles), in vehicles equipped with mechanical refrigeration, from East Rutherford, N.J., points in the New York, N.Y., commercial zone and points in Union County, N.J., to points in Illinois (except points in the Chicago, Ill., commercial zone), Indiana (except points in the Chicago, Ill., commercial zone), Michigan, Ohio (except points in the Cleveland, Ohio, commercial zone), and Wisconsin; for 180 days. Supporting shippers: There are seven shippers' supporting statements attached to application, which may be examined at the Interstate Commerce Commission in Washington, D.C., or at the field office named below. Send protests to: Paul W. Assenza, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 346 Broadway, New York, N.Y. 10013.

No. MC 116282 (Sub-No. 17 TA), filed July 12, 1967. Applicant: NEIL'S BAKERY PRODUCTS TRANSPORTATION CO., 246 Broad Street, Auburn, Maine 04210. Applicant's representative: Mary Kelley, 10 Tremont Street, Boston, Mass. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Bakery products*, from Middleton, Mass., to Portsmouth, N.H.; and Bangor, Fryeburg, Lewiston, and Portland, Maine; and *returned containers and bakery products* on return; for 150 days. Supporting shipper: Pepperidge Farm, Inc., Norwalk, Conn. 06852. Send protests to: Donald G. Weiler, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 76 Pearl Street, Room 307, Portland, Maine 04112.

No. MC 117815 (Sub-No. 126 TA), filed July 12, 1967. Applicant: PULLEY FREIGHT LINES, INC., 405 Southeast 20th Street, Des Moines, Iowa 50317. Applicant's representative: William L. Fairbank, 610 Hubbell Building, Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such merchandise as is dealt in by wholesale and retail grocery and food business houses*, and in connection therewith, *equipment, materials, and supplies* used in the conduct of such business houses, from Chicago, Ill., to Burlington and Fairfield, Iowa; for 150 days. Supporting shippers: Maynard Ulm, Mayn's Super Market, Fairfield, Iowa; and Rudy Naifeh, Naifeh's Super Market, Burlington, Iowa. Send protests to: Ellis L. Annett, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 227 Federal Office Building, Des Moines, Iowa 50309.

No. MC 129167 (Sub-No. 2 TA), filed July 12, 1967. Applicant: MICHAEL A. TOKARSKY, JR., 624 Shady Lane, Windber, Pa. 15963. Applicant's representative: Arthur J. Diskin, 302 Frick Building, Pittsburgh, Pa. 15219. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Coal*, in bulk, in dump vehicles, from points in Somerset and Cambria Counties, Pa., to the plant of Potomac Edison Power & Light Co., Williamsport, Washington County, Md.; for 150 days. Supporting shippers: B & H Coal Co., 40 Strayer Street, Central City, Pa.; Heshbon Coal Co., Inc., 1309 Midway, Windber, Pa.; and Shuster Coal Co., 400 Eighth Street, Windber, Pa. Send protests to: Frank L. Calvary, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 2109 Federal Building, 1000 Liberty Avenue, Pittsburgh, Pa. 15222.

No. MC 129231 TA, filed July 11, 1967. Applicant: ROUTED THRU-PAC, INC., 350 Broadway, New York, N.Y. 10013. Applicant's representative: Alan F. Wohlstetter, 1 Farragut Square South, Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Hawaii; restricted to the handling of traffic originating at or destined to out-of-state points; for 180 days. Supporting shippers: UNIVAC, division of Sperry Rand Corp., Post Office Box 8100, Philadelphia Pa. 19101; Deere & Co., John Deere Road, Moline, Ill. 61265; Stone & Webster Service Corp., 90 Broad Street, New York, N.Y. 10004; and Headquarters, Defense Traffic Management Service, Washington, D.C. Send protests to: Paul W. Assenza, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 346 Broadway, New York, N.Y. 10013.

No. MC 129232 TA, filed July 11, 1967. Applicant: WEST FORDHAM TRANSPORTATION CORP., 439 West 203d Street, New York, N.Y. 10034. Applicant's representative: Samuel B. Zinder, 160-16 Jamaica Avenue, Jamaica, N.Y. 11432. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Passengers*, between Mount Vernon, N.Y., and Paramus, N.J.; for 150 days. Supporting shipper: Philips Broadcast Equipment Corp., North American Phillips Co., Inc., care of Patrick J. Hannan, 125 Park Avenue, New York, N.Y. 10017. Send protests to: Stephen P. Tomany, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 346 Broadway, New York, N.Y. 10013.

No. MC 129233 TA, filed July 12, 1967. Applicant: AIRFRATE, INC., James M. Cox Municipal Airport, Vandalia, Ohio 45377. Applicant's representatives: Richard A. Bishop, 711 14th Street NW., Washington, D.C. 20005, and Gregory C. Karas, Suite 701, Third National Bank Building, Dayton, Ohio 45402. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), (1) between the Weir Cook Municipal Airport, Marion County, Ind., on the one hand, and, on the other, points in Wayne County, Ind., and Hamilton and Montgomery Counties, Ohio; (2) between James M. Cox Municipal Airport, Montgomery County, Ohio, near Vandalia, on the one hand, and, on the other, points in Butler, Clinton, Greene, Hamilton, Montgomery, Preble, and Warren Counties, Ohio; (3) between the Greater Cincinnati Airport, Boone County, Ky., on the one hand, and, on the other, points in Butler, Clinton, Greene, Hamilton, Montgomery, Preble, and Warren Counties, Ohio; (4) between the James M. Cox Municipal Airport in Montgomery County, Ohio, near Vandalia, on the one hand, and, on the other, Weir Cook Municipal Airport in Marion County, Ind.; (5) between the Greater Cincinnati Airport, Boone County, Ky., on the one hand, and, on the other, Weir Cook Municipal Airport, Marion County, Ind.; (6) between the James M. Cox Municipal Airport in Montgomery County, Ohio, near Vandalia, on the one hand, and, on the other, the Greater Cincinnati Airport, Boone County, Ky.; and (7) between the Greater Cincinnati Airport, Boone County, Ky., on the one hand, and, on the other, the James M. Cox Municipal Airport in Montgomery County, Ohio, near Vandalia; restricted to the transportation of property having a prior or subsequent movement by air, in (1) through (7) above; for 180 days. Supporting shippers: There are 36 shippers' supporting statements attached to application, which may be examined at the Interstate Commerce Commission in Washington, D.C., or at the field office named below. Send protests to: Emil P. Schwab, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 1010 Federal Building, 550 Main Street, Cincinnati, Ohio 45202.

No. MC 129234 TA, filed July 12, 1967. Applicant: EVERETT W. BALLEW AND WALTER H. SHOWN, a partnership, doing business as NEW MOON EXPRESS, 1208 Frederick Road, Ellicott City, Md. 21043. Applicant's representative: Charles McD. Gillan, Jr., 315 Glen Rae Drive, Baltimore, Md. 21228. Current White House Releases

WEEKLY COMPILATION OF PRESIDENTIAL DOCUMENTS

The *Weekly Compilation of Presidential Documents* began with the issue dated Monday, August 2, 1965. It contains transcripts of the President's news conferences, messages to Congress, public speeches, remarks and statements, and other Presidential material released by the White House up to 5 p.m. of each Friday. This weekly service includes an Index of Contents preceding the text and a Cumulative Index to Prior Issues at the end. Cumulation of this index terminates at the end of each quarter and begins anew with the following issue. Semiannual and annual indexes are published separately.

The *Weekly Compilation of Presidential Documents* is sold to the public on a subscription basis. The price of individual copies varies.

Subscription Price: $6.00 per year

Compiled by Office of the Federal Register, National Archives and Records Service, General Services Administration

**Order from: Superintendent of Documents,
U.S. Government Printing Office,
Washington, D.C. 20402**

FEDERAL REGISTER
Area Code 202 Phone 962-8626

Published daily, Tuesday through Saturday (no publication on Sundays, Mondays, or on the day after an official Federal holiday), by the Office of the Federal Register, National Archives and Records Service, General Services Administration (mail address National Archives Building, Washington, D.C. 20408), pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., Ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15 per year, payable in advance. The charge for individual copies varies in proportion to the size of the issue (15 cents for the first 80 pages and 5 cents for each additional group of 40 pages, as actually bound). Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements are listed in the first FEDERAL REGISTER issue of each month.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER or the CODE OF FEDERAL REGULATIONS.

List of CFR Parts Affected

(Codification Guide)

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears at the end of each issue beginning with the second issue of the month.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1967, and specifies how they are affected.

Title 5—ADMINISTRATIVE PERSONNEL

Chapter I—Civil Service Commission

PART 213—EXCEPTED SERVICE

Entire Executive Civil Service

Section 213.3102 is amended to show that there is no longer a numerical limitation on the number of persons who may be appointed under the special Schedule A authority designed to facilitate the employment of the severely handicapped and that the time limitation on use of the authority has been removed to make it available to agencies on a continuing rather than an experimental basis. Effective on publication in the FEDERAL REGISTER, paragraph (u) of § 213.3102 is amended as set out below.

§ 213.3102 Entire executive civil service.

* * * * *

(u) Subject to prior approval of the Commission, positions when filled by severely handicapped persons who, under temporary appointment, have demonstrated their ability to perform the duties satisfactorily.

* * * * * * *

(5 U.S.C. 3301, 3302, E.O. 10577, 19 F.R. 7521, 3 CFR, 1954–58 Comp., p. 218)

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] JAMES C. SPRY,
Executive Assistant to the Commissioners.

[F.R. Doc. 67-8419; Filed, July 19, 1967; 8:51 a.m.]

PART 213—EXCEPTED SERVICE

Entire Executive Civil Service et al.

Section 213.3102 is amended to show that scientific and professional research associate positions at GS–12 and above are excepted under Schedule A when filled on a temporary basis by persons who have a doctoral degree in an appropriate field of study for research activities of mutual interest to the appointees and their agencies and who are referred by the National Research Council under its postdoctoral research associate program. Appointments are made initially for 1 year. Agencies may extend an appointment for up to one additional year when the program committee at the laboratory concerned determines that extension would benefit both the associate and the laboratory. This authority takes the place of several individual agency authorities, which are now revoked. Effective on publication in the FEDERAL REGISTER, paragraph (aa) is added to § 213.3102 and the following authorities are revoked as set out below: subparagraph (1) of paragraph (i) of § 213.3107; subparagraph (1) of paragraph (e) and subparagraph (1) of paragraph (g) of § 213.3108; subparagraph (1) of paragraph (e) of § 213.3109; subparagraph (3) of paragraph (g) of § 213.3113; subparagraph (1) of paragraph (e) and subparagraph (3) of paragraph (j) of § 213.3114; and subparagraph (1) of paragraph (h) of § 213.3116.

§ 213.3102 Entire executive civil service.

* * * * * * *

(aa) Scientific and professional research associate positions at GS–12 and above when filled on a temporary basis by persons having a doctoral degree in an appropriate field of study for research activities of mutual interest to appointees and their agencies. Appointments are limited to persons referred by the National Research Council under its postdoctoral research associate program and may be made initially for 1 year only. An agency may extend an appointment made under this authority for up to one additional year when the program committee at the laboratory concerned determines that extension will benefit both the associate and the laboratory.

Title 7—AGRICULTURE

Chapter IV—Federal Crop Insurance Corporation, Department of Agriculture

PART 409—ARIZONA-DESERT VALLEY CITRUS CROP INSURANCE

Subpart—Regulations for the 1967 and Succeeding Crop Years

Pursuant to the authority contained in the Federal Crop Insurance Act, as amended, the Arizona-Desert Valley Citrus Crop Insurance Regulations for the 1965 and Succeeding Crop Years as amended, which shall remain in full force and effect for the 1966 crop year, are hereby superseded for the 1967 and succeeding crop years by the regulations set forth below. With the publication of these regulations, all Arizona-Desert Valley citrus crop insurance contracts in force during the 1966 crop year are hereby cancelled effective beginning with the 1967 crop year. The provisions of this subpart shall apply in counties in Arizona and in the Desert Valley, consisting of Imperial County, Calif., and that portion of Riverside County, Calif., lying east of a line drawn due north and south through the post office in the town of White Water, Calif., until amended or superseded, to all continuous citrus crop insurance contracts as they relate to the 1967 and succeeding crop years: *Provided, however,* That these regulations shall not apply to any insured with a contract of insurance in force in 1966 unless such insured files an application for insurance effective beginning with the 1967 crop year.

Sec.
- 409.20 Availability of Arizona-Desert Valley citrus crop insurance.
- 409.21 Premium rates and amounts of insurance.
- 409.22 Application for insurance.
- 409.23 Public notice of indemnities paid.
- 409.24 Creditors.
- 409.25 The application and the policy.

AUTHORITY: The provisions of this subpart issued under secs. 506, 516, 52 Stat. 73, as amended, 77, as amended; 7 U.S.C. 1506, 1516.

§ 409.20 Availability of Arizona-Desert Valley citrus crop insurance.

Citrus crop insurance shall be offered for the 1967 and succeeding crop years under the provisions of §§ 409.20 through 409.25 in counties in Arizona and the Desert Valley within limits prescribed by and in accordance with the provisions of the Federal Crop Insurance Act, as amended. The counties shall be designated by the Manager of the Corporation from a list of counties approved by the Board of Directors of the Corporation for citrus crop insurance. The counties designated by the Manager shall be published by appendix to this section.

§ 409.21 Premium rates and amounts of insurance.

(a) The Manager shall establish premium rates and the amounts of insurance per standard field box which shall be shown on the county actuarial table on file in the office for the county. Such premium rates and amounts of insurance may be changed from year to year.

(b) Any premium reduction earned under the provision of section 7 of the Application and Policy set forth in § 409.25 shall upon death of the insured inure to the benefit of his estate or surviving spouse and, upon approval of the Corporation, shall inure to any person operating the same farm or farms as the deceased insured who the Corporation determines has been actively participating in the farming operations by assisting in the management or by furnishing labor for compensation. If the insured is a partnership (which for the purpose of this section shall be deemed to include any other joint enterprise), the premium reduction earned by such insured shall, upon dissolution of the partnership, inure to the benefit of each member who has a contract of insurance in force in the year immediately following the dissolution covering only a part or all of the land involved in the partnership operation. If the insured is a partnership each of whose members had a contract of insurance in force in the year immediately preceding the formation of the partnership covering a part of the land included in the partnership operation, the smallest premium reduction earned by any member, or none if any member has earned none, shall inure to the benefit of the insured. If the insured is a partnership only one of whose members had a contract of insurance in force in the year immediately preceding the formation of the partnership, the premium reduction earned by such member shall inure to the benefit of the insured only if the insured operates the same farm or farms formerly operated by such member and if the Corporation finds that the other member or members have been actively participating in the farming operations by assisting in the management or by furnishing labor for compensation. If the insured is a corporation operating only a farm or farms previously operated by one or more stockholders, each of whom had a contract of insurance in force in the year immediately preceding the formation of the corporation, the smallest premium reduction earned by any such stockholder, or none if any such stockholder has earned none, shall inure to the benefit of the insured. If the insured was a stockholder of a dissolved corporation, which had a contract of insurance in force in the year immediately preceding its dissolution covering only the same farm or farms being operated by the insured, the premium reduction earned by the corporation shall inure to the benefit of the insured.

§ 409.22 Application for insurance.

Application for insurance may be submitted as provided in § 409.25 at the office for the county for the Corporation. The Corporation reserves the right to discontinue the taking of applications in any county upon its determination that the insurance risk involved is excessive prior to the closing date for the filing of applications. Such closing date shall be the October 31 immediately preceding the beginning of the crop year. The Corporation further reserves the right to reject any application or to exclude any definitely identified acreage for any crop year of the contract if upon inspection it deems the risk on such acreage is excessive. If any such acreage is to be excluded, the insured shall be notified of such exclusion before insurance attaches for the crop year for which the acreage is to be excluded.

§ 409.23 Public notice of indemnities paid.

The Corporation shall provide for posting annually in each county at the county courthouse a listing of the indemnities paid in the county.

§ 409.24 Creditors.

An interest of a person other than the insured in an insured crop existing by virtue of a lien, mortgage, garnishment, levy, execution, bankruptcy, or any involuntary transfer shall not entitle the holder of the interest to any benefit under the contract other than as provided in the Application and Policy set forth in § 409.25.

§ 409.25 The application and the policy.

The provisions of the application and policy for Arizona-Desert Valley Citrus Crop Insurance for the 1967 and Succeeding Crop Year are as follows:

Application and Policy Form FCI–812—Arizona–Desert Valley Citrus

U.S. DEPARTMENT OF AGRICULTURE

FEDERAL CROP INSURANCE CORPORATION

Application and Policy for Arizona-Desert Valley Citrus Crop Insurance

(For 19__ and Succeeding Crop Years)

(Name of insured)

(Policy number)

(Address of insured) (ZIP Code)

(County)

1. The undersigned applicant (herein called the "insured"), subject to the applicable provisions of the regulations of the Federal Crop Insurance Corporation (herein called the "Corporation"), hereby applies to the Corporation for insurance on his interest as a producer in citrus crops of the insurable types elected below (hereinafter called "the insured crop") located in the above-identified county (hereinafter called "the county"). The amounts of insurance per box and the premium rates for each crop year are shown by types on the county actuarial table (hereinafter called "the actuarial table"). The applicant hereby elects to insure the type(s) of citrus encircled below:

Type	Kind(s)
I	Naval Oranges.
II	Orlando Tangelos, Algerian Tangerines, Sweet Oranges, and Tampis Oranges.
III	Valencia Oranges.
IV	Grapefruit.
V	Lemons.
VI	Kinnow Mandarin, Dancy Tangerines, and Minneola Tangelos.

This application, when executed by a person as an individual, shall not cover his interest in a crop produced by a partnership, or other entity.

2. *Cause of loss insured against.* The insurance provided is against unavoidable loss resulting from freeze occurring within the insurance period.

3. *Insured crop.* (a) Application for insurance may be made with respect to all types of citrus or with respect to any one or more types of citrus, as defined in section 20 hereof, produced by the insured on trees that have reached at least the sixth growing season after being set out. The insured acreage each crop year shall be all that acreage in the county of the type(s) of citrus for which the insured has applied for insurance, on which the trees have reached the sixth growing season, which is shown as insurable acreage on the actuarial table and not excluded otherwise because of risk and in which the insured has an interest on the date insurance attaches.

(b) Insurance for each crop year of the contract shall cover only citrus setting from the annual bloom occurring in the calendar year in which the insurance period begins.

4. *Supplements to application showing identification of groves, kinds, types of citrus, acres, age of trees, estimated production in standard field boxes, and interest.* The insured shall file a supplement, on a form prescribed by the Corporation, which shall be a part of this application. The insured shall show on such supplement the location of acreage, kinds, types of citrus, acres, age of trees, estimated production in boxes of citrus, and his interest therein. Such information may be revised by the insured before insurance attaches for any crop year, by giving notice in writing to the Corporation's office for the county: *Provided, however,* That if there is no indemnity payable on a unit, downward revisions of estimated production in boxes for any insurance unit (hereinafter called "unit") after insurance has attached may be allowed for premium adjustment purposes if requested by the insured by the earlier of 30 days after the crop on the unit has been harvested or by May 31 of the crop year involved, but shall be limited to the most accurate determination the Corporation can make of the production in boxes from records and other information acceptable to the Corporation. Any such downward revisions shall be made only after satisfactory evidence is provided for any unit to the Corporation. When the earned annual premium is recomputed for any unit on the basis of a downward revision made at the request of the insured after insurance has attached and there is no indemnity payable on the unit such recomputed premium shall be increased $10.

Any acceptable revision shall be a part of the application, in lieu of any supplement previously filed, and shall be considered as the basis for continuation of insurance from year to year, subject to revision as provided herein. The Corporation reserves the right to determine the production in boxes under the contract, or on any unit and the insured's interest therein. The production in boxes and the interest therein shall be the boxes and interest reported by the insured or as determined by the Corporation.

5. *The contract.* Upon acceptance of this application by the Corporation, the contract shall be in effect for the crop year specified above and shall continue for each succeeding crop year until cancelled or terminated in accordance with the applicable provisions of the contract. This application and policy, and amendments thereto, if any, and the actuarial tables for each crop year shall constitute the contract for citrus insurance. Any changes made in the contract shall not affect the continuity from year to year.

6. *Insurance period.* For each crop year insurance shall attach on November 1, unless the application is accepted after October 31 in which event insurance shall attach on the 10th day after the date of acceptance of the application by the Corporation, and as to any portion of the citrus crop shall cease upon harvest, or on January 31 for types I, II, and V and on March 31 for types III, IV, and VI of the following calendar year, whichever occurs first.

7. *Annual premium and amount of insurance.* (a) The annual premium for any crop year shall be considered as earned on the date insurance attaches and shall be determined by multiplying the amount of insurance for that crop year for the unit as determined pursuant to subsection (c) of this section by the applicable premium rate and where applicable, applying the discount provided in this section or the increase provided in section 4.

(b) The annual premium for all units shall be reduced as follows for consecutive years of insurance, without a loss for which an indemnity was paid on any unit, immediately preceding the crop year for which the reduction is applicable (eliminating any year in which a premium was not earned):

Percent premium reduction	Consecutive years with no loss
5 percent after	1 year.
5 percent after	2 years.
10 percent after	3 years.
10 percent after	4 years.
15 percent after	5 years.
20 percent after	6 years.
25 percent after	7 years or more.

If any insured has a loss on a crop for which an indemnity is paid, the number of such consecutive years of insurance on such crop without a loss for which an indemnity was paid shall be reduced by 3 years, except, that, where the insured has 7 or more such years, a reduction to 4 shall be made and where the insured has 3 or less such years, a reduction to zero shall be made.

(c) The amount of insurance for any crop year for any unit shall be determined by multiplying the production in boxes for the unit for that crop year as reported by the insured or as determined by the Corporation by the applicable amount of insurance per box and multiplying the product thereof by the insured's interest: *Provided, however,* That for any unit the amount of insurance for any crop year shall not exceed the product of the insured acreage thereon, and the maximum amount of insurance per acre shown on the actuarial table for such crop year and the insured's interest.

8. *Premium; note.* In consideration hereof, the insured promises to pay to the order of the Federal Crop Insurance Corporation each crop year of the contract the annual premium and further agrees that any amount due the Corporation by the insured may be deducted from any indemnity payable to the insured and when not prohibited by law, from any loan or payment otherwise due the insured under any program administered by the United States Department of Agriculture.

_____
(Location of Headquarters—phone)

11. *Life of contract.* This contract is noncancelable the first crop year and shall continue in effect for each succeeding crop year until either the insured or the Corporation cancels the contract by giving written notice to the other by the August 31 immediately preceding the crop year for which the cancellation is to become effective. If, however, any acreage is excluded from insurance under the contract by the Corporation because of the risk involved after the August 15 immediately preceding the beginning of the crop year for which such exclusion is to become effective, the insured shall have the right to cancel the contract within 15 days after notice thereof is mailed to the insured by the Corporation. The contract shall, however, terminate for non-payment of premium if such premium is not paid by the October 31 of the crop year in which the premium was earned.

12. *Contract changes.* After the first crop year the Corporation reserves the right to amend or change the terms of this contract from year to year. Any such amendment or change shall be mailed to the insured or made available at the office for the county by the August 15 immediately preceding the beginning of the crop year for which such amendment or change is to become effective. Acceptance of such amendment or change will be conclusive in the absence of any notice from the insured to cancel the contract as provided in section 11 hereof.

13. *Notice of damage or loss.* (a) It shall be a condition precedent to payment of any indemnity on any unit hereunder that the insured report each damage to the insured crop from freeze to the office for the county immediately after such damage becomes apparent, giving the date of such damage. If not reported within seven days after such damage becomes apparent the Corporation reserves the right to reject any claim arising out of such damage on the unit if it determines that it has been prejudiced by such failure to report or by failure to give notice as required in subsection (b) of this section. Notwithstanding any other provision of this section to the contrary, no insured damage shall be deemed to have occurred on any acreage damaged by freeze unless a notice of the damage thereon is given to the office for the county within 30 days after the applicable calendar date for the end of the insurance period.

(b) If damage occurs within the seven-day period before the beginning of harvest, or during harvest, and a loss is to be claimed, notice shall be given immediately. The insured shall not harvest any citrus on any acreage damaged by freeze until the Corporation has inspected such damage. If any citrus is harvested prior to such inspection, no damage shall be considered to have occurred unless the Corporation can by representative sampling of the harvested fruit determine the extent of damage.

14. *Amount of loss and proof of loss.* (a) Any claim for loss on any unit shall be submitted to the Corporation on a form prescribed by the Corporation within 30 days after the amount of loss has been determined by the Corporation.

(b) Losses shall be adjusted separately for each unit. The amount of loss with respect to any unit shall be determined by multiplying the amount of insurance for the unit (determined in accordance with subsection 7(c)), by the average percent of damage (determined in accordance with subsection (c) of this section) in excess of 10 percent.

(c) Subject to the provisions of paragraph (d) of this section the average percent of damage to the insured crop on any unit shall be the ratio of the number of boxes of the crop lost from freeze to the total number of boxes which would have been produced (hereinafter called the "potential"). The potential shall include citrus which (1) was picked before the insured damage occurred, (2) remained on the trees after the damage occurred, (3) was lost from freeze, and (4) any other citrus covered by insurance not included in items (1) through (3), including citrus lost from causes not insured against other than normal dropping, "rots," and "splits." Citrus lost from freeze shall be citrus to which damage from freeze is serious as defined in the laws of the State in which the county is geographically located, as determined from grove inspections, marketing agency records, proof furnished by the insured or from any other method as determined by the Corporation: *Provided, however,* That in making field determinations in Arizona, the Corporation may elect to determine the extent to which damage from freeze is serious by an examination of the exposed pulp on a transverse cut made through the center of the fruit. The Corporation reserves the right to make final determination of any loss by field determination or to delay the determination of the extent of damage from freeze and the settlement of any loss until the insured makes available to it complete records of the marketing of the insured crop for the crop year.

(d) If the Corporation finds that any portion of the insured crop is seriously damaged by freeze to the extent that none of the fruit in such portion is or can be packed as fresh fruit, and but for such damage such portion could be packed as fresh fruit, the Corporation shall determine that the damage to such portion is 100 percent. If any portion has been eliminated by the packing house in packing fresh fruit for reasons other than damage freeze, or if the Corporation determines by a field examination that a portion of said crop would be so eliminated, the Corporation shall determine, by examining a representative sample, the amount of such portion that is also seriously damaged by freeze and only such amount shall be considered as lost due to freeze for the purpose of computing an indemnity hereunder. It shall be a condition precedent to payment of any claim that the insured furnish all records of production and such other information as the Corporation requires to determine the manner and extent of damage or loss.

(e) If the Corporation determines that frost protection equipment was not properly

utilized or was improperly reported the indemnity otherwise computed for the unit shall be reduced by the percent of premimum reduction given for frost protection equipment.

(f) In the event that any claim for indemnity under the provisions of the contract is denied by the Corporation, an action on such claim may be brought against the Corporation under the provisions of 7 U.S.C. 1508(c): *Provided*, That the same is brought within one year after the date notice of denial of the claim is mailed to and received by the insured.

15. *Payment of indemnity.* (a) Any indemnity will be paid within 30 days after a claim for loss is approved by the Corporation: *Provided*, That in no event shall the Corporation be liable for interest or damages in connection with any claim for indemnity.

(b) If the insured is an entity other than an individual and is dissolved or is an individual who dies or is judicially declared incompetent before insurance attaches in any crop year, the contract shall terminate as of the date of dissolution, death, or judicial declaration, but if such an event occurs after insurance attaches in any crop year the contract shall terminate at the end of such crop year and any indemnity payable shall be paid to the person(s) the Corporation determines to be beneficially entitled thereto.

(c) For the purposes of subsection (b) hereof, death of a partner in a partnership shall dissolve the partnership unless the partnership agreement provides otherwise. If two or more persons having a joint interest are insured jointly death of one of the parties shall dissolve the joint entity.

16. *Insured interest.* For the purpose of determining the amount of indemnity the interest insured shall not exceed the interest of the insured at the time of damage, as determined by the Corporation.

17. *Abandonment of crop.* There shall be no abandonment of the insured crop or portion thereof to the Corporation.

18. *Misrepresentation and fraud.* The Corporation may void the contract without affecting the insured's liability for premiums or waiving any right or remedy including the right to collect any unpaid premiums if at any time, either before or after any loss, the insured has concealed or misrepresented any material fact or committed any fraud relating to the contract, and such voidance shall be effective as of the beginning of the crop year with respect to the crop on which any such act or omission occurred.

19. *Collateral assignment—Transfer of interest.* The right to an indemnity in any crop year may be assigned by the insured only as security upon prior approval of the Corporation. If the insured transfers his interest in the insured crop in any crop year he may, upon prior approval of the Corporation, transfer his right to an indemnity for such crop year with respect to the transferred interest in the insured crop. Any assignment or transfer shall be made on assignment or transfer forms prescribed by the Corporation and shall be subject to all the terms set forth therein and to the terms hereof.

20. *Subrogation.* The insured (including his assignee or transferee) assigns to the Corporation all rights of recovery against any person for loss or damage to the extent that payment hereunder is made and shall execute all papers required and take appropriate action to secure such rights.

21. *Forms.* Copies of forms referred to in the contract are available at the office for the county.

22. *Meaning of terms.* For purposes of insurance on citrus the terms:

(a) "County actuarial table" means the actuarial forms and related material (including the crop insurance maps where applicable) which are approved by the Corporation which are on file for public inspection in the office for the county and which show the applicable amounts of insurance per box, premium rates, the maximum amount of insurance per acre, and related information with respect to citrus crop insurance for the crop year in the county.

(b) "Office for the county" means the Corporation's office serving the county shown in this application and policy, or such office as may be designated by the Corporation from time to time, and may serve more than one county.

(c) "County" means the area shown on the actuarial table which may include insurable acreage located in a local producing area bordering on the county.

(d) "Crop year" means the period beginning November 1 and extending through October 31 of the following calendar year and shall be designated by reference to the calendar year in which the insurance period begins.

(e) "Harvest" means any severance of citrus fruit from the tree either by pulling or picking, or picking the marketable fruit from the ground.

(f) "Insurance unit" means all insurable acreage in the county of any one of the six citrus types (see (h) below) (1) in which type of citrus the insured has 100 percent interest on the date insurance attaches for the crop year and which is located on contiguous land under the same ownership, or (2) in which type of citrus two or more persons have 100 percent interest on the date insurance attaches for the crop year and which type is located on contiguous land under the same ownership, excluding any other acreage of such type of citrus in which such persons do not have 100 percent interest in such citrus on such date. Land rented for cash or for a fixed commodity payment shall be considered as owned by the lessee. Contiguous land shall include only land that is touching at any point except that land that is separated only by a public or private way shall be considered contiguous.

(g) "Producer" means a person who has a share, or has the entire interest, in the insured crop at the time insurance attaches.

(h) "Types of citrus" means any one of six types as follows: Type (I) Navel oranges; Type (II) Orlando tangelos, Algerian tangerines, Sweet oranges, and Temple oranges; Type (III) Valencia oranges; Type (IV) Grapefruit; Type (V) Lemons; and Type (VI) Kinnow mandarin, Dancy tangerines, and Minneola tangelos.

(i) "Box" means a standard citrus field picking box as prescribed in the Agricultural Code of California.

NOTE: The reporting requirements contained herein have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Adopted by the Board of Directors on July 12, 1967.

[SEAL] MORRIS S. HILL,
Acting Secretary,
Federal Crop Insurance Corporation.

Approved: July 14, 1967.

ORVILLE L. FREEMAN,
Secretary.

Chapter VIII—Agricultural Stabilization and Conservation Service (Sugar), Department of Agriculture

SUBCHAPTER K—GENERAL CONDITIONAL PAYMENTS PROVISIONS

PART 893—PUERTO RICO

Pursuant to the provisions of the Sugar Act of 1948, as amended, the title of Part 893 is amended to read "Part 893—Puerto Rico"; §§ 893.1 through 893.10 are rescinded and new §§ 893.1 through 893.12 are added to read as follows:

Sec.
893.1 Regulations, as effective, and definitions.
893.2 Compliance with child labor provisions of the Act.
893.3 Tenant and sharecropper protection.
893.4 Compliance with other conditions of payment.
893.5 Instructions and forms.
893.6 Filing application for payment.
893.7 Determination of eligibility and basis for payment, review and changes in determinations and appeals for review thereof.
893.8 Obtaining information regarding eligibility for payment.
893.9 Conditions of payment not met where producer prevents obtaining information.
893.10 Preservation of sugar production records.
893.11 Computation of Sugar Act payment.
893.12 List of prescribed forms.

AUTHORITY: The provisions of this Part 893 issued pursuant to sec. 302, Sugar Act of 1948, as amended (sec. 403, 61 Stat. 932; 7 U.S.C. 1153; secs. 301, 302, 61 Stat. 929, 930, as amended; 7 U.S.C. 1131, 1132).

§ 893.1 Regulations, as effective, and definitions.

(a) The regulations in the following §§ 893.1 through 893.12 become effective on the 20th day after the date of publication of such sections in the FEDERAL REGISTER, shall continue in effect until amended, superseded or revoked, and shall apply to actions or proceedings initiated after such effective date. As used in this part, the terms:

(b) "Secretary" means the Secretary of Agriculture of the United States, or any officer or employee of the U.S. Department of Agriculture to whom authority has been delegated, or to whom authority may hereafter be delegated, to act in his stead.

(c) "Deputy Administrator" or "DASCO" means the Deputy Administrator, State and County Operations, Agricultural Stabilization and Conservation Service, U.S. Department of Agriculture.

(d) "Director" means the person employed to be responsible for the day-to-day operations of the Agricultural Stabilization and Conservation Service Caribbean Area Office, or any employee of such office authorized to act on his behalf.

(e) "Area Office" means the Agricultural Stabilization and Conservation Service Caribbean Area Office.

(f) "District Office" means the Agricultural Stabilization and Conservation Service Caribbean District Office.

(g) "Person" means an individual, partnership, corporation or association.

(h) "Producer" means a person who is the legal owner, at the time of harvest or abandonment, of a portion or all of a crop of sugarcane grown on a farm for the extraction of sugar or liquid sugar.

(i) "Processor-producer" means a producer who is determined to be also a processor. A producer shall be deemed to be also a processor:

(1) If such producer is directly engaged in the processing of sugarcane for sugar;

(2) If such producer, whether alone or in conjunction with others, controls a person directly engaged in the processing of sugarcane for sugar, either by stock ownership or otherwise; or

(3) If such producer is controlled, whether through stock ownership or otherwise, by a person directly engaged in the processing of sugarcane for sugar.

(j) "Farm" shall have the meaning set forth in Part 827 of this chapter.

(k) "Crop" means sugarcane which was or will be produced and processed (or abandoned) during the two consecutive calendar years used to designate a crop. The first calendar year represents the year in which the majority of growth of the cane to be harvested occurs and the second calendar year represents the year in which most of this cane is harvested and processed.

(l) "Act" means the Sugar Act of 1948, as amended.

§ 893.2 Compliance with child labor provisions of the Act.

(a) *Applicability.* As a condition for payment under the Act, no child under the age of fourteen years shall have been employed or permitted to work on the farm, whether for gain to such child or any other person, in the production, cultivation, or harvesting of a crop of sugarcane with respect to which application for payment is made, except a member of the immediate family of a person who was the legal owner of not less than 40 per centum of the crop at the time such work was performed; and no child between the ages of 14 and 16 years shall have been employed or permitted to do such work, whether for gain to such child or any other person, for a longer period than 8 hours in any 1 day, except a member of the immediate family of a person who was the legal owner of not less than 40 per centum of the crop at the time such work was performed.

(b) *Deduction for noncompliance.* Payment authorized under the Act may be made notwithstanding a failure to comply with the conditions set forth in paragraph (a) of this section, but the payments made with respect to any crop shall be subject to a deduction of $10 for each child for each day or a portion of a day during which such child was employed or permitted to work contrary to the provision of this section.

(c) *Proof of age.* The producer on a farm upon which a child is found by a representative of the Area or district office to have worked or to be working in the production, cultivation or harvesting of a crop of sugarcane shall be required, upon request of the representative, to furnish proof of age of the child if such child is not a member of the immediate family of a person owning at least 40 percent of the crop of sugarcane at the time such work was performed. Proof of age may be established by,

(1) An age certificate issued pursuant to any child labor program carried out under Commonwealth or Federal supervision,

(2) A birth certificate or transcript thereof,

(3) A baptismal certificate showing the date of birth,

(4) A passport,

(5) An insurance policy, or

(6) A Bible record.

(d) *Proving child member of producer's immediate family.* If it is alleged that the child is a member of the immediate family of a person who owns such 40 percent of a crop, such person or a producer on the farm must establish such relationship to the satisfaction of the representative of the Area or district office. "Member of the immediate family" is deemed to include children who constitute the household of a person when such person is responsible for and provides the support of such children either as parent or in place of the parent.

(e) *Checking compliance with child labor provisions.* In accordance with instructions issued by DASCO, the Director shall determine by random selection the farms on which child labor compliance checks shall be made. The farm operator shall be notified immediately of any violation of these provisions.

§ 893.3 Tenant and sharecropper protection.

In addition to compliance with the conditions for payment prescribed by the Act, eligibility for payment of any producer of sugarcane with respect to any crop shall be subject to the following conditions:

(a) The number of share tenants or sharecroppers engaged in the production of sugarcane of such crop on the farm of such producer shall not be reduced below the number so engaged with respect to the previous crop unless such reduction is approved by the Director. The Director shall approve such reduction when the reduction was the result of voluntary action of the share tenant or sharecropper, or was caused by reasons beyond the control of the producer.

(b) Such producer shall not have entered into any leasing or cropping agreement for the purpose of diverting to himself or any other producer any payments to which share tenants or sharecroppers would be entitled if their leasing or cropping agreements for the previous crop were in effect except with the approval of the Director prior to entering into the leasing or cropping agreement for the current crop. The Director shall approve such change when the leasing or cropping agreement provides for a benefit or compensation to the share tenant or sharecropper comparable to the amount of the payment diverted.

§ 893.4 Compliance with other conditions of payment.

All requirements of the Act and the determinations issued pursuant thereto with respect to wage rates, farm proportionate shares (if in effect) and, in the case of a processor-producer, prices paid for sugarcane shall be met.

§ 893.5 Instructions and forms.

The Deputy Administrator shall cause to be prepared for issuance to the Area office such forms and internal management instructions as are necessary for carrying out the regulations in this part and regulations hereafter issued. These forms, instructions, and data pertaining to the individual farms are available in the Area office. A list of forms prescribed for the conditional payment program in Puerto Rico is set forth in § 893.12.

§ 893.6 Filing application for payment.

(a) *Form to be used.* Application for payment authorized under Title III of the Act with respect to sugarcane planted on a farm for harvest during a crop season shall be made on Form SU–150. The required information shall be entered on the form and the form shall be made available for execution by the producer at such place and time as determined by the Area or district office or it may be mailed to him for his execution. The producer shall be notified by the Area or district office of the place and the time the form is available for execution.

(b) *Person eligible to apply for payment.* The producer on the farm, or his legal representative, must sign and file the form in the Area or district office or with a representative of such Area or district office for the municipality in which the farm headquarters is located or, in the absence of a farm headquarters, for the municipality in which the major portion of land suitable for the production of sugarcane is located.

(c) *Closing date for filing.* Form SU–150 must be filed with respect to a crop of sugarcane no later than June 30 of the second calendar year after the calendar year in which the crop harvest was completed in Puerto Rico.

(d) *Exception to closing date requirement.* An application may be filed after the closing date if the Director determines that the applicant was prevented from filing by such date because of illness or other reason beyond his control.

(e) *Person eligible to receive payment.* Payment shall be made to a producer of the sugarcane in accordance with the provisions of section 304(d) of the Act. In the event of the death, disappearance, or incompetency of the producer, payment shall be made to the beneficiary as designated in the application for payment by the producer, or if no such beneficiary is named, to the producer's legal representative or his heirs as determined by the Director.

(f) *Assignments.* Sugar Act payments may not be assigned.

(g) *Receivers.* A Sugar Act payment may not be made to a receiver.

§ 893.7 Determination of eligibility and basis for payment, review and changes in determinations and appeals for review thereof.

The finality provisions of section 306 of the Act apply to determinations made in conformity with the regulations in this § 893.7. Compliance with the conditions prescribed by the Act and regulations for any payment authorized under Title III of the Act, the facts constituting the basis for any such payment, and the amount thereof, shall be determined by the Director, any such determination to be subject to redetermination initiated by the Director and to review initiated by DASCO and to approval or redetermination by DASCO. Determinations and redeterminations by the Director or DASCO shall be made and decided in accordance with the applicable provisions of the Act and regulations issued by the Secretary thereunder, and on the facts in the individual case. The producers on the farm with respect to which such a determination or redetermination is made shall be promptly notified in writing of the substance and meaning of the determination or redetermination, the amounts of any payments and any reduction in payments which are determined; and that the producer may obtain reconsideration or review of the determination or redetermination and an informal hearing in connection therewith, by filing a written request within 15 days from the date of mailing of such written notification. The written notification also shall state where the request for reconsideration or review should be filed and where further information in regard to appeal procedure and the hearing may be obtained. The provisions apprising producers of their rights to request reconsideration or appeal from determinations affecting their eligibility for or the amount of payments under the Act, and the procedures to follow in such instances including time limitations for filing requests for reconsideration and appeals are contained in Chapter VII, Part 780 of this title. The procedures applicable to claims for unpaid wages are provided for under regulations pertaining thereto as issued by the Secretary, and contained in Part 867 of this chapter.

§ 893.8 Obtaining information regarding eligibility for payment.

Where it is necessary to obtain information to assist the Director in determining compliance with the conditions prescribed by the Act and regulations for any payment authorized under Title III of the Act, the facts constituting the basis for any such payment or the amount thereof, or to assist the Deputy Administrator in reviewing, upon appeal or upon his own initiative any such determination by the Director, any such information with respect to acreage or compliance shall be obtained to the extent possible as provided in the applicable provisions of Part 718 of Chapter VII of this title, as amended. In the absence of a provision in such Part 718 of this title for obtaining any such information, any employee of the district or Area office designated by the Director to be qualified to perform such a duty may obtain such information.

§ 893.9 Conditions of payment not met where producer prevents obtaining information.

If the producer, or his representative, on any farm with respect to which application is made for any payment authorized under Title III of the Act prevents the obtaining of the information necessary to determine compliance with the conditions for any such payment, the facts constituting the basis of any such payment or the amount thereof, the conditions prescribed by the Act and regulations for any such payment shall be deemed not to have been met until such producer (including processor-producers) or his representative permits such information to be obtained.

§ 893.10 Preservation of sugar production records.

For the purpose of providing records to be made and preserved in the Area office for use in establishing proportionate shares, when required:

(a) The subdivisions of any farm which is subdivided shall be credited with the actual sugar production record, if available, of each subdivision for the five crops immediately preceding the crop when such farm is subdivided, or

(b) If actual records are not available, the production record of the farm shall be divided among the subdivisions on a basis agreed upon by all persons concerned in the subdivision subject to the approval of the Director, or

(c) In the absence of actual records and such agreement, the Director shall determine the division of the farm's production record among the subdivisions, on the basis of acreage of sugarcane growing thereon or suitable for growing sugarcane.

(d) The production record for a reconstituted farm shall be the total of the production records for such 5-year period credited to the constituent parts of the farm.

(e) The sugar production record of any parcel of land which is to be utilized for purposes other than the production of sugarcane for sugar shall, upon written application by the owner to the Director, be transferred to any other parcel or parcels of land owned by such applicant in Puerto Rico if the Director finds that the transfer of the production record will encourage a wise use of land resources, foster greater diversification of agricultural production and promote the conservation of soil and water resources in Puerto Rico, and the Director determines that such transfer of production record is in the public interest and will facilitate the sale or rental of the land for other productive purposes.

§ 893.11 Computation of Sugar Act payment.

Payment is made as to each farm, and the amount of payment is scaled down as shown in the following table when the quantity of sugar for which payment may be made as determined from sugarcane planted on the farm exceeds 7,000 hundredweight. The Sugar Act payment for the amount of commercially recoverable sugar determined for a farm shall be computed by the Director in accordance with the following table:

If the cwt. of commercially recoverable sugar determined for a farm is—	Multiply it by—	Then add—
1 to 7,000	$1.85	$0.00
7,001 to 14,000	.75	1,750.00
14,001 to 20,000	.70	1,050.00
20,001 to 30,000	.60	3,050.00
30,001 to 60,000	.55	4,550.00
60,001 to 120,000	.325	6,062.50
120,001 to 240,000	.30	9,050.00
240,001 to 600,000	.475	15,050.00
More than 600,000	.31	120,050.00

For example: If the cwt. of commercially recoverable sugar determined for a farm (item 12 on Form SU-150-1) is 12,000 cwt., multiply it by $0.71. To that result add $350 to give $10,100, the amount of the payment.

§ 893.12 List of prescribed forms.

Forms prescribed for the conditional payment program in Puerto Rico.

Form No. and title	
SU-140	Wage Compliance Check Sheet.
SU-150	Application for Payment.
SU-150-1	Application for Payment Supplement.
SU-150-2	Abandonment and Deficiency Area Worksheet.
SU-151	Manufacturing Report.
SU-154	Crop Marketing Compliance Report.
SU-155	Report of Performance.
SU-159	Request for Transfer of Base Production.
SU-162	Farm Production Record.
SU-162-1	Farm Production Record Worksheet.
SU-165	New Grower Farm.
SU-190	Child Labor Compliance Check Sheet.
SU-191	Claim Against Producer for Unpaid Wages.
SU-193	Worker's Claim for Payment of Unpaid Wages.
SU-195	Sugar Act Payment Deduction.

Statement of bases and considerations. To qualify for Sugar Act payments, sugarcane producers must comply with various general provisions and requirements of the Act, as implemented in determinations issued by the Secretary. In addition, they must file applications for payments, use approved forms, adhere to certain instructions and furnish information regarding eligibility for payment and the basis for payment and in connection with appeals for review thereof. Formerly, some of these provisions were incorporated in the proportionate share regulations. Since proportionate shares are not necessarily required for each year, certain of these provisions were incorporated in Part 893.

This action represents a reissuance of these general provisions, with several additions. Provisions have been added which set forth the long established rule that Sugar Act payments may not be assigned and may not be made to receivers. The determination of eligibility and basis for payment and appeals for review thereof has been updated to be consistent with regulations governing appeals (Chapter VII, Part 780).

The method of computing Sugar Act payments has been incorporated into the regulations. Also, the definition of "processor-producer" as stated in 7 CFR 821.1 has been added.

Provisions of the Act relating to proportionate shares and not included herein will be incorporated in regulations pertaining to proportionate shares when it is determined by the Secretary that such shares are required.

Accordingly, I hereby find and conclude that the foregoing regulation will effectuate the applicable provisions of the Act.

Effective date: The 20th day after date of publication.

Signed at Washington, D.C., on July 12, 1967.

ORVILLE L. FREEMAN,
Secretary.

[F.R. Doc. 67-8379; Filed July 19, 1967; 8:48 a.m.]

Chapter IX—Consumer and Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Nuts), Department of Agriculture

[Avocado Order 9, Amdt. 3]

PART 915—AVOCADOS GROWN IN SOUTH FLORIDA

Limitation of Shipments

Findings. (1) Pursuant to the marketing agreement, as amended, and Order No. 915, as amended (7 CFR Part 915), regulating the handling of avocados grown in south Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations of the Avocado Administrative Committee, established under the aforesaid marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of avocados, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 553) in that the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient; and this amendment relieves restrictions on the handling of avocados in that it permits shipment of certain varieties of avocados at earlier dates and lighter weights than currently provided.

Order. The provisions of paragraph (a)(2) of § 915.309 (32 F.R. 7218, 8761, 10156) are hereby amended by revising in Table I certain dates and minimum weights and diameters applicable to the Pollock, Simmonds, Nadir, and Katherine varieties of avocados, so that after such revision the portion of Table I relating to said varieties reads as follows:

Variety (1)	Date (2)	Minimum weight or diameter (3)	Date (4)	Minimum weight or diameter (5)	Date (6)	Minimum weight or diameter (7)	Date (8)
Pollock	7-10-67	18 oz. 3 1/16 in.	7-17-67	16 oz. 3 1/16 in.	7-31-67		
Simmonds	7-10-67	18 oz. 3 9/16 in.	7-17-67	14 oz. 3 1/16 in.	7-31-67		
Nadir	7-17-67	16 oz. 3 4/16 in.	7-24-67	8 oz. 2 7/16 in.	8- 7-67		
Katherine	7-17-67	14 oz.	7-31-67				

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated, July 14, 1967, to become effective July 17, 1967.

ARTHUR E. BROWNE,
Acting Director, Fruit and Vegetable Division, Consumer and Marketing Service.

[F.R. Doc. 67-8381; Filed, July 19, 1967; 8:48 a.m.]

[Avocado Reg. 15, Amdt. 2]

PART 944—FRUIT; IMPORT REGULATIONS

Avocados

Pursuant to the provisions of section 8e of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), the provisions of paragraph (a) of § 944.7 (Avocado Regulation 15; 32 F.R. 7245, 10052) are hereby amended as follows:

§ 944.7 Avocado Regulation 15.

(a) On and after the effective time of this section, the importation into the United States of any avocados is prohibited unless such avocados are inspected and meet the following requirements:

(1) All avocados imported during the period May 20, 1967, through April 30, 1968, shall grade not less than U.S. No. 3.

(2) Avocados of the Pollock variety shall not be imported (i) during the period from July 17 through July 30, 1967, unless the individual avocados in each lot weigh at least 16 ounces or measure at least 3 1/16 inches in diameter.

* * * * *

(5) Avocados of the Nadir variety shall not be imported (i) during the period from July 17 through July 23, 1967, unless the individual avocados in each lot weigh at least 10 ounces or measure at least 2 14/16 inches in diameter, and (ii) during the period from July 24 through August 6, 1967, unless the individual fruit in each lot of such avocados weigh at least 8 ounces or measure at least 2 7/16 inches in diameter. Avocados of any variety other than Pollock, Catalina, Trapp, and Nadir shall not be imported from July 17, 1967, through July 30, 1967, unless the individual avocados in each lot weigh at least 14 ounces; and from July 31, 1967, through September 17, 1967, unless the individual fruit in each lot of such avocados weigh at least 10 ounces: *Provided*, That any lot of such avocados may be imported without regard to the minimum weight requirements of this paragraph if such avocados when mature, normally change color to any shade of red or purple and any portion of the skin of the individual fruit has changed to the color normal for that fruit when mature.

* * * * *

It is hereby found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective time of this regulation beyond that hereinafter specified (5 U.S.C. 553) in that (a) the requirements of this amended import regulation are imposed pursuant to section 8e of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), which makes such regulation mandatory; (b) such regulation imposes the same grade and comparable maturity requirements on imports of avocados as are being made applicable to the shipment of avocados grown in Florida under Avocado Regulation 9, as amended, which becomes effective July 17, 1967; (c) compliance with this import regulation will not require any special preparation which cannot be completed by the effective time hereof; and (d) this amendment relieves restrictions on imports of Pollock and Nadir varieties of avocados.

Dated, July 14, 1967, to become effective July 17, 1967.

ARTHUR E. BROWNE,
Acting Director, Fruit and Vegetable Division, Consumer and Marketing Service.

[F.R. Doc. 67-8380; Filed, July 19, 1967; 8:48 a.m.]

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Administration, Department of Transportation

[Docket No. 7898; Amdt. 39-450]

PART 39—AIRWORTHINESS DIRECTIVES

Model BAC 1-11 200 and 400 Series Airplanes

A proposal to amend Part 39 of the Federal Aviation Regulations to include an airworthiness directive requiring inspection and if necessary, replacement or modification of all flap secondary transmission support bearing assemblies

on Model BAC 1-11 200 and 400 Series airplanes was published in 32 F.R. 5939.

Interested persons have been afforded an opportunity to participate in the making of the amendment. No objections were received.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

BRITISH AIRCRAFT. Applies to Model BAC 1-11 200 and 400 Series airplanes.

Compliance required as indicated.

To detect failures of joints in the secondary flap transmission shafts, accomplish the following:

(a) On BAC 1-11 200 Series airplanes only, within the next 150 hours' time in service after the effective date of this AD, unless already accomplished, inspect all flap secondary transmission support bearing assemblies in accordance with British Aircraft Corporation (B&C) 1-11 Alert Service Bulletin No. 27-A-PM 1938, Issue 3, or later ARB-approved issue, or FAA-approved equivalent. All defective bearing assemblies must be replaced before further flight in accordance with this Service Bulletin, or FAA-approved equivalent. Non-defective bearing assemblies may be continued in service without further inspection.

(b) On BAC 1-11 200 and 400 Series airplanes, within the next 150 hours' time in service after the effective date of this AD, unless already accomplished within the last 450 hours' time in service and thereafter at intervals not to exceed 600 hours' time in service from the last inspection, conduct a functional check of the flap secondary transmission system followed by a visual examination of the transmission shaft joints as detailed in British Aircraft Corporation Alert Service Bulletin No. 27-A-PM 1938, Issue 3, or later ARB-approved issue, or FAA-approved equivalent. Correct defects found before further flight.

(c) The repetitive functional check and inspections required in paragraph (b) may be discontinued if the airplanes are modified in accordance with BAC Service Bulletin 27-PM-1928 paragraphs (a) and (b) and BAC Service Bulletin PM-2720 (a) and (b), or modified in accordance with BAC Service Bulletin PM-2720 (a), (b), (c), and (d), or FAA-approved equivalent.

This amendment becomes effective August 19, 1967.

(Sec. 313(a), 601, and 608 of the Federal Aviation Act of 1958; 49 U.S.C. 1354(a), 1421, and 1428)

Issued in Washington, D.C., on July 13, 1967.

EDWARD C. HODSON,
Acting Director,
Flight Standards Service.

[F.R. Doc. 67-8403; Filed, July 19, 1967; 8:49 a.m.]

[Docket No. 8067; Amdt. 39-447]

PART 39—AIRWORTHINESS DIRECTIVES

BAC 1-11 Model 203/AE, 204/AF, 212/AR, 401/AK, and 410/AQ Series Airplanes

A proposal to amend Part 39 of the Federal Aviation Regulations to include an airworthiness directive requiring inspection for deterioration and replacement, if necessary, of oxygen face mask pieces installed on BAC 1-11 Model 203/AE, 204/AF, 212/AR, 401/AK and 410/AQ Series airplanes was published in 32 F.R. 5896.

Interested persons have been afforded an opportunity to participate in the making of the amendment. Several comments were received stating that the commentators believed the proposed 600-hour repetitive inspection requirement was too stringent and urged at least 1,200-hour intervals between inspections. The requirement in the proposed AD that the oxygen face mask pieces be reinspected at 600-hour intervals was the result of an oversight in drafting the proposal, and the AD has been revised to require the inspections at 1,200-hour intervals. Since this change is a relaxation of the requirement of the proposed AD and imposes no additional burden on any person, further notice and public procedure thereon are not required.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

BRITISH AIRCRAFT. Applies to Model BAC 1-11 203/AE, 204/AF, 212/AR, 401/AK, and 410/AQ series airplanes.

Compliance required as indicated.

To prevent the use of unserviceable drop-out oxygen mask face pieces, accomplish the following:

(a) Within the next 600 hours' time in service after the effective date of this AD, unless already accomplished within the last 600 hours' time in service, and thereafter at intervals not to exceed 1,200 hours' time in service from the last inspection, visually examine all oxygen mask face pieces, Part Nos. WK 28420, WK 28171, and WK 31342, for deterioration in accordance with BAC 1-11 Alert Service Bulletin 35-A-PM 2795, Issue No. 1, dated January 16, 1967, or later ARB-approved issue, or FAA-approved equivalent.

(b) Replace deteriorated oxygen mask face pieces found during the inspections required by paragraph (a) with either serviceable face pieces of the same part number or modified face pieces, Walter Kidde Part Nos. WK 32290, WK 31289, and WK 32300, in accordance with BAC Service Bulletin 35-PM 2795, or later ARB-approved issue, or FAA-approved equivalent, before further flight.

(c) The repetitive inspections required by paragraph (a) may be discontinued when the oxygen face mask pieces are modified in accordance with BAC Service Bulletin 35-PM 2795, or later ARB-approved issue, or FAA-approved equivalent.

This amendment becomes effective August 19, 1967.

(Sec. 313(a), 601, and 608 of the Federal Aviation Act of 1958; 49 U.S.C. 1354(a), 1421, and 1428)

Issued in Washington, D.C., on July 13, 1967.

EDWARD C. HODSON,
Acting Director,
Flight Standards Service.

[F.R. Doc. 67-8404; Filed, July 19, 1967; 8:49 a.m.]

[Docket No. 7797; Amdt. 39-448]

PART 39—AIRWORTHINESS DIRECTIVES

Lycoming Engines Equipped With Bendix RSA-5 Series Fuel Injection Systems

A proposal to amend Part 39 of the Federal Aviation Regulations to include an airworthiness directive requiring the replacement of the Delrin stemmed fuel diaphragm with a steel stemmed diaphragm in the Lycoming engine using the Bendix RSA-5 Series fuel injection systems was published in 31 F.R. 15813.

Interested persons have been afforded an opportunity to participate in the making of the amendment, and all matter submitted has been fully considered. Several comments suggested that although the AD does not and should not apply to diaphragms containing green teflon coated stems which are currently in use, it should not authorize such diaphragms as replacement parts since internal leakage which could affect engine idle has been attributed to the green teflon coated stems and these stems are no longer in production. Although these stems are no longer being manufactured, they may be available as off the shelf replacement parts. Moreover, the FAA has determined that the slight leakage that might occur under idling conditions does not constitute a safety hazard. Similarly, the suggestion that the AD should require the replacement of all the parts suggested in Lycoming Service Bulletin 306B is rejected. While any possibility of internal leakage might be eliminated if the fuel diaphragm assembly with the uncoated steel stem P/N 2523307 and the new center bushing P/N 252631 are installed, and the installation of the center bushing at the same time the AD requirement is met might eliminate the possibility of the added expense of subsequently having to open up the fuel injector if internal leakage is encountered, nevertheless this is a choice which should be left to the aircraft owner in the absence of a showing that the interests of safety require it. One commentator suggested that Bendix Service Bulletin No. 18, Revision 4, should be included as an additional reference. The Lycoming Service Bulletin 306B adequately covers the requirements of the AD and in addition references the Bendix Service Bulletin. Thus, no public purpose would be served by including this redundant reference.

Subsequent to the issuance of the proposed AD, the FAA received reports of additional failures of the Delrin stem. The FAA has determined that it is therefore necessary to reduce the compliance times from 100 hours' time in service to within the next 50 hours' time in service.

Since a situation exists that demands immediate adoption of this regulation, it is found that additional notice and public procedure hereon are impracticable and good cause exists for making this amendment effective on less than 30 days notice.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (25 F.R. 6489), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

LYCOMING. Applies to Model IO-320 Series, IO-360-A1A, -A2A, -B1B, -B1C, -B1D, -C1A, -IV8-360-A1A, HIO-360-A1A, -B1A, -B1B, -C1A, IO-540-C1B5, -C1C5, -C2C, C4B5 and D4A5 engines. Engines equipped with the latest Bendix RSA-5 Series fuel injectors listed below are excepted as follows:

Parts list numbers with suffix numbers after the serial number as shown or higher are excepted. (Where a suffix number does not appear, compliance is required.)

Parts List	*Serial No./Suffix No.*
2524054-2	S.N./33
2524119-2	S.N./15
2524145-2	S.N./24
2524147-2	S.N./14
2524171-2	S.N./10
2524189-2	S.N./10
2524213-2	S.N./7
2524215-2	S.N./12
2524190-2	S.N./15

Compliance required within the next 50 hours' time in service after the effective date of this AD, unless already accomplished.

To prevent possible failures of the Delrin stemmed fuel diaphragm assembly P/N 2520687 or 2523067, accomplish the following:

Remove fuel diaphragm assembly P/N 2520687 or P/N 2523067, and spring holder P/N 2520686 and replace with fuel diaphragm assembly P/N 2523307, either uncoated or green teflon coated, retainer cup P/N 2523478 and nut P/N 178491.

(Lycoming Service Bulletin No. 306B covers this subject.)

This amendment becomes effective August 9, 1967.

(Secs. 313(a), 601, and 608 of the Federal Aviation Act of 1958; 49 U.S.C. 1354(a), 1421, and 1428)

Issued in Washington, D.C., on July 11, 1967.

R. S. SLIFF,
Acting Director,
Flight Standards Service.

[F.R. Doc. 67-8405; Filed, July 19, 1967; 8:50 a.m.]

[Docket No. 8080; Amdt. 39-449]

PART 39—AIRWORTHINESS DIRECTIVES

Tost Type Universal 53 Glider Tow Couplings

A proposal to amend Part 39 of the Federal Aviation Regulations to include an airworthiness directive requiring the replacement of the bracket type automatic release of the tow coupling with the ring type automatic release in accordance with Tost Modification No. 2/65 on Tost Type Universal 53 glider tow couplings installed on Schempp-Hirth Models Standard Austria S, SH, and SH-1; Scheibe Flugzeugbau Models L-Spatz 55, Bergfalke II 55, and SF 26A; and Alexander Schleicher Models Ka 6CR, Ka 6 E, K 7, and K 8 B gliders was published in 32 F.R. 5808.

Interested persons have been afforded an opportunity to participate in the making of the amendment. No objections were received.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (25 F.R. 6489), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

TOST. Applies to Tost Type Universal 53 glider tow couplings with Serial Numbers 1 through 20000, installed on Schempp-Hirth Models Standard Austria S, SH, and SH-1; Scheibe Flugzeugbau Models L-Spatz 55, Bergfalke II 55, and SF 26A; and Alexander Schleicher Models Ka 6 CR, Ka 6 E, K 7, and K 8 B, gliders.

Compliance required within the next 100 hours' time in service after the effective date of this AD, unless already accomplished.

To reduce the release load on the glider coupling when the tow cable imposes asymmetrical loads, replace, in accordance with Tost Modification No. 2/65, dated November 9, 1965, or FAA-approved equivalent, the bracket type automatic releases of the tow coupling with ring type automatic releases that conform to the Luftfahrt-Bundesamt approved type certificate 60.290/11 or later approved issued, or FAA-approved equivalent.

This amendment becomes effective August 19, 1967.

(Secs. 313(a), 601, and 608 of the Federal Aviation Act of 1958; 49 U.S.C. 1354(a), 1421, and 1428)

Issued in Washington, D.C., on July 13, 1967.

EDWARD C. HODSON,
Acting Director,
Flight Standards Service.

[F.R. Doc. 67-8406; Filed, July 19, 1967; 8:50 a.m.]

[Docket No. 8266; Amdt. 61-33]

PART 61—CERTIFICATION: PILOTS AND FLIGHT INSTRUCTORS

Condition for Issuing Instrument Rating Based on Military Competence

The purpose of this amendment to Part 61 of the Federal Aviation Regulations is to provide that no person may obtain the issuance of an instrument rating on the basis of military competence, under § 61.31(c), unless his military instrument rating or card authorizes him to serve as pilot in command in IFR operations in controlled airspace.

Section 61.31(c) (Instrument rating) provides that a private or commercial pilot who holds a current military instrument rating or card is entitled under Part 61 to an instrument rating (for helicopter or other aircraft, as the case may be). Prior to the recodification of the Civil Air Regulations into the Federal Aviation Regulations, § 20.111(c) provided that the standards under which a military instrument rating was issued must be not less than those prescribed for the issuance of an instrument rating under Part 20. The regulation then included this provision because at one time the Armed Forces of the United States issued instrument cards limiting the instrument privileges of the holders. At the time of the recodification it was ascertained that the Armed Forces of the United States no longer issued instrument cards so limited, and the standards provision therefore was omitted from Part 61.

The FAA has been advised that the U.S. Army now issues a "pink" instrument card, known as a "Tactical Instrument Card," authorizing the holder to conduct instrument flight operations only in "tactical environment, outside control zones and areas." The card is issued to pilots who have not been trained in airway IFR operations or in the use of standard approach procedures. The card does not provide evidence that the holder meets the usual instrument flight training or proficiency standards, and therefore is not considered an appropriate basis for issuing an instrument rating under § 61.31(c). It is desirable to state clearly in the regulations as a qualifying condition that an instrument rating is not issued under § 61.31(c) if the applicant's military instrument rating or card does not authorize the holder to serve as pilot in command in IFR operations in controlled airspace.

Since this amendment is clarifying in nature and imposes no additional burden on any person, notice and public procedure thereon are unnecessary, and good cause exists for making it effective on less than 30 days' notice.

In consideration of the foregoing, § 61.31 of the Federal Aviation Regulations is amended by inserting the following subparagraph after paragraph (c)(2), effective July 20, 1967:

§ 61.31 Military pilots or former military pilots: special rules.

* * * * * * *

(c) * * *

(3) No person may obtain the issuance of an instrument rating under this paragraph unless his military instrument rating or card authorizes him to serve as pilot in command in IFR operations in controlled airspace.

* * * * * * *

(Secs. 313(a) and 601 of the Federal Aviation Act of 1958; 49 U.S.C. 1354(a), 1421)

Issued in Washington, D.C., on July 14, 1967.

WILLIAM F. MCKEE,
Administrator.

[Airspace Docket No. 67-WE-33]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Federal Airway

On June 16, 1967, a Notice of Proposed Rule Making was published in the FEDERAL REGISTER (32 F.R. 8681) stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the floor of V-210 from Tuba City, Ariz., to Farmington, N. Mex.

Interested persons were afforded an opportunity to participate in the rule making procedures through the submis-

sion of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0001 e.s.t., September 14, 1967, as hereinafter set forth.

Section 71.123 (32 F.R. 2009, 6435, 7251) is amended as follows:

In V–210 all between "12 AGL Tuba City, Ariz.;" and "12 AGL Alamosa, Colo.," is deleted and "10 mi. 90 MSL, 91 mi. 105 MSL, 12 AGL Farmington, N. Mex.;" is substituted therefor.

(Sec. 307(a) of the Federal Aviation Act of 1958; 49 U.S.C. 1348)

Issued in Washington, D.C., on July 14, 1967.

J. F. BIRON,
Acting Chief, Airspace and Air Traffic Rules Division.

[F.R. Doc. 67–8407; Filed, July 19, 1967; 8:50 a.m.]

[Airspace Docket No. 67–WE–12]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Additional Control Area

On May 19, 1967, a Notice of Proposed Rule Making was published in the FEDERAL REGISTER (32 F.R. 7463) stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would designate an additional control area at Omak, Wash.

Interested persons were afforded an opportunity to participate in the proposed rule making through the submission of comments. All comments received were favorable.

The location of the Omak RBN was cited in the notice as latitude 48°27'30" N., longitude 119°30'45" W. Subsequent to publication of the notice a mathematical computation has determined that the exact location of the RBN is latitude 48°27'13" N., longitude 119°30'56" W.

Since the change in location of the beacon is minor in nature and will cause no undue burden for any person, the Administrator has determined that notice and public procedure thereon is unnecessary.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended effective 0001 e.s.t. September 14, 1967 as hereinafter set forth.

In § 71.163 (32 F.R. 2063) the following is added:

OMAK, WASH.

That airspace extending upward from 5,500 feet MSL within 5 miles each side of a line extending from the Omak RBN to the Ephrata, Wash., VOR.

(Sec. 307(a) of the Federal Aviation Act of 1958; 49 U.S.C. 1348)

Issued in Washington, D.C., on July 14, 1967.

J. F. BIRON,
Acting Chief, Airspace and Air Traffic Rules Division.

[F.R. Doc. 67–8408; Filed, July 19, 1967; 8:50 a.m.]

[Airspace Docket No. 67–SW–11]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Transition Area

Correction

In F.R. Doc. 67–6833 appearing at page 8709 of the issue for Saturday, June 17, 1967, the transition area designation for Jasper, Texas, is corrected to read as follows:

JASPER, TEX.

That airspace extending upward from 700 feet above the surface within a 5-mile radius of Jasper County Airport (latitude 30°58'45" N., longitude 94°01'30" W.) and within 2 miles each side of the 356° bearing from the Jasper RBN extending from the 5-mile radius area to 8 miles north of the RBN; and that airspace extending upward from 1,200 feet above the surface within an area bounded by a line beginning at latitude 30°37'00" N., longitude 94°11'00" W., to latitude 30°54'20" N., longitude 94°24'45" W., to and counterclockwise along the arc of a 25-mile radius circle centered at the Lufkin VORTAC to latitude 31°07'00" N., to latitude 31°08'00" N., longitude 94°02'00" W., to latitude 30°44'00" N., longitude 93°51'00" W., to point of beginning.

Title 32—NATIONAL DEFENSE

Chapter I—Office of the Secretary of Defense

SUBCHAPTER D—SECURITY

PART 156—DEPARTMENT OF DEFENSE CIVILIAN APPLICANT AND EMPLOYEE SECURITY PROGRAM

Notice Requirements

The following miscellaneous amendment to Part 156 has been approved:

Section 156.13 is revised to read as follows:

§ 156.13 Notice requirements.

Pursuant to Executive Order 10450, as amended, and in order to assist the Civil Service Commission in discharging its responsibilities under that Order, the Department of Defense Components will notify the Civil Service Commission of the action taken as soon as possible after the receipt of the final investigative report on a civilian officer or employee subject to full field investigation under the provisions of the Order. In the case of a completely favorable investigation, notification shall be made within thirty (30) days. In the case of an unfavorable investigation, notification shall be made within ninety (90) days. In both situations, if special circumstances have precluded accomplishing the reports to the Civil Service Commission within the time limits, continuing reports will be made to the Civil Service Commission every thirty (30) days until accomplished. Such notice shall be in accordance with and conform to the requirements of the Civil Service Commission as stipulated in Chapter 736, Appendix B–1, Federal Personnel Manual, 1963. The Assistant Secretary of Defense (Administration) shall be notified with regard to each suspension or termination under provision of section 7532 of title 5, U.S. Code, and of reinstatement, restoration to duty or reemployment following any suspension or termination. Such notice shall be made no later than 10 days after each such action has occurred and will include the full name, date and place of birth, grade, type of action, and the date the action was taken with respect to such employee.

MAURICE W. ROCHE,
Director, Correspondence and Directives Division, OASD (Administration).

Title 15—COMMERCE AND FOREIGN TRADE

Chapter II—National Bureau of Standards, Department of Commerce

SUBCHAPTER A—TEST FEE SCHEDULES

PART 201—ELECTRICITY

Pulse Power, Peak Measurement, Coaxial Systems

Under the provisions of 15 U.S.C. 275 (a) and 277, the test fee schedules of the National Bureau of Standards, Department of Commerce, pertaining to electricity are amended as provided herein. The amendment is effective upon publication in the FEDERAL REGISTER. Section 201.822 of Title 15 of the Code of Federal Regulations is amended by adding calibration services as follows:

§ 201.822 Pulse power, peak measurement, coaxial systems.

Item	Description	Fee
• • •	• • •	• • •
201.822c	Calibration of instrument for measuring peak power of pulsed signals in coaxial systems, in the frequency range of 300 to 900 MHz, at a peak power in the range of 1 mW to 2.5 kW; at a pulse width in the range of 2 to 10 μsec, and at a pulse repetition rate in the range of 100 to 1400 pps with a maximum duty factor of 0.3%.	(*)
201.822d	Calibration of instrument for measuring peak power of pulsed signals in coaxial systems at each additional peak power level or a different pulse width or pulse repetition rate, at the same frequency as for 201.822c.	(*)
• • •	• • •	• • •

*As fixed prices have not been established for these services, charges will be made for actual costs incurred. Upon request, estimates will be furnished for specific tasks which should provide a close approximation of actual costs.

Dated: June 29, 1967.

I. C. SCHOONOVER,
Acting Director.

[F.R. Doc. 67–8338; Filed, July 19, 1967; 8:45 a.m.]

PART 205—ANALYTICAL CHEMISTRY

Under the provisions of 15 U.S.C. 275a and 277, the test fee schedule of the National Bureau of Standards, Department of Commerce, pertaining to Part 205, Analytical Chemistry, is revised to increase the fee as provided herein to assure full recovery of the cost of providing calibration services, and to change the main heading of § 205.101 from "Pure Materials" to "Pure Substances". The revision, effective upon publication in the FEDERAL REGISTER, supersedes Part 205, 15 CFR, previously issued.

PURE SUBSTANCES

§ 205.101 Measurement of physical properties of primary reference fuels used for octane number determination.

Item	Description	Fee
205.101a	Measurement of physical properties of primary reference fuels used for octane number determination.	$475.00

(Sec. 9, 31 Stat. 1450, as amended; 15 U.S.C. 277; interprets or applies sec. 7, 70 Stat. 959; 15 U.S.C. 275a)

Dated: June 29, 1967.

I. C. SCHOONOVER,
Acting Director.

[F.R. Doc. 67–8337; Filed, July 19, 1967; 8:45 a.m.]

PART 208—METALLURGY

PART 230—STANDARD REFERENCE MATERIALS

Miscellaneous Amendments

Part 208, Metallurgy, is superseded by § 230.8–21 of Part 230, Title 15, Code of Federal Regulations. Accordingly, Part 208, 15 CFR, is deleted.

The items previously listed in Part 208 relating to standard thickness samples of electroplated coatings no longer come under the test and calibration services program of the Bureau. However, the items are available as standard reference materials as listed in § 230.8–21 of Part 230, Title 15, Code of Federal Regulations. See the FEDERAL REGISTER of February 14, 1967 (32 F.R. 2844).

Effective date. This notice is effective upon publication in the FEDERAL REGISTER.

(Sec. 9, 31 Stat. 1450, as amended; 15 U.S.C. 277. Interprets or applies sec. 7, 70 Stat. 959; 15 U.S.C. 275a)

Dated: June 29, 1967.

I. C. SCHOONOVER,
Acting Director.

Title 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket C–1234]

PART 13—PROHIBITED TRADE PRACTICES

Alan Libman and Brand Stores

Subpart—Advertising falsely or misleadingly: § 13.73 *Formal regulatory and statutory requirements;* § 13.155 *Prices:* 13.155–10 *Bait;* 13.155–100 *Usual* as reduced, special, etc. Subpart—Misrepresenting oneself and goods—Prices: § 13.1779 *Bait;* § 13.1825 *Usual as reduced or to be increased.*

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45) [Cease and desist order, Alan Libman, doing business as Brand Stores, Boston, Mass., Docket C–1234, June 30, 1967.]

In the Matter of Alan Libman, an Individual, Doing Business as Brand Stores

Consent order requiring a Boston, Mass., retailer of sewing machines and vacuum cleaners to cease using bait advertisements, deceptive pricing and savings claims, and other deceptive means to sell his merchandise.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

It is ordered, That respondent Alan Libman, an individual, doing business as Brand Stores, or under any other trade name or names, and respondent's agents, representatives and employees, directly or through any corporate or other device, in connection with the advertising, offering for sale, sale or distribution of sewing machines, vacuum cleaners or any other products in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Using, in any manner, any advertisement, sales plan, scheme, or device wherein false, misleading, or deceptive statements or representations are made in order to obtain leads or prospects for the sale of other merchandise or services.

2. Making representations purporting to offer merchandise for sale when the purpose of the representation is not to sell the offered merchandise but to obtain leads or prospects for the sale of other merchandise at higher prices.

3. Discouraging the purchase of or disparaging any merchandise or services which are advertised or offered for sale.

4. Representing, directly or by implication, that any merchandise or services are offered for sale when such offer is not a bona fide offer to sell such merchandise or services.

5. Representing, directly or by implication, that advertised products are in stock and available for purchase; provided, however, that it shall be a defense in any enforcement proceeding instituted hereunder for respondent to establish that the advertised products were in stock and were available.

6. Representing, directly or by implication, that any price for respondent's products is a special or reduced price, unless such price constitutes a significant reduction from an established selling price at which such products have been sold in substantial quantities by respondent in the recent regular course of his business, or misrepresenting in any manner the savings available to purchasers.

7. Representing, directly or by implication, that respondent finances his customer's installment contracts or notes or does not negotiate such notes to finance companies.

8. Failing to disclose orally at the time of sale and in writing on any conditional sales contract, promissory note or other instrument executed by the purchaser, with such conspicuousness and clarity as is likely to be read and observed by the purchaser that:

(1) Such conditional sales contract, promissory note or other instrument may, at the option of the seller and without notice to the purchaser, be negotiated or assigned to a finance company or other third party.

(2) If such negotiation or assignment is effected, the purchaser will then owe the amount due under the contract to the finance company or third party and may have to pay this amount in full whether or not he has claims against the seller under the contract for defects in the merchandise, nondelivery or the like.

9. Failing to deliver a copy of this order to cease and desist to all present and future salesmen or other persons engaged in the sale of the respondent's products to purchasers; and failing to secure from each such person a signed statement acknowledging receipt of said order and agreeing to abide by the requirements of said order and to refrain from engaging in any of the acts or practices prohibited by said order; and for failure so to do, agreeing to dismissal or to the withholding of commissions, salaries, and other remunerations or both to dismissal and to withholding of commissions, salaries, and other remunerations.

It is further ordered, That the respondent herein shall, within 60 days after service upon him of this order, file with the Commission a report in writing setting forth in detail the manner and form in which he has complied with this order.

Issued: June 30, 1967.

By the Commission.

[SEAL] JOSEPH W. SHEA,
Secretary.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply Sec. 5, 38 Stat. 719, as amended; Secs. 2–5, 54 Stat. 1128–1130; 15 U.S.C. 45, 68) [Cease and desist order, Brookport Classics, Inc., et al., New York, N.Y., Docket C–1288, June 30, 1967.]

In the Matter of Brookport Classics, Inc., a Corporation, and Jacques Schweitzer and Mac Savid, individually and as officers of said corporation.

Consent order requiring a New York City clothing manufacturer to cease misbranding its woolen car coats.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

It is ordered, That Brookport Classics, Inc., a corporation, and its officers, and Jacques Schweitzer and Mac Savid, individually and as officers of said corporation, and respondents' representatives, agents, and employees, directly or through any corporate of other device, in connection with the introduction or manufacture for introduction, into commerce, or the offering for sale, sale, transportation, distribution, delivery for shipment or shipment, in commerce, of wool products, as "commerce" and "wool product" are defined in the Wool Products Labeling Act of 1939, do forthwith cease and desist from misbranding such products by:

1. Falsely or deceptively stamping, tagging, labeling, or otherwise identifying such products as to the character or amount of the constituent fibers contained therein.

2. Failing to securely affix to, or place on, each such product a stamp, tag, label, or other means of identification showing in a clear and conspicuous manner each element of information required to be disclosed by section 4(a)(2) of the Wool Products Labeling Act of 1939.

It is further ordered, That the respondents herein shall, within 60 days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

Issued: June 30, 1967.

By the Commission.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply Sec. 5, 38 Stat. 719, as amended; Sec. 8, 66 Stat. 179; 15 U.S.C. 45, 69f) [Cease and desist order, Herman Somerstein trading as Amy-Joy Novelty Co., New York, N.Y., Docket C–1290, June 26, 1967.]

In the Matter of Herman Somerstein, an Individual trading as Amy-Joy Novelty Company

Consent order requiring a New York City manufacturing furrier to cease misbranding and falsely invoicing his fur products.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

It is ordered, That respondent Herman Somerstein, an individual trading as Amy-Joy Novelty Co., or any other name, and respondent's representatives, agents, and employees, directly or through any corporate or other device, in connection with the introduction, or manufacture for introduction, into commerce, or the sale, advertising, or offering for sale in commerce, or the transportation or distribution in commerce, of any fur product; or in connection with the manufacture for sale, sale, advertising, offering for sale, transportation or distribution, of any fur product which is made in whole or in part of fur which has been shipped and received in commerce, as the terms "commerce", "fur" and "fur product" are defined in the Fur Products Labeling Act, do forthwith cease and desist from:

A. Misbranding any fur product by:

1. Failing to affix a label to such fur product showing in words and in figures plainly legible all of the information required to be disclosed by each of the subsections of section 4(2) of the Fur Products Labeling Act.

2. Failing to disclose on a label that such fur product is composed in whole or in substantial part of paws, tails, bellies, sides, flanks, gills, ears, throats, heads, scrap pieces, or waste fur.

3. Failing to set forth on a label the item number or mark assigned to such fur product.

B. Falsely or deceptively invoicing any fur product by:

1. Failing to furnish an invoice, as the term "invoice" is defined in the Fur Products Labeling Act, showing in words and figures plainly legible all the information required to be disclosed by each of the subsections of section 5(b)(1) of the Fur Products Labeling Act.

2. Failing to set forth the term "natural" as part of the information required to be disclosed on an invoice under the Fur Products Labeling Act and Rules and Regulations promulgated thereunder to describe such fur product which is not pointed, bleached, dyed, tip-dyed, or otherwise artificially colored.

3. Failing to disclose on an invoice that such fur product is composed in whole or in substantial part of paws, tails, bellies, sides, flanks, gills, ears, throats, heads, scrap pieces, or waste fur.

4. Failing to set forth on an invoice the item number or mark assigned to such fur product.

It is further ordered, That the respondent herein shall, within 60 days after service upon him of this order, file with the Commission a report in writing setting forth in detail the manner and form in which he has complied with this order.

Issued: June 26, 1967.

By the Commission.

PART 13—PROHIBITED TRADE PRACTICES

Horowitz & Birnbach, Inc., et al.

Subpart—Misbranding or mislabeling: § 13.1185 *Composition:* 13.1185–30 Fur Products Labeling Act; § 13.1212 *Formal regulatory and statutory requirements:* 13.1212–30 Fur Products Labeling Act. Subpart—Neglecting, unfairly or deceptively, to make material disclosure: § 13.1852 *Formal regulatory and statutory requirements:* 13.1852–35 Fur Products Labeling Act.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply Sec. 5, 38 Stat. 719, as amended; Sec. 8, 66 Stat. 179; 15 U.S.C. 45, 69f) [Cease and desist order, Horowitz & Birnbach, Inc., et al., New York, N.Y., Docket C–1232, June 26, 1967.]

In the Matter of Horowitz & Birnbach, Inc., a Corporation, and Nathaniel Birnbach and Harry Birnbach, Individually and as Officers of Said Corporation

Consent order requiring a New York City manufacturing furrier to cease misbranding its fur products.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

It is ordered, That respondents Horowitz & Birnbach, Inc., a corporation, and its officers, and Nathaniel Birnbach and Harry Birnbach, individually and as officers of said corporation, and respondents' representatives, agents and employees, directly or through any corporate or other device, in connection with the introduction, into commerce, or the sale, advertising or offering for sale in commerce, or the transportation or distribution in commerce, of any fur product; or in connection with the manufacture for sale, sale, advertising, offering for sale, transportation or distribution, of any fur product which is made in whole or in part of fur which has been shipped and received in commerce, as the terms "commerce," "fur" and "fur product" are defined in the Fur Products Labeling Act, do forthwith cease and desist from:

Misbranding any fur product by:

(a) Representing, directly or by implication, on a label that the fur contained in such fur product is natural when such fur is pointed, bleached, dyed, tip-dyed, or otherwise artificially colored.

(b) Failing to affix a label to such fur product showing in words and in figures plainly legible all of the information required to be disclosed by each of the subsections of section 4(2) of the Fur Products Labeling Act.

(c) Failing to set forth on a label the item number or mark assigned to such fur product.

It is further ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

Issued: June 26, 1967.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply Sec. 5, 38 Stat. 719, as amended; Secs. 2–5, 54 Stat. 1128–1130; 15 U.S.C. 45, 68) [Cease and desist order, Meiman Mills, Inc., et al., Yantic, Conn., Docket C–1233, June 27, 1967]

In the Matter of Meiman Mills, Inc., a Corporation, and Sheldon Meiman, Individually and as an Officer of Said Corporation

Consent order requiring a Yantic, Conn., manufacturer of woolen yarn to cease misbranding and falsely guaranteeing its wool products.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

It is ordered, That respondents Meiman Mills, Inc., a corporation, and its officers, and Sheldon Meiman, individually and as an officer of said corporation, and respondents' representatives, agents and employees, directly or through any corporate or other device, in connection with the introduction, or manufacture for introduction, into commerce, or the offering for sale, sale, transportation, distribution, delivery for shipment or shipment, in commerce, of wool products, as "commerce" and "wool product" are defined in the Wool Products Labeling Act of 1939, do forthwith cease and desist from:

Misbranding such products by:

1. Falsely and deceptively stamping, tagging, labeling, or otherwise identifying such products by use of the word "Shetland" or any simulation thereof, either alone or in connection with other words, to designate, describe, or refer to any product which is not composed entirely of wool from Shetland sheep raised on the Shetland Islands or the contiguous mainland of Scotland.

2. Falsely or deceptively stamping, tagging, labeling, or otherwise identifying such products as to the character or amount of the constituent fibers contained therein.

3. Falsely or deceptively stamping, tagging, labeling, or otherwise identifying such products as to the country of origin.

4. Failing to securely affix to, or place on, each such product, a stamp, tag, label, or other means of identification showing in a clear and conspicuous manner each element of information required to be disclosed by section 4(a)(2) of the Wool Products Labeling Act of 1939.

5. Failing to set forth the common generic name of fibers in naming such fibers in the required information on stamps, tags, labels, or other means of identification attached to such wool products.

6. Setting forth information required under section 4(a)(2) of the Wool Products Labeling Act of 1939 and the rules and regulations promulgated thereunder, in abbreviated form on stamps, tags, labels, or other means of identification on or affixed to wool products.

7. Using the term "mohair" in lieu of the word "wool" in setting forth the required information on labels affixed to wool products unless the fibers described as "mohair" are entitled to that designation and are present in at least the amount stated.

8. Using the term "virgin" as descriptive of a wool product or part of a wool product, when the part so described is not composed wholly of new or virgin wool which had never been used or reclaimed, reworked, reprocessed or reused from spun, woven, knitted, felted or otherwise manufactured or used products.

It is further ordered, That respondents Meiman Mills, Inc., a corporation, and its officers, and Sheldon Meiman, individually and as an officer of said corporation, and respondents' representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of yarns or other products, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Using the word "Shetland," or any simulation thereof, either alone or in connection with other words, to designate, describe, or refer to any product which is not composed entirely of wool of Shetland sheep raised on the Shetland Islands or the contiguous mainland of Scotland: *Provided, however*, That in the case of a product composed in part of wool of Shetland sheep and in part of other fibers or materials, such word may be used as descriptive of the Shetland wool content if there are used in immediate connection therewith, with at least equal conspicuousness, words truthfully describing such other constituent fibers or materials.

2. Misrepresenting the character or amount of constituent fibers contained in such yarns or other products on invoices, on shipping memoranda applicable thereto, or in any other manner.

It is further ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

Issued: June 27, 1967.

By the Commission.

In the Matter of Rock River Woolen Mills, a Corporation, and James B. Tait and Robert J. Tait, Individually and as Officers of Said Corporation

Consent order requiring a Brownwood, Tex., clothing manufacturer to cease misbranding and falsely invoicing its wool products.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

It is ordered, That Rock River Woolen Mills, a corporation, and its officers, and James B. Tait and Robert J. Tait, individually and as officers of said corporation, and respondents' representatives, agents, and employees, directly or through any corporate or other device, in connection with the introduction, or manufacture for introduction, into commerce, or the offering for sale, sale, transportation, distribution, delivery for shipment, or shipment, in commerce, of wool products, as "commerce" and "wool product" are defined in the Wool Products Labeling Act of 1939, do forthwith cease and desist from misbranding such products by:

1. Falsely or deceptively stamping, tagging, labeling, or otherwise identifying such products as to the character or amount of the constituent fibers contained therein.

2. Failing to securely affix to, or place on, each such product a stamp, tag, label, or other means of identification showing in a clear and conspicuous manner each element of information required to be disclosed by section 4(a)(2) of the Wool Products Labeling Act of 1939.

3. Failing to set forth the common generic name of fibers in the required information on stamps, tags, labels, or other means of identification attached to wool products.

It is further ordered, That respondents Rock River Woolen Mills, a corporation, and its officers, and James B. Tait, individually and as officers of said corporation, and respondents' representatives, agents, and employees, directly or through any corporate or other device, in connection with the introduction, or manufacture for introduction, into commerce, or the offering for sale, sale, transportation, distribution, delivery for shipment, or shipment, in commerce, of wool products, as "commerce" and "wool product" are defined in the Wool Products Labeling Act of 1939, do forthwith cease and desist from misbranding such products by:

1. Falsely or deceptively stamping, tagging, labeling, or otherwise identifying such products as to the character or amount of the constituent fibers contained therein.

2. Failing to securely affix to, or place on, each such product a stamp, tag, label, or other means of identification showing in a clear and conspicuous manner each element of information required to be disclosed by section 4(a)(2) of the Wool Products Labeling Act of 1939.

It is further ordered, That the respondents herein shall, within 60 days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

Title 29—LABOR

Subtitle A—Office of the Secretary of Labor

PART 40—FARM LABOR CONTRACTOR REGISTRATION

Insurance Carriers

In the May 9, 1967, issue of the FEDERAL REGISTER (32 F.R. 7025), there was published a proposal to amend 29 CFR 40.4 (d). Interested persons were given 30 days in which to file written statements of data, views, or argument in regard to the proposal. None was received. Accordingly, effective August 20, 1967, I have decided to and do hereby adopt the proposal to read as set forth below.

As amended paragraph (d) of § 40.4 reads as follows:

§ 40.4 Application for Certificate of Registration.

* * * * *

(d) (1) No certificate of insurance filed by an insurance carrier in accordance with this section will be accepted, unless said insurance carrier meets the following requirements:

(i) The insurance carrier possesses and maintains surplus funds (policyholders' surplus) of not less than $500,000, which minimum shall be determined on the basis of the values of assets and liabilities as shown in its financial statements filed with and approved by the insurance department or other insurance regulatory authority of the State of domicile (home State) of such company, except in instances where in the judgment of the Administrator additional evidence with respect to such values is considered necessary; and

(ii) The insurance carrier has a general policyholder's rating of B or better in the current issue of "Best's—Insurance Reports—Fire and Casualty," or a "recommended" rating in the current issue of "Best's—Insurance Reports—Life."

(2) If the insurance carrier is not listed in the current issue of Best's, or, if listed, is not assigned a general policyholder's rating of B or better or "recommended" whichever is applicable, such carrier may request approval for eligibility by submitting to the Administrator its latest financial statement, as filed with the insurance department of its home State, on the Convention form statement, with all exhibits and schedules included, and copies of reports of examination on conditions and affairs, as prepared by State supervisory authorities and such other information as the Administrator may request.

* * * * *

(Sec. 14, 78 Stat. 924; 7 U.S.C. 2088)

Signed at Washington, D.C., this 14th day of July 1967.

Chapter V—Wage and Hour Division, Department of Labor

PART 526—INDUSTRIES OF A SEASONAL NATURE AND INDUSTRIES WITH MARKED SEASONAL PEAKS OF OPERATION

Dairy Products Industry

On January 26, 1967, a notice was published in the FEDERAL REGISTER (32 F.R. 674) proposing to find that the dairy products industry, as defined, is characterized by marked annually recurring seasonal peaks of operation at the places of first processing or first marketing of perishable agricultural commodities from farms, within the meaning, and under authority, of section 7(d)(1)(A) of the Fair Labor Standards Act of 1938 (29 U.S.C. 207(d)(1)(A)) as amended by the Fair Labor Standards Amendments of 1966 (P.L. 89–601).

Interested persons were given 30 days in which to present written data, views, or argument. After consideration of such relevant matter as was presented and pursuant to section 7(d) of the Fair Labor Standards Act of 1938 (29 U.S.C. 207(d)), Reorganization Plan No. 6 of 1950 (3 CFR 1949–53 Comp., p. 1004), General Order No. 45–A of the Secretary of Labor (15 F.R. 3290), and the procedure set forth in 29 CFR Part 526 (32 F.R. 5775), such finding is hereby made. Accordingly, 29 CFR 526.11 is amended by adding "Dairy products industry" to the list there provided, with the date of this document shown under the heading of "Date of finding," and the volume and page of the FEDERAL REGISTER in which this document appears under the heading "Citation." As this amendment merely grants an exemption, no delay in its effective date is required by 5 U.S.C. 553(d). Such delay would serve no useful

purpose. This amendment shall, therefore, be effective immediately.

For purpose of this finding, the dairy products industry is defined to include all, but only, the following operations:

(a) Transportation of milk and cream from farms.

(b) Handling and preparing milk or cream at receiving stations, fluid milk plants and processing plants, and transporting the milk or cream from one to the other.

(c) First processing of milk, buttermilk, whey, skimmed milk or cream into dairy products, including: Pasteurized, flavored, condensed, evaporated, concentrated, or dried, whole or skimmed milk; sweet, sour, or dried cream; whey, renovated, process or creamery butter; any variety of cheese including natural or processed; condensed, evaporated, or dried buttermilk; wet or dried casein; malted milk powder; crude milk sugar; ice cream, ice milk, and sherbet (except water ices).

(d) Any operations or services necessary or incident to the foregoing performed by employees employed by an employer in an enterprise which is in the industry, including necessary packaging, storage, and shipping at the plant of the dairy products made by the enterprise, plant maintenance, machinery repair, clerical work necessary or incident to the operations described in paragraphs (a) through (c), handling the nondairy ingredients used in the dairy products, aging, cleaning, paraffining, weighing, slicing, and wrapping cheese made by the enterprise, assembling knock-down boxes, and transferring ingredients and supplies from stock to meet the daily needs of processing operations.

(e) Any other operations normally performed in the Dairy Products Industry which do not occupy more than 20 percent of the time worked in any workweek by an employee for whom the exemption is claimed.

Not included in the industry are operations which do not constitute or are not necessary or incident to the operations of an enterprise engaged in activities described in paragraphs (a) through (c) above, and which exceed the amount provided in (e) above, such as storing, slicing, and packaging cheese and printing, wrapping, and storing butter bought in bulk from cheesemakers and buttermakers, further processing of dry casein, regrinding, rescreening, and repacking dried whey, handling and distributing nondairy products, and assembling and distributing dairy products as a wholesaler or other distributor.

(29 U.S.C. 207(d))

Signed at Washington, D.C., this 17th day of July 1967.

CLARENCE T. LUNDQUIST,
Administrator, Wage and Hour and Public Contracts Divisions, United States Department of Labor.

[F.R. Doc. 67-8442; Filed, July 19, 1967; 8:52 a.m.]

Chapter XIV—Equal Employment Opportunity Commission

PART 1602—RECORDS AND REPORTS

Apprenticeship and Labor Organization Reporting and Recordkeeping Requirements

Pursuant to the authority vested in it by section 709(c) of Title VII of the Civil Rights Act of 1964, 78 Stat. 263, 42 U.S.C.A. section 2000e et seq., and after consideration of the testimony and statements submitted in response to notices of proposed rule making published February 14 (32 F.R. 2852), February 28 (32 F.R. 3364), and May 25, 1967 (32 F.R. 7836), and at public hearings held pursuant thereto on March 21 and June 20, 1967, the Equal Employment Opportunity Commission hereby amends Title 29, Chapter XIV, Part 1602, of the Code of Federal Regulations by adding thereto Subparts D through H, set forth below. In view of the publicity accorded to the proposed rules and the fact that the rules adopted call for compliance between August 1, and September 30, 1967, and between August 1, and November 30, 1967, the Commission finds no useful purpose would be served by delay in the effective date, and accordingly these rules shall become effective on the date of their publication in the FEDERAL REGISTER.

Subpart D—Apprenticeship Information Report

Sec.
1602.15 Requirement for filing and preserving copy of report.
1602.16 Penalty for making of willfully false statements on report.
1602.17 Commission's remedy for failure to file report.
1602.18 Exemption from reporting requirements.
1602.19 Additional reporting requirements.

Subpart E—Apprenticeship Recordkeeping

1602.20 Records to be made or kept.
1602.21 Preservation of records made or kept.

Subpart F—Local Union Equal Employment Opportunity Report

1602.22 Requirements for filing and preserving copy of report.
1602.23 Penalty for making of willfully false statements on reports.
1602.24 Commission's remedy for failure to file report.
1602.25 Exemption from reporting requirements.
1602.26 Additional reporting requirements.

Subpart G—Recordkeeping by Labor Organizations

1602.27 Records to be made or kept.
1602.28 Preservation of records made or kept.

Subpart H—Records and Inquiries as to Race, Color, National Origin, or Sex

1602.29 Applicability of State or local law.

AUTHORITY: The provisions of Subparts D through H issued under secs. 709, 713, 78 Stat. 265, 266; 42 U.S.C. 2000e-8, 2000e-12.

Subpart D—Apprenticeship Information Report

§ 1602.15 Requirement for filing and preserving copy of report.

On or before September 30, 1967, and annually thereafter, certain joint labor-management committees subject to Title VII of the Civil Rights Act of 1964 which control apprenticeship programs shall file with the Commission, or its delegate, executed copies of Apprenticeship Information Report EEO–2 in conformity with the directions set forth in the form and accompanying instructions. The committees covered by this regulation are those which (a) have five or more apprentices enrolled in the program at any time during August and September of the reporting year and (b) represent at least one employer sponsor and at least one labor organization sponsor which are themselves subject to Title VII. Every such committee shall retain at all times among the records maintained in the ordinary course of its affairs a copy of the most recent report filed, and shall make the same available if requested by an officer, agent or employee of the Commission under the authority of section 710(a) of Title VII. It is the responsibility of all such committees to obtain from the Commission or its delegate necessary supplies of the form.

§ 1602.16 Penalty for making of willfully false statements on report.

The making of willfully false statements on Report EEO–2 is a violation of the U.S. Code, Title 18, section 1001, and is punishable by fine or imprisonment as set forth therein.

§ 1602.17 Commission's remedy for failure to file report.

Any person failing or refusing to file Report EEO–2 when required to do so may be compelled to file by order of a U.S. District Court, upon application of the Commission, under authority of section 710(b) of Title VII.

§ 1602.18 Exemption from reporting requirements.

If it is claimed the preparation or filing of Report EEO–2 would create undue hardship, the committee may apply to the Commission for an exemption from the requirements set forth in this part.

§ 1602.19 Additional reporting requirements.

The Commission reserves the right to require reports, other than that designated as Report EEO–2, about apprenticeship procedures of joint labor-management committees, employers, and labor organizations whenever, in its judgment, special or supplemental reports are necessary to accomplish the purpose of Title VII. Any system for the requirement of such reports will be established in accordance with the procedures referred to in section 709(c) of Title VII and as otherwise prescribed by law.

Subpart E—Apprenticeship Recordkeeping

§ 1602.20 Records to be made or kept.

(a) Every person required to file Report EEO–2 shall make or keep such records as are necessary for its completion under the conditions and circumstances set forth in the instructions accompanying the report, which are specifically incorporated herein by reference and have the same force and effect as other sections of this part.

(b) Every employer, labor organization, and joint labor-management committee subject to Title VII which controls an apprenticeship program (regardless of any joint or individual obligation to file a report) shall, beginning August 1, 1967, maintain a list in chronological order containing the names and addresses of all persons who have applied to participate in the apprenticeship program, including the dates on which such applications were received. (See section 709(c), Title VII, Civil Rights Act of 1964). Such list shall contain a notation of the sex of the applicant and of the applicant's identification as "Negro," "Spanish American," "Oriental," "American Indian," or "Other." The methods of making such identification are set forth in the instructions accompanying Report EEO–2, section 7. The words "applied," "applicant" and "application" as used in this section refer to situations involving actual applications only. An applicant is considered to be a person who files a formal application, or in some informal way indicates a specific intention to be considered for admission to the apprenticeship program. A person who casually appears to make an informal inquiry about the program, or about apprenticeship in general, is not considered to be an applicant. The term "apprenticeship program" as used herein refers to programs described in section 8 of the instructions accompanying Report EEO–2.

(c) In lieu of maintaining the chronological list referred to in § 1602.20(b), persons required to compile the list may maintain on file written applications for participation in the apprenticeship program, provided that the application form contains a notation of the date the form was received, the address of the applicant, and a notation of the sex, and the race, color, or national origin of the applicant as decribed above.

§ 1602.21 Preservation of records made or kept.

(a) Notwithstanding the provisions of section 1602.14, every person subject to § 1602.20 (b) or (c) shall preserve the list of applicants or application forms, as the case may be, for a period of 2 years from the date the application was received, except that in those instances where an annual report is required by the Commission calling for statistics as to the sex, and the race, color, or national origin of apprentices, the person required to file the report shall preserve the list and forms for a period of 2 years or the period of a successful applicant's apprenticeship, whichever is longer. Persons required to file Report EEO–2, or other reports calling for information about the operation of an apprenticeship program similar to that required on Report EEO–2, shall preserve any other record made solely for the purpose of completing such reports for a period of 1 year from the due date thereof.

(b) Other records: Except to the extent inconsistent with the law or regulation of any State or local fair employment practices agency, or of any other Federal or State agency involved in the enforcement of an antidiscrimination program in apprenticeship, other records relating to apprenticeship made or kept by a person required to file Report EEO–2, including but not necessarily limited to test papers completed by applicants for apprenticeship and records of interviews with applicants, shall be kept for a period of 2 years from the date of the making of the record. Where a charge of discrimination has been filed, or an action brought by the Attorney General under Title VII, the respondent shall preserve all records relevant to the charge or action until final disposition of the charge or the action. The term "records relevant to the charge," for example, would include applications, forms or test papers completed by an unsuccessful applicant and by all other candidates for the same position as that for which the charging party applied and was rejected. The date of "final disposition of the charge or the action" means the date of expiration of the statutory period within which a charging party may bring an action in a U.S. District Court or, where an action is brought either by a charging party or by the Attorney General, the date on which such litigation is terminated.

Subpart F—Local Union Equal Employment Opportunity Report

§ 1602.22 Requirements for filing and preserving copy of report.

On or before November 30, 1967, and annually thereafter, every labor organization subject to Title VII of the Civil Rights Act of 1964 shall file with the Commission or its delegate an executed copy of Local Union Equal Employment Opportunity Report EEO–3 in conformity with the directions set forth in the form and accompanying instructions, provided that the labor organization has 100 or more members at any time during the 12 months preceding the due date of the report, and is a "local union" (as that term is commonly understood) or an independent or unaffiliated union. Labor organizations required to report are those which perform, in a specific jurisdiction, the functions ordinarily performed by a local union, whether or not they are so designated. Every local union, or a labor organization acting in its behalf, shall retain at all times among the records maintained in the ordinary course of its affairs a copy of the most recent report filed, and shall make the same available if requested by an officer, agent, or employee of the Commission under the authority of section 710(a) of Title VII. It is the responsibility of all persons required to file to obtain from the Commission or its delegate necessary supplies of the form.

§ 1602.23 Penalty for making of willfully false statements on reports.

The making of willfully false statements on Report EEO–3 is a violation of the United States Code, Title 18, section 1001, and is punishable by fine or imprisonment as set forth herein.

§ 1602.24 Commission's remedy for failure to file report.

Any person failing or refusing to file Report EEO–3 when required to do so may be compelled to file by order of a U.S. District Court, upon application of the Commission, under authority of section 710(b) of Title VII.

§ 1602.25 Exemption from reporting requirements.

If it is claimed that the preparation or filing of Report EEO–3 would create undue hardship, the labor organization may apply to the Commission for an exemption from the requirements set forth in this part.

§ 1602.26 Additional reporting requirements.

The Commission reserves the right to require reports, other than that designated as Report EEO–3, about the membership or referral practices or other procedures of labor organizations, whenever, in its judgment, special or supplemental reports are necessary to accomplish the purposes of Title VII. Any system for requirement of such reports will be established in accordance with the procedures referred to in section 709(c), and as otherwise prescribed by law.

Subpart G—Recordkeeping by Labor Organizations

§ 1602.27 Records to be made or kept.

Those portions of Report EEO–3 calling for information about union policies and practices and for the compilation of statistics on the race, color, national origin, and sex of members, persons referred, and apprentices, are deemed to be "records" within the meaning of section 709(c), Title VII, Civil Rights Act of 1964. Every local, independent, or unaffiliated union with 100 or more members (or any agent acting in its behalf, if the agent has responsibility for referral of persons for employment) shall make these records or such other records as are necessary for the completion of Report EEO–3 under the circumstances and conditions set forth in the instructions accompanying it, which are specifically incorporated herein by reference and have the same force and effect as other sections of this part.

§ 1602.28 Preservation of records made or kept.

(a) All records made by a labor organization or its agent solely for the purpose of completing Report EEO–3 shall be preserved for a period of 1 year from the due date of the report for which they were compiled. Unless subject to a State or local fair employment practices law or regulation governing the preservation of records inconsistent with those re-

quirements stated in this part, any labor organization identified as a "referral union" in the instructions accompanying Report EEO–3, or agent thereof, shall preserve other membership or referral records (including applications for same) made or kept by it for a period of 6 months from the date of the making of the record. Where a charge of discrimination has been filed, or an action brought by the Attorney General, against a labor organization under Title VII, the respondent labor organization shall preserve all records relevant to the charge or acting until final disposition of the charge or the action. The date of "final disposition of the charge or the action" means the date of expiration of the statutory period within which a charging party may bring an action in a U.S. District Court, or, where an action is brought against a labor organization either by a charging party or by the Attorney General, the date on which such litigation is terminated.

(b) Nothing herein shall relieve any labor organization covered by Title VII of the obligations set forth in Subpart E, §§ 1602.20 and 1602.21, relating to the establishment and maintenance of a list of applicants wishing to participate in an apprenticeship program controlled by it.

Subpart H—Records and Inquiries as to Race, Color, National Origin, or Sex

§ 1602.29 Applicability of State or local law.

The requirements imposed by the Equal Employment Opportunity Commission in these regulations, Subparts D through G, supersede any provisions of State or local law which may conflict with them. Any State or local laws prohibiting inquiries and recordkeeping with respect to race, color, national origin, or sex do not apply to inquiries required to be made under these regulations and under the instructions accompanying Reports EEO–2 and EEO–3.

LUTHER HOLCOMB,
Acting Chairman.

Title 43—PUBLIC LANDS: INTERIOR

Chapter II—Bureau of Land Management, Department of the Interior

SUBCHAPTER C—MINERALS MANAGEMENT (3000)

[Circular No. 2220]

PART 3130—COAL LEASES, PERMITS, AND LICENSES

Miscellaneous Amendments

On page 6834 of the FEDERAL REGISTER of May 7, 1966, there were published a notice and text of proposed amendments to 43 CFR Part 3130. The purpose of the amendments was to incorporate into the regulations the acreage limitations and the provisions for development contracts for coal established by the Act of August 31, 1964 (Public Law 88–526; 78 Stat. 710), and to make certain perfecting amendments. Also, it was proposed to add a new section to the regulations governing the protection of nonmineral resources.

Interested persons were given until March 7, 1967, within which to submit written comments, suggestions, or objections to the proposed amendments. Comments were received concerning the proposed new section governing the protection of nonmineral resources and the cooperative conservation provisions. Perfecting language has been made in the subpart for cooperative conservation provisions to make the language consistent with the statute and to clarify § 3131.5–6 to make certain that "own lands" is not construed to include Federal leases "owned" by a common-carrier railroad and contributed to the cooperative arrangement.

A decision has been made not to include in Part 3130 regulations for protection of nonmineral resources, in favor of general regulations that will apply to all leasable minerals.

The regulations as modified are hereby adopted and as adopted are set forth below.

1. Section 3131.1 is amended in its entirety to read as follows:

§ 3131.1 Acreage limitations.

(a) Except where the rule of approximation applies, a permit may not exceed 5,210 acres. The rule of approximation applies to applications for prospecting permits only where elimination of the smallest legal subdivision involved would result in a deficiency of area under 5,120 acres greater than the excess over 5,120 acres resulting from the inclusion of such subdivision. A permit shall include contiguous tracts, or tracts in reasonably compact form.

(b) There is no statutory limitation on the acreage that may be included in any one leasing tract. However, the authorized officer after consultation with the mining supervisor of Geological Survey, will determine the amount of acreage to be included in each leasing tract, taking into consideration the area required for plant facilities and such other data as may be pertinent. A lease shall include contiguous tracts, except in cases where noncontiguous tracts can be efficiently worked as a single mine or unit.

(c) Except as hereinafter stated, no person, association or corporation may hold at one time coal leases or permits exceeding 46,080 acres in any one State, whether directly through the ownership of such leases and permits, or interest therein, and applications therefor, or indirectly as a member of an association or as a stockholder of a corporation holding such leases and permits, or interest therein, and applications therefor. In computing acreage holdings or control, the accountable acreage of a party owning an undivided interest in a lease or permit shall be such party's proportionate part of the total lease and permit acreage. Likewise, the accountable acreage of a party owning an interest in a corporation or association shall be such party's proportionate part of the corporation's or association's accountable acreage except that no person shall be charged with his pro rata share of any acreage holdings of any association or corporation, unless he is the beneficial owner of more than 10 percent of the stock or other instruments of ownership or control of such association or corporation.

(d) A person, association, or corporation may file with the appropriate land office an application or applications for coal lease or permits for acreage in addition to the 46,080 acres, which application or applications shall be in multiples of 40 acres, not exceeding a total of 5,120 additional acres in any one State, and shall contain a statement showing that the granting of a lease or permit for such additional lands is necessary to carry on business economically and is in the public interest.

(e) Upon the filing of an application for additional lands as specified in paragraph (d) of this section, the coal deposits in the lands covered thereby shall be temporarily set aside and withdrawn from all forms of disposal under the Act.

(f) Notice of all applications filed for additional lands as specified in paragraph (d) of this section shall be posted in the appropriate land office, and the authorized officer shall conduct public hearings thereon. The authorized officer will thereafter determine the amount of additional acreage to be granted under this section taking into consideration the area required for plant facilities and such other data as may be pertinent. Thereafter and to the extent necessary for the applicant to carry on business economically, the authorized officer may issue coal leases or permits to the applicant for additional acreage of not more than 5,120 acres, subject to such terms and conditions as may be prescribed by the Secretary of the Interior. Such terms and conditions may require the payment either of cash bonus per acre or fraction thereof or a rental and royalty rate different from that required by the original leases or permits, or both.

2. Paragraph (b) of § 3131.2 is amended to read as follows:

§ 3131.2 Qualifications of applicants.

* * * * *

(b) Every applicant for coal permit or lease must show that, with the area applied for, his or its interest or interests in such permits, leases and applications therefor, directly or indirectly, do not exceed in the aggregate of 46,080 acres in any one State.

3. A new section is added to Subpart 3131 to read as follows:

§ 3131.5 Cooperative conservation provisions.

§ 3131.5–1 General.

Objectives: To conserve the natural resources of any coal field or prospective coal area, or any part or zone thereof, and to permit an orderly, efficient and economic development of such coal fields, the act authorizes the Secretary of the Interior to approve cooperative agreements among lessees or permittees and their representatives if such agreements or contracts are certified by the Secretary to be necessary or advisable in the public interest. It also permits him to enter into a development contract with a single lessee and to consolidate the leases or permits of one or more lessees or permittees.

§ 3131.5–2 Types of contracts.

In order to carry out the objectives of the act as set forth in § 3131.5–1, the Secretary may:

(a) Approve collective contracts of lessees and permittees and their representatives and others, for prospecting, development, or operation of coal fields or prospective coal areas, or any part or zone thereof.

(b) Enter, for the same purposes, into a development contract with a single lessee or permittee embracing his leases or permits.

(c) Consolidate separate Federal permits or leases of one or more lessees or permittees into a lesser number of permits or leases, or into a single permit or lease.

§ 3131.5–3 Special provisions of contracts.

(a) A contract approved hereunder shall not provide for an apportionment of production or royalties among the separate tracts comprising the contract area, but may provide for the commingling of production with appropriate allocation to the tracts from which produced. In connection with any contract approved or executed or with any consolidation accomplished under this subpart, the authorized officer may, with the consent of the party or parties involved, establish, alter, change, or revoke mining, producing, rental, minimum royalty, and royalty requirements of such leases or permits or contracts.

(b) In the case of any contract between lessees or their representatives, or between them and others for collective development or operation of any coal field or coal area, or any part or zone thereof, such arrangement as the working interest owners may enter into for the sharing or division of production among them shall not be deemed to be an apportionment of production or royalties among the separate tracts comprising the contract area.

§ 3131.5–4 Approval of contracts and exemption from acreage limitations.

Coal leases and permits operated under a contract approved or executed by the Secretary pursuant to the provisions of this subpart may be excepted from acreage limitations or maximum holdings or control imposed by the Act, if it be determined that such exception is required to permit economic development of the coal resources and is otherwise consistent with the public interest.

§ 3131.5–5 Application for approval.

A contract submitted for approval under this subpart should be filed with the appropriate land office, together with enough copies to permit retention of five copies after approval. It must be accompanied by a statement showing all the interests held by the contractor in the area or field and the proposed or agreed plan of operation or development of the field. All the contracts held by the same contractor in the area or filed must be submitted for approval at the same time, and full disclosure of the project made. Complete details must be furnished in order that the Secretary may have facts upon which to make a definite determination in accordance with the provisions of the act, and to prescribe the conditions on which approval of the contracts is made.

§ 3131.5–6 Common-carrier railroads.

Any company or corporation operating a common-carrier railroad which may be a party to a collective contract or development contract with a Federal lessee under this subpart, to develop its own lands, excluding Federal lands leased by the railroad, in connection with or in cooperation with a Federal lessee or lessees shall not be deemed to be given or hold a lease by virtue of any such arrangement between the working interest owners.

4. Paragraph (c) of § 3132.1–1 is amended to read as follows:

§ 3132.1–1 Leasing units.

* * * * *

(c) Leasing units may include, in whole or in part, unsurveyed land. If the lands are unsurveyed, they must be described in accordance with approved protracted surveys or, in the absence of such protracted surveys, by metes and bounds.

5. Paragraphs (a) and (b) of § 3132.1–2 are amended to read as follows:

§ 3132.1–2 Leasing of additional coal deposits.

(a) Under section 3 of the Act (30 U.S.C. 203), a lessee may obtain a modification of his lease to include coal lands or coal deposits contiguous to those embraced in his lease if the authorized officer determines that it will be to the advantage of the lessee and the United States. The lessee shall file his application for modification in duplicate in the proper land office, describing the additional lands desired, the needs and reasons for and the advantage to the lessee of such modification. Upon determination by the authorized officer that the modification is justified and that the interest of the United States is protected, the lease will be modified without competitive bidding to include such part of the land or deposits as he shall prescribe. If however, it is determined that the additional lands or deposits can be developed as part of an independent operation or that there is a competitive interest in them, they will be offered as provided in § 3132.4–2.

(b) Under section 4 of the Act (30 U.S.C. 204) upon satisfactory showing by the lessee that all of the workable deposits of coal within a tract covered by the lease will be exhausted, worked out or removed within 3 years thereafter, an additional tract of land or coal deposit may be leased. Application shall be filed in duplicate in the proper land office and shall contain a description of the lands requested, estimated recoverable reserves, future plan of operation for such reserves and for any lands requested and the proposed method of entry into such lands. If the lands or coal deposits or any part thereof are found to constitute an acceptable leasing unit, they will be offered for leasing as provided in § 3132.4–2. If the applicant be the successful bidder and the additional lands can be practicably operated with the applicant's leasehold as a single mine or unit, the additional lands may be included in a modified lease.

* * * * *

6. Subparagraphs (2), (3), and (5) of § 3132.2(a) are amended to read as follows:

§ 3132.2 Application for lease.

(a) * * *

(2) Statement of citizenship: If applicant is an individual, he must submit a statement as to his citizenship; if an association (including a partnership), it must submit a certified copy of the articles of association and a statement by its

members as to their citizenship and holdings. If the applicant is a corporation, it must submit statements showing (i) the state in which it is incorporated; (ii) that it is authorized to hold leases and permits for coal deposits, (iii) the names of the officers authorized to act in such matters in behalf of the corporation; (iv) the percentage of the corporate voting stock and of all the stock owned by aliens or those having addresses outside of the United States; and (v) the name, address, citizenship, and acreage holdings of any stockholder owning or controlling 10 percent or more of the corporate stock of any class. If more than 10 percent of the stock is owned or controlled by or on behalf of aliens, or persons who have addresses outside of the United States, the corporation must give their names and addresses, the amount and class of stock held by each, and to the extent known to the corporation or which can be reasonably ascertained by it, the facts as to the citizenship of each. A municipality must submit evidence of: (*a*) The manner in which it is organized; (*b*) that it is authorized to hold a permit or lease; and (*c*) that the action proposed has been duly authorized by its governing body. Where such material has previously been filed a reference by serial number to the record in which it has been filed, together with a statement as to any amendments, will be accepted.

(3) A statement of interests, direct or indirect, in other coal leases, permits, or applications thereof on Federal and non-Federal lands in the state in which the lease is desired, and the estimated reserve of coal that applicant has from any source, identifying the Federal leases by serial numbers, and whether such Federal interests, when added to the acreage covered by the application, exceed the aggregate of 46,080 acres in the state. A railroad company or corporation operating a common-carrier must state that its interests, together with the acreage covered by the application, do not exceed in the aggregate 10,240 acres.

* * * * *

(5) The showing specified in § 3131.2 (d).

* * * * *

7. Section 3132.3–1 is amended to read as follows:

§ 3132.3–1 Compliance bond.

A compliance bond on a form approved by the Director in an amount to be determined by the authorized officer but not less than $1,000 will be required prior to the issuance of a lease. The right is reserved at any time before or after issuance of a lease to require an increase in the amount of the bond whether a corporate, personal, or individual surety bond, in any case where the authorized officer of the Bureau of Land Management deems it proper to do so.

8. Paragraph (b) of § 3132.7 is amended to read as follows:

§ 3132.7 Cancellation of lease.

* * * * *

(b) A lease or permit issued pursuant to § 3131.1(f) may be canceled by the authorized officer, if the cancellation is in the public interest or the coal deposits in the lands covered thereby are no longer necessary for the lessee or permittee to carry on business economically or if the lessee or permittee has divested himself of all or any part of the original 46,080 acres or no longer has facilities for the exploitation of the deposits under lease or permit. However, such lessee or permittee will be given notice of the proposed cancellation and afforded an opportunity of submitting evidence showing why the lease or permit should not be canceled.

9. Paragraph (a) of § 3133.4 is amended to read as follows:

§ 3133.4 Permit bond.

(a) The applicant must furnish a corporate surety bond or a personal bond on a form approved by the Director conditioned upon compliance with all the terms of the prospecting permit. The bond shall be in an amount to be determined by the authorized officer, but not less than $1,000.

* * * * *

10. Paragraph (a) of § 3134.1 is amended to read as follows:

§ 3134.1 Transfers, including subleases.

(a) Permits and leases may be transferred, in whole or in part to any person, association, or corporation qualified to hold such leases and permits. The approval of a transfer of only part of the lands described in a permit or lease will create a new permit or lease which will be given a current serial number but a discovery on lands under one permit will not inure to the benefit of the other. The approval of such a transfer will not extend the life of the permit or the readjustment periods of the lease. Transfers of permits and leases, whether by direct assignments, working agreements, transfer of royalty interests, subleases or otherwise, must be filed for approval within 90 days from final execution and must contain evidence of the qualifications of the assignee or transferee, consisting of the same showing required of a lease or permit applicant by § 3132.2. If a bond is necessary it must be furnished. Transfers of record title interest must be filed in triplicate. A single executed copy of all other instruments of transfer is sufficient. A transfer will take effect the first day of the month following its final approval by the authorized officer of the Bureau of Land Management, or if the transferee requests, the first day of the month of the approval.

STEWART L. UDALL,
Secretary of the Interior.

JULY 12, 1967.

[F.R. Doc. 67–8366; Filed, July 19, 1967; 8:47 a.m.]

[Circular No. 2230]

PART 3160—PHOSPHATE LEASES; PROSPECTING PERMITS AND USE PERMITS

Subpart 3161—General Provisions

Subpart 3162—Competitive Leases

MISCELLANEOUS AMENDMENTS

On page 6836 of the FEDERAL REGISTER of May 7, 1966, there were published a notice and text of proposed amendments to 43 CFR Part 3160. The purpose of the amendments was to incorporate into the regulations the acreage limitations established by the Act of August 31, 1964 (Public Law 88–548; 78 Stat. 754), and to make certain perfecting amendments. Also, it was proposed to add a new section to the regulations governing the protection of nonmineral resources.

Interested persons were given 30 days within which to submit written comments, suggestions, or objections to the proposed amendments. Several extensions of time were granted, the last extension being to March 7, 1967. Many comments were received and several meetings held with interested parties. All the comments concerned the proposed new section governing the protection of nonmineral resources. No adverse comments were received regarding the increase in acreage limitations or the perfecting amendments. Because of the extension of time granted for comments on the proposed surface use provisions, action on that part of the proposal is being deferred for the time being.

No objections having been raised concerning the other parts of the proposed amendments, the regulations as proposed, excluding the provisions of § 3161.4, are adopted and as adopted are set forth below.

1. Subparagraph (1) of paragraph (a) of § 3161.1 is amended to read as follows:

§ 3161.1 Area; limitation on holdings; terms.

(a) * * *

(1) No person, association, or corporation, may hold at any one time more than 20,480 acres in the United States, whether directly through the ownership of phosphate leases, permits, and applications therefor or interests in them, or indirectly through association membership or stock ownership. In computing acreage holdings or control, the accountable acreage of a party owning an undivided interest in a lease or permit shall be such party's proportionate part of the total lease and permit acreage. Likewise the accountable acreage of a party owning an interest in a corporation or association shall be his proportionate part of the corporation's or association's accountable acreage except that no person shall be charged with his pro rata share of any acreage holding of any association or corporation unless he is the beneficial owner of more than ten per centum of the stock or other instruments of ownership or control of such association or corporation.

* * * * *

2. Subparagraph (1) of paragraph (b) of § 3161.2 is amended to read as follows:

§ 3161.2 Qualifications of applicant.

* * * * *

(b) * * *

(1) If an individual, a statement as to citizenship.

* * * * *

3. Section 3161.3–4 is amended to read as follows:

§ 3161.3–4 Permit bond.

Prior to the issuance of a permit the applicant must furnish a bond in an amount to be determined by the authorized officer, but not less than $1,000.

4. Section 3162.2 is amended to read as follows:

§ 3162.2 Lease bond.

A compliance bond in an amount to be determined by the authorized officer but not less than $1,000 will be required prior to the issuance of a lease. The right is reserved at any time before or after issuance of the lease to require an increase of the amount of the bond, whether a corporate or personal bond, in any case where the Bureau of Land Management deems it proper to do so.

STEWART L. UDALL,
Secretary of the Interior.

JULY 14, 1967.

Title 31—MONEY AND FINANCE: TREASURY

Chapter II—Fiscal Service, Department of the Treasury

PART 316—OFFERING OF UNITED STATES SAVINGS BONDS, SERIES E

Bonds Bearing Issue Dates From December 1, 1959, Through May 1, 1960

Table 51, showing the investment yields to maturity for Series E Savings Bonds with issue dates from December 1, 1959, through May 1, 1960, which is a part of Department Circular No. 653, Seventh Revision, dated March 18, 1966, as amended (31 CFR Part 316), is hereby supplemented by addition of the redemption values and investment yields for the extended maturity period, as set forth below.

Dated: July 12, 1967.

[SEAL] JOHN K. CARLOCK,
Fiscal Assistant Secretary.

TABLE 51—BONDS BEARING ISSUE DATES FROM DEC. 1, 1959, THROUGH MAY 1, 1960

Proposed Rule Making

DEPARTMENT OF THE INTERIOR

Office of the Secretary

[43 CFR Part 23]

MINED LAND RECLAMATION

Notice of Proposed Rule Making

Basis and purpose. Notice is hereby given that pursuant to the authority vested in the Secretary of the Interior under the Mineral Leasing Act, as amended and supplemented (30 U.S.C., secs. 181–287), the Mineral Leasing Act for Acquired Lands (30 U.S.C., secs. 351–359), and the Materials Act, as amended (30 U.S.C. 601–604), to promulgate rules and regulations governing the issuance of permits, licenses, leases and other contracts for the exploration and extraction of mineral resources underlying lands administered by the Department of the Interior, it is proposed to add a new part to Title 43, Code of Federal Regulations, relating to the protection and reclamation of surface mined lands.

It is the policy of the Department of the Interior, whenever practicable, to afford the public an opportunity to participate in the ruling making process. Accordingly, interested persons may submit written comments, suggestions, or objections with respect to the proposed regulations to the Secretary of the Interior, Washington, D.C., within 30 days of the date of publication of this notice in the FEDERAL REGISTER.

§ 23.1 Purpose.

The purpose of the regulations in this part is to establish general requirements for the protection and reclamation of non-mineral surface resources in connection with the exploration for and development of minerals on Federal or Indian lands administered by the Department of the Interior. The regulations apply to operations under all laws relating to the disposal of minerals except the general mining laws. Specific regulations under various Acts of Congress are to be found in other chapters in the Code of Federal Regulations.

§ 23.2 Policy.

(a) It is the policy of the Department to encourage development of the mineral resources underlying Federal or Indian lands where mining is authorized. In implementing such a policy, consideration must be given to necessary measures to prevent or correct damage to the other resources—such as scenic, recreational and ecological values, including fish and wildlife—on mineral-bearing Federal land and on adjacent lands and waters; and to avoid the creation of hazards to health and safety. To this end, before exploration, development or extraction operations (under permit, license, lease or other contract) may commence on Federal or Indian lands under the jurisdiction of the Department, the holder of a permit, license, lease or contract will be required to obtain from the appropriate Departmental officer permission to operate in accordance with the regulations in this part. In order to obtain permission to operate the holder will be required to submit information showing location and area of land to be involved in the operation, proposed methods of operation, and proposed measures to be taken to prevent or correct on-site and off-site damage to lands, waters and other resources.

(b) The holder will also be required to take prescribed steps to reclaim such land. Permits, licenses, leases, or other contracts will require the holder thereof to conduct his operations in accordance with previously approved plans and applicable Departmental regulations. Permission to operate will not be granted unless the holder is willing to guarantee, by appropriate performance bond, the financial costs of measures required to prevent or correct on-site and off-site damage to the Federal lands and waters for which he is responsible, and to reclaim the site of his operations according to an approved plan.

§ 23.3 Definitions.

As used in the regulations in this part:

(a) "Appropriate Departmental officer" means an officer or representative of any bureau or office of the Department to whom the authority or responsibility for the administration of permits, licenses, leases or other contracts has been assigned or delegated under an applicable Department rule, regulation or delegation of authority;

(b) "Overburden" means all the earth and other materials which lie above a natural deposit of minerals and such earth and other material after removal from their natural state in the process of mining;

(c) "Area of land affected" means the area of land from which overburden is to be or has been removed and upon which the overburden or waste is to be or has been deposited, and includes all lands affected by the construction of new roads or the improvement or use of existing roads to gain access to an operation and for haulage;

(d) "Operation" means all of the premises, facilities, roads and equipment used in the process of determining the location, composition or quality of a mineral deposit, or in developing or extracting a mineral deposit in a designated area;

(e) "Method of operation" means the method or manner by which a cut or open pit is made, the overburden is placed or handled, water is controlled or affected and other acts performed by the operator in the process of exploring or uncovering and removing a mineral deposit;

(f) "Holder" means the person designated as the permittee, licensee, leasee or contractor in a permit, license, lease or contract of leaseable or disposable mineral materials issued by a bureau or agency of the Department of the Interior;

(g) "Reclamation" means measures undertaken to bring about the necessary reconditioning or restoration of an area of land or water that has been affected by exploration or mineral extractive operations, and waste disposal, in ways which will prevent or control on-site and off-site damage to the environment; and

(h) "Person" means any individual, partnership, firm, association, trust or corporation, or any combination thereof.

§ 23.4 Requirements for permission to operate.

(a) Before commencing any exploratory, development or extractive operation under a permit, license, lease or other contract, the holder of that permit, license, lease or other contract must obtain written permission to operate from the appropriate Departmental officer in accordance with the provisions of these regulations.

(b) The holder of a permit, license, or lease seeking permission to operate thereunder shall be required to supply to the appropriate Departmental officer in writing information necessary to implement these regulations. Such information may include, among other things, the following:

(1) A description of the location and area to be affected by the operation;

(2) A statement of the mineral or minerals to be sought or extracted;

(3) The temporary and permanent post office address of the applicant;

(4) Whether the holder, or any person associated with him, holds or has held other mineral permits, licenses, leases or other contracts issued by the Department in the State;

(5) Whether the Department has ever revoked any mineral permit, license, lease or other contract issued to the holder or any person, associated with him for failure—other than nonpayment of rental—to comply with the terms of such permit, license, or lease or any applicable Departmental regulation;

(6) Two copies of a suitable map, or suitable aerial photograph which meets the requirements of the subsections below. The map or aerial photograph shall:

(i) Show the topgraphy of the area;

(ii) Identify the area to be covered by the permit, license or lease;

(iii) Show the names and locations of all major topographic and cultural features;

(iv) Show the drainage plan on and away from the area of land affected, including the directional flow of water, natural waterways to be use for drainage, drainageways to be constructed, and streams or tributaries to receive the discharge; and

(v) Show the date on which the map or photograph was prepared, the north-orientation, the scale, and, if available, the quadrangle name; and

(7) A description of the proposed methods of operating, including but not limited to:

(i) Proposed roads or vehicular trails to the area;

(ii) Size and types of equipment to be utilized for exploration, development or extractive operations;

(iii) Capacity, character, standards of construction, size and location of structures and facilities to be built;

(iv) The method of handling, storing and using explosives and fire, and the safety precautions to be taken during such use;

(v) Measures to be taken to avoid damage to property or improvements, roads, trails and watercourses;

(vi) Measures to be taken to prevent or control fire, soil erosion, water pollution, damage to fish and wildlife, and hazards to public health and safety; and

(vii) Proposed manner and time of performance of work to reclaim areas disturbed by holder's operation.

(c) Unless it is determined by the appropriate Departmental officer that environmental conditons of an area to be mined are such that regrading and backfilling is not reasonable or practicable, the holder shall submit a plan showing the proposed methods of regrading of areas of land affected by an operation.

(d) Unless it is determined by the appropriate Departmental officer that soil conditions, climate and topography of an area are such that revegetation of the area is not reasonable, practicable, and likely to succeed, the holder shall submit a plan for replanting of the area of land affected by an operation. Said plan will show:

(1) Proposed methods of preparation and fertilizing the soil prior to replanting;

(2) Types and mixtures of shrubs, trees or tree seedlings, grasses or legumes to be planted; and

(3) Type and method of planting, including the amounts of grasses or legumes per acre, or number and spacing of trees or tree seedlings, or combinations of grasses and trees.

(e) The holder shall be required to file a suitable performance bond, with satisfactory surety payable to the Secretary of the Interior. Release from such bond shall be conditioned upon faithful compliance with all reclamation requirements, other terms and conditions of the permit, license or lease, and terms of the permission to operate. In determining the amount of the bond consideration shall be given to the character and nature of the overburden, the likelihood of damage to other resource values, the hazards to public health and safety, and the estimated costs of reclamation, including revegetation if such is a requirement of the approved reclamation plan.

§ 23.5 Review of requests for permission to operate; replanting requirements; Performance bond.

(a) The appropriate Departmental officer, after reviewing the information and plans submitted by a holder pursuant to the requirements of this part, shall indicate to the holder any changes, additions or amendments necessary to conform to the objectives of the regulations in this part and in other supplemental Departmental regulations.

(b) Plans for method of operation and reclamation, including revegetation, may be changed by mutual consent at any time to adjust to changed conditions or to correct for previous oversight. After approval, or mutual acceptance, of a revised method of operation or reclamation plan the holder shall not depart therefrom without further approval.

§ 23.6 Basis for denial of permission to operate.

(a) Permission for the holder of a permit, license, lease, or other contract to operate shall not be approved by the appropriate Departmental officer if he determines that plans of operation and reclamation which will achieve the purposes of these regulations, or other supplemental Departmental regulations, have not been formulated.

(b) Whenever the appropriate Departmental officer determines that any part of the area of land described in a request for permission to operate is such that previous experience with operations under similar conditions shows that substantial deposition of sediment in stream beds, landslides, or water pollution cannot feasibly be avoided, the appropriate Departmental officer may exclude said part of such land area from the permission to operate.

(c) No request for permission to operate within one hundred feet of a public road, stream, lake, or other public installation, shall be granted unless adequate protective measures such as diversion, screening or provisions approved by the appropriate Departmental officer, are incorporated into the permission to operate.

(d) Requests for permission to conduct exploratory or extractive operations shall be denied to any holder who has had a mineral permit, license or lease revoked for failure to comply with its terms, applicable Departmental regulations, or orders of a duly authorized Departmental officer.

(e) A holder who has forfeited a required bond shall be ineligible for permission to conduct exploratory, development or extractive operations on Federal lands under the jurisdiction of the Department: *Provided, however,* That said holder may not be refused permission to operate because of the forfeiture of bond if the lands disturbed by his previous operations have subsequently been reclaimed without cost to the Federal Government.

§ 23.7 Responsibilities of holders.

(a) A holder while engaged in exploration or extractive operations on Federal lands shall be required to:

(1) Divert waters, where necessary, to prevent or reduce the flow into and through workings, for the purpose of preventing or alleviating stream pollution;

(2) Impound or control all runoff water so as to reduce soil erosion, sedimentation, or damage to other lands or receiving waters;

(3) Protect from infiltrating water, to the extent directed, all acid-forming or toxic materials exposed by surface mining;

(4) Seal off, to the extent directed, any breakthrough of acid water creating a hazard;

(5) Remove or bury all metal, lumber, and other refuse resulting from the operation;

(6) Dismantle and remove all abandoned or useless structures and equipment; and

(7) Refrain from removing from the site of operations equipment necessary to accomplish reclamation until such time as the work has been done and approved by the appropriate Departmental officer or written permission is given by the appropriate Departmental officer.

(b) If backfilling and grading are required, replanting of mined lands shall not be undertaken without approval of the appropriate Departmental officer.

§ 23.8 Reports.

(a) *Operations report.* If operation under an exploration or extractive permit, license, lease, or other contract, is not completed within one year following permission to operate, the holder shall submit, within 30 days after the end of said year and every succeeding year, an annual report which shall contain the following information:

(1) Name and location of the operation;

(2) Description of the nature of the operations undertaken during the year, including construction of any buildings, roads or trails;

(3) Statement of the area of land affected by such operations; and

(4) Statement of the number of acres disturbed by mining and the number of acres which were reclaimed during the year, a description of the methods of reclamation utilized, and a statement of the reclamation work remaining to be done.

(b) *Grading and backfilling report.* (1) Holders shall be required to report to the appropriate Departmental officer whenever necessary backfilling and grading of disturbed areas have been completed and to request inspection for purposes of approval.

(2) Whenever it is determined by inspection that the holder has carried out grading and backfilling in accordance with previously approved plans and other applicable Departmental regulations, the appropriate Departmental officer may issue a release of the performance bond by an appropriate amount for the area so graded and backfilled. The remaining amount of bond shall be retained until a satisfactory planting, if required, has been carried out.

(c) *Replanting report.* (1) Whenever planting of an area is required under the approved reclamation plan, the holder shall file a report with the appropriate Departmental officer whenever such planting is completed. The report shall contain the following information:

(i) Identification of the operation;

(ii) Type of planting or seeding, including mixtures and amounts;

(iii) Date of planting or seeding;

(iv) Area of land planted; and

(v) Other relevant information as may be required.

(2) All planting reports shall be certified by the holder.

(3) Inspection and evaluation for vegetative cover shall be made by the appropriate Departmental officer as soon as it is possible to determine if a satisfactory growth has been established. In no instance shall this vegetative cover check be made until after the completion of the first growing season.

(4) If a performance bond was required, the remaining portion of the bond held shall be released by the appropriate Departmental officer whenever it is determined that a satisfactory vegetative cover has been established and is likely to continue to grow.

(d) *Report on cessation or abandonment of operations.* (1) Within 30 days prior to taking such action the holder shall report his intention to cease or abandon operations thereunder, together with a statement of the exact number of acres affected by the operation, the extent of reclamation already accomplished, and any other information required.

(2) Upon receipt of the holder's report of intention to cease or abandon operations an inspection shall be made to determine whether operations have been carried out in accordance with previously approved plans or other applicable Departmental regulations. If it is determined that the operation is not in compliance with such plans or applicable rules a notice of noncompliance shall be delivered to the holder in accordance with § 23.9.

§ 23.9 Inspection: Notice of noncompliance: Revocation of permits.

(a) The appropriate Departmental officer shall have the right to enter upon the lands under any permit, license, lease or other contract at all reasonable times for the purpose of inspection to determine whether the provisions of these regulations, terms of the approved land reclamation plan or any other applicable Departmental regulations are or have been complied with.

(b) If it is determined through inspection of the premises that a holder has failed to comply with any provisions of the regulations in this part, the terms of his approved operating plan or any other applicable Departmental regulations a notice of noncompliance shall be served upon the holder. A copy of such notice or order may be delivered to the holder or his agent in person or served by certified mail addressed to the holder at the permanent address shown on his application for permit, license, lease or contract. The notice of noncompliance shall specify in what respect the holder has failed to comply with these regulations, the terms of his approved operating plan or other applicable Departmental regulations or orders of the appropriate Departmental officer, and shall specify the action which must be taken to correct the noncompliance and the time limits within which such action must be taken.

(c) Failure of a holder to take action to correct the noncompliance in accordance with the requirements set forth in a notice of noncompliance within the time limits set therein shall be grounds for the appropriate Departmental officer to institute proceedings for the cancellation of the permit, license, lease, or contract and for forfeiture of the performance bond.

§ 23.10 Appeals.

Any person adversely affected by any official action or decision made under the authority of these regulations may appeal therefrom to the head of the bureau or office involved and from the decision of that officer to the Secretary.

STEWART L. UDALL,
Secretary of the Interior.

DEPARTMENT OF LABOR

Bureau of Labor Standards

[29 CFR Parts 4, 1516]

SAFETY AND HEALTH STANDARDS FOR FEDERAL SERVICE CONTRACTS

Notice of Proposed Rule Making

Amendment to Chapter XIII, Title 29 of the Code of Federal Regulations by adding a new Part 1516 is proposed to establish safety and health standards for application in the enforcement of the McNamara-O'Hara Service Contract Act of 1965 (79 Stat. 1034, 41 U.S.C. 351, et seq.) and to advise contractors more precisely of their obligations thereunder. The new part would read as set out below. It is based on the authority cited following its table of contents. Amendment of Part 4 of Title 29 of the Code of Federal Regulations is also proposed so that appropriate reference to Part 1516 will be made in the part dealing generally with labor standards for federal service contracts and so that the contracts to which the safety and health standards apply will advise contractors more fully concerning their safety and health obligations.

In order that interested persons may have opportunity to participate in the rule making process, oral data, views or argument will be received by a Hearing Examiner on September 7, 1967, beginning at 10 a.m. in Room 216-A, at Labor Department, 14th and Constitution Avenue NW., Washington, D.C.

Any person desiring to participate orally may file a notice of intention with the Director, Bureau of Labor Standards, United States Department of Labor, Washington, D.C. 20212, not later than 10 days before the date of hearing. The notice of intention shall state the name and address of the person who is to appear, specify his interest, and state the amount of time his presentation will require. Interested persons may also submit written data, views or argument by mailing them in quadruplicate to the Director of the Bureau of Labor Standards, U.S. Department of Labor, Washington, D.C. 20212, not later than 5 days before the above date of hearing.

The oral proceedings shall be reported, and transcripts will be available to any interested person on such terms as the Hearing Examiner may provide. The Hearing Examiner shall regulate the course of the oral presentations, dispose of procedural requests, objections, and comparable matters, and confine the presentation to matters pertinent to the proposal. He shall have discretion to keep the record open for a reasonable stated time to receive written proposals and supporting reasons, or additional data, views or argument from persons who have participated.

Upon completion of the oral proceedings, the transcript thereof, together with the exhibits, written submissions and all posthearing proposals and supporting reasons shall be certified to the Secretary of Labor. After careful consideration is given to all relevant matter presented in these proceedings, and to such other information as may be available, the Secretary will issue such regulations as he deems appropriate and publish them in the FEDERAL REGISTER.

1. The proposed new 29 CFR Part 1516 reads as follows:

PART 1516—SAFETY AND HEALTH STANDARDS FOR FEDERAL SERVICE CONTRACTS

Sec.
1516.1 Scope and application.
1516.2 Safety and health standards.
1516.3 Records.

AUTHORITY: The provisions of this Part 1516 issued under McNamara-O'Hara Service Contract Act of 1965 (79 Stat. 1034, 41 U.S.C. 351, et seq.); 5 U.S.C. 301; Secretary's Order 12-66 (31 F.R. 12630)

§ 1516.1 Scope and application.

(a) The McNamara-O'Hara Service Contract Act of 1965 (79 Stat. 1034, 41 U.S.C. 351, et seq.) requires that every contract entered into by the United States or the District of Columbia in excess of $2,500 (except as provided in section 7 of the Act), the principal purpose of which is to furnish services in the United States through the use of service employees, must contain, among other provisions, a stipulation that "no part of the services covered by this Act will be performed in buildings or surroundings or under working conditions, provided by or under the control or supervision of the contractor or any subcontractor, which are unsanitary or hazardous or dangerous to the health or safety of service employees engaged to furnish the services." This Part 1516 expresses certain minimum safety and health standards which will be applied in the administration and enforcement of the Act to determine whether services covered by the Act are being, or have been, performed in compliance with its safety and health requirements.

(b) Except as provided in paragraph (c) of this section, investigators conducting investigations, and all officers of the Department of Labor evaluating, reviewing and analyzing investigations, as well as all officers of the Department determining whether there are or have been violations of the safety and health requirements of the McNamara-O'Hara Service Contract Act of 1965 or any contract subject thereto and the terms on which there may be a settlement of issues arising from an investigation without resort to administrative or judicial litigation, will assume that failure to comply with, or violation of, the safety and health measures provided in § 1516.2 results in working conditions which are "unsanitary or hazardous or dangerous to the health or safety of service employees" within the meaning of section 2(a)(3) of the Act and the contract stipulation it requires.

(c) In formal enforcement proceedings under the Act, respondents will be permitted to demonstrate, by reliable, substantial, and probative evidence, that their failure to comply with the requirements expressed in this Part 1516 did not result in working conditions unsanitary or hazardous or dangerous to the health or safety of service employees. They may anticipate that evidence will be adduced on behalf of the Department to support the assumption expressed in paragraph (b) of this section. Officers making decisions will do so in accordance with Part 6 of this title.

(d) The standards expressed in this Part 1516 are for application to ordinary employment situations, and do not preclude proof or recognition of the necessity for higher standards in employment situations of extraordinary hazard. Neither do the standards expressed in this Part 1516 purport to cover all of the working conditions which are unsanitary or hazardous or dangerous to the health or safety of service employees. Other working conditions may be found to be unsanitary or hazardous or dangerous to the health or safety of such employees on evidence to that effect, or without such evidence where such unsanitary or hazardous or dangerous condition should be apparent to a rational and prudent person of common experience.

(e) Compliance with the standards expressed in this Part 1516 will not relieve anyone from any obligation to comply with any stricter standard stemming from any other source whatsoever.

§ 1516.2 Safety and health standards.

(a) Every contractor and subcontractor shall protect the safety and health of service employees by complying with the applicable standards, specifications, and codes developed and published by agencies of the United States and nationally recognized professional organizations. Information as to the latest standards, specifications, and codes applicable to a particular contract or invitation for bids is available at the office of the Director of the Bureau of Labor Standards, U.S. Department of Labor, Railway Labor Building, 400 First Street NW., Washington, D.C. 20212, or at any of the regional offices of the Bureau of Labor Standards as follows:

1. North Atlantic Region, 341 Ninth Avenue, Room 920, New York, N.Y. 10001 (Connecticut, Maine, Massachusetts, New Hampshire, New York, Rhode Island, Vermont, New Jersey, and Puerto Rico).

2. Delaware River Area Region, 5011 U.S. Post Office and Courthouse Building, Ninth and Market Streets, Philadelphia, Pa. 19106 (Philadelphia, Pa., Delaware (maritime only)).

3. Middle Atlantic Region, 1110-B Federal Building, Charles Center, 31 Hopkins Plaza, Baltimore, Md. 21201 (Delaware, District of Columbia, Maryland, North Carolina, Pennsylvania, Virginia, and West Virginia).

4. South Atlantic Region, 1371 Peachtree Street NE., Suite 723, Atlanta, Ga. 30309 (Alabama, Florida, Georgia, Mississippi, South Carolina, and Tennessee).

5. Great Lake Region, 848 Federal Office Building, 219 South Dearborn Street, Chicago, Ill. 60604 (Illinois, Indiana, Kentucky, Michigan, Minnesota, Ohio, and Wisconsin).

6. Mid-Western Region, 2100 Federal Office Building, 911 Walnut Street, Kansas City, Mo. 64106 (Colorado, Idaho, Iowa, Kansas, Missouri, Montana, Nebraska, North Dakota, South Dakota, Utah, and Wyoming).

7. Western Gulf Region, 411 North Akard Street, Room 601, Dallas, Tex. 75201 (Arkansas, Louisiana, New Mexico, Oklahoma, and Texas).

8. Pacific Region, 10358 Federal Building, 450 Golden Gate Avenue, Box 36017, San Francisco, Calif. 94102 (Alaska, Arizona, California, Hawaii, Nevada, Oregon, Washington, and Guam).

(b) The following agencies and organizations, without limitation, are examples of those referred to in paragraph (a) of this section:

National Bureau of Standards, U.S. Department of Commerce.
Public Health Service, U.S. Department of Health, Education, and Welfare.
Bureau of Mines, U.S. Department of Interior.
United States of America Standards Institute (American Standards Association).
National Fire Protection Association.
American Society of Mechanical Engineers.
American Society for Testing and Materials.
American Conference of Governmental Industrial Hygienists.

§ 1516.3 Records.

(a) Every contractor or subcontractor shall maintain the following records for each service contract:

(1) Records of all work injuries to service employees, including a brief description of the manner of occurrence and the date and duration of disability.

(2) Records of injury frequency rates, calculated annually on a calendar year basis commencing the first of January of each year. The injury frequency rate shall be the number of disabling injuries to all service employees per 1 million man-hours of exposure, obtained by multiplying the total number of disabling injuries by 1 million and dividing that sum by the total man-hours of exposure. A "disabling injury" is one which causes disability to any service employee extending beyond the day or shift during which the injury occurred, and "total man-hours of exposure," shall be the total man-hours actually worked by all service employees during the year.

(3) Records of injury severity rates, calculated annually on a calendar basis. The injury severity rate shall be the number of days lost or charged per million service employee hours worked, obtained by adding the standard time charges for each case of death and permanent impairment to the total number of days of incapacity resulting from all other cases of disabling injuries to service employees, multiplying that sum by one million, and dividing that product by the total number of service employee hours worked.

(b) The records required by paragraph (a) of this section shall be kept on file at least 3 years from the date of entry, and shall be available for inspection by authorized representatives of the Secretary of Labor.

2. The proposed revised 29 CFR 4.1 reads as follows:

§ 4.1 Purpose and scope.

This part and Part 1516 of this title, which provides safety and health standards, contain the Department of Labor's rules relating to the administration of the Service Contract Act of 1965.

3. The proposed revised clause 5 of 29 CFR 4.6(b) reads as follows:

§ 4.6 Labor standards clauses for Federal service contracts exceeding $2,500.

* * * * * * *

(b) * * *

(5) The contractor shall not permit any part of the services called for by this contract to be performed in buildings or surroundings or under working conditions provided by or under the control or supervision of the contractor which are unsanitary or hazardous or dangerous to the health or safety of service employees engaged to furnish these services. This will require compliance with the applicable standards, specifications, and codes developed and published by agencies of the United States and nationally recognized professional organizations including without limitation, the following:

National Bureau of Standards, U.S. Department of Commerce.
Public Health Service, U.S. Department of Health, Education and Welfare.
Bureau of Mines, U.S. Department of Interior.
United States of America Standards Institute (American Standards Association).
National Fire Protection Association.
American Society of Mechanical Engineers.
American Society for Testing and Materials.
American Conference of Governmental Industrial Hygienists.

Information as to the latest standards, specifications and codes applicable to the contract is available at the office of the Director of the Bureau of Labor Standards, U.S. Department of Labor, Railway Labor Building, 400 First Street NW., Washington, D.C. 20212, or at any of the regional offices of the Bureau of Labor Standards as follows:

1. North Atlantic Region, 841 Ninth Avenue, Room 220, New York, N.Y. 10001 (Connecticut, Maine, Massachusetts, New Hampshire, New York, Rhode Island, Vermont, New Jersey, and Puerto Rico).

2. Delaware River Area Region, 5011 U.S. Post Office and Courthouse Building, Ninth and Market Streets, Philadelphia, Pa. 19106 (Philadelphia, Pa., Delaware (maritime only)).

3. Middle Atlantic Region, 1110–B Federal Building, Charles Center, 31 Hopkins Plaza, Baltimore, Md. 21201, Baltimore, Md. 21202 (Delaware, District of Columbia, Maryland, North Carolina, Pennsylvania, Virginia, and West Virginia).

4. South Atlantic Region, 1371 Peachtree Street NE., Suite 723, Atlanta, Ga. 30309 (Alabama, Florida, Georgia, Mississippi, South Carolina, and Tennessee).

5. Great Lake Region, 848 Federal Office Building, 219 South Dearborn Street, Chicago, Ill. 60604 (Illinois, Indiana, Kentucky, Michigan, Minnesota, Ohio, and Wisconsin).

6. Mid-Western Region, 2100 Federal Office Building, 911 Walnut Street, Kansas City, Mo. 64106 (Colorado, Idaho, Iowa, Kansas, Missouri, Montana, Nebraska, North Dakota, South Dakota, Utah, and Wyoming).

7. Western Gulf Region, 611 N. Akard Street, Room 601, Dallas, Tex. 75201 (Arkansas, Louisiana, New Mexico, Oklahoma, and Texas).

8. Pacific Region, 10353 Federal Building, 450 Golden Gate Avenue, Box 36017, San Francisco, Calif. 94102 (Alaska, Arizona, California, Hawaii, Nevada, Oregon, Washington, and Guam).

* * * * *

Signed at Washington, D.C., this 14th day of July 1967.

NELSON M. BORTZ,
Director,
Bureau of Labor Standards.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 39]

[Docket No. 7843]

AIRWORTHINESS DIRECTIVES

Rolls-Royce Spey Models 506–14, 506–14B, and 510–14 Airplane Engines; Withdrawal of Notice

A proposal to amend Part 39 of the Federal Aviation Regulations to include an airworthiness directive requiring inspections of the high pressure air pipes for cracks and the cowling and engine adjacent to these pipes for signs of heat discoloration on the Rolls-Royce Spey Models 506–14, 506–14B, and 510–14 engines, was published in 32 F.R. 56.

Subsequent to the issuance of the notice, the FAA has determined that no further failures or cracks have occurred since the original incident upon which the proposed AD was based and that the condition which prompted the issuance of the proposal does not exist to the extent originally believed. Therefore, the proposed AD is not required and is being withdrawn.

Withdrawal of this notice of proposed rule making constitutes only such action, and does not preclude the FAA from issuing another notice in the future, or commit the FAA to any course of action in the future.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (25 F.R. 6489), the proposed airworthiness directive published in the FEDERAL REGISTER on January 5, 1967 (32 F.R. 56), is hereby withdrawn.

This withdrawal is made under the authority of sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423).

Issued in Washington, D.C., on July 11, 1967.

EDWARD C. HODSON,
Acting Director,
Flight Standards Service.

[F.R. Doc. 67-8411; Filed, July 19, 1967; 8:50 a.m.]

[14 CFR Parts 61, 91]

[Docket No. 8284; Notice 67-31]

INSTRUMENT FLIGHT TESTS, FLIGHT INSTRUCTION, AND SIMULATED INSTRUMENT FLIGHT

Use of Partial Dual Control Aircraft

The Federal Aviation Administration is considering amending Parts 61 and 91 of the Federal Aviation Regulations to permit the use of single yoke and other partial dual control aircraft for flight instruction and simulated instrument flight where the flight instructor or safety pilot has immediate and unobstructed access to all essential controls, including the power, pitch, roll, and heading controls.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the regulatory docket or notice number and be submitted in duplicate to: Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket GC–24, 800 Independence Avenue SW., 20590. All communications received on or before September 18, 1967, will be considered by the Administrator before taking action on the proposed rule. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

The provisions of § 91.21 provide, in part, that no person may operate a civil aircraft that is being used for flight instruction or in simulated instrument flight unless the aircraft is equipped with fully functioning dual controls. There are at present at least 8,000 airplanes active in the United States that are equipped with "throw-over" wheel, single yoke, or other partial dual control systems. Under the regulations, these aircraft may not be used for instructional purposes or simulated instrument flight.

It has been brought to the attention of the FAA that this complete prohibition against flight instruction or simulated instrument flight without functioning dual controls may be too rigid. Because numerous aircraft with partial dual control systems participate in clinics conducted by the Aircraft Owners and Pilots Association Foundation (AOPAF), and because it has been found impractical to install fully functioning dual controls in those aircraft between flight periods, the AOPAF has applied for and been granted exemptions to use aircraft with partial dual control systems for flight instruction and simulated instrument flight under stipulated conditions. The FAA is advised that at least 500 pilots have received training in these flight clinics during the past 2 years in aircraft equipped with partial dual controls with no incidents resulting during this training.

The experience from the AOPAF clinics demonstrates that, with pilot trainees who are qualified persons at the controls, flight instruction and simulated instrument flight may be safely conducted where the instructor or safety pilot does not have fully functioning controls available to him. Consequently, so long as the instructor or safety pilot has access to the controls and the pilot undergoing the training holds a pilot certificate of a higher grade than student with a category rating appropriate to the aircraft being used, fully functioning dual controls in the aircraft would not appear necessary to safely conduct flight instruction and simulated instrument flight. Therefore, it is proposed to modify the present regulation to permit the general use of aircraft with less than fully functioning dual controls for flight instruction and simulated instrument flight where the instructor or safety pilot has immediate and unobstructed access to the power, pitch, roll, and heading controls and where the pilot trainee has a pilot certificate higher than a student certificate, with a category rating in the aircraft being used.

By removing the requirement that all flight instruction and simulated instrument flight must be conducted with aircraft equipped with functioning dual controls, the provision for required aircraft for flight tests in § 61.25 should also be modified. At present § 61.25(b), which requires that the aircraft furnished for the flight test have functioning dual controls, permits the examiner to determine, after considering all of the factors, that the flight test may be conducted without them. By deleting § 61.25(d)(2), which requires, without the exception, that the aircraft furnished for a flight test for an instrument rating must have functioning dual controls, the examiner will be permitted to make the same determination for the flight test for an instrument rating. The rule for instrument flight tests will then conform to the rule for all flight tests, and the objective of the rule change will be accomplished.

In consideration of the foregoing, it is proposed to amend §§ 61.25 and 91.21 of the Federal Aviation Regulations as follows:

§ 61.25 [Amended]

1. By deleting § 61.25(d)(2).

2. By amending paragraphs (a) and (b) of § 91.21 to read as follows:

§ 91.21 Flight instruction and simulated instrument flight.

(a) Except when the person manipulating the controls holds a pilot certificate of a higher grade than student, with a category rating appropriate to the aircraft being used, and the flight instructor or safety pilot has immediate and unobstructed access to the power, pitch, roll, and heading controls, no person may operate a civil aircraft that is being used for flight instruction or simulated instrument flight unless that aircraft has fully functioning dual controls. However, this paragraph does not apply to lighter-than-air aircraft while engaging in simulated instrument flight.

(b) No person may operate a civil aircraft in simulated instrument flight unless—

(1) An appropriately rated pilot occupies the other control seat as safety pilot; and

(2) The safety pilot has adequate vision forward and to each side of the aircraft, or a competent observer in the aircraft adequately supplements the vision of the safety pilot.

* * * * *

These amendments are proposed under the authority of sections 313(a), 314, 601, and 602 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1355, 1421, and 1422).

Issued in Washington, D.C., on July 14, 1967.

EDWARD C. HODSON,
Acting Director,
Flight Standards Service.

[F.R. Doc. 67-8277; Filed, July 19, 1967; 8:48 a.m.]

[Airspace Docket No. 67-EA-47]

CONTROL ZONE

Proposed Alteration

The Federal Aviation Administration is considering amending § 71.171 of Part 71 of the Federal Aviation Regulations so as to alter the New Bedford, Mass., control zone.

The tower at New Bedford, Mass., is presently operated on a part time basis during a specified period of time. These hours, however, are predicated upon traffic which is characterised by seasonal variation. It is therefore, intended to amend the description of the control zone so as to promulgate changes for specific periods of duration in the Notices to Airmen.

Interested parties may submit such written data or views as they may desire. Communications should be submitted in triplicate to the Director, Eastern Region, Attention: Chief, Air Traffic Division, Department of Transportation, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, N.Y. 11430. All communications received within 30 days after publication in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements may be made for informal conferences with Federal Aviation Administration officials by contacting the Chief, Airspace and Standards Branch, Eastern Region.

Any data or views presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Office of Regional Counsel, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, N.Y.

The Federal Aviation Administration, having completed a review of the airspace requirements for the terminal area of New Bedford, Mass., proposes the airspace action hereinafter set forth:

1. Amend § 71.171 of Part 71 of the Federal Aviation Regulations so as to alter the description of the New Bedford, Mass., control zone by deleting the period after the word "daily" and adding "or during the specific dates and times established in advance by a Notice to Airmen."

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348).

Issued in Jamaica, N.Y., on July 3, 1967.

WAYNE HENDERSHOT,
Acting Director, Eastern Region.

[F.R. Doc. 67-8459; Filed, July 19, 1967; 8:50 a.m.]

[Airspace Docket No. 67-EA-48]

CONTROL ZONE

Proposed Alteration

The Federal Aviation Administration is considering amending § 71.171 of Part 71 of the Federal Aviation Regulations so as to alter the Hyannis, Massachusetts Control Zone.

The tower at Hyannis, Mass., is presently operated on a part-time basis during a specified period of time. These hours, however, are predicated upon traffic which is characterized by seasonal variation. It is therefore, intended to amend the description of the control zone so as to promulgate changes for specific periods of duration in the Notices to Airmen.

Interested parties may submit such written data or views as they may desire. Communications should be submitted in triplicate to the Director, Eastern Region, Attn: Chief, Air Traffic Division, Department of Transportation, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, N.Y. 11430. All communications received within 30 days after publication in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements may be made for informal conferences with Federal Aviation Administration officials by contacting the Chief, Airspace and Standards Branch, Eastern Region.

Any data or views presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Office of Regional Counsel, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, N.Y.

The Federal Aviation Administration, having completed a review of the airspace requirements for the terminal area of Hyannis, Mass., proposes the airspace action hereinafter set forth:

1. Amend § 71.171 of Part 71 of the Federal Aviation Regulations so as to alter the description of the Hyannis, Mass., Control Zone by deleting the period after the word "daily" and adding "or during the specific dates and times established in advance by a Notice to Airmen."

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348).

Issued in Jamaica, N.Y., on June 30, 1967.

WAYNE HENDERSHOT,
Acting Director, Eastern Region.

[F.R. Doc. 67-8412; Filed, July 19, 1967; 8:50 a.m.]

[14 CFR Part 71]

[Airspace Docket 67-EA-51]

CONTROL ZONE AND TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amending §§ 71.171 and 71.181 of Part 71 of the Federal Aviation Regulations so as to alter the Buffalo, N.Y., control zone and transition area of the presently designated terminal airspace for Buffalo, N.Y.

A review disclosed that the Greater Buffalo International Airport control zone extension can be reduced considerably due to pending arrival procedural changes. The basic radius of the 700-foot floor transition areas for each airport will require an increase of 1 mile. However, the 700-foot transition area extensions for Greater Buffalo International and Niagara Falls Municipal Airports will be reduced to some extent.

Interested parties may submit such written data or views as they may desire. Communications should be submitted in triplicate to the Director, Eastern Region, Attn: Chief, Air Traffic Division, Department of Transportation, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, N.Y. 11430. All communications received within 30 days after publication in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements may be made for informal conferences with Federal Aviation Administration officials by contacting the Chief, Airspace and Standards Branch, Eastern Region.

Any data or views presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Office of Regional Counsel, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, N.Y.

The Federal Aviation Administration, having completed a review of the airspace requirements for the terminal area of Buffalo, N.Y., proposes the airspace action hereinafter set forth:

1. Amend § 71.171 of Part 71 of the Federal Aviation Regulations so as to alter the Buffalo, N.Y. control zone by deleting the description therein and inserting in lieu thereof the following:

BUFFALO, N.Y.

Within a 5-mile radius of the center, 42°56'20" N., 78°43'50" W., of Greater Buffalo International Airport, Buffalo, N.Y.; within 2 miles each side of the Greater Buffalo International Airport northeast localizer course extending from the 5-mile radius zone to the OM; within 2 miles each side of the Greater Buffalo International Airport southwest localizer course extending from the 5-mile radius zone to the OM; and within 2 miles each side of the Buffalo VORTAC 096° radial extending from the 5-mile radius zone to 8 miles east of the VORTAC excluding the portion within a 1-mile radius of Buffalo Airpark, 42°51'45" N., 78°43'00" W.

2. Amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to delete the description of the 700 foot floor Buffalo, N.Y., transition area and insert in lieu thereof the following:

BUFFALO, N.Y.

That airspace extending upward from 700 feet above the surface within an 8-mile radius of the center, 42°56'20" N., 78°43'50" W., of Greater Buffalo International Airport; within 2 miles each side of the Buffalo VORTAC 096° radial extending from the 8-mile radius area to 8 miles east of the VORTAC; within 8 miles northwest and 5 miles southeast of the Greater Buffalo International Airport northeast localizer course extending from the OM to 12 miles northeast of the OM; within 2 miles each side of the Greater Buffalo International Airport southwest localizer course extending from the 8-mile radius area to 8 miles southwest of the OM; within the arc of a 12-mile radius circle from 063° to 113° clockwise, centered on a point, 42°56'20" N., 78°44'11" W.; within an 8-mile radius of the center, 43°06'20" N., 78°56'56" W., of Niagara Falls Municipal Airport; within 8 miles north and 5 miles south of the Niagara Falls Municipal Airport localizer east course extending from the OM to 12 miles east of the OM; within 2 miles each side of the Niagara Falls Municipal Airport localizer east course extending from the OM to the intersection of the localizer course and the Buffalo, N.Y., VORTAC 094° radial; and within a 5-mile radius of Buffalo Airpark Airport, 42°51'45" N., 78°43'00" W.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348).

Issued in Jamaica, N.Y., on June 30, 1967.

WAYNE HENDERSHOT,
Acting Director, Eastern Region.

[F.R. Doc. 67-8413; Filed, July 19, 1967; 8:50 a.m.]

[14 CFR Part 71]

[Airspace Docket No. 67-EA-55]

CONTROL ZONE AND TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amending §§ 71.171 and 71.181 of Part 71 of the Federal Aviation Regulations so as to alter the Martinsburg, Pa., control zone and transition area.

A revision of the VOR-1 instrument approach procedure and a review of the terminal airspace requirements require an alteration of the control zone and transition area.

Interested parties may submit such written data or views as they may desire. Communications should be submitted in triplicate to the Director, Eastern Region, Attention: Chief, Air Traffic Division, Department of Transportation, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, N.Y. 11430. All communications received within 30 days after publication in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements may be made for informal conferences with Federal Aviation Administration officials by contacting the Chief, Airspace and Standards Branch, Eastern Region.

Any data or views presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Office of Regional Counsel, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, N.Y.

The Federal Aviation Administration, having completed a review of the airspace requirements for the terminal area of Martinsburg, Pa., proposes the airspace action hereinafter set forth:

1. Amend § 71.171 of Part 71 of the Federal Aviation Regulations so as to alter the Martinsburg, Pa., control zone by deleting in the description the coordinates, "40°17'50" N., 78°19'10" W." and substitute in lieu thereof the following, "40°17'45" N., 78°19'10" W."; following the phrase, "Blair County Airport, Martinsburg, Pa." add, "within 2 miles each side of the centerline of runway 2 extended from the 5-mile radius zone to 6.5 miles north of the end of the runway; and within 2 miles each side of the centerline of runway 20 extended from the 5-mile radius zone to 9 miles south of the end of the runway."

2. Amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to alter the Martinsburg, Pa., transition area by deleting in the description the coordinates, "40°17'50" N., 78°19'10" W." and substitute in lieu thereof, "40°17'45" N., 78°19'10" W."; following the phrase, "Blair County Airport, Martinsburg, Pa." add, "within 2 miles each side of the centerline of runway 20 extended from the 7-mile radius area to 9 miles south of the end of the runway; and within 8 miles west and 5 miles east of the Altoona VOR 028° radial extending from the VOR to 12 miles north of the VOR."

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348).

Issued in Jamaica, N.Y., on July 3, 1967.

WAYNE HENDERSHOT,
Acting Director, Eastern Region.

[F.R. Doc. 67-8414; Filed, July 19, 1967; 8:50 a.m.]

[Airspace Docket No. 67-EA-56]

CONTROL ZONE AND TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amending §§ 71.171 and 71.181 of Part 71 of the Federal Aviation Regulations so as to alter the Cleveland, Ohio (Burke-Lakefront Airport), control zone and Cleveland, Ohio, transition area.

New NDB (ADF) and LOC Rwy 24L and R instrument approach procedures have been authorized for Burke-Lakefront Airport, Cleveland, Ohio, which require alteration of the control zone and transition area.

Interested parties may submit such written data or views as they may desire. Communications should be submitted in triplicate to the Director, Eastern Region, Attn: Chief, Air Traffic Division, Department of Transportation, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, N.Y. 11430. All communications received within 30 days after publication in the FEDERAL REGISTER will be considered at this time, but arrangements may be made for informal conferences with Federal Aviation Administration officials by contacting the Chief, Airspace and Standards Branch, Eastern Region.

Any data or views presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Office of Regional Counsel, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, N.Y.

The Federal Aviation Administration, having completed a review of the airspace requirements for the terminal area of Cleveland, Ohio, proposes the airspace action hereinafter set forth:

1. Amend § 71.171 of Part 71 of the Federal Aviation Regulations so as to alter the Cleveland, Ohio (Burke-Lakefront Airport), control zone by deleting the description and inserting in lieu thereof the following:

CLEVELAND, OHIO (BURKE-LAKEFRONT AIRPORT)

Within a 4-mile radius of the center, 41°31'00" N., 81°41'00" W., of Burke-Lakefront Airport, Cleveland, Ohio, and within 2 miles each side of the Burke-Lakefront ILS localizer NE course extending from the 4-mile radius zone to the OM. This control zone shall be effective from 0700 to 2300 hours, local time, daily.

2. Amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to alter the Cleveland, Ohio, transition area by deleting in the description of the 700-foot floor transition area "within a 3-mile radius of the Burke-Lakefront Airport, 41°31'00" N., 81°41'00" W.; within 2 miles each side of the Cleveland-Hopkins Runway 23-L-ILS localizer NE course, extending from the 8-mile radius area to the Burke-Lakefront 3-mile radius area" and, "extending from the Burke-Lakefront 3-mile radius area" and substitute in lieu thereof; "within a 6-mile radius of the center, 41°31'00" N., 81°41'00" W., of Burke-Lakefront Airport, Cleveland, Ohio; within 2 miles each side of the Burke-Lakefront localizer NE course extending from the 6-mile radius area to the OM; within 8 miles NW and 5 miles SE of the Burke-Lakefront localizer NE course extending from the OM to 12 miles NE of the OM" and, "extending from the Burke-Lakefront 6-mile radius area", respectively. In the description of the 1200-foot floor transition area, following the phrase, "42°00'00" N., 81°18'00" W., to point of beginning" add, "excluding the portion within the Willoughby, Ohio, transition area."

This amendement is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348).

Issued in Jamaica, N.Y., on July 3, 1967.

WAYNE HENDERSHOT,
Acting Director, Eastern Region.

[F.R. Doc. 67-8415; Filed, July 19, 1967; 8:50 a.m.]

[14 CFR Part 71]

[Airspace Docket No. 67-SW-30]

FEDERAL AIRWAYS

Proposed Alteration and Extension

The Federal Aviation Administration is considering amendments to Part 71 of the Federal Aviation Regulations that would alter and extend certain VOR Federal airways in the vicinity of Beaumont, Tex.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Southwest Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, Post Office Box 1689, Fort Worth, Tex. 76101. All communications received within 45 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendments. The proposals contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue SW., Washington, D.C. 20590. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

The Federal Aviation Administration proposes the following airspace actions associated with the relocation of the Beaumont VOR to a site located at latitude 29°56'46" N., longitude 94°00'58" W.

1. Realign VOR Federal airway No. 20 segment from Houston, Tex., with a 12 AGL floor direct Beaumont, Tex., direct Lake Charles, La., with a 12 AGL north alternate from Houston to Beaumont via the intersection of Houston 045° T (037° M) and Beaumont 272° T (265° M) radials, and including a 12 AGL north alternate segment from Beaumont to Lake Charles via the intersection of Beaumont 056° T (049° M) and Lake Charles 272° T (265° M), and also a 12 AGL south alternate segment from Houston to Lake Charles via intersection of Houston 090° T (082° M) and Sabine Pass, Tex., 265° T (258° M) radials and Sabine Pass.

2. Realign VOR Federal airway No. 289 segment from Beaumont with a 12 AGL floor to Lufkin, Tex., via the intersection Beaumont 323° T (316° M) and Lufkin 161° T (153° M) radials, including a 12 AGL standard east alternate.

3. Extend VOR Federal airway No. 306 from Daisetta, Tex., with a 12 AGL floor direct to Lake Charles, including a 12 AGL south alternate segment from Daisetta via Beaumont to Lake Charles.

4. Realign VOR Federal airway No. 222 segment from Industry, Tex., with a 12 AGL floor via the intersection of Industry 087° T (079° M) and Beaumont 272° T (265° M) radials; Beaumont; to Lake Charles, including a 12 AGL north alternate segment from the intersection of the Industry 087° T (079° M) and Beaumont 272° T (265° M) radials via Daisetta to Lake Charles.

These airway realignments and extensions associated with the relocation of the Beaumont VOR will facilitate the movement of IFR air traffic within the Beaumont terminal area.

These amendments are proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348).

Issued in Washington, D.C., on July 12, 1967.

J. F. BIRON,
Acting Chief, Airspace and Air Traffic Rules Division.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Parts 0, 1, 83, 85]

[Docket No. 16297; FCC 67-820]

INTERIM SHIP STATION LICENSING IN MARITIME MOBILE SERVICE

Elimination

In the matter of amendment of Parts 0, 1, 83, and 85 of the Commission's rules to eliminate interim ship station licensing in the maritime mobile service, Docket No. 16297.

1. Further notice of proposed rule making is hereby given in the above-entitled matter.

2. A notice of proposed rule making in the above-captioned matter was released November 18, 1965, and was published in the FEDERAL REGISTER on November 23, 1965 (30 F.R. 14564). The dates for filing comments and replies thereto have passed.

3. Timely comments were filed by Gulf Radiotelephone, Inc.; Texas Shrimp Association; Dubose Marine Radio, Inc.; Cape Cod Marine Service, Inc.; Marine Electric Co.; Raytheon Co.; Equitable Equipment Co., Inc.; Konigsberg Electronics, Inc.; Jackson Electronics Corp.; Marine Radio and Radar Co.; Eminger's Marine Radio; Jones Electronics; Northwest Instrument Co.; Heath Co.; Marine Electronics Dealers Association of Florida; Southland Marine Communications, Inc.; Marine Radio Service; Purse Seine Vessel Owners Association; Electronic Services, Inc.; National Marine Electronics Association; Maritime Radio Service; Central Committee on Communication Facilities of the American Petroleum Institute; Marine Trades Association, Inc.; Marine Electronics Service; Geils and Foerst Marine Electric Co., Inc.; General Communication Laboratory; Kaar Electronics Corp.; North Pacific Marine Radio Council, Inc.; U.S. Coast Guard Auxiliary; Seattle Yacht Club; and, Charles W. Rogers & Son, Inc. No reply comments were filed. After close of the reply comment period, comments were received from Gene Sykes & Co.; Matrix Industries; Frank L. Beier Radio, Inc.; Southern California Marine Radio Council; Rich Electronics, Inc.;

Dodge Electronics; and, Raytheon Co., California Division. Although these comments were filed late, they are considered relevant to the proceeding and have been taken into account.

4. All parties to the proceeding have opposed the rule making. These objections may be categorized as follows:

(a) Commercial vessel operators believe the interim procedure is necessary to avoid delaying the vessel when immediate operating authority is needed to reflect equipment changes in a licensed station; and

(b) Pleasure boat owners have indicated that the interim procedure has fostered the use of marine radio and accordingly, its elimination would seriously affect safety of life and property because many boat owners would not equip with radio if not for such a service. They base their allegations on convenience of service; and

(c) Electronic servicemen have indicated that interim licensing has satisfied their needs for obtaining immediate operating authority for testing and installing shipboard equipment and its elimination would adversely affect their business; and

(d) Electronic equipment and small boat dealers likewise believe elimination of interim licensing would have an adverse affect on their business. They allege that in many instances immediate operating authority as provided under the interim procedure is a factor that may determine the sale of the equipment and/or boat to customers who wish to engage in boating immediately.

5. The Commission initiated the interim licensing procedure in the maritime services because of the application backlog. Automation has reduced this backlog and to some extent, certainly, the requirement for interim licensing. However, based on the comments received in this proceeding, it is evident that interim ship station licensing is widely utilized by the boating public and affects various segments of the maritime community.

6. Interim licensing must be considered as an extra service being provided applicants. This additional service results in a duplication of processing for it requires first special processing of the interim request and then later processing of the application for a regular full-term authorization. Approximately 45 percent of the total number of ship station applications are being processed for both an interim license and a full-term authorization. For fiscal year 1965, the Commission received approximately 40,000 applications for ship station licenses. Out of this total, there were approximately 18,000 interim licenses issued. The Commission is of the opinion that the additional cost for providing this interim license should be borne for the most part by the users. At present a fee of $10 is charged for an application for a ship station license. This is the fee whether interim authority is sought in addition to the application for a full-term authorization or not.

7. In view of the foregoing, it is proposed that § 1.1115 be amended to specify a fee of $13 for a ship station application where interim authority is also sought. The regular application for a ship station, i.e., one not requesting interim authority, would remain at the present $10 fee.

8. The proposed amendment to the rules, and other actions taken herein are pursuant to the authority contained in sections 4(i) and 303(r) of the Communications Act of 1934, as amended, Title V of the Independent Offices Appropriation Act of 1952, 65 Stat. 290, and Bureau of the Budget's Circular A–25 of September 23, 1959.

9. Pursuant to applicable procedures set forth in § 1.415 of the Commission's rules, interested persons may file comments on or before August 21, 1967, and reply comments on or before September 5, 1967. All relevant and timely comments and reply comments will be considered by the Commission before final action is taken in this proceeding. In reaching its decision in this proceeding, the Commission may also take into account other relevant information before it, in addition to the specific comments invited by this Notice.

10. In accordance with the provisions of § 1.419 of the Commission's rules, an original and 14 copies of all statements, briefs or comments filed shall be furnished the Commission.

Adopted: July 12, 1967.

Released: July 14, 1967.

[47 CFR Part 73]

[Docket No. 17496]

TABLE OF ASSIGNMENTS

Television Broadcast Stations, Baytown, Tex.; Order Extending Time To File Contents and Reply Comments

In the matter of amendment of § 73.606, Table of assignments, Television Broadcast Stations, (Baytown, Tex.), Docket No. 17496.

1. On June 9, 1967, the Commission issued a notice of proposed rule making (FCC 67-667) inviting comments on a proposal to assign TV Channel 50 to Baytown, Tex. The time for filing comments was specified as July 17, 1967 and for replies as July 27, 1967. On July 3, 1967, George Chandler, H. W. Kilpatrick, III, W. T. Jones, Jr., Richard Park, and Mrs. Hellen Nelson filed a petition for an extension of time for filing comments until September 5, 1967 and for replies until September 15, 1967.

2. Petitioners state that the requested extension is necessary in order to fully reply to the complex economic and engineering questions raised by the Commission in the Notice and that it will enable parties to submit full information which will aid the Commission in passing on the novel questions raised.

3. We are of the view that an extension in this proceeding is warranted and would serve the public interest. However, we believe that an extension of approximately one month should be sufficient time in which petitioners can obtain the needed information. *Accordingly, it is ordered*, That the time for filing comments and replies in this proceeding are extended to August 14, 1967 and August 24, 1967, respectively.

4. This action is taken pursuant to authority found in sections 4(i), 5(d)(1), and 303(r) of the Communications Act of 1934, as amended, and § 0.281(d)(8) of the Commission's rules and regulations.

Adopted: July 7, 1967.

Released: July 12, 1967.

FEDERAL COMMUNICATIONS COMMISSION,

[47 CFR Part 74]

[Docket No. 17897; FCC 67-835]

COMMUNITY ANTENNA TELEVISION SYSTEMS

Carriage of Educational Television Signals

In the matter of amendment of § 74.1107 of the Commission's rules and regulations regarding carriage of educational television signals on community antenna television systems, Docket No. 17597.

1. Notice of proposed rule making is hereby given in the above-entitled matter.

2. When the Commission adopted the Second Report and Order, it indicated that it might modify certain of its policies as it gained further experience. We believe that sufficient experience has accumulated to indicate that in most top 100 cases no significant objection is voiced to the carriage of distant educational television signals. Consequently, it is appropriate to consider amendment of the rules to exclude distant educational television signals from the hearing requirement of §74.1107 of the rules. This change, if adopted, would still permit the Commission to consider any case where objections are raised by local educational authorities pursuant to § 74.1109 of the rules. And we believe that the interests of all parties would be best served by elimination of what is frequently an extraneous factor in top 100 questions. Accordingly, the views of interested parties are solicited regarding this proposed rule change, the text of which is contained in the attached appendix.

3. Pursuant to applicable procedures set out in § 1.415 of the Commission's rules and regulations, interested parties may file comments on or before August 21, 1967, and reply comments on or before September 5, 1967. All relevant and timely comments and reply comments will be considered by the Commission before final action is taken in this proceeding. In reaching its decision in this proceeding, the Commission may also take into account other relevant information before it, in addition to the specific comments invited by this Notice.

4. Authority for the amendments proposed herein is contained in sections 4(i) and 303(r) of the Communications Act of 1934, as amended.

5. In accordance with the provisions of § 1.419 of the rules, an original and 14 copies of all comments, replies, pleadings, briefs, and other documents shall be furnished the Commission.

Adopted: July 12, 1967.

Released: July 14, 1967.

FEDERAL COMMUNICATIONS COMMISSION,[1]

[SEAL] BEN F. WAPLE, *Secretary.*

In § 74.1107, paragraph (a) is revised to read as follows:

§ 74.1107 Requirement for showing in evidentiary hearing and Commission approval in top 100 television markets; other procedures.

(a) No CATV system operating in a community within the predicted Grade A contour of a television broadcast station in the 100 largest television markets shall extend the signal of a television broadcast station beyond the Grade B contour of that station, except upon a showing approved by the Commission that such extension would be consistent with the public interest, and specifically the establishment and healthy maintenance of television broadcast service in the area. Commission approval of a request to extend a signal in the foregoing circumstances will be granted where the Commission, after consideration of the request and all related materials in a full evidentiary hearing, determines that the requisite showing has been made. The market size shall be determined by the rating of the American Research Bureau, on the basis of the net weekly circulation for the most recent year. The requirements of this paragraph do not apply to the signal of an educational television broadcast station.

[47 CFR Part 87]

[Docket No. 17566; FCC 67-818]

AVIATION SERVICES

Operator Requirements

In the matter of amendment of Part 87—Aviation Services to include operator requirements for these services, Docket No. 17566.

1. Notice is hereby given of proposed rule making in the above-entitled matter.

2. The authority granted under the various grades of commercial operator licenses is now set forth in Part 13 of the Commission's rules. Some operator requirements are also set forth in Part 87. Part 13, however, is relied upon to determine most of the operator requirements. Because these requirements have come to differ from service to service, it is believed desirable to place the operator requirements in the service parts. In addition, this will allow a licensee to refer, for the most part, to only one part of the rules to obtain complete information concerning his station and its operation.

3. The proposed amendments, as set forth below, are issued pursuant to the authority contained in sections 303 (l) and (r) and 318 of the Communications Act of 1934, as amended.

4. Pursuant to the applicable procedures set forth in § 1.415 of the Commission's rules, interested persons may file comments on or before August 21, 1967, and reply comments on or before September 5, 1967. All relevant and timely filed comments and reply comments will be considered by the Commission before final action is taken in this proceeding. In reaching its decision in this proceeding, the Commission may also take into consideration other relevant information before it, in addition to the specific comments invited by this notice.

5. In accordance with the provisions set forth in § 1.419 of the Commission's rules, an original and 14 copies of all statements, briefs or comments shall be furnished the Commission.

Adopted: July 12, 1967.

Released: July 14, 1967.

FEDERAL COMMUNICATIONS COMMISSION,[1]

[SEAL] BEN F. WAPLE, *Secretary.*

1. The table of contents in Part 87 is amended by addition of the following entries in proper numerical sequence and the deletion of §§ 87.187, 87.389 and 87.517 as follows:

Sec.
87.133 General operator requirements.
87.135 Transmitter adjustments and tests by operator.
87.136 Operation of transmitter controls.
87.137 Radio stations using radiotelegraphy.
87.139 Operator licenses not required for certain operations.

2. Section 87.133 is added to read as follows:

§ 87.133 General operator requirements.

Except as provided for in §§ 87.135, 87.136, 87.137 and 87.139 or as limited on the face of the operator license or permit, all stations in the Aviation Services shall be operated by persons holding any class of commercial radio operator license or permit issued by the Commission: *Provided*, That, for aircraft radiotelephone stations operating on frequencies other than those allocated exclusively to the aeronautical mobile service, such station in the Aviation Services may be operated only by a person holding, as a minimum, a third-class operator's permit, either radiotelephone or radiotelegraph. The licensed operator of a land station using telephony may permit other persons to transmit or to communicate over the facilities of the station in accordance with the terms of the station license under his direct supervision and responsibility.

3. Section 87.135 is added to read as follows:

§ 87.135 Transmitter adjustments and tests by operator.

All transmitter adjustments or tests during or coincident with the installation, servicing, or maintenance of a radio station, which may affect the proper operation of such station, shall be made by or under the immediate supervision and responsibility of a person holding a radiotelephone or radiotelegraph first or second-class operator license who shall be responsible for the proper functioning of the station equipment: *Provided, however*, That only a person holding a radiotelegraph first or second-class operator license shall perform such functions at radiotelegraph stations transmitting by any type of the Morse Code.

4. Section 87.136 is added to read as follows:

§ 87.136 Operation of transmitter controls.

(a) Operation of a station by the holder of a radiotelephone or radiotelegraph third-class operator permit or a restricted radiotelephone operator permit shall be subject to the condition that the operation of the transmitter shall require only the use of simple external switching devices, excluding all manual adjustment of frequency determining elements, and the stability of the frequencies shall be maintained by the transmitter itself within the limits of tolerance specified by § 87.65 or the station license. In addition, when using an aircraft radio station on maritime mobile service frequencies the carrier power of the transmitter shall not exceed 250 watts (emission A3) or 1,000 watts (emission A3A, A3H, A3J).

(b) When a station is used for telegraphy, transmitted manually by any type of the Morse Code, the transmitting telegraph key shall be manipulated only by a person who holds a radiotelegraph operator license or permit of the proper class as specified in § 87.137.

5. Section 87.137 is added to read as follows:

§ 87.137 Radio stations using radiotelegraphy.

(a) Except as provided in § 87.135 and paragraph (b) of this section an aircraft radio station when transmitting radiotelegraphy by any type of the Morse Code shall be operated by a person holding a radiotelegraph first or second-class op-

[1] Commissioners Bartley, Cox, and Loevinger absent.

erator license bearing an aircraft radiotelegraph endorsement.

(b) When the aircraft is not in flight said endorsement is not required.

(c) Except as provided in § 87.135 and § 87.139 a station other than an aircraft station, when transmitting by any type of the Morse Code, shall be operated by a person holding any class of radiotelegraph license or permit.

6. Section 87.139 is added to read as follows:

§ 87.139 Operator licenses not required for certain operations.

(a) Operator licenses are not required for the following:

(1) Flight personnel when concerned with the operation of airborne radar sets, radio altimeters, transponders and other airborne automatic radio-navigation aids.

(2) Operation of a survival craft station while it is being used solely for survival purposes.

(3) Operation of any radio station authorized under this part which retransmits by automatic means communications received by radio.

NOTE: Whenever the term "license" is used generally to denote an operator authorization it includes "permit".

7. The following sections are deleted in their entirety from Part 87.

§§ 87.187, 87.259, 87.517 [Deleted]

Section 87.187 *Operator requirements*, is deleted.

Section 87.259 *Operator requirements*, is deleted.

Section 87.517 *Operator requirements*, is deleted.

INTERSTATE COMMERCE COMMISSION

[49 CFR Part 423]

[No. 32451]

UNIFORM SYSTEM OF ACCOUNTS FOR MARITIME CARRIERS

Notice of Proposed Rule Making

JULY 11, 1967.

Notice is hereby given pursuant to the provisions of section 4(a) of the Administrative Procedure Act that the Commission has under consideration proposed amendments of the Uniform System of Accounts for Maritime Carriers, to be effective as of January 1, 1967, with regard to the accounting treatment of extraordinary and prior period items in the determination of net income.

The proposed regulations would (a) generally require that items affecting net income be recorded in appropriate profit and loss accounts, rather than by direct entry to earned surplus account, and (b) explain, define and provide accounts and categories for ordinary income, extraordinary items, prior period items and applicable income taxes.

The revised rules herein proposed will have several notable advantages over current regulations which conditionally permit direct entry to earned surplus. Moreover, in asserting more objective criteria with respect to determination of materiality than presently exist, the proposed changes are intended to minimize the need to interpret existing regulations.

The detailed statement of proposed rule set forth below completely states the proposed revisions to the applicable parts of the Uniform System of Accounts for Maritime Carriers, considered necessary to accomplish the stated objectives.

All carriers affected by the proposed rules and other interested parties who desire to do so should submit written views and comments for consideration, as soon as possible, and not later than September 2, 1967. The Commission will consider all such responses and representations before deciding this matter, after which such order as may be found appropriate will be entered. An original and three copies of any such response should be submitted.

Notice shall be given Maritime Carriers hereby affected and to the general public by depositing this Notice in the office of the Secretary of the Commission at Washington, D.C., and by filing this notice with the Director, Office of the Federal Register.

(Sec. 12, 24 Stat. 383 as amended, 54 Stat. 933; 49 U.S.C. 12, 904. Sec. 20, 24 Stat. 386, as amended, 54 Stat. 944, as amended; 49 U.S.C. 20, 913)

By the Commission, Division 2.

[SEAL] H. NEIL GARSON, *Secretary.*

DETAILED STATEMENT OF PROPOSED RULE

I. INSTRUCTION ADDED

After §423.0–10, the following section is added:

§ 423.0–11 Extraordinary and prior period items.

(a) All items of profit and loss recognized during the year are includable in ordinary income except nonrecurring items which in the aggregate for the same class are both material in relation to operating revenues and ordinary income for the year and are clearly not identified with or do not result from the usual business operations of the year. Important items of the kind which occur from time to time and which, when material in amount, are to be excluded from ordinary income are those resulting from unusual sales of property and investment securities other than temporary cash investments; from wars and similar calamities and catastrophes, which are not a recurrent hazard of the business and which are not usually covered by insurance; from change in application of accounting principles; and from prior period items (other than ordinary adjustments of a recurring nature). Material items are those which, unless excluded from ordinary income, would distort the accounts and impair the significance of ordinary income for the year. Items so excludible from ordinary income are to be entered directly in the income accounts provided for extraordinary and prior period items upon approval or direction of the Commission.

Adjustments constituting items of customary business activities or corrections or refinements resulting from the natural use of estimates inherent in the accounting process, including those arising from disposal of a unit of property sold or retired in the regular course of business operations, shall not be considered extraordinary or prior period items regardless of size.

(b) In determining materiality, items of a similar nature shall be considered in the aggregate; dissimilar items should be considered individually. As a general standard, an item to qualify for inclusion as an extraordinary or prior period item, shall exceed one percent of total water line operating revenues and ten percent of ordinary income for the year.

(c) Ordinary delayed items and adjustments arising during the current year which are applicable to or related to transactions of prior years shall be included in the same accounts which would have been charged or credited if the item had been taken up or adjusted in the period to which it pertained. Ordinary delayed items excludes items of the character described in paragraph (a).

II. TEXTS OF BALANCE SHEET ACCOUNTS DELETED AND AMENDED

Item No. 1. Section 423.329 *Reserve for revaluation of investments.* The text of this account, a subdivision of account 315, Investments, is amended by revising paragraph (a) as follows:

§ 423.329 Reserve for revaluation of investments.

(a) This account shall be credited at the close of each accounting period with amounts necessary to reflect the decline in value of securities and other assets held as investments, where there appears to be a permanent impairment in their value, by contra charge to account 979, "Miscellaneous deductions from income," or account 990, "Extraordinary items," as appropriate.

* * * * *

Item No. 2. Section 423.330 *Property and equipment.* The text of this account is amended by revising paragraph (a) as follows:

§ 423.330 Property and equipment.

(a) This account shall include the cost of acquisition or construction, including additions and betterments, of property and equipment owned by the carrier.

* * * * *

Item No. 3. Section 423.332 *Reserve for amortization and depreciation; vessels.* The title and paragraph (a) of this account, a subdivision of account 330, Property and equipment, are revised as follows:

§ 423.332 Reserve for depreciation; vessels.

(a) This account shall be credited with all depreciation on vessels charged to account 981, "Depreciation—Floating equipment—Vessels."

* * * * *

Item No. 4. Section 423.338 *Reserve for amortization and depreciation; other floating equipment.* The title and paragraph (a) of this account, a subdivision of account 330, Property and equipment, are revised as follows:

§ 423.338 Reserve for depreciation; other floating equipment.

(a) This account shall be credited with all depreciation charged to account 984, "Depreciation—Other floating equipment".

* * * * *

Item No. 5. Section 423.343 *Terminal property and equipment;* § 423.349 *Other shipping property and equipment.* Paragraphs (a) and (b) of the text of each of these accounts, subdivisions of account 330, Property and equipment, are revised by deleting the following:

(a) * * *, and any appreciated book value * * *.

(b) * * *, and any appreciation of book value.

Item No. 6. Section 423.344 *Reserve for amortization and depreciation; terminal property and equipment.* The title and paragraph (a) of this account, a subdivision of account 330, Property and equipment, are revised as follows:

§ 423.344 Reserve for depreciation; terminal property and equipment.

(a) This account shall be credited with all depreciation on terminal property and equipment which is charged to account 987, "Depreciation—Terminal property and equipment".

* * * * *

Item No. 7. Section 423.350 *Reserve for amortization and depreciation; other shipping property and equipment.* The title of this account, a subdivision of account 330, Property and equipment, is revised as follows:

§ 423.350 Reserve for depreciation; other shipping property and equipment.

* * * * *

Item No. 8. Section 423.354 *Reserve for amortization and depreciation; nonshipping property and equipment.* The title and paragraph (a) of this account, a subdivision of account 330, Property and equipment, are revised as follows:

§ 423.354 Reserve for depreciation; nonshipping property and equipment.

(a) This account shall be credited with all depreciation on non-shipping property and equipment which is charged to account 986, "Depreciation—non-shipping property and equipment".

* * * * *

Item No. 9. Section 423.384 *Debt discount and expense.* Paragraph (b) of the text of this account, a subdivision of account 375, Deferred charges and prepaid expenses, is revised as follows:

§ 423.384 Debt discount and expense.

* * * * *

(b) When an issue of funded debt, or any part thereof, is refunded and at the date of refunding there is a balance of unamortized discount and expense relating to such issue, such balance, together with any premium paid in retiring such issue, shall be charged to account 979, "Miscellaneous deductions from income," or to account 990, "Extraordinary items," as may be appropriate, in accordance with the text of these accounts.

Item No. 10. Section 423.556 *Premium on funded debt.* Paragraph (b) of the text of this account, a subdivision of account 555, Deferred credits, is revised as follows:

§ 423.556 Premium on funded debt.

* * * * *

(b) When an issue of funded debt or any part thereof is refunded and at the date of refunding there is a balance of unamortized premium relating thereto, the amount of such balance shall be credited to account 690, "Miscellaneous other income," or to account 990, "Extraordinary items," as may be apropriate, in accordance with the text of these accounts.

Item No. 11. Section 423.570 *Reserve for issuance.* The text of this account, a subdivision of account 565, Operating reserves, is amended by revising the last sentence of paragraph (b) as follows:

§ 423.570 Reserve for insurance.

* * * * *

(b) * * * At the end of each accounting year, any balance in this account applicable to voyages terminated during the preceding accounting year, in those instances where the records indicate that all claims have been settled, should be transferred to the appropriate insurance expense account, consistent with § 423.0–11(c).

* * * * *

Item No. 12. Section 423.595 *Appreciation surplus.* The number, title and text of this account are deleted.

Item No. 13. Section 423.599 *Earned surplus; unappropriated.* The text of this account is amended by revising paragraph (a) as follows and adding new paragraphs (c) and (d) after paragraph (b):

§ 423.599 Earned surplus; unappropriated.

(a) All profits and losses shown in account 095, "Profit and loss account", at the end of the accounting year shall be recorded in this account.

* * * * *

(c) This account shall include losses on resale of reacquired capital stock and charges which reduce or write off discount on capital stock issued by the company but only to the extent that such charges exceed credit balances in capital surplus for shares reacquired.

(d) This account shall include other adjustments, net of assigned Federal income taxes, not provided for elsewhere in this system but only after such inclusion has been authorized by the Commission.

III. TEXTS OF INCOME ACCOUNTS DELETED AND AMENDED

Item No. 1. The system of accounts, following the text of account 599, "Earned surplus; unappropriated", is amended by adding the following caption directly below Income Accounts:

ORDINARY ITEMS

Item No. 2. Section 423.600 *Operating revenue; terminated voyages.* The text of this account is amended by revising the last sentence of paragraph (a) as follows:

§ 423.600 Operating revenue; terminated voyages.

(a) * * * Revenue items arising in connection with voyages terminated in prior years shall be accounted for as ordinary delayed items pursuant to § 423.0–11(c).

* * * * *

Item No. 3. Section 423.690 *Miscellaneous other income.* The text of this account is amended by adding the following items to the list of examples provided and a new paragraph below this tabulation as follows:

§ 423.690 Miscellaneous other income.

* * * * *

Profit from sale of securities.
Profit from sale of shipping and nonshipping property.
Profit from company bonds reacquired.

When the profit from sale of property and equipment, or securities, or from reacquisition of the company's own bonds is of an amount sufficiently large to constitute an extraordinary item, pursuant to Sec. 423.0–11, such profit shall be credited to account 990, "Extraordinary items".

Item No. 4. Section 423.700 *Operating expenses; terminated voyages.* The text of this account is amended by revising the last sentence of paragraph (a) as follows:

§ 423.700 Operating expenses; terminated voyages.

(a) * * * Expense items arising in connection with voyages terminated in prior years shall be accounted for as ordinary delayed items pursuant to § 423.0–11(c).

* * * * *

Item No. 5. Section 423.979 *Miscellaneous deductions from income.* The text of this account is amended by adding the following items to the list of examples provided and a new paragraph below this tabulation as follows:

§ 423.979 Miscellaneous deductions from income.

* * * * *

Loss on sale of shipping and nonshipping property and equipment.
Loss on sale of securities and charges to write down the ledger value of securities because of impairment in their value.
Loss on company bonds reacquired.

When the loss from sale of property and equipment, or securities, or from write down of securities because of impairment

in value, or reacquisition of the company's own bonds is of an amount sufficiently large to constitute an extraordinary item, pursuant to § 423.0–11, such loss shall be charged to account 990, "Extraordinary items."

Item No. 6. Section 423.985 *Expense of non-shipping operations.* This account is redesignated § 423.986.

Item No. 7. Section 423.986 *Depreciation; nonshipping property and equipment.* The number, title and text of this account are revised as follows:

§ 423.986 Depreciation; nonshipping property and equipment.

The annual or other periodical accrual of depreciation of property and equipment used in ventures other than shipping and shipping auxiliary operations shall be charged to this account with a corresponding credit to account 354, "Reserve for depreciation—Nonshipping property and equipment."

Item No. 8. Section 423.989 *Provision for Federal income taxes.* The number, title and text of this account are revised as follows:

§ 423.989 Federal income taxes on ordinary income.

This account shall be charged with accrued provision for Federal income taxes applicable to ordinary income of the accounting year. See the text of account 599, "Earned surplus; unappropriated" and account 998, "Federal income taxes on extraordinary and prior period items," for recording other income tax consequences.

Details pertaining to the tax consequences of other unusual and significant items and also cases where the tax consequences are disproportionate to the related amounts included in the income accounts, shall be submitted to the Commission for consideration and decision as to proper accounting.

Income taxes which are refundable or reduced as the result of carry-back or carry-forward of operating loss shall be credited to this account, if a carry-back, in the year in which the loss occurs, or, if a carry-forward, in the year in which such loss is applied to reduce taxes. However, when the amount constitutes an extraordinary item pursuant to § 423.0–11, it shall be included in account 994, "Prior period items."

Item No. 9. The system of accounts, following the text of account 989, "Federal income taxes on ordinary income," is amended by adding the following caption and account numbers, titles and texts:

EXTRAORDINARY AND PRIOR PERIOD ITEMS

§ 423.990 Extraordinary items (net).

(a) This account shall include extraordinary items accounted for during the current accounting year in accordance with the text of § 423.0–11, upon approval of the Commission. Among the items which shall be included in this account are:

Net gain or loss on sale of shipping and nonshipping property and equipment.
Net gain or loss on sale of securities and charges to write down the ledger value of such securities because of impairment of value.
Net gain or loss on reacquisition of company bonds.
Change in application of accounting principles.

(b) This account shall be maintained to show the nature and gross amount of each debit and credit, together with the applicable year, vessel name and voyage number.

(c) Federal income tax consequences of charges and credits to this account shall be recorded in account 998, "Federal income taxes on extraordinary and prior period items."

§ 423.994 Prior period items (net).

(a) This account shall include unusual delayed items accounted for during the current accounting year in accordance with the text of § 423.0–11, upon approval of the Commission. Among the items which shall be included in this account are:

Unusual adjustments, refunds or assessments of Federal income taxes of prior years.
Similar items representing transactions of prior years which are not identifiable with or do not result from business operations of the current year.

(b) This account shall be maintained to show the nature and gross amount of each debit and credit, together with the applicable year, vessel name and voyage number.

(c) Federal income tax consequences of charges and credits to this account shall be recorded in account 998 "Federal income taxes on extraordinary and prior period items."

§ 423.998 Federal income taxes on extraordinary and prior period items.

This account shall include the estimated Federal income tax consequences (debit or credit) assignable to the aggregate of items of both taxable income and deductions from taxable income which, for accounting purposes, are classified as unusual and extraordinary, and are recorded in accounts 990, "Extraordinary items" and 994, "Prior period items."

IV. TEXTS OF CLEARANCE ACCOUNTS DELETED AND AMENDED

Item No. 1. Section 423.000 *Adjustments applicable to prior periods.* The number, title and text of this account are deleted.

Item No. 3. Section 423.095 *Profit and loss account.* The text of this account is amended by changing the first and second sentences as follows: "At the end of the accounting year this account shall be credited or charged, as the case may be, with the balances in all ordinary, extraordinary and prior period revenue and expense accounts, except where otherwise specifically indicated. After all entries have been made, the account shall reflect the net income for the accounting year."

V. BALANCE SHEET STATEMENT REVISED

Item No. 1. The words "amortization and" are deleted from each of the following line items in § 423.0–20.

323 Less: Reserve for amortization and depreciation.
338 Less: Reserve for amortization and depreciation.
344 Less: Reserve for amortization and depreciation.
350 Less: Reserve for amortization and depreciation.
354 Less: Reserve for amortization and depreciation.

Item No. 2. The following line item is deleted from § 423.0–20:

595 Appreciation surplus.

VI. INCOME STATEMENT AMENDED

Item No. 1. The following is added below the Income Statement caption:

ORDINARY ITEMS

Item No. 2. After 695, "Income from non-shipping operations", all line items are deleted and the following are added:

985 Expense of nonshipping operations.
Gross profit (or loss) from nonshipping operations.
985 Overhead expense.
986 Depreciation — Nonshipping property and equipment.
Total expenses.
Net profit (or loss) from nonshipping operations.
Ordinary income (or loss) before Federal income taxes.
989 Federal income taxes on ordinary income.
Ordinary income.

EXTRAORDINARY AND PRIOR PERIOD ITEMS

990 Extraordinary items (net).
994 Prior-period items (net).
998 Federal income taxes on extraordinary and prior period items.
Total extraordinary and prior period items.
Net income (or loss).

VII. MISCELLANEOUS AMENDMENTS

The list of instructions, accounts and financial statements is amended to the following extent:

(a) The following is added to the list of General Instructions:

423.0–11 Extraordinary and prior period items.

(b) The following account titles are changed as indicated:

"423.332 Reserve for amortization and depreciation; vessels" is changed to: "423.332 Reserve for depreciation; vessels."

"423.338 Reserve for amortization and depreciation; other floating equipment" is changed to: "423.338 Reserve for depreciation; other floating equipment."

"423.344 Reserve for amortization and depreciation; terminal property and equipment" is changed to: "423.344 Reserve for depreciation; terminal property and equipment."

"423.350 Reserve for amortization and depreciation; other shipping property and equipment" is changed to: "423.350 Reserve for depreciation; other shipping property and equipment."

"423.354 Reserve for amortization and depreciation; non-shipping property and equipment" is changed to: "423.354 Reserve for depreciation; non-shipping property and equipment."

(c) The following account number and title are deleted:

423.595 Appreciation surplus.

(d) Directly below Income Accounts, the caption Ordinary Items is added.

(e) The following account numbers and titles are changed as indicated:

"423.985 Expense of non-shipping operations" is redesignated 423.985.

"423.986 Depreciation; non-shipping property and equipment" is redesignated 423.986.

"423.989 Provision for Federal income taxes" is changed to:

"423.989 Federal income taxes on ordinary income."

(f) Below the line item 989, "Federal income taxes on ordinary income", the following caption and line items are added:

EXTRAORDINARY AND PRIOR PERIOD ITEMS

423.990 Extraordinary items (net).
423.994 Prior period items (net).
423.998 Federal income taxes on extraordinary and prior period items.

(g) The following line item under Clearance Accounts is deleted:

423.090 Adjustments applicable to prior periods.

DEPARTMENT OF STATE

Agency for International Development

ASSISTANT ADMINISTRATOR FOR PRIVATE RESOURCES

Redelegation of Authority Relating to Investment Surveys and Investment Guaranties

Pursuant to the authority delegated to me by Delegation of Authority No. 33, as amended, from the Administrator of AID, dated February 3, 1964 (29 F.R. 2430), and by Delegation of Authority No. 39, as amended, from the Administrator of AID, dated April 13, 1964 (29 F.R. 5355), I hereby redelegate authority as follows:

(1) To William G. Carter, or in his absence to Leigh M. Miller, to participate in financing surveys of investment opportunities under section 231 of the Foreign Assistance Act of 1961, as amended, and in connection therewith to make the determinations and exercise the functions provided for in the cited section;

(2) To William G. Carter in my absence to act in my place and stead with respect to exercising the authority delegated to me by the above-cited Delegations of Authority Nos. 33 and 39;

(3) To Edward D. Irons, to extend the time, provided in an investment survey, in which a decision to invest may be made;

(4) To Leigh M. Miller, and in his absence to Harry L. Freeman, in addition to the authority contingently delegated in paragraph (1), to authorize and issue investment guaranties under section 221(b)(1) of the Foreign Assistance Act of 1961, as amended, covering investments (a) which take the form of royalties or (b) which, as described in the Special Terms and Conditions of such guaranty contracts, do not exceed $1 million, and in connection therewith to make the related approvals and determinations provided in sections 221(a), 221(b), 221(c), and 222(a) of the said Act;

(5) To Laurence E. Potter, to consent to assignments of any contract of guaranty issued under section 221(b)(1) of the Foreign Assistance Act of 1961, under section 413(b)(4)(B) of the Mutual Security Act of 1954 or section 111(b)(3) of the Economic Cooperation Act of 1948, all as originally enacted and as amended, provided such assignments run to entities eligible to be issued investment guaranties under the legislation in force at the time of the assignment;

(6) To Laurence E. Potter and concurrently to the Chief, International Loan Branch, Accounting Division, to issue written notice of delinquency to any investor who has failed to pay any fee due under any contract of guaranty issued under section 221(b)(1) of the Foreign Assistance Act of 1961, under section 111(b)(3) of the Economic Cooperation Act of 1948, or under section 413(b)(4)(B) of the Mutual Security Act of 1954, all as originally enacted and as amended, and further to cancel any contract of guaranty when the investor covered thereunder has failed to pay the delinquent fee thereon within 30 days following written notice of delinquency.

The authorities herein delegated may not be redelegated. This redelegation of authority is effective as of June 4, 1967, and supersedes from that date prior redelegations of my authority.

Dated: June 30, 1967.

HERBERT SALZMAN,
Assistant Administrator for Private Resources.

[F.R. Doc. 67-8380; Filed, July 19, 1967; 8:48 a.m.]

DEPARTMENT OF THE TREASURY

Bureau of Customs

VIRGIN ISLANDS

Reimbursable Services of Customs Officers and Employees; Rates Fixed Under Customs Overtime Laws of United States

JULY 13, 1967.

Notice is hereby given that under the authority vested in the Secretary of the Treasury by section 36 of the Act of June 22, 1936, 49 Stat. 1816 (48 U.S.C. 1406i), to fix the compensation of officers and employees appointed for the administration of the customs laws in the Virgin Islands of the United States, it is proposed to apply to such officers and employees the rates of extra compensation fixed under section 5 of the Act of February 13, 1911, as amended (19 U.S.C. 267), for services for which extra compensation would be payable under the Act or under section 451 of the Tariff Act of 1930, as amended (19 U.S.C. 1451), and the regulations thereunder, if such services were performed in connection with the administration of the customs laws of the United States. Those laws, per se, do not apply to the services of the Virgin Islands customs officers and employees. It is proposed to take administrative action to make them applicable, so that the compensation of those officers and employees will be equal to that of other customs officers and employees.

Such compensation will be required to be reimbursed by the parties in interest for any such services for which compensation is required by the customs laws of the Virgin Islands to be paid by the parties requesting the services. Section 20 of the ordinance concerning customhouse and ship dues, sanctioned by the King of Denmark on August 6, 1914, requires the requester to pay for services in connection with the entry or clearance of vessels or the transaction of other business (examination of luggage excepted) when such services are performed outside of the office hours of the customhouse or on Sundays or holidays. This designates the services for which reimbursement of compensation is required.

Although compensation for services performed exclusively in the examination of luggage is not reimbursable by parties in interest, compensation for other services will be reimbursable notwithstanding that services in the examination of luggage are performed in conjunction therewith.

The application of the rates fixed under 19 U.S.C. 267 to the Virgin Islands, customs officers and employees will be subject to the regulations, decisions, directions for assignment and control of personnel, and the accounting procedures that are applicable to customs officers and employees other than those in the Virgin Islands.

Prior to taking the action proposed in this notice, consideration will be given to any relevant data, views, or arguments which are submitted in writing to the Commissioner of Customs, Bureau of Customs, Washington, D.C. 20226, and received not later than 30 days from the date of publication of this notice in the FEDERAL REGISTER. No hearing will be held.

[SEAL] TRUE DAVIS,
Assistant Secretary of the Treasury.

DEPARTMENT OF DEFENSE

Department of the Army

INTERAGENCY CIVIL DEFENSE COMMITTEE

Organization and Functions

References: (a) Section 401 of the Federal Civil Defense Act of 1950, as amended, as affected by Reorganization Plan No. 1 of 1958, as amended; (b) Executive Order 10952, "Assigning Civil Defense Responsibilities to the Secretary of Defense and Others," dated July 20, 1961, as amended; (c) Executive Order 10346, "Preparation by Federal Agencies of Civil Defense Emergency Plans," dated April 17, 1952, as amended; (d) Executive Order 10958, "Delegating Functions Respecting Civil Defense Stockpiles of Medical Supplies and Equipment and Food," dated August 14, 1961; (e) Executive Orders 10997–11005, 11088–11095, and 11310, Assigning Emergency Preparedness Functions to various Federal Agencies; (f) BoB Circular A–63, "Management of Interagency Committees," dated March 2, 1964.

1. *Establishment.* There is hereby established, pursuant to references (a) and (b), the Interagency Civil Defense Committee (hereinafter referred to as the Committee) to aid in assuring that civil defense planning and operations, pursuant to references (c), (d), and (e), within the executive branch will be in consonance with the civil defense plans, programs, and operations of the Secretary of Defense.

2. *Composition of the Committee.* a. The Chairman of the Committee shall be the Director of Civil Defense or his named representative.

b. All departments and agencies of the Federal Government having civil defense responsibilities under references (c), (d), and (e) are invited to be represented on the Committee.

c. The Office of Emergency Planning is being invited to participate by designating observers.

3. *Responsibilities and functions*—a. *Responsibilities.* (1) The Committee shall advise the Director of Civil Defense in carrying out his responsibilities (reference (b)) in the field of civil defense and in planning.

(2) The Chairman shall be responsible for the conduct of Committee activities, shall provide secretariat services, and shall coordinate the work of the Committee with the activities of other Government agencies and interagency groups having responsibilities in the field of emergency preparedness.

b. *Functions.* Committee functions include, but are not limited to:

(1) Promoting cooperation among Federal agencies in the prosecution of civil defense objectives.

(2) Reporting on civil defense developments at national, State, and local levels.

(3) Coordinating and correlating civil defense planning and program implementation at the Federal level.

(4) Recommending measures to assure maximum utilization of the capabilities and technical competence of the Federal establishment to provide for a more effective civil defense system at Federal, State, and local levels.

(5) Advising on policy guidance governing implementation of civil defense plans and operational procedures and on such other matters as the Chairman may request.

4. *Committee management and reports*—a. *Management.* (1) The Chairman, or his named representative, shall administer activities of the Committee in accordance with BoB Circular A–63, "Management of Interagency Committees," and applicable DoD directives.

(2) The Management Office, under the Assistant Director of Civil Defense (Management), shall be responsible for maintaining committee management files as prescribed in attachment to BoB Circular A–63.

b. *Reports.* Information on the Committee shall be included in annual reports on interagency committees, as required by BoB Circular A–63 and applicable DoD directives.

5. *Duration of Committee.* The Committee shall continue in existence until June 30, 1968, or whenever the mission is completed, whichever is earlier.

6. *Cancellation.* Notice of establishment of Interagency Civil Defense Committee published September 17, 1964 (29 F.R. 13049), is hereby canceled.

JOSEPH ROMM,
Acting Director of Civil Defense.

Office of the Secretary

REQUIRED PURCHASES OF STOCKPILE NATURAL RUBBER

Contracts Regarding Tires

Pending publication in Title 32 Subchapter A, Code of Federal Regulations, the following has been approved by the Assistant Secretary of Defense (Installations and Logistics) by memorandum dated June 29, 1967 to the Assistant Secretaries of the Army, Navy and Air Force and the Director of the Defense Supply Agency effective 1 July 1967:

The Department of Defense shall require Defense contractors to purchase stockpile rubber in amounts equivalent to the amounts of total rubber (natural and synthetic) contained in certain Defense supplies. This requirement necessitates revision of the current clause at 32 CFR 1.323 covering contracts for aircraft tires, tubes, recapping materials and tire recapping (unless the recapping materials are government-furnished), and contracts for aircraft under which the contractor will furnish tires or tubes. It also applies to Army purchases of tires, tubes, recapping materials, and tire recapping (unless the recapping materials are government-furnished), produced to military specifications, for use on military trucks, trailers, and buses, and to Army contracts for such vehicles under which the contractor will furnish tires or tubes produced to military specifications.

The following contract clause is designed to accomplish the revised national stockpile disposal objectives and is authorized for use pending publication of these requirements in the Code of Federal Regulations.

The poundages of crude natural rubber required to be purchased from GSA are to be calculated on the basis of the estimated total quantity of natural rubber and synthetic rubber, if any, contained in the items to be delivered. The requirements for documentation to be supplied the General Services Administration are unchanged.

The revised clause should be included in all affected contracts for which solicitations for bids or proposals are issued after June 30, 1967.

PURCHASE OF NATURAL RUBBER (JULY 1967)

(a) Except as provided in paragraph (b) below, the Contractor shall purchase from the General Services Administration, either directly or through a dealer, or otherwise cause to be purchased, during the life of this contract _____[1] pounds of crude natural rubber. Each order for rubber placed with the General Services Administration pursuant to this clause shall state that it has been placed in accordance with the provisions of this clause, shall identify this contract by number and the name of the issuing activity and shall be sent to:

Manager, Rubber Project, General Services Administration, Room 6042, GSA Building, 18th and F Streets NW., Washington, D.C. 20025.

Rubber purchased pursuant to this clause may be used in any manner the Contractor desires and need not be earmarked in any way after delivery to the Contractor, nor physically incorporated in the items to be delivered, provided the specifications are met.

(b) To the extent the Contractor places subcontracts for tires, tubes, tire recapping, or recapping materials under this contract, he is not required to purchase rubber from the General Services Administration. However, he agrees to incorporate in any such subcontract the same terms and conditions set forth in this clause including this paragraph (b), specifying approximate quantity of rubber (natural and synthetic) contained in the tires, tubes, tire recapping, or recapping materials to be delivered under the subcontract. The Contractor shall forward one copy of each such subcontract, referencing the prime contract number and the issuing activity, to the General Services Administration at the above address.

MAURICE W. ROCHE,
Director, Correspondence and Directives Division, OASD (Administration).

[F.R. Doc. 67-8365; Filed, July 19, 1967; 8:47 a.m.]

[1] Contracting officer shall insert approximate quantity of rubber (natural and synthetic) contained in the tires, tubes, tire recapping, or recapping materials to be delivered under this contract.

DEPARTMENT OF AGRICULTURE

Office of the Secretary

DEPUTY ASSISTANT SECRETARY FOR MARKETING AND CONSUMER SERVICES

Delegation of Authority

Pursuant to section 10 of the Statement of Organization and Delegations of the Department of Agriculture at 29 F.R. 16210 et seq., as amended, delegating to each Assistant Secretary of Agriculture the authority to exercise all the power and functions of the Secretary in connection with the functions of the agencies assigned to each Assistant Secretary's direction and supervision, and section 111 a. (2) of the Statement of Organization and Delegations, there is hereby delegated to the Deputy Assistant Secretary for Marketing and Consumer Services the authority to issue, amend, terminate, or suspend marketing agreements or orders, or provisions thereof.

This delegation does not preclude the Secretary of Agriculture, the Under Secretary, or the Assistant Secretary for Marketing and Consumer Services from exercising these functions.

Done at Washington, D.C. this 17th day of July 1967.

GEORGE L. MEHREN,
Assistant Secretary of Agriculture, Marketing and Consumer Services.

ATOMIC ENERGY COMMISSION

[Docket No. 50-27]

WASHINGTON STATE UNIVERSITY

Notice of Issuance of Amended Facility License

No request for hearing or petition to intervene having been filed following publication of the notice of proposed action in the FEDERAL REGISTER May 13, 1967, 32 F.R. 7225, the Atomic Energy Commission has issued Amendment No. 3 to License No. R-76 to Washington State University. The amended license authorizes the University to operate the Washington State University Reactor, located on the campus at Pullman, Washington, at power levels up to 1000 kilowatts (thermal) with the modified core and control system installed in accordance with Construction Permit No. CPRR-96.

The amended facility license was issued in the form published in the notice of proposed action.

Dated at Bethesda, Md., this 12th day of July 1967.

For the Atomic Energy Commission.

DONALD J. SKOVHOLT,
Assistant Director for Reactor Operations, Division of Reactor Licensing.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[Serial No. Nevada 067366]

NEVADA

Notice of Public Sale

JUNE 12, 1967.

Under the provisions of the Public Land Sale Act of September 19, 1964 (78 Stat. 988, 43 U.S.C. 1421-1427), 43 CFR Subpart 2243, tracts of land will be offered for sale to the highest bidder, but at not less than the appraised value plus the publication costs, at a public sale to be held at 1:30 p.m., local time, on Wednesday, September 6, 1967, at the Nevada Land Office, Bureau of Land Management, Room 3104, Federal Building, 300 Booth Street, Reno, Nev. The land to be offered for sale is described as follows:

MOUNT DIABLO MERIDIAN, NEVADA

T. 15 N., R. 25 E.,
Parcel 1, Sec. 19, W½SE¼ (80 acres);
Parcel 2, Sec. 19, NE¼, SE¼NW¼ (200 acres).

The area described contains 280 acres. The appraised value of Parcel 1 is $1,200 and Parcel 2 is $5,000. The publication costs to be assessed purchasers of each parcel are $10.

The land will be sold subject to all valid existing rights and reservations for rights-of-way. Reservation will be made to the United States for ditches and canals in accordance with the Act of August 30, 1890 (26 Stat. 391; 43 U.S.C. 945). All mineral rights are to be reserved to the United States and withdrawn from appropriation under the public land laws, including the general mining laws.

Bids may be made by the principal or his agent, either personally at the sale, or by mail. Bids must be for all the lands in the parcel. Bids sent by mail will be considered only if received at the Nevada Land Office, Bureau of Land Management, Room 3008 Federal Building, 300 Booth Street, Reno, Nev. 89502, prior to 1:30 p.m., on Wednesday, September 6, 1967. Bids made prior to the public auction must be submitted in sealed envelopes, accompanied by certified checks, postal money orders, bank drafts, or cashier's checks, made payable to the Bureau of Land Management, for the full amount of the bid, which may not be less than the appraised value plus the publication costs. The envelopes must be marked in the lower left-hand corner "Publication Sale Bid, Parcels No. ———, sale held September 6, 1967."

The authorized officer shall publicly declare the highest qualifying sealed bid received. Oral bids shall then be invited in increments specified by the authorized officer. The person declared to have entered the highest qualifying bid shall be required to make full payment for the tract plus the cost of publication at the close of bidding. The authorized officer shall also afford the successful oral bidder until 3:30 p.m., September 6, 1967, to provide a guaranteed remittance.

If no bids are received for the sale parcels on Wednesday, September 6, 1967, the parcels will be reoffered on the first Wednesday of subsequent months at 2 p.m., beginning October 4, 1967, 2 p.m.

Any adverse claimants to the above-described land should file their claims, or objections, with the undersigned on or before the time designated for sale.

The lands described in this notice have been segregated from all forms of appropriation, including locations under the general mining laws, except for sale under this Act, from the date of the proposed classification decision. Inquiries concerning this sale shall be addressed to the Land Office Manager, Bureau of Land Management, Room 3008, Federal Building, 300 Booth Street, Reno, Nev. 89502.

ROBERT T. WEBB,
Acting Manager, Nevada Land Office.

[F.R. Doc. 67-8368; Filed, July 19, 1967; 8:47 a.m.]

[Serial No. N-896]

NEVADA

Notice of Public Sale

JULY 13, 1967.

Under the provisions of the Public Land Sale Act of September 19, 1964 (78 Stat. 988, 43 U.S.C. 1421-1427), 43 CFR Subpart 2243, a tract of land will be offered for sale to the highest bidder at a sale to be held at 1:30 p.m., local time, on Wednesday, August 30, 1967, at the Nevada Land Office, Bureau of Land Management, Room 3104, Federal Building, 300 Booth Street, Reno, Nev. The land is described as follows:

MOUNT DIABLO MERIDIAN, NEVADA

T. 19 N., R. 21 E.,
Sec. 10, SW¼SW¼SW¼SW¼.

The area described contains 2.5 acres. The appraised value of the tract is $750 and the publication costs to be assessed are $10.

The land will be sold subject to all valid existing rights. Reservations will be made to the United States for ditches and canals in accordance with the Act of August 30, 1890 (26 Stat. 391; 43 U.S.C. 945). All minerals are to be reserved to the United States and withdrawn from appropriation under the public land laws, including the general mining laws.

Bids may be made by the principal or his agent, either at the sale, or by mail. Bids must be for all the lands in the parcel. Bids sent by mail will be considered only if received at the Nevada Land Office, Bureau of Land Management, Room 3008 Federal Building, Reno, Nev. 89502, prior to 1:30 p.m. on Wednesday, August 30, 1967. Bids made prior to the public auction must be in sealed envelopes, accompanied by certified checks, postal money orders, bank drafts, or cashier's checks, made payable to the Bureau of Land Management, for the full amount of the bid, which may not be less than the appraised value, plus publication costs. The envelopes must be marked in the lower left-hand corner "Publication Sale Bid, Parcel No. 1, sale held August 30, 1967."

The authorized officer shall publicly declare the highest qualifying sealed bid received. Oral bids shall then be invited in increments specified by the authorized officer. The person declared to have entered the highest qualifying bid shall be required to make full payment for the tract plus the cost of publication at the close of bidding. The authorized officer shall also afford the successful oral bidder until 3:30 p.m., September 6, 1967, to provide a guaranteed remittance.

If no bids are received for the sale tract on Wednesday, August 30, 1967, the tract will be reoffered on the first Wednesday of subsequent months at 2 p.m., beginning September 6, 1967, 2 p.m.

Any adverse claimants to the above-described lands should file their claims, or objections, with the undersigned before the time designated for sale.

The lands described in this notice have been segregated from all forms of appropriation, including locations under the general mining laws, except for sale under this Act, from the date of the proposed classification decision. Inquiries concerning this sale shall be addressed to the Land Office Manager, Bureau of Land Management, Room 3008, Federal Building, 300 Booth Street, Reno, Nev. 89502.

ROBERT T. WEBB,
Acting Manager, Nevada Land Office.

[OR 2017]

OREGON

Notice of Proposed Withdrawal and Reservation of Land

JULY 13, 1967.

The Department of Agriculture, on behalf of the Forest Service, has filed application, OR 2017, for the withdrawal of the land described below, from all forms of appropriation, subject to valid existing rights.

The applicant desires the land as a part of the Forest Development Road System in connection with the administration of the Umatilla National Forest.

For a period of 30 days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the undersigned officer of the Bureau of Land Management, Department of the Interior, 729 NE. Oregon Street (Post Office Box 2965), Portland, Oreg. 97208.

The authorized officer of the Bureau of Land Management will undertake such investigations as are necessary to determine the existing and potential demand for the land and its resources. He will also undertake negotiations with the applicant agency with the view of adjusting the application to reduce the area to the minimum essential to meet the applicant's needs, to provide for the maximum concurrent utilization of the land for purposes other than the applicant's, to eliminate land needed for purposes more essential than the applicant's, and to reach agreement on the concurrent management of the land and its resources.

He will also prepare a report for consideration by the Secretary of the Interior who will determine whether or not the land will be withdrawn as requested by the applicant agency.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

If circumstances warrant it, a public hearing will be held at a convenient time and place which will be announced.

The land involved in the application is:

WILLAMETTE MERIDIAN

NORTH FORK JOHN DAY ROAD S-608

T. 6 S., R. 31 E.,
Sec. 36, S½SW¼ and SE¼.

A strip of land 66 feet in width, being 33 feet on each side of the center line of North Fork John Day Road S-608 in and through the above subdivision.

The area described aggregates 9.0 acres.

ERLING A. OLSON,
Chief, Lands Adjudication Section.

[F.R. Doc. 67-8370; Filed, July 19, 1967; 8:47 a.m.]

[OR 2031]

OREGON

Notice of Proposed Withdrawal and Reservation of Land

JULY 14, 1967.

The Department of Agriculture, on behalf of the Forest Service, has filed an application, Serial Number OR 2031, for the withdrawal of the public lands described below, from all forms of appropriation under the mining laws (30 U.S.C., Ch. 2), but not from leasing under the mineral leasing laws.

The applicant desires the land as an administrative and public-service access area to Fairview Mountain Lookout in connection with the administration of the Umpqua National Forest.

For a period of 30 days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the undersigned officer of the Bureau of Land Management, Department of the Interior, 729 NE. Oregon Street (Post Office Box 2965), Portland, Oreg. 97208.

The authorized officer of the Bureau of Land Management will undertake such investigations as are necessary to determine the existing and potential demand for the land and its resources. He will also undertake negotiations with the applicant agency with the view of adjusting the application to reduce the area to the minimum essential to meet the applicant's needs, to provide for the maximum concurrent utilization of the land for purposes other than the applicant's, to eliminate land needed for purposes more essential than the applicant's, and to reach agreement on the concurrent management of the land and its resources.

He will also prepare a report for consideration by the Secretary of the Interior who will determine whether or not the land will be withdrawn as requested by the applicant agency.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

If circumstances warrant it, a public hearing will be held at a convenient time and place which will be announced.

The land involved in the application is:

WILLAMETTE MERIDIAN

UMPQUA NATIONAL FOREST

Fairview Mountain Lookout Tract A

T. 23 S., R. 1 E.,
Sec. 14, a parcel within lot 6, described as follows:
A strip of land 50' wide, 20' each side of a center line described as commencing at ¼ corner common to secs. 11 and 14;
thence S. 64°24' W. 967.13' more or less;
thence N. 51°10' E. 89.80';
thence through a 4° curve to right whose total central angle is 5°02' and length is 125.80' an applicable distance of 106.19' to a point on E. line of patented Mining Claim Charles, which point is true point of beginning;
thence continuing along said 4° curve to right for a distance of 19.61';
thence N. 86°12' E. 87.70';
thence through a 2° curve to left whose total central angle is 3°32' and length is 176.70' an applicable distance of 104.46' to a point on S. line of patented Mining Claim German, the sidelines being lengthened or shortened to intersect said E. and S. lines of said claims.

The area described aggregates 0.22 acre.

ERLING A. OLSON,
Chief, Lands Adjudication Section.

[F.R. Doc. 67-8371; Filed, July 19, 1967; 8:47 a.m.]

[OR 2018 (Wash.)]

WASHINGTON

Notice of Proposed Withdrawal and Reservation of Land

JULY 13, 1967.

The Corps of Engineers, U.S. Department of the Army, has filed an application, Serial Number OR 2018 (Washington), for the withdrawal of the public lands described below, from all forms of appropriation under the public land laws, including the mining laws and the mineral leasing laws.

The applicant desires to use the land for project planning and as a wildlife management area in connection with the John Day Lock and Dam Project.

For a period of 30 days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with

the proposed withdrawal may present their views in writing to the undersigned officer of the Bureau of Land Management, Department of the Interior, 729 NE. Oregon Street (Post Office Box 2965), Portland, Oreg. 97208.

The authorized officer of the Bureau of Land Management will undertake such investigations as are necessary to determine the existing and potential demand for the land and its resources. He will also undertake negotiations with the applicant agency with the view of adjusting the application to reduce the area to the minimum essential to meet the applicant's needs, to provide for the maximum concurrent utilization of the land for purposes other than the applicant's, to eliminate land needed for purposes more essential than the applicant's, and to reach agreement on the concurrent management of the land and its resources.

He will also prepare a report for consideration by the Secretary of the Interior who will determine whether or not the land will be withdrawn as requested by the applicant agency.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

If circumstances warrant it, a public hearing will be held at a convenient time and place which will be announced.

The land involved in the application is:

WILLAMETTE MERIDIAN

T. 5 N., R. 26 E.,
Sec. 12, NW¼NW¼.

The land described aggregates 40 acres.

ERLING A. OLSON,
Chief, Lands Adjudication Section.

Office of the Secretary

CENTRAL AND FIELD ORGANIZATION

This notice is published in accordance with the provisions of subsection (a)(1) of section 552, Title 5, United States Code, as amended by Public Law 90-23 codifying the "Public Information Act." The notice contains a description of the central and field organization of the Department of the Interior and lists places at which the public may obtain information, including information regarding the making of submittals or requests and the functions of the various bureaus and offices of the Department. More specific information with respect to the course and method by which functions are performed, procedures, and substantive provisions are contained in the public regulations of the Department. Section 1 of this notice indicates the location of those which appear in the Code of Federal Regulations.

Internal departmental regulations are published in the Departmental Manual which is available for inspection in the Department's Library, Interior Building, Washington, D.C., and at each of the headquarters or regional offices of bureaus of the Department. The administrative manuals of those bureaus which have issued such documents are available for inspection at the headquarters offices and at the regional offices of the bureaus.

GEORGE E. ROBINSON,
Deputy Assistant Secretary for Administration.

JULY 14, 1967.

SEC. 2. *Organization—Office of the Secretary.* The Office of the Secretary performs both line and staff functions in the overall management of the Department. The Secretarial officers and the Solicitor exercise line authority in their respective fields of responsibility. This means that in these fields they have the authority to make final decisions affecting bureaus and offices and to issue directions to them. The Secretarial offices advise and provide staff assistance to these officials.

2.1 *Secretary.* The Secretary of the Interior, as the head of an executive department, reports directly to the President and is responsible for the direction and supervision of all activities of the Department. He also has certain powers or supervisory responsibilities relating to territorial governments.

2.2 *Under Secretary.* The Under Secretary assists the Secretary in the discharge of his duties and in the absence of the latter performs his functions. With the exception of certain matters requiring personal action by the Secretary, the Under Secretary has the full authority of the Secretary on any matter which comes before him.

2.10 *Assistant Secretary for Fish and Wildlife and Parks.* The Assistant Secretary for Fish and Wildlife and Parks discharges the duties of the Secretary with respect to the development, conservation, and utilization of the fish, wildlife, and the national park resources of the Nation. The Assistant Secretary exercises Secretarial direction and supervision over the Commissioner of Fish and Wildlife and the Bureaus of Commercial Fisheries and Sport Fisheries and Wildlife, which comprise the U.S. Fish and Wildlife Service, and over the National Park Service.

2.11 *Assistant Secretary—Mineral Resources.* The Assistant Secretary—Mineral Resources discharges the duties of the Secretary with respect to the development and utilization of minerals and fuels, including defense minerals activities. The Assistant Secretary exercises Secretarial direction and supervision over the Office of Geography, Office of Minerals and Solid Fuels, Office of Oil and Gas, Office of Coal Research, Oil Import Administration, Bureau of Mines, and Geological Survey.

2.12 *Assistant Secretary—Public Land Management.* The Assistant Secretary—Public Land Management discharges the duties of the Secretary with respect to outdoor recreation, land utilization and management, territorial affairs, and Indian affairs. The Assistant Secretary exercises Secretarial direction and supervision over the Bureau of Indian Affairs, Bureau of Land Management, Bureau of Outdoor Recreation, and the Office of Territories.

2.13 *Assistant Secretary—Water and Power Development.* The Assistant Secretary—Water and Power Development discharges the duties of the Secretary with respect to the development of water resources and power. The Assistant Secretary exercises Secretarial direction and supervision over the Bureau of Reclamation, Bonneville Power Administration, Southeastern Power Administration, the Southwestern Power Administration, and the Alaska Power Administration. He is also responsible for carrying out the national defense functions of the Secretary with respect to electric power.

2.14 *Assistant Secretary—Water Pollution Control.* The Assistant Secretary—Water Pollution Control discharges the duties of the Secretary with respect to the control, prevention, and abatement of water pollution. The Assistant Secretary exercises Secretarial direction and supervision over the Federal Water Pollution Control Administration and the Office of Saline Water.

2.15 *Assistant Secretary for Administration.* The Assistant Secretary for Administration discharges the duties of the Secretary with respect to all phases of administrative management including budget, finance, compliance, management research, personnel, procurement, property, audit, management operations, security, emergency preparedness, library services, automatic data processing, and related activities. Secretarial offices and divisions appropriately identified with these functions are under his supervision. The Assistant Secretary for Administration provides central coordination of the Department's emergency preparedness activities and exercises Secretarial direction and supervision over the administrative management aspects of the program.

2.16 *Solicitor.* The Solicitor is the principal legal adviser to the Secretary and the chief law officer of the Department. He is responsible for and has supervision over all legal work of the Department.

2.20 *Office of the Science Adviser.* The Science Adviser to the Secretary serves as staff adviser to the Secretary and assists in carrying out the Secretary's responsibilities for the policy direction, coordination, control, and administration of the scientific research activities and programs within the bureaus and offices of the Department.

2.21 *Office of Ecology.* The Office of Ecology was created in January of 1967 to serve as the Departmental focal point for ecology and environmental quality considerations and to provide for support and direction of ecological surveys and research. The Director of the Office of Ecology serves as the Secretary's Adviser on Environmental Quality and reports to the Secretary through the Office of the Science Adviser.

2.22 *Office of Information.* The Office of Information exercises technical and general functional supervision over all information activities of the Department. The Office of Information, Northwest Regional Office, located in Portland, Oreg., assists and directs the information programs of bureaus which conduct operations in that area.

2.23 *Program Support Staff.* The Program Support Staff is a small professional group providing assistance to the Secretary and Under Secretary on a broad range of problems. The Staff has a continuing concern with the formulation, revision, or discontinuance of departmental policies and with problems of departmental posture on emerging issues. Members of the Staff are available for "troubleshooting" assignments and studies of controversial problems which must be dealt with at the Secretarial level.

The Staff coordinates special programs and certain continuing activities which involve the interests of one or more bureaus of the Department. Members are also designated as the Secretary's representatives on certain interagency committees and task forces.

The Director and Assistant Director exercise general supervision over the Department's Regional Coordinators. The Regional Coordinators chair the Department's field committees and coordinate matters of program and policy in the field where more than one bureau interest is involved. As Department representatives on various interagency river basin committees, and on Federal-State river basin commissions authorized by the Water Resources Planning Act of 1965, the Regional Coordinators devote substantial time to comprehensive river basin planning.

REGIONAL COORDINATORS—PROGRAM SUPPORT STAFF

Region	Headquarters
Alaska	709 W. Ninth St., Juneau, Alaska 99801.
Missouri Basin	P.O. Box 2580, Billings, Mont. 59103.

Southwest	Federal Bldg., Muskogee, Okla. 74402.
Southeast	c/o Southeastern Power Admin., Elberton, Ga. 30635.

2.24 *Contract Appeals Board.* The Board of Contract Appeals, in the Office of the Secretary, exercises the authority of the Secretary provided in R.S. 161 (5 U.S.C. 22) in deciding appeals from findings of fact or decisions by contracting officers of any bureau or office of the Department.

2.25 *Office of Program Analysis.* The Office or Program Analysis was established in December 1965 to exercise those duties required to meet the Department's responsibility to develop a Planning-Programing-Budgeting System as required by Bureau of the Budget Bulletin No. 66-3, of October 1965.

2.26 *Office for Equal Opportunity.* The Office for Equal Opportunity was created in September 1965 to oversee, coordinate, and obtain compliance with titles VI and VII of the Civil Rights Act of 1964 (78 Stat. 241), related statutes, and applicable Executive orders. The Office establishes the policies required to meet the responsibilities of the Office of the Secretary for the Department of the Interior's programs, develops and administers procedures and regulations to carry out these policies, and oversees the Department's activities to insure compliance with these policies and procedures.

SEC. 3 *Other Departmental Offices.* The phrase "other Departmental offices" is used to identify collectively the following described offices that are neither a part of the Office of the Secretary nor a bureau of the Department.

3.1 *Office of the Solicitor.* The Office of the Solicitor performs all legal work for the entire Department. In addition to the legal work directly concerned with the programs and activities of the Department, the Office of the Solicitor handles matters relating to torts and other claims, inventions by personnel of the Department, and appeals to the Secretary of the Interior in public land proceedings and Indian probate matters. The Solicitor is assisted by a Deputy Solicitor, Legislative Counsel, seven Associate Solicitors (whose respective assignments cover Indian affairs; mineral resources and general legal services; reclamation and power; territories, wildlife and claims; parks and recreation; public lands; and water resources and procurement), and a staff of attorneys in Washington. In the field, eight Regional Solicitors supervise field solicitors, attorneys, and hearing examiners within their respective regions.

REGIONAL OFFICES—OFFICE OF THE SOLICITOR

Office	Address
Anchorage, Alaska 99501.	Federal Bldg.
Denver, Colo. 80225.	Denver Federal Center.

Tulsa, Okla. 74101.	U.S. Post Office and Federal Bldg.

3.2 *Office of Geography.* The Office of Geography performs those operational responsibilities of the Secretary of the Interior relating to foreign geographic names (names of places not in the United States, its territories, or the Commonwealth of Puerto Rico, or adjacent waters). The Secretary of the Interior, conjointly with the Board on Geographic Names, has the responsibility for standardizing geographic names for use on maps and in other publications of the Federal Government. The Director of the Office of Geography is ex officio Executive Secretary of the Board on Geographic Names for foreign geographic names. (Similar work related to domestic geographic names is performed by the Geological Survey, Topographic Division.)

3.3 *Office of Minerals and Solid Fuels.* The Office is responsible for planning and programing to provide for a supply of metals, minerals, and solid fuels adequate for essential civilian and military requirements under partial and full mobilization. It also assists the States in planning for the emergency management of solid fuels in coordination with efforts at the national level.

Advice and assistance are provided by the Office for the Department in the establishment and review of stockpile policies, including the development of stockpile objectives for individual strategic and critical materials, the organization of programs to dispose of surplus Government inventories of metals and minerals, and the acquisition of metals and minerals under the Agricultural Trade Development and Assistance Act and other authorities.

3.4 *Office of Oil and Gas.* The Office develops, evaluates, and coordinates oil and gas information to provide sound bases for establishment and implementation of Government policies and programs for oil and gas, provides information and service to Government agencies with respect to strategic and economic factors affecting the petroleum and gas industries both in the United States and abroad, recommends programs and policies to improve the position and capabilities of these domestic industries, and provides advice with respect to international policies affecting petroleum and gas.

The Office prepares national emergency plans and develops preparedness programs to provide a state of readiness in petroleum and gas for all conditions of national emergency in collaboration with other Federal agencies, State and local governments, and industry; provides for a standby Emergency Petroleum and Gas Administration (EPGA); and selects and trains executive reservists to staff EPGA. The Office of Oil and Gas would serve as the nucleus of EPGA in an emergency. The Office also participates with other Federal agencies in petroleum activities of international organizations and U.S. alliances in planning and testing programs designed to meet U.S. and allied emergency oil and gas requirements.

3.5 *Office of Saline Water.* The Office of Saline Water provides for research and development of practical means for the economical production, from sea or other saline water, of water suitable for agricultural, industrial, municipal, and other beneficial consumptive uses.

The program is conducted by means of research grants to, and contracts made with, chemists, physicists, engineers, educational institutions, scientific organizations, or industrial or engineering firms, to conduct research and technical development work. The Office performs the following specific functions:

Research: Formulates and maintains currently a productive research and development program, national and international in scope, for the economic conversion of saline water by stimulating and sponsoring private and governmental research; studies the needs of industry and municipalities for saline water conversion, and the quality and quantities of converted water required; plans research and development activities to meet these needs; and conducts economic studies of the comparative cost of natural fresh water with that converted from saline sources.

Coordination: Coordinates and exchanges information on saline water conversion research, private and governmental; prepares publicity and information on the subject; plans and manages meetings and symposia; coordinates and integrates results of its activities with private organizations and with the Department of Defense, National Science Foundation, Atomic Energy Commission, Smithsonian Institution, Office of Emergency Planning, Department of Agriculture, Department of State, and the Department of Commerce.

Contracts and grants: Prepares negotiates, and supervises research and development contracts and grants; and determines which scientific organizations and individuals are equipped to conduct research and development work, which processes should be emphasized or curtailed and the direction that each should take, in connection with (1) investigation of new theories, principles, and phenomena of an exploratory nature embracing any field of science of potential use in applying developments, but without regard to the economics and processes; and (2) applied research and development of practical applications in production of devices, systems, materials, and processes, including pilot plants, cost estimates, designs, and product engineering, with complete regard for all economic factors.

The Office of Saline Water now operates a research and development test station at Wrightsville Beach, N.C., and a west coast test center has been established at San Diego, Calif., for testing of modules and components of large plants. Three demonstration saline water conversion plants are in operation: (1) Long tube vertical multiple effect at Freeport, Tex., 1 million gallons per day; (2) electrodialysis at Webster, S. Dak., 250,000 gallons per day; (3) forced-circulation, vapor-compression at Roswell, N. Mex., 1 million gallons per day.

3.6 *Oil Import Administration.* The Oil Import Administration discharges the responsibilities imposed upon the Secretary of the Interior by Presidential Proclamation 3279 of March 10, 1959, as amended, "Adjusting Imports of Petroleum and Petroleum Products Into the United States." This proclamation, in the interests of national security, imposes restrictions upon the importation of crude oil, unfinished petroleum oils, finished petroleum products, and residual fuel oil to be used as fuel. The Administration allocates imports of these commodities among qualified applicants and issues import licenses on the basis of such allocations. These functions are carried on with respect to three areas: Alaska, Arizona, California, Hawaii, Nevada, Oregon, and Washington (District V); the District of Columbia and all States not listed above (Districts I-IV); and Puerto Rico.

3.7 *Oil Import Appeals Board.* The Oil Import Appeals Board was established by the Secretary of the Interior pursuant to authorization contained in Proclamation 3279 of March 10, 1959, as amended, "Adjusting Imports of Petroleum and Petroleum Products Into the United States." The membership of the Board consists of one representative each from the Interior, Commerce, and Defense Departments, designated by the respective Department heads.

The Board considers petitions by persons affected by the regulations issued by the Secretary of the Interior (Oil Import Regulation 1, as revised and amended), implementing the proclamation.

The Board is authorized, within specified limits, to modify any allocation granted by the Oil Import Administration, on the grounds of exceptional hardship or error; to grant allocations for crude oil, in special circumstances, to persons with importing histories who are ineligible for allocations under the regulations; to grant allocations for finished products, on the ground of exceptional hardship, to persons who do not qualify under the regulations; and to review the revocation or suspension of any allocation or license. Decisions of the Board are final decisions.

3.8 *Office of Coal Research.* The Office of Coal Research performs functions authorized by the act of July 7, 1960 (74 Stat. 336; 30 U.S.C. 661), to develop, through research, new and more efficient methods of mining, preparing, and utilizing coal. This objective is carried out by contracting for, sponsoring, cosponsoring, and promoting the coordination of, research with recognized interested groups, including, but not limited to, coal trade associations, coal research associations, educational institutions, agencies of States, political subdivisions of States, and other agencies of the Federal Government.

The act also authorizes the Secretary to undertake any project that seeks to determine the possibility of commercial utilization of the results of previous research. If a pilot plant or other experimental plant is the appropriate means for attaining the information desired, the Secretary has authority to contract for its construction and operation and to provide a site, by the purchase of land if required.

3.9 *Defense Electric Power Administration.* The Defense Electric Power Administration is responsible for the preparation of national emergency plans and developments of preparedness programs covering the electric power industry as set forth in Executive Order 10997 of February 16, 1962.

The Administration serves as the focal point of contact with the electric power industry for other Government agencies in the preparation of civil defense preparedness plans, State and local government civil defense plans, vulnerability studies and allied activities. It maintains continuing surveillance of the generating and transmission capabilities of the electric power industry.

3.10 *Office of Water Resources Research.* The Office of Water Resources Research administers the program of water resources research and training authorized by act of July 17, 1964 (78 Stat. 329; 42 U.S.C. 1961). The program provides for promotion and support of research programs and training in the study of water supply and of resources which affect water.

3.11 *Office of Job Corps Coordination.* The Office coordinates the activities and operations of the Department's organizational units which participate in the operation of Job Corps Conservation Centers. The Office ensures the adequate planning and scheduling of operations, formulates the budget for the program, establishes objectives, reviews progress, provides guidance and direction in administrative matters, and serves as the Department's liaison to the Office of Economic Opportunity for Job Corps Conservation Centers.

The Office consists of a headquarters organization in Washington, D.C., a field organization including the Conservation Centers and the following sone offices:

Building 53, Denver Federal Center, Denver, Colo. 80225.
2328 Lloyd Center, Portland, Oreg. 97232.

SEC. 4. *Bureaus.*

4.1 *U.S. Fish and Wildlife Service.* Creation and authority: The U.S. Fish and Wildlife Service was created in the Department of the Interior November 6, 1956. As provided by the Fish and Wildlife Act of 1956 (70 Stat. 1119; 16 U.S.C. 742b), which established the Service, it replaced the former Fish and Wildlife Service, established June 30, 1940, by Reorganization Plan III. The Service is composed of the Office of the Commissioner and two bureaus: a Bureau of Commercial Fisheries responsible for commercial fisheries, including whales, seals, and sea lions; and a Bureau of Sport Fisheries and Wildlife responsible for wild birds, mammals (except whales, seals, and sea lions), and sport fisheries.

The functions of the Service are administered under the supervision of the Commissioner of Fish and Wildlife.

4.2 *Bureau of Commercial Fisheries.* Objectives: (1) to increase and maintain for the people of the United States, a fishery resource capable of yielding the maximum annual product; (2) to strengthen and maintain a vigorous fishery industry; and (3) to perform these functions in partnership with the States, and in accordance with our international obligations and relations.

Organization: The Bureau of Commercial Fisheries consists of the following principal segments: the headquarters office at Washington, D.C., six regional offices, an area office, and field laboratories, research stations, and statistics and market news offices.

Activities: Marine Fisheries: The Bureau conducts biological research on commercially important species of fish, shellfish, and mammals off all coasts of the United States, in the high seas, and in waters adjacent to territories and possessions. This includes the collection of information on the size of the resources, rates of decline or increase, and reaction to various intensities of fishing as a basis for management by the States or by international commissions.

Inland Fisheries: Programs for the maintenance of inland fisheries are designed to discover and recommend measures for developing the fisheries of the Great Lakes and other inland waters, and promoting the conservation and management of Commercial fishery resources.

Services for Commercial Fisheries: The following services are provided to aid commercial fisheries:

Information. The conduct of a market news service for the collection and publication of current domestic and foreign market information on fishery commodities; conduct of surveys to collect, analyze, and disseminate statistics on the production, prices, processing, storage, and marketing of fishery products; and collection and dissemination of data on foreign fisheries.

Economic and Technical Research. The exploration of fishing grounds and study of fishing operations to determine the character, extent, and availability of resources and to devise, test, and demonstrate the most effective gear and vessel types; provision of a market development service to encourage the flow of domestic fishery products in commerce; and the undertaking of economic research on costs, employment, labor, and prices in the fishing industry.

Federal Aid to States. A cooperative program with the States in the research and development of the commercial fisheries resources of the Nation. Projects proposed by the States and coordinated with programs of other States and the Federal Government are financed on a matching fund basis. Assistance is rendered to States suffering from commercial fishery failures due to resource disasters arising from natural or undetermined causes.

Product Quality Research. The conduct of investigations to improve and develop methods for handling, processing, preserving, storing, and transporting fishery products and byproducts and otherwise assisting the fishing industry in problems of production and distribution; development of voluntary U.S. quality standards for fishery products and the performance of industry financed inspection services to determine adherence to the standards; and study of the composition, properties, and nutritive value of fishery products and byproducts and the development and improvement of fish cookery methods for Federal and State institutions and the U.S. consumer.

Loans and Grants. The administration of a fisheries loan fund for financing and refinancing the cost of purchasing, constructing, equipping, maintaining, repairing, or operating commercial fishing vessels or gear; administration of a fishing vessel mortgage insurance program which provides for the insurance of loans and mortgages made in connection with the construction, reconstruction, or reconditioning of fishing vessels; and administration of the payment of construction differential subsidies for the construction of commercial fishing vessels.

Cooperatives. The collection of data on the activities of fishery cooperatives to assure their conformity with the provisions of the Fishery Cooperative Marketing Act.

Training. The provision of assistance, in cooperation with the Departments of Labor and Health, Education, and Welfare, in the development of vocational training for the benefit of the fisheries industry.

International Agreements and Fur-Sealing: The Bureau is responsible for the conduct of activities relating to international agreements affecting fishery resources, including the Northwest Atlantic Fisheries Convention, the Shrimp Conservation Convention with Cuba, the Whaling Convention, the Sockeye Salmon Fishery Convention, the Northern Pacific Halibut Convention, the Inter-American Tropical Tuna Convention, the Fur-Seal Convention, and their implementing statutes. The Bureau is also responsible for activities relating to whales, certain other sea mammals, including the fur-sealing operation and activities relating to the administration of the Pribilof Islands and their native population, and the administration and enforcement of laws and regulations relating to international agreements.

Information: Requests for information may be addressed to the Bureau of Commercial Fisheries, Department of the Interior, Washington, D.C. 20240; or any one of the Bureau of Commercial Fisheries Regional or Area Offices.

5. Alaska	Federal Bldg., Juneau, Alaska 99801.
6. Pacific Southwest.	101 Seaside Ave., Terminal Island, Calif. 90731.
Hawaii area	2570 Dole St., Honolulu, Hawaii 96812.

4.3 *Bureau of Sport Fisheries and Wildlife.* Objectives: To insure the conservation of the Nation's wild birds, mammals, and sport fish, both for their recreational and economic values, and to prevent their destruction or depletion while still encouraging the maximum possible present use of the Nation's fish and wildlife resources.

Organization: The Bureau of Sport Fisheries and Wildlife consists of a headquarters office at Washington, D.C., five regional offices, and wildlife refuges, fish hatcheries, research laboratories, and other offices located throughout the United States.

Activities: Migratory Birds: The Bureau is responsible for the conservation of migratory bird resources pursuant to the Migratory Bird Treaty Act, other Federal acts, and treaties with the Governments of Canada and Mexico. Research is conducted on the histories, habits, distribution, and diseases of the species, and serves as a basis for management. Annual studies are made of breeding ground conditions, hunter kills, and the relative abundance of birds in cooperation with the States and the Governments of Canada and Mexico. The studies serve as the basis for promulgating Federal hunting regulations which are administered by the Bureau in cooperation with the States. Coordinated flyway management plans are developed in cooperation with State flyway councils, and take into account all factors affecting the resource, including the need for nesting, resting, and wintering sanctuaries.

Sport Fisheries: A system of over 100 fish hatcheries is operated for the propagation and distribution of various species of sport fishes, including trout, salmon, bass, and catfish. The stocking of public waters and farm fish ponds is carried out in cooperation with State fish and game departments.

Research is conducted on the nutritional and disease factors that affect hatchery-raised fish and the factors that affect their survival and growth after they are planted in various waters.

National Wildlife Refuges: Approximately 321 national wildlife refuge areas, encompassing about 28,500,000 acres, are managed throughout the United States and Puerto Rico. These refuges variously provide nesting, resting, and wintering sanctuaries for migratory birds; range for big game, such as the bison, elk, and mountain sheep; and nesting grounds for upland birds and scarce exotic species, such as the whooping crane and the trumpeter swan. Portions of some of the areas are open to public hunting and fishing as biological conditions permit. When not incompatible with their wildlife management functions, the areas provide recreation for large segments of the public and economic benefits from agricultural crops, furs, timber, mineral royalties, and public concession fees.

Wildlife Services: This program provides services for determining, using, and promoting the best methods of managing wildlife in their natural habitat. It also provides supervision of the control of predatory animals destructive to livestock and game in the Western United States. In addition, extension services are rendered in the control of commensal and field rodents harmful to agriculture. Programs are executed in cooperation with States, counties, livestock associations, and other public and private agencies.

Federal Aid to States and Possessions: The Bureau administers the Federal aid in Fish and Wildlife Restoration Acts which authorize grants-in-aid to the States and Puerto Rico, Guam, and the Virgin Islands. Under this program grants-in-aid are authorized up to 75 percent of the cost of projects for investigation, acquisition of land, and development and maintenance of fish and wildlife habitat.

River Basin Studies: This program examines the effects on fish and wildlife resources of water use projects of Federal agencies and public and private agencies under Federal license. It is authorized by the Fish and Wildlife Coordination Act, the Federal Power Act, and the Watershed Protection and Flood Prevention Act. Studies have as their objective the recommending of measures for the protection and improvement of fish and wildlife resources and are conducted in cooperation with State fish and game departments and conservation agencies.

5. Northeast	1106 Blake Bldg., Boston, Mass. 02111.

4.4 *National Park Service.* Creation and authority: The National Park Service was established in the Department of the Interior by the act of August 25, 1916 (39 Stat. 535; 16 U.S.C. 1). Subsequent acts, Executive orders, and proclamations have added to the National Park System and expanded the activities of the Service.

Objectives: To promote and regulate the use of national parks, monuments, and similar reservations in conformity with the act of August 25, 1916, in order to "conserve the scenery and the natural and historic objects and the wildlife therein and to provide for the enjoyment of the same in such manner and by such means as will leave them unimpaired for the enjoyment of future generations." This objective extends to the Service's activities in the preservation of American antiquities, historic and prehistoric sites and buildings, and properties of national historic or archeologic significance as well as the operation of recreation areas of national significance. A further objective of the Service is to provide assistance to the States in the management, operation, and development of public park and recreational-area facilities.

Organization: The National Park Service is composed of a headquarters staff in Washington, D.C.; three planning and service centers; six regional offices; and several hundred field areas, which include national parks, monuments, recreation areas, and numerous categories of historic areas.

Activities: The programs carried on by the National Park Service stem primarily from its responsibility to provide areas for public enjoyment, and to give the fullest possible protection to the natural and historic resources comprising such areas. The protection program consists not only of preventing fires, stream pollution, and injury to natural, historic, or prehistoric features, but also of restricting uses that are incompatible with the basic purposes of the parks. An integral part of the overall program is to provide for the needs of the visiting public. The Service also conducts interpretive, informational, and investigative programs relating to park resources and use.

4.10 *Bureau of Mines.* Creation and Authority. The Bureau of Mines was established July 1, 1910, in the Department of the Interior by act of May 16, 1910, as amended (30 U.S.C. 1, 3, 5–7); was transferred to the Department of Commerce in 1925 and returned to the Department of the Interior in 1934 under the President's reorganization powers. The 1910 act, as amended, has been supplemented by statutes authorizing the production and sale of helium, and helium research (50 U.S.C. 167); inspection of coal mines (30 U.S.C. 461–460, as amended); activities leading to the prevention of major disasters in coal mines (30 U.S.C. 471–483), and responsibilities as set forth in the Federal Metal and Nonmetallic Mine Safety Act (80 Stat. 772; 30 U.S.C. 721 note).

Objectives: The Bureau of Mines conducts programs designed to conserve and develop mineral resources and to promote safety and healthful working conditions in the mineral industries.

Organization: The Bureau is composed of a headquarters in Washington, D.C., and field establishments for mineral resource development; minerals research centers and laboratories; health and safety; helium; and two administrative field offices in Pittsburgh, Pa., and Denver, Colo.

Work Programs and Studies: Minerals Research: The Bureau's scientific and engineering research is related to conservation, development, and utilization of minerals, including fuels. Research and development programs are conducted in mining, beneficiation, and metallurgy to assure adequate supplies of mineral commodities. Particular attention is paid to critical and strategic commodities essential to national security and processes designed to assure effective use of domestic mineral resources; research and development into ways and means for utilizing or economically disposing of solid mineral wastes; the causes and elimination of air pollution; and the Bureau's program in oceanography.

Fuels Research: Programs and activities in fuels research and development are designed to minimize waste; to increase efficiency; and through reducing costs, to promote the use of hitherto uneconomic fuels. The objectives of these programs are to assure adequate sources of energy for economic expansion and national security.

Explosives Research: Studies are made of the explosion hazards of dusts, fumes, and gases; the intent is to promote safety in all places where these hazards are present. Research is also conducted on commercial explosives to determine their effectiveness and permissibility in the promotion of safety and the improvement in mining techniques.

Mineral Resources: Mineral and fuel studies are conducted and engineering evaluations are made of marginal mineral and fuels deposits. Studies are made of mining methods and production techniques, and long-range resource investigations are conducted where conservation of other resources, such as waterpower, is involved. Determinations are made regarding the anticipated requirements of energy and resources for economic growth and development.

Helium: Helium production, conservation, distribution, transportation and research are carried on to insure an adequate low cost supply of this strategic gas for military and other agencies of the Government, and for non-Federal users requiring helium for commercial, medical, and scientific uses.

Health and Safety: Programs are conducted to reduce fatalities and injuries and improve health and safety conditions in the mineral industries. This is accomplished through research to devise acceptable standards for mining operations; training of mine personnel in safe practices and rescue and recovery methods; and, under certain circumstances, closure of unsafe mines.

Economics and Statistics: Economical and statistical studies, made by the Bureau, of domestic and foreign mineral production, distribution, and consumption provide the Government with essential information for policy and program formulation and supply industry with information needed in its operations. A health and safety statistical program is conducted and correlated with the commodity program.

4.11 *The Geological Survey.* Creation and authority: The Geological Survey was established by the act of March 3, 1879 (20 Stat. 394; 43 U.S.C. 31), which provided for "the classification of the public lands and the examination of the geological structure, mineral resources, and products of the national domain." The act of September 5, 1962 (76 Stat. 427; 43 U.S.C. 31(b)), expanded this authorization to include such examinations outside the national domain. Topographic mapping and chemical and physical research were recognized as an essential part of the investigations and studies authorized by the organic act, and specific provision was made for them by Congress in the act of October 2, 1888 (25 Stat. 505, 526).

Following the early work on classification of lands available for irrigation, provision was made in 1894 for gaging the streams and determining the water supply of the United States (28 Stat. 398). Authorizations for publication, sale, and distribution of the maps, atlases, monographs, bulletins, water supply papers, professional papers, and other documents prepared by the Geological Survey were contained in several statutes (43 U.S.C. 41–45; 44 U.S.C. 260–262).

Objectives: To perform surveys, investigations, and research covering topography, geology, and the mineral and water resources of the United States; classify land as to mineral character and water and power resources; furnish engineering supervision for power permits and Federal Power Commission licenses; enforce departmental regulations applicable to oil, gas, and other mining leases, permits, licenses, development contracts, and gas storage contracts; and publish and disseminate data relative to the foregoing activities.

Organization: The Geological Survey consists of a headquarters organization, most of which is in Washington, D.C., and a field organization made up of separate functional area offices and their subordinate field offices.

Activities: Conservation: Classify Federal land as to water storage, waterpower, and mineral value; supervise mining and oil and gas leases on Federal, Indian, Outer Continental Shelf, and certain Naval Petroleum Reserve lands; promote the safety and welfare of workmen in mineral industries; maintain production accounts and collect royalties; prepare maps and reports for publication; provide the Bureau of Land Management and other Federal agencies geologic and engineering advice and services for the management and disposition of the public domain.

Geology: Make geologic surveys and investigations to determine and appraise the mineral and mineral fuels resources and the geologic structure of the United States and its territories, and provide scientific and technical assistance in appropriate fields, both domestically and abroad, to other Federal agencies, and administer an exploration program for the discovery of domestic mineral reserves by private industry with Federal assistance. Activities designed to accomplish these objectives include: geologic mapping; physical exploration, when necessary; development of new prospecting techniques; research into geologic principles and processes to provide guidance for significant geologic interpretations; specialized research in geochemistry, geophysics, and paleontology in support of the geologic and mineral resource investigations; and collation and synthesis of geologic information on mineral and mineral fuels resources. The results of investigations are published in bulletins, professional papers, circulars, geologic and related map series, reports printed by cooperative agencies, and in trade and technical journals.

Topographic Mapping: Prepare and publish the maps of the National Topographic Map Series, covering the United States and its outlying areas; systematically revise existing maps to maintain their usefulness; conduct research in topographic surveying and mapping, including the component phases of control surveys, aerial photography, photogrammetry and cartography, on both the techniques and the instrumentation of mapping operations; carry out research on domestic geographic names in connection with the Board on Geographic Names to resolve problems of accuracy and propriety of name usage.

Water Resources: Determine the source, quantity, quality, distribution, movement, and availability of both surface and ground waters. This work includes investigations of floods and droughts, their magnitude, frequency, and relation to climatic and physiographic factors; the evaluation of available waters in river basins and groundwater provinces, including water requirements for industrial, domestic, and agricultural purposes; the determination of the chemical and physical quality of water resources and the relation of water quality and suspended sediment load to various parts of the hydrologic cycle; special hydrologic studies of the interrelations between climate, topography, vegetation, soils, and the water supply; research to improve the scientific basis of investigations and techniques; scientific and technical assistance in hydrologic fields to other Federal agencies; and the coordination of national network and special water data acquisition activities of Federal agencies. The results of these investigations are published in the series of Geological Survey publications.

4.30 *Bureau of Indian Affairs.* Creation and Authority: The Bureau of Indian Affairs was created in the War Department in 1824 and transferred to the Department of the Interior at the time of its establishment in 1849. The Snyder Act of 1921 (42 Stat. 208; 25 U.S.C. 13) provided substantive law for appropriations covering the conduct of activities by the Bureau of Indian Affairs. The scope

and character of the authorizations contained in this act were broadened by the Indian Reorganization Act of 1934 (48 Stat. 984; 25 U.S.C. 461 et seq.).

Objectives: The main objectives of the Bureau's program are: maximum Indian economic self-sufficiency; full participation of Indians in American life; and equal citizenship privileges and responsibilities for Indians.

Organization: The Bureau of Indian Affairs consists of a central office in Washington, D.C., and area offices and subordinate field installations located throughout the country. The field installations include Indian agencies, boarding schools, and irrigation projects.

Objectives: (1) to work with the Indian people in the development of programs leading toward full-fledged Indian responsibility for the management of their own property and affairs in the same manner as other citizens; (2) to assist in individual and group development by providing an exemplary education program for Indian children of school age and providing adult education (literacy; social, political, and economic organizations; working with non-Indian communities and groups and other governmental agencies); (3) to assist Indian people (both tribally and individually) in providing options for either staying on the reservation or moving to nonreservation communities through furnishing guidance, training, and financial assistance to those Indians who wish to leave reservation areas and enter normal channels of American economic and social life; developing programs, in cooperation with local and State agencies, to attract industries to reservation areas to increase the economic base; and as trustee, assisting the Indians in making the most effective use of their lands and other resources; and (4) to provide public services, such as welfare services and law and order, when these services are not available to Indians through their own or other agencies.

4.21 *Bureau of Land Management.* Creation and Authority: The Bureau of Land Management was established on July 16, 1946, through the consolidation of the General Land Office (created in 1812) and the Grazing Service (formed in 1934) in accordance with the provisions of sections 402 and 403 of the President's Reorganization Plan 3 of 1946 (5 U.S.C. 133y-16).

Objectives: The Bureau of Land Management is partially or totally responsible for the administration of mineral resources on about 770 million acres, approximately one-third of the area of the United States. Of this 770 million acres, the Bureau has exclusive jurisdiction for the management of lands and resources on some 457 million acres. The basic objective of this management program is to obtain for the American people the benefits of skillful coordination through multiple use management and, with respect to renewable resources, production at a sustained yield. The Bureau recognizes the following resource activities on the public lands: domestic livestock grazing, fish and wildlife development, and utilization, industrial development, mineral production, occupancy, outdoor recreation, timber production, watershed protection, wilderness protection, and preservation of other public values.

Organization: The Bureau organization consists of the headquarters in Washington, D.C., and a field organization of State Offices, land offices, district offices, service centers, Job Corps conservation centers, and Outer Continental Shelf offices.

Activities: Lands and Minerals Management: The Bureau studies, classifies, and provides for proper use of public lands. It acts upon applications and claims for the use of or title to public lands, issues leases, licenses, or permits for land use, and grants instruments for patent or other title conveyance in fulfillment of public land laws. Under the mining and mineral leasing laws the Bureau administers a program of development, conservation, and utilization of mineral resources through the leasing of minerals on public lands and on lands in other ownership on which the mineral rights are federally owned, and through the issuance of mineral patents and other instruments relating to mineral resource development. It conducts studies relative to minerals and other resource development and use.

Range and Forest Management: Through the granting of grazing permits and allotments in grazing districts, and the issuance of grazing leases on public lands outside grazing districts, the Bureau administers grazing and range activity to protect the productivity of the lands and to permit the highest use of forage, and carries out programs for the rehabilitation of deteriorated range lands. The Bureau also carries out sustained yield forest management on timber lands under its jurisdiction for the dual purpose of obtaining continuous timber production at the highest possible level, and promoting the economic stability of dependent communities.

Watershed Management: The Bureau carries out a coordinated program for the conservation, development, and utilization of water in order to preserve and protect the soil and water resources. The program is a combination of land treatment and structural practices having a planned pattern in support of multiple use management. It is designed to regulate surface water runoff for control of accelerated erosion, and to stabilize the soil resources implementing resource use.

Recreation and Wildlife: The Bureau has varied program responsibilities for outdoor recreation and wildlife values of the public lands. In some instances this includes the construction of roads and trails to provide public access to the public lands and the construction, operation, and maintenance of recreational facilities. The Bureau sells or leases to State and local governments, for recreational purposes, public domain lands that are best suited for such purposes. It also participates with Federal, State, and local agencies in cooperative programs involving the management of recreation and wildlife resources and develops habitats for wildlife.

Protection: The Bureau carries out programs relating to the protection of lands and resources under its jurisdiction. This includes fire protection through prevention, presuppression, and suppression; trespass protection; and protection from insects, pests, and diseases.

Engineering: The Bureau maintains the statutory engineering service for the survey and resurvey necessary for the identification and description of public lands. The Bureau also surveys and prepares maps necessary for the administration of mineral leasing on the submerged lands of the Outer Continental Shelf. It approves mineral surveys executed by U.S. mineral surveyors. It also develops transportation plans and plans for design and construction of access roads to public lands, and provides engineering standards covering design and construction of soil moisture and range improvement projects, buildings, and facilities.

Records: The Bureau maintains the land records which are basic to the real property structure of the public land States and which are essential to the effective administration of the public lands and their vast resources. Land records are the source of such basic information as (a) the Federal ownership of public domain, (b) the identification or location of public domain which has been conveyed to private ownership, (c) the mineral and other rights retained by the Federal Government in patented lands, (d) vacant public domain withdrawn or reserved for special uses, and (e) leases, licenses, and permits for lands and/or resources granted by the United States.

The Bureau administers five Job Corps conservation centers offering program of basic education and work experience. Work projects consist of conservation projects and recreational development.

4.22 *Bureau of Outdoor Recreation.* Creation and authority. The Bureau of Outdoor Recreation was created April 2, 1962. Under the act of May 28, 1963 (16 U.S.C. 460*l*), the Bureau is responsible for promoting coordination and development of effective programs relating to outdoor recreation. The Bureau carries out most of the responsibilities delegated to the Secretary under the Land and Water Conservation Fund Act of 1965 (78 Stat. 897; 16 U.S.C. 460*l*-4). Numerous functions are performed under the Federal Water Project Recreation Act (79 Stat. 213; 16 U.S.C. 460*l*-12, note).

Functions. The Bureau is responsible for preparing and maintaining a continuing inventory and evaluation of the outdoor recreation needs and resources of the United States; preparing a system for classification of outdoor recreation resources; formulating and maintaining a comprehensive nationwide outdoor recreation plan; promoting coordination of Federal plans and activities relating to outdoor recreation; cooperating with and providing technical assistance to States, political subdivisions, and private interests; encouraging interstate and regional cooperation; sponsoring, engaging in, and assisting with research relating to outdoor recreation; and cooperating with and providing technical assistance to Federal departments and agencies. Under the Land and Water Conservation Fund Act of 1965, the Bureau also administers a program of financial assistance grants to States for the purpose of facilitating outdoor recreational planning, acquisition, and development activities. Under the provisions of the Federal Water Project Recreation Act, the Bureau participates directly in the planning, coordination, and establishment of uniform policies with respect to recreation and fish and wildlife benefits and costs of Federal multipurpose water resource projects.

Organization: The Bureau is composed of a headquarters staff in Washington, D.C., and six regional offices. The headquarters staff consists of a Director, Associate Director, five Assistant Directors, and the Divisions of Federal Programs Review, and Federal Coordination—Land and Water Conservation Fund, Council Staff Services, Council Studies, Legislative Review, State Planning and Technical Assistance, Grants-in-Aid—Land and Water Conservation Fund, Nationwide Planning and Surveys, Water Resources, Special Area Studies, Research and Education, Personnel Management and Organization, Program Development and Management Operations, Financial Operations, and the Office of Recreation Information.

Pacific Southwest	450 Golden Gate Ave., San Francisco, Calif. 94102.

4.23 *Office of Territories.* Creation and authority: The Office of Territories was established by the Secretary of the Interior on July 28, 1950, to assist in carrying out certain of his responsibilities pertaining to noncontiguous areas under the jurisdiction of the Government of the United States. Prior to that time territorial functions were performed by the Division of Territories and Island Possessions, which was established by a 1934 Executive order as a part of the Office of the Secretary.

Objectives: The objective of the Office of Territories with respect to the American territories of Guam, American Samoa, and the Virgin Islands is the promotion of economic, social, and political development leading to a full measure of self-government and the active participation of residents of these territories in the life of the Nation. The objective is similar with respect to the Trust Territory of the Pacific Islands, giving due recognition to its trust status and the need to bring the people of that territory to a point where they can make a determination as to their own political future. The degree to which the Office of Territories conducts activities to further these objectives in a specific territory depends on the status of the territorial government, its relationship to the Secretary of the Interior, and the extent of development already achieved within the territory.

Organization: The Office of Territories is composed of a headquarters organization in Washington, D.C.

Activities: The Office of Territories is assigned the responsibility of performing the following functions:

Staff: Serves as the principal staff office to the Office of the Secretary on all territorial matters. The conduct of staff activities consists of: (a) making the needs of the territories known to other Federal agencies, representing the interests of the territories before other Federal agencies, and serving as the channel of communication with the territorial governments; (b) studying the economic, social, and political problems of the territories and proposing policies, programs, and other actions for their solution; (c) reviewing the functioning of territorial governments and suggesting or recommending improvements; and (d) advising the Office of the Secretary on proposed legislation and other important matters affecting the territories.

Administration: Administers Wake, Canton, Palmyra, and Enderbury Islands and Jarvis, Baker, and Howland Islands, all of which have been placed under the jurisdiction and control of the Secretary for administrative purposes.

Administrative Assistance: Provides budgetary and certain other administrative services to the offices of the governors of the territories and to the Government of the Trust Territory of the Pacific Islands.

4.30 *Federal Water Pollution Control Administration.* Creation and authority. The Federal Water Pollution Control Administration was created by section 2 of the Water Quality Act of 1965 (79 Stat. 903; 33 U.S.C. 466 note), approved October 2, 1965, effective December 31, 1965. The Federal Water Pollution Control Administration became a bureau in the Department of the Interior under Reorganization Plan 2 of February 28, 1966, effective May 10, 1966, to carry out the provisions of the Water Pollution Control Act, as amended (70 Stat. 498; 33 U.S.C. 466), section 702(a) of the Housing and Urban Development Act of 1965 (79 Stat. 490; 42 U.S.C. 3102), section 212 of the Appalachian Regional Development Act of 1965 (79 Stat. 16; 40 U.S.C. App. 212), section 106 of the Public Works and Economic Development Act of 1965 (79 Stat. 554; 42 U.S.C. 3136), section 48(h)(12)(B) of the Internal Revenue Code of 1954, as amended (80 Stat. 1508; 26 U.S.C. 48), Oil Pollution Act, 1924, as amended (80 Stat. 254; 33 U.S.C. 431), Executive Order 11288, and Interdepartmental Agreement Concerning Consultation on Health Aspects of Water Pollution Control, approved September 1, 1966.

Purpose: The Administration administers a national program to enhance the quality and value of the Nation's water resources and to otherwise assure the fulfillment of a national policy for the prevention, control, and abatement of water pollution. The major functions of the Administration are: (1) Development or conduct of comprehensive and

special programs designed to eliminate or reduce the pollution of interstate waters and their tributaries; (2) award of grants to the States and to interagency agencies to assist in the development of comprehensive river basin water control and abatement plans, and, additionally, for the establishment and maintenance of measures for the prevention and control of water pollution; (3) encouragement and cooperative support of State enforcement authorities and exercise of Federal authority as required to abate pollution of interstate or navigable waters and violations of water quality standards established for interstate waters; (4) encouragement of the development and enactment of improved State laws and the development of interstate compacts; (5) conduct, promotion, and support of research investigations, experimentation, and demonstrations including the publication of related results and information; (6) award of grants for the construction of municipal waste treatment works; (7) award of grants, and utilization of contract authority, to assist in demonstrating new or improved methods for controlling pollutional waste discharges from storm sewers or storm and sanitary systems; (8) administration of programs involving fellowship, research, and training grants; (9) support and conduct of technical training; and (10) implementation of provisions of Executive Order 11288 which prescribes policies and procedures for the prevention, control, and abatement of water pollution by Federal activities, including facilities or operations supported by Federal loans, grants, or contracts.

Organization: The Office of the Commissioner and the following principal organizational components comprising the headquarters staff are located in Washington, D.C.: Assistant Commissioners for Administration, Program Plans and Development, Comprehensive Planning and Programs, Facilities Programs, Technical Programs, Research and Development, and Enforcement. The Administration communicates with State and local authorities, with other public and private organizations, including industrial, commercial, educational and other institutions concerned with water pollution abatement activities, through regional offices. In addition, comprehensive, technical assistance, and special study projects are located in various field locations throughout the United States. Water pollution control laboratories are in existence in College, Alaska; Ada, Okla.; Corvallis, Oreg.; Athens, Ga. Laboratories are planned for construction in Boston, Mass.; Ann Arbor, Mich.; the State of Maryland; Columbia, Mo.; Vicksburg-Jackson, Miss.; and Stevens Point, Wis. Water quality standards laboratories are currently being constructed in Narragansett, R.I., and Duluth, Minn. Major research and technical assistance activities are also carried out in the Administration's laboratories located in Cincinnati, Ohio.

REGIONAL OFFICES—FEDERAL WATER POLLUTION CONTROL ADMINISTRATION

Region	Headquarters

South Central	1114 Commerce St., Dallas, Tex. 75202.
Southwest	100 McAllister St., San Francisco, Calif. 94102.
Northwest	Pittock Block, Portland, Oreg. 97205.

4.40 *Bureau of Reclamation.* Creation and authority: The Reclamation Act of 1902 (32 Stat. 388; 43 U.S.C. 391 et seq.), authorized the Secretary of the Interior to locate, construct, operate, and maintain works for the storage, diversion, and development of waters for the reclamation of arid and semiarid lands in the Western States. To perform these functions, the Secretary in July 1902 approved an organization plan for a Reclamation Service in the Geological Survey. In March 1907 the Reclamation Service was removed from the Survey and established under a Director. In June 1923 the Secretary created the position of Commissioner of Reclamation and changed the name Reclamation Service to Bureau of Reclamation.

Objectives: The objectives of the Bureau of Reclamation, pursued in cooperation with other bureaus of the Department of the Interior, other Federal agencies, States, and local groups, include: the transformation through irrigation of arid and semiarid lands into productive farms; the maintenance of production on lands threatened with retrogression to desert, through the provision of supplemental water for irrigation; the development and administration of sound financial arrangements for reimbursement by water users of expenses incurred by the Government which are allocable to irrigation and subject to repayment; and the transmission and sale or exchange of electric power and energy generated at Bureau projects and at certain reservoir projects under the control of other national and international agencies. It also includes reduction of the hazards and damages of uncontrolled flood runoff; maximum economical production of hydroelectric power and energy consistent with established priorities governing the impoundment and release of water for other purposes; river regulation; improvement of navigation; provision of water for municipal, domestic, and industrial use, on a repayment basis; conservation of fish and wildlife; abatement of sedimentation, salination, and pollution of streams and other water courses; enhancement of natural beauty; and the provision of new or enhanced recreational facilities.

Organization: The Bureau of Reclamation consists of the following principal segments: the Commissioner's Office at Washington, D.C., the Office of Chief Engineer at Denver, Colo., seven regional offices, an Alaska district, and project and other operating offices in the regions and in Alaska.

Activities: Major functions of the Bureau of Reclamation include: investigation and development of plans for potential projects to regulate, conserve, and utilize water and related land resources; design and construction of authorized projects for which funds have been appropriated by the Congress; operation and maintenance of projects and project facilities constructed by the Bureau and of completed hydroelectric power projects constructed by the Department of the Army in Alaska; the inspection of the operation and maintenance of projects and project facilities constructed by the Bureau but operated and maintained by water users; settlement of public or acquired lands on Bureau projects; administration of the Small Reclamation Projects Act of 1956; negotiation, execution, and administration of repayment contracts, water service contracts, water-user operation and maintenance contracts, and contracts required by statutes relating to the irrigation of excess lands.

The Bureau also has responsibility for negotiation, execution, and administration of contracts for the sale, interchange, purchase, or wheeling of electric power and energy generated at: (1) Powerplants constructed and operated by the Bureau of Reclamation, except the marketing of available surplus electric power generated at Grand Coulee Dam, Hungry Horse Dam, the Chandler and Roza Powerplants of the Yakima Project, and all Federal reclamation projects in the Snake River Basin; (2) reservoirs in the Missouri Basin and in Alaska that are under the control of the Department of the Army; and (3) Falcon and Amistad Dams on the Rio Grande. It also administers an atmospheric water resources research program designed to determine the economic feasibility of increasing the water supply available to reclamation projects through the application of weather modification techniques. The Bureau constructs and operates Job Corps conservation centers, as delegated, and renders technical assistance to foreign countries in water resource development and utilization in cooperation with the Agency for International Development of the Department of State, and other agencies engaged in international technical cooperation.

MAJOR FIELD OFFICES—BUREAU OF RECLAMATION

Columbia - North Pacific Basin Planning Office.	511 NW. Broadway, Box 4377, Portland, Oreg. 97208.

4.41 *Bonneville Power Administration.* Creation and Authority: The Bonneville Power Administration was created pursuant to the act of August 20, 1937 (50 Stat. 731, as amended; 16 U.S.C. 832 et seq.). Through a regionwide interconnecting transmission system it markets electric power and energy from Federal hydroelectric projects in the Pacific Northwest. These generating projects are constructed and operated by the Corps of Engineers or the Bureau of Reclamation.

Objectives: The Bonneville Power Administration is guided by Federal power policies established by various acts of Congress and, consistent therewith, by the President and by the Secretary of the Interior. The Administration conducts a program based on the following fundamental principles of Federal power development: Federal dams shall where feasible include facilities for generating electric energy; power disposal shall be designed to encourage the widest possible use of all electric power and energy that can be generated and marketed, to provide reasonable outlets therefor, and to prevent the monopolization thereof by limited groups; power generation and disposal shall be for the benefit of the general public, particularly for domestic and rural customers; preference in power sales shall be given to public bodies and cooperatives; and electric power and energy shall be made available to the ultimate consumer at the lowest possible rates consistent with sound business principles.

Organization: The Administration consists of the headquarters office at Portland, Oreg.; a Washington, D.C., liaison office; and five area and three district offices located at various points in the Pacific Northwest.

Activities: The Administration conducts power marketing programs to assure maximum and widespread use of low cost power for homes, farms, and industry and to provide the basis for sustained industrial development and economic growth in the region. It negotiates contracts for the wholesale disposition of electric power and energy; prepares wholesale rates and repayment schedules; constructs, operates, and maintains a transmission system to integrate the Federal power projects, transmit their output at uniform rates to load centers throughout the entire marketing area, and interconnect them with non-Federal utility systems throughout the Pacific Northwest region. The Federal transmission system is also utilized, under appropriate contracts, for the wheeling of power from non-Federal generating plants to load centers.

The Administration's program involves planning activities to make possible the timely construction and full development of new projects and facilities; achievement from the Federal power system of maximum practicable amounts of firm power for the ultimate user; and the enlargement of regional cooperative pools of generation and transmission facilities. The Administration also conducts a research and development program to advance the technology of extra high voltage transmission.

The Administrator participates with other Government agencies and non-Federal groups in planning for the continuing development of the region's potential hydroelectric resources to meet long-term power needs, and in the development and implementation of operating agreements designed to achieve the most effective utilization and coordination of available generating and transmission facilities through the integrated operation of the Federal power generating and transmission facilities and those of non-Federal entities.

BPA in cooperation with the Corps of Engineers represents the United States in implementing the provisions of the Columbia River Treaty with Canada for the joint development of the Columbia River. BPA is constructing jointly with the Bureau of Reclamation and public and private utilities the Pacific Northwest-Pacific Southwest Intertie to achieve optimum utilization of power resources between the two regions. It is also engaged in planning the possible interconnection of other areas served by the Department of the Interior marketing agencies with adequate common carrier transmission facilities.

MAJOR FIELD OFFICES—BONNEVILLE POWER ADMINISTRATION

Office	Headquarters
Idaho Falls area	529 Lomax St., Idaho Falls, Idaho 83401.
Portland area	5329 NE. Union Ave., Portland, Oreg. 97208.
Seattle area	514 First Ave., North, Seattle, Wash. 98109.
Spokane area	860 Bon Marche Bldg., Spokane, Wash. 99201.
Walla Walla area	19 E. Poplar St., Walla Walla, Wash. 99362.
Eugene District	834 Pearl St., Eugene, Oreg. 97401.
Kalispell District	1st St. and 1st Ave. W., Kalispell, Mont. 59901.
Wenatchee District.	1630 N. Wenatchee Ave., Wenatchee, Wash. 98801.

4.42 *Southeastern Power Administration.* Creation and Authority. The Southeastern Power Administration was created by the Secretary of the Interior in 1950, to carry out functions assigned to the Secretary by the Flood Control Act of 1944 (58 Stat. 890), which pertains to the transmission and disposition of surplus electric power and energy generated at reservoir projects which are or may be under the control of the Department of the Army in the States of West Virginia, Virginia, North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi, Tennessee, and Kentucky.

Objectives. The Southeastern Power Administration transmits and disposes of the surplus electric power and energy generated at the Federal reservoir projects in such manner as to encourage the most widespread use. To accomplish this, the Administration sets the lowest possible rates to consumers, consistent with sound business principles, and gives preference in the sale of such power and energy to public bodies and cooperatives.

Organization. The Southeastern Power Administration consists of a headquarters office at Elberton, Ga.; it has no field offices.

Activities. The program of the Administration includes the negotiation, preparation, execution, and administration of contracts for the disposition of electric power; the preparation of wholesale rates and repayment schedules; the provision by construction, by contract, or otherwise, of transmission and related facilities to interconnect reservoir projects and to serve contractual loads; and activities pertaining to the operation of power facilities.

4.43 *Southwestern Power Administration.* Creation and authority: The Southwestern Power Administration was created by the Secretary of the Interior in 1943, to carry out the Secretary's responsibility for the sale and disposition of electric energy generated at certain projects constructed and operated by the Federal Government. The Administration carries out, with respect to specified projects, functions assigned to the Secretary by the Flood Control Act of 1944 (58 Stat. 890; 16 U.S.C. 825s).

Objectives: The Southwestern Power Administration transmits and disposes of the surplus electric power and energy generated at the Federal reservoir projects in such manner as to encourage their most widespread use. To accomplish this, the Administration sets the lowest possible rates to consumers, consistent with sound business principles, and gives preference in the sale of such power and energy to public bodies and cooperatives.

Organization: The Southwestern Power Administration consists of the headquarters office located at Tulsa, Okla.; a Washington, D.C. office; two area maintenance offices at Muskogee, Okla., and Springfield, Mo.; maintenance units located at Muskogee and Ada, Okla., Springfield, Mo., and Jonesboro, Ark.; and a dispatcher's office at Springfield, Mo.

Activities: The Administration is designated as the agency to market available surplus electric power and energy

generated at the following multiple purpose reservoir projects of the Department of the Army: Beaver, Blakely Mountain, Broken Bow, Bull Shoals, Dardanelle, DeGray, Denison, Eufaula, Fort Gibson, Greers Ferry, Kaysinger Bluff, Keystone, Robert S. Kerr, Narrows, Norfolk, Sam Rayburn, Stockton, Table Rock, Tenkiller Ferry, Ozark Lock and Dam, Webber Falls Lock and Dam, and Whitney. In this capacity the Administration is assigned the responsibility of performing the following functions: prepare, negotiate, and administer contracts for the disposition, including sale or interchange, of electric power and energy; prepare wholesale rates and repayment schedules; design and construct transmission lines, substations, and related facilities to interconnect reservoir projects and to serve contractual loads; and operate and maintain such facilities to insure continuity of electric service to customers.

The Administration develops long-range power marketing programs, including research where necessary, in order to effect maximum utilization of power from existing and proposed hydroelectric developments, and conducts or participates in studies for integration of the assigned hydroelectric facilities with non-Federal generating facilities in the Southwest.

The Administration participates with other Federal and non-Federal agencies in the comprehensive planning of water resource development in the Southwest.

4.44 *Alaska Power Administration.* Creation and authority: The Alaska Power Administration was created by the Secretary of the Interior in June 1967 to carry out functions assigned to the Secretary by the Flood Control Act of 1944 (58 Stat. 890–891), The Flood Control Act of 1962 (79 Stat. 1193), the Eklutna Project Act of 1950 (64 Stat. 382), the Water Resources Act of 1955 (69 Stat. 618), the Land and Water Conservation Act of 1965 (78 Stat. 897), the Federal Water Project Recreation Act of 1965 (79 Stat. 213), and Executive Order 11200 (30 F.R. 2645) as they relate to the State of Alaska.

Objectives: The Administration promotes the development and utilization of water, power, and related resources in Alaska; operates and maintains the Eklutna Project and the Crater-Long Lakes division of the Snettisham project, and disposes of Federal power and energy excess to project needs.

Organization: The Alaska Power Administration consists of a headquarters office located in Juneau, Alaska and one field office.

CIVIL SERVICE COMMISSION

MEDICAL TECHNOLOGISTS, CALIFORNIA AND MILWAUKEE, WIS.

Notice of Adjustment of Minimum Rates and Rate Ranges

Under authority of 5 U.S.C. 5303 and Executive Order 11073, the Civil Service Commission has increased the minimum rates and rate ranges for positions of Medical Technologist, GS-644-5/10 in the State of California. The revised rate ranges are:

PER ANNUM RATES

Grade	1[1]	2	3	4	5	6	7	8	9	10
GS-5	$6,397	$6,563	$6,730	$6,915	$7,091	$7,267	$7,443	$7,619	$7,795	$7,971
GS-6	7,055	7,253	7,451	7,649	7,847	8,045	8,243	8,441	8,639	8,837
GS-7	7,739	7,942	8,156	8,368	8,581	8,794	9,007	9,220	9,433	9,646
GS-8	8,508	8,743	8,978	9,213	9,448	9,683	9,918	10,153	10,388	10,623
GS-9	9,479	9,740	10,001	10,262	10,523	10,784	11,045	11,306	11,567	11,828
GS-10	10,709	10,997	11,285	11,573	11,861	12,149	12,437	12,725	13,013	13,301

[1] Corresponding statutory rate: GS-5—Seventh; GS-6—Seventh; GS-7—Seventh; GS-8—Fifth; GS-9—Fourth; GS-10—Second.

The Civil Service Commission has also increased the minimum rates and rate ranges for positions of Medical Technologist, GS-644-5/9 in Milwaukee, Wis. The revised rate ranges are:

PER ANNUM RATES

Grade	1[1]	2	3	4	5	6	7	8	9	10
GS-5	$6,397	$6,563	$6,730	$6,915	$7,091	$7,267	$7,443	$7,619	$7,795	$7,971
GS-6	6,859	6,857	7,055	7,253	7,451	7,649	7,847	8,045	8,243	8,441
GS-7	7,380	7,593	7,806	8,019	8,232	8,445	8,658	8,871	9,084	9,297

[1] Corresponding statutory rate: GS-5—Seventh; GS-6—Fifth; GS-7—Fourth; GS-8—Third; GS-9—Second.

The effective date of the above rate ranges will be the first day of the first pay period beginning on or after July 16, 1967.

All new employees in the specified occupational levels will be hired at the new minimum rates.

As of the effective date, all agencies will process a pay adjustment to increase the pay of employees on the rolls in the affected occupational levels. An employee who immediately prior to the effective date was receiving basic compensation at one of the rates of the statutory rate range shall receive basic compensation at the corresponding numbered rate authorized by this notice on and after such date. The pay adjustment will not be considered an equivalent increase within the meaning of 5 U.S.C. 5335.

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] JAMES C. SPRY, *Executive Assistant to the Commissioner.*

[F.R. Doc. 67-8421; Filed, July 19, 1967; 8:51 a.m.]

DELAWARE RIVER BASIN COMMISSION

COMPREHENSIVE PLAN

Notice of Public Hearing

Notice is hereby given that the Delaware River Basin Commission will hold a public hearing on Wednesday, July 26, 1967. The hearing will take place in the third floor meeting room of the New Jersey State Library, 185 West State Street, Trenton, beginning at 2:30 p.m. The subject of the hearing will be proposals to amend the Comprehensive Plan so as to include therein the following projects:

1. *Borough of Downingtown.* A project including modifications and additions to the existing sewage treatment plant in the Borough of Downingtown, Chester County, Pa., with a capacity to serve 14,000 people, so as to increase the degree of treatment from approximately 85 percent to 95 percent removal of BOD and suspended solids. Treated effluent will discharge to the East Branch of Brandywine Creek.

2. *Warminster Township Municipal Authority.* A project to increase the capacity of the existing secondary sewage treatment works in Warminster Township, Bucks County, Pa., from 1.6 to 3.8 million gallons per day. Treated effluent will discharge to the Little Neshaminy Creek.

3. *Borough of Phoenixville.* A project to expand the existing secondary sewage treatment plant in Phoenixville, Chester County, Pa., from a capacity of 2 to 4 million gallons per day. Treated effluent will discharge to the Schuylkill River.

4. *Upper Merion Township Authority.* A project to double the capacity of an existing high-rate trickling filter plant to serve an additional 25,000 persons in Upper Merion Township, Montgomery County, Pa. Treated chlorinated effluent will be discharged to Trout Run via an existing outfall sewer.

5. *Media Municipal Authority.* A project to expand the existing sewage treatment plant now capable of serving 6,000 people in Media, Delaware County, Pa., so as to increase its capacity to serve an additional 9,500 persons. Discharge will be to Ridley Creek.

6. *Township of Washington.* A project to provide the Township of Washington, Warren County, N.J., with an intercepting sewer, pumping station and force main to serve an area of the Township not presently served. Collected sewage will be treated in the existing Borough of Washington sewage treatment works.

7. *Borough of Riegelsville.* A well water supply project to augment public water supplies in the Borough of Riegelsville, Bucks County, Pa. Designated as well No. 3, the new facility is expected to yield approximately 200 gallons per minute.

8. *Delaware State Correctional Institution.* A project to supply water to the new State Correctional Institution at Smyrna, Del. Two new wells, designated No. 1 and No. 2, will be developed to deliver 150 and 500 gallons per minute, respectively.

9. *Evesham Municipal Utilities Authority.* A well water supply project to augment public water supplies in Evesham Township, Burlington County, N.J. To be designated well No. 3, the new facility is expected to yield 0.72 million gallons per day.

10. *Mohrsville Water Association.* A project for the construction of a new public water supply system for the Village of Mohrsville, Berks County, Pa. To be derived from a new drilled well, designated well No. 1, with a capacity of 150 gallons per minute.

11. *Warminster Township Municipal Authority.* A well water supply project to augment present supplies in Warminster Township, Bucks County, Pa. To be designated well No. 15, the facility is expected to yield 350 gallons per minute.

DAWES THOMPSON, *Acting Secretary.*

JULY 14, 1967.

[F.R. Doc. 67-8345; Filed, July 19, 1967; 8:45 a.m.]

FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 17555–17558; FCC 67–756]

AZALEA CORP. ET AL.

Memorandum Opinion and Order Designating Applications for Consolidated Hearing on Stated Issues

In re applications of Azalea Corp., Mobile, Ala., Docket No. 17555, File No. BP–17340, requests: 960 kc, 1 kw, Day, Class III; W.G.O.K., Inc. (WGOK), Mobile, Ala., Docket No. 17556, File No. BP–17393, has: 900 kc, 1 kw, DA, Day, Class II; requests: 960 kc, 1 kw, Day, Class III; People's Progressive Radio, Inc., Mobile, Ala., Docket No. 17557, File No. BP–17477, requests: 960 kc, 1 kw, Day, Class III; Mobile Broadcast Service, Inc., Mobile, Ala., Docket No. 17558, File No. BP–17478, requests: 960 kc, 1 kw, Day, Class III; for construction permits; and Azalea Corp., Mobile, Ala., requests: 960 kc, 1 kw, Day, Class III; People's Progressive Radio, Inc., Mobile, Ala., requests: 960 kc, 1 kw, Day, Class III; for interim authority to operate on the facilities of former standard broadcast station WMOZ.

1. The Commission has before it for consideration: The above-captioned and described applications; a request by Azalea Corp. ("Azalea") for interim operating authority [14]; and related pleadings, requests,[15] et al. A chronological list of these items is attached hereto as "Appendix A."

2. The Commission's Public Notice of September 17, 1966 (FCC 66–824), inviting applications to replace the facilities of former Station WMOZ, Mobile, Ala., did not provide for the filing of applications for interim authority. Furthermore, since the proposals tendered do not request interim operation on a joint basis, they will be returned. See Lorain Interim Broadcasting Co., FCC 67–682, released June 14, 1967. At the same time, all other motions and requests concerning interim operating authority will be dismissed as moot.

3. Mobile Marine Radio, Inc. ("WLO"), licensee of Public Coast Station WLO, Mobile, Ala., has filed a formal petition to deny the Azalea construction permit application,[3] and submitted informal objections to the applications of WGOK, People's, and Mobile, on the ground that a grant of any one of them would result in harmful and destructive interference to WLO's reception on its International Calling and Distress frequency (500 kc), with adverse effect upon its exercise of its obligation to assist ships and persons in danger at sea. WLO states that, despite its own efforts to eliminate the interference, the interference continued to hamper WLO's operations until WMOZ (the former occupant of the facilities sought herein) went off the air. As soon as WMOZ terminated operations, WLO says, the interference ceased to exist. WLO expresses concern—particularly in view of its sea safety responsibilities—regarding the possible resumption of such interference as a result of the resumed use of WMOZ's former facilities. It asks that a condition be attached to future operations obligating the permittee to assume full responsibility for elimination of such interference prior to issuance of program test authority. Except to the extent that the reception interference suffered by WLO proves, upon investigation, to be the result of deficiencies in WLO's own equipment or operation, we are satisfied that WLO's request is warranted and consistent with previously expressed Commission policy.[4] An appropriate condition, broad enough to cover the various contingencies is included herein.

[14] People's Progressive Radio, Inc. ("People's") also filed for interim authority. However, on Apr. 24, 1967, it requested dismissal of its application.

[15] Appendix A filed as part of original document.

[3] Azalea, in its "Opposition * * *" pleading, contends that WLO lacks standing to file a petition to deny, on the ground, inter alia, that "Azalea is not proposing to operate on the International Distress Frequency * * *." It is unnecessary to rule on this point, since it is clear that the important question raised by WLO regarding all four applicants' proposals may be considered equally well by considering all of its communications to the Commission regarding that question as informal objections.

[4] See Midnight Sun Broadcasting Co., 3 RR 1486 (1947).

4. Springfield Broadcasting Co., Inc. ("WMOO"), licensee of standard broadcast Station WMOO, Mobile, Ala., in a "Petition to Deny" filed October 24, 1966, questions the adequacy of Azalea's financial and program proposals.[1] Regarding Azalea's financial proposal, WMOO contends that—notwithstanding Azalea's claims to the contrary—the Azalea application must be judged in the light of the Ultravision[2] test, i.e., a showing of sufficient funds to meet the proposed station's initial and first-year-operating expenses; and that the Azalea financial proposal fails to meet that test.

5. Azalea claims that the Ultravision test was intended to apply to applications for new stations, whose revenue-earning capacity had not been confirmed by actual experience—whereas the Azalea application, filed even before former 960 kc, Mobile, Ala., Station WMOZ left the air,[3] was designed to continue the service provided by WMOZ to the same, largely Negro, audience, relying on substantially the same staff and advertising revenue sources. Close to a year has gone by, however, since WMOZ went off the air. In the meantime, its audience, advertisers, and staff may well have found new broadcast ties—including, among others, the petitioner itself, WMOO, which, soon after WMOZ's demise, switched from a country-and-western to a Negro-audience format and hired WMOZ's former sales manager. In view of these facts, we find no reasons to exempt Azalea from the Ultravision standard.

6. WMOO points out that the $36,000 in stock-purchase payments which Azalea claims will be available to it fall more than $20,000 below Azalea's own estimate of initial and first-year-operating expenses; and contends in addition that Azalea has both underestimated its expenses and overestimated the funds which will be available to it to meet those expenses.

7. Although Azalea claims that its initial and first-year-operating expense would come to approximately $58,000, its own detailed expense figures add up to $62,217;[4] i.e., $26,217 more than the $36,000 in stock-purchase payments which Azalea claims will be available to it from stock-purchase payments will actually be forthcoming. Harvey Mintz has given Azalea promissory notes totaling $7,350, but his July 12, 1966, balance sheet shows net current liabilities of $10,000. James Jardine has given Azalea a promissory note for $2,800, but the June 30, 1966, balance sheet of James C. and Sue C. Jardine shows net current liabilities of $4,000. Charles Trainor has given Azalea a promissory note for $14,700, but his June 30, 1966, balance sheet shows net current assets of only $3,700. Trainor relies in part upon a $5,000 loan commitment to him from the Merchants National Bank of Mobile, but the bank letter submitted as evidence of that loan commitment specifies a termination date of November 18, 1966.

9. WMOO's objection to Azalea's $48,000 first-year-operating-expense estimate is based in large measure on the mistaken belief that Azalea proposes to rent its physical facilities for $500 a month. That rental figure, however, was intended to apply only to Azalea's interim operation proposal (for use of the physical facilities of former Station WMOZ), not to its regular, construction permit, proposal. WMOO also assumes without warrant that salaries for the Azalea station's eight employees (some of whom may be part-time) will total $32,000. In view of the general experience of stations of the type contemplated, and the absence of substantial countervailing evidence in WMOO's pleadings, we find Azalea's $48,000 estimate reasonable. Nonetheless, for the reasons outlined in previous paragraphs, a financial qualification issue will be required.

10. WMOO objects to the program service part of Azalea's application on the ground that the programing survey conducted by Azalea occurred before WMOO changed from a country-and-western to a Negro-audience format, and that Azalea's survey must therefore be considered obsolete. This does not follow. Where it appears that an applicant has made reasonable efforts to ascertain the programing needs, and interests of the community and area it proposes to serve and has formulated a program format which, in its judgment, would meet those needs and interests as it has determined them to be, a Suburban issue[5] is not warranted in the absence of a compelling showing that the proposal would not fulfill that function.[6] WMOO has made no such showing. According to the 1960 Census, nonwhite persons constitute approximately one-third of the population of both Mobile and the standard metropolitan statistical area of which it is a part. If Azalea's application were to be granted, three of the eight Mobile standard broadcast stations would be primarily aimed at Negro audiences. In view of these facts, there is no substantial reason to believe that a second survey by Azalea would yield results substantially different from those obtained before.

11. Having rejected WMOO's particular objection to Azalea's program proposal, however, we nonetheless conclude—on other grounds—that a Suburban issue is required: Azalea states that "a special survey was conducted of a cross section of members of * * * [the Negro] community" in Mobile and environs, but it provides no indication as to which persons and organizations were approached in the course of the survey or even how many. In view of this, the Commission clearly lacks sufficient information to permit an evaluation of the adequacy of that programing survey. Moreover, there can be no doubt that a survey was required. Although Azalea indicates that its president has broadcast station management experience and has been active in numerous organizations in the Mobile area, nothing in the application reflects any special expertise on his part with respect to the needs and interests of that segment of the population which Azalea proposes particularly to serve. Although one of the members of Azalea's board of directors is described as Mobile chapter chairman of the National Association for the Advancement of Colored People, his participation in the preparation of Azalea's programing would not suffice in the absence of an adequate survey.

12. Likewise, examination of the program portion of Mobile Broadcast's application shows that, although a survey was taken, the persons and organizations consulted were not identified. Thus, a Suburban issue will also be specified with respect to this application.

13. As previously noted, Azalea proposes specialized programing designed to serve the Negro population of Mobile. This is also true of WGOK. Since the other two applicants propose general market programing, substantial and material differences between the applicants' plans may be involved. Therefore, these differences will be considered within the context of the comparative issue. Policy Statement on Comparative Broadcast Hearings, 1 FCC 2d 393, 5 RR 2d 1901, at 1911. In re Ward L. Jones, FCC 67-82, released January 25, 1967.

14. The application for a change in the facilities of its Mobile, Ala., standard broadcast station, WGOK, to the facilities formerly occupied by WMOZ, is challenged by two Azalea petitions,[7] one a "Petition Not To Accept Application for Filing," the other a "Petition To Deny or in the Alternative To Designate for Hearing on the Issue Specified." In the first of these two petitions, Azalea notes that the Commission, in its Public Notice accepting the Azalea application for filing,[8] waived § 73.37 of the rules "insofar as necessary to permit the acceptance for filing of * * * [that] application, and all other applications seeking substantially the same facilities." Azalea contends that, though both it and WGOK, seek to operate a daytime-only, 1 kilowatt, Class III, Mobile, Ala., standard broadcast station operating on 960 kilocycles, the WGOK proposal does not request "substantially the same facilities" as are requested by Azalea. The facilities are not substantially the same, Azalea contends, because its proposal is for a new station which would restore Mobile, Ala.'s status quo ante, i.e., eight local standard broadcast services; whereas WGOK's proposal would merely change the operating specifications of an existing Mobile station. This contention is completely incorrect: Both Azalea and WGOK seek the same city of assignment, frequency, power, and hours of operation, and substantially the same primary service areas. Within the meaning of the quoted Public Notice (and all previous such Public Notices), the "facilities" they seek are therefore "substantially identical." The fact that WGOK is an existing station whereas Azalea's proposal is not, is entirely irrelevant. For these reasons, Azalea's "Petition Not To Accept * * *" will be denied.

15. Azalea's other petition contends that the WGOK application was filed "for the purpose of impeding, obstructing, and delaying determination of * * * [the Azalea] application," and requests that the WGOK application be denied or designated for hearing on that issue. In support of that contention, Azalea states: "[F]or no apparent nor stated reason. WGOK seeks to abandon its present frequency in order to operate on the higher, and, therefore, less attractive frequency of 960kc. It proposes no improvement in power; no increase in operating hours; and on enhancement of its ability to serve the public." In saying this, however, Azalea (i) takes no account of the fact that the WGOK proposal involves a change from a directional antenna system to a nondirectional system which would cost less to operate, and (ii) makes no attempt to refute Exhibit E-11 of the WGOK application, which indicates that the proposed WGOK operation would provide broadcast service to a substantially larger population than is presently served by that station. In view of these facts, Azalea's petition will also be denied.

16. In view of the following facts, however, an issue will be specified, on our own motion, to determine whether WGOK is financially qualified:

(a) WGOK estimates variously that the change in facilities "could be accomplished for less than $5,000" and that the total expenditure for the change would "not be in excess of $1,000." Its balance sheet, dated September 30, 1966, shows net current liabilities of $8,321.81. It reports that its net income after Federal income taxes was, in 1965, $1,973.81, and that in 1964 it suffered a net loss of $398.22.

(b) Despite these figures, WGOK claims that it has sufficient resources of its own to meet the cost of the proposed change in facilities. It concedes, however, that it "does not have sufficient funds for a prolonged, expensive hearing should such a hearing be necessary"; and, in view of that, has submitted statements by its two stockholders affirming their readiness to lend it $50,000 apiece, accompanied by a certified public accountant's letter attesting to their ability to make such loans.

(c) These statements, however, must be considered insufficient in view of their failure to meet the requirements—set forth at section III, page 2, paragraph 4 (c), (d), and (f) of the application form (FCC Form 301)—first, that documentation of the availability of a loan must set forth the terms of repayment, if any, and security, if any; second, that for each of the two proposed lenders, the applicant must submit a detailed balance sheet or financial statement, and such supplementary material as may be necessary, to prove the prospective lender's ability to comply with the terms of his loan commitment; and, third, that for each of the proposed lenders, there must be submitted a statement of net income after Federal income tax received for the previous 2 years.

17. A financial qualifications issues is also necessary, for the following reasons, with respect to the Mobile Broadcast Service, Inc., application:

(a) Mobile estimates that its initial and first-year-operating expenses will total $102,900.

(b) Its balance sheet, dated October 15, 1966, shows net current assets totaling $3,305. In addition it proposes to rely upon "stock subscriptions receivable"[12] totaling $23,000, equipment on hand worth $5,900, and two loans, one for $10,000 by its president, E. Howard Smith, and one for $70,000 from the Commercial Guaranty Bank of Mobile. These figures total $112,205.

(c) However, only one of the subscribers, Julien E. Marx, has submitted a balance sheet evidencing sufficient net current assets to enable him to meet his stock subscription commitment,[13] prospective lender E. Howard Smith has failed to demonstrate his ability to meet a $10,000 loan,[14] and the bank letter submitted as Exhibit 4, page 14, of the People's application in no sense constitutes a commitment that the $70,000 loan relied upon by People's will be forthcoming.[15]

18. John C. Smith, president member of the board of directors, and 16⅔-percent stockholder of People's Progressive Radio, Inc., is described in People's application as the general manager of standard broadcast Station WZAM, Prichard, Ala., a station whose 1 mv/m contour would overlap that of the proposed People's station. To avoid contravention of § 73.35(a) of the Commission's rules, any grant of the People's application shall include a condition requiring that Smith sever all connections with the license of WZAM prior to issuance of program test authority.

19. Charles Trainor, president, board member, and 41.66-percent stockholder of Azalea, and Arthur G. Keeney, an 8.33-percent Azalea stockholder, are described in Azalea's application as, respectively, general manager and news

---

[1] Azalea, relying on Beloit Broadcasters, Inc. v. FCC 365 F. 2d 2125, 7 RR 2d 2125 (D.C. Cir., 1966), contends that WMOO lacks standing to file a petition to deny, in that the fact that it had seven local standard broadcast competitors when it accepted its license bars it from claiming standing (by virtue of potential economic injury) to object to the establishment of a new local standard broadcast station utilizing the facilities of a deleted station. This contention both misapplies the Beloit decision and runs counter to the decision of the U.S. Supreme Court in FCC v. Sanders Brothers Radio Station, 309 U.S. 470 9 RR 2008 (1940). It is therefore rejected.

[2] Ultravision Broadcasting Co., 1 FCC 2d 544, 5 RR 2d 548 (1965).

[3] On May 11, 1966, the Commission ordered WMOZ to terminate operations by July 31, 1966. The Azalea applications for a construction permit and for interim operating authority were filed July 20, 1966.

[4] I.e., (a) down payment to Gates, $4,717; (b) remodeling buildings, $3,500; (c) "other items" (fees, furniture and fixtures, miscellaneous, and contingencies), $6,000; (d) first-year operating expenses, $48,000; (e) total, $62,217.

[5] Supra n. 5, at par. 9.

[6] I.e., to determine the applicant's efforts to ascertain the programing needs and interests of the area to be served, and the manner in which the applicant proposes to meet such needs and interests. Patrick Henry et al. v. F.C.C., 112 U.S. App. D.C. 257, 302 F. 2d 191, 23 RR 2016 (1962).

[7] Voice of Middlebury 3 FCC 2d 512, 7 RR 2d 347 (1966).

[8] WGOK objects to the procedural merits of these petitions on the ground that Azalea has failed to set forth specific allegations of fact sufficient to show that it is a party in interest, and has failed to support its specific allegations of fact by affidavit of person(s) having personal knowledge thereof. These arguments must be rejected on the ground that Azalea's standing as a party in interest is plainly evident from the fact that the Azalea and WGOK, Inc., applications are mutually exclusive, and that Azalea makes no specific allegations of fact which are not subject to official notice.

[9] FCC 66-824, adopted Sept. 14, 1966.

[10] I.e., stock subscriptions of $2,500 by E. Howard Smith, $2,500 by Howard L. Smith, $8,500 by Robert A. Schorr, $8,500 by Joseph R. Bancroft, and $1,000 by Julien E. Marx.

[11] (a) E. Howard Smith's financial statement, dated Sept. 8, 1966, lists only $700 ("Cash on hand and in banks") which can be accepted, on the basis of the information submitted, as current assets. Although "Negotiable securities and bonds in excess of $20,000," they are not identified nor is any information supplied as to which exchanges, if any, they are traded on. His liabilities (which are not separated into current and long-term liabilities) total $9,700. (b) Howard L. Smith's financial statement, dated Oct. 5, 1966, does not show net current assets in excess of $1,000. (c) Robert A. Schorr's balance sheet, dated Oct. 1, 1966, shows net liabilities of $3,000. (d) Joseph R. Bancroft's financial statement, dated Oct. 14, 1966, does not demonstrate possession of net current assets in excess of $100. His "total liabilities" (which are not segregated into current and fixed liabilities, and are therefore presumed to be current) are described as "not in excess of $5,000."

[12] Supra n. 14, item (a).

[13] The bank letter submitted by Mobile states that the bank "could be" in a position to lend up to $70,000 provided, inter alia, "That the loan be properly secured, which could include your corporation stock as well as the personal endorsements of the Stockholders," and that "The current financial statements be submitted at the time the extension of credit is required, and that the statements warrant the extension of credit." A letter so replete with qualifications clearly will not suffice as evidence of the availability of a loan.

director of Station WKRG(AM), Mobile, Ala. To avoid contravention of § 73.35(a) of the Commission's rules, any grant of the Azalea application shall include a condition requiring that Trainor and Keeney sever all connections with the licensee of WKRG prior to issuance of program test authority.

20. The Commission finds that, since simultaneous operation of the above proposals would result in mutually destructive interference, they are mutually exclusive and must be designated for hearing in a consolidated proceeding; and that, except as indicated by the issues set forth below, each of the applicants is qualified to construct and operate as proposed.

Accordingly, it is ordered, That, pursuant to section 309(e) of the Communications Act of 1934, as amended, the above-captioned construction permit applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine the areas and populations which would receive primary service from Azalea Corp., People's Progressive Radio, Inc., and Mobile Broadcast Service, Inc., proposals, and the availability of other primary service to such areas and populations.

2. To determine the areas and populations which may be expected to gain or lose service from the proposed operation of Station WGOK, Mobile, Ala., and the availability of other primary service to such areas and populations.

3. To determine, with respect to the Azalea Corp. application:

(a) Whether Harvey Mintz has sufficient net liquid assets to enable him to meet his $2,850 commitment.

(b) Whether James C. Jardine has sufficient net liquid assets to enable him to meet his $2,800 commitment.

(c) Whether Charles Trainor has sufficient net liquid assets to enable him to meet his $14,700 commitment, and, if not, whether sufficient funds are available to him from the Merchants National Bank of Mobile to enable him to meet that commitment.

(d) Assuming that all of the funds, set forth in subissues 3–a through 3–c supra, upon which the applicant relies will be available to it, how it will obtain sufficient additional funds to construct and operate the proposed station for one year.

(e) Whether, in the light of the evidence adduced pursuant to subissues 3–a through 3–d supra, the applicant is financially qualified.

4. To determine Azalea's efforts to ascertain the programing needs and interests of the area to be served, and the manner in which it proposes to meet such needs and interests.

5. To determine, with respect to the W.G.O.K., Inc., application:

(a) The expenses involved in the W.G.O.K., Inc., proposal.

(b) Whether WGOK, Inc., possesses sufficient net liquid assets to enable it to meet those expenses.

(c) Whether Jules J. Paglin has sufficient net liquid assets to enable him to meet his $50,000 loan commitment to the applicant.

(d) Whether Stanley W. Ray, Jr., has sufficient net liquid assets to enable him to meet his $50,000 loan commitment to the applicant.

(e) Whether, in the light of the evidence adduced with respect to subissues 5–a through 5–d, the applicant is financially qualified.

6. To determine Mobile Broadcast Service, Inc.'s efforts to ascertain the programing needs and interests of the area to be served, and the manner in which it proposes to meet such needs and interests.

7. To determine, with respect to the Mobile Broadcast Service, Inc., application:

(a) Whether the Mobile Broadcast Service, Inc., possesses sufficient net liquid assets to enable it to meet the expenses involved in its proposal.

(b) Whether E. Howard Smith possesses sufficient net liquid assets to enable him to meet his (1) $2,500 stock subscription, and (2) his $10,000 loan, commitments.

(c) Whether Howard L. Smith possesses sufficient net liquid assets to enable him to meet his $2,500 stock subscription commitment.

(d) Whether Robert A. Schorr possesses sufficient net liquid assets to enable him to meet his $8,500 stock subscription commitment.

(e) Whether Joseph R. Bancroft has sufficient net liquid assets to enable him to meet his $8,500 stock subscription commitment.

(f) The terms and conditions upon which a loan will be available to the applicant from the Commercial Guaranty of Mobile and whether such terms and conditions can be met by the applicant.

(g) Whether, in the light of the evidence adduced with respect to subissues 7–a through 7–f, the applicant is financially qualified.

8. To determine which of the proposals would best serve the public interest.

9. To determine, in the light of the evidence adduced with respect to the foregoing issues, which of the applications should be granted.

It is further ordered, That, in the event of a grant of any of the above-captioned applications, the construction permit shall contain the following conditions:

The permittee shall, before issuance of program test authority, take all steps necessary, at its own expense, to prevent adverse effect upon licensed reception by Public Coast Station WLO, Mobile, Ala.: *Provided*, That, to the extent that such effect are attributable to deficiencies in WLO's equipment or operation, WLO shall be responsible for taking the necessary corrective action. The permittee shall submit, before the issuance of program test authority, sufficient evidence to establish that its operation will have no adverse effect to the operations of Public Coast Station WLO.

Pending a final decision in Docket No. 14419 with respect to presunrise operation with daytime facilities, the present provisions of § 73.87 of the Commission's rules are not extended to this authorization, and such operation is precluded.

It is further ordered, That, in the event of a grant of the Azalea Corp. application, the construction permit also shall contain the following condition: Program tests will not be authorized until the permittee has submitted evidence demonstrating to the Commission's satisfaction that Charles Trainor and Arthur G. Keeney have severed all connections with the licensee of standard broadcast station WKRG, Mobile, Ala.

It is further ordered, That, in the event of a grant of the People's Progressive Radio, Inc., application, the construction permit shall also contain the following condition: Program tests will not be authorized until the permittee has submitted evidence demonstrating to the Commission's satisfaction that John C. Smith has severed all connections with the licensee of standard broadcast station WZAM, Prichard, Ala.

It is further ordered, That the above applications for interim authority are returned; that all pleadings and requests relating thereto are dismissed as moot; and that the pleadings listed in Appendix A[16] are granted to the extent indicated above and are denied in all other respects.

It is further ordered, That, to avail themselves of the opportunity to be heard, the applicants herein, pursuant to § 1.221(c) of the Commission's rules, in person or by attorney, shall, within 20 days of the mailing of this order, file with the Commission in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this order.

It is further ordered, That the applicants herein shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and § 1.594 of the Commission's rules, give notice of the hearing, either individually or, if feasible and consistent with the rules, jointly, within the time and in the manner prescribed in such rule, and shall advise the Commission of the publication of such notice as required by § 1.594(g) of the rules.

Adopted: June 28, 1967.

Released: July 13, 1967.

FEDERAL COMMUNICATIONS COMMISSION,[17]

[Docket Nos. 17565, 17566]

CORINTH BROADCASTING CO., INC., AND RADIO CORINTH

Order Designating Applications for Consolidated Hearing on Stated Issues

In re applications of The Corinth Broadcasting Co., Inc., Corinth, Miss., Docket No. 17565, File No. BPH-5675, Requests: 95.3 mc, No. 237; 3 kw; 271 feet; Elbert A. White, III and Charles A. Weeks, doing business as Radio Corinth, Corinth, Miss., Docket No. 17566, File No. BPH-5732, Requests: No. 95.3 mc, No. 237; 3 kw; 209 feet; for construction permits.

1. The Commission, by the Chief, Broadcast Bureau, under delegated authority considered the above-captioned and described applications for construction permits.

2. These applications are mutually exclusive in that operation by the applicants as proposed would cause mutually destructive interference.

3. Each of the applicants is qualified to construct and operate as proposed. However, because of their mutual exclusivity the Commission is unable to make the statutory finding that a grant of the subject applications would serve the public interest, convenience, and necessity, and is of the opinion that they must be designated for hearing in a consolidated proceeding on the issues set forth below.

It is ordered, That, pursuant to section 309(e) of the Communications Act of 1934, as amended, the applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine which of the proposals would better serve the public interest.

2. To determine, in the light of the evidence adduced pursuant to the foregoing issue, which of the applications for construction permit should be granted.

It is further ordered, That, to avail themselves of the opportunity to be heard, the applicants pursuant to § 1.221(c) of the Commission's rules, in person or by attorney, shall, within 20 days of the mailing of this order, file with the Commission in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this order.

It is further ordered, That the applicants herein shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended and § 1.594 of the Commission's rules, give notice of the hearing, either individually or, if feasible and consistent with the rules, jointly, within the time and in the manner prescribed in such rule, and shall advise the Commission of the publication of such notice as required by § 1.594(g) of the rules.

Adopted: June 30, 1967.

Released: July 17, 1967.

ARTHUR H. JONES, JR.

Order Continuing Hearing

In the matter of Arthur H. Jones, Jr., 4017 Cold Spring Lane, Baltimore, Md. 21215, Docket No. 17504; suspension of radiotelephone first class operator license.

A prehearing conference having been convened on July 12, 1967;

It appearing, that all parties consent to a grant of the licensee's motion for consolidation of the above-captioned docket with Docket No. 17509:

It is ordered, That the said motion for consolidation is granted, and that hearing procedures in Docket Nos. 17504 and 17509 are consolidated; and

It is further ordered, That the hearing now scheduled for July 20, 1967, is continued to July 26, 1967, at 10 a.m. in Baltimore, Md., at an address to be hereafter specified.

Issued: July 12, 1967.

Released: July 14, 1967.

[Docket Nos. 17523, 17524; FCC 67M-1164]

VICTOR MUSCAT AND KTOW-TV, INC.

Order Continuing Hearing

In re applications of VICTOR MUSCAT, Tulsa, Okla., Docket No. 17523, File No. BPCT-3843; KTOW-TV, Inc., Tulsa, Okla., Docket No. 17524, File No. BPCT-3867; for construction permit for new television broadcast station (Channel 29).

The Hearing Examiner having under consideration a hand-delivered letter request dated June 28, 1967, from counsel for Victor Muscat in the above proceeding reading in chief part as follows:

I will not be in Washington during the month of July. I have been advised by the Broadcast Bureau that the Hearing Division staff has been requested to schedule its well-earned vacations during the month of August. Accordingly, I respectfully request that the prehearing conference be held at some date selected by you, at your convenience, during the month of September, other than September 5, when I have a commitment for an oral argument before the Commission en banc. Mr. Smith, counsel for KTOW-TV, Inc., and Mr. Fitzpatrick, counsel for Chief, Broadcast Bureau, have no objection to the procedure. May I suggest also that the actual hearing date be postponed until such time as may be set, as a result of the procedures agreed upon at the prehearing conference.

Very truly yours,

BENITO GAGLIARDI.

And, it appearing that the request is somewhat unusual and would ordinarily not be granted but under the circumstances, including the Examiner's other commitments, no significant delay or inconvenience will result from granting the request:

It is ordered, That the request is granted and, accordingly, the prehearing conference now scheduled for July 14, 1967, is rescheduled to commence at 9 a.m., September 7, 1967, and the hearing now scheduled for September 7,

1967, is postponed to a date to be determined at the said prehearing conference.

Issued: July 11, 1967.

Released: July 14, 1967.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Secretary.

[F.R. Doc. 67-8435; Filed, July 19, 1967; 8:52 a.m.]

[Docket Nos. 17577, 17578; FCC 67-702]

WATERMAN BROADCASTING CORP. OF TEXAS AND NATIONAL ENTERPRISES, INC.

Order Designating Applications for Consolidated Hearing on Stated Issues

In re applications of Waterman Broadcasting Corp. of Texas, San Antonio, Tex., Docket No. 17577, File No. BPH-5484, requests: 102.7 mc, No. 274; 25.2 kw; 309 feet; National Enterprises, Inc., Alamo Heights, Tex., Docket No. 17578, File No. BPH-5491, requests: 102.7 mc, No. 274; 29.96 kw; 234 feet; for construction permits.

1. The Commission has under consideration the above captioned and described applications which are mutually exclusive in that operation by the applicants as proposed would result in mutually destructive interference.

2. Since the respective proposals are for different communities, it will be necessary to determine pursuant to section 307(b) of the Communications Act of 1934, as amended, which of the proposals would better provide a fair, efficient, and equitable distribution of radio service. Since each proposal would provide 3.16 mv/m coverage to both communities, the 307(b) issue may not be determinative. Accordingly, we have specified a contingent comparative issue.

3. National Enterprises proposes an average of 42 percent duplicated programing while Waterman proposes no more than 10 percent duplication. Therefore, evidence regarding program duplication will be admissible under the contingent comparative issue. When duplicated programing is proposed, the showing permitted under the standard comparative issue will be limited to evidence concerning the benefits to be derived from the proposed duplication, and a full comparison of the applicants' program proposal will not be permitted in the absence of a specific programing inquiry—Jones T. Sudbury —— FCC 2d ——, FCC 67-614 (1967).

4. Such full comparison is warranted when one applicant proposes predominantly specialized programing and the other general market programing—Ward L. Jones, FCC 67-82 (1967); Policy Statement on Comparative Broadcast Hearings, 1 FCC 2d 393, footnote 9 at 397 (1965). In this case, National Enterprises proposes predominantly religious programing and Waterman, general market programing. Therefore, the programing proposals of the applicants may be compared under the contingent comparative issue if the 307(b) issue is found not to be determinative.

5. Each of the applicants is qualified to construct and operate as proposed. However, because of their mutual exclusivity, the Commission is unable to make a statutory finding that a grant of the subject applications would serve the public interest, convenience and necessity, and is of the opinion that they must be designated for hearing in a consolidated proceeding on the issues set forth below.

It is ordered, That, pursuant to section 309(e) of the Communications Act of 1934, as amended, the applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine, in the light of section 307(b) of the Communications Act of 1934, as amended, which of the proposals would better provide a fair, efficient and equitable distribution of radio service.

2. To determine, in the event it is concluded that a choice between applications should not be based solely on considerations relating to section 307(b), which of the proposals would better serve the public interest.

3. To determine, in the light of the evidence adduced pursuant to the foregoing issues which, if either, of the applications should be granted.

It is further ordered, That to avail themselves of the opportunity to be heard, the applicants, pursuant to § 1.221(c) of the Commission's rules, in person or by attorney shall, within twenty (20) days of the mailing of this order, file with the Commission in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this order.

It is further ordered, That the applicants herein shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and § 1.594 of the Commission's rules, give notice of the hearing, either individually or, if feasible and consistent with the rules, jointly, within the time and in the manner prescribed in such rule, and shall advise the Commission of the publication of such notice as required by § 1.594(g) of the rules.

Adopted: July 5, 1967.

Released: July 17, 1967.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Secretary.

[F.R. Doc. 67-8437; Filed, July 19, 1967; 8:52 a.m.]

[Docket Nos. 17563, 17564]

WESTERN BROADCASTING CO. AND KING BROADCASTING CO.

Order Designating Applications for Consolidated Hearing on Stated Issues

In re applications of Ralph Weagant tr/as Western Broadcasting Co., Portland, Oreg., Docket No. 17563, File No. BPH-5659, requests: 101.9 mc, No. 270; 28.5 kw; 210 feet; King Broadcasting Co., Portland, Oreg., Docket No. 17564, File No. BPH-5841, requests: 101.9 mc, No. 270; 100 kw (horizontal) 100 kw (vertical); 1,611 feet; for construction permits.

1. The Commission, by the Chief, Broadcast Bureau, under delegated authority considered the above captioned and described applications for construction permits.

2. These applications are mutually exclusive in that operation by the applicants as proposed would cause mutually destructive interference.

3. The areas and populations to be served are markedly different in size and that for the purposes of comparison, the areas and populations within the respective 1 mv/m contours together with the availability of other FM services of at least 1 mv/m in such area will be considered under the standard comparative issue for the purpose of determining whether a comparative preference should accrue to either of the applicants.

4. Each of the applicants is qualified to construct and operate as proposed. However, because of their mutual exclusivity the Commission is unable to make the statutory finding that a grant of the subject applications would serve the public interest, convenience, and necessity, and is of the opinion that they must be designated for hearing in a consolidated proceeding on the issues set forth below.

It is ordered, That, pursuant to section 309(e) of the Communications Act of 1934, as amended, the applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine which of the proposals would better serve the public interest.

2. To determine, in the light of the evidence adduced pursuant to the foregoing issue, which of the applications for construction permit should be granted.

It is further ordered, That, to avail themselves of the opportunity to be heard, the applicants pursuant to § 1.221 (c) of the Commission's rules, in person or by attorney, shall, within 20 days of the mailing of this order, file with the Commission in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this order.

It is further ordered, That the applicants herein shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and § 1.594 of the Commission's rules, give notice of the hearing, either individually or, if feasible and consistent with the rules, jointly, within the time and in the manner prescribed in such rule, and shall advise the Commission of the publication of such notice as required by § 1.594(g) of the rules.

Adopted: June 30, 1967.

Released: July 17, 1967.

[SEAL] BEN F. WAPLE,
Secretary.

[F.R. Doc. 67-8439; Filed, July 19, 1967; 8:52 a.m.]

[Docket No. 15697; FCC 67-803]

STEREOPHONIC SOUND FOR TELEVISION BROADCASTING

Memorandum Opinion and Order Terminating Proceeding

In the matter of stereophonic sound for television broadcasting; Docket No. 15697, RM-96, RM-376.

1. The Commission has under consideration its Notice of Inquiry issued in this proceeding on November 16, 1964, FCC 64-1056 (29 F.R. 15545) inviting comments as to the desirability and methods of providing for stereophonic sound transmission and reception in television broadcasting. The notice of inquiry was issued in response to requests for rule making filed by the Philco Corp. (RM-96) and the General Electric Co. (RM-376), each proposing a specific system designed to be compatible with conventional TV receivers in the hands of the public.

2. The notice stated that we did not wish to limit consideration to the systems proposed but asked for information and data on other methods of achieving stereophonic sound with special consideration to be given to such matters as costs, complexity of equipment, quality of picture and sound, availability of stereo program material and production etc. Our main purpose, however, in issuing the notice was to "determine whether or not the employment of stereophonic sound in television broadcasting will add to the realism or otherwise contribute a worthwhile improvement to the overall portrayal of the programs * *".

Comments. 3. Only thirteen comments[1] were filed in this proceeding, five from manufacturers, five from individuals, two organizations, and one FM station. Four of the manufacturers (Philco, G.E., Westinghouse, and Zenith) described systems or methods of obtaining the stereophonic sound which they had developed and tested. Zenith states that although eventually TV stereo sound could add a worthwhile improvement to the television service, they caution against premature commercial authorization of this technological development before suitable stereo program production techniques and materials become generally available. Secondly, Zenith points out that the disparity between the relatively narrow viewing angle of the TV receiver picture tubes and the wide stereo listening angle largely precludes advantageous use of stereo sound unless possible new off-stage stereo sound programing techniques could be developed or picture size materially increased. Therefore stereo sound is not likely to have significant value for viewers until there are new developments in these areas. The other manufacturers who favor rule making devote almost all of their comments to the presentation of their respective systems, the specifications proposed, and the other related matters concerning impact on existing receivers and the picture signal of the TV broadcast. Emerson submits that present and probable future screen size limitation is inconsistent with the expected benefits of stereo sound for TV. It urges that the popularity of portable sets would make the accompanying stereo both impractical and unnecessary for this major portion of the market.

4. EIA submits that in order to obtain the answers to the technical questions raised by its Broadcast Television System Committee it would take 18 months part time effort of about 100 engineering and scientific personnel and that there is not sufficient interest in the industry to warrant such further study. It urges therefore that the present inquiry be closed without prejudice or deferred to a later date. Among the technical problems which EIA lists for necessary study are compatibility, spectrum utilization, FM carrier deviation, monophonic reception characteristics, stereophonic reception characteristics, system characteristics, receiver and transmitter considerations, transmission effects, and field testing. The NAFMB also raises the question of the narrow viewing angle of the TV picture as against the wide hearing angle desirable for effective stereo. It also points out that the quality of TV stereo will be questionable in view of the bandwidth available for sound on TV, the position of the viewer in terms of distance from the TV receiver, and the shortage of musical productions for use in TV stereo sound. It urges the Commission to evaluate the impact of any stereo proposal on FM broadcasting as well as on TV reception. WLVL, an FM station in Louisville, Ky., opposes TV stereo sound on the grounds that it would injure the FM broadcasting service, that it would add to the complexity and cost of TV receivers, and that the public is already being urged to purchase UHF and color. It submits that TV sound could be greatly improved without the addition of stereo.

5. Of the five individuals filing comments one (Mr. Reesor), outlines several methods for obtaining TV stereo, another opposes the adoption of standards for stereophonic sound for TV and the remaining three favor such standards.

Conclusions. 6. Based upon the character of the responses to our Notice of Inquiry we are convinced that there is no urgent need or demand for adoption of specifications for stereophonic sound for television broadcasting. Not one TV broadcast station or organization of such stations filed any comments. EIA, the representative of most of the TV transmitter and receiver manufacturers, urges us to close the proceeding or defer it to a later date. The Inquiry has, however, served to emphasize the problems that must be solved before material benefits can be derived from the proposed addition of stereo sound. It appears, therefore, that no useful purpose would be served by continuing the present proceeding at this time. In the event that the industry or other interested parties feel that there is sufficient ultimate prospect of TV program improvement through the use of sound stereo, efforts can be directed to the problems referred to above for consideration at a later date.

7. In view of the foregoing: *It is ordered*, That the petitions of Philco Corp. and General Electric Co., RM-96 and 376 are denied and that this proceeding is terminated.

Adopted: July 5, 1967.

Released: July 17, 1967.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Secretary.

[F.R. Doc. 67-8436; Filed, July 19, 1967; 8:52 a.m.]

[1] Comments and data were filed by Philco Corp., General Electric Co., Westinghouse Electric Corp., Zenith Radio Corp., Emerson Radio & Phonograph Corp., Electronic Industries Association (EIA), National Association of FM Broadcasters (NAFMB), WLVL(FM), Louisville, Ky., Thomas W. Reesor, Bob Myers, James F. Palmer, Richard L. Meyers, and Phillip H. Ellis.

FEDERAL MARITIME COMMISSION

MARYLAND PORT AUTHORITY AND BALTIMORE & OHIO RAILROAD

Notice of Agreement Filed for Approval

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to

section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1321 H Street NW., Room 609; or may inspect agreements at the offices of the District Managers, New York, N.Y., New Orleans, La., and San Francisco, Calif. Comments with reference to an agreement including a request for hearing, if desired, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C., 20573, within 20 days after publication of this notice in the FEDERAL REGISTER. A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter), and the comments should indicate that this has been done.

Notice of agreement filed for approval by:

Philip G. Kraemer, Director of Transportation, Maryland Port Authority, Pier 2 Pratt Street, Baltimore, Md. 21202.

Agreement No. T-32A-1 between the Maryland Port Authority and the Baltimore & Ohio Railroad modifies the basic agreement which provides that the Port furnish all labor and equipment required for the handling of railroad freight at Locust Point Marine Terminal (Baltimore) Maryland. The purpose of the modification is to eliminate the extra handling now involved in the collection of charges for work performed by stevedoring firms for the Baltimore & Ohio Railroad. The modification will also reflect current charges for loading, unloading and other services.

Dated: July 17, 1967.

By order of the Federal Maritime Commission.

THOMAS LISI,
Secretary.

[F.R. Doc. 67-8391; Filed, July 19, 1967; 8:48 a.m.]

MARYLAND PORT AUTHORITY AND MOORE-McCORMACK LINES, INC.

Notice of Agreements Filed for Approval

Notice is hereby given that the following agreements have been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreements at the Washington office of the Federal Maritime Commission, 1321 H Street NW., Room 609; or may inspect agreements at the offices of the District Managers, New York, N.Y., New Orleans, La., and San Francisco, Calif. Comments with reference to an agreement including a request for hearing, if desired, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, within 10 days after publication of this notice in the FEDERAL REGISTER. A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter), and the comments should indicate that this has been done.

Notice of agreements filed for approval by:

Philip G. Kraemer, Director of Transportation, Maryland Port Authority, Pier 2 Pratt Street, Baltimore, Md. 21202.

Agreement No. T-2066 between the Maryland Port Authority (MPA) and Moore-McCormack Lines, Inc. (Moore-McCormack), provides for the one year lease to Moore-McCormack of berth 3, Dundalk Marine Terminal, and the area immediately adjacent thereto at a fixed monthly rental plus certain tax payments. The minimum annual payment so computed will be $130,000. Moore-McCormack has the option to renew the lease for an additional period of one year. Moore-McCormack agrees to file its tariffs with the Federal Maritime Commission, and will include a provision therein that no change, supplement or reissue will become effective until 30 days after filing with the Commission unless good cause exists for a change upon shorter notice. If during the term of the lease and any renewal thereof MPA shall construct additional berthing facilities at Dundalk, it agrees to enter into negotiations with Moore-McCormack for the purpose of leasing a berth at such additional facilities.

Agreement No. T-2066-A between MPA and Moore-McCormack is an operating agreement with respect to Moore-McCormack's operations at the premises covered by lease agreement FMC No. T-2066 and will be for an identical period of time. The agreement provides that Moore-McCormack's operations be subject to all rules, charges and conditions of MPA's tariff except that dockage and wharfage shall not be charged vessels berthing at berth 3 while the berth is under lease to Moore-McCormack except as Moore-McCormack shall publish and assess such charges. Free time, demurrage, loading, unloading and handling charges shall not apply in any area leased by Moore-McCormack.

Agreement No. T-2066-B between MPA and Moore-McCormack is an operating agreement covering premises leased to Moore-McCormack under agreement numbers T-2066-C and T-2066-D. The agreement provides that Moore-McCormack operations will be subject to MPA's applicable tariff except that free time and demurrage, loading unloading and handling charges shall not apply in any area leased by Moore-McCormack. MPA agrees to provide berthing for Moore-McCormack's vessels according to a schedule set forth in the agreement, and vessels will pay dockage based on MPA's applicable tariff.

Agreement No. T-2066-C provides for the lease to Moore-McCormack of 25,000 square feet of space in shed No. 6 at Dundalk Marine Terminal at a fixed rental per quarter of each term of the lease. The premises will be used for the receiving, handling, processing, storage and warehousing of water-borne freight.

Agreement No. T-2066-D between MPA and Moore-McCormack covers the lease to Moore-McCormack of three acres of outside paved area at Dundalk at a fixed rental per quarter of each term of the lease. The premises will be used for the receiving, handling and storage of waterborne freight.

Dated: July 14, 1967.

By order of the Federal Maritime Commission.

THOMAS LISI,
Secretary.

HAMBURG-SUDAMERIKANISCHE DAMPFSCHIFFAHRTS-GESELLSCHAFT EGGERT & AMSINCK (COLUMBUS LINE) AND SEATRAIN LINES, INC.

Notice of Agreement Filed for Approval

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1321 H Street NW., Room 609; or may inspect agreements at the office of the District Managers, New York, N.Y., New Orleans, La., and San Francisco, Calif. Comments with reference to an agreement including a request for hearing, if desired, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, within 20 days after publication of this notice in the FEDERAL REGISTER. A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the comments should indicate that this has been done.

Notice of agreement filed for approval by:

Mr. Joseph Hodgson, Jr., General Traffic Manager, Seatrain Lines, Inc., 595 River Road, Edgewater, N.J. 07020.

Agreement 9642, between Hamburg-Sudamerikanische Dampfschiffahrts-Gesellschaft Eggert & Amsinck (Columbus Line) and Seatrain Lines, Inc., establishes a through billing arrangement for the movement of general cargo from Puerto Rico to ports in Australia (including Tasmania) the Dominion of New Zealand, Cook Islands, Fiji Islands, New Caledonia, Australian Mandated New Guinea, New Hebrides, Norfolk Island, British Samoa, Solomon Islands, Tahiti, Thursday Island, Tonga Islands, Gilbert and Ellice Islands, with transshipment at the port of New York, N.Y., in accordance with the terms set forth in the agreement.

Dated: July 17, 1967.

By order of the Federal Maritime Commission.

THOMAS LISI,
Secretary.

MARSEILLES NORTH ATLANTIC U.S.A. FREIGHT CONFERENCE

Notice of Agreement Filed for Approval

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1321 H Street NW., Room 609; or may inspect agreements at the office of the District Managers, New York, N.Y., New Orleans, La., and San Francisco, Calif. Comments with reference to an agreement including a request for hearing, if desired, may be submitted to the Secretary, Federal Maritime Commission, Washington, D. C. 20573, within 20 days after publication of this notice in the FEDERAL REGISTER. A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the comments should indicate that this has been done.

Notice of agreement filed for approval by:

Mr. Guy L. Retournal, Secretary, Marseilles North Atlantic U.S.A. Freight Conference, 10 Place de la Joliette, Marseilles 2, France.

Agreement 5660-9, between the member lines of the Marseilles North Atlantic U.S.A. Freight Conference, modifies the basic agreement in the following respects:

1. It extends the geographic scope described in the Preamble to include French Mediterranean ports, direct or with transshipment at other French ports, and limits the range of United States Atlantic Coast ports served to those within the Hampton Roads/Portland (Maine) range, Articles 1 and 12 are amended in conformity with the foregoing.

2. It adds the words "unanimous" and "unanimously" to the second and last sentences of Article 2. They were previously deleted therefrom by Agreement 5660-4 approved on November 12, 1957.

3. It amends Articles 3 and 15 to conform the basic agreement to the requirements of the Commission's General Order 9.

Dated: July 17, 1967.

By order of the Federal Maritime Commission.

THOMAS LISI,
Secretary.

FEDERAL POWER COMMISSION

[Docket No. CP68-8]

CITIES SERVICE GAS CO.

Notice of Application

JULY 12, 1967.

Take notice that on July 5, 1967, Cities Service Gas Co. (Applicant), Post Office Box 25128, Oklahoma City, Okla. 73125, filed in Docket No. CP68-8 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of certain natural gas purchase and transportation facilities, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Specifically, Applicant seeks authorization to construct and operate the following natural gas facilities:

(1) Approximately 184.2 miles of 26-inch pipeline extending from a point of interconnection with Transwestern Pipeline Co.'s (Transwestern) 24-inch pipeline, located in Hemphill County, Tex., generally northeastward to a point of connection with Applicant's Blackwell Compressor Station located in Kay County, Okla.; and

(2) An additional 2,000 horsepower compressor unit at its existing Higgins Compressor Station located in Hemphill County, Tex.

Applicant states that the above-proposed natural gas facilities are required to enable Applicant to receive into its pipeline system the volumes of natural gas that it has contracted with Transwestern to purchase. Applicant states that it has entered into a contract with Transwestern to purchase and receive a volume of 100,000 Mcf per day of natural gas commencing November 1, 1968, and increasing to 150,000 Mcf per day of natural gas November 1, 1969. The volumes of natural gas are to be delivered to Applicant at the point of interconnection described in (1) above. Applicant further states that the gas to be purchased from Transwestern is required to increase the total reserves available to Applicant's pipeline system and to insure its continued ability to meet its system annual and peak day demands.

Applicant estimates the total cost of the proposed facilities at approximately $17,995,200, said cost to be financed from the issuance and sale of First Mortgage Pipeline Bonds.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C. 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act § 157.10) on or before August 10, 1967.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no protest or petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a protest or petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

GORDON M. GRANT,
Secretary.

[F.R. Doc. 67-8346; Filed, July 19, 1967; 8:45 a.m.]

[Docket No. CP66-299]

COLORADO INTERSTATE GAS CO.

Notice of Petition To Amend

JULY 12, 1967.

Take notice that on July 3, 1967, Colorado Interstate Gas Co. (Petitioner), Post Office Box 1087, Colorado Springs, Colo. 80901, filed in Docket No. CP66-299 a petition to amend the order issued by the Commission July 18, 1966, as amended February 28, 1967, by authorizing Petitioner to install additional facilities in its Fort Morgan Storage Field, Colo., all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

By the above-mentioned order, as amended, Petitioner was authorized to develop the Fort Morgan Field as a natural gas storage reservoir, including the installation of 12 wellhead dehydrators on the storage withdrawal wells. By the instant filing, Petitioner seeks authorization to install and operate a central glycol dehydrator, a central gas chiller for hydrocarbon removal and certain wellhead separators in lieu of individual wellhead dehydrators. Petitioner states that higher than anticipated water production and wellhead gas temperatures make the original method of wellhead dehydration inefficient and impractical and the facilities proposed above, therefore, are necessary to maintain the Fort Morgan Field as a useful and reliable peaking storage service installation.

Petitioner estimates the cost of the facilities proposed above at approximately $468,600, said cost being approximately $282,150 higher than the cost of the facilities originally proposed.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C. 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (§ 157.10) on or before August 4, 1967.

GORDON M. GRANT,
Secretary.

[F.R. Doc. 67-8347; Filed, July 19, 1967; 8:45 a.m.]

[Docket No. CP68-6]

LONE STAR GAS CO.

Notice of Application

JULY 13, 1967.

Take notice that on July 5, 1967, Lone Star Gas Co. (Applicant), 301 South Harwood Street, Dallas, Tex. 75201, filed in Docket No. CP68-6 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of certain natural gas facilities and the sale and delivery of natural gas to three new communities, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Specifically, Applicant seeks authorization to construct and operate the following natural gas facilities:

(1) Approximately 10 feet of 2-inch pipeline extending south from a point of connection on Applicant's existing Line C-10-5 to a proposed city gate measuring station to be installed near the Town of North Richland Hills;

(2) Approximately 10 feet of 2-inch pipeline extending east from a point on Applicant's existing Line C-10 to a city gate measuring station to be installed near the Town of Westlake;

(3) Approximately 2.81 miles of 6-inch pipeline to loop and parallel its existing 4-inch Line C-10;

(4) Approximately 0.98 of a mile of 3-inch pipeline to loop and parallel its existing 2-inch Line C-10-1;

(5) A city gate measuring station to serve the remaining portion of the Town of North Richland Hills, Tarrant County, Tex.;

(6) A municipal natural gas distribution system to serve the remaining portion of the Town of North Richland Hills, Tarrant County, Tex.;

(7) A city gate measuring station to serve the Town of Westlake and an unincorporated area adjacent to Westlake, Tarrant County, Tex.; and

(8) Natural gas distribution systems in the Town of Westlake and an unincorporated area adjacent to Westlake, Tarrant County, Tex.

Applicant states that the service proposed above will be initial natural gas service to the three communities mentioned. Applicant further states that it estimates the third year peak daily and peak annual natural gas requirements of the three communities as follows:

Community	Peak daily requirements (Mcf)	Peak annual requirements (Mcf)
North Richland Hills	208	12,570
Westlake	91	5,610
Unincorporated Area Adjacent to Westlake	277	17,000
Total (Mcf)	576	35,200

Applicant estimates the total cost of the proposed facilities at approximately $53,970, said cost to be financed from working capital.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C. 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (§ 157.10) on or before August 9, 1967.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no protest or petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a protest or petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

GORDON M. GRANT,
Secretary.

[F.R. Doc. 67-8348; Filed, July 19, 1967; 8:46 a.m.]

[Docket No. CP68-5]

NORTHERN NATURAL GAS CO.

Notice of Application

JULY 11, 1967.

Take notice that on July 3, 1967, Northern Natural Gas Co. (Applicant), 2223 Dodge Street, Omaha, Nebr. 68102, filed in Docket No. CP68-5 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of certain natural gas facilities and the sale and delivery of additional volumes of natural gas to an existing customer, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Specifically, Applicant seeks authorization to construct and operate the following natural gas facilities:

(1) Approximately 14.3 miles of 24-inch pipeline loop on its Coyanosa to Kermit Compressor Station line, Texas;

(2) Approximately 10.7 miles of 36-inch pipeline loop on its Macksville Compressor Station to Bushton Compressor Station line, Kansas; and

(3) A 9,300 horsepower turbine compressor unit to be called the Pampa Compressor Station, Pampa, Tex.

Applicant also seeks authorization to sell and deliver to Northern Gas Products Co. (Products) an additional volume of up to 62,400 Mcf per day of natural gas for the use as fuel and shrinkage incident to the extraction of ethane from the stream of natural gas processed at its extraction plant located adjacent to Applicant's Bushton, Kansas Compressor Station. Applicant states that the sale and delivery of the additional volume of natural gas will enable Products to extract ethane and return the same volume of natural gas to the pipeline as under present operations.

Applicant estimates the total cost of the proposed facilities at approximately $4,810,100, said cost to be financed from cash on hand, reserve accruals and retained earnings.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C. 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (§ 157.10) on or before August 9, 1967.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no protest or petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a protest or petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

GORDON M. GRANT,
Secretary.

[F.R. Doc. 67-8349; Filed, July 19, 1967; 8:45 a.m.]

[Docket No. CP68-7]

TRANSWESTERN PIPELINE CO.

Notice of Application

JULY 13, 1967.

Take notice that on July 6, 1967, Transwestern Pipeline Co. (Applicant), First City National Bank Building, Houston, Tex. 77002, filed in Docket No. CP68-7 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of certain natural gas facilities and the sale and delivery of volumes of natural gas to Eastern New Mexico Gas Association (Eastern), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Specifically, Applicant seeks authorization to construct and operate minor tap, valve and measuring facilities which it proposes to use for the sale of natural gas to Eastern.

Applicant also seeks authorization to sell and deliver to Eastern up to 125,000 Mcf of natural gas per year under Applicant's FPC Gas Rate Schedule SG-1 and up to 125,000 Mcf of natural gas per year under its FPC Gas Rate Schedule RW-1, for a period to end July 31, 1968. Applicant states that Eastern has indicated that it has an immediate need for the volumes of natural gas mentioned above for use in its service area.

Applicant estimates the total cost of the proposed facilities at approximately $11,100, said cost to be financed from funds on hand.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C. 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (§ 157.10) on or before August 9, 1967.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no protest or petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a protest or petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

GORDON M. GRANT,
Secretary.

[F.R. Doc. 67-8350; Filed, July 19, 1967; 8:46 a.m.]

[Docket No. CP68-1]

UNITED GAS PIPE LINE CO.

Notice of Application

JULY 11, 1967.

Take notice that on July 3, 1967, United Gas Pipe Line Co. (Applicant), Post Office Box 1407, Shreveport, La. 71102, filed in Docket No. CP68-1 an application pursuant to section 7(b) of the Natural Gas Act for permission and approval to abandon certain natural gas facilities, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Specifically, Applicant seeks permission and approval to abandon the following natural gas facilities:

(1) Approximately 2.44 miles of 14-inch pipeline, 0.05 of a mile of 12-inch pipeline and 0.05 of a mile of 2-inch pipeline, together with miscellaneous valves and fittings, beginning at the Sterlington Compressor Station yard and extending easterly to a point of interconnection with the 18-inch Sterlington to Jackson mainline, Quachita Parish, La.;

(2) Approximately 800 feet of 6-inch line at the end of the 6-inch Lathrop Lateral, Upshur County, Tex.; and

(3) Two 300 horsepower compressor units, together with structures and appurtenant facilities, located at the Dallas Junction Compressor Station, Dallas County, Tex.

Applicant states that the facilities described above are no longer needed and the maintenance costs are not justifiable. Applicant further states that no present or future service will be affected by the proposed abandonment.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C. 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (§ 157.10) on or before August 7, 1967.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no protest or petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment is required by the public convenience and necessity. If a protest or petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

GORDON M. GRANT,
Secretary.

[F.R. Doc. 67-8351; Filed, July 19, 1967; 8:46 a.m.]

[Docket No. RI68-1]

HUMBLE OIL & REFINING CO.

Order Providing for Hearing on and Suspension of Proposed Changes in Rates, and Allowing Rate Changes To Become Effective Subject to Refund

JULY 13, 1967.

On June 16, 1967, Humble Oil & Refining Co. (Humble)[1] tendered for filing proposed changes in its presently effective rate schedules for sales of natural gas subject to the jurisdiction of the Commission. The proposed changes, which constitute increased rates and charges, are designated as follows:

[1] Address is: Post Office Box 2180, Houston, Tex. 77001.

Docket No.	Respondent	Rate sched. No.	Supplement No.	Purchaser and producing area.	Amount of annual increase	Date filing tendered	Effective date unless suspended	Date suspended until—	Cents per Mcf: Rate in effect	Cents per Mcf: Proposed increased rate	Rate in effect subject to refund in docket Nos.
RI68-1	Humble Oil & Refining Co., Post Office Box 2180, Houston, Tex. 77001.	27	9	Phillips Petroleum Co.[1] (Texas Hugoton Field, Sherman County, Tex.) (R.R. District No. 10).	88	6-16-67	[2] 7-17-67	[3] 7-18-67	[4] 11.0	[5] [6] 11.0939	RI66-68.
	do.	[7] 255	6	Colorado Interstate Gas Co. (Hugoton Field, Stanton and Hamilton Counties, Kans.).	[8] 116	6-16-67 6-16-67	[2] 7-17-67 [2] 7-17-67	[3] 7-18-67 [3] 7-18-67	[9] [10] 12.5 [11] [12] 14.0	[5] [10] 13.5 [11] [12] 15.0	
	do.	162	8	El Paso Natural Gas Co. (North Lundrith (Mesa Verde) Field, Rio Arriba County, N. Mex.) (San Juan Basin Area).	[8]	6-14-67	[2] 7-17-67	[3] 7-18-67	[13] 13.0	[6] [14] 13.2855	

[1] Phillips resells the gas under its FPC Gas Rate Schedule No. 4 to Michigan-Wisconsin Pipe Line Co. at a rate of 15.35372 cents which is in effect subject to refund in Docket No. RI65-526.
[2] The stated effective date is the first day after expiration of the statutory notice.
[3] The suspension period is limited to 1 day.
[4] Tax reimbursement increase.
[5] Pressure base is 14.65 p.s.i.a.
[6] Subject to a deduction of 0.4445 cents for sour gas.
[7] Contract dated after Sept. 28, 1960, the date of issuance of General Policy Statement No. 61-1.
[8] No production below base of Chase Formation.
[9] Periodic rate increase.
[10] Rate applicable for gas above base of Chase Formation.
[11] Subject to a downward B.t.u. adjustment.
[12] Settlement rate pursuant to order issued July 6, 1966, in Docket Nos. G-9288 et al.
[13] Subject to upward and downward B.t.u. adjustment.
[14] Rate applicable for gas below base of Chase Formation.
[15] Pressure base is 14.025 p.s.i.a.
[16] Includes partial reimbursement for full 2.55 percent New Mexico Emergency School Tax.

Humble requests an effective date of June 1, 1967, the date of expiration of filing moratorium for rate increases to levels in excess of area rate ceilings pursuant to terms of company-wide settlement in Docket Nos. G-9237 and G-9288 et al., for its proposed rate increases. Humble also requests that should the Commission suspend its rate filings that the suspension period be a maximum of 1 day, or as short a period as possible. Good cause has not been shown for granting Humble's request for an earlier effective date or for limiting to 1 day the suspension period with respect to such rate filings and Humble's request is denied, except as ordered herein.

The contract related to the increases contained in Supplement No. 4 to Humble's FPC Gas Rate Schedule No. 255 was executed subsequent to September 28, 1960, the date of the issuance of the Commission's Statement of General Policy No. 61-1, as amended, and the proposed increased rates exceed the area increased rate ceiling of 11.0 cents for Kansas but do not exceed the initial service ceiling of 16.0 cents per Mcf established for Kansas. We believe, in this situation, Humble's proposed rate increases should be suspended for 1 day from July 17, 1967, the date of expiration of the statutory notice.

Supplement No. 6 to Humble's FPC Gas Rate Schedule No. 162 reflects partial reimbursement for the full 2.55 percent New Mexico Emergency School Tax which was increased from 2.0 percent to 2.55 percent on April 1, 1963. The buyer, El Paso Natural Gas Co. (El Paso), in accordance with its policy of protesting all tax filings proposing reimbursement for the New Mexico Emergency School Tax in excess of 0.55 percent, is expected to file a protest to this rate increase. El Paso questions the right of the producer under the tax reimbursement clause to file a rate increase reflecting tax reimbursement computed on the basis of an increase in tax rate by the New Mexico Legislature in excess of 0.55 percent. While El Paso concedes that the New Mexico tax legislation effected a higher rate of at least 0.55 percent, it claims there is controversy as to whether or not the new legislation effected an increased tax rate in excess of 0.55 percent. Under the circumstances, we shall provide that the hearing herein provided shall concern itself with the contractual basis as well as the statutory lawfulness of Humble's proposed increased rate and charge. Since the rate increase reflects tax reimbursement only and exceeds the 13.0 cents San Juan Basin Area increased rate ceiling by the amount of the tax reimbursement we conclude that the suspension period may be shortened to 1 day from July 17, 1967, the date of expiration of the statutory notice.

The proposed rate increase contained in Supplement No. 9 to Humble's FPC Gas Rate Schedule No. 20 is for only the contractually due tax reimbursement for a sale to Phillips Petroleum Co. (Phillips) in Texas Railroad District No. 10. Phillips, after gathering and processing resells the gas under its FPC Gas Rate Schedule No. 4 to Michigan Wisconsin Pipe Line Co. at an effective rate of 15.35372 cents which is subject to refund in Docket No. RI65-526. The proposed rate of 11.0939 cents per Mcf exceeds the area increased rate ceiling of 11.0 cents per Mcf (applicable at the tailgate of Phillips' plant) for RR. District No. 10 as announced in the Commission's Statement of General Policy No. 61-1, as amended. Since Phillips' proposed resale rate is in effect subject to refund, we conclude that Humble's rate increase should be suspended for one day from July 17, 1967, the date of expiration of the statutory notice.

The proposed changed rates and charges may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the proposed changes, and that the above-designated supplements be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing shall be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rates and charges contained in the above-designated supplements.

(B) Pending a hearing and decision thereon, the above-designated rate supplements are hereby suspended and the use thereof deferred until July 18, 1967, and thereafter until such further time as they are made effective in the manner prescribed by the Natural Gas Act: *Provided, however,* That the supplements to the rate schedules filed by Humble, as set forth herein, shall become effective subject to refund on the date and in the manner herein prescribed if within 20 days from the date of the issuance of this order, Humble shall execute and file under Docket No. RI68-1, with the Secretary of the Commission, its agreement and undertaking to comply with the refunding and reporting procedure required by the Natural Gas Act and § 154.102 of the regulations thereunder, accompanied by a certificate showing service of a copy thereof upon all purchasers under the rate schedules involved. Unless Humble is advised to the contrary within 15 days from the filing of its agreement and undertaking, such agreement and undertaking shall be deemed to have been accepted.

(C) Neither the supplements hereby suspended, nor the rate schedules sought to be altered thereby, shall be changed until this proceeding has been disposed of or until the periods of suspension have expired, unless otherwise ordered by the Commission.

(D) Notices of intervention or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C. 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 and 1.37(f)) on or before August 30, 1967.

By the Commission.

[SEAL] GORDON M. GRANT, *Secretary.*

SECURITIES AND EXCHANGE COMMISSION

[812-2066]

NORTHERN ENTERPRISES, INC.

Notice of Application for Order of Temporary Exemption

JULY 14, 1967.

Notice is hereby given that Northern Enterprises, Inc. ("Applicant"), 2631 West Superior Street, Duluth, Minn., a Minnesota corporation, has filed an application pursuant to section 6(c) of the Investment Company Act of 1940, 15 U.S.C. Sec. 80a-1 et seq. ("Act"), for an order of the Commission temporarily exempting it from section 7 of the Act. Applicant, in requesting such temporary exemption, has agreed that it and other persons in their transactions and relations with it shall be subject to all other provisions of the Act and the respective Rules and Regulations promulgated under each of such provisions as though Applicant were a registered investment company, other than the following: Section 8, section 10(a), subsections (f), (g), (h), and (i) of section 17, section 18 (except subsection (d) thereof), section 20(a), section 23, section 30 (except subsection (f) thereof); and section 31 of the Act, and the rules and regulations thereunder. All interested persons are referred to the application which is on file with the Commission for a statement of Applicant's representations which are summarized below:

On February 22, 1967, Applicant filed an application pursuant to section 3(b)(2) of the Act for an order of the Commission declaring that it is not an investment company. Section 3(b)(2) provides that the filing of an application thereunder shall exempt an applicant for a period of 60 days from all provisions of the Act applicable to investment companies as such.

The 60-day period of exemption provided in section 3(b)(2) of the Act expired, in Applicant's case, on April 22, 1967. Applicant, which has not registered as an investment company under the Act has asked that it be exempted as requested from April 22, 1967 until the Commission has acted upon the application under section 3(b)(2) of the Act.

Notice is further given that any interested person may, not later than August 2, 1967, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the Applicant at the address stated above. Proof of such service (by affidavit or in case of an attorney at law by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission (pursuant to delegated authority).

[SEAL] ORVAL L. DUBOIS, *Secretary.*

SUBSCRIPTION TELEVISION, INC.

Order Suspending Trading

JULY 14, 1967.

It appearing to the Securities and Exchange Commission that the summary suspension of trading in the common stock, $1 par value of Subscription Television, Inc., being traded otherwise than on a national securities exchange is required in the public interest and for the protection of investors:

It is ordered, Pursuant to section 15(c)(5) of the Securities Exchange Act of 1934, that trading in such securities otherwise than on a national securities exchange be summarily suspended, this order to be effective for the period July 15, 1967, through July 24, 1967, both dates inclusive.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[70-4505]

WEST PENN POWER CO.

Notice of Proposed Issue and Sale of Short-Term Notes

JULY 13, 1967.

Notice is hereby given that West Penn Power Co. ("West Penn"), 800 Cabin Hill Drive, Greensburg, Pa. 15601, a public-utility subsidiary company of Allegheny Power System, Inc., a registered holding company, has filed a declaration and an amendment thereto with this Commission, pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6 and 7 thereof as applicable to the proposed transactions. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transactions.

West Penn requests authorization to issue and sell, from time to time prior to August 1, 1968, its unsecured promissory notes to banks in an aggregate principal amount not to exceed $13 million. Each note proposed to be issued by West Penn will bear interest at the prime rate in effect at the purchasing bank on the date of issue, will mature not more than twelve months after the date of issue, and will be prepayable at any time without penalty.

The $13 million of West Penn's notes are to be issued to the following banks in the maximum amounts as listed:

First National City Bank, New York, N.Y.	$10,000,000
Mellon National Bank & Trust Co., Pittsburgh, Pa.	2,000,000
Pittsburgh National Bank, Pittsburgh, Pa.	1,000,000
	13,000,000

West Penn proposes to use the net proceeds from the proposed notes for construction and to repay other short-term bank borrowings incurred therefor under the exemption afforded by the first sentence of section 6(b) of the Act. The net proceeds from the sale of any permanent debt securities will be applied in total payment of all notes then outstanding and, thereupon, any authorization which may be granted under this declaration will cease to be effective.

It is stated that no fees and expenses, other than ordinary expenses estimated at $500, will be incurred in connection with the proposed transactions. It is further stated that no State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than August 3, 1967, request in writing that a hearing be held in respect of such matter, stating the nature of his interest, the reasons for such request and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified should the Commission order a hearing in respect thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the declarant of the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as filed or as it may be amended, may be permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as

provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission (pursuant to delegated authority).

[SEAL] ORVAL L. DUBOIS, *Secretary.*

INTERSTATE COMMERCE COMMISSION

[Notice 1067]

MOTOR CARRIER, BROKER, WATER CARRIER AND FREIGHT FORWARDER APPLICATIONS

JULY 14, 1967.

The following applications are governed by Special Rule 1.247[1] of the Commission's general rules of practice (49 CFR, as amended), published in the FEDERAL REGISTER issue of April 20, 1966, effective May 20, 1966. These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after date of notice of filing of the application is published in the FEDERAL REGISTER. Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with § 1.247(d)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describing in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. If the protest includes a request for oral hearing, such requests shall meet the requirements of § 1.247(d)(4) of the special rule, and shall include the certification required therein.

[1] Copies of Special Rule 1.247 (as amended) can be obtained by writing to the Secretary, Interstate Commerce Commission, Washington, D.C. 20423.

Section 1.247(f) of the Commission's rules of practice further provides that each applicant shall, if protests to its application have been filed, and within 60 days of the date of this publication, notify the Commission in writing (1) that it is ready to proceed and prosecute the application, or (2) that it wishes to withdraw the application, failure in which the application will be dismissed by the Commission.

Further processing steps (whether modified procedure, oral hearing, or other procedures) will be determined generally in accordance with the Commission's general policy statement concerning motor carrier licensing procedures, published in the FEDERAL REGISTER issue of May 3, 1966. This assignment will be by Commission order which will be served on each party of record.

The publications hereinafter set forth reflect the scope of the applications as filed by applicants, and may include descriptions, restrictions, or limitations which are not in a form acceptable to the Commission. Authority which ultimately may be granted as a result of the applications here noticed will not necessarily reflect the phraseology set forth in the application as filed, but also will eliminate any restrictions which are not acceptable to the Commission.

No. MC 531 (Sub-No. 230), filed July 3, 1967. Applicant: YOUNGER BROTHERS, INC., 4904 Griggs Road, Post Office Box 14287, Houston, Tex. 77021. Applicant's representative: Wray E. Hughes (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid synthetic resin*, in bulk, in tank vehicles, from Avondale, La., to Pine Bluff, Camden, Crossett, and Morrilton, Ark., and Bastrop, Springhill, and Hodge, La. NOTE: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at New Orleans, La.

No. MC 730 (Sub-No. 284), filed July 3, 1967. Applicant: PACIFIC INTERMOUNTAIN EXPRESS CO., a corporation, 1417 Clay Street, Oakland, Calif. 94604. Applicant's representative: Alfred G. Krebs (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those which require armored vehicles or armed guards, classes A and B explosives, household goods as defined by the Commission, livestock, commodities in bulk, and those requiring special equipment), between Springfield, Ill., and Indianapolis, Ind., from Springfield over U.S. Highway 36 to Indianapolis and return over the same route as an alternate route for operating convenience only, serving no intermediate points, but serving Springfield, Ill., for the purpose of joinder only. NOTE: Applicant states it controls through stock ownership the freight forwarder operations of Pacific & Atlantic Shippers, Inc., and its affiliated companies, permit No. FF-52 and National Carloading Corp. and its affiliated companies, permit Nos. FF-68 and FF-71 and B. C. Forwarding Co., Ltd., permit No. FF-175. If a hearing is deemed necessary, applicant requests it be held at Indianapolis, Ind., or Springfield, Ill.

No. MC 2401 (Sub-No. 38), filed July 3, 1967. Applicant: MOTOR FREIGHT CORPORATION, 2345 South 13th Street, Terre Haute, Ind. 47802. Applicant's representative: Arnold L. Burke, 39 South La Salle Street, Chicago, Ill. 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, except those of unusual value, classes A and B explosives, household goods as defined in *Practices of Motor Common Carriers of Household Goods*, 17 M.C.C. 467, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading, serving the Argonne Industrial District located in Will and Du Page Counties, Ill., as an off-route point in connection with applicant's presently authorized regular route service at Chicago, Ill. NOTE: If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 2860 (Sub-No. 14), filed July 6, 1967. Applicant: NATIONAL FREIGHT, INC., 57 West Park Avenue, Vineland, N.J. 08360. Applicant's representative: Alvin Altman, 1776 Broadway, New York, N.Y. 10019. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Glass and plastic containers, bottles, jars, pack glasses, and jelly tumblers, with and without caps, covers, stoppers and tops, and corrugated paper boxes and paper containers*, knocked down, when moving in mixed shipments with the above described commodities, between Connellsville and South Connellsville, Pa., on the one hand, and, on the other, points in Connecticut, Massachusetts, New Jersey, New York, and Rhode Island. NOTE: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Philadelphia, Pa., or New York, N.Y.

No. MC 2860 (Sub-No. 15), filed July 6, 1967. Applicant: NATIONAL FREIGHT, INC., 57 West Park Avenue, Vineland, N.J. 08360. Applicant's representative: Alvin Altman, 1776 Broadway, New York, N.Y. 10019. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Glass or plastic containers, bottles, jars, pack glasses, and jelly tumblers, with or without caps, covers, stoppers or tops, and corrugated paper boxes or paper containers*, knocked down, when moving in mixed shipments with the above described commodities, between Orangeburg, N.Y., on the one hand, and, on the other, points in Connecticut, Massachusetts, New Jersey, New York, Pennsylvania, and Rhode Island. Note: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at New York, N.Y., Philadelphia, Pa., or Washington, D.C.

No. MC 11207 (Sub-No. 264), filed July 5, 1967. Applicant: DEATON, INC., 3409 10th Avenue North, Birmingham, Ala. 35234, also Post Office Box 1271, Birmingham, Ala. 35234. Applicant's representative: A. Alvis Layne, Pennsylvania Building, Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Paper, paper bags, and paper products*, from the plantsite and warehouses of West Virginia Pulp & Paper Co., New Orleans, La., to points in Georgia (except Atlanta, Ga., and its commercial zone). NOTE: If a hearing is deemed necessary, applicant requests it be held at New Orleans, La., or Atlanta, Ga.

No. MC 11185 (Sub-No. 123), filed July 7, 1967. Applicant: J-T TRANSPORT COMPANY, INC., 3501 Manchester Trafficway, Kansas City, Mo. 64120. Applicant's representative: James W. Wrape, 2111 Sterick Building, Memphis, Tenn. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Airplane parts and equipment*, which because of their delicate and fragile nature, require the use of special equipment or special handling, and (2) *commodities* which do not require special equipment or special handling when loaded in the same vehicle with airplane parts and equipment which require the use of special equipment or special handling, from points in King, Pierce, and Snohomish Counties, Wash., to Wichita, Kans., under contract with the Boeing Co. NOTE: Applicant holds common carrier authority in MC 110077, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Wichita, Kans., or Kansas City, Mo.

No. MC 17000 (Sub-No. 7) (Amendment), filed June 5, 1967, published in FEDERAL REGISTER issue of June 29, 1967, amended July 1, 1967, and republished as amended this issue. Applicant: HOHENWALD TRUCK LINES, INC., 107 Mill Street, Hohenwald, Tenn. Applicant's representative: Robert H. Cowan, 500 Court Square Building, Nashville, Tenn. 37201. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, (1) from Lobelville, Tenn., over Tennessee Highway 13 to the junction of Interstate Highway 40, thence over Interstate Highway 40 to Nashville, Tenn., and return over the same route as an alternate route for operating convenience only serving no intermediate points and (2) between Nashville, Tenn., and intersection of Interstate Highway 65 and Tennessee Highway 99 over said Interstate Highway 65 to the extent same is available for use and in the future over such additional sections of said Interstate Highway 65 as same become available for use, with authority to enter, leave, and reenter said Interstate Highway 65 at such interchanges, crossings, and traversing such highways as is necessary to connect with applicant's presently authorized route, to be used for operating convenience only, serving no intermediate points. NOTE: The purpose of this republication is to add (1) above, broadening the scope of the application. If a hearing is deemed necessary, applicant requests it be held at Nashville, Tenn.

No. MC 17226 (Sub-No. 29), filed July 7, 1967. Applicant: FRUIT BELT MOTOR SERVICE, INC., 6036 West 29th Street, Cicero, Ill. 60650. Applicant's representatives: Eugene L. Cohn, 1 North La Salle Street, Chicago, Ill. 60602, and Beverley S. Simms, 1700 Pennsylvania Avenue, NW., Washington, D.C. 20006. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Machinery and parts, materials, and supplies*, used in the manufacture, shipping, or operation of household laundry machines, stoves and ranges, between Woodstock, Ill., and St. Joseph and Benton Harbor, Mich., under a continuing contract, or contracts with the Whirlpool Corp. NOTE: If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Washington, D.C.

No. MC 18535 (Sub-No. 48), filed July 5, 1967. Applicant: O. ALEX HICKLIN, doing business as HICKLIN MOTOR LINE, Post Office Box 377, St. Matthews, S.C. 29135. Applicant's representative: William Addams, Room 406, 1776 Peachtree Street NW., Atlanta, Ga. 30309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Aggregates, crushed stone, and gravel*, from Ruby, Ga., to points in South Carolina, (2) *aggregates, crushed stone, gravel and sand*, in bags and in bulk, from Marlboro, S.C., Eldorado, N.C., and Lowry, Va., to points in Alabama, Florida, Indiana, Kentucky, Louisiana, Maryland, Mississippi, North Carolina, Ohio, Georgia, South Carolina, Tennessee, West Virginia, and Virginia; and (3) *sand*, in bags and in bulk, from points Kershaw and Lexington Counties, S.C., to points in Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, Tennessee, West Virginia, and Virginia. NOTE: If a hearing is deemed necessary, applicant requests it be held at Columbia, S.C., or Charlotte, N.C.

No. MC 21060 (Sub-No. 8), filed July 3, 1967. Applicant: IOWA PARCEL SERVICE, INC., 214 15th Street, Des Moines, Iowa 50309. Applicant's representative: Homer E. Bradshaw, 11th Floor, Des Moines Building, Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Motion picture films, film accessories, and advertising material* used in connection with exhibition of such films, magazines, and periodical publications, between points in Iowa. NOTE: Applicant states it would tack the proposed authority with presently held authority at Omaha, Nebr., and the Omaha commercial zone, Fulton, Moline, East Moline, Rock Island, Ill., and the commercial zones of the Illinois points involved. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Des Moines, Iowa, or Chicago, Ill.

No. MC 22229 (Sub-No. 45), filed July 5, 1967. Applicant: TERMINAL TRANSPORT COMPANY, INC., 248 Chester Avenue SE., Atlanta, Ga. 30316. Applicant's representative: Ralph B. Matthews (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving the Argonne Industrial District, Du Page Township, Will County, Ill., as an off-route point in connection with authorized regular route operations to and from Chicago, Ill. NOTE: If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 22301 (Sub-No. 8), filed July 3, 1967. Applicant: SIOUX TRANSPORTATION COMPANY, INC., Post Office Box 3088, Sioux City, Iowa 51102. Applicant's representative: Arnold L. Burke, 39 South La Salle Street, Chicago, Ill. 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, except those of unusual value, and except dangerous explosives, household goods as defined in *Practices of Motor Common Carrier of Household Goods*, 17 M.C.C. 467, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading, serving the Argonne Industrial District located in Will and Du Page Counties, Ill., as an off-route point in connection with applicant's presently authorized regular route service at Chicago, Ill. NOTE: If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 25798 (Sub-No. 154), filed July 3, 1967. Applicant: CLAY HYDER TRUCKING LINES, INC., 502 East Bridgers Avenue, Post Office Box 1186, Auburndale, Fla. 33823. Applicant's representative: Tony G. Russell (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs*, other than frozen, from points in Sussex County, Del., and Frederica, Del., to points in Georgia and Florida. NOTE: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Philadelphia, Pa.

No. MC 27817 (Sub-No. 72), filed July 10, 1967. Applicant: H. C. GABLER, INC., Rural Delivery No. 3, Chambersburg, Pa. 17201. Applicant's representative: Christian V. Graf, 407 North Front Street, Harrisburg, Pa. 17101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs*, other than frozen, from Chambersburg, Pa., to points in New York, New Jersey, Connecticut, Massachusetts, Rhode Island, Maryland, Virginia, West Virginia, Delaware, District of Columbia, and points in that portion of North Carolina bounded by a line beginning at the North Carolina-Virginia State line and extending south along U.S. Highway 301

to the North Carolina–South Carolina State line, thence west along the North Carolina–South Carolina State line to junction U.S. Highway 321, near Crowders, N.C., thence north along U.S. Highway 321 to Boone, N.C., thence north along North Carolina Highway 194 through Todd, N.C., to junction U.S. Highway 221 thence north along U.S. Highway 221 to the North Carolina–Virginia State line, thence east along the North Carolina–Virginia State line to the point of beginning. NOTE: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Harrisburg, Pa.

No. MC 29555 (Sub-No. 49), filed July 3, 1967. Applicant: BRIGGS TRANSPORTATION CO., a corporation, 2360 West County Road "C", St. Paul, Minn. 55113. Applicant's representative: Winston W. Hurd (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes transporting: *General commodities* (except those of unusual value, livestock, classes A and B explosives, houshold goods as defined by the Commission, commodities in bulk, commodities requiring special equipment (except those requiring temperature control) and those injurious or contaminating to other lading), serving Argonne Industrial District, Du Page Township, Will County, Ill., as an off-route point in connection with applicant's authorized regular route operations between the commercial zone of Chicago, Ill., and points in Iowa, Nebraska, Minnesota, and Wisconsin. NOTE: If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., Minneapolis, Minn., or Des Moines, Iowa.

No. MC 31389 (Sub-No. 86), filed July 7, 1967. Applicant: McLEAN TRUCKING COMPANY, a corporation, 617 Waughtown Street, Post Office Box 213, Winston-Salem, N.C. 27102. Applicant's representative: Francis W. McInerny, Suite 502, 1000 16th Street NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk and those requiring special equipment), serving the plantsite of the Ford Motor Co., Van Dyke and 18 Mile Road, Sterling Township, Mich., as an off-route point in connection with applicant's regular route operations to and from Detroit, Mich. NOTE: If a hearing is deemed necessary, applicant does not specify a location.

No. MC 41432 (Sub-No. 100), filed July 5, 1967. Applicant: EAST TEXAS MOTOR FREIGHT LINES, INC., 623 North Washington Avenue, Post Office Box 26040, Dallas, Tex. 75226. Applicant's representative: Rollo E. Kidwell (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *Ammunition* (explosive, incendiary, or gas, smoke, or tear producing), *manufactured ingredients and component parts of ammunition*, and *general commodities*, except those of unusual value, explosives (other than ammunition and manufactured ingredients and component parts of ammunition as specified), livestock, rock, gravel, sand, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, serving the Argonne Industrial District located in Will and Du Page Counties, Ill., as an off-route point in connection with applicant's regular route operations from and to Chicago, Ill. NOTE: If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 49387 (Sub-No. 34), filed July 5, 1967. Applicant: ORSCHELN BROS. TRUCK LINES, INC., Moberly, Mo. Applicant's representative: Arnold L. Burke, 39 South La Salle Street, Chicago, Ill. 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, and except dangerous explosives, household goods as defined in *Practices of Motor Common Carriers of Household Goods*, 17 M.C.C. 467, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), serving the Argonne Industrial District located in Will and Du Page Counties, Ill., as an off-route point in connection with applicant's presently held authorized regular route operations to and from Chicago, Ill. NOTE: If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 52579 (Sub-No. 76), filed June 30, 1967. Applicant: GILBERT CARRIER CORP., 441 Ninth Avenue, New York, N.Y. 10001. Applicant's representative: Irving Klein, 280 Broadway, New York, N.Y. 10007. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wearing apparel and materials and supplies used in the manufacture thereof*, (1) between Newark, N.J., on the one hand, and, on the other, Hialeah, Fla., and Fayette, Ala., (2) between Hartsville, S.C., and West Hollywood, Fla., and (3) between Newport, Vt., on the one hand, and, on the other, points in the New York commercial zone. NOTE: Applicant states it intends to tack at New York, N.Y., to all points to which it now holds authority from New York, N.Y. If a hearing is deemed necessary, applicant requests it be held at New York, N.Y., or Newark, N.J.

No. MC 52704 (Sub-No. 58), filed July 7, 1967. Applicant: GLENN McCLENDON TRUCKING COMPANY, INC., Post Office Box 495, Lafayette, Ala. 36862. Applicant's representative: John W. Cooper, 1301 City Federal Building, Birmingham, Ala. 35203. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Glass bottles and containers for food and beverage* from the plantsite of Laurens Glass, Inc., at or near Simsboro, La., to points in Alabama, Arkansas, Arizona, Florida, Georgia, Louisiana, Mississippi, Missouri, Oklahoma, New Mexico, North Carolina, South Carolina, Tennessee, and Texas, and cullett (scrap glass), on return. NOTE: If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 52709 (Sub-No. 295), filed July 3, 1967. Applicant: RINGSBY TRUCK LINES, INC., 3201 Ringsby Court, Denver, Colo. 80216. Applicant's representative: Eugene Hamilton (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), serving Elk Grove Village, Ill., as an off-route point in connection with applicant's authorized regular route operations. NOTE: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 59117 (Sub-No. 26), filed July 7, 1967. Applicant: ELLIOTT TRUCK LINE, INC., Post Office Box 1, Vinita, Okla. Applicant's representative: Carll V. Kretsinger, 450 Professional Building, 1103 Grand Avenue, Kansas City, Mo. 64106. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Building materials, farm and ranch supplies, and steel articles*, between points in the Kansas City, Mo.-Kans., commercial zone (as defined by the Commission), on the one hand, and, on the other, points in Oklahoma. NOTE: If a hearing is deemed necessary, applicant requests it be held at Kansas City, Mo., or Oklahoma City, Okla.

No. MC 60012 (Sub-No. 74), filed July 3, 1967. Applicant: RIO GRANDE MOTOR WAY, INC., 1400 West 52d Avenue, Denver, Colo. 80221. Applicant's representative: Warren D. Braucher, 604 Rio Grande Building, Denver, Colo. 80217. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities* in bulk, between the mine and mill site of Molybdenum Corp. of America, at or near Molybdenum, N. Mex., on the one hand, and, on the other Fort Garland and Alamosa, Colo., restricted to traffic having a prior or subsequent movement by rail. NOTE: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Denver, Colo.

No. MC 61877 (Sub-No. 2), filed June 30, 1967. Applicant: S. HOCHHAUSER TRUCKING CORP., 371 West Street, New York, N.Y. 10014. Applicant's representative: George A. Olsen, 69 Tunnele Avenue, Jersey City, N.J. 07306. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Books*, between the plant and facilities of John Wiley & Sons, Inc., at Somerset, N.J., on the one hand, and, on the other, points in Hudson, Essex, and Bergen Counties, N.J. (restricted to shipments having prior or subsequent movement via other carriers), New York, N.Y., and points in Westchester, Nassau, and Suffolk Counties, N.Y. NOTE:

If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or New York, N.Y.

No. MC 69833 (Sub-No. 91), filed July 7, 1967. Applicant: ASSOCIATED TRUCK LINES, INC., Vandenberg Center, Grand Rapids, Mich. 49502. Applicant's representative: Harry Pohlad (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment and those injurious or contaminating to other lading, between Cleveland, Ohio, and Columbus, Ohio, over Interstate Highway 71, as an alternate route for operating convenience only, serving no intermediate points. NOTE: If a hearing is deemed necessary, applicant requests it be held at Lansing or Detroit, Mich.

No. MC 70151 (Sub-No. 45) (Correction), filed June 2, 1967, published FEDERAL REGISTER issue of June 22, 1967, and republished as corrected this issue. Applicant: UNITED TRUCKING SERVICE, INCORPORATED, 3047 Lonyo Road, Detroit, Mich. 48209. Applicant's representative: Robert D. Schuler, Suite 1700, 1 Woodward Avenue, Detroit, Mich. 48226. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving the plantsite of the Ford Motor Co., located at Van Dyke and 18 Mile Road, Sterling Township, Macomb County, Mich., as an off-route point in connection with authorized regular route authority at Detroit, Mich. NOTE: The purpose of this republication is to show the correct spelling as Van Dyke in lieu of Van Kyke as previously shown. If a hearing is deemed necessary, applicant requests it be held at Lansing, Mich.

No. MC 75320 (Sub-No. 135), filed July 5, 1967. Applicant: CAMPBELL SIXTY-SIX EXPRESS, INC., Post Office Box 807, Springfield, Mo. 65801. Applicant's representative: Dick Messersmith (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *Hospital, dental and medical supplies and related articles, and materials and supplies* used in the manufacture and packaging thereof, serving the Argonne Industrial District located in Du Page Township, Will County, Ill., as an off-route point in connection with applicant's presently authorized regular route authority between Springfield, Mo., and Chicago, Ill. NOTE: If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 80430 (Sub-No. 117), filed July 3, 1967. Applicant: GATEWAY TRANSPORTATION CO., INC., 2130 South Avenue, La Crosse, Wis. 54601. Applicant's representative: Joseph E. Ludden (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving the plantsite of Johnson & Johnson Co. located in the Argonne Industrial District near Lement, Ill., as an off-route point in connection with applicant's presently authorized regular route operations. NOTE: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Washington, D.C.

No. MC 82079 (Sub-No. 16) (Correction), filed June 23, 1967, published FEDERAL REGISTER issue of July 13, 1967, and republished as corrected this issue. Applicant: KELLER TRANSFER LINE, INC., 1239 Randolph Avenue SW., Grand Rapids, Mich. 49507. Applicant's representative: J. M. Neath, Jr., 900 1 Vandenberg Center, Grand Rapids, Mich. 49507. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods and potato products*, from Greenville, Mich., to Toledo, Maumee, Cleveland, and Painesville, Ohio. NOTE: The purpose of this republication is to add frozen foods to the commodity description, inadvertently omitted from previous publication. If a hearing is deemed necessary, applicant requests it be held at Lansing, Mich., or Chicago, Ill.

No. MC 82569 (Sub-No. 7), filed June 14, 1967. Applicant: ROY YOUNG, INC., 2901 Charity Street, Post Office Box 712, Abbeville, La. 70510. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fish meal, fish residuum, fish scrap and fish oil*, from Intracoastal City, La., to Abbeville, La., Vermilion Parish. NOTE: If a hearing is deemed necessary, applicant requests it be held at Baton Rouge, La.

No. MC 82841 (Sub-No. 34), filed June 30, 1967. Applicant: R–D TRANSFER, INC., 801 Livestock Exchange Building, Omaha, Nebr. 68107. Applicant's representative: Donald L. Stern, 630 City National Bank Building, Omaha, Nebr. 68102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cranes unmounted and mounted, wheeled cranes, and parts and attachments for cranes*, from Waverly, Nebr., to points in the United States (except Alaska and Hawaii). NOTE: Applicant indicates tacking possibilities. If a hearing is deemed necessary, applicant requests it be held at Omaha or Lincoln, Nebr.

No. MC 87720 (Sub-No. 67), filed July 7, 1967. Applicant: BASS TRANSPORTATION CO., INC., Old Croton Road, Flemington, N.J. Applicant's representative: Bert Collins, 140 Cedar Street, New York, N.Y. 10006. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Plastic bottles, containers, and plastic tubes*, from Flemington, N.J., to points in Ohio, Illinois, Indiana, Michigan, Wisconsin, Virginia, North Carolina, South Carolina, Georgia, Florida, Kentucky, and Missouri, and (2) *returned and damaged shipments* in the reverse direction, under contract with Tennepak Department Tenneco Chemicals, Inc. NOTE: If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 103993 (Sub-No. 285) (Correction), filed May 22, 1967, published in FEDERAL REGISTER issue of June 8, 1967, under No. MC 103933 (Sub-No. 285), and republished as corrected this issue. Applicant: MORGAN DRIVE-AWAY, INC., 2800 West Lexington Avenue, Elkhart, Ind. 46514. Applicant's representative: Robert C. Tessar (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Trailers*, designed to be drawn by passengers vehicles, (a) from Shelby County, Tenn., to points in Georgia, Alabama, Mississippi, Kentucky, Louisiana, Indiana, Florida, Illinois, Texas, North Carolina, South Carolina, Missouri, and Arkansas; and (b) from Carter County, Tenn., to points in the United States (except Alaska and Hawaii); (2) *houseboats* designed to be drawn by passenger vehicles, from Davidson County, Tenn., to points in the United States (except Alaska and Hawaii); and (3) *prefabricated buildings*, complete, knocked down, or in sections, and equipment and materials incidental to the erection and completion of such buildings when shipped therewith, from Carter and Washington Counties, Tenn., to points in the United States (except Alaska and Hawaii). NOTE: The purpose of this republication is to show the correct number as MC 103993, Sub 285 in lieu of MC 103933, Sub 285 as previously shown. If a hearing is deemed necessary, applicant requests it be held at Nashville, Tenn.

No. MC 105461 (Sub-No. 78), filed July 7, 1967, Applicant: HERR'S MOTOR EXPRESS, INC., Box 8, Quarryville, Pa. 17566. Applicant's representative: Bernard N. Gingerich, 110 West State Street, Quarryville, Pa. 17566. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Composition roofing, composition siding, composition roofing and composition siding materials, and articles used in the application of composition roofing and composition siding*, except commodities in bulk, in tank vehicles, from Edge Moor, Del., to points in West Virginia on and north of U.S. Highway 33. NOTE: If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Philadelphia, Pa.

No. MC 106644 (Sub-No. 81), filed June 30, 1967. Applicant: SUPERIOR TRUCKING COMPANY, INC., 2770 Peyton Road NW., Atlanta, Ga. 30321. Applicant's representative: Otis E. Stovall (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Plastic pipe, plastic or iron connections, fittings and accessories*, from the plantsite and warehouse

facilities of the Clow Corp., located at or near Lincoln, Talladega County, Ala., to points in Arkansas, Florida, Georgia, Illinois, Indiana, Kentucky, Louisiana, Mississippi, Missouri, North Carolina, Oklahoma, South Carolina, Tennessee, Texas, Virginia, and West Virginia; and (2) *equipment, materials and supplies*, used in the manufacture, processing and distribution of plastic pipe, plastic or iron connections, fittings, and accessories (except in bulk, in tank vehicles), on return. NOTE: If a hearing is deemed necessary, applicant requests it be held at Birmingham, Ala., or Atlanta, Ga.

No. MC 106943 (Sub-No. 93), filed July 6, 1967. Applicant: EASTERN EXPRESS, INC., 1450 Wabash Avenue, Terre Haute, Ind. Applicant's representative: James E. Lash, 3737 North Meridian Street, Indianapolis, Ind. 46208. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except classes A and B explosives, livestock, grain, petroleum products, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving the plantsite of Johnson & Johnson in the Argonne Industrial District, Du Page Township, Will County, Ill., as an off-route point in connection with carrier's authorized regular route operations. NOTE: If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 107266 (Sub-No. 25), filed July 3, 1967. Applicant: M. PASCALE TRUCKING, INC., 8–10 Rice Street, South Attleboro, Mass. 02774. Applicant's representative: Russell B. Curnett, 36 Circuit Drive, Edgewood Station, Providence, R.I. 02905. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Brick*, from Somerville, N.J., to Attleboro, Mass. NOTE: If a hearing is deemed necessary, applicant requests it be held at Providence, R.I., or Boston, Mass.

No. MC 107295 (Sub-No. 109), filed July 5, 1967. Applicant: PRE-FAB TRANSIT CO., a corporation, 100 South Main Street, Farmer City, Ill. 61842. Applicant's representatives: Dale L. Cox, Post Office Box 146, Farmer City, Ill. 61842, and Mack Stephenson, 42 Fox Mill Lane, Springfield, Ill. 62707. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plywood and plywood panels*, from New Orleans, La., to points in the United States, except Alaska and Hawaii. NOTE: If a hearing is deemed necessary, applicant does not specify a location.

No. MC 107496 (Sub-No. 574), filed June 30, 1967. Applicant: RUAN TRANSPORT CORPORATION, Keosauqua Way at Third, Post Office Box 855, Des Moines, Iowa 50304. Applicant's representative: H. L. Fabritz (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle over irregular routes, transporting: *Liquid corn syrup*, and blends thereof, in bulk, from Memphis, Tenn., to points in Mississippi. NOTE: If a hearing is deemed necessary, applicant requests it be held at Chicago, or Springfield, Ill.

No. MC 107496 (Sub-No. 575), filed July 3, 1967. Applicant: RUAN TRANSPORT CORPORATION, Keosauqua Way at Third, Post Office Box 855, Des Moines, Iowa 50304. Applicant's representative: H. L. Fabritz (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum and petroleum products*, in bulk, in tank vehicles, from points in Marathon County, Wis., to points in the Upper Peninsula of Michigan. NOTE: If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Des Moines, Iowa.

No. MC 107500 (Sub-No. 102), filed June 30, 1967. Applicant: BURLINGTON TRUCK LINES, INC., 796 South Pearl Street, Galesburg, Ill. 61401. Applicant's representative: D. R. Sterling, 547 West Jackson Boulevard, Chicago, Ill. 60607. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, dangerous explosives, household goods as defined in *Practices of Motor Common Carriers of Household Goods*, 17 M.C.C. 467, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), serving the Argonne Industrial District, located in Will and Du Page Counties, Ill., as an off-route point in connection with applicant's presently held authorized authority to and from Chicago, Ill. NOTE: Applicant states the authority sought herein is restricted against service between the Argonne Industrial District, on the one hand, and, on the other, points in Chicago, Ill., commercial zone, except for purposes of joinder with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 109397 (Sub-No. 154), filed July 7, 1967. Applicant: TRI-STATE MOTOR TRANSIT CO., Post Office Box 113, Joplin, Mo. 64802. Applicant's representative: Max G. Morgan, 450 American National Building, Oklahoma City, Okla. 73102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Carpet*, from Morris, Ill., to Alabama, Arkansas, Colorado, Connecticut, Delaware, District of Columbia, Florida, Georgia, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Nebraska, New Jersey, New York, North Carolina, Ohio, Oklahoma, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Virginia, West Virginia, Wisconsin, and Wyoming and (2) *raw materials* used in the manufacture of carpet, from Georgia, Massachusetts, Michigan, South Carolina, New Jersey, New York, and Pennsylvania to Morris, Ill. NOTE: If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or St. Louis, Mo.

No. MC 109501 (Sub-No. 8), filed July 5, 1967. Applicant: CALHOUN TRUCKING CORP., 319 Jacot Road, Kearny, N.J. 07032. Applicant's representative: Morton E. Kiel, 140 Cedar Street, New York, N.Y. 10006. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Household appliances; furnaces;* and *air cleaners, conditioners, heaters, humidifiers,* and *dehumidifiers*, from the plantsite of Fedders Corp. in Edison Township (Middlesex County), N.J., to points in Connecticut, Rhode Island, Massachusetts, New York, Pennsylvania, Delaware, Maryland, and the District of Columbia, (2) *materials, parts, and supplies* used in the manufacture, production and distribution of the above-described commodities, from points in Connecticut, Rhode Island, Massachusetts, New York, Pennsylvania, Delaware, Maryland, and the District of Columbia, to the plantsite of Fedders Corp. in Edison Township (Middlesex County), N.J., and to Newark, N.J., and (3) *returned shipments of commodities* listed in (1) and (2) above in the opposite direction; under contract with Fedders Corp. NOTE: If a hearing is deemed necessary, applicant requests it be held at New York, N.Y.

No. MC 109914 (Sub-No. 23), filed July 3, 1967. Applicant: DUNDEE TRUCK LINE, INC., 660 Sterling Street, Toledo, Ohio 43609. Applicant's representative: Arthur R. Cline, 420 Security Building, Toledo, Ohio 43604. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, serving the Argonne Industrial District located in Will and Du Page Counties, Ill., as an off-route point in connection with carrier's regular route operations to and from Chicago, Ill. NOTE: If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 110525 (Sub-No. 836) (Amendment), filed June 26, 1967, published FEDERAL REGISTER issue of July 13, 1967, amended July 11, 1967, and republished as amended this issue. Applicant: CHEMICAL LEAMAN TANK LINES, INC., 520 East Lancaster Avenue, Downingtown, Pa. 19335. Applicant's representatives: Leonard A. Jaskiewicz, 1155 15th Street NW., Washington, D.C. 20005, and Edwin H. van Deusen (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Coal tar based sealing compound*, in bulk, in tank vehicles, from points in Hamilton County, Ohio, to points in Indiana, Kentucky, Michigan, Pennsylvania, West Virginia, and Wisconsin. NOTE: The purpose of this republication is to redescribe the commodity description. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 111545 (Sub-No. 97), filed July 3, 1967. Applicant: HOME TRANSPORTATION COMPANY, INC., 1425 Franklin Road SE., Marietta, Ga. 30060. Applicant's representative: Robert E. Born (same address as applicant). Authority

sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Buildings*, complete, knocked down, or in sections, (a) between points in North Carolina on the one hand, and, on the other, points in Tennessee, Kentucky, Illinois, Wisconsin, Michigan, Indiana, Ohio, West Virginia, Virginia, Maryland, Delaware, Pennsylvania, New Jersey, New York, Connecticut, Massachusetts, Rhode Island, Vermont, New Hampshire, Maine, and the District of Columbia, (b) between points in Georgia on the one hand, and, on the other, points in Illinois, Wisconsin, Michigan, Indiana, Ohio, Maryland, New Jersey, New York, Connecticut, Massachusetts, Rhode Island, Vermont, New Hampshire, and Maine, and (c) between points in Barbour County, Ala., on the one hand, and, on the other, points in Illinois, Wisconsin, Michigan, Indiana, Ohio, Maryland, New Jersey, New York, Connecticut, Massachusetts, Rhode Island, Vermont, New Hampshire, and Maine. NOTE: Applicant states with respect to paragraph (a) it would tack across the South Carolina State line serving between all points in North Carolina within 150 miles of Charlotte on the one hand, and, on the other, points in Tennessee, Kentucky, Illinois, Wisconsin, Michigan, Indiana, Ohio, West Virginia, Virginia, Delaware, Pennsylvania, New Jersey, New York, and the District of Columbia on such commodities requiring the use of special equipment, and with respect to paragraphs (b) and (c) by tacking through a radius of 50 miles of either Atlanta, Cartersville, or Marietta, Ga., or Columbia, S.C., or through Charlotte, N.C., serving the States of Illinois, Wisconsin, Michigan, Indiana, Ohio, Pennsylvania, New Jersey, and New York, on such commodities which require the use of special equipment. Applicant states that no duplicating authority is being sought. If a hearing is deemed necessary, applicant requests it be held at Atlanta, Ga.

No. MC 111729 (Sub-No. 243) (Correction), filed June 1, 1967, published FEDERAL REGISTER issue of June 29, 1967, corrected and republished as corrected this issue. Applicant: AMERICAN COURIER CORPORATION, 222–17 Northern Boulevard, Bayside, N.Y. 11361. Applicant's representative: Russell S. Bernhard, 1625 K Street NW., Commonwealth Building, Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Business papers, records, and audit and accounting media of all kinds* (excluding plant removals), (a) between points in Hartford County, Conn., on the one hand, and, on the other, points in Atlantic, Cumberland, and Camden Counties, N.J.; (b) between points in Middlesex County, Conn., on the one hand, and, on the other, points in Middlesex County, N.J., Onondaga and Erie Counties, N.Y., Middlesex County, Mass., and New York, N.Y.; (c) between Braintree, Mass., on the one hand, and, on the other, Plainfield, Toms River, Wayne, Cedar Grove, and New Brunswick, N.J., and New York, N.Y.; (d) between Jackson, Mich., on the one hand, and, on the other, Van Wert and Youngstown, Ohio; (e) between Cleveland, Ohio, on the one hand, and, on the other, Buffalo and Rochester, N.Y.; (f) between Waterville, Maine, on the one hand, and, on the other, Lowell, Mass.; (g) between Braintree, Mass., on the one hand, and, on the other, South Plainfield, N.J.; (2) *cotton piece goods*, limited to shipments not to exceed 45 pounds per shipment, between points in Hartford County, Conn., on the one hand, and, on the other, points in Atlantic, Cumberland, and Camden Counties, N.J.; (3) *payroll checks*, (a) between points in Middlesex County, Conn., on the one hand, and, on the other, points in Middlesex County, N.J., Onondaga and Erie Counties, N.Y., New York, N.Y., and Middlesex County, Mass.; (b) between Jackson, Mich., on the one hand, and, on the other, Van Wert and Youngstown, Ohio; (c) between Waterville, Maine, on the one hand, and, on the other, Lowell, Mass.; (4) *small parts*, limited to shipments not to exceed 75 pounds per shipment, between Jackson, Mich., on the one hand, and, on the other, Van Wert and Youngstown, Ohio; (5) *exposed and processed microfilm and facsimiles of all kinds*, between Cleveland, Ohio, on the one hand, and, on the other, Buffalo and Rochester, N.Y.; (6) *exposed and processed film and prints, complimentary replacement film, incidental dealer handling supplies and advertising literature moving therewith* (excluding motion picture film used primarily for commercial theater and television exhibition) between Cincinnati, Ohio, on the one hand, and, on the other, points in Indiana and Kentucky; (7) *garments and swatches of cloth for testing and research purposes* moving at the same time with business papers, records, and audit and accounting media of all kinds (excluding plant removals), between Waterville, Maine, on the one hand, and, on the other, Lowell, Mass.; (8) *cut flowers and decorative greens*, between points in Illinois, having prior or subsequent movement by air; (9) *ophthalmic goods and commercial papers* (except cash letters and excluding plant removals), between Columbus, Ohio, on the one hand, and, on the other, points in Illinois, Indiana, Kentucky, Maryland, Michigan, Pennsylvania, and West Virginia. NOTE: Applicant indicates tacking possibilities with its presently held authority. Applicant also holds contract carrier authority under MC 112520 and subs thereunder, therefore, dual operations may be involved. The purpose of this republication is to show the weight restriotions which were inadvertently omitted from items (2) and (4). If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Cincinnati, Ohio.

No. MC 113545 (Sub-No. 7), filed July 5, 1967. Applicant: CORMETT FORWARDING CO., INC., 260 Hudson Street, Hackensack, N.J. Applicant's representative: Morton E. Kiel, 140 Cedar Street, New York, N.Y. 10006. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Radiopharmaceuticals, radioactive drugs and medical isotopes*, from Newark Airport in Newark, N.J., and La Guardia and Kennedy Airports in New York, N.Y., to points in Bergen, Passaic, Sussex, Warren, Morris, Essex, Hudson, Union, Middlesex, Somerset, Hunterdon, Mercer, Monmouth, and Ocean Counties, N.J.; New York, N.Y.; and points in Nassau, Suffolk, Westchester, Rockland, Orange, Ulster, Sullivan, Putnam, and Dutchess Counties, N.Y., and Fairfield County, Conn., restricted to traffic having an immediately prior movement by air and weighing not over 10 pounds per shipment under contract with Abbott Laboratories. NOTE: If a hearing is deemed necessary, applicant requests it be held at New York, N.Y.

No. MC 113843 (Sub-No. 131), filed July 10, 1967. Applicant: REFRIGERATED FOOD EXPRESS, INC., 316 Summer Street, Boston, Mass. 02210. Applicant's representative: Lawrence T. Sheils (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, meat byproducts and articles distributed by meat packinghouses*, as described in sections A and C of appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk), from the plantsite of Oscar Mayer & Co., Inc., located at Beardstown, Ill., to points in Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, and Vermont, restricted to traffic originating at the described plantsite and destined to points in the States named above. NOTE: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 113855 (Sub-No. 164), filed July 3, 1967. Applicant: INTERNATIONAL TRANSPORT, INC., South Highway 52, Rochester, Minn. 55902. Applicant's representative: Alan Foss, 502 First National Bank Building, Fargo, N. Dak. 58102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Construction, roadbuilding, earthmoving, excavating, loading, maintenance, logging, and mining machinery and equipment, tractors* (not including truck-tractors), *pipelayers, scrapers, motor graders, wagons, engines* (except aircraft and missile engines), *generators, engines and generators combined, welders, roadrollers, compactors, lift trucks, agricultural machinery, agricultural implements, and parts, attachments and accessories* of and for the above-named commodities, from points in Weber, Salt Lake, and Davis Counties, Utah, to points in Washington, Oregon, Idaho, Nevada, California, Arizona, and Utah. NOTE: Applicant states the purpose of this application is to provide service from in transit storage points in the origin counties named above on such traffic where applicant holds the authority from initial origin to final destination. If a hearing is deemed necessary, applicant requests it be held at Salt Lake City, Utah, or San Francisco, Calif.

No. MC 114364 (Sub-No. 140), filed July 5, 1967. Applicant: WRIGHT MOTOR LINES, INC., Post Office Box 1191, 1401 North Little Street, Cushing, Okla. 74023. Applicant's representative: Marion F. Jones, Suite 430, Denver Club Building, Denver, Colo. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Boron compounds and potash*, from points in Lea and Eddy Counties, N. Mex., to points in Arizona, Colorado, Iowa, Minnesota, Nebraska, North Dakota, South Dakota, Utah, Wisconsin, and Wyoming. NOTE: If a hearing is deemed necessary, applicant requests it be held at Tulsa, Okla., or St. Louis, Mo.

No. MC 114669 (Sub-No. 10) (Correction), filed June 26, 1967, published in the FEDERAL REGISTER issue of July 13, 1967, under No. MC 115331 (Sub-No. 231) and republished as corrected this issue. Applicant: BRACEY & MARTIN, INC., 1910 South Walnut Street, Hopkinsville, Ky. 42240. Applicant's representative: James C. Havron, 513 Nashville Bank and Trust Building, Nashville, Tenn. 37201. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Malt beverage* in containers, from Detroit, Mich., to Hopkinsville, Ky., and *empty containers and rejected shipments* on return, under contract with Kentucky Ace Beverage Distributors, Inc. NOTE: Applicant is also authorized to conduct operations as a common carrier in certificate MC 115762 and Sub 1, therefore, dual operations may be involved. The purpose of this republication is to show the correct docket number assigned thereto. If a hearing is deemed necessary, applicant requests it be held at Nashville, Tenn., or Louisville, Ky.

No. MC 115491 (Sub-No. 101), filed July 5, 1967. Applicant: COMMERCIAL CARRIER CORPORATION, 502 East Bridgers Avenue, Post Office Box 1186, Auburndale, Fla. 33823. Applicant's representative: Tony G. Russell (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Clay products, including sewer pipe and related articles*, such as but not limited to *clay flue lining, clay stove pipe, and clay wall coping*, from Canton, East Sparta, Mogadore, and Uhrichsville, Ohio, to points in Louisiana. NOTE: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Columbus or Cleveland, Ohio.

No. MC 115840 (Sub-No. 30), filed July 7, 1967. Applicant: COLONIAL FAST FREIGHT LINES, INC., 1215 Bankhead Highway West, Birmingham, Ala. 35201. Applicant's representative: C. E. Wesley (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle over irregular routes, transporting: (1) *Plastic pipe, plastic or iron connections, fittings, and accessories*, from the plantsite and warehouse facilities of the Clow Corp. located at or near Lincoln, Talladega County, Ala., to points in Arkansas, Florida, Georgia, Illinois, Indiana, Kentucky, Louisiana, Mississippi, Missouri, North Carolina, Oklahoma, South Carolina, Tennessee, Texas, Virginia, and West Virginia; and (2) *equipment, materials and supplies* used in the manufacture, processing, and distribution of plastic pipe, plastic or iron connections, fittings and accessories (except in bulk, in tank vehicles), on return. NOTE: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Birmingham, Ala., or Atlanta, Ga.

No. MC 116283 (Sub-No. 16), filed July 7, 1967. Applicant: NEIL'S BAKERY PRODUCTS TRANSPORTATION CO., a corporation, 246 Broad Street, Auburn, Maine. Applicant's representative: Mary E. Kelley, 10 Tremont Street, Boston, Mass. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Bakery products* from Middleton, Mass., to Portsmouth, N.H.; and Bangor, Fryeburg, Lewiston, and Portland, Maine, and *containers used in transporting bakery products and returned bakery products*, on return, under contract with Pepperidge Farm, Inc., Norwalk, Conn. NOTE: If a hearing is deemed necessary, applicant requests it be held at Boston, Mass.

No. MC 117344 (Sub-No. 183), filed July 7, 1967. Applicant: THE MAXWELL CO., a corporation, 10380 Evendale Drive, Cincinnati, Ohio 45215. Applicant's representative: James R. Stiverson, 50 West Broad Street, Columbus, Ohio 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Coal tar based sealing compounds*, from points in Columbia Park (Hamilton County), Ohio, to points in Indiana, Kentucky, Michigan, Pennsylvania, West Virginia, and Wisconsin. NOTE: If a hearing is deemed necessary, applicant requests it be held at Columbus, Ohio, or Washington, D.C.

No. MC 119297 (Sub-No. 2), filed June 22, 1967. Applicant: PAUL R. GARNSEY AND PAUL Z. GARNSEY, a partnership, doing business as PAUL GARNSEY & SON, Rural Delivery No. 1, Post Office Box 55, Schuylerville, N.Y. Applicant's representative: John J. Brady, Jr., 75 State Street, Albany, N.Y. 12207. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment), (1) between the hamlet of North Creek (Warren County), N.Y., and Glens Falls, N.Y., from North Creek over New York Highway 28 to junction U.S. Highway 9, thence over U.S. Highway 9 to Glens Falls and return over the same route serving the intermediate points of Wevertown and Warrensburg, N.Y., and the off-route points of Riparius, Indian Lake, Chestertown, Johnsburg, Horicon, and Newcomb, N.Y., and (2) between the hamlet of North Creek (Warren County), N.Y., and the hamlet of Newcomb (Essex County), N.Y., over New York Highway 28-N, serving all intermediate points and the off-route points of Olmsteadville and Tahawus, N.Y. NOTE: If a hearing is deemed necessary, applicant requests it be held at Albany, N.Y.

No. MC 119531 (Sub-No. 63), filed June 30, 1967. Applicant: DIECKBRADER EXPRESS, INC., 5391 Wooster Road, Cincinnati, Ohio 45226. Applicant's representative: Charles W. Singer, 33 North Dearborn Street, Suite 1625, Chicago, Ill. 60602. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Glassware, glass containers and closures therefor, and paper cartons* used in the packaging of glassware and glass containers, from Winchester, Ind., to points in Illinois, Iowa, Kentucky, Michigan, Missouri, Ohio, and Wisconsin, and *damaged or rejected shipments* of the above-specified commodities, on return. NOTE: Applicant states possible tack exists at origin point of Winchester, Ind., with presently held authority permitting service from Bremen, Canal, Winchester, and Lancaster, Ohio, to points in Iowa, Missouri, and Wisconsin. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., Columbus, Ohio, or Washington, D.C.

No. MC 119531 (Sub-No. 64), filed July 6, 1967. Applicant: DIECKBRADER EXPRESS, INC., 5391 Wooster Road, Cincinnati, Ohio 45226. Applicant's representative: Charles W. Singer, 33 North Dearborn Street, Suite 1625, Chicago, Ill. 60602. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Paper products*, from North Chicago, Ill., to points in Indiana, Michigan, and Ohio; and (2) *paper*, from Franklin, Ohio, to points in Indiana, Michigan, and Kentucky. NOTE: Applicant states that tacking is possible at Cleveland, Ohio, in connection with its presently held authority in Sub 7, permitting transportation of paper products to New Jersey, New York, and Pennsylvania. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Washington, D.C.

No. MC 119777 (Sub-No. 79), filed July 5, 1967. Applicant: LIGON SPECIALIZED HAULER, INC., Post Office Box L, Madisonville, Ky. 42431. Applicant's representative: Louis J. Amato, Central Building, 1033 State Street, Bowling Green, Ky. 42101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Agriculture implements, and agriculture implement parts, attachments and accessories*, from Yazoo City, Miss., to points in the United States (except Alaska and Hawaii) and (2) *steel disks*, from Chicago, Ill., and Midland, Pa., to Yazoo City, Miss. NOTE: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Louisville, Ky., or Nashville, Tenn.

No. MC 119777 (Sub-No. 80), filed July 5, 1967. Applicant: LIGON SPECIALIZED HAULER, INC., Post Office Box L, Madisonville, Ky. 42431. Applicant's representative: Louis J. Amato, Central Building, 1033 State Street, Bowling Green, Ky. 42101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Flake board and particle board*, from Gifford, Ark., and points within 10 miles thereof, to points in Alabama, Arkansas, Colorado, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Michigan, Minnesota, Mississippi, Missouri, Nebraska, New Mexico, North Carolina, Ohio, Oklahoma, South Carolina, Tennessee, Texas, and Wisconsin. NOTE: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Little Rock, Ark.

No. MC 119829 (Sub-No. 25), filed July 6, 1967. Applicant: F. J. EGNER & SON, INC., 3969 Congress Parkway, West Richfield, Ohio 44286. Applicant's representative: Taylor C. Burneson, 88 East Broad Street, Suite 1680, Columbus, Ohio 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Asphalt pavement surface sealer, coal tar base*, in bulk, in tank vehicles, from Columbia Park (in Miami Township, Hamilton County), Ohio, to points in Indiana, Kentucky, Michigan, Pennsylvania, West Virginia, and Wisconsin. NOTE: If a hearing is deemed necessary, applicant requests it be held at Columbus, Ohio, or Washington, D.C.

No. MC 124078 (Sub-No. 285), filed July 5, 1967. Applicant: SCHWERMAN TRUCKING CO., a corporation, 611 South 28th Street, Milwaukee, Wis. 53215. Applicant's representative: James R. Ziperski (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fly ash*, in bulk, from New Eagle, Pa., to points in Ohio, Virginia, and West Virginia. NOTE: Applicant intends to tack with its Sub 78 at Glasgow, W. Va., to serve points in Kentucky and Virginia. If a hearing is deemed necessary, applicant requests it be held at Cleveland, Ohio, or Chicago, Ill.

No. MC 124584 (Sub-No. 7), filed May 26, 1967. Applicant: CHEMICAL CARRIERS CORPORATION, 648 West Ocean Drive, Chesapeake, Va. 23702. Applicant's representative: Vaughan S. Winborne, 1108 Capital Club Building, Raleigh, N.C. 27601. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Salt and salt products*, between points in the Norfolk, Va., commercial zone and points in North Carolina. NOTE: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Raleigh, N.C., or Norfolk, Va.

No. MC 124813 (Sub-No. 40), filed June 28, 1967. Applicant: UMTHUN TRUCKING CO., a corporation, 910 South Jackson Street, Eagle Grove, Iowa 50533. Applicant's representative: William A. Landau, 1307 East Walnut Street, Des Moines, Iowa 50306. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Animal and poultry feed ingredients* (other than liquid), from Dubuque, Iowa, and Omaha, Nebr., to points in Iowa, Kansas, Minnesota, Missouri, Nebraska, North Dakota, South Dakota, Wisconsin, and Illinois, and (2) *animal and poultry feed and feed ingredients* (other than liquid), between Kansas City, Mo., on the one hand, and, on the other, points in Iowa, Kansas, Minnesota, Missouri, Nebraska, North Dakota, South Dakota, Wisconsin, and Illinois. NOTE: Applicant is also authorized to conduct operations as a contract carrier in permit No. MC 118468, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 126463 (Sub-No. 3), filed July 7, 1967. Applicant: GREER BROS. TRUCKING CO., Post Office Box 187, London, Ky. 40741. Applicant's representative: George M. Catlett, 703–706 McClure Building, Frankfort, Ky. 40601. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities in bulk* (except cement), in dump trucks, between points in Campbell County, Tenn., on the one hand, and, on the other, points in Whitley, Knox, Laurel and Rockcastle Counties, Ky. NOTE: Applicant states that no duplicating authority is being sought. If a hearing is deemed necessary, applicant requests it be held at Lexington, Ky., or Knoxville, Tenn.

No. MC 126884 (Sub-No. 2) (Amendment), filed May 26, 1967, published in the FEDERAL REGISTER issue of June 15, 1967, amended July 3, 1967, and republished this issue. Applicant: FROST TRUCKING CO., INC., 677 Washington Street, New York, N.Y. Applicant's representative: George A. Olsen, 69 Tonnele Avenue, Jersey City, N.J. 07306. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Books, equipment, materials, and supplies used in the composition, printing and binding of books*, except commodities in bulk in dump or tank vehicles, between points in New York, New Jersey, Connecticut, Brattleboro, Vt., Ludlow, Mass., and Philadelphia, Pa. NOTE: The purpose of this application is to add Ludlow, Mass., to the destination. If a hearing is deemed necessary, applicant requests it be held at New York, N.Y., or Washington, D.C.

No. MC 127568 (Sub-No. 8), filed July 3, 1967. Applicant: MID-SOUTH DELIVERY SERVICE CO., a corporation, 3215 Tulane Road, Memphis, Tenn. 38116. Applicant's representative: Dale Woodall, 900 Memphis Bank Building, Memphis, Tenn. 38103. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid corn syrup*, in bulk, in tank vehicles, from Memphis, Tenn., to points in Arkansas. NOTE: If a hearing is deemed necessary, applicant requests it be held at Memphis, Tenn.

No. MC 128205 (Sub-No. 6), filed July 3, 1967. Applicant: BULKMATIC TRANSPORT COMPANY, a corporation, 4141 West George Street, Schiller Park, Ill. Applicant's representative: Irving Stillerman, 29 South La Salle Street, Chicago, Ill. 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cement*, in bulk, from Chicago, Ill., to points in Indiana and Wisconsin. NOTE: If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 128965 (Sub-No. 1), filed June 16, 1967. Applicant: PAUL HEIDE, 746 South Rutan, Wichita, Kans. 67218. Applicant's representative: Leland M. Spurgeon, 308 Casson Building, 603 Topeka Boulevard, Topeka, Kans. 66603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fertilizer, fertilizer compounds, fertilizer material, agricultural chemicals, processed feeds and feed ingredients, including meat scraps and meat meal*, from points in Sedgwick County, Kans., to points in Oklahoma. NOTE: If a hearing is deemed necessary, applicant requests it be held at Wichita, Kans., or Kansas City, Mo.

No. MC 129046 (Sub-No. 1) (Amendment), filed May 12, 1967, published FEDERAL REGISTER, issue of June 2, 1967, under MC 69876 Sub 19, and republished as amended this issue. Applicant: BURKS-PETZ TRANSFER, INC., 1724 West Franklin Street, Evansville, Ind. 47712. Applicant's representative: Robert M. Pearce, Central Building, 1033 State Street, Bowling Green, Ky. 42101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Malt beverages*, in containers, from Evansville, Ind., to points in Ohio. NOTE: The purpose of this republication is to show that applicant now seeks to conduct operations as a common carrier in lieu of those as a contract carrier as previously published. The application has been reassigned No. MC 129046 Sub No. 1. If a hearing is deemed necessary, applicant requests it be held at Nashville, Tenn., or Louisville, Ky.

No. MC 129113 (Sub-No. 2), filed June 14, 1967. Applicant: ELMER F. MILLER, doing business as MILLER TRUCKING CO., Rural Route No. 6, Merrill, Wis. 54452. Applicant's representative: Nancy J. Johnson, 111 South Fairchild Street, Madison, Wis. 53703. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Malt beverages and advertising and promotional materials*, in connection therewith, from St. Paul, Minn., to points in Lincoln, Oneida, and Marathon Counties, Wis., and *empty containers* on return. NOTE: If a hearing is deemed necessary, applicant requests it be held at Madison, Wis., Milwaukee, Wis., or Chicago, Ill.

No. MC 129161 (Sub-No. 1), filed July 3, 1967. Applicant: CHARLES E. HOLSTINE, JESSE HOLSTINE, HUGH HOLSTINE, a partnership, doing business as HOLSTINE AND COMPANY, 2100 South Bellevue, Memphis, Tenn. 38106. Applicant's representative: Dale Woodall, 900 Memphis Bank Building, Memphis, Tenn. 38103. Authority sought

to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Used stoves, refrigerators and appliances* from New York City, N.Y., and its commercial zone thereof to Memphis, Tenn., and points in Mississippi, Louisiana, and Alabama, (2) *quilting* from New York, N.Y., and its commercial zone thereof to Coffeeville, Kans., and points in Mississippi and Tennessee, and (3) *new and used office furniture*, uncrated, from New York, N.Y., and its commercial zone thereof to Memphis, Tenn. NOTE: If a hearing is deemed necessary, applicant requests it be held at Memphis, Tenn., or New York, N.Y.

No. MC 129217, filed June 30, 1967. Applicant: PONTIAC CONTRACT CARRIER, INC., Post Office Box 198, Pontiac, Ill. 61764. Applicant's representative: Eugene L. Cohn, 1 North La Salle Street, Chicago, Ill. 60602. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Mowing equipment and accessories, parts, materials, tools, and supplies* used in the manufacture, processing, or sale of mowing equipment, between Pontiac, Ill., on the one hand, and, on the other, points in Alabama, Arizona, Arkansas, California, Colorado, Delaware, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Louisiana, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Nebraska, New Jersey, New York, North Carolina, Ohio, Oklahoma, Oregon, Pennsylvania, South Carolina, South Dakota, Tennessee, Texas, Virginia, Washington, Wisconsin, and the District of Columbia, under a continuing contract with Roof Manufacturing Co., of Pontiac, Ill., and (2) *heel building machinery, heels, bags, leather and rubber products, steel, and scrap*, between Pontiac, Ill., on the one hand, and, on the other, points in Illinois, Indiana, Kentucky, Maine, Massachusetts, Minnesota, Missouri, New Hampshire, New York, Ohio, Pennsylvania, Tennessee, Texas, West Virginia, and Wisconsin, under a continuing contract with Brockton Heel Co., Inc., of Pontiac, Ill. NOTE: If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 129218, filed July 3, 1967. Applicant: COMMERCIAL TELEVISION, INC., 3501 Sheridan Road, Youngstown, Ohio 44502. Applicant's representative: James R. Stiverson, 50 West Broad Street, Columbus, Ohio 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *General commodities* (except household goods as defined by the Commission, classes A and B explosives, commodities in bulk, and those requiring special equipment), in retail delivery service, from Youngstown, Ohio, to points in Mercer and Lawrence Counties, Pa., and (2) *returned or trade in merchandise*, on return. NOTE: If a hearing is deemed necessary, applicant requests it be held at Pittsburgh, Pa.

No. MC 129222, filed July 5, 1967. Applicant: MARVIN FORD, doing business as FORD TRUCK LINE, Tipton, Iowa 52772. Applicant's representative: William A. Landau, 1307 East Walnut Street, Des Moines, Iowa 50306. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid fertilizer*, in bulk, in tank vehicles, from Walcott, Iowa, to points in Illinois. NOTE: If a hearing is deemed necessary, applicant requests it be held at Des Moines, Iowa.

No. MC 129230, filed July 7, 1967. Applicant: P & N TRUCKING CO., INC., 4010 Dell Avenue, North Bergen, N.J. Applicant's representative: George A. Olsen, 69 Tonnele Avenue, Jersey City, N.J. 07306. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals and metals*, (1) from piers in New York, N.Y. and Elizabeth, N.J. harbors, to points in Connecticut, Massachusetts, Rhode Island, New Jersey, New York, Pennsylvania, Delaware, and Maryland, (2) from piers in Philadelphia, Pa., to points in Pennsylvania, and (3) from piers in Baltimore, Md., to points in Maryland, under contract with International Selling Corp., New York, N.Y. NOTE: If a hearing is deemed necessary, applicant requests it be held at Washington, D.C. or New York, N.Y.

[Notice 432]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

JULY 17, 1967.

The following are notices of filing of applications for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of ex parte No. MC 67 (49 CFR Part 340), published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protest must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protest must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 107002 (Sub-No. 339 TA), filed July 13, 1967. Applicant: HEARIN-MILLER TRANSPORTERS, INC., Post Office Box 1123, U.S. Highway 80 West, Jackson, Miss. 39205. Applicant's representative: John J. Borth (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Dry fertilizer*, in bulk, and in bags, from Gulfport, Miss., to points in Alabama, Louisiana, and Mississippi; and (2) *dry fertilizer*, in bags, from Mobile, Ala., to points in Alabama, Louisiana, and Mississippi; for 180 days. Supporting shipper: Olin Mathieson Chemical Corp., Agricultural Division, Post Office Box 991, Little Rock, Ark. Send protests to: Floyd A. Johnson, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 312-A U.S. Post Office Building, Jackson, Miss. 39201.

No. MC 111729 (Sub-No. 246 TA), filed July 13, 1967. Applicant: AMERICAN COURIER CORPORATION, 222-17 Northern Boulevard, De Bevoise Building, Bayside, N.Y. 11361. Applicant's representative: J. K. Murphy (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Business papers, records, audit and accounting media, payroll records and checks, and sales and advertising pamphlets and related material* moving therewith, between Richmond, Va., and Orangeburg, S.C.; and (2) *business papers, records, and audit and accounting media of all kinds* (excluding plant removals), (a) between Westboro, Mass., on the one hand, and, on the other, Arctic, East Greenwich, Warren, Wickford, Westerly, and Wakefield, R.I.; (b) between O'Hare Field, Chicago, Ill., on the one hand, and, on the other, River Grove, Ill., and Cleveland, Ohio, on shipments having prior or subsequent movement by air; and (c) between points in Middlesex County, Mass., on the one hand, and, on the other, points in New Hampshire (except Hillsboro and Rockingham Counties, N.H.), points in Connecticut (except New Haven, Litchfield and Middlesex Counties, Conn.), points in Maine (except Knox, Penobscot, Kennebec, Androscoggin, and Cumberland Counties, Maine), points in Rhode Island (except Providence County, R.I.), points in New York, and points in New Jersey; for 180 days. Supporting shippers: Hygrade Food Products Corp., Post Office Drawer 1235, Richmond, Va. 23209; New England Power Service Co., Turnpike Road, Westboro, Mass. 01581; Giant Stores Corp., 365 Dutton Street, Lowell, Mass; and Zayre Corp., 1 Mercer Road, Natick, Mass. Send protests to: E. N. Carignan, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 346 Broadway, New York, N.Y. 10013.

No. MC 116273 (Sub-No. 95 TA), filed July 13, 1967. Applicant: D & L TRANSPORT, INC., 3800 South Laramie Avenue, Cicero, Ill. 60650. Applicant's representative: William R. Lavery (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid corn syrup*, from the Flexi-Flo Terminal of the New York Central Railroad at Hammond, Ind., to Trafalgar, Ind., Detroit, Mich., and Geneva, Ohio; for 150 days. Supporting shipper: Union Starch & Refining Co., Inc., Granite City, Ill. 62040. Send protests to: Raymond E. Mauk, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 1086 U.S. Courthouse and Federal Office Building, 219 South Dearborn Street, Chicago, Ill. 60604.

No. MC 123067 (Sub-No. 61 TA), filed July 13, 1967. Applicant: M & M TANK LINES, INC., Post Office Box 4174, North Station, Winston-Salem, N.C. 27105. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Salt*, dry, in bulk, in tank, hopper or dump vehicles, from Charlotte, N.C., to points in North Carolina and South Carolina; for 150 days. Supporting shipper: Morton Salt Co., a division of Morton International, Inc., 110 North Wacker Drive, Chicago, Ill. 60606. Send protests to: Jack K. Huff, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Room 206, 327 North Tryon Street, Charlotte, N.C. 28202.

No. MC 124964 (Sub-No. 8 TA), filed July 13, 1967. Applicant: JOSEPH M. BOOTH, doing business as J. M. BOOTH TRUCKING, Post Office Box 907, Eustis, Fla. 32726. Applicant's representative: George A. Olsen, 69 Tonnele Avenue, Jersey City, N.J. 07306. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) Such *merchandise* as is distributed by a premium stamp redemption center in the redemption of premium stamps, and in connection therewith, *equipment, materials, and supplies* used in the conduct of such business, between South Hackensack, N.J., on the one hand, and, on the other, points in Palm Beach County, Fla.; and (2) *premium stamp books, with stamps attached*, from points in Palm Beach County, Fla., to South Hackensack, N.J.; under contract with the Stop & Save Trading Stamp Corp.; for 150 days. Supporting shipper: Stop & Save Trading Stamp Corp., 125 Phillips Avenue, South Hackensack, N.J. 07606. Send protests to: G. H. Fauss, Jr., District Supervisor, Bureau of Operations, Interstate Commerce Commission, Federal Office Building, 400 West Bay Street, Jacksonville, Fla. 32202.

No. MC 126042 (Sub-No. 3 TA), filed July 13, 1967. Applicant: C. ARTHUR FOSSE, doing business as FOSSE TRANSPORT, Post Office Box 187, Rothsay, Minn. 56579. Applicant's representative: Benny A. Graff, Post Office Box 100, Mandan, N. Dak. 58554. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Truck bodies and truck hoists*, from Galion, Ohio, and Quincy, Ill., to Mandan, Williston, Minot, Rugby, and Dickinson, N. Dak.; for 180 days. Supporting shipper: O K Equipment, Inc., Highway 10 East, Mandan, N. Dak. 58554. Send protests to: Joseph H. Ambs, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 1621 South University Drive, Room 213, Fargo, N. Dak. 58102.

No. MC 128279 (Sub-No. 4TA) filed July 13, 1967. Applicant: ARROW FREIGHTWAYS, INC., 3101 Princeton Drive NE., Albuquerque, N. Mex. 87107. Applicant's representative: Olif O. Boyd (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Gypsum and gypsum products, and materials and supplies* used in the installation and distribution thereof, from Rosario, N. Mex., to points in Arizona, Colorado, Oklahoma, and Texas; for 150 days. Supporting shipper: Kaiser Gypsum Co., Inc., 300 Lakeside Drive, Oakland, Calif. 94604. Send protests to: Jerry R. Murphy, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 109 Federal Building, 421 Gold Avenue SW., Albuquerque, N. Mex. 87101.

MOTOR CARRIER OF PASSENGERS

No. MC 115880 (Sub-No. 3 TA), filed July 13, 1967. Applicant: SINGERMAN BUS CORPORATION, 3 Railroad Place, Maspeth, N.Y. 11378. Applicant's representative: Charles H. Trayford, 137 East 36th Street, New York, N.Y. 10016. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage*, restricted to traffic originating at the point indicated, in charter operations, from New York City, N.Y., to points in Maine, New Hampshire, Vermont, Massachusetts, Connecticut, Rhode Island, New York, New Jersey, Pennsylvania, Maryland, Delaware, Virginia, West Virginia, Ohio, Indiana, Illinois, Wisconsin, and the District of Columbia, and ports of entry on the international boundary line between the

United States and Canada, located in States named above; to be a seasonal operation between April 15, 1967, and November 1, 1967, which is the duration of the Montreal Expo 67; for 180 days. NOTE: Applicant states that it now holds charter authority which partially duplicates that sought. However, applicant does not seek duplicate authority. Some of the proposed charter operation will involve tour operations through its present States with the proposed States. All States have been set out in this application to avoid any question of tacking existing with proposed authority. Supporting shippers: All State Bus Corp., 2163 Coney Island Avenue, New York, N.Y. 11235; and Air France, 1350 Avenue of the Americas, New York, N.Y. Send protests to: E. N. Carigman, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 346 Broadway, New York, N.Y. 10013.

By the Commission.

[SEAL] H. NEIL GARSON, *Secretary.*

[F.R. Doc. 67-8398; Filed, July 19, 1967; 8:49 a.m.]

CUMULATIVE LIST OF PARTS AFFECTED—JULY

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published to date during July.

3 CFR

LIST OF CFR SECTIONS AFFECTED

1949–1963

This volume contains a compilation of the "List of Sections Affected" for all titles of the Code of Federal Regulations for the years 1949 through 1963. All sections of the CFR which have been expressly affected by documents published in the daily Federal Register are enumerated.

Reference to this list will enable the user to find the precise text of CFR provisions which were in force and effect on any given date during the period covered.

Price $6.75

FEDERAL REGISTER

Area Code 202 Phone 963-8436

Published daily, Tuesday through Saturday (no publication on Sundays, Mondays, or on the day after an official Federal holiday), by the Office of the Federal Register, National Archives and Records Service, General Services Administration (mail address National Archives Building, Washington, D.C. 20408), pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., Ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15 per year, payable in advance. The charge for individual copies varies in proportion to the size of the issue (15 cents for the first 80 pages and 5 cents for each additional group of 40 pages, as actually bound). Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements are listed in the first FEDERAL REGISTER issue of each month.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER or the CODE OF FEDERAL REGULATIONS.

List of CFR Parts Affected

(Codification Guide)

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears at the end of each issue beginning with the second issue of the month.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1967, and specifies how they are affected.

Title 7—AGRICULTURE

Chapter VIII—Agricultural Stabilization and Conservation Service (Sugar), Department of Agriculture

SUBCHAPTER G—DETERMINATION OF PROPORTIONATE SHARES

PART 855—MAINLAND CANE SUGAR AREA

Proportionate Shares for Farms; 1968 Crop

Sec.
855.37 Definitions.
855.38 General provisions.
855.39 State acreage allocations.
855.40 Determination of farm bases for old-producer farms.
855.41 Establishment of shares for old-producer farms.
855.42 Shares for reconstituted farms.
855.43 Redetermination of bases and shares because of use of incorrect data.
855.44 Reallotment of unused acres.
855.45 Establishment of shares for new-producer farms.
855.46 Appeals or corrections.

AUTHORITY: §§ 855.37 to 855.46 issued pursuant to sec. 302, Sugar Act of 1948, as amended (sec. 403, 61 Stat. 932; 7 U.S.C. 1153; secs. 301, 302, 61 Stat. 929, 930, as amended; 7 U.S.C. 1131, 1132).

§ 855.37 Definitions.

For the purpose of this part, the terms:

(a) "Act", "Secretary", "Deputy Administrator", "State committee", "county committee", "producer", "operator", "proportionate share", "share", "accredited acres", "accredited acreage" and designation of a crop of sugarcane by year shall have the meanings set forth in § 892.1 of this chapter.

(b) "Farm" shall have the meaning set forth in Part 822 of this chapter.

(c) "Cane" means sugarcane.

(d) "Old-producer farm" means a farm which includes land that comprised a farm or part of a farm for which a share was established for the 1967 crop pursuant to §§ 855.27, 855.29 and 855.32.

(e) "New-producer farm" means any farm that is not an old-producer farm.

§ 855.38 General provisions.

Regulations pertaining to general conditional payments provisions are set forth in Part 892 of this chapter. Such regulations include provisions in regard to conditions which must be met to be eligible for payment, instructions for filing applications for payment, requirements for harvesting within the farm share and for disposing of acreage in excess of the farm share. Also included are provisions covering sharecropper or share tenant protection, farm accredited acreage records, erroneous notice of the farm share or of excess acreage, acquisition of farmland by the right of eminent domain including the transfer of the share from the land so acquired to other land in the State, and provision for redetermination and review of determinations by county and State committees or the Deputy Administrator. Provisions pertaining to certification of acreage and land use in lieu of farm inspection and measurement are set forth in Part 718 of this title and in § 892.4 of this chapter. Provisions governing requests and appeals by producers for reconsideration or review of determinations by county or State committees or the Deputy Administrator are set forth in Part 780 of this title.

§ 855.39 State acreage allocations.

The acreage allocation for each State shall be the sum of the acreages specified for the State in the following paragraphs:

(a) 188,200 acres for Florida and 301,550 acres for Louisiana.

(b) Any acreage used to establish shares for new-producer farms pursuant to § 855.45 within a set-aside of 150 acres for Florida and 250 acres for Louisiana.

(c) Any acreage used to adjust shares for old-producer farms pursuant to §§ 855.43 and 855.46 within a set-aside of 200 acres for Florida and 320 acres for Louisiana.

§ 855.40 Determination of farm bases for old-producer farms.

The county committee for the county in which the farm headquarters is located shall determine a farm base for each old-producer farm or a portion thereof for the 1968 crop of sugarcane as follows:

(a) For each old-producer farm, as constituted for the 1967 crop at the time the 1968-crop share is established, such base shall be the 1967-crop accredited acreage record of the farm, except that if the county committee determines that the 1967-crop accredited acreage is less than the original 1967-crop share established pursuant to § 855.27, § 855.29 or § 855.32 for the farm because of reasons beyond the control of the operator, or if the 1967-crop accredited acreage record of the farm is less than such share but is at least 90 percent of such share, the farm base will be such 1967 share. If it is known at the time farm bases are to be determined that 1968-crop acreage will not be harvested on a farm for which a base could be established, and the land was not acquired under right of eminent domain, a base will not be established.

(b) For each old-producer farm or for each part of an old-producer farm which was removed from sugarcane production in its entirety by acquisition after the 1964 crop was harvested from such land by a Federal, State, or other agency or entity entitled to exercise the right of eminent domain, and the owner of such land did not have the State committee add the 1967-crop share established for such farm or part pursuant to § 855.27 or § 855.29 to the 1967-crop share established for other land owned by such owner under the provisions of § 855.28, the farm base shall be the 1967-crop share established for the farm or part pursuant to § 855.27 or § 855.29.

§ 855.41 Establishment of shares for old-producer farms.

The county committee shall establish a 1968-crop share for any farm for which a farm base is determined by applying to such farm base an adjustment factor determined by the State committee by dividing the acreage made available to the State in § 855.29(a) by the total of the bases established for all old-producer farms in the State pursuant to § 855.40. The share established by applying the adjustment factor to a farm base determined pursuant to § 855.40(b) shall, as provided in § 892.16 of this chapter, be added to the 1968-crop share, if any, established by applying the adjustment factor to a farm base determined pursuant to § 855.40(a) for other land in the State owned by the owner of the land who lost acreage under the right of eminent domain upon application to the State committee by such owner as provided in § 892.18 of this chapter. Provision is made in § 892.18 of this chapter, for holding a share or part thereof in reserve for the future use of the owner of land acquired by the right of eminent domain.

§ 855.42 Shares for reconstituted farms.

If the county committee determines, after a 1968-crop share is established for the farm, that the 1968-crop farm will not be comprised of the same land as that included in the 1967-crop farm used as the basis for establishing the share, or that the farm was not properly constituted for the 1968 crop pursuant to the definitions of a farm and an operator, the farm or farms involved shall be reconstituted in accordance with such definitions. A share shall be determined as follows for the reconstituted farm.

(a) *Subdivision.* The share for each subdivision of a farm which is subdivided shall be the portion of the 1968-crop share established for the farm pursuant to § 855.41, including any adjustments made in such share pursuant to § 855.44 or § 855.46, determined for each subdivision in accordance with the method used for dividing the accredited acreage record of the farm set forth in § 892.9 of this chapter. However, if the share as so determined for any subdivision is greater than the acreage growing on the subdivision for 1968-crop harvest, the county committee shall reduce the share for such subdivision to the acreage growing thereon, except that such reduction shall not be made if the county committee determines that acreage of sugarcane on the subdivision was plowed down

without the approval of the person acquiring the subdivision in order to obtain larger proportionate shares on the other subdivision or subdivisions. If such reduction is made, the acreage made available shall be used to increase the share of each of the other subdivisions of the parent farm on which the acreage growing for 1968-crop harvest exceeds the share determined for such subdivision, and such distribution of acreage by the county committee shall be prorated on the basis of the acreage growing on each subdivision and shall not result in the sum of the shares of the subdivisions exceeding the parent farm's share before division.

(b) *Combinations.* The share for a reconstituted farm consisting of a combination of old-producer farms, a combination of subdivisions of such farms or combination of such farms and such subdivisions shall be the sum of the 1968-crop shares for such farms and subdivisions of such farms.

(c) *New-producer farm.* The 1968-crop share established for a new-producer farm which is subdivided shall be prorated to the subdivisions by the percentage ratio that the acreage of cane growing on each subdivision is to the total acreage of cane growing on the farm.

(1) *Combined before planting.* If a new-producer farm or subdivision thereof is combined with an old-producer farm or subdivision thereof prior to the planting of sugarcane on the new-producer farm the share established for the new-producer farm or portion of such share determined for the subdivision shall be cancelled and the share established for the old-producer farm or subdivision thereof shall be the share for the reconstituted farm.

(2) *Combined after planting.* If a new-producer farm or subdivision thereof is combined with an old-producer farm or subdivision thereof after sugarcane has been planted on the new-producer farm, the share established for the new-producer farm or portion of such share determined for the subdivision shall be added to the share established for the old-producer farm or subdivision thereof, unless the county committee determines that the operator of the new-producer farm, at the time he made application for a new-producer farm share, had begun negotiations or had arranged to subsequently transfer the new-producer farm to the operator of an old-producer farm. If such determination is made, the share established for the new-producer farm or portion of such share determined for the subdivision shall be cancelled and the share established for the old-producer farm or subdivision thereof shall be the share for the reconstituted farm.

§ 855.43 Redetermination of bases and shares because of use of incorrect data.

Where incorrect data was used in determining a farm base or establishing a share, such share shall be canceled and a new base shall be computed in accordance with § 855.40 using the correct data. A new share shall be established for the farm by applying the factor obtained pursuant to § 855.41 to the new farm base. Any acreage by which the incorrect share exceeds the newly established share shall first be used to increase shares for farms whose shares were incorrectly established at levels lower than that to which they were entitled. Any acreage remaining shall be reallotted under the provisions of § 855.44.

§ 855.44 Reallotment of unused acres.

(a) *Eligibility.* The operator of any old-producer farm may request an increase in the share established for his farm.

(b) *Filing requests for additional acreage.* Requests shall be filed in Florida at the Hendry ASCS County Office not later than June 30, 1968, and in Louisiana requests shall be filed not later than January 12, 1968, in the ASCS county office in which the farm headquarters is located and if a farm is located in more than one county, in the ASCS county office in which the part of the farm on which additional acreage will be utilized is located. However, late requests filed by operators before a distribution of unused acreage may be accepted as timely filed requests if the State committee determines that such operators delayed filing for reasons beyond their control, and late requests may be accepted prior to harvest if there is acreage still available after filling all requests considered as timely filed under this paragraph.

(c) *Increasing shares.* Acreage to be reallotted pursuant to paragraph (d) of this section shall be used to increase the shares of old-producer farms whereón additional acreage may be used and requests have been filed pursuant to paragraph (b) of this section by considering the ability of the farm operator to use additional acreage in light of (1) availability and suitability of land, (2) availability of production and marketing facilities, (3) rotation practices, (4) maintenance of a proper relationship between total cane acreage and suitable cropland, and (5) the need for minimum acreage in a mill area.

(d) *Methods for reallocating unused acreage.* In consideration of the criteria set forth in paragraph (c) of this section, unused old-producer farm proportionate share acreage, not to exceed the total of the acreage of shares reduced pursuant to paragraph (f) of this section excluding any acreage reserved by the State committee pursuant to § 892.16 of this chapter, shall be used to increase shares of farms, the operators of which have timely filed requests pursuant to paragraph (b) of this section, as follows: (1) In Florida, the State committee shall determine and inform the county committees of increases to be made in the share for each farm. (2) In Louisiana, the county committee of each county will determine the unused proportionate share acreage on farms with headquarters in the county. The unused acreage so determined shall be used by such committee to increase the share for each farm or part of a farm located in the county. The increase in the share for a farm with headquarters in the county may be utilized on any part of such farm. However, any increase which is granted to a part of a farm must be planted on the part of the farm located in the county granting the increase. Any unused acreage remaining in any county in Louisiana after all requests have been satisfied shall be released to the State committee. The Louisiana State Committee shall distribute such acreage to other counties in which the total of the additional acreages requested exceeds the unused acreages. Such distribution shall be made on the basis of the percentage relationship between the total of the shares established pursuant to § 855.41 for all farms in each such county and the total of the shares so established for all farms in all such counties: *Provided*, That the acreage distributed to any county shall not exceed the total acreage needed to increase shares to the extent requested for farms in such county.

(e) *Limitations.* The Florida State Committee and the county committees in Louisiana shall not increase a share by an amount in excess of that requested or increase a share to cover acreage which was previously abandoned regardless of the cause of such abandonment.

(f) *Reduction in shares.* If the county committee determines for any old-producer farm that the total of the 1968-crop acreage of cane to be harvested for sugar and seed and the acreage of cane on the farm which has been abandoned to the extent of fulfilling at least the requirements set forth in paragraph (c) (1) (i) and (ii) of § 845.2 of this chapter is less than the farm's 1968-crop share, including any adjustment made pursuant to this section or § 855.48, the share shall be reduced to the level of such total 1968-crop acreage.

§ 855.45 Establishment of shares for new-producer farms.

(a) *Filing requests.* A person desiring a share for a new-producer farm shall file a request (in Florida, at the Hendry ASCS County Office) not later than November 15, 1967, and in Louisiana at the local ASCS county office not later than September 15, 1967. Late requests may be accepted if the State committee determines that the person delayed filing for reasons beyond his control or there is acreage still available after filing all timely filed requests.

(b) *Rating of applicants.* Subject to review and redetermination by the State committee, the county committee shall rate the applicant as "qualified" or "not qualified" to utilize a new-producer farm share by considering (1) the availability and suitability of land, (2) availability of production and marketing facilities, and (3) whether the land on which cane will be grown is under his control through ownership or lease and such land was not included in an old-producer farm:

Provided, That no applicant will be rated as "qualified" unless the county committee determines he will be the operator of the farm as defined in paragraph (i) of § 892.1 of this chapter.

(c) *Size of share.* Each share shall be 50 acres, or a lesser acreage if requested, or such lesser acreage as the State committee determines if either the county or State committee determines that the available cropland will not support a share of 50 acres.

(d) *Establishing shares.* The State committee shall establish a share for the new-producer farm of each "qualified" applicant if the acreage provided in § 855.39(b) is sufficient to establish such shares. If there is insufficient acreage, selection of "qualified" applicants to receive shares shall be by lot. Each drawing shall be supervised by a representative of the State committee. Persons included in a drawing shall be given advance notice and an opportunity to attend. Names (or farm numbers) shall be placed in a container and shall be indistinguishable to the person making the "draws". The person in charge shall announce the method of selection before the drawing.

(e) *Use of set-aside.* All acreage set aside for new producers shall be allotted to qualified new producers, if there are sufficient requests for such acreage.

§ 855.46 Appeals or corrections.

After the county committee has acted on its own initiative or on a request for reconsideration of the establishment of a share for an old-producer farm and has found that such share was in error because of the use of incorrect data or misapplication of the regulations in this part, the State committee, upon its own initiative or upon application of the operator, may within the acreage available under § 855.39(c) increase the share for such farm to a level so as to give effect to the use of correct data or proper application of the regulations in this part.

STATEMENT OF BASES AND CONSIDERATIONS

Sugar Act requirements. The provisions with respect to producer compliance with the conditions for receiving payment, the basis for such payment, considerations required for establishing individual shares, and the protection of interests of new and small producers, tenants and sharecroppers are set forth in sections 301 and 302 of the Act (7 U.S.C. 1131, 1132).

General. The Act requires that shares be established for farms in an area for a given crop when the Secretary determines that production will be greater than the quantity needed to enable the area to meet the quota and provide a normal carryover inventory as estimated by the Secretary for such area for the calendar year during which the larger part of the sugar from such crop normally would be marketed.

Shares were required in the Mainland Can Sugar Area for the 1965, 1966 and 1967 crops. The total acreage allocated to the area for the 1967 crop was about 1,800 acres more than that made available for the preceding crop. This additional acreage was provided for establishing shares for new-producer farms and for increasing shares of old-producer farms to correct errors. Present information indicates that less than half of this acreage was used for these purposes.

Sugar production from the 1966 crop amounted to 1,215,000 tons or 115,000 tons in excess of the area's 1966 quota. The effective inventory of sugar on January 1, 1967, was 780,000 tons. The 1967-crop is progressing extremely well and it appears that production will substantially exceed the area's marketing quota for calendar year 1967. It seems now that the effective inventory of sugar on January 1, 1968, will be larger than a year earlier and larger than the top of the range (60 to 70 percent of the following year's quota) indicated by the Congress as appropriate when the quota for the area was increased in 1965.

In the absence of restrictions, 1968-crop acreage would probably exceed that for the 1967 crop and the production of sugar from such crop would exceed the quantity needed to enable the area to meet its quota and provide a normal carryover inventory. Hence, restriction of the 1968-crop acreage to the extent provided by this regulation appears necessary.

Public hearing. On May 10, 1967, an informal public hearing was held in Miami Beach, Fla., to obtain the views and recommendations of interested persons on all matters relating to establishing 1968-crop shares. In the press release announcing the hearing, the Department proposed as a basis for discussion that the separate State allocations be established at the total of final 1967-crop shares in each State factored to the level of the acreage required to bring sugar supplies into line with quota and carryover requirements. The release suggested that in view of the expected effective inventory of sugar on January 1, 1968, careful consideration must be given to the level of 1968-crop acreages to avoid a further accumulation of sugar in excess of quota and carryover needs. The Department proposed to set aside acreage within each State allocation for establishing shares for new farms and handling appeals. Recommendations were requested as to the level of these set-asides. It was proposed that farm bases for old-producer farms be established in the same manner as for the 1967 crop. Bases would be the larger of (a) the farm's 1967-crop acreage record, or (b) the 1967-crop farm's original share if the farm operator used at least 90 percent of such share or used less than 90 percent for reasons beyond his control. The Department suggested that an appropriate adjustment factor be applied to the farm base to compute each share, except that farms having small bases would not be subject to factoring. Recommendations were requested as to what should be considered as a small base. The release also proposed that provisions would be made to permit each State to utilize its total allocation through distribution of unused acres to other farms which could use additional acreage.

The spokesman for the American Sugarcane League, representing all the sugarcane processors in Louisiana and farmers who produce more than 95 percent of the sugarcane in the State and also the Louisiana Farm Bureau Federation made several recommendations including the following: (1) That the 1968-crop acreage level be 95 percent of the 1967 acreage level; (2) that separate State acreage objectives and allocations be established with a provision to permit each State to reach its objective; (3) that the objective or desirable acreage to produce sugarcane be the sum of (a) the total of final 1967-crop shares factored by 95 percent, (b) acreage needed for eminent domain purposes, (c) 100 acres for Florida and 150 acres for Louisiana for increasing shares granted on appeals, rectifying misapplication of the regulation or errors and for other contingencies, and (d) 125 acres for Florida and 200 acres for Louisiana for new-producer shares of 25 acres each; (4) that the acreage allocation consist of (a) the sum of 1967-crop original shares plus utilized adjustments in such shares factored by 95 percent and (b) the items included in the acreage objective for new-producers, appeals and for purposes of eminent domain; (5) that a compensating adjustment be made in the 1969-crop acreage objective if an error is made in estimating 1968-crop unused acreage causing the State to exceed or fall short of its 1968-crop objective; (6) that for Louisiana the farm base be the 1967-crop share originally established plus any adjustment in such share that was utilized; (7) that the farm share for each farm be 95 percent of its base; (8) that the acreage becoming available for the new-producer set-aside which is not used for that purpose and the acreage covered by shares which is lost to industrial or residential development be used to increase shares of other farms; and (9) that the sugarcane acreage record of a farm which is to be divided be credited to its subdivisions in a manner agreed upon by the interested parties.

The spokesman for Florida Sugar Cane League, representing all the sugarcane processors in Florida and 98 percent of the producers in the State, made several recommendations including the following: (1) That the 1968-crop acreage level for the area be approximately 95 percent of the 1967 acreage level; (2) that State allocations not be established; (3) that the farm base for old-producer farms be established as set forth in the Department's press release; (4) that each share be established at 95 percent of the farm base and that such factor be applied to bases of all farms in the area; (5) that new-producer shares be established at 25 acres from a set-aside of 125 acres for Flordia and 200 acres for Louisiana and that such set-aside be in addition to the State allocation; (6) that 100 acres for Florida and 150 acres for Louisiana be provided for handling appeals which also shall be in addition to the State allocation; (7) that provision not be included to permit the reallocation of unused acres to other farms; and (8) that

the sugarcane acreage record of a farm which is to be divided be credited to its subdivisions in a manner agreed upon by the interested parties.

However, a representative of the Florida Sugar Corp. observed that the present uneconomic level of that corporation's operations would not permit agreement to any decrease in acreage. Also, a representative of the Atlantic Sugar Association outlined the past hardships incurred by its members, objected to the imposition of any cutback in acreage and requested that the Secretary find a basis for granting relief to the Association.

Regulation. This regulation provides separate State allocations of 302,120 acres and 188,550 acres for Louisiana and Florida, respectively, within which shares may be established. For each State, the allocation will represent the sum of (1) 95 percent of the 1967-crop allocation and (2) the small acreage made available for establishing shares for new-producer farms and increasing shares of old-producer farms to correct errors.

A base will be determined for each farm as constituted for the 1967-crop by using the same method as that adopted for the 1967-crop. It will be at the level of the larger of the 1967-crop accredited acreage record of the farm or the 1967-crop original share established for the farm if the farm operator utilized at least 90 percent of such share or was prevented from utilizing such percentage of the share for reasons beyond his control. Thus, unless an operator willingly underplanted by more than 10 percent, the base for each farm will not be less than the original 1967-crop share for the farm. A base will also be determined for any farm for which production was lost or reduced after 1964-crop harvest through the transfer of acreage to an agency having the right of eminent domain. The foregoing method of determining farm bases will make it unnecessary for growers to plant in small fields or cuts to fully utilize their shares merely to maintain acreage history. As for the prior crop, bases will not be determined for farms if it is known that cane will not be growing for 1968-crop harvest. This will make the acreage for any farm going out of production available to other farms at the time shares are initially established.

The adjustment factor is to be applied to all old-producer farm bases, both large and small, as recommended by spokesmen of the Florida and Louisiana groups. It is estimated that about 3,000 acres will be reallocated in Louisiana in 1967. The 1968 farm bases for the farms to which reallocations were made in 1967 will reflect increases. Generally, compensating decreases will not be made in the bases for the farms from which the reallocations were made. Hence, it is likely that the factor to be applied to farm bases in Louisiana may be slightly less than 95 percent. In Florida, there was little unused acreage in 1967. Therefore, the factor should not be lower than 95 percent.

The factor also will be applied to bases determined for farms whose owners lost land because of eminent domain since 1964-crop harvest was completed. In these cases, the share will be limited to that acreage for which the owner applies for use in the 1968 crop. If application is made for only a portion of the acreage which was removed from production, the balance will be held by the State committees for future use of the owner.

As for the past crop, utilization of the total of the shares in each State is made possible through the reallocation of unused acres to other farms whereon additional acreages may be used. In Louisiana, operators of farms located in more than one county shall file a request for additional acreage at the county office where the farm headquarters is located and also at offices where parts of their farm are located. The county committees in Louisiana are authorized to immediately assign unused acreage as soon as underplantings are known. Thus, it will now be possible where a farm comprises land in more than one county to increase the shares of such farms by utilizing available unused acreage in all counties where parts of the farm are located. Requests for increases in shares made by the operators of farms in a county other than the headquarters shall be given the same consideration as requests made by operators whose farms are headquartered in the county. However, the increase in the share made to a part of a farm must be utilized in the county granting the increase. If the total underplantings in a county exceed the demand for additional acreage, the excess will be made available to the State committee for distribution to other counties.

In Florida, where unused acreage is not substantial, provision is made for the State committee to reallot unused acreage within the entire growing area. Guidelines are provided the committees for consideration in reallotting the unused acreages.

Small acreages are provided for establishing new-producer shares and to correct any errors made in establishing shares caused by the use of incorrect data or the improper application of the provisions of the regulations. Shares for new producers will be established at a level of 50 acres or a lesser acreage, if requested. In view of the economic factors involved in beginning a new sugarcane operation, including the purchase of specialized farm equipment, a proportionate share at a 50-acre level is provided rather than the 25-acre level recommended by the spokesmen for the Florida and Louisiana groups. Any of the acreages set aside specifically for establishing new-producer shares or for correcting errors which are not used for these purposes may not be distributed to other farms.

No action is being taken at this time to change the method for crediting sugarcane acreage history of farms involved in reconstitutions, as suggested by industry spokesmen. It is believed that the present rule which provides three alternative ways of assigning the parent farm's acreage record to its subdivisions affords sufficient latitude among the parties involved to agree to an equitable distribution and at the same time provides adequate safeguards to prevent the sale or improper handling of proportionate shares.

The other provisions of this regulation are generally similar to those which were in effect for the 1967 program. Certain provisions which were heretofore incorporated in each proportionate share regulation are now included in the General Conditional Payments Provisions. They cover requirements for harvesting within the farm share, disposition of acreage in excess of the farm share, protection of sharecroppers and share tenants and acquisition of farm land by the right of eminent domain.

The 1968-crop sugarcane acreages resulting from this regulation should provide a quantity of sugarcane which will enable the area to meet its quota under the Act and provide a normal carryover inventory.

The provisions of this regulation provide an equitable basis for establishing shares for farms in the area for the 1968-crop of sugarcane.

Accordingly, I hereby find and conclude that the foregoing regulation will effectuate the applicable provisions of the Act.

Effective date: Date of publication.

Signed at Washington, D.C., on July 18, 1967.

ORVILLE L. FREEMAN,
Secretary.

SUPPORT RATES, PREMIUMS, AND DISCOUNTS

Correction

In F.R. Doc. 67-6361, appearing at page 8283 of the issue for Friday, June 9, 1967, in § 1421.2185(b), the rate per bushel entry for Madison County, Va., should read "$1.38" instead of "$1.98".

Title 9—ANIMALS AND ANIMAL PRODUCTS

Chapter I—Agricultural Research Service, Department of Agriculture

SUBCHAPTER C—INTERSTATE TRANSPORTATION OF ANIMALS AND POULTRY

PART 76—HOG CHOLERA AND OTHER COMMUNICABLE SWINE DISEASES

Miscellaneous Amendments

Pursuant to provisions of the Act of May 29, 1884, as amended, the Act of February 2, 1903, as amended, the Act of March 3, 1905, as amended, and the Act of September 6, 1961 (21 U.S.C. 111–113, 114g, 115, 117, 120, 121, 125), Part 76, Title 9, Code of Federal Regulations, restricting the interstate movement of swine and certain products because of hog cholera and other communicable swine diseases, is hereby amended in the following respects:

1. Section 76.1(f) is amended by changing subparagraph (3) and adding a new subparagraph (4) to read, respectively, as follows:

§ 76.1 Definitions.

* * * * * * *

(f) *Virulent hog cholera virus.* * * *

(3) In living hog cholera virus vaccine commonly known as hog cholera vaccine, live virus modified, porcine origin; or

(4) In any other modified live virus vaccine which has not been approved by the Director of Division pursuant to the provisions of § 76.16(c).

* * * * * * *

2. The heading of § 76.5 and the portion of said section preceding paragraph (a)(1) are amended to read, respectively, as follows:

§ 76.5 Interstate movement of swine treated with nonapproved modified live virus vaccine or other virulent hog cholera virus prohibited except as provided.

Swine treated with a modified live virus vaccine which has not been approved by the Director of Division pursuant to the provisions of § 76.16(c), or with other virulent hog cholera virus, shall not be moved interstate except that:

(a) Swine treated with a nonapproved modified live virus vaccine, not of porcine origin, prior to July 25, 1967, or treated with other virulent hog cholera virus prior to April 1, 1966, and not known to be affected with or otherwise exposed to hog cholera may be moved interstate if:

* * * * * * *

3. Section 76.9(b) is amended by changing the portion of said paragraph preceding subparagraph (1) to read as follows:

§ 76.9 Movements from public stockyards, or approved stockyards or livestock markets.

* * * * * * *

(b) Simultaneous inoculation method: Swine required under this section to be treated shall be given simultaneous inoculation with antihog cholera serum or antibody concentrate and modified live virus vaccine, prepared under license from the Secretary of Agriculture. Such vaccine must also be approved by the Director of Division pursuant to the provisions of § 76.16(c). The dosage of serum or antibody concentrate used with modified live virus vaccine shall be as follows:

* * * * * * *

4. Section 76.10 (a)(1) and (b)(2) are amended to read, respectively, as follows:

§ 76.10 Other movements for feeding, breeding, or exhibition purposes or for sale for such purposes.

* * * * * * *

(a) * * *

(1) Modified live virus hog cholera vaccine prepared under a license issued by the Secretary of Agriculture, approved by the Director of Division pursuant to the provision of § 76.16(c), and administered in accordance with the recommendations on the vaccine label not less than 21 days nor more than one year prior to the date of shipment; or

* * * * * * *

(b) * * *

(2) Such swine have been officially vaccinated within 21 days prior to shipment with the simultaneous inoculation of modified live virus hog cholera vaccine prepared under a license issued by the Secretary of Agriculture, approved by the Director of Division pursuant to the provision of § 76.16(c), and administered in accordance with the dosage recommendations on the vaccine label, and a minimum of 15cc. of antihog cholera serum or a minimum of 7.5cc. of antibody concentrate, also prepared under such a license; or

* * * * * * *

5. The heading of § 76.16 is amended and a new paragraph (c) is added to read as follows:

§ 76.16 Approval of stockyards and livestock markets; approval of modified live virus vaccines.

* * * * * * *

(c) The Director of Division is authorized to approve modified live virus hog cholera vaccines, not of porcine origin, for the purposes of the regulations in this part when he determines that the interstate movement of such vaccines or swine treated therewith, will not constitute a threat to the hog cholera eradication program, and he is authorized to withdraw approval of any such vaccine when he determines that such action is necessary to effectuate the hog cholera eradication program. A list of modified live virus vaccines approved for the purposes of the regulations will be published in the FEDERAL REGISTER and will appear in this part.

(Secs. 4–7, 23 Stat. 32, as amended, secs. 1, 2, 32 Stat. 791, as amended, 792, as amended, secs. 3, 33 Stat. 1265, as amended, sec. 1, 75 Stat. 481; 21 U.S.C. 111, 112, 113, 114g, 115, 117, 120, 121, 125; 29 F.R. 16210, as amended, 30 F.R. 5799, as amended)

The amendments include certain modified live hog cholera virus vaccines for treatment of swine within the definition in the regulations of virulent hog cholera viruses and restrict the interstate movement of such vaccines and swine inoculated therewith. However they exclude from such restrictions modified live virus vaccines not of porcine origin, which are approved by the Director of Division. Accordingly they authorize the Director of Division to approve modified live virus vaccines for purposes of the regulations in this part and to withdraw such approval in accordance with the requirements of the hog cholera eradication program.

The amendments impose restrictions which are deemed necessary, and should be made effective promptly, to prevent the interstate dissemination of the contagion of hog cholera and effectuate the hog cholera eradication program. Therefore under the administrative procedure provisions of 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendments are impracticable and contrary to the public interest, and good cause is found for making the amendments effective less than 30 days after publication in the FEDERAL REGISTER.

These amendments shall become effective upon publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 17th day of July 1967.

F. J. MULHERN,
Deputy Administrator,
Agricultural Research Service.

[F.R. Doc. 67-8465; Filed, July 20, 1967; 8:46 a.m.]

PART 76—HOG CHOLERA AND OTHER COMMUNICABLE SWINE DISEASES

Approved Modified Live Virus Vaccines

Pursuant to § 76.16(c) of the regulations in Part 76, as amended, Title 9, Code of Federal Regulations, containing restrictions on the movement of swine and certain products because of hog cholera, under the Act of May 29, 1884, as amended, the Act of February 2, 1903, as amended, the Act of March 3, 1905, as amended, the Act of September 6, 1961, and the Act of June 2, 1962 (21 U.S.C. 111–113, 114g, 115, 117, 120, 121, 123–126,

134–134h), a new paragraph (d) is added to § 76.16 of said regulations to read as follows:

§ 76.16 Approval of stockyards and livestock markets; approval of modified live virus vaccines.

* * * * *

(d) Approved modified live virus vaccines: The following modified live virus hog cholera vaccines have been approved by the Director of Division for purposes of the regulations in this part:

License Number	Brand Name or Description
6–A	Swivac.
48	Vetecine.
52	TCC.
52	Alocine.
52	Colra-Stat.
52	Cutter.
52	Coltrecine.
52–A	Alocine.
53	Hog cholera vaccine, homologous tissue culture origin. Produced by Cutter Laboratories, distributed by Armour Pharmaceutical Co.
53	Hog cholera vaccine, homologous tissue culture origin, Haver-Lockhart Laboratories.
82	Hog cholera vaccine, homologous tissue culture origin, produced by Cutter Laboratories, distributed by Charles Pfizer and Co., Inc.
90	Corvine.
108	Bon-Ecine.
108	Pigvac-TC.
110	Amvac.
110	Hog cholera vaccine, modified live virus, rabbit origin, Consolidated Veterinary Laboratories, Inc.
112	Porcel.
112	Hog cholera vaccine, modified live virus, porcine tissue culture origin, Wyeth International Ltd.
115	Denvac.
117–A	Franklin.
124	Phil-Vac TC (Improved).
124	True-Vac TC (Improved).
124	Hog cholera vaccine, modified live virus porcine tissue culture origin, produced by Philips-Roxane, Inc., produced for Bio-Ceutic Laboratories.
138–A	Hog cholera vaccine, modified live virus, homologous tissue culture origin, Charles Pfizer and Company, Inc.
186	Hog cholera vaccine, modified live virus, homologous tissue culture origin, Colorado Serum Co.
186	Hog cholera vaccine, modified live virus, homologous tissue culture origin, Professional Biological Co.
189	Norcine.
195	Hog cholera vaccine, modified live virus homologous tissue culture origin, Fromm Laboratories, Inc.
198	Monocine.
198	Cellucine.
213	Certigen.
213	Hog cholera vaccine, modified live virus, multicell porcine tissue culture origin, manufactured by Amdal, Inc., distributed by Amdal Co.
213	Tissucine.
213	TC-Vac.
213	TCV.
225	Monovet.
246	Vetrocine.
246	Virocel.
251	Lapecine.
251	Lenacine.
254	Delane.

(Secs. 4–7, 28 Stat. 33, as amended, secs. 1, 2, 32 Stat. 791, as amended, 792, as amended, secs. 3, 33 Stat. 1265, as amended, sec. 1, 75 Stat. 481; 21 U.S.C. 111, 112, 113, 114g, 115, 117, 120, 121, 125; 29 F.R. 16210, as amended, 30 F.R. 5799, as amended; 9 CFR 76.16(c))

The foregoing amendment lists certain modified live virus vaccines approved by the Director of Division under the regulations in 9 CFR Part 76.

The amendment relieves restrictions imposed by the recent amendment of 9 CFR Part 76 relating to hog cholera and other communicable swine diseases and must be made effective promptly in order to be of maximum benefit to persons subject to the restrictions which are relieved. Accordingly, under the administrative procedure provisions of 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable and unnecessary and the amendment may be made effective less than 30 days after publication in the FEDERAL REGISTER.

These amendments shall become effective upon publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 17th day of July 1967.

G. H. WISE,
Acting Director, Animal Health Division, Agricultural Research Service.

Title 15—COMMERCE AND FOREIGN TRADE

Chapter VII—Office of State Technical Services, Department of Commerce

PART 700—GENERAL REGULATIONS GOVERNING OPERATION AND ADMINISTRATION OF STATE TECHNICAL SERVICES ACT OF 1965

Correspondence, Communications, Requests for Information, and Inspection of Records

Effective July 4, 1967, § 700.12 is revised to read as follows:

§ 700.12 Correspondence, communications, requests for information, and inspection of records.

(a) All correspondence, inquiries, and communications concerning the operation and administration of the Act, including the submission of certifications, plans, programs, reports, information, and documents, which the Act and the regulations in this part require to be furnished to the Secretary, shall be addressed to the Director, Office of State Technical Services, Department of Commerce, Washington, D.C. 20230.

(b) The Director will supply to any person, on request, a current index of all materials which are required to be published in the FEDERAL REGISTER or made available for public inspection and copying by the Office of State Technical Services under the provisions of 5 U.S.C. 552 (a) (1) and (a) (2).

(c) All materials which are required to be made available for public inspection and copying by the Office of State Technical Services under the provisions of 5 U.S.C. 552(a) (2) are available for such inspection and copying in the Central Reference and Records Inspection Facility of the Department of Commerce, Room 2122, Main Commerce Building, 14th Street between Pennsylvania Avenue and Constitution Avenue NW., Washington, D.C. 20230.

(d) Instructions for persons desiring, under the provisions of 5 U.S.C. 552(a) (3), to inspect records not available to the public as part of the regular public information services of the Office of State Technical Services, are contained in Part 4 of this title, and are also available from the Central Reference and Records Inspection Facility of the Department of Commerce, at the address shown in paragraph (c) of this section.

(Sec. 12, 79 Stat. 683; 15 U.S.C. 1362, Department of Commerce Order 7–A, 30 F.R. 15042, and Department of Commerce Order 64, 32 F.R. 9734)

Dated: June 19, 1967.

PAUL J. GROGAN,
Director, Office of State Technical Services.

Approved:

J. HERBERT HOLLOMON,
Assistant Secretary for Science and Technology.

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Administration, Department of Transportation

SUBCHAPTER C—AIRCRAFT

[Airworthiness Docket No. 67-SW-30; Amdt. 39-444]

PART 39—AIRWORTHINESS DIRECTIVES

Mooney Model M20F Airplanes

A proposal to amend Part 39 of the Federal Aviation Regulations to include an airworthiness directive requiring addition of a drain hole in the rudder of Mooney M20F airplanes was published in 32 F.R. 7979.

Interested persons have been afforded an opportunity to participate in the making of the amendment. No objections were received.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 F.R. 13697), § 39.13 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

MOONEY. Applies to Model M20F, serial numbers 660008, 660004, and 670001 through 670309.

Compliance required within the next 15 hours' time in service after the effective date of this AD unless already accomplished.

To prevent water retention in the rudder assembly, accomplish the following:

Drill 375 (⅜) inch diameter holes in the rudder as shown by Figure 1 of Mooney Service Bulletin M20–140 or FAA approved equivalent. This may be accomplished without removal of the rudder or any part replacements.

This amendent becomes effective August 21, 1967.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958; 49 U.S.C. 1354(a), 1421, 1423)

Issued in Fort Worth, Tex., on July 10, 1967.

HENRY L. NEWMAN,
Director, Southwest Region.

[F.R. Doc. 67-8461; Filed, July 20, 1967; 8:46 a.m.]

SUBCHAPTER F—AIR TRAFFIC AND GENERAL OPERATING RULES

[Reg. Docket No. 8271; Amdt. 545]

PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

Miscellaneous Amendments

The amendments to the standard instrument approach procedures contained herein are adopted to become effective when indicated in order to promote safety. The amended procedures supersede the existing procedures of the same classification now in effect for the airports specified therein. For the convenience of the users, the complete procedure is republished in this amendment indicating the changes to the existing procedures.

As a situation exists which demands immediate action in the interests of safety in air commerce, I find that compliance with the notice and procedure provisions of the Administrative Procedure Act is impracticable and that good cause exists for making this amendment effective within less than 30 days from publication.

In view of the foregoing and pursuant to the authority delegated to me by the Administrator (24 F.R. 5662), Part 97 (14 CFR Part 97) is amended as follows:

1. By amending the following automatic direction finding procedures prescribed in § 97.11(b) to read:

ADF STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.

If an instrument approach procedure of the above type is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of the Federal Aviation Agency. Initial approaches shall be made over specified routes. Minimum altitudes shall correspond with those established for an route operation in the particular area or as set forth below.

From—	To—	Course and distance	Minimum altitude (feet)	Condition	Ceiling and visibility minimums: 2-engine or less: 65 knots or less	2-engine or less: More than 65 knots	More than 2-engine, more than 65 knots

2. By amending the following very high frequency omnirange (VOR) procedures prescribed in § 97.11(c) to read:

VOR STANDARD INSTRUMENT APPROACH PROCEDURES

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.
If an instrument approach procedure of the above type is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of the Federal Aviation Agency. Initial approaches shall be made over specified routes. Minimum altitudes shall correspond with those established for an route operation in the particular area or as set forth below.

Transition				Ceiling and visibility minimums			
From—	To—	Course and distance	Minimum altitude (feet)	Condition	2-engine or less		More than 2-engine, more than 65 knots
					65 knots or less	More than 65 knots	
				T–dn%	1500–2	1500–2	1500–2
				C–dn	1900–2	1900–2	1900–2
				A–dn	2500–4	2500–4	2500–4

Procedure turn S side of crs, 277° Outbnd, 097° Inbnd, 11,000′ within 10 miles.
Descent in holding pattern not authorized. Procedure turn required.
Minimum altitude over facility on final approach crs, 10,000.
Crs and distance, facility to airport, 098°—7.3 miles.
If visual contact not established upon descent to authorized landing minimums or if landing not accomplished within 7.3 miles after passing BCE VORTAC, left-climbing turn, return to VORTAC and climb to 11,000′ on R 277° within 10 miles.
%Takeoff all runways: Climb clear of clouds over the airport to 9100′, continue climb direct to BCE VORTAC, thence climb on crs to MEA.
MSA within 25 miles of facility: 000°–090°—12,100′; 090°–180°—10,800′; 180°–270°—12,400′; 270°–360°—12,100′.

City, Bryce Canyon; State, Utah; Airport name, Bryce Canyon; Elev., 7586′; Fac. Class., H–BVORTAC; Ident., BCE; Procedure No. VOR–1, Amdt. 4; Eff. date, 12 Aug. 67; Sup. Amdt. No. VOR–1, Amdt. 4; Dated, 9 Apr. 66

3. By amending the following very high frequency omnirange—distance measuring equipment (VOR/DME) procedures prescribed in § 97.15 to read:

VOR/DME STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.
If an instrument approach procedure of the above type is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of the Federal Aviation Agency. Initial approaches shall be made over specified routes. Minimum altitudes shall correspond with those established for en route operation in the particular area or as set forth below.

Transition				Ceiling and visibility minimums			
From—	To—	Course and distance	Minimum altitude (feet)	Condition	2-engine or less		More than 2-engine, more than 65 knots
					65 knots or less	More than 65 knots

5. By amending the following radar procedures prescribed in § 97.19 to read:

RADAR STANDARD INSTRUMENT APPROACH PROCEDURES

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.
If a radar instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of the Federal Aviation Agency. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below. Positive identification must be established with the radar controller. From initial contact with radar to final authorized landing minimums, the instructions of the radar controller are mandatory except when (A) visual contact is established on final approach at or before descent to the authorized landing minimums, or (B) at pilot's discretion if it appears desirable to discontinue the approach, except when the radar controller may direct otherwise prior to final approach, a missed approach shall be executed as provided below when (A) communication on final approach is lost for more than 5 seconds during a precision approach, or for more than 30 seconds during a surveillance approach; (B) directed by radar controller; (C) visual contact is not established upon descent to authorized landing minimums; or (D) if landing is not accomplished.

Transition				Ceiling and visibility minimums			
From—	To—	Course and distance	Minimum altitude (feet)	Condition	2-engine or less		More than 2-engine, more than 55 knots
					55 knots or less	More than 55 knots

Title 17—COMMODITY AND SECURITIES EXCHANGES

Chapter II—Securities and Exchange Commission

PART 270—RULES AND REGULATIONS, INVESTMENT COMPANY ACT OF 1940

Definition of Exchange

On May 11, 1967, the Securities and Exchange Commission published notice (Investment Company Act Release No. 4950) in the FEDERAL REGISTER on May 18, 1967 (32 F.R. 7398), that it had under consideration the adoption of Rule 11a–1 under the Investment Company Act of 1940 ("Act") (§ 270.11a–1, Chapter II, Title 17 of the Code of Federal Regulations) and invited all interested persons to submit their views and comments upon the proposal. No comments were received. The Commission, after due consideration, has determined to adopt Rule 11a–1 (§ 270.11a–1) in the form set forth below.

Section 11(a) of the Act provides that it is unlawful for a registered open-end company or its principal underwriter to make an offer to any holder of the company's securities to exchange his security for a security in the same or another such company on any basis other than the relative net asset values of the respective securities to be exchanged, unless the Commission by rules, regulations or approval of a specific transaction permits the exchange to be made on such other basis. Accordingly, Section 11(a) (of the Act) contemplates that the Commission may adopt rules and regulations relating to offers of exchange to be made on a basis other than relative net asset values. Section 38(a) of the Act authorizes the Commission to make rules and regulations "as are necessary or appropriate to the exercise of the powers conferred upon the Commission elsewhere in this title, including rules and regulations defining accounting, technical, and trade terms used in this title."

Certain registered open-end investment companies have, since before the effective date of the Act, been issuing redeemable securities which, by their terms, mature or terminate, or are to be canceled at a specified date or after having been outstanding for a certain period of time. In addition, from time to time, inquiries have been received from other investment companies which have proposed to issue redeemable securities having termination provisions. At such termination date, or shortly thereafter, part or all of the proceeds of such terminated security may be used in payment of a redeemable security in the same company with a new termination date and with the imposition of a new sales load. In some instances, terminable redeemable securities may be repurchased by or on behalf of the issuer prior to their termination date and part or all of the proceeds of such repurchased securities similarly reinvested.

Rule 11a–1 (§ 270.11a–1) removes any previous uncertainty and makes clear that with respect to the proceeds of any terminable redeemable security issued after the effective date of the rule, the issuance of a new security under the circumstances discussed above will be considered an "exchange" within the meaning of that term as used in section 11 of the Act so as to preclude the imposition of a new sales load. The rule does not apply to the reinvestment of proceeds upon the repurchase, termination, retirement, or cancellation of any terminable redeemable security outstanding on the effective date of the rule or issued pursuant to a subscription agreement or other plan of acquisition in effect on such date.

Rule 11a–1 (§ 270.11a–1) defines the term "exchange" as used in section 11 of the Act to include, with certain exceptions, the issuance of any security by a registered investment company in an amount equal to the proceeds, or any portion of the proceeds, paid or payable to a security holder upon the repurchase by the company of an outstanding terminable redeemable security held by him, or upon the termination, retirement or cancellation of such a security in accordance with its terms. Such a security is not deemed to have been repurchased by the issuer, or terminated, retired, or canceled in accordance with its terms, if the issuer redeemed or repurchased the security and paid the redemption or repurchase price (1) upon presentation of the security for redemption or repurchase at the instance of its holder; (2) upon failure by the security holder to make prescribed payments; or (3) upon surrender of the security by the security holder pursuant to prescribed restrictions upon the security's transferability. In addition, an "exchange" is not deemed to have occurred if, following the repurchase of such a security by the issuer, or the termination, retirement, or cancellation of such a security in accordance with its terms, the proceeds are actually paid to the security holder by or on behalf of the issuer 7 days, and no sale and no offer (other than by way of exchange) of any security of the issuer is made by or on behalf of the issuer to the person to whom such proceeds were paid, within 60 days after such payment.

The Commission is today also issuing Investment Company Act Release No. 5023 adopting Rule 11b–1 (§ 270.11b–1) under the Investment Company Act of 1940 which is related hereto.

The text of Rule 11a–1 (§ 270.11a–1), adopted by the Commission pursuant to the authority granted to it in sections 11(a) and 38(a) of the Act, is as follows:

§ 270.11a–1 Definition of "exchange" for purposes of section 11 of the Act.

(a) For the purposes of section 11 of the Act, the term "exchange" as used therein shall include the issuance of any security by a registered investment company in an amount equal to the proceeds, or any portion of the proceeds, paid or payable—

(1) Upon the repurchase, by or at the instance of such issuer, of an outstanding security the terms of which provide for its termination, retirement or cancellation, or

(2) Upon the termination, retirement or cancellation of an outstanding security of such issuer in accordance with the terms thereof.

(b) A security shall not be deemed to have been repurchased by or at the instance of the issuer, or terminated, retired or canceled in accordance with the terms of the security if—

(1) The security was redeemed or repurchased at the instance of the holder; or

(2) A security holder's account was closed for failure to make payments as prescribed in the security or instruments pursuant to which the security was issued, and notice of intention to close the account was mailed to the security holder, and he had a reasonable time in which to meet the deficiency; or

(3) Sale of the security was restricted to a specified, limited group of persons and, in accordance with the terms of the security or the instruments pursuant to which the security was issued, upon its being transferred by the holder to a person not a member of the group eligible to purchase the security, the issuer required the surrender of the security and paid the redemption price thereof.

(c) The provisions of paragraph (a) of this section shall not apply if, following the repurchase of an outstanding security by or at the instance of the issuer or the termination, retirement or cancellation of an outstanding security in accordance with the terms thereof—

(1) The proceeds are actually paid to the security holder by or on behalf of the issuer within 7 days, and

(2) No sale and no offer (other than by way of exchange) of any security of the issuer is made by or on behalf of the issuer to the person to whom such proceeds were paid, within 60 days after such payment.

(d) The provisions of paragraph (a) of this section shall not apply to the repurchase, termination, retirement, or cancellation of a security outstanding on the effective date of this section or issued pursuant to a subscription agreement or other plan of acquisition in effect on such date.

(Secs. 11(a), 38(a), 54 Stat. 808, 841; 15 U.S.C. 80a–11(a), 80a–37)

The foregoing rule is declared effective August 12, 1967.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

JULY 12, 1967.

[F.R. Doc. 67–8454; Filed, July 20, 1967; 8:45 a.m.]

PART 270—RULES AND REGULATIONS, INVESTMENT COMPANY ACT OF 1940

Definition of Class or Series of Securities Issued by the Same Company

On May 11, 1967, the Securities and Exchange Commission published notice (Investment Company Act Release No. 4951) in the FEDERAL REGISTER on May 18, 1967 (32 F.R. 7399), that it had under consideration the adoption of Rule 11b–1 under the Investment Company Act of 1940 ("Act") (§ 270.11b–1, Chapter II, Title 17 of the Code of Federal Regulations) and invited all interested persons to submit their views and comments upon the proposal. No comments were received. The Commission, after due consideration, has determined to adopt Rule 11b–1 (§270.11b–1) in the form set forth below.

Section 11(a) of the Act provides that it is unlawful for a registered open-end company or its principal underwriter to make an offer to any holder of the company's securities to exchange his security for a security in the same or another such company on any basis other than the relative net asset values of the respective securities to be exchanged, unless the Commission by rules, regulations or approval of a specific transaction permits the exchange to be made on a different basis.

Section 11(b)(2) of the Act exempts from section 11(a) (of the Act) any offer made pursuant to the right of conversion, at the option of the security holder, from one class or series into another class or series of securities issued by the same company upon terms specified in the charter, certificate of incorporation, articles of association, bylaws, or trust indenture subject to which the securities to be converted were issued or to be issued.

Section 11(a) of the Act, as noted above, contemplates that the Commission may adopt rules and regulations relating to offers of exchange made at other than net asset value. Section 38(a) of the Act authorizes the Commission to make rules and regulations "as are necessary or appropriate to the exercise of the powers conferred upon the Commission elsewhere in this title, including rules and regulations defining accounting, technical, and trade terms used in this title."

The term "class or series of securities issued by the same company" used in section 11(b)(2) (of the Act) is not defined by any section of the Act. Related language is employed in section 18(f)(2) (of the Act). Section 18(f)(1) (of the Act), in relevant part, provides that it is unlawful for any registered open-end company to issue to the public any class of senior security or to sell any senior security of which it is the issuer, and section 18(f)(2) (of the Act) provides that the term "'senior security' shall not, in the case of a registered open-end company include a class or classes or a number of series of preferred or special stock each of which is preferred over all other classes or series in respect of assets specifically allocated to that class or series." Accordingly, under the provisions of section 18(f) (of the Act), a registered open-end company cannot issue any senior convertible security to the public, with the exception of a security of the type described in section 18(f)(2) (of the Act).

The provisions of section 18(f)(2) (of the Act) relate to so-called "series companies," each of which maintains a series of separate differentiated pools of assets, in respect to each of which there is a class or series of securities outstanding which represents the exclusive and entire participation in the particular pool. Thus, section 18(f)(2) (of the Act) provides that each such class or series of securities must have a preference over all other classes or series of securities with respect to the particular pool of assets to which it relates.

The purpose of Rule 11b–1 (§ 270.11b–1) is to specify that the exemption provided by section 11(b)(2) (of the Act) is available only to the type of "series company" described in section 18(f)(2) (of the Act). Accordingly, Rule 11b–1 (§ 270.11b–1) defines the term "class or series of securities issued by the same company" as used in section 11(b)(2) (of the Act) to mean all securities issued by a registered open-end investment company which are preferred over all other classes or series in respect of assets specifically allocated to that class or series.

The Commission has issued today Investment Company Act Release No. 5024 adopting Rule 11a–1 (§ 270.11a–1) under the Investment Company Act of 1940 which is related hereto.

The text of Rule 11b–1 (270.11b–1) adopted by the Commission pursuant to the authority granted to it in sections 11(a) and 38(a) of the Act, is as follows:

§ 270.11b–1 Definition of "class or series of securities issued by the same company" for purposes of section 11(b)(2) of the Act.

For the purposes of subsection 11(b)(2) of the Act, the term "class or series of securities issued by the same company" shall mean any securities issued by a registered open-end investment company which are preferred over all other classes or series in respect of assets specifically allocated to that class or series.

(Secs. 11(a), 38(a), 54 Stat. 808, 841; 15 U.S.C. 80a–11(a), 80a–37)

The foregoing is declared effective August 12, 1967.

By the Commission.

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER A—GENERAL

PART 1—REGULATIONS FOR THE ENFORCEMENT OF THE FEDERAL FOOD, DRUG, AND COSMETIC ACT AND THE FAIR PACKAGING AND LABELING ACT

Miscellaneous Amendments

In the matter of amending the enforcement regulations (21 CFR Part 1) with respect to the requirements of the Fair Packaging and Labeling Act (Public Law 89–755) to (1) establish an exemption procedure for foods, drugs, and cosmetics, (2) set forth the requirements for label statements for foods, and (3) establish exemptions for foods:

In response to the notice of proposed rulemaking in the above-identified matter published in the FEDERAL REGISTER of March 17, 1967 (32 F.R. 4172), over 300 comments were submitted by Federal and State officials and by representatives of industry, and these comments have been duly considered. Also, the Committee on Laws and Regulations of the National Conference of Weights and Measures and the Executive Committee of the Association of Food and Drug Officials of the United States have been consulted on many provisions of the proposal since under section 12 of the Fair Packaging and Labeling Act the States, which have additional interests in this area of regulation, are precluded from imposing labeling laws that are less stringent than or require information different from the requirements of section 4 of that Act or regulations promulgated thereunder. Discussions of the proposal were also had with other Federal officials. On the basis of the information available to him from these and other sources, the Commissioner of Food and Drugs' decisions on those provisions of the proposal that elicited the largest volume of arguments are as follows:

1. The Commissioner is of the opinion that the exemption from bearing otherwise mandatory label information applicable (under certain circumstances) to outer containers or wrappers by the terms of the Federal Food, Drug, and Cosmetic Act should also be recognized in the regulations implementing the Fair Packaging and Labeling Act. Therefore, transparent wrappers or containers are, under stated conditions, exempt from bearing mandatory label information under the regulations set forth below. The State officials who addressed themselves to this issue are in agreement with this interpretation. Understandably, comments from industry strongly support this interpretation.

2. The Commissioner has accepted the recommendation of State officials that the proposed directions for computing the area of the principal display panel should be defined more explicitly. The statutory requirements for uniformity of type size in net quantity declarations preclude the adoption of suggestions from industry officials that the type size be established in relation to the area of the label.

3. In the matter of requiring particular food forms to be included in the statement of identity, there was no general consensus among State officials, and the Commissioner is not in agreement with the views of industry that this is an unnecessary specification. Neither is he persuaded that the statement of identity and declaration of net quantity belong elsewhere than on the principal display panel.

4. There is general agreement that the statutory requirement that the net

quantity shall be separately stated can be satisfied by a rule requiring a reasonable separation in relation to the type size of the net quantity statement. There is no general consensus on the issue of the uniform location of the net quantity statement, and the Commissioner cannot accept the recommendation found in a great many of the comments that the statement appear at the top or bottom of the label at the option of the manufacturer.

5. The proposed provision to exclude the weight of propellants in net weight declarations is not included in the following order because State and Federal officials commenting thereon were of the opinion that there is not presently available a generally accepted, practical method for determining such weight. It is the intention of the Commissioner to attempt to obtain agreement on an acceptable method among the interested regulatory officials.

6. The type sizes proposed for the net quantity declaration have produced the greatest number of comments. Most of the writers suggested that the sizes proposed be replaced by the type size specifications adopted by the National Conference of Weights and Measures. The type sizes required by the following order are not those of the National Conference, but the Commissioner has good cause to believe that the sizes ordered are reasonable.

7. Proposed § 1.8b(q) is revised and calls for the net quantity statement to express an accurate statement of the quantity of contents of the package. Reasonable variations caused by loss or gain of moisture during the course of good distribution practice or by unavoidable deviations in good manufacturing practice will be recognized. At a later date the Commissioner will propose an amendment to § 1.8b(q) to specify a means whereby industry and State and Federal Government may make a definitive determination whether any variation is reasonable or unreasonable.

8. Proposed § 1.10(d), dealing with quantitative declaration of certain ingredients, has been revised in response to requests for greater specificity.

Therefore, based on consideration of the comments received, the above-mentioned consultations, and other relevant information, the Commissioner concludes that the proposed amendments should be issued, with changes and additions, as set forth below. Accordingly, pursuant to the provisions of the Fair Packaging and Labeling Act (secs. 4, 6, 80 Stat. 1297, 1299, 1300; 15 U.S.C. 1453, 1455) and the authority provided in the Federal Food, Drug, and Cosmetic Act (secs. 403 (e), (f), (i), 502(b), 602(b), 701, 52 Stat. 1047, 1050, 1054, 1055, as amended; 21 U.S.C. 343 (e), (f), (i), 352(b), 362(b), 371), and under the authority delegated to the Commissioner by the Secretary of Health, Education, and Welfare (21 CFR 2.120): *It is ordered*, That Part 1 be amended:

1. By changing the part heading to read as set forth above.

2. By revising § 1.1 to read as follows:

§ 1.1 General.

(a) The provisions of regulations promulgated under the Federal Food, Drug, and Cosmetic Act with respect to the doing of any act shall be applicable also to the causing of such act to be done.

(b) The definitions and interpretations of terms contained in section 201 of the Federal Food, Drug, and Cosmetic Act shall be applicable also to such terms when used in regulations promulgated under that act.

(c) The definition of "package" in §1.1b and of "principal display panel" in § 1.7; and the substantive requirements pertaining to uniform location, lack of qualification, and separation of the net quantity declaration in § 1.8b(f), to type size requirements for net quantity declaration in § 1.8b(i), to initial statement of ounces in the dual declaration of net quantity in § 1.8b(j) and (m), to prohibition of certain supplemental net quantity statements in §1.8b(o), and to servings representations in § 1.8c are provided for solely by the Fair Packaging and Labeling Act and apply to certain consumer commodities defined in section 10 of that act. The other requirements of this part are provided for by both Fair Packaging and Labeling Act and the Federal Food, Drug, and Cosmetic Act or by the latter act solely, are enforceable under the provisions of section 303 of the Federal Food, Drug, and Cosmetic Act, and are not limited in their application by section 10 of the Fair Packaging and Labeling Act.

3. By adding new §§ 1.1a and 1.1b, and 1.1c, as follows:

§ 1.1a Foods, drugs, devices, and cosmetics; labeling; procedure for requesting variations and exemptions from required label statements.

Section 403(e) of the act (in this Part 1, the term "act" means the Federal Food, Drug, and Cosmetic Act) provides for the establishment by regulation of reasonable variations and exemptions for small packages from the required declaration of net quantity of contents. Section 403(i) of the act provides for the establishment by regulation of exemptions from the required declaration of ingredients where such declaration is impracticable, or results in deception or unfair competition. Section 502(b) of the act provides for the establishment by regulation of reasonable variations and exemptions for small packages from the required declaration of net quantity of contents. Section 602(b) of the act provides for the establishment by regulation of reasonable variations and exemptions for small packages from the required declaration of net quantity of contents. Section 5(b) of the Fair Packaging and Labeling Act provides for the establishment by regulation of exemptions from certain required declarations of net quantity of contents, identity of commodity, identity and location of manufacturer, packer, or distributor, and from declaration of net quantity of servings represented, based on a finding that full compliance with such required declarations is impracticable or not necessary for the adequate protection of consumers, and a further finding that the nature, form, or quantity of the packaged consumer commodity or other good and sufficient reasons justify such exemptions. The Commissioner, on his own initiative or on petition of an interested person, may propose such findings and an exemption. The procedure followed and the criteria used in acting upon exemption requests of interested persons are as follows:

(a) If the petitioner shows that he is an interested person and furnishes reasonable grounds for his proposal, the Commissioner shall publish the proposal in the FEDERAL REGISTER and afford opportunity for interested persons to comment on it. After a study of all the facts available and of the comments received, the Commissioner will act upon the proposal and publish an order, pursuant to section 701(e) of the act, to which objection may be taken by persons who would be adversely affected.

(b) Practical administration of the law requires that there be a substantial showing of merit before any proposal is published. In evaluating proposals submitted by petitioners for initiating actions, it will be the policy of the Food and Drug Administration to consider that reasonable grounds have been furnished when:

(1) The proposal includes or is accompanied by a statement of the facts that the petitioner asserts he can substantiate by evidence in the event the proceedings lead to a public hearing.

(2) The declared facts furnish substantial support of the proposal and warrant a conclusion that the proposal is reasonable.

(3) The proposal if adopted would not unduly impinge upon the consumer's right to information essential to efficient marketing and to the making of value comparisons and would not otherwise promote deception or unfair competition.

(4) Full compliance with the declarations required by law would be impracticable, deceptive, or otherwise unnecessary.

(c) Opportunity will be given to amend petitions regarded as inadequate.

(d) At any time prior to the issuance of an order acting on his proposal under section 701(e)(1) of the act, the petitioner may withdraw his petition without prejudice to a future filing. Notice of withdrawal of the petition and termination of the rulemaking proceeding will be published in the FEDERAL REGISTER.

(e) Established exemptions will be set forth in § 1.1c.

§ 1.1b Packages; definition; presence of mandatory label information.

The term "package" means any container or wrapping in which any food, drug, device, or cosmetic is enclosed for use in the delivery or display of such commodities to retail purchasers, but does not include:

(a) Shipping containers or wrappings used solely for the transportation of any such commodity in bulk or in quantity to manufacturers, packers, processors, or wholesale or retail distributors;

(b) Shipping containers or outer wrappings used by retailers to ship or deliver any such commodity to retail customers if such containers and wrappings bear no printed matter pertaining to any particular commodity; or

(c) Containers subject to the provisions of the Act of August 3, 1912 (37 Stat. 250, as amended; 15 U.S.C. 234–236), the Act of August 31, 1916 (39 Stat. 673, as amended; 15 U.S.C. 251–256), or the Act of May 21, 1928 (45 Stat. 685, as amended; 15 U.S.C. 257–257i).

(d) Containers used for tray pack displays in retail establishments.

(e) Transparent wrappers or containers which do not bear written, printed, or graphic matter obscuring the label information required by this part.

A requirement contained in this part that any word, statement, or other information appear on the label shall not be considered to be complied with unless such word, statement, or information also appears on the outer container or wrapper of the retail package of the article, or, as stated in paragraph (e) of this section, such information is easily legible by virtue of the transparency of the outer wrapper or container. Where a consumer commodity is marketed in a multiunit retail package bearing the mandatory label information as required by this part and the unit containers are not intended to be sold separately, the net weight placement requirement of § 1.8b(f) applicable to such unit containers is waived if the units are in compliance with all the other requirements of this part.

§ 1.1c Exemptions from required label statements.

The following exemptions are granted from label statements required by this part:

(a) *Foods.* (1) While held for sale, a food shall be exempt from the required declaration of net quantity of contents specified in this part if said food is received in bulk containers at a retail establishment and is accurately weighed, measured, or counted either within the view of the purchaser or in compliance with the purchaser's order.

(2) Random food packages, as defined in § 1.8b(j) of this part, bearing labels declaring net weight, price per pound, and total price, shall be exempt from the type size, dual declaration, and placement requirements of § 1.8b, if the accurate statement of net weight is presented conspicuously on the principal display panel of the package.

(3) Individual serving-size packages of foods containing less than ½ ounce or less than ½ fluid ounce for use in restaurants, institutions, and passenger carriers, and not intended for sale at retail, shall be exempt from the required declaration of net quantity of contents specified in this part.

(4) Individually wrapped pieces of "penny candy" shall be exempt from the labeling requirements of this part when the container in which such candy is shipped is in conformance with the labeling requirements of this part. Similarly when individually wrapped pieces of candy of less than ½ ounce net weight per individual piece are sold in bags or boxes, such individual pieces shall be exempt from the required declaration of net quantity of contents specified in this part when the declaration on the bag or box meets the requirements of this part.

4. By revising § 1.2 to read as follows:

§ 1.2 Labeling; label; definitions.

(a) Labeling includes all written, printed, or graphic matter accompanying an article at any time while such article is in interstate commerce or held for sale after shipment or delivery in interstate commerce.

(b) "Label" means any display of written, printed, or graphic matter on the immediate container of any article, or any such matter affixed to any consumer commodity or affixed to or appearing upon a package containing any consumer commodity.

§ 1.5 [Redesignated]

5. By redesignating § 1.7 as § 1.15 and adding a new § 1.7, as follows:

§ 1.7 Food in package form; principal display panel.

The term "principal display panel" as it applies to food in package form and as used in this part, means the part of a label that is most likely to be displayed, presented, shown, or examined under customary conditions of display for retail sale. The principal display panel shall be large enough to accommodate all the mandatory label information required to be placed thereon by this part with clarity and conspicuousness and without obscuring design, vignettes, or crowding. Where packages bear alternate principal display panels, information required to be placed on the principal display panel shall be duplicated on each principal display panel. For the purpose of obtaining uniform type size in declaring the quantity of contents for all packages of substantially the same size, the term "area of the principal display panel" means the area of the side or surface that bears the principal display panel, which area shall be:

(a) In the case of a rectangular package where one entire side properly can be considered to be the principal display panel side, the product of the height times the width of that side;

(b) In the case of a cylindrical or nearly cylindrical container, 40 percent of the product of the height of the container times the circumference;

(c) In the case of any other shaped container, 40 percent of the total surface of the container.

In determining the area of the principal display panel, exclude flanges at tops and bottoms of cans and shoulders and necks of bottles or jars. In the case of cylindrical or nearly cylindrical containers, information required by this part to appear on the principal display panel shall appear within that 40 percent of the circumference which is most likely to be displayed, presented, shown, or examined under customary conditions of display for retail sale.

6. By revising § 1.8 and adding new §§ 1.8a, 1.8b, and 1.8c, as follows:

§ 1.8 Food in package form, labeling; identity.

(a) The principal display panel of a food in package form shall bear as one of its principal features a statement of the identity of the commodity.

(b) Such statement of identity shall be in terms of:

(1) The name now or hereafter specified in or required by any applicable Federal law or regulation; or, in the absence thereof,

(2) The common or usual name of the food; or, in the absence thereof,

(3) An appropriately descriptive term, or when the nature of the food is obvious, a fanciful name commonly used by the public for such food.

(c) Where a food is marketed in various optional forms (whole, slices, diced, etc.), the particular form shall be considered to be a necessary part of the statement of identity and shall be declared in letters of a type size bearing a reasonable relation to the size of the letters forming the other components of the statement of identity; except that if the optional form is visible through the container or is depicted by an appropriate vignette, the particular form need not be included in the statement. This specification does not affect the required declarations of identity under definitions and standards for foods promulgated pursuant to section 401 of the act.

(d) This statement of identity shall be presented in bold type on the principal display panel, shall be in a size reasonably related to the most prominent printed matter on such panel, and shall be in lines generally parallel to the base on which the package rests as it is designed to be displayed.

§ 1.8a Food labeling; name and place of business of manufacturer, packer, or distributor.

(a) The label of a food in packaged form shall specify conspicuously the name and place of business of the manufacturer, packer, or distributor.

(b) The requirement for declaration of the name of the manufacturer, packer, or distributor shall be deemed to be satisfied, in the case of a corporation, only by the actual corporate name, which may be preceded or followed by the name of the particular division of the corporation. In the case of an individual, partnership, or association, the name under which the business is conducted shall be used.

(c) Where the food is not manufactured by the person whose name appears on the label, the name shall be qualified by a phrase that reveals the connection such person has with such food; such as, "Manufactured for and packed by _____," "Distributed by _____," or any other wording that expresses the facts.

(d) The statement of the place of business shall include the street address, city, State, and ZIP Code; however, the street address may be omitted if it is

examined under customary conditions of display for retail sale.

shown in a current city directory or telephone directory.

(e) If a person manufactures, packs, or distributes a food at a place other than his principal place of business, the label may state the principal place of business in lieu of the actual place where such food was manufactured or packed or is to be distributed, unless such statement would be misleading.

§ 1.8b Food labeling; declaration of net quantity of contents; when exempt.

(a) The principal display panel of a food in package form shall bear a declaration of the net quantity of contents. This shall be expressed in the terms of weight, measure, numerical count, or a combination of numerical count and weight or measure. The statement shall be in terms of fluid measure if the food is liquid, or in terms of weight if the food is solid, semisolid, or viscous, or a mixture or solid and liquid; except that such statement may be in terms of dry measure if the food is a fresh fruit, fresh vegetable, or other dry commodity that is customarily sold by dry measure. If there is a firmly established general consumer usage and trade custom of declaring the contents of a liquid by weight, or a solid, semisolid, or viscous product by fluid measure, it may be used. Whenever the Commissioner determines that an existing practice of declaring net quantity of contents by weight, measure, numerical count, or a combination in the case of a specific packaged food does not facilitate value comparisons by consumers and offers opportunity for consumer confusion, he will by regulation designate the appropriate term or terms to be used for such commodity.

(b) (1) Statements of weight shall be in terms of avoirdupois pound and ounce.

(2) Statements of fluid measure shall be in terms of the U.S. gallon of 231 cubic inches and quart, pint, and fluid ounce subdivisions thereof, and shall:

(i) In the case of frozen food that is sold in the frozen state, express the volume at 32° F. (0° C.).

(ii) In the case of refrigerated food that is sold in the refrigerated state, express the volume at 40° F. (4° C.).

(iii) In the case of other foods, express the volume at 68° F. (20° C.).

(3) Statements of dry measure shall be in terms of the U.S. bushel of 2,150.42 cubic inches and peck, dry quart, and dry pint subdivisions thereof.

(c) When the declaration of quantity of contents by numerical count does not give adequate information as to the quantity of food in the package, it shall be combined with such statement of weight, measure, or size of the individual units of the foods as will provide such information.

(d) The declaration may contain common or decimal fractions. A common fraction shall be in terms of halves, quarters, eighths, sixteenths, or thirty-seconds; except that if there exists a firmly established general consumer usage and trade custom of employing different common fractions in the net quantity declaration of a particular commodity, they may be employed. A common fraction shall be reduced to its lowest terms; a decimal fraction shall not be carried out to more than two places. A statement that includes small fractions of an ounce shall be deemed to permit smaller variations than one which does not include such fractions.

(e) The declaration shall be located on the principal display panel of the label, and with respect to packages bearing alternate principal panels it shall be duplicated on each principal display panel.

(f) The declaration shall appear as a distinct item on the principal display panel, shall be separated (by at least a space equal to the height of the lettering used in the declaration) from other printed label information appearing above or below the declaration and (by at least a space equal to twice the width of the letter "N" of the style of type used in the quantity of contents statement) from other printed label information appearing to the left or right of the declaration. It shall not include any term qualifying a unit of weight, measure, or count (such as "jumbo quart" and "full gallon") that tends to exaggerate the amount of the food in the container. It shall be placed on the principal display panel within the bottom 30 percent of the area of the label panel in lines generally parallel to the base on which the package rests as it is designed to be displayed: *Provided*, That on packages having a principal display panel of 5 square inches or less, the requirement for placement within the bottom 30 percent of the area of the label panel shall not apply when the declaration of net quantity of contents meets the other requirements of this part.

(g) The declaration shall accurately reveal the quantity of food in the package exclusive of wrappers and other material packed therewith; provided that in the case of foods packed in containers designed to deliver the food under pressure, the declaration shall state the net quantity of the contents that will be expelled when the instructions for use as shown on the container are followed. The propellant is included in the net quantity declaration.

(h) The declaration shall appear in conspicuous and easily legible boldface print or type in distinct contrast (by typography, layout, color, embossing, or molding) to other matter on the package; except that a delaration of net quantity blown, embossed, or molded on a glass or plastic surface is permissible when all label information is so formed on the surface. Requirements of conspicuousness and legibility shall include the specifications that:

(1) The ratio of height to width (of the letter) shall not exceed a differential of 3 units to 1 unit (no more than 3 times as high as it is wide).

(2) Letter heights pertain to upper case or capital letters. When upper and lower case or all lower case letters are used, it is the lower case letter "o" or its equivalent that shall meet the minimum standards.

(3) When fractions are used, each component numeral shall meet one-half the minimum height standards.

(i) The declaration shall be in letters and numerals in a type size established in relationship to the area of the principal display panel of the package and shall be uniform for all packages of substantially the same size by complying with the following type specifications:

(1) Not less than 1/16 inch in height on packages the principal display panel of which has an area of 5 square inches or less.

(2) Not less than 1/8 inch in height on packages the principal display panel of which has an area of more than 5 but not more than 25 square inches.

(3) Not less than 3/16 inch in height on packages the principal display panel of which has an area of more than 25 but not more than 100 square inches.

(4) Not less than 1/4 inch in height on packages the principal display panel of which has an area of more than 100 square inches, except not less than 1/2 inch in height if the area is more than 400 square inches.

Where the declaration is blown, embossed, or molded on a glass or plastic surface rather than by printing, typing, or coloring, the lettering sizes specified in subparagraphs (1) through (4) of this paragraph shall be increased by 1/16 of an inch.

(j) On packages containing less than 4 pounds or 1 gallon and labeled in terms of weight or fluid measure:

(1) The declaration shall be expressed both in ounces, with identification by weight or by liquid measure and, if applicable (1 pound or 1 pint or more) followed in parentheses by a declaration in pounds for weight units, with any remainder in terms of ounces or common or decimal fractions of the pound (see examples set forth in paragraph (m) (1) and (2) of this section), or in the case of liquid measure, in the largest whole units (quarts, quarts and pints, or pints, as appropriate) with any remainder in terms of fluid ounces or common or decimal fractions of the pint or quart (see examples in paragraph (m) (3) and (4) of this section).

(2) If the net quantity of contents declaration appears on a random package, that is a package which is one of a lot, shipment, or delivery of packages of the same consumer commodity with varying weights and with no fixed weight pattern, it may, when the net weight exceeds 1 pound, be expressed in terms of pounds and decimal fractions of the pound carried out to not more than two decimal places. When the net weight does not exceed 1 pound, the declaration on the random package may be in decimal fractions of the pound in lieu of ounces (see example in paragraph (m) (5) of this section).

(3) The declaration may appear in more than one line. The term "net weight" shall be used when stating the net quantity of contents in terms of weight. Use of the terms "net" or "net contents" in terms of fluid measure or numerical count is optional. It is sufficient to distinguish avoirdupois ounce from fluid ounce through association of terms; for example, "Net wt. 6 oz." and "Net contents 6 fl. oz."

(k) On packages containing 4 pounds or 1 gallon or more and labeled in terms of weight or fluid measure, the declaration shall be expressed in pounds for weight units with any remainder in terms of ounces or common or decimal fraction of the pound, or in the case of fluid measure, it shall be expressed in the largest whole unit (gallons followed by common or decimal fraction of a gallon or by the next smaller whole unit or units (quarts, or quarts and pints)) with any remainder in terms of fluid ounces or common or decimal fractions of the pint or quart (see paragraph (m) (6) of this section).

(l) [Reserved]

(m) Examples:

(1) A declaration of 1½ pounds weight shall be expressed as "Net Wt. 24 oz. (1 lb., 8 oz.)" "Net Wt. 24 oz. (1.5 lb.)".

(2) A declaration of ¾ pound avoirdupois weight shall be expressed as "Net Wt. 12 oz."

(3) A declaration of 1 quart liquid measure shall be expressed as "Net 32 fl. oz. (1 qt.)".

(4) A declaration of 1¾ quarts liquid measure shall be expressed as "Net contents 56 fluid ounces (1 quart 1½ pints)" or as "Net 56 fluid oz. (1 qt. 1 pt. 8 oz.)," but not in terms of quart and ounce such as "Net 56 fluid oz. (1 quart 24 ounces)".

(5) On a random package, declaration of ¾ pound avoirdupois may be expressed as "Net Wt. .75 lb."

(6) A declaration of 2½ gallons liquid measure shall be expressed as "Net contents 2½ gallons," "Net contents 2.5 gallons," or "Net contents 2 gallons 2 quarts" and not as "2 gallons 4 pints".

(n) For quantities, the following abbreviations and none other may be employed (periods and plural forms are optional):

weight wt.	pint pt.
ounce oz.	quart qt.
pound lb.	fluid fl.
gallon gal.	

(o) Nothing in this section shall prohibit supplemental statements at locations other than the principal display panel(s) describing in nondeceptive terms the net quantity of contents: *Provided*, That such supplemental statements of net quantity of contents shall not include any term qualifying a unit of weight, measure, or count that tends to exaggerate the amount of the food contained in the package; for example, "jumbo quart" and "full gallon". Dual or combination declarations of net quantity of contents as provided for in paragraphs (a), (c), and (j) of this section (for example, a combination of net weight plus numerical count, net weight plus dilution directions of a concentrate, etc.) are not regarded as supplemental net quantity statements and shall be located on the principal display panel.

(p) A separate statement of the net quantity of contents in terms of the metric system is not regarded as a supplemental statement and an accurate statement of the net quantity of contents in terms of the metric system of weight or measure may also appear on the principal display panel or on other panels.

(q) The declaration of net quantity of contents shall express an accurate statement of the quantity of contents of the package. Reasonable variations caused by loss or gain of moisture during the course of good distribution practice or by unavoidable deviations in good manufacturing practice will be recognized. Variations from stated quantity of contents shall not be unreasonably large.

§ 1.8c Food labeling; number of servings.

(a) The label of any package of a food which bears a representation as to the number of servings contained in such package shall bear in immediate conjunction with such statement, and in the same size type as is used for such statement, a statement of the net quantity (in terms of weight, measure, or numerical count) of each such serving; however, such statement may be expressed in terms that differ from the terms used in the required statement of net quantity of contents (for example, cupfuls, tablespoonfuls, etc.) when such differing term is common to cookery and describes a constant quantity. Such statement may not be misleading in any particular.

(b) If there exists a voluntary product standard promulgated pursuant to the procedures found in Part 10, Title 15, Code of Federal Regulations, by the Department of Commerce, quantitatively defining the meaning of the term "serving" with respect to a particular food, then any label representation as to the number of servings in such packaged food shall correspond with such quantitative definition. (Copies of published standards are available upon request from the National Bureau of Standards, Department of Commerce, Washington, D.C. 20234.)

7. By revising § 1.10 (d) and (e) and adding a new paragraph (h), as follows:

§ 1.10 Food; labeling; designation of ingredients.

* * * * *

(d) When the proportion of an ingredient or ingredients is material in the light of the representation that such ingredient was used in fabricating the food, the label shall contain a quantitative declaration of such ingredient(s). For example, a label designation of identity as "cottonseed oil and olive oil" for a mixture containing 80 percent or more of cottonseed oil would require a declaration of the percent of olive oil present. Similarly a representation by vignette or statement of identity that a breakfast syrup is made from a mixture of sugar syrup and maple sugar syrup would necessitate a quantitative declaration of the maple sugar syrup unless more than 20 percent maple sugar syrup is present.

(e) In the case of an assortment of different items of food, when variations in the items that make up different packages packed from such assortment normally occur in good packing practice and when such variations result in variations in the ingredients in different packages, such food shall be exempt from compliance with the requirements of clause (2) of section 403(i) of the act with respect to any ingredient that is not common to all packages. Such exemption, however, shall be on the condition that the label shall bear, in conjunction with the names of such ingredients as are common to all packages, a statement (in terms that are as informative as practicable and that are not misleading) indicating that other ingredients may be present.

* * * * *

(h) Ingredients shall be listed by common or usual name in order of decreasing predominance. The declaration shall be presented on any appropriate information panel in adequate type size, without obscuring design, vignettes, or crowding. The entire ingredient statement shall appear on a single panel of the label.

Any person who will be adversely affected by the foregoing order may at any time within 30 days from the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington, D.C. 20201, written objections adversely affected by the order and tions thereto. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing, and such objections must be supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof. All documents shall be filed in six copies.

Effective date. This order shall become effective (1) December 31, 1967, for all new packages, new label designs, and labels being reordered and (2) July 1, 1968, for all packages introduced into interstate commerce; except as to any provisions that may be stayed by the filing of proper objections. Notice of the filing of objections or lack thereof will be announced by publication in the FEDERAL REGISTER.

(Secs. 4, 6, 80 Stat. 1297, 1299, 1300, 15 U.S.C. 1453, 1455; secs. 408 (e), (f), (l), 502(b), 602 (b), 701, 52 Stat. 1047, 1050, 1054, 1055, as amended, 21 U.S.C. 343 (e), (f), (l), 352(b), 362(b), 371)

Dated: July 17, 1967.

JAMES L. GODDARD,
Commissioner of Food and Drugs.

[F.R. Doc. 67-8467; Filed, July 20, 1967; 8:46 a.m.]

PART 3—STATEMENTS OF GENERAL POLICY OR INTERPRETATION

Utilization of Packages and Labels Not in Compliance With Labeling Requirements of Fair Packaging and Labeling Act

In the FEDERAL REGISTER of March 17, 1967 (32 F.R. 4172), the Food and Drug Administration proposed initial regulations in the implementation of the Fair Packaging and Labeling Act, and notice was given that when the Commissioner of Food and Drugs acted upon the proposal he would issue a statement of policy dealing with the orderly disposition of label stocks in inventory. In this issue of the FEDERAL REGISTER, the Commissioner has published an order acting upon the proposal of March 17, 1967, and accordingly said statement of policy is set forth below.

Therefore, under the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (sec. 701(a), 52 Stat. 1055; 21 U.S.C. 371(a)) and by the Fair Packaging and Labeling Act (secs. 4, 6, 80 Stat. 1297, 1299, 1300; 15 U.S.C. 1453, 1455), and delegated by him to the Commissioner (21 CFR 2.120), Part 3 is amended by adding thereto the following new section:

§ 3.57 Stocks of packages and labels not complying with section 4 of the Fair Packaging and Labeling Act.

(a) Implementation of the Fair Packaging and Labeling Act (Public Law 89–755) will require changes in the labels of many foods, drugs, and cosmetics now on the market. The law does not contemplate a disruption of legitimate business practices nor destruction of all stocks of labels and packages rendered not-in-compliance by the effective date of the regulations promulgated pursuant to that Act. Section 6 of the Fair Packaging and Labeling Act provides that "no regulation adopted under this Act shall preclude the continued use of returnable or reusable glass containers for beverages in inventory or with the trade as of the effective date of this Act, nor shall any regulation under this Act preclude the orderly disposal of packages in inventory or with the trade as of the effective date of such regulation." Section 13 provides that the promulgating authority may by regulation postpone the effective date of the Fair Packaging and Labeling Act for an additional 12-month period for classes or types of consumer commodities.

(b) In the order published in the FEDERAL REGISTER of July 21, 1967, it is stated that the effective date of that initial order covering food labels under the Fair Packaging and Labeling Act shall be December 31, 1967, for all new food packages, new label designs, and labels being reordered, and shall be July 1, 1968, for all food packages and labels being introduced into interstate commerce. Extensions for stocks of packages and labels beyond July 1, 1968, will be considered on an individual case basis and are grantable for good cause shown. Good cause would necessarily include a showing that:

(1) The stocks are in compliance with the present terms of the Federal Food, Drug, and Cosmetic Act and the regulations thereunder;

(2) Due diligence was expended in devising and obtaining labels and packages in compliance with the new regulations insofar as the facilities of the label and package manufacturers permit; and

(3) The stocks did not result from a deliberate attempt to overstock.

(Secs. 4, 6, 80 Stat. 1297, 1299, 1300, 15 U.S.C. 1453, 1455; sec. 701(a), 52 Stat. 1055, 21 U.S.C. 371(a))

Dated: July 17, 1967.

JAMES L. GODDARD,
Commissioner of Food and Drugs.

[F.R. Doc. 67–8463; Filed, July 20, 1967; 8:48 a.m.]

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 120—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Ammoniates

A petition (PP 6F0488) was filed with the Food and Drug Administration by the FMC Corp., Niagara Chemical Division, 100 Niagara Street, Middleport, N.Y. 14105, proposing the establishment of tolerances for residues of a fungicide that is a mixture of 5.2 parts by weight of ammoniates of [ethylenebis(dithiocarbamato)] zinc with 1 part by weight ethylenebis[dithiocarbamic acid] bimolecular and trimolecular cyclic anhydrosulfides and disulfides in or on the raw agricultural commodities cherries at 20 parts per million and apples, celery, cucumbers, melons, squash, and tomatoes at 7 parts per million.

Subsequently, the proposed tolerances regarding cherries, melons, and squash were withdrawn; the proposed tolerance regarding celery, cucumbers, and tomatoes was decreased to 5 parts per million; and a proposed tolerance of 5 parts per million for residues in or on cantaloups was added. Also, it was specified that the tolerances are to be calculated as zinc ethylenebisdithiocarbamate.

The Secretary of Agriculture has certified that this pesticide chemical is useful for the purposes for which tolerances are being established.

Based on consideration given the data submitted in the petition, and other relevant material, the Commissioner of Food and Drugs concludes that the tolerances established by this order will protect the public health. Therefore, by virtue of the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2)) and delegated by him to the Commissioner (21 CFR 2.120), Part 120 is amended as follows:

1. Section 120.3(e)(3) is amended by alphabetically inserting in the list of pesticides a new item, as follows:

§ 120.3 Tolerances for related pesticide chemicals.

(e) • • •

(3) • • •

Pesticide chemical	Limits (parts per million)	Expiration date
A mixture of 5.2 parts by weight of ammoniates of [ethylenebis (dithiocarbamato)] zinc with 1 part by weight ethylenebis [dithiocarbamic acid] bimolecular and trimolecular cyclic anhydrosulfides and disulfides.		
• • • • •		

2. A new section is added to Subpart C as follows:

§ 120.217 Ammoniates of [ethylenebis (dithiocarbamato)] zinc and ethylenebis [dithiocarbamic acid] bimolecular and trimolecular cyclic anhydrosulfides and disulfides; tolerances for residues.

Tolerances for residues of a fungicide that is a mixture of 5.2 parts by weight of ammoniates of [ethylenebis (dithiocarbamato)] zinc with 1 part by weight ethylenebis [dithiocarbamic acid] bimolecular and trimolecular cyclic anhydrosulfides and disulfides, calculated as zinc ethylenebisdithiocarbamate, in or on raw agricultural commodities are established as follows:

7 parts per million in or on apples.

5 parts per million in or on celery, cantaloups, cucumbers, tomatoes.

Any person who will be adversely affected by the foregoing order may at any time within 30 days from the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington, D.C. 20201, written objections thereto, preferably in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date. This order shall become effective on the date of its publication in the FEDERAL REGISTER.

(Sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2))

Dated: July 13, 1967.

J. K. KIRK,
Associate Commissioner for Compliance.

[F.R. Doc. 67–8461; Filed, July 20, 1967; 8:48 a.m.]

PART 121—FOOD ADDITIVES

Subpart C—Food Additives Permitted in the Feed and Drinking Water of Animals or for the Treatment of Food-Producing Animals

FURALTADONE

On the basis of new information, the Commissioner of Food and Drugs concludes that the food additive regulation providing for the safe use of furaltadone in the treatment of bovine mastitis by three instillations (each after a milking) should be amended to permit one to three installations instead since under certain circumstances less than three is adequate. Accordingly, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (secs. 409, 701(a), 52 Stat. 1055, 72 Stat. 1785; 21 U.S.C. 348, 371(a)) and under the authority delegated to the Commissioner by the Secretary of Health, Education, and Welfare (21 CFR 2.120), § 121.249(a)(2)(ii) is revised to read as follows:

§ 121.249 Food additives for use in milk-producing animals.

• • • • • •

(a) • • •

(2) • • •

(ii) Treat lactating cows with the contents of 15 milliliters in each infected quarter immediately after milking and allow to remain in the quarter until the next milking. Treatment may be repeated after each milking for a total of three instillations.

• • • • • •

This order, which provides for a change in the conditions of safe use for the subject food additive, is nonrestrictive in nature and presents no points of controversy; therefore, notice of proposed rule making is an unnecessary prerequisite to this promulgation.

Any person who will be adversely affected by the foregoing order may at any time within 30 days from the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington, D.C. 20201, written objections thereto, preferably in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date. This order shall become effective on the date of its publication in the FEDERAL REGISTER.

(Secs. 409, 701(a), 52 Stat. 1055, 72 Stat. 1785; 21 U.S.C. 348, 371(a))

Dated: July 13, 1967.

J. K. KIRK,
Associate Commissioner for Compliance.

[F.R. Doc. 67–8462; Filed, July 20, 1967; 8:48 a.m.]

PART 121—FOOD ADDITIVES

Subpart D—Food Additives Permitted in Food for Human Consumption

ION-EXCHANGE RESINS

The Commissioner of Food and Drugs, having evaluated the data in a petition (FAP 7A2105) filed by Dow Chemical Co., Biochemical Research Laboratory, 1803 Building, Midland, Mich. 48640, and other relevant material, has concluded that the food additive regulations should be amended to provide for the safe use of cross-linked epichlorohydrin ammonia resin in the purification of foods, including potable water. Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1)) and under the authority delegated to the Commissioner by the Secretary of Health, Education, and Welfare (21 CFR 2.120), § 121.1148(a) is amended by adding thereto a new subparagraph, as follows:

§ 121.1148 Ion-exchange resins.

• • • • • •

(a) • • •

(14) Epichlorohydrin cross-linked with ammonia.

• • • • • •

Any person who will be adversely affected by the foregoing order may at any time within 30 days from the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington, D.C. 20201, written objections thereto, preferably in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date. This order shall become effective on the date of its publication in the FEDERAL REGISTER.

(Sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1))

Dated: July 13, 1967.

J. K. KIRK,
Associate Commissioner for Compliance.

[F.R. Doc. 67–8463; Filed, July 20, 1967; 8:48 a.m.]

PART 121—FOOD ADDITIVES

Subpart D—Food Additives Permitted in Food for Human Consumption

ODORLESS LIGHT PETROLEUM HYDROCARBONS

The Commissioner of Food and Drugs, having evaluated the data in a petition (FAP 7A2176) filed by American Petroleum Institute, 1271 Avenue of the Americas, New York, N.Y. 10020, and other relevant material, has concluded that the food additive regulations should be amended to provide for the safe use of odorless light petroleum hydrocarbons as a protective coating for shell eggs. Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1)) and under the authority delegated to the Commissioner by the Secretary of Health, Education, and Welfare (21 CFR 2.120), § 121.1182(c) is amended by alphabetically inserting in the table a new item, as follows:

§ 121.1182 Odorless light petroleum hydrocarbons.

• • • • • •

(c) • • •

Use	Limitations
As a coating on shell eggs.	In an amount not to exceed good manufacturing practice.
• • •	• • •

Any person who will be adversely affected by the foregoing order may at any time within 30 days from the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington, D.C. 20201, written objections thereto, preferably in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date. This order shall become effective on the date of its publication in the FEDERAL REGISTER.

(Sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1))

Dated: July 13, 1967.

J. K. KIRK,
Associate Commissioner for Compliance.

Proposed Rule Making

DEPARTMENT OF AGRICULTURE

Consumer and Marketing Service

[7 CFR Part 1103]

[Docket No. AO-346-A3]

MILK IN MISSISSIPPI MARKETING AREA

Decision on Proposed Amendments to Tentative Marketing Agreement and to Order

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held at Jackson, Miss., on September 13, 1966, pursuant to notice thereof issued on August 18, 1966 (31 F.R. 11153).

Upon the basis of the evidence introduced at the hearing and the record thereof, the Administrator, Regulatory Programs, on May 12, 1967 (32 F.R. 7338; F.R. Doc. 67-5508) filed with the Hearing Clerk, U.S. Department of Agriculture, his recommended decision containing notice of the opportunity to file written exceptions thereto.

The material issues, findings and conclusions, rulings, and general findings of the recommended decision (32 F.R. 7338; F.R. Doc. 67-5508) are hereby approved and adopted and are set forth in full herein subject to the following modifications:

1. Under issue No. 2, Diversion provisions, the first and last paragraphs are revised and four new paragraphs are added.

2. Under issue No. 4, Classification of transfers from pool plants to nonpool plants, the first and last paragraphs are revised and a new paragraph is added.

The material issues on the record of the hearing relate to:

1. Qualifying standards for pool plants.
2. Diversion provisions and producer status of new dairy farmers entering the market.
3. Inventory classification.
4. Classification of transfers from pool plants to nonpool plants.
5. An appropriate Class I price level after October 1966.
6. Location differentials.

A decision concerning Issue 5 was issued October 28, 1966 (31 F.R. 14081), and an order effective December 1, 1966, was issued November 10, 1966 (31 F.R. 14586). Findings and conclusions on the remaining issues are included herein.

Findings and conclusions. The following findings and conclusions on the material Issues, 1 through 4, and 6, are based on evidence presented at the hearing and the record thereof:

1. *Qualifying standards for pool plants.* The four proposals made concerning standards for pooling distributing and supply plants are dealt with in the following findings and conclusions designated as (a), (b), and (c) under this issue.

(a) The pool plant definition should be amended to include receipts of Grade A milk from other plants, as well as from dairy farmers, as the basis for determining pool plant qualification of a distributing plant.

This method of defining pool distributing plants will make their regulated status depend on Class I utilization of at least 50 percent of all qualified Grade A receipts rather than Class I utilization of the plant in relation to receipts only from producers' farms. With this modification the pool plant definition will have a more uniform application among distributing plants which have varying proportions of receipts direct from producers and from other plants.

Another effect of the definition change is that it will accord pool status to several distributing plants which handle only milk received from pool plants. The effect on these plants will be minor, if any, since all milk they now handle is presently regulated by virtue of being received as transfers from regulated plants. Occasionally such a plant may have overage which would be assigned a value as part of the handler's obligation if the plant is pooled. Most of the route disposition of each of the plants which would become a pool plant is within the marketing area.

There was no objection on the record to extending full regulation to these plants. The proposal for the amendment was made by a group of cooperative associations including one operating a plant to be regulated. Cooperative associations expressed concern that the plants in question with most of their sales in the marketing area are presently treated as partially regulated distributing plants. As partially regulated distributing plants there would be a possibility that they could use milk from unregulated sources without accounting for its use in sales outside the regulated area.

Plants presently regulated would be unaffected by this change.

(b) No change should be made in the definition of supply plant or cooperative standby plant.

Amendments to the pool supply plant provisions were proposed to allow credit for Class I shipments outside the market as part of the qualification for pool status, and to allow cooperative standby plants to qualify in some months on the basis of prior performance. Under the first proposal a supply plant could qualify if half of the required shipments were to nonpool plants. With a total shipping requirement of 50 percent of the plant's receipts, as now provided in the order, the proposal would allow for shipment of up to 25 percent of receipts as Class I milk to nonpool plants to count toward qualification.

Under the second proposal, a cooperative association could maintain its plant in pool status during February through August if during each of the prior months of September through January 60 percent of the milk of its member producers had been delivered from farms to pool distributing plants.

One of the objectives of the proponents in this connection was to attain greater flexibility so as to take advantage of opportunities to make Class I sales outside the market. Such sales would be to the benefit of members, and of benefit to other producers if the sales were pooled.

Supply plant requirements, whether higher or lower than now in the order, must be related to the particular situation in the market. The essential purpose is to assure an adequate supply of milk for this fluid market. Once this objective is met, there is no restriction as to sales by the plant to other markets. But since sales outside the market are not a supply to the market, they cannot be used as a basis for qualifying a plant for pooling.

The record does not provide a basis to judge whether the percentage shipping requirement of pool supply plants or the monthly delivery requirements for a cooperative operating a standby plant should be modified. Since cooperatives operating standby plants normally have member milk moving to other handlers' pool plants each month, a performance requirement each month is a proper basis for qualifying such plants. Thus, to consider modification of requirements for cooperative standby plants would require evidence as to whether the present percentage requirement is too high or too low, and whether the percentage should vary seasonally.

(c) The pool distributing plant definition should not be amended to qualify distributing plants on the basis of a daily average of 1,000 pounds of route disposition in the marketing area.

A proprietary handler complained that the present pooling standard, 7,000 pounds daily of route disposition in the marketing area, permits partially regulated distributing plants to expand their operations in the regulated territory. He claimed that this represents an undue advantage to unregulated plants, allowing them to expand their sales in the marketing area to the detriment of fully regulated handlers.

There are partially regulated plants at Tupelo, Miss., and Tuscaloosa, Ala., with sales extending into the northern

part of the marketing area. The proponent regulated handler indicated he encountered competition from these two plants in route disposition and in milk procurement. These partially regulated handlers procure their supply outside of order sources. Other partially regulated plants with similar operations have sales areas in the southern part of the State. Total sales in the marketing area by such operators average less than 1 percent compared to Class I sales of regulated handlers.

The order affords certain alternatives to the operators of partially regulated distributing plants. One of these, based on what his obligation would be if fully regulated, requires payment into the producer-settlement fund of any excess of this amount over his payments made to Grade A dairy farmers. The other alternative is to make payments to the producer-settlement fund at the rate of the difference between the Class I price and the weighted average price on the quantity of route disposition in the marketing area less Class I milk the plant receives from pool plants.

These obligations placed upon partially regulated handlers reduce the advantage that they may have compared to regulated handlers. The provisions of the Mississippi order applicable to such handlers are similar to those used in most Federal orders.

Reducing the measure of sales in the marketing area to an average of 1,000 pounds daily would tend to bring about the full regulation of the plants now partially regulated which have their principal business outside the marketing area. The handler with a plant at Tupelo stated that his plant would become regulated on the basis of the 1.5 percent of his total route disposition which is in the marketing area. Data for other handlers similarly situated show that their route disposition in the marketing area is generally less than 2 percent of their total route disposition.

The sales in the marketing area by plants with milk supplies from nonorder sources thus is small relative to total sales of such handlers. Their sales in the area also represent a relatively minor portion of all marketing area sales.

The proposed change in the qualifying provision was opposed by producer associations supplying the market. They claimed that its adoption would result in regulation of plants not sufficiently identified with the market, and dissipate returns to producers by the addition of dairy farmers who do not constitute part of the regular market supply.

It is concluded that under current conditions the presence of some sales of nonorder milk in the market does not constitute sufficient threat to the stability of the market to require adoption of the proposal.

2. *Diversion provisions.* The order should be amended so that the diversion of producer milk to nonpool plants: (1) During the months of September through November will be limited to a quantity of milk not to exceed 30 percent of the producer milk physically received at pool plants; and (2) during the months of December through August will be limited to the milk of dairy farmers who held producer status during each of the 2 immediately preceding months or delivered at least 10 days production during each of the 2 months or a dairy farmer who began delivery in the current December–August period on a farm pickup route on which all other farmers qualified for diversion under the preceding conditions.

The order now allows diversion of a producer's milk on any day during December through August, subject to the proviso that the dairy farmer was a producer under the order for the entire 2 preceding months. During the months of September through November the present limit is 15 percent of producer milk physically received at pool plants. In the case of diversion by a cooperative the limitation applies as a percentage of member milk delivered to pool plants. In the case of diversions by a proprietary handler it applies as a percent of nonmember milk received at the handler's plant. An alternative provision on an individual producer basis allows diversion of 10 days of production.

Cooperative associations in the market proposed that the percentage limitation, as applied to diversions by cooperatives, should be increased to 30 percent. Proponent cooperatives are responsible for the marketing of most of the market's milk supply. This includes handling of reserve milk by diversion as well as directing the day-to-day supply to pool plants. Changes in the buying habits of consumers have resulted in changes of handlers' plant operations on certain days of the week. This has resulted in an increased volume of milk each weekend that must be moved to nonpool plants by handlers and cooperative associations for manufacturing purposes.

The efficient handling of the reserve supplies of milk under current marketing conditions requires greater flexibility than the order now provides. The proposal made by the cooperative associations to increase the amount of milk which may be diverted to 30 percent of producer milk received at pool plants should be adopted. The same percentage should apply in the case of diversion by proprietary handlers.

There is no percentage or quantity limit on diversions in the December through August period. Producers eligible for diversion, however, are only those who were producers for the entire 2 preceding months. Cooperative associations held that because additional flexibility in diversion is needed, the diversion privilege should apply to producers who held producer status 20 days in each of the 2 preceding months. While it is appropriate that a more flexible requirement be adopted, accounting for an individual farmer's producer status in terms of number of days may involve practical difficulties. For this reason the requirement is modified to apply in terms of days of delivery to pool plants. Delivery of 10 days' production in each of the prior 2 months as requested in producer exceptions should be sufficient to assure association with the market. The existing provision of producer status in the entire 2 preceding months is retained as an alternative. The provisions so modified will also tend to accommodate the handling of the milk of any diary farmer qualifying as a producer for the first time.

Exceptors requested that during the months of December through August the diversion privilege be applied only to the milk of dairy farms from which at least 10 days' milk production was delivered in each of the 2 immediately preceding months to pool plants. It was contended that such a requirement would not hamper the handling of the market's reserve supply but would more adequately meet present marketing conditions than the 8 day requirement of the recommended decision. The cooperative associations submitting exceptions handle most of the market's reserve supply. The requirement is reasonable as a method of assuring a producer's regular association with the market and should be adopted. The order provisions herein have been modified accordingly.

For the special case of a dairy farmer who began delivering milk during any of the months of December through August, diversion eligibility is provided. This provisions was specifically requested so that if the farmer was on a farm pickup route with other dairy farmers having diversion eligibility, the milk could be handled economically.

The order now does not provide for diversions to an other order plant. Under most other orders such a diversion by a Mississippi order handler would not be recognized; milk from a dairy farmer received directly at an other order plant would be producer milk under the order regulating the plant. However, as exceptors pointed out, it is far more efficient to divert reserve milk from the farm to a New Orleans pool plant for manufacturing than to accomplish the same end by first receiving the milk at a Mississippi order pool plant for transfer to the second plant. Such diversion provision was suggested on the record specifically as a convenience in handling reserve milk when it could thus be economically moved to an other order plant with manufacturing facilities.

There is no economic reason under the present circumstances to exclude diversion to an other order plant for Class II use. It is accordingly provided herein that diversion may be made to an other order plant for Class II use only. Such diversion privilege would apply whenever the other order permits receipts of such milk without claiming it as producer milk.

3. *Inventory classification.* Fluid milk products on hand in packaged form at the end of the month should be classified as Class I milk. Fluid milk products on hand at the end of the month in bulk form should continue to be classified as Class II.

This change in the handling of packaged product inventory will improve the order, accounting in several respects. Most of the month-end inventory of fluid milk products in packaged form will be used in the following month as Class I disposition. The amendment, therefore, would eliminate reclassification of such inventories of packaged products in the subsequent month. Further, this method will provide a basis for including as inventory all of the packaged fluid milk products held by the handler at the end of the month, whether in his processing plant or at other locations such as distribution points. The amendment will, therefore, provide a method of pricing such fluid milk products in the month in which disposed of by the handler, whether from his plant or from distribution points.

In the long run, the proposed technique will affect neither handlers' costs nor producers' returns. In the first month in which it is effective, it will increase handlers' costs by the difference between the Class I and Class II prices on the volume of packaged fluid milk products previously classified as Class II ending inventory. This amounts merely to establishing a Class I value at an earlier date for such products which would be entirely or very substantially valued at the Class I price in the succeeding month under existing order provisions.

To insure that all handlers pay the current month's Class I price for producer milk disposed of during the month, it is provided that if the Class I milk price increases over the previous month, the handler will be charged the difference between the Class I milk price for the current month and the Class I milk price for the preceding month on the quantity of packaged fluid milk products carried over as inventory. If the Class I milk price decreases, the handler will receive a credit.

The allocation section of the order should be amended to provide that inventory of such packaged fluid milk products on hand at the beginning of the month be subtracted from Class I milk utilization immediately after the allocation of shrinkage and packaged fluid milk products from other orders, and before making the other assignments therein provided. Except in unusual circumstances, this would result in assignment of all packaged inventory to Class I.

In the first month the amendment becomes effective, however, inventories of packaged fluid milk products on hand at the beginning of the month should be allocated to any available Class II utilization of the plant during the month. This is done because such products would be classified as Class II ending inventory in the month prior to the effective date of the amendment.

Ending inventory of bulk fluid milk products should continue to be Class II. Carrying bulk product inventory at a Class II value is merely an accounting procedure, and does not increase or decrease returns to producers over other classification. Generally this method would be expected to result in a minimum of reclassification charges.

4. *Classification of transfers from pool plants to nonpool plants.* The order should be amended to provide that milk transferred from a nonpool plant, which only assembles milk for reshipment, to a second nonpool plant may be classified in the same manner as milk transferred or diverted from a pool plant to a nonpool plant.

A proprietary handler who assembles small loads of milk at a nonpool receiving station for bulk movement to a second nonpool plant for manufacturing requested an amendment which would classify the milk as used in the second nonpool plant. In this case the first nonpool plant has holding tanks and cooling facilities, but does not otherwise process the milk. This type of handling is economical for assembling the milk of a number of producers located near the first plant for movement in large tank loads to the manufacturing plant.

The handler pointed out, however, that the order would classify the milk leaving the first nonpool plant as Class I, based on the form in which it leaves the plant. Thus the milk would be charged as Class I although its ultimate disposition is use for manufacturing in the second nonpool plant.

In this case the milk is not changed in form in the first nonpool plant, but is only assembled, cooled and reshipped. It is appropriate to allow the classification to depend on utilization in the second nonpool plant to which the milk is shipped, providing proper records are available at the second nonpool plant substantiating the class use.

The classification of transfers out of the first nonpool plant should be made in the same manner as under the provisions which now apply to transfers from a pool plant to a nonpool plant. In this case, applying the same provisions, the determination of classification would depend on total utilization at the second nonpool plant.

In exceptions the proponent stated that the order amendment in the recommended decision was too broad in that it would apply to shipments made by any type of nonpool plant. Exceptor indicated that the broader provisions would involve types of plants and milk handling not considered at the hearing.

Accordingly the provision is modified so as to apply only to milk transferred from a nonpool plant which has facilities only for receiving, assembling, or cooling.

6. *Location differentials.* The handler and producer location differentials should be changed to provide a single location adjustment of minus 16 cents per hundredweight in the two areas where minus adjustments of 10 and 26 cents now apply.

Producer cooperative associations requested that Class I and producer prices be at the same level throughout the entire marketing area, except in Harrison County where a 16-cent higher price would apply. Proponents asserted that the present differential pricing scheme is no longer necessary. They contended present location pricing tends to hinder the efficient movement of milk to locations where it is needed for Class I disposition.

The present location adjustment provisions were established at the inception of the Mississippi milk order effective May 1, 1963. The basic Class I price was established at the Gulf Coast locations of Gulfport and Pascagoula, and prices for other locations were established at differentials below such basic price. At locations in central Mississippi, the Class I price is 10 cents under the Gulf Coast locations. Similarly, for the former Delta order area the price is 26 cents per hundredweight under the Gulf Coast locations. This, in effect, continues the same geographic pricing pattern as existed under the prior separate orders.

The farms of producers in the southern half of the present Delta pricing area are so situated as to make it economically possible to deliver milk to either Delta or Central zone plants. Formerly, under the separate orders, a difference in the blend prices of the two orders provided an incentive to deliver milk to plants under the order with the less ample supply. Under the single order for both Central and Delta areas this incentive no longer exists. During 1963, for instance, which was the last full year in which separate orders applied in the Central Mississippi and Delta areas, the Delta order uniform price averaged 11 cents higher than the Central Mississippi order price. This was due to a higher utilization in Class I in the Delta area although the Class I price in Central Mississippi averaged 17 cents per hundredweight higher than the Delta Class I price.[1]

The present order, however, provides a uniform price 16 cents higher for delivery to a plant in the central zone than in the Delta area. For producers situated so as to be able to ship either way, there thus is incentive to ship to central zone plants rather than to Delta area plants. This has occurred without regard to need for milk supplies at the particular point of delivery and to the extent that some milk so delivered is returned to the Delta area.

The populated areas to be served within the marketing area are widely spread throughout the area. Slightly more than 40 percent of the total population of the Central and Delta areas is within the Delta area. Thus, the most economic delivery of milk to this portion of the market population is significant to an efficient marketing system.

Most of the milk for the market is produced within the marketing area. The heaviest concentration of the production is in the central portion of the area. Thus, for the purpose of meeting consumption requirements, there would not ordinarily be need to move considerable quantities of milk out of the Delta area into the Central area.

It is concluded that the present difference in prices between the Central and Delta areas is unnecessary and should be deleted.

The new location differential system, provided herein, is designed to produce the same average returns to producers

[1] Official notice is taken of published data for the Delta and Central Mississippi markets.

as under the existing system. This is accomplished by providing a location differential of minus 16 cents which will apply in the two areas where minus 10- and 26-cent differentials now apply.

One handler with plants at Grenada and Greenville objected to this change in the location pricing. He was concerned about the relationship of the Delta zone Class I price to the Class I price under the Memphis order. The action herein contemplated would increase the price at his plant locations 10 cents per hundredweight.

The nearest Memphis order plant is at Oxford, Miss. The Memphis Class I price adjusted to this location is 12 cents higher than at Memphis. During 1966 the Memphis Class I price at this location averaged $6.08, which is identical with the Mississippi order 1966 Class I price in the Delta area if adjusted as proposed herein.[1]

Also, if plants located at Memphis disposed of milk in Grenada or Greenville, they would incur transportation cost on such a movement. The distance to Grenada is about 97 miles and to Greenville about 136 miles. The cost of moving milk from Memphis to these points, at 1.5 cents per hundredweight per 10 miles would be about 15 and 21 cents, respectively.

Such transportation cost added to the Memphis order Class I price would make a total cost per hundredweight delivered to Grenada or Greenville 3 cents and 9 cents more, respectively, than the Mississippi order price under the proposed amendment.

It is concluded that the location differential provisions recommended herein will not impair the competitive relationship between Memphis and Mississippi handlers located in the northern part of the marketing area.

The proponent cooperative associations further requested that for the purpose of calculating location adjustment credit, transfers between pool plants should be assigned to Class I disposition at the transferee plant which is in excess of the sum of 95 percent of receipts at such plant from producers and receipts from a cooperative association as a bulk tank handler, plus the pounds assigned as Class I to receipts from other order plants and unregulated supply plants. The cooperatives requested that such Class I assignment should be made first to transferor plants at which no location adjustment credit is applicable and then in sequence beginning with the plant at which the least location adjustment would apply.

Proponents stated that not all of the producer milk at a pool plant is physically available for Class I due to normal plant loss and route returns which receive a Class II utilization.

Under the present application of location differential provisions, direct receipts of producer milk at the transferee plant are assigned to Class I before location adjustment is allowed on milk received as a transfer from other pool plants. The proposal to assign 95 percent rather than all of the direct receipts to Class I before allowing location adjustment on transfers recognizes that even under optimum management not all direct receipts could be used in Class I. In view of such circumstances the order should be amended to allow this increase in the amount of transferred milk on which transportation credit may apply.

Rulings on proposed findings and conclusions. Briefs and proposed findings and conclusions were filed on behalf of certain interested parties. These briefs, proposed findings and conclusions and the evidence in the record were considered in making the findings and conclusions set forth above. To the extent that the suggested findings and conclusions filed by interested parties are inconsistent with the findings and conclusions set forth herein, the requests to make such findings or reach such conclusions are denied for the reasons previously stated in this decision.

General findings. The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) The tentative marketing agreement and the order, as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(b) The parity prices of milk as determined pursuant to section 2 of the Act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the proposed marketing agreement and the order, as hereby proposed to be amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The tentative marketing agreement and the order, as hereby proposed to be amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

Rulings on exceptions. In arriving at the findings and conclusions, and the regulatory provisions of this decision, each of the exceptions received was carefully and fully considered in conjunction with the record evidence pertaining thereto. To the extent that the findings and conclusions, and the regulatory provisions of this decision are at variance with any of the exceptions, such exceptions are hereby overruled for the reasons previously stated in this decision.

Marketing agreement and order. Annexed hereto and made a part hereof are two documents entitled respectively, "Marketing Agreement Regulating the Handling of Milk in the Mississippi Marketing Area", and "Order Amending the Order Regulating the Handling of Milk in the Mississippi Marketing Area", which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions.

It is hereby ordered, That all of this decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the order as hereby proposed to be amended by the attached order which will be published with this decision.

Determination of representative period. The month of April 1967 is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of the attached order, as amended and as hereby proposed to be amended, regulating the handling of milk in the Mississippi marketing area, is approved or favored by producers, as defined under the terms of the order, as amended and as hereby proposed to be amended, and who, during such representative period, were engaged in the production of milk for sale within the aforesaid marketing area.

Signed at Washington, D.C., on July 17, 1967.

ORVILLE L. FREEMAN,
Secretary.

Order[1] Amending the Order Regulating the Handling of Milk in the Mississippi Marketing Area

§ 1103.0 Findings and determinations.

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the Mississippi marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk, as determined pursuant to section 2 of the Act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order as hereby amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the handling of milk in the Mississippi marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended and as hereby further amended, as follows:

The provisions of the proposed marketing agreement and order amending the order contained in the recommended decision issued by the Administrator, Regulatory Programs, on May 12, 1967, and published in the FEDERAL REGISTER on May 17, 1967 (32 F.R. 7338; F.R. Doc. 67-5508), shall be and are the terms and provisions of this order, and are set forth in full herein subject to the following revisions:

1. Under § 1103.15 paragraphs (b), (c), (d) and (e) are revised.

2. Under § 1103.44, the introductory text and paragraphs (c) and (d) are revised.

1. Section 1103.11(a) is revised to read as follows:

§ 1103.11 Pool plant.

* * * * * * *

(a) A distributing plant, other than that of a producer-handler or one described in § 1103.61, from which during the month route disposition of fluid milk products is not less than 50 percent of its total receipts of Grade A milk and the volume so disposed of in the marketing area is at least 20 percent of the total route disposition of fluid milk products or a daily average during the month of 7,000 pounds, whichever is less; * * *

* * * * * * *

2. In § 1103.15, paragraphs (b), (c), (d) and (e) are revised to read as follows:

§ 1103.15 Producer.

(b) Diverted to a nonpool plant(s) (except that diversion to an other order plant shall be limited to Class II use) by the operator of a pool plant or by a cooperative association as a handler pursuant to § 1103.13(c) during any of the months of December through August: *Provided*, That this diversion privilege shall be applicable only to the milk of those dairy farmers whose milk was delivered for 10 days of production during each of the 2 immediately preceding months to pool plants, or who held producer status throughout the entire 2 immediately preceding months, or a dairy farmer who does not meet these qualifications but has made a delivery of milk to a pool plant during the current December-August period on a farm pickup route on which all other dairy farmers on such route have diversion eligibility on the basis of the preceding provisions of this paragraph; except that only for the purpose of determining eligibility for diversion during any month of December through August a dairy farmer who was in noncompliance with the Grade A requirements of a duly constituted health authority during any part of the 2 immediately preceding months shall be considered to have maintained producer status during the period of such noncompliance;

(c) Diverted to a nonpool plant(s) (except that diversion to an other order plant shall be limited to Class II use) for not more than 10 days' production during any month of September through November except that this paragraph shall not be applicable if: (1) In the case of a cooperative association all of the diversion of milk of member producers by such cooperative association during the month fall within the limits prescribed in paragraph (d) of this section, or (2) in the case of a pool handler (other than a cooperative association) diverting milk of nonmember producers, all of such diversions from such plant fall within the limits prescribed in paragraph (e) of this section;

(d) Diverted during any month of September through November to a nonpool plant(s) (except that diversion to an other order plant shall be limited to Class II use) as milk of a member of a cooperative association for the account of such association if the amount of milk so diverted does not exceed 30 percent of the volume of Grade A milk from all producer members of such cooperative association received at pool plants during such month; or

(e) Diverted during any month of September through November to a nonpool plant(s) (except that diversion to an other order plant shall be limited to Class II use) of a producer who is not a member of a cooperative association, for the account of a handler in his capacity as the operator of a pool plant from which the quantity of milk of nonmember producers so diverted does not exceed 30 percent of the total Grade A receipts of milk at such plant from nonmember producers.

* * * * * *

3. Section 1103.30(a)(1)(iv) is revised to read as follows:

§ 1103.30 Reports of receipts and utilization.

(a) * * *

(1) * * *

(iv) Inventories of fluid milk products on hand at the beginning and end of the month, separately in bulk and in packaged form;

* * * * * * *

4. In § 1103.41, paragraphs (a) and (b)(4) are revised to read as follows:

§ 1103.41 Classes of utilization.

* * * * * * *

(a) *Class I milk.* Class I milk shall be all skim milk and butterfat.

(1) Disposed of in the form of fluid milk products, except those classified pursuant to paragraph (b) (2) and (3) of this section;

(2) In inventory of fluid milk products in packaged form on hand at the end of the month; and

(3) Not accounted for as Class II milk; and

(b) * * *

(4) Contained in inventories of bulk fluid milk products on hand at the end of the month;

* * * * * * *

5. In § 1103.44(c), the introductory text of subparagraph (3) of this paragraph and provision (a) of subdivision (iv) of subparagraph (3) of this paragraph are revised and a new subparagraph (4) is added as follows:

§ 1103.44 Transfers.

* * * * * *

(c) * * *

(3) The skim milk and butterfat so transferred or diverted shall be classified on the basis of the following assignment of utilization at such nonpool plant in excess of receipts of packaged fluid milk products from all pool plants and other order plants.

* * * * * *

(iv) * * *

(a) Determine the skim milk and butterfat, respectively, in Class II (as defined pursuant to § 1103.41(b)(1)) at such nonpool plant during the month, subject to the conditions of subparagraph (4) of this paragraph.

* * * * * *

(4) Skim milk and butterfat disposed of from a nonpool plant, which has facilities only for receiving, assembling, or cooling milk, to a second nonpool plant (except to a producer-handler plant) located not more than 200 miles by the shortest hard-surfaced highway distance as determined by the market administrator from the nearest of the New State Capitol in Jackson or the County Courthouse in Columbus, Gulfport, or Meridian, Miss., shall be classified in the same manner as a transfer from a pool plant to a nonpool plant. The operator of the second nonpool plant shall maintain books and records which are adequate for verification of the Class II utilization claimed and are made

[1] Official notice is taken of Class I price announcements by the Market Administrator of orders No. 108 and 97 for the months of October 1966 through January 1967.

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders have been met.

available to the market administrator upon request; and

• • • • •

5-a. In § 1103.44(d), the introductory text and subparagraphs (2) and (3) of this paragraph are revised as follows:

§ 1103.44 Transfers.

• • • • •

(d) As follows, if transferred or diverted (pursuant to § 1103.15), to an other order plant in excess of receipts from such plant in the same category as described in subparagraphs (1), (2), or (3) of this paragraph:

• • • • •

(2) If transferred or diverted in bulk form, classification shall be in the classes to which allocated as a fluid milk product under the other order (including allocation under the conditions set forth in subparagraph (3) of this paragraph);

(3) If the operators of both the transferor and the transferee plants so request in the reports of receipts and utilization filed with their respective market administrators, transfers or diversions in bulk form shall be classified as Class II to the extent of the Class II utilization (or comparable utilization under such other order) available for such assignment pursuant to the allocation provisions of the transferee order;

• • • • •

6. In § 1103.46(a), a new subparagraph (2–a) is added immediately following subparagraph (2) and subparagraph (5) is revised, all of which to read as follows:

§ 1103.46 Allocation of skim milk and butterfat classified.

• • • • •

(a) • • •

(2–a) Except for the first month this order amendment is effective, subtract from the remaining pounds of skim milk in Class I milk, the pounds of skim milk in inventory of fluid milk products in packaged form on hand at the beginning of the month;

• • • • •

(5) Subtract from the pounds of skim milk remaining in each class, in series beginning with Class II, the pounds of skim milk in inventory of bulk fluid milk products (and for the first month this order amendment is effective, the pounds of fluid milk products in packaged form) on hand at the beginning of the month;

• • • • •

7. Section 1103.53 is revised to read as follows:

§ 1103.53 Location differential to handlers.

(a) For that milk which is received from producers at a pool plant or at such plant from a cooperative association as a handler pursuant to § 1103.13 (d) and classified as Class I milk or assigned Class I location adjustment credit pursuant to paragraph (b) of this section and for other source milk for which a location adjustment is applicable, the price specified in § 1103.51(a) shall be reduced at the following rates (where mileage determinations are applicable these distances shall be determined by the market administrator by applying the shortest hard-surfaced highway distance open to commercial truck traffic):

Location:	Rate per hundredweight (cents)
(1) For milk received at a pool plant located in the Mississippi marketing area except that part in Harrison County	16.0
(2) For milk received at a pool plant located outside the marketing area, and:	
(i) More than 60 but not more than 160 miles from the courthouse in Gulfport, or Pascagoula, Miss., whichever is nearer	10.0
(ii) For each additional 10 miles or fraction thereof, an additional	1.5

(b) For purposes of calculating such adjustment, transfers between pool plants shall be assigned Class I disposition at the transferee plant, in excess of the sum of 95 percent of receipts at such plant from producers and receipts from a cooperative association in its capacity as a handler pursuant to § 1103.13 (d) and the pounds assigned as Class I to receipts from other order plants and unregulated supply plants, such assignment to be made first to transferor plants at which no location adjustment credit is applicable and then in sequence beginning with the plant at which the least location adjustment would apply.

8. In § 1103.70, a new paragraph (c–1) is added immediately following paragraph (c) to read as follows:

§ 1103.70 Computation of the net pool obligation of each pool handler.

• • • • •

(c–1) Add an amount determined by multiplying the difference between the Class I price for the preceding month, and the Class I price for the current month by the hundredweight of skim milk and butterfat subtracted from Class I pursuant to § 1103.46(a) (2–a) and the corresponding step of § 1103.46(b). If the Class I price for the current month is less than the Class I price for the preceding month, the result shall be a minus amount;

• • • • •

[7 CFR Part 1125]

[Docket No. AO 226–A18]

MILK IN PUGET SOUND, WASH., MARKETING AREA

Notice of Hearing on Proposed Amendments to Tentative Marketing Agreement and Order

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of a public hearing to be held at the Banquet Hall, Norway Center (Norselander Restaurant), 300 Third Avenue West, Seattle, Wash. 98119, on July 27, 1967, beginning at 9:30 a.m., local time, with respect to proposed amendments to the tentative marketing agreement and to the order, regulating the handling of milk in the Puget Sound, Wash., marketing area.

The public hearing is for the purpose of receiving evidence with respect to the economic marketing conditions which relate to the proposed amendments, hereinafter set forth, and any appropriate modification thereof, to the tentative marketing agreement and to the order.

The adoption of this proposal might result in the regulation of plants, heretofore not regulated, which dispose of fluid milk products containing vegetable fats and solids-not-fat derived from milk.

The proposed amendments, set forth below, have not received the approval of the Secretary of Agriculture.

Proposed by United Dairymen's Association, Cow Milkers' Association and Elma Milk Producers Association:

Proposal No. 1. In § 1125.15 revise paragraph (a) to read as follows:

§ 1125.15 Fluid milk product.

• • • • •

(a) Milk, skim milk, skim milk drinks, buttermilk, flavored milk, flavored milk drinks, and fluid products containing solids-not-fat derived from milk and vegetable fats (including all such products reconstituted or fortified with additional nonfat milk solids);

• • • • •

Proposed by Dairy Division, Consumer and Marketing Service:

Proposal No. 2. Make such changes as may be necessary to make the entire marketing agreement and the order conform with any amendments thereto that may result from this hearing.

Copies of this notice of hearing and the order may be procured from the Market Administrator Nicholas L. Keyock, 16 West Harrison Street, Seattle, Wash. 98119, or from the Hearing Clerk, Room 112–A, Administration Building, U.S. Department of Agriculture, Washington, D.C. 20250, or may be there inspected.

Signed at Washington, D.C., on July 17, 1967.

CLARENCE H. GIRARD,
Deputy Administrator,
Regulatory Programs.

[7 CFR Part 1125]

[Docket No. AO 226–A14]

MILK IN PUGET SOUND, WASH., MARKETING AREA

Decision on Proposed Amendments to Tentative Marketing Agreement and Order

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held at Seattle, Wash., on August 23–27, 1966, pursuant to notice thereof issued on August 10, 1966 (31 F.R. 10847).

Upon the basis of the evidence introduced at the hearing and the record thereof, the Deputy Administrator, Regulatory Programs, Consumer and Marketing Service, on April 7, 1967 (32 F.R. 5838; F.R. Doc. 67–3986), filed with the Hearing Clerk, U.S. Department of Agriculture, his recommended decision containing notice of opportunity to file written exceptions thereto.

The material issues, findings and conclusions, rulings, and general findings of the recommended decision (32 F.R. 5838; F.R. Doc. 67–3986) are hereby approved, adopted and are set forth in full herein, subject to the following modifications:

1. Under issue No. 2 "Determination of Class I bases for producers" subtitle "(a) Determination of Class I base" is deleted.

2. Under subissue (1) "For existing producers", changes are made in the first, second, and fifth paragraphs, and four new paragraphs are added following the fifth paragraph.

3. Under subissue (2) "For 'new' producers", a new paragraph is added following the ninth paragraph.

4. Under issue No. 3 "Incorporation of producer-handlers in the Class I base plan", changes are made in the first, 11th and 12th paragraphs, paragraphs 13th through 17th are deleted, and five new paragraphs are substituted therefor.

5. Under issue 4(a) "Transfers", the eighth paragraph is deleted, and a new paragraph substituted therefor.

6. Under issue No. 4(b) "Forfeitures", the first paragraph and the subtitle "Failure to deliver" in the second paragraph are deleted.

7. Under issue No. 5, "Provisions for alleviation of hardship and inequity", changes are made in the seventh, ninth, 10th and 11th paragraphs.

The material issues on the record of the hearing relate to:

1. The adoption of a Class I base plan;
2. Determination of Class I bases for existing producers and new producers;
3. Incorporation of producer-handlers in the Class I Base Plan.
4. Base rules with respect to:
   (a) Transfers,
   (b) Forfeitures,
   (c) Antidumping provisions,
   (d) General rules.
5. Provision for hardship and inequities.
6. Payments on other source milk:
7. Miscellaneous provisions.
   (a) Revision of excess milk location differential at District 1 pool plants; and
   (b) Continuing provisions in event of lack of approval or expiration of authority.

Findings and conclusions. The following findings and conclusions on the material issues are based on evidence presented at the hearing and the record thereof:

1. *The adoption of a Class I base plan.* Producers supplying plants regulated by the Puget Sound order should be given opportunity to decide whether returns from the sale of their milk will be apportioned among producers through a Class I base plan.

Returns to Puget Sound producers have since the effective date of the order (1951) been distributed through a "seasonal" base plan. Under this plan each producer establishes a "base" by the average of his deliveries (120 days or more) during the months of August through December of each year. For the following 12 months beginning with February he is paid a base milk price for deliveries not in excess of his base and a lower (excess) price for deliveries in excess of his base. Producers entering the market without a base are paid the base milk price for a specified portion of their current deliveries (varied seasonally from 45 to 70 percent).

The proportion of base milk used in Class I has steadily declined from a high of 86.6 percent in 1952 to 49.1 percent in 1965. While the total volume of Class I use increased 25.7 percent from 1952 to 1965, deliveries of base milk increased 121.4 percent, almost five times as rapidly. An increasing proportion of the base milk delivered by producers has been used for manufactured dairy products and valued at the Class II price. As a consequence the price for base milk has steadily declined relative to the Class I price. In 1952, the base price averaged 23 cents per hundredweight less than the Class I price; in 1965 it averaged 88 cents less.

Producers claim that under the present system, a producer can only maintain his relative share of the higher priced Class I sales of the market by maintaining or increasing his base each year; that as a consequence a "race for base" has developed in which an individual producer must produce increasing quantities of milk for Class II use in order to protect his share of income from Class I milk.

Amendments to the Agricultural Marketing Agreement Act by Public Law 89–321 (Food and Agriculture Act of 1965), effective only through December 1969, are designed to remove the necessity for dairymen to produce surplus milk in order to preserve their individual participation in the markets for milk for fluid consumption. Under these amendments, base forming periods need not be limited to 1 year, marketings during such periods may be adjusted to reflect sales in any use classification or classifications, and producers holding bases so adjusted will not have their history of production and marketing adversely affected for the computation of future bases if they reduce their production. Incorporation of these provisions in an order must be separately approved by producers in a referendum in which each individual producer shall have one vote. Disapproval of such order provisions does not affect other terms of the order.

Producers in the Puget Sound market formed a Class I base plan committee which developed proposed provisions designed to operate under the new authority. The committee was composed of representatives of cooperative associations, general farm organizations and nonmember producers. In developing its proposal it held producer meetings to determine producer sentiment concerning the plan generally and specific provisions to be included in it. Detailed findings concerning the principal elements of this proposal are contained elsewhere in the decision. We are here concerned only with whether or not any such provisions should be adopted for the Puget Sound order if approved by producers in accordance with the terms of the statute. A statutory objective of the authority for use of Class I base plan is that such a plan "seeks to reduce surplus milk production and stabilize the income of dairy farmers in * * * Federal milk order areas by removing the necessity for dairymen to produce surplus milk in order to preserve their individual participation in the markets for milk for fluid consumption" (Conference Report No. 1122, on Food and Agriculture Act of 1965, Oct. 6, 1965).

The substantial quantity of producer milk in excess of the Class I needs of the Puget Sound market appears to be the type of situation which Congress believed could be remedied by effectuation of a Class I Base Plan. Under it each producer is given a more definite basis for making a choice as to whether he will produce milk that he knows will return him the Class II or manufacturing milk price. There was conflicting testimony in the record concerning the need for substantial surplus in the market before use of a Class I base plan could be authorized. The question of authority need not be determined, however, to find that the plan can be expected to have the greatest effect in markets with substantial surplus such as now prevails in the Puget Sound market.

It is concluded that the plan hereinafter set forth should be submitted to Puget Sound producers for their approval.

2. *Determination of Class I bases for producers.* For purposes of this decision "production history base" means a daily quantity of milk delivered by a producer during a representative period which is used as such producer's production history; "Class I base" means a production history base modified in relation to Class I sales in the market so as to represent the producer's daily share of the Class I market plus appropriate reserves. It represents the maximum daily quantity of milk for which the producer may receive the base milk price.

(1) *For existing producers.* Each producer who delivered milk 120 days or more during August–December 1966 will have a production history base computed at the highest of such producer's daily average production in each of the August–December periods of 1964, 1965, or 1966 during which the producer delivered producer milk under the order on 120 days or more.

The production history bases so established for producers delivering milk in May 1967 shall be adjusted uniformly so that their total will equal 120 percent of the average daily Class I disposition of pool milk by regulated handlers during

the calendar year 1966. Deliveries within the Class I bases so computed will be those for which existing producers may receive a base price; deliveries in excess thereof (in daily average per month) will be paid for at the excess milk price.

Neither the production history base nor the Class I base should be subject to adjustment for either changes in production of the producer or for changes in the volume of Class I sales of the market.

The Puget Sound Class I Base Plan Committee proposed in the notice of hearing, and advocated at the hearing, a plan wherein production history bases and Class I bases of existing producers would be determined from the higher of such producers' bases effective February 1, 1965, or February 1, 1966, adjusted to equal 1965 daily average Class I sales for the market. This plan was developed early in 1966 with expectation that order amendment might be possible before new bases were formed in August–December 1966, or 1966 daily average Class I sales were available for use. Under this proposal, production history bases would be frozen at the level first determined; "Class I bases", however, would be adjusted annually to the level of the daily average Class I sales of the preceding year. In making this adjustment it was proposed to include in the computation production history bases for "new" producers based on their deliveries of milk in August–December periods different from those used to establish the production history bases of existing producers.

The August–December periods from which production history bases will be computed are the periods of each year under which producers establish annual bases under present order provisions. They are accepted in the market as the period of year that may be considered representative of a producer's production capacity. Use of the highest average daily delivery of the August–December periods of 1964, 1965, or 1966 will eliminate many claims for hardship based upon events of a single year. Use of the 1966 August–December period will avoid necessity for special provisions for producers of "factory milk" forced to convert to Grade A production without opportunity to make deliveries in either August–December 1964 or 1965. In each of the past 2 years 45 or 46 new producers have entered the market. Since September 1965, the last month in which a new producer could have entered the market and have been issued a base effective February 1966, 27 new producers had entered the market through June 1966. Use of the 1966 August–December period will provide the maximum number of existing producers with opportunity to have production history bases determined at their average daily deliveries in an August–December period. The requirement that a producer shall have delivered 120 days or more in this period of 1966 and be delivering in May 1967 will restrict issuance of Class I bases to producers with recent production history who are currently serving the market.

On the basis of numerous exceptions received from individual producers, as well as those received from the Class I Base Plan Committee, the provisions proposed in the recommended decision have been modified to recognize the position of producers who are now producing milk on farms from which milk was delivered by another person in August–December 1966 and who are delivering their milk under the current seasonal base transferred from the former producer as a base transfer under the present order. As modified, the producer currently supplying the market under these conditions will have the production history base made on the farm in 1966 available for computation of his Class I base and no Class I base will be computed for the former producer.

Another minor variation will recognize that the production history made as a producer-handler by a person who has since become a producer should be used in computation of his Class I base.

The month of May 1967, rather than the month preceding effective date of the plan, is specified as the required period of current delivery to determine the procedures who will have Class I bases computed from their production history. This permits each producer to know his Class I base before any deliveries are made under it.

In practice the daily Class I base is translated into a monthly limit on the amount of a producer's deliveries that may be paid for at the base milk price. In the recommended decision it was proposed that this be done by use of the number of days of production delivered by each producer. It is concluded that this method should apply to only those producers delivering milk for part of a month. For all other producers, base milk should be the quantity delivered that does not exceed his Class I base multiplied by the number of days of the month. The comparison of Class I sales with those of 1966 is made for the number of days of the month. The revised method will greatly simplify the necessary pool computations without affecting a producer's returns over a period of months.

It is concluded elsewhere in this decision that producers without a history of production on the market as of the effective date of the Class I base plan shall participate in the benefits of Class I sales of the market only as there are increased Class I sales. Since the statute authorizing a Class I base plan provides that any increase in Class I sales should first be assigned to such producers (and to the alleviation of hardship and inequity among producers) any such increase must be reserved for this purpose and accordingly is not available for assignment to existing producers as proposed by the committee. Existing producers will, however, benefit through an increase in their base and excess price from any increase in Class I sales greater than that needed to satisfy the prior claims of new producers and hardship cases. While it would be feasible to adjust the Class I bases of existing producers for any decrease in sales, this is not considered necessary for the limited period for which the Class I base plans are authorized.

The principal controversy at the hearing with respect to computations of Class I bases was with reference to the inclusion of a reserve of 20 percent over the daily average Class I sales volume. A number of individual producers wanted Class I bases established without any reserve so that the base price would be the Class I price unless there was a decrease in sales. There are fluctuations in both supplies and sales, so that if bases contained no provision for reserve there inevitably would be days in which excess milk would have to be used for Class I purposes. If Class I base holders are to be given the prior claim provided herein on Class I sales assigned to producer milk, they should be expected to deliver milk in accordance with the daily needs of the market for Class I use. The only way this can be encouraged is by the inclusion of some reasonable reserve in adjusting bases to Class I sales. The 20 precent proposed is a reasonable amount for this purpose. The provisions for prior assignment of actual Class I sales are such as to make allowance for the reserve so included, so that it does not interfere with assignment of any sales increases to new producers and hardship cases.

The "freezing" of the history of production of each existing producer, and the Class I base computed from such history and 1966 average Class I sales of the market provides little opportunity for such producers to further adjust their production to changing needs of the market. Producers proposed that history of production should be frozen at a level determined by deliveries prior to the effective date of a Class I base plan: The elimination of the periodic adjustment to Class I sales is apparently required in providing prior claims to any increased sales for "new" producers who would thus never have an opportunity to develop a history of deliveries in a representative period the same as that used for existing producers and for "hardship cases." In view of the limited period for which the plan may be effective under present legislative authority, it is concluded that rigidities involved in the frozen production history and "Class I" bases will not be so serious as to require the plan to contain opportunity for existing producers to have both production history bases and Class I bases redetermined periodically, subject to the statutory provision that reduction of deliveries would not adversely affect the history of production used for computing such future bases.

In addition to producers supplying plants presently regulated, provision should be made for computing bases for dairymen supplying a plant that hereafter becomes a pool plant fully regulated by the order, if they delivered Grade A milk to such plant in the August–December period in 1966.

If a plant has regularly received Grade A milk from dairy farms without regulation of the Puget Sound order, it has evidently done so to supply Class I outlets outside the marketing area. To achieve pool plant status such a plant must now dispose of specified percentages of its Grade A receipts on routes in the marketing area or to other pool plants. It is to be expected that when such a plant becomes a pool plant, it will add Class I sales to the pool proportionate to its receipts of Grade A milk in prior periods when it operated as a nonpool plant.

It is appropriate therefore that those dairymen who supplied Grade A milk to such plant in the periods which determine the production history bases of existing producers should have production history bases computed from such deliveries if they are supplying the plant when it becomes a pool plant. The production history bases so computed should be adjusted to Class I base by the percentage used in adjusting the production history bases of existing producers.

The proponents proposed that this procedure be applicable only if the plant became a pool plant by amendment of the order. For the reasons stated above it should apply whenever a plant not now regulated becomes a pool plant.

(2) *For "new" producers.* A producer who did not deliver milk for at least 120 days in August–December of 1966, or who begins deliveries of milk after the effective date of the Class I base provisions (a "new" producer) will not establish either a production history base or a Class I base. Instead such a producer will share in Class I sales of the market only if such sales during the month exceed those of the comparable month of 1966. The extent to which any such "new" producer may share with other such producers in any increased Class I sales will be determined by his deliveries during the current month and the amount of increased Class I sales in comparison with total new producer deliveries and adjustment to existing producers to alleviate hardship.

The Puget Sound Class I Base Plan Committee proposed that producers for whom production history bases and Class I bases could not be computed as for existing producers should develop a base history by their deliveries in four successive August–December periods. Until the February following 120 days deliveries in each of two such periods, they proposed that the producer be paid on a portion of his current month's deliveries equal to one-fourth of the percentage used in adjusting daily bases of existing producers. Thereafter, the "new" producer would have a daily base in successive years, equal to 50, 75, and 100 percent of his average daily deliveries in these base-making periods.

The production history bases so established for new producers as of February 1 of each year would have first been adjusted by the percentage applied to such bases of existing producers the preceding year. The total of Class I bases would then have been adjusted to 120 percent of daily average Class I utilization in the preceding year, if such total varied from such utilization by more than 1 percent. By treating the bases (or partial bases) established for new producers equally with old producers, increases in Class I utilization from the preceding year would first be assigned to such bases before any assignment to bases of existing producers; new producers would receive Class I bases determined from their bases or partial bases the same as old producers whether or not any increase in Class I utilization had occurred.

The principal testimony in opposition to the proposals for new producers related to the period of time required for a new producer to establish a "100 percent" base, and the opportunity for a new producer to establish any base higher than the 1,450 pound present average base of existing producers. Some witnesses thought the provisions required to establish 100 percent base too restrictive, and other witnesses believed new producers should be limited to bases no higher than the average of old producers.

It is extremely doubtful, however, if the 1965 amendments to the Act provide for the diverse representative periods for establishing production history presented by the proposals of the Base Plan Committee for existing producers and for new producers to be used at the same time for apportioning the value of milk among producers. The Act apparently provides that, as of any given time, only a single representative period should apply.
